Beloved and Honorable Heavenly Parent

Victorious True Parents Who Triumph Through True Love of our True Mother

True Mother Who has always endured in silence, rarely expressing Her pain even when weary. From

childhood You experienced the sorrow of war and poverty and together with True Father (True Father) You endured the harsh conditions in Europe and Africa and faced the dangers traveling the nation and world to testify to Heavenly Parent (Heavenly Parent) often delivering over 180 speeches worldwide, sometimes even visiting one nation per day under unimaginable gruel of schedule.

You had 14 children, enduring 4 Caesarian sections with a grateful Heart and without complaint. After True Father's Ascension, You proclaimed Family Federation (FF) alone and did 3 years of filial piety, achieving restoration of 7 nations and 7 religions and finally dedicated the Cheonwon Gung and Sanctum.

True Mother's Life has been one of life-long endurance and even now as She faces confinement, She teaches us not to despair but to act and advance in Heaven's Will. And for the Truth to be revealed, we though unworthy and facing the most difficult time pledge to become one in absolute faith and will move forward and be offered for the protection and release of Holy Mother Han.

2nd daughter of 3

... attending church without understanding why I needed to believe and a part-time job and friends distanced me and I became involved with worldly pleasures and then began alcohol and life felt dark and why did I exist, but parents prayed for me but I thought their life is theirs and mine is mine...

But my sister went to Workshop (Workshop) and then to academy with great transformation and witnessed the Second Generation (2nd Gen) like me who had desperate yearning for True Mother (True Mother).. what drives them so strongly and saw 2nd gen parents calling their children's name and I realized my parents have been doing this for me all along and I had to know about it more and left my job.

I felt the love of Heavenly Parent and True Parents but then I collapsed again spirituality... then saw how shallow and resolved to deepen.. Then I heard of Mother's arrest, but when I heard She was detained, it felt as if the world was collapsing but I chose to see this moment as Heaven calling me to offer greater devotion and examining myself that even in devotion not fall into arrogance...

not enough firm conviction but asked why did my parents have to live difficulty in a foreign country and come here to Korea.... I remembered that my mother told me, if I really understood why she went to a foreign country, I would not live as I was' I thought she was burdening me with her mission. But then I realized those words were a cry from a heart of sacrifice.

How lonely my mother was in a nation not of her own language, and thinking of her heart I could understand a little True Mother's Heart, saying She was alone and more understood... and had the opportunity to join a prayer of peace in front of the detention center, but a worry whether I would meet someone I knew, but when actually there, tears I could not hold back.

.... through my inadequacies I felt I added another scar on Heavenly Parent (Heavenly Parent)'s Heart and made determination to live a new life.... that the truth would finally be revealed and after the Workshop, during an intensive prayer, the Director asked, 'What are you living for?'... I began in my mid twenties to reflect not doing anything substantially for True Mother and resolved to devote the rest of my youth for True Mother and me, who realized True Mother's Love would testify to True Mother and thought it would be a great help if all 2nd gen had a certainty of Heavenly Parent and True Parents and resolved to join the academy.

I was thinking whether to live a public mission but made resolve through this testimony today to become a child that Heavenly Parent can truly trust, believe in and give it my all and heartfelt gratitude to all who supported me to this end...

Letter

Whenever I think of You in the dark, narrow place and yet enduring everything with Love and gratitude... Oh, You health, are you keeping strong. With the inheritors, on the Four Pision Foundation (4PF). We are united with one heart all of us have one heart...

Through You, True Mother and the direction of the Inheritors, I was able to find the path. In Jan 24 when the first group was dispatched to H Japan, I remember that when we see True Mother's Footsteps, we cannot abandon the path of the hope.

At that time, I was working as a nurse, so difficult for me to leave for over-seas mission, but with prayer and discussion with my partner, I decided to finish in 3 years and dedicate fully to the mission field in 2026.

Time at CP was precious to re-discover my identity and through Your Words that Heavenly Parent's Dream was to live together with us and mine was the same. My dream not known was evil spirits and with liberation I began to long for the day to be one with Heavenly Parent and Your Heart, Mother...

