Please work with them and the nation become absolutely one with True Mother and for righteous people to come and support us to move forward for the Korean, unification of our entire cosmos as we attend True Mother of Blood, Sweat and Tears for such providence and allow us to repent our unfilial life and accept our prayer of desperate heart and protect Her Body and let Her be released...

6. Moon Yeon Ah Nim.....

All the Blessed Families and pure waters around the world, nice to see you again...

It's Friday, heartbreaking day... miserable day when we have to wait until Monday to meet True Mother and Saturday and Sunday becomes moments of devotion... Detention Center there was sunny and when we met True Mother, She smiled more and seemed happier...

When you look at True Mother, you see many pictures of Her smiling and She gave many smiles today... Today Shin chul and Shin Heung nim and President Lee Gi-seong and myself went there and right after a group came out, we went inside, and we have a wall that blocks us from True Mother and us, and as we entered, True Mother came in at the same time and our eyes met and True Mother welcomed us very happily, and I felt very grateful at that moment...

When She is in the room first, She usually sits and closes Her Eyes and thinks to Herself, but She didn't

have this time but looked at us and smiled. And the first thing was She asked President Seong Young Chun, 'Are you doing well? And he said Shin chul and Shin heung nim are always giving hope to the youth, and youth will have the heart and conviction to protect True Mother and with such heart, they are going out and working and witnessing. And True Mother said, 'Thank you.' And pure waters all around the world, thank you very much for all your work. I am sending this heart of gratitude to you on behalf of True Mother.

Now President Seong Yeong Chun, there were many things that he needed to take care of. To be honest, I'm sure that he wanted to meet and speak to many members, but he couldn't have such time and the Korean President of Family Federation reported to True Mother that throughout the nation, we are planning to reach out to people and let them know about You and Your accomplishments... And True Mother said, 'Yes, let's do it. The people are waiting.'

And right after this, True Mother asked Shin chul and Shin heung nim, 'Are you doing well?' And right after this, 'How are Yeong Ah and Yeong Shik?' And they began with Cheong shik's story. He received vaccination. And he did very well. And True Mother said, 'Oh Cheong shik received vaccine.' And Shin heung nim said, 'Because the weather is getting colder, Cheong shik has a runny nose. This morning, from both nostrils, he had a runny nose.' So, True Mother said to be careful with the cold. And I don't think these words were only for Cheong shik but given for everyone.

So, when you offer vigil, physically, you will be tired, but please take care of your health so that Mother can know all are well and I think She really wants every son and daughter of Hers to be health, like the greatest gift... And I heard that there are members trying to sleep like Mother, on the cold floor, but it is greater pain for her if Her children are suffering and I hope we can bring more victorious news to True Mother.

And next we shared that Jeong Shik is smiling and living well... and a few days ago watched a documentary on animals, and there were hyenas, chetah and lions and stuff. And nowadays, whenever Cehong shik looks at a book with this kind of animals, he starts mimicking those animals. And upon hearing this, True Mother seemed very happy and True Mother said, 'What about Jeong ah? How is she doing?'

Yesterday, when Cheong shik was going to visit the hospital, usually Cheong Ah would follow, because she wants to be with Mother, but she knows what the hospital is, so she decided to stay at Cheon Jeong Gung. And she met other artists that she can play with. And there's a room where we usually offer a bow to True Mother, and whenever we offer a bow, Cheong ah sometimes becomes like a princess, or sometimes offering a bow first, or sometimes later. I want to say that she's a model in how to offer a bow, but many times she does very well and compliments for offering bow, because she got used to it.

So, she visited that room when her father was busy and her mother went to the hospital. Despite the fact that she was by herself, she went into the room and offered a bow all by herself. And True Mother was very happy to hear this and Her facial expression got very happy from hearing this. And when True Mother hears such stories of Yeong ah's pure love, She is truly happy. That's one thing I realized again. For Cheong Ah...

