Chanyang

Report of Mother. Hoon Sook Nim

The weather suddenly became cold but members are still offering devotion... gratitude. Applause to them....

Mother spent the weekend alone and I felt that it was very long and all of us were waiting for the sharing about Mother. Mother is waiting.....

As Mother came into the room, she waved her hand at us and welcomed us with a great smiled. Her clothing had changed to thicker ones than before, and I was relieved for her wearing something warmer and waiting. The meeting began right away... as always True Mother asked, 'Who came?'

Shin chul nim said, 'Moon Hoon Suk, Moon Shin chul', Moon Shin heung, Kim Shin Seong, Kim Yu Sang These 5 people came.

Mother said, 'Kim Yu Sang, how is your health? How was your weekend? What have you been doing?' And he bowed and True Mother smiled gently to hear his voice to True Mother, he said; 'Weekend, how can I spend it well?' True Mother (True Mother), I wonder how Your health is and whether you have been working out a lot. I am very curious.' And True Mother said, 'You don't need to be curious about it. If you experienced this place... (and She couldn't continue Her Words) and after a brief pause, True Mother said, 'All you have to do for now is to wait.'

And True Mother asked: Kim... Director again, 'What have you been doing?' And again, he did not answer Her directly but said, Shin Chul and Shin Heung are doing very well and just like NABI Movement in Japan, they are gathering young people... They gathered 1,500 youth and doing street speech and parade sending the message that Unification Church members are happy.

True Mother said, 'You are not only representatives for the nation but for the world and for the Rights and for the Truth, you must move forward.'

Shin Chul Nim said that on Friday, Five members of KCLC came and offered vigil today, and as I saw Pure Water (pure youths) offering praise, I could see Heavenly Parent is with us and glad to see them offering praise. I hope the Christian youth can be revived just like our brothers and sisters. Upon hearing this, True Mother said, 'Really? What about ACLC pastors?' Shin Chul Nim said, 'Mark Burns came to the Detention Center and it was in the News and thought they said he came to meet the President. I'm sure the truth will be revealed soon.'

Then Kim Yu Seong Director said that the Prophet Radebe will be coming to Korea today, and tomorrow he will offer you greetings. True Mother said, 'Please take care of him well.' I hope that you can send a message well. Director Kim Il Jong said Director Kim and I wanted to move here to be close to True Mother. But True Mother said why do you need to move here. You have many things to take care of where you are. I told you to educate with the Epic history and chosen people have responsibility and not to repeat the Israel history. Education is very important, and he mentioned that there is an act in Korea, and because Jeong ah is too young, she cannot watch a performance of acting but hopes to go there with True Mother, and True Mother said, 'The good day will come soon'.

I told True Mother that the cranes came with the rainbow at Cheon Shim Won, and True Mother said that was really joyful news. I also told Her that Heavenly Parent (Heavenly Parent) is with us.....only 2 minutes left and Kim Il Jong said, 'True Mother, You need to exercise.' and True Mother said, 'Taking a walk is not easy for Me' and True Mother wanted to say more, but the time ended, we couldn't hear Her Voice. She was existing, but gratefully, She was wearing white sneakers instead of rubber shoes. So, True Mother with heart of longing for Her children, spent the weekend, waiting to see us and truly wants us to become the lotus flower in a dirty lake, fulfilling our responsibility.

Israel did not fulfill and crucified Jesus. The disciples scattered afterward. His disciples offered prayers and services underground not to be caught but 3,000 years later Christianity became the world major religion and the Bible is the major book.

True Parents's have been send, revealed the way of the Fall and the history of the Providence of Salvation. Mission of the Messiah in short time of 70, 80 years for foundation no one had ever established. New truth and prophets have always been persecuted, but we know Heavenly Parent is with us and I am certain, one world family under Heavenly Parent God will be re-established soon, to accomplish the Dream of Heavenly Parent. As we attend Heavenly Parent and True Parents, unceasingly moving forward, we have been unceasingly doing our responsibility but as we have been ignored by the world, we need to comfort True Parents and fill up the inadequacies, settle things down, have a new heart and body to make victories in your own areas. As I see the devotions of our members, many are moved to see us.