On the fourth day when it was confirmed You would be detained, I joined the vigil devotion and when I saw the Inheritors praying and weeping for you, I was deeply moved and realized I had not centered my life on You... A voice of inner conflict made me realize that it was an inner battle against satanic spirit... saying things like, 'But you have never even spent time with Her'

Through special liberation, I felt a great peace and I heard, 'Even you have not been Face to face, it is by heart I can be one with Her'... and carry out this mission with unwavering faith.

I could see my mother watching me proudly and behind her I could see Heavenly Parent Who was with me since a little girl and Heavenly Parent overlapped with True Mother saying, 'You are the pure water' and by Heavenly Parent waiting for me to grow, I was filled with the image of True Mother.

Later, 'If you truly want to resonate with Heaven, pray as if you've gone mad' and not knowing how, 'Try to imitate someone who is mad'... So, I did. As soon as I did, I threw away my hesitation and tears and Heavenly Parent has been crying out for us and for the day we could resonate and had the longing heart and gratitude.

After that day I wanted to understand Parents more quickly and added devotions... and at holy ground visiting the holy place, I felt Heavenly Parent Who wanted to be one with me were truly alive there. During the spirituality Workshop, whenever I faced something I couldn't understand I asked at the Holy Place. and then the next day's lecture or song would have the answer...I felt True Father's Presence Personally guiding us.

As I came to understand True Mother's deep love and endurance for Heaven, I determined I would share both joy and sorrow with Her and live a life of true love, even though difficult, I would testify...walk to the very end and see, testify the beauty of True Mother...

PL... many obstacles, but if you can bring down the authority of True Mother, then this Workshop is truly important...

This is a number that protects True Mother and if you truly become one, above becoming the righteous people, you become the righteous leaders of this world.

We will proclaim True Mother, Only Begotten Daughter Holy Mother Han started Sept 25 2025 in presence of True Parents...

PL the 21st Century is no longer of glorified money and power... but I hope you will come to know the Spirit World (Spirit World) and the Living Heavenly Parent and engage in competition of love...

In Cheon Shim Won, True Father's Office, devotion for True Mother's comfort and had resonance ansu for the Body Parts of True Mother's discomfort and each morning at 2pm, gathered at the special prayer room. Spirit of love and repentance. Then True Mother's situation resolved for Her release and comfort.

Went to Seoul Detention Center... on Chuseok, we carried True Father's Moon Lamp and went to the Detention Center, hoped for Mother to hear our voices...

Kim Ju Won... We are planning to spend this Chuseok holiday with True Mother 'True Mother we long for You and we miss You. The time began quite unexpectedly... It was 2am the night before and set up, because we have intensive prayer over the weekends, without a lot of preparation, we decided to go live and it could have become a disaster, but there was no interference, we believe our voices were heard by True Mother, many members joined off and online... a total view count of 12,000...

The trainees also offered special petitions and offering papers, wrote personal pledges, into one wish to protect True Mother... bring Her safety, victory and proclaim Her innocence before Heaven and earth...

2 years ago frustrations with organizations and people, 'Can't I live for True Mother without this...' then 'Go to Cheon Shim Won and pray.' I heard, 'my name... I love you. Warm and peaceful embrace of a Mother's Arms. Being a public official is about someone who embraces people with love...

>Testimony:

Grateful to offer devotion at Seoul Detention Center... True Mother would offer stories of True Father under a bright moon. Sad not to be together Physically but prayed our devotion to reach Her Heart for Heaven a moment of comfort and strength...

She often performed in front of True Mother but didn't realize how precious True Mother was until this situation... One of the main vocalists leading the vigil. Now that she received True Father's Voice, she will testify on You Tube with her voice and skills...

We had 1,400th devotion and we had our beloved Inheritors offering HJ praise with participants, the Main Hall was full. I remember the words of them 'The way I love True Mother and the FF is the same way the members love. Let us not be shaken but go the direction of True Mother's Desires and become one...