So, Shin heung nim said that Cehon ah is reflecting the life she spent with You, True Mother, and True Mother said that 'I am the same. So as True Mother is staying at the detention center, I'm sure that She is recalling all the memories of the past. And I'm certain that She's not just thinking about Cheong shik and Cheong ah, but She's remembering all of Her children and all the moments She was able to give and receive love. That's what I felt.

And after this, True Mother asked, 'President Lee Gi-seong, are many people gathering at the Great Works? Let us answer True Mother. Are we gathering for the Great Works? Yes, Autumn Great Works. So, if there are people who seem like they are having a hard time to attend, please spread the news of hope to offer greater devotion... And PL reported the expected attendees and we will offer at the World Center and more than 50,000 are attending throughout the world and reported that Cheonshim won Main Hall is filled and the vigil is becoming more of a time when brothers and sisters have gathered to become one with Inheritors of Four Position Foundation of True Mother...

And True Mother, because You have prepared Cheon Shim Won, our brother and sister spirituality is growing higher than ever before... and recently Inheritors sand 'All the Living Thins Shout Out' and Shin heung nim sang 'Pledge' that moved everyone's heart and we will expand more things like this to bring the revolution of heart culture.

And also, now Heavenly Japan just had a 3-day resonance prayer Workshop in this TC, and there were many, many members who testified that the vigil was totally different than just watching online. And the wife of President Horihato was very moved with the Workshop and reported that too. Right now, Heavenly Japan, there are more than 60,000 brother and sister who really want to join the resonating

prayer Workshop... applause encouragement... and I'm sure that Heavenly Japan will move forward more with that encouragement and PL said that they lit a fire there to move forward.

And last week at Gapyeong HJ Town, PL also reported on the revival gathering... only one Blessed family but still there were over 100 people there, and how important it is to go into the towns to move forward and our members are putting a lot of effort into it. And True Mother said, 'I believe that I don't need to worry about Cheonon Complex any more.' I can see from here, how our children members are offering prayer and devotion for Korea. She is always thinking about Her children around the world and knows their hearts more than anyone else.

And upon hearing Her Words, Shin chul nim said, 'All the members around the world are offering prayer and devotion.' And also he heard a good story from Europe. And Pres. Seong Yeong Chon reported to True Mother that one of the members in Europe, Peter Hider has been working diligently with UPF. And recently, at the UN in Vienna, many NGO's are putting actions, and this brother was recognized by all the NGO's there, and he became the Chair of the entire NGO in the Vienna UN. And upon hearing this, True Mother was truly happy.

So, b and s, we can share such good stories that True Mother will love and I hope you will make victories and let us do that. And True Mother also said, 'Yes, anything you do, all you have to do is just put your effort and you can become the central figures.'

So, when I recall all the conversations I had with True Mother, True Mother knows that we love Her and worry about Her and She knows we offer our devotions and despite this, as if She were next to us, She always thinks about Her children, and in order to fulfill the dream of our Heavenly Parent, our members are moving forward and She is always thinking about us, the fact that we are moving forward without stopping. And She is offering devotion for all of us. So in that sense, whenever we are with True Mother, we should settle our heart and make resolution to show our heart through our conviction and action at each of our churches and meet many, many new members... and testify about True Parents's Life Course to them.

And True Mother emphasized that we must go out and testify about the Principle of Creation. And I realized that those are the contents that we can share to people and make many, many good reports to our True Mother... So, as we talked, we had one minute left (They make an announcement) And True Mother said, 'Today's Friday and one minute before you leave, so can you sing a song for Me?' And we sang first verse and chorus of Country Roads and True Mother was tapping the table with Her hands and using Her body to follow the rhythm and closed Her eyes and smiled and focused more on Her sinigang.

And other days upon hearing about Her children and brother and sister around the world I can feel that Mother is happy to hear such stories and were able to tell True Mother good stories and please reflect how to bring this joy back to True Mother and seek for the wisdom to bring it... And as I saw True Mother, She was wearing winter wear and I was able to see True Mother's Feet and Western members may not know, but True Mother was wearing these rubber shoes, not very comfortable shoes, but True Mother was showing very bright energy to us, but looking at Her Face, we can see that She is definitely not well, and many red spots where She was wiping the towels and even with medicine, it is not getting better and I can again feel that True Mother is living a difficult life... And as She left, She waved Her Hand to say goodbye to us.

