Good morning to you all

**1395th Tianxin Garden is all night sincere**

**Summary**

Mother told me to fulfill this Tenshingen Shuri with perfect diligence. If the integrity is not perfect, it becomes Satan's condition of lawsuit and is responsible for decline. And when he prayed in the Garden of Gethsemane, Jesus was praying for his life, but the disciples fell asleep and could not offer perfection. So Satan broke in and Jesus went to the cross. If all churches would devote themselves to perfection, we could open up a time where the Heavenly Father is present and reigns.

Chairman Tomihiro Tanaka received a lot of applause today. Chairman Tanaka was standing in court as a representative of the church in Japan on 9/17 at the same time your mother was being interrogated. As a mother country, I went through hardships with my mother. If God Japan is a mother country and prays

with a heart united with your mother, miracles will happen in God Japan. By going through the hardships with the same heart as your mother, the righteous is rising like a miracle. If all the leaders of God Japan become one with Holy Mother Han, they will surely win.

**Noble Sutra**

"What you need is prayer and devotion. Teachers believe that prayer is the most powerful thing. "Because we can make the impossible possible." "Sometimes difficult problems must be solved through prayer." Why we do prayer. Prayer is centered on God's emotional standard and connecting relationships. When we are truly concerned for our country about a problem, and pray with a concerned heart for God, God will surely teach us what is good. "We who believe in this word and pray shall surely triumph." For we are a people of prayer.

**Heavenly message given at prayer yesterday**

"Times are not always. Don't miss this time. There are tens of thousands of wars between good and evil in the underworld in one second above earth. At this time when your integrity matters even more. When I'm going up to the spirit world, I'm going to make things proudly and talk about what I did to protect my mother. When will I make things now? We've all already told you what ways to protect your mother, but what do you do without even doing it? Later on, when you go to the spirit world, you will sigh. Be dignified and diligent and protect your mother, that is the call of love. The spirit world has a big grudge for not being able to protect your mother. Only through earthly people can the grudge be resolved. If you have an elder or acquaintance family you respect in the spirit world, give a command to each one of them. They also want to serve. In order for one absolute good spirit to do greater role, earthly people should be accurately detailed and prayed. If I want to give an example, ""President Pak"" America is still unable to protect her

even though she made this achievement to come back to America. President Pak, please serve in the Wako. Do your part so that America can protect your mother by them. Just as you transmitted True Parents Only in English, so now throughout America, please serve as a strong foundation for America to protect Mothers. "\

Chairman Shuki Kubogi, Mama Matsumoto, Caleb, Sejong Daio, how many historical spirits of righteous people who blessed the discharge when we were on earth? Name the core spirits whom you have blessed, and pray that they may serve you. ""O spirit whom I lifted and blessed when I was at the weekend training session, if your name is mercy, do it this way so that I can protect your mother now." "Try shouting. This era is an important time, so even with a bit of sincerity, absolute good spirits will do the job. Some people have good ancestors, so they should give commandments to their ancestors. ""Our ancestors before the hereditary age, please help us."" I'm teaching you all how to command the spirit world. The objective must be accurate with all sincerity It is good to make sure that you clearly declare your purpose before heaven what you are wishing for. "If it is called a prayer, 'How many times will you call this person before heaven for how many days from today, hoping that he will become like this. Heaven, please hold this man as an officer.』 and pray. If you don't know what to do, ask your true father directly. ""Father, how many days shall I devote myself to protect Holy Mother Han's true Mother?"" And I will teach you instantly.

Don't miss this principal golden age with great blessings. Don't talk about not knowing how because I'm giving you this secret. Instead of saying various things to Heaven's Staff and Tenshinri without devoting your whole sincerity, but after you have devoted your whole heart with absolute faith, you yourself will enjoy the benefits of Heaven's Chinri and Tenshinri. Therefore rise up to your persistence without despair. Satan slaps us with all kinds of accusations and adversities, but with heavenly wisdom we rise up here and there will also give up. Let us never fall down, have faith and move on. Thank you all for coming together today to serve your mother. We are going strong together! "\

We will live with true love, just as our true fathers lived. Since we have received true life and are joined by our father and mother's bloodline, we move forward in silence with our father and mother. Mother went to the prosecution to visit her lost son. And in the prosecution, it is reported that the only daughter was given a sermon, the true father. They are testifying. Mother has been declared true father and only daughter to the whole world. Mother has been fulfilled with all her responsibilities. Heaven will inquire of those who do not believe in this word.

Parents suffered many persecutions throughout their lives. Our church is called heresy and has endured persecution. This time, you might feel angry after hearing so many ridiculous stories. 1 Corinthians 13 says, "Love endures long." That's the number one. We have suffered thus persecution, yet none have tried to avenge us. Great true practitioners of love. We have known His will, and we have endured, and we have shown love toward vengeance. With that love, his father and mother met Gorbachev and President Kim Ilsei, embraced Japan's revenge, and opened a world peace era. The era of humanity is one brother and sister, which goes back to one parent. For world peace, only true fathers can be hope. For the spirit of the spirit world, only the true father and mother is hope. All the absolute good spirits in the spirit world worship Holy Mother Han and play a role in realizing a single world, a united nation of peace in the universe. If you believe in it and pray, your word will come to pass. At the final judgement we did our best, if we are to have a new willingness and determination to say that your tears and blood are mixed with the tears and blood I shed, from now on we can fly. Father has come and commanded us. I pray that it will be a time for this prayer meeting to meet your father.