Shin Heung Nim:... I will testify and never run away, no matter the situation, with conviction and fix his gaze on True Parents...

They came and would offer the messages. I believe HyoJN, HeungJN and True Father work in this True Children with a joyful Heart.

On Friday of the Autumn Great Works (GWs), we held the devotion in the World Peace Center. It was the most gathering ever held... rainbow appeared on top of the Palace.... again a rainbow above the HJ Cheonwon Complex...

It was Sept 9th, True Father ascended Sept 3rd 2012. Let us offer applause to Cheon Shim Won 8's in Spirit World...

Symbolic beginning where 121,000 joined in one heart and spirit. Just a few months also broke a record... all for Mother's safety, comfort and victory.

1420th at Peace World Center, 16th spirituality trainees filled it with radiant energy and tears...

Four days before this devotion, 88 signed up for offering praise. The Spirit World poured so much into this Workshop, how could 500 be enough (Father's voice said) and 541 then 614 trainees reached to offer praise... In less than an hour 73 more joined... Spirit World was undeniably working...

True Mother's Words are finally being fulfilled on this earth.

Cheon Shim Won must raise leaders that can read and understand True Mother's Heart and establish 3 generations. Those who are impure cannot step forward... only those Heavenly can recognize as pure, educating and refining them...

'Rise Again' we sang and I remembered my own pain, when singing realized again how blessed we are to be on this earth with True Mother. Each one singing beside me were so beautiful and shining brightly and felt everyone's desperate heart to comfort True Mother resonate in love.

Testimony of love and grace from professors and leaders who shared their hearts to raise each trainee as a true filial child of Heaven, Only Begotten Daughter Theory...and all the professors...

>Testimony:

Wanting to help one's parents is natural, but because of difficulty with my own parents, I realized that True Parents are my own Parents. Whether I forget them or not but facing them as my parents naturally...

many shared snacks and foods as love... grapes and saying 'You are the hope. Thank you for your hard work' and despite busy schedule and so tired, gave a day of lectures and joyful time of unity. Another sent snacks then a treat of pizza with chicken... gratitude for love, care and generosity...

so unseen by many, they become the loving force behind this Workshop... 'I will dedicate myself to care for trainees who have the same difficulties I had... For 24 hours a day offered devotion and reached to us... every day 3am they gather for the next day's schedule. We would educate them how to have consultations and help a trainee sometimes until 5am...

Every morning we must drink Hyo Jeong (HJ) Water prepared by True Mother' and FR team for all things for the trainees... cafe and cultural arts and devotion team of 24 hours... calling each name of the trainees, sometimes possessions of dark spirits...

video: this liberation is only something Heavenly Parent and True Parents can do. With that faith we can accomplish offering devotion upon devotion...

One could not open his eyes or he could see how spirits died and floating in the air: the mother talking to them... many resentful from the war that killed their family...

There were 2 and then 5 and then remaining 2... and saw a mother spirit trying to help...energy was drained from his entire body, but also the spirits were drained and gone to the Workshop and proof of the Spirit World.

Spirit of a child kept visiting one trainee and for 20 hours, even going to the bathroom, taking showers, with that trainee 24 hours during 7 days (24/7) doing this. The heart of Cheongshim

>Hoon Dok Hae:

True Parents Who perfected the Love of Heavenly Parent. Originally God Intended to establish a world of peace on this earth centering on our First Ancestors, Adam and Eve. Had they not fallen and instead matured according to God's Will to reach perfection of character, formed an ideal family free of sin and suffering.

That very world would have become an eternal world of peace where generation after generation would have lived as the direct lineage of God, communicating freely, not only with God, but also with their ancestors who had gone to the spirit world, enjoying a life of harmony and happiness.

It would have been a world of absolute happiness where committing sin would be impossible. We walk the path of filial children, loyal patriots and saints. When one fulfills the duties of filial piety, loyalty and sainthood in substance, that becomes the queen and king of Heaven on earth, a place that naturally extends to be in Heaven.