And I know you want to tell True Mother to be strong and when I think of your heart and established as the 4 Position foundation of True Father and I know that I have that responsibility and the fact that I can meet True Mother and I try to share exactly how True Mother is doing and want to let you know that True Mother has Love beyond my words and let us all be children who can bring new children, not restored yet, back to bring joy to our True Mother and let all the people know and resolve all misunderstandings and if we can do that, we can bring absolute joy and happiness to True Mother...

Welcoming Address
President of Heavenly Korea Family Federation

On this autumn night seeing the faces of all of you with yearning toward Heaven, my heart overflows with deep emotion and gratitude...

Today, the 26th day of our True Mother enduring this trial alone and I hope our prayers will brightly illuminate the place where True Mother is... And today I had the honor of meeting True Mother representing all of you and I saw a piercing longing and serenity directed toward Heaven and the first words 'Is the Family Federation doing well?' Although Her Body is in cold walls, Her Heart remains with the well-being of our community and I told Her that the flame of the faith and unity is more than ever before with Inheritors and 4 Position Foundation True Family and my tour and True Mother, 'Said yes, they are waiting to hear' and the greatest comfort we can offer is this advancement activity and I want to than Yeon Ah Nim and Inheritors for word of report every day...

True Mother shows the content of Faith, 'Do not worry. Heaven is alive. The Truth will be revealed..' and these are words that the darkness can never overcome light... applauds...and also this nation is under Heaven... She made us realize that above all earthly sovereignty is that of Heaven and up to us to convey...

Also, 'I am in much pain, but immediately afterwards, but I will endure well drawing strength from your love' like a True Mom, 'Mom is okay, don't worry, I love you' and how can we not be moved...

The power of the world move mightily to test us with the power wielded in their hands... and make the public opinion with deceit for the eyes and ears of the people... In the face of such forces, we may sometimes feel small and weak... But, b and s, there is a truth that we must hold firmly. We possess a source of power eternal and unchanging, which they can neither comprehend nor possess. That power is none other than Heavenly Parent, the Owner of the universe and True Parents of Heaven Earth and Humankind.

Our history itself proves how great that power is... Remember True Father at the cold floor of Sadomon prison and when visitors came He smiled warmly and gently to them and without fear and said, 'Do not worry about what lies ahead. Heaven will protect everything.' And He rekindled our hope... 'No matter how fierce the laws of earth may be, the laws of Heaven is still alive and Heavenly Parent never once turned away from His Beloved Son.'

That same Heaven is with us now. Even if the misunderstanding and criticism toward us rage fiercely, they are nothing more than fleeting foam, soon to shatter and disappear before the great rock of eternal truth. Falseness makes noise but eventually perishes, while truth silently remains. Now, more than ever, we must stand firm...

Let us become absolutely one with Inheritors and 4 Position Foundation of True Father that True Mother has personally established for this age... By that Center, we can be a bulwark against any attack as we testify to the truth before this age strong and courageous... The path of us is more clear and definite than ever... True Mother said, 'Through this opportunity, the members have united as one' and this is the mission that Heaven has given us to be the greatest comfort to True Mother and our mission is to be one, not just holding the hand in a physical sense, but one in heart and purpose before the Central Will of True Parents and bring the news that will make True Mother happy that Heavenly Parent's Will is not being frustrated but is more powerful than ever before... with our prayer and devotion and advance for sure victory from it as Heavenly Parent and True Parents are with us. Aju?

Let us all engrave True Mother's Will in our hearts and rise beyond sorrow to courage and beyond tears to mission and become the proud children of True Mother. With the triumphant cry of victory that has overcome all trials, let us report to Father in Spirit World and True Mother in confinement that we have restored and resolved Her deep sorrow. Aju? Aju! and may the infinite Blessing of our Holy Mother Han True Mother be with every one of the brother and sister gathered here today...

