I hope you're doing well

The 1423th Tianxin Garden is honest all night

Summary

Report on True Mother by Chairman Fumi

"This year marks the 60th anniversary of the Little Angels Overseas Lecture, and my mother was very happy to hear that we were sharing the idea of peace and culture of true love of true parents at home and abroad."

Before leaving for America, Monshintetsu greeted me, "I will continue to work hard for my mother's health and peace," and my mother was pleased by saying, "I have to come again." Your mother really likes the news of your heart and soul. Joan-sama wakes up in the morning, touches his hands and feet, and says, "Joan's feet are cold." "Even though people hate having cold feet," my mother always remembered that she was worried if she got cold feet. You don't know how

grateful you are to have your mother's greatest joy, a young heart, a mother's joy. Finally, while singing "To Sarang," mother waved her hand and walked out of the meeting room with a beautiful smile. When I looked at my mother's feet as she was leaving, she was wearing white rubber socks, and she was sitting on the cold floor, and she even put her hand on her shoulder. The first day I met your mother, she told me that "this is a place you can't imagine" and I felt sorry that I couldn't offer her on behalf of a painful situation, and my heart was choking. Even through such a heartbreaking period of tribulation, I feel in my bones what a blessing it is to have your mother with us, and that this glorious hour will not be taken for granted. We may be the form of sorry children, but what we can boast most about is the fact that our mother believes in us and loves us. Holding this identity close to my heart, I wish you victory day by day for your mother's health. "

I saw the true family fourth rank base, Tenai Shishi's love for her mother is growing more and more, and I feel every family in the whole world becoming one with her mother's feelings. I believe that on this occasion you will become the child that your mother 100% absolutely believes in.

Proof of Enigmatic Practice 1

Daughter of the Director of Maglinolia International Hospital. Graduated nursing school and embracing the dream of becoming an acupuncturist. Based on a very deep belief, I believe that if I become a spiritual acupuncturist in the future, I can become such a Chinese medicine doctor, if this person puts the needle in place, all the miscellaneous spirits will be organized.

Proof of Enigmatic Practice 2

My parents left the church when I was born, so they lived in decadent life without knowing I was 2nd generation, but there was a seed called 2nd generation in it. When he was twenty years old, he heard his words for the first time being preached by the street, and he knew that his parents had a blessed marriage. Moved by the words, determined to win the Messiah of the clan, he prayed 430,000 times to recover his parents, and the spirit world set into action and an unbelievable miracle happened. My non-believers father helped me with all the expenses of my ancestors, blessings, and training of my sons and wives. When I think of my mother, who said "Don't go" and left without looking back, my resentment arose, but then I realized that Heavenly Parents cannot be present, loving my mother brings me closer to my true mother. I write 10 thank yous to my mother every day to love my mother, and I offer so much devotion that I can't stop crying in a synchrostatic prayer, when my mother called me and said, "Sorry I disagree. "I hope you couple will attest to that, God is leading the way" had an amazing inspiring message. Many households are starting to come back now. Pray and trust that the nominal prayer will produce such amazing affairs.

When your mother is having a difficult and painful time, holding a grudge against the state, and that it's someone else's fault, it makes it difficult for Heavenly Parents to be a role in. So mother tells us to love and be one. Only the way of love is Heavenly Father acted in. There was victory in resurrection because Jesus did not shower the last word of curse and forgive them and walked in the way of love. Those are the lessons your father taught from Danbury, and the lessons your mother gives you through the hardships now. You must truly repent for the days that have passed, holding the true path of love in your heart. Because we have failed to love this people, we do not know that the Messiah has come and manifested his only daughter in this country, and they are our responsibility. To those going to the visitors, "You must prove your true father to this nation." We should engrave in our hearts the deep meaning of the word that is spoken. If you truly love your people with true love, Heavenly Father will carry on. Only true love enables North-South unity. Regardless of the circumstances, the only way.

When we look back, we have often spent the wrong years bound by the central spirit. Although I have been trying to sort out the works of evil gods since 1995, many families are still unorganized and living in hell. Many two generations did not attend church, but quickly sorted out their lives of wandering, depraved and possessed by evil spirits, and now it is time to enter heaven on earth, the release area of heaven and heaven. Underworld workers are prone to chronic diseases when it's taken longer, so when it attaches, it has to be sorted out immediately. While the staff work through the night and organize things, the trainees realize that there is a spirit world, and they develop deeper roots in their faith as they experience the role of the spirit world. If there are more 2 and 3 generations like this who decide to become "Ichimatsutura" after service, devotion, mission experience abroad, and all evil fate, our church will never perish. We can have an explosive era of great recovery. I wish to receive a lot of good fortune now.