This was God's original ideal of creation to have the earthly and Heavenly realms united in perfection. No one could ever imitate or replicate the path that True Parents walked. If compared to a mountain, it would be the summit of Mt. Everest in the Himalayas, the highest and most difficult peak to reach.

Throughout history, the path of filial children, loyal patriots, saints and divine sons and daughters has been the way to connect to God's Heart. Only True Parents could become the beings who perfect the Love of God. When God, shedding tears of gratitude proclaims to True Parents, 'Even though I were to lose everything, finding You is worth hundreds and thousands of times more than all things in the world.'

Only then can pain that has been nailed into God's Heart be liberated. This reveals how enormously profound and serious the position of True Parents is.

>Pres. Lee Gi-seong's Message

In the end, you will realize that you will receive answers to your questions.

200th day since the Entrance Ceremony and we need to offer more devotion to fulfill True Parents Words... True Parents Words are itself a devotion and not to let any fall down. We should be able to testify how we have fulfilled...

39th day since True Mother has been going through tribulation, our members have gathered for prayer and devotion...

They are very tired due to their packed schedule, but still come... Sometimes myself, I'm so tired and feel asleep in the chair... I thought, I need to go, but my body would stay still because I had to go to vigil and offer my devotion. I'm sure they have the same situation.... applause for their health.

One in heart, our trainees 11 that came later but still 483 long-term trainees, opening a Cheonshim resonance prayer Workshop. For the next 3 days, they will be inheriting through practicing resonance prayer... so 126, he will bring that back to his branch... important for a branch leader... to resonate with Heavenly Parent and True Parents and Absolute Good Spirits (AGSs). You must live your life so, but because we could not liberate evil spirits, many years wasted, so I truly hope you can liberate dark spirits and work all things you can in this period then all churches will be thriving...

Many of you are repenting for wasting years of your life. I hope during this Workshop there is abundant grace. There were reports and unable to share in the past, feeling bad about that, I would like to share now.

Testimony:

Amazing night that never happened before with all the members having intense heart of sorrow for True Mother. Desperately comfort Her and joining. I couldn't help but shed tears... especially because of the Inheritors, our organizations has become one. Heaven never loses but calculates well, and through the tribulation I'm sure dramatic advance will come when True Mother comes back...

Testimony:

Great thing that happened with Great Works (GW). 120,000 joining... Truly a festival held with the Spirit World, and in reality not knowing Who True Mother is...but strength to move forward...

1420 was like a bright sunlight shining through a dark cloud and especially with Inheritors, the choir had such grace and every word resounded... Even my child could attend because of such grace and greatest experience for my child so far...

What kind of ideal world is it? Hoon Dok Hae explained very well. When one fulfills the duties of filial piety and loyalty, in essence it becomes the Heaven realm on earth of God's Ideal of peace generation after generation, freely communicate with God and ancestors...

We understood with intellect that entire Spirit World was coming down to the earth.

True Father: Do you know the grace of GW and it will continue... every devotion doesn't disappear but piles up... It is the moment of tears and that we have been waiting for and become one and move forward and more strong. You will be able to resolve problems. Heaven will remember until the end, until fulfilled..

True Mother is trusting us and as Her children, you should belief in the work of Heaven.

Despite a thorny path, we only saw the will of Heaven and moved forward gracefully. As we welcome the new phase, you should not lose... your essence, should move forward. If you do that, this world that has been persecuting us will absolutely come back. So, have the heart to love and embrace and move forward with that..

What decision are you going to make, a short path that looks nice but leads to hell?... There is a world that Heaven wants and if you think about it, how can you not walk the difficulty, even it takes a thousand years, if you can meet True Parents and yourself and a true family, how to deny that path... you are not alone but entire community is walking with you...

You heard about since 2 years old, the child open to the spirits... The mom had been guiding that child since a young age and that is why we have work of conscience, even if a parent hasn't been attending church for 20 years, that person came back. Spirit World is actually very close. Once you feel that Spirit World close and because Spirit World transcends time and space, Spirit World can come into our heart and create resonance, oneness...