Heavenly Japan witnessing

A legendary queen of witnessing from Japan is pioneer of street witnessing even diagnosed with pulmonary tuberculosis and she refused all treatment and collected scrap and invested in street witnessing and was able to grow it expansively... and Ken Sudo and PM Kuboke and others were witnessed and according to research, not just witnessing and street preaching but a training in strengthening skills of spontaneous public speaking before an unspecified crowd and unpredictable circumstances and strengthening quick thinking, expressiveness, empathy, social ability and concentration, for gaining influence and becoming leaders..

Now Heavenly Japan unintentionally is developing powerful leaders even amid the difficult situation with tremendous inner strength and potential.

This youth doing street witnessing became so overwhelmed and crying and shouting her message and a passer by saw her and encouraged and comforted her... Here is the edited video from last year to show you again...

Amid much criticism from the public, the Family Federation is still truly a wonderful church... It only prays for the happiness of families, nations and world and it pains me to be spoken of so badly and I want to convey the devotion of our church... I am a 2nd gen and I am truly happy and proud to know my father and mother and True Parents and to be born as a child of BF inheriting God's Lineage and I truly encourage brother and sister to realize this... I wanted to convey the truth...

Since June of last year, I have been giving speeches that Family Federation is not the horrible place conveyed in the news but loves others and the nation... And it comes across (Your speech is amazing...)

and I truly feel happy and no matter how bad the media, I will not give up but want all to know the truth that we know (those who hear your words will never deny the Unification Church and your sincerity will be conveyed throughout the nation) and this was conveyed on X and the passer by is also participating in street campaign...

At first I think they thought it was just a politician's speech... but with the encouragement, I felt truly strengthened and to reach even one person, it can make a difference... He said when he heard her, he wanted to cheer her and there are many people and for ordinary people, they don't want to accept but I listened and what they were saying was right not anything wrong and thought have I been misunderstanding Unification Church and listens longer and by the time the 8th speaker came up, she was speaking while crying...

14. Yeon ah nim

True Mother 'You just need to explain the Principle of Creation... that is how we can attend the H Parent... To fulfill Heavenly Parent's Dream, we must understand what kind of course Heavenly Parent has gone through. We as chosen people have a responsibility and must not become like the Israelite people of the past... Now is the important moment, a crucial time for the chosen to fulfill their role. To True Mother, this is one of the most important moments in history.

Until now, under the protection and guidance of True Parents, our Korea and all BFs around the world have been called, trained and protected before Heaven as the chosen, but now in proportion to the Love and Blessing we received, True Mother reminded us that we must take responsibility...

This Bible verse came to mind, 'God created human beings in the Image of God, Male and Female, He created them. That means in the image of God consisting of both, not only God the Father but also God the Mother. And the purpose of creation is found in Genesis 1 verse 31 that God saw all made and indeed it was very good. It was for the sake of joy and happiness, so that God could rejoice while holding all Creation through humankind on earth.

What was lost through the fruit of the knowledge of the tree of good and evil was Eve... Now after 6,000 years, that Eve has been restored and established and that Eve is none other than the Only Begotten Daughter, the human being in which God can substantially indwell and rest and be sovereign for God's Ideal on earth...

True Mother said that to attend Heavenly Parent, we must be reborn through True Parents and Who is the one Who substantially attends Heavenly Parent substantially. Where is Heavenly Parent now? Do we truly and absolutely believe that Heavenly Parent is with us in this period and are we like our elder members thinking only of True Parents Will and we must expose our own repentance and take step and step more forward...

True Parents have carried this all by Themselves so painfully... and not shedding tears for Themselves... When She looks at Her 2nd gen, She cannot hold back Her tears, and my heart must grow with the weight of my responsibility and True Mother is absolutely necessary and only when we become one to attend True Mother can we truly attend but I also understand fear and mistrust... but yet we must be one so as not to be shaken by any hardship.

