Summary

In the rain again today, many eaters are doing their best in front of the detention center. During this period, I think that I will remain forever with my Heavenly Parents, True Parents of Heaven and Earth, and Tenai Shishoshi, doing my best for my mother and resonating with tears. Today, over 70,000 people are devoting their sincerity with one heart. If you pray to feel it with all your heart and whole body, instead of saying that just by your mouth, the subjective heavenly and the subjective earthly world will propel towards unity, then that prayer will bring miracles. The tower of refinity will be a blessing to all the churches of the whole world.

Today, Mr. Fumihiko introduced her mother's status in detail, and everyone felt like meeting her with her. I went with him, but when I went I couldn't hold back my tears, I felt that our mother was carrying our sins and walking the path of hardship. Nevertheless, they are happy to receive our little reports. When I

see her pleased, it pains me that when your mother returns victorious, I should prepare something to be able to tell her that she has won.

Looking at the last page of true paternity, it says, "My life is like an ocean." When I think of my mother's sentiment, who carried all the heavy baggage of providence, smiling and encouraging us while accepting everything like the ocean, we too must gratefully accept all the burdens of providence and live one day at a time as we, like our mother. Mother said, "Do many foods participate in the fall duties?" Asked.

A message my father sent me 1399 times regarding a major role

"The desire to dedicate 1400 all-nighters to serenity must be the serenity of devoting the resolve to become the one who fits the day of the new era in front of your mother." 1400 times of seijin is an additional 400 times of all-night seijin on top of 1000 times, and this is the time to repent and be born again. When there is a born again, it is the beginning of a stream that changes the destiny of the individual. 1400 all-nighters of serenity is one of the serenity conditions for winning the autumn major officials. Fall duties must reap the fruits we put our hearts into. Once again moving towards the 100,000 goal. How embarrassing will it be before heaven if we lack 100,000 people this time. A group of 104,000 people gathering as a prayer meeting for new departures for reconciliation and peace becomes a place to reconcile with the mother and the spirit world. When the spirits who have been blessed with the dai-yakuji in the summer season, they complete their training in the spirit world and serve on the earth during the autumn dai-jiji. Just as we can overcome the winter with the grain harvested in the fall, we must have the seijin that accumulates 1400 all-nighters to the main duties of autumn, passing through the winter of providence and welcoming the spring of new providence, bringing glory to heaven and blessing to earth. "

During a major role, if 500 spiritual trainees gather to praise them at the World Center, there will be a heavenly officer, and the father appeared and said, "What are 500 people, how much heaven

puts into spiritual training, over 600 people." In front of this great grace, what does the real matter have to do with it. Rather, as many as those who face real difficulties should not miss this important role. It is a major role that the underworld mobilizes all to solve it. Rather have to come to solve difficult problems. Heaven is preparing a great gift of grace, so be part of it in abundance and tell it to the world. It is a major role in reaping the fruit of integrity. I hope that all my beloved children will join us and make this a place of celebration to break all the chains we have struggled for. Heaven has already finished preparing for an outpouring of power, wisdom, power, and fortune. The awake must not miss this day. As I make this the best day for my mother, I hope it will be a day of reconciliation with her. And informs Amaishoshi that there will be an official for blessing, I hear the voice of the birth of new life. This time, Tamadoji will be born starting with the autumn major role. "

In this autumn major role, the World Center must be like your mother's stomach, and everyone must be born as Tamadoji. If you are to see the day you will be born again with faith in your true father and mother without doubt, absolute faith, absolute love, absolute obedience, then you will be surprised when your prayers are transmitted to heaven. If you are fully united with the whole spirit, with the absolute good spirit, and with a heart that is completely without you, and a heart that is perfectly empty, then you will be able to feel a joy that you have never seen before. Let us make that day when we can fulfill joy and report that joy to our mother.