Tomorrow we will have special guests from Korean Clergy Leadership Conference (KCLC). This is not a coincidence... the Directors don't have time to speak but they told me that they had to speak something. So, this kind of amazing work of Heaven and righteous people are rising up and all the Peace Ambassadors, we must bring them to rise up.

You... brother Anho-yol is very busy. Many churches are inviting him to come. Today he met the Peace Ambassadors, and he shouted at them, truly I'm certain the righteous people will rise and stand up for us. So, we should not be discouraged.

Today, Moon Jeong Ha's mother has given birth to 7th children. She raised them up. She truly made a lot of effort throughout her life. As Cheung Ha lived a school life, she stopped living a life of faith and started drinking and even thought of suicide, but her parents made so much devotion.

Hwasun Church is one of the ones that offers the greatest devotion, that she was from, so that she did not commit suicide... and listening she was shocked to learn. As she joined the Workshop, she was able to experience True Mother's Heart, was able to join academy and cast out stains and blemishes... and raise up as a future leader...

True Parents proclaim the great goal of tribe and nation for Cheon Shim Won

Testimony of the sister who was a nurse and discussed with her husband to become a missionary.

Today we recited Family Pledge #7. Those in touch with original mind can't help but to live for the sake of others. So, our mission is to liberate, cleans and make revolutionary work through young people...

Nov 1st spirituality and attendance Workshop for this, will begin right away. The True Children always has that within the True Children and they will be the matches to ignite the people around them and also go out to light up other places...

80 of the last, will go out and they will receive abundant blessing and deep root their faith... Our fronther experienced the Spirit World very well... without faith, you cannot speak to the spirits or they will just mock you and do what they do. so you must offer devotion sincerely...

All the Cheon Il Guk leaders must raise your spirituality so we received the message like that... There was a pastor for a long time but encountered possessed person and not only the mother came but the father who hadn't come for a long time, he came to offer devotion...

He came to me one day and say for the first time his realization that spiritual world does exist. How could he be a pastor and preach and good energy of the Spirit World go into you just knowing it exists vaguely, but you must have the experience... like people in the countryside, where there is alway one person that has a spirit problem and Shamans would come and then knew spirit world exists, but nowadays it is just considered a psychiatric problem and put them into institutions...

Now we can liberate spirits go to the True Children in the Spirit World and be AGSs to come down to us with gratitude not knowing how to ever pay back and they are supporting us and if we make that situation, Heaven's power will be revealed to us...

Our National Messiahs and Church Leaders should be able to reveal Heaven's work through their lives and show it to others. True Mother has been repeatedly said to offer Cheon Shim Won devotions and move forward with Spirit and Truth like the early churches... Since FD She already told us but if there is a church that does not attend properly, they are in big trouble... Despite, True Mother has been recreating the organization of our church centered on Cheon Shim Won, but if you are not doing it, how can you receive blessing and power and grace.

The most important thing is Cheon Shim Won to find Spirit and Hope, even in the Spirit World, the only hope is Cheon Shim Won. That is the only Place for the path that spirits can go to Heaven to be reborn and resurrected to be children of Heaven.

That is why many works are occurring through Cheon Shim Won. Even if you are given such blessing of Cheon Shim Won, if you haven't been offering devotion, how would you feel if you're called to Spirit World the next day. Don't you think you would say, 'Please revive me for just one hour, so I can say what I wanted to say to them'.

One time when I went to the emergency room and thought I was going to die, maybe I should say last words, but I couldn't. So, after that I was very grateful that I was able to join the church and live my life for the church for True Parents. Because of gratitude, They have revived and resurrected me. That is why I'm able to stand here and give these words.

So, you must realize that with gratitude you can ressurect and be reborn, I hope tonight's prayer and devotion can be with your heart of gratitude so that you can receive the whole Heart of Heavenly Parent and True Parents... If you offer in such way, you will see your entire body trembling, your hands, your feet, arms and legs trembling, and you will speak your words without realizing what you are speaking.

Family Pledge #7 is truly amazing words. I hope through tonight I hope you can make a new resolve...