As long as I am standing here, no matter what, even my own body torn apart, I am determined that our Family Federation will not be torn apart and what matters is if we center only on Heavenly Parent or not, only Heavenly Parent and True Parents of Heaven Earth and Humankind. The path we walk is truly thorny and was that from the beginning and till the day I die I may never escape from it but must keep going as elders and brother and sister are walking now and I know at the end will be Cheon Il Guk and those after me with my ever step, they will have less indemnity and I earnestly ask this of you from the depth of my heart and I gives a full bow to the audience and a full bow to True Parents...

Recently the family are not simply attending Cheon Shim Won but in the day facing various challenges testifying to Family Federation community... There was report that True Mother was expecting many to come to this Great Works and show the world our unity more than ever before.

Whoever wishes to save their life, will lose it and to lose their life for My sake will gain it... for what will it profit a person if they gain the world but forfeits their soul... and in this time I truly believe it is time to deny even oneself to gaze upon God's Providence and True Mother and with the heart of willingness to enter prison as True Mother did...

How did Hyo Jin Nim live advancing for the providence at the Berlin Wall, ready to lay down his life. And Heung Jin Nim did not choose himself, but the children whom True Parents love and offered his life... and what about Dae Mo nim when Satan came and threatened to kill that child protecting Her as Heaven's daughter... If we are persecuted, that becomes our glory... Why did True Mother give us the

name of true water and tell us to flow to the world and purify it...True Mother has already opened the way, but if we fear and fail to cast off ourselves and take up our own crosses together, then once again True Mother will have to endure and wait.

I want to make a resolution through my actions to proudly testify to our True Parents and to all the media and prosecutors stand confidently showing off True Mother's Life for Korean and She is the great spiritual leader and for us, the OBD and I stand her to make a pledge before all of you and if by such testimony, I face persecution, it is glory... just as thrown into the lion's den as Christians, so too I wish to bear witness before society, Mother of Peace for the sake of Her Victory as the OBD

15. Shin chul nim sings 'Pledge'

16. Yeon ah nim

You know that True Mother's Eyes are very strained and tired and Her Body, Her knees make the simple act of standing up or sit down so difficult especially She is forced to sit on the ground... and although difficult for Her to move or exercise much, She makes an efforts... but I felt how exhausted She was... Before I have never seen the dark and purple of Her pale complexion and sunken cheeks and could feel Her physical suffering and I know all of you are offering devotion and longing to give Her comfort... I have been asked to give these words and although I could not feel all, but I felt She is suffering so much and red blotches across her face and She said because Her physical has weakened and She sleeps on cold floor and seats a lot and the heat is not turned on and True Mother's immune system must have weakened so greatly, and True Mother said, 'I am very sick, but thanks to your love, I will endure it well.'

You want to do something for her and don't know what to do but since True Mother gave us these words, let us believe in them...

17. Our Mother is in less than 3 meters like solitary refinement... We may not be living in comfort, but far better conditions and it makes our hearts anguish and eating meals from a metal tray like this... (Director Anhoyol)

18. Yeon ah nim

Even in such circumstances, True Mother's faith in us is unshakably and 'Do not worry. Heaven is living. The Truth will be revealed. I did not expect such things, but the truth will be revealed.' and 'Members have been united across the whole world.' Those words are from True Mother for us.

True Mother who walks the way of the cross alone, though in greater pain than anyone still loves and comforts and gives us wisdom... and to know She recognizes our devotions, give us strength and we must offer even more devotion and we pray for our Mother's peace, health and long life.

19. HJ Praise with Inheritors Cheonshim Choir sings 'Rise Again'

Brothers and sisters, how was your day? Today, (Shin heung) I wanted to offer this praise because during the weekdays, you can see our confession, but during weekends everyone has to go back to hardships and devotions individually, and thinking of this, before sending you to the long weekend, the reason I wanted to share this song... before public life, I was very shaking and a lot of shortcomings and was such a child that wanted to give up...but as I received love of Mother, I saw hope in myself and even mistakes from time to time, I received Blessing and have hope that I can live a new life...And all of you also have experience of love of True Parents and remember it to stand up again when you waver... and with this heart I prepared this song to offer praise to True Parents, especially True Mother...

At the lowest place, our True Mother Who waits for us.. Let us think about this as we offer praise to True Mother...

20. President Lee Gi-seong's Speech

Very moving praise... Shin Heung nim had a meeting and practiced only briefly but sang beautifully and our Workshop trainees truly love Inheritors and we could feel that resonance... I hope you did... and even I can't offer gratitude to each and every of you, please bear with me...

The Great Work will begin in a week after today and if you register more than the summer Great Works, we can set a new record and despite the rain at the Detention Center, various organizations have gathered and rice cakes were brought that they shared... For 12 hours there... and if we offered devotion together with them, it can stay with you forever...

The pastor sent the message: Gongnam Grand Church began the vigil Dec. 4th and 500th vigil and total of 200 have gathered and more than 40 new members... and as Mother told us to offer devotion for you,

your family and church... and our goal is 1,500 and we resolved to fulfill responsibility to recruit more than 144,000 at the Great Works and we will try our best. True Mother thank you and I'm sorry... (this from Kim Il Shik Pastor)

Today through Zoom and with various language translations, more than 70,000 have gathered... and Spirit World is with us truly... and instead of just saying with words, we are trying our best...

Sendai means strong...

Totori is acorn... and it is their 500th vigil... and 125 gathered like acorns...

Mother bearing all our sins and walking the path of the cross but still receives our reports gratefully... You must mobilize the entire Spirit World and make the report of joy and victory... You have shared support and I was able to report on the results...

True Parents said 'My Life is like the ocean' and bearing the burden like the whole ocean and all of us must overcome and carry on with the burden with the same Heart as True Mother... and She asked if many are attending Great Works and these words align with True Father's Message... 1,099 vigil, True Father said it should be a day when you offer resolution to be the righteous person for the Providence and time for all of us to be new and change their own destiny.. the starting point... At the GW, we are going to set more than 100,000 as a goal and harvest what we planted and if we cannot go over it, how embarrassing... and that 100,000 should be continually with True Mother and work during that time...

And just like the fall season of harvest and then going through the winter, you should be able to harvest all and prepare for the new spring and that will bring glory to Heaven and new Blessing upon the earth, and we must harvest the ripe fruit and be ready to endure during the winter...

True Father gave the message... More than 600 trainees must come... What is the problem? Do not think about the reality problem, but those ones should go to Great Works and your harvest can come... not solved by yourself but Heaven is preparing all the gift of Blessing for you, if you can receive it and go out and testify... October 17 is the time of resolution...

Heaven already began working a week before... on the day when the devotion you all begin to offer for the report... Heaven already prepared and we can never let go of this nation...

Great Blessing will be bestowed on the Autumn Great Works and all of us will be reborn as Heaven's children with AFAL and AO and believe True Parents and Heaven can accept our devotion with all the AGSs... with emptying your heart and attend True Parents... I hope you meet that day and let us make such victory...

21. Calling out / Fight Song

22. Prayer and Praise

Our True Mother will be absolutely victorious and the entire world will testify for True Mother's Will and for our faith to be revealed for True Mother, let us desperately offer action...

'Omonim sung ri ah so seo' seunglihasoseo

How could this injustice stand? They cannot block our true love... Holy Mother Han holding on to true love and because we love our True Parents and this nation and this world we will keep standing up again to fulfill our Mother's Dream and expose our repentance and allow us to inherit Heaven's heart and this sorrow, that we have no choice but to send Your Love to flow out...

Oeg Monsei led by I Kyeon Yun, Director of Cheon Shim Won Publishing

True Mother said She knows how much members offered devotion for Her with all our body and heart will absolutely reach Heaven Parent and bearing our sins on behalf of us, our True Mother, may it be a great source of strength... and True Mother expects great things at the Great Works next week and despite the dark night, let us offer prayer and devotion, and with heart of hoping for True Mother's release and restored health