The acquaintance of many years ago, called me and said, I'm sure many good people are with you and whoever I meet are very respectable people. I don't know your faith completely but this is a testimony. Many Absolute Good Spirits (AGSs) will come and work with us. Let us move the Spirit World (SW)...

We had the Autumn Great work. Many gathered and beginning with the praise. We have gathered, praised and saw the nature of the beautiful rainbow and the crane came into the Training Center (TC)...Rainbow represents the promise of Heavenly Parent, new start and restoration of the earth... This bird white heron, represents purity and elegance. These birds coming into the TC, symbolizes the purity of our True Mother. I'm sure this is the sign Heaven gave us because our devotion has reached Heaven. I prepared this video to see True Parents love through nature, TY

Testimony

3rd among 6 siblings of 2 sons and 3 daughters

My family and I used to sit around and my mother always read Hon Dok Hae (Hoon Dok Hae/Reading the Truth) to us, kindly explain them and pray for each of us by name. I believe the root of my faith began there.

I majoried in theology and overseas mission at Sunmoon University. After 2nd year went to Russia and received Blessing there, I secretly returned Korea to surprise my mother at the place she was working. I saw her across the street on a cold winter day and tears... She was selling bread on the street. Seeing her thin, shabby clothes while earnestly selling bread, I realized that she went through such hard work to send me to Russia. She told me; it is not shameful to live a poor life before God...

I made firm determination, no matter what people say to call our church heresy or a cult, I would endure to the end with this church. My husband and I went to Minnesota but by some problems, Second Generation (2nd Gen) fell away. My husband and I could not stop them from leaving. No one would take responsibility. Then I worked for a computer programming company. I was accepted in a company of my dream, but had a dream of True Father who was concerned... We became the pastors and we sold the old church and bought a new one but great trials began. In the church there was a counsel even above the pastors and wanted to create a church by their own vision. Since my husband believed that most important thing was True Mother's Vision, we came into conflict with them. Some 2nd Gen misunderstood and criticized us. We were almost dismissed by the counsel. We asked; how long we should continue in this ministry. One day so exhausted that we thought about quitting... (but by the grace and love of Heavenly Parent and True Parents's I realized that they were not alone. Encouragement came unexpectedly and they went on to resolve it, redetermined to be closer to Heavenly Parent and each other than ever.....)

Testimony

eldest of 2 daughters

16th spirituality and now attendance Workshop.

Love encountering different cultures and people. I wanted to be friends with all people around the world.

Boundless support of my parents, and university, I desired and I thought getting a job in a big company was the standard of success, resolved to be a person to give love to others, not be shaken by society's difficulties, lost individuality but became someone who was expected by others, experienced hyperventilation. My husband did not blame me but came to Japan to help me...

I often skipped Cheon Shim Won devotion using tiredness as an excuse. To seek answers at the vigil and saw trainees shouting, I wondered; how could they devote... what was their reason? I decided to put down my job and return to Korea and join the Workshop.

Hearing the arrest warrant for True Mother, I began devoting for Her health and safety and counter for calling out and be a representative. We all offered until dawn and determined and the moment I took the microphone for the calling out, I heard that Mother's arrest warrant had been accepted. I realized that my devotion was not sufficient. I realized that She had decided to take responsibility for Her children and this nation's shortcomings...

I had come to doubt true love, and began to read True Mother's autobiography. I read a sentence that because True Mother embraced true love, no resentment remained... She forgave with true love. I am, too. I determined to overcome my fears and wounds and carry true love in my heart. Think as Korean and all people as my children, sharing a true light of hope and changed my studies because of the 2020 proclamation. To study..... environmental protection so that descendants can look at the blue sky and each have hopeful day. Just like Jeing ah Nim, I wish to serve True Mother and made determination to attend the Workshop...

My Gratitude to Heavenly Parent, True Parents, members of church and all the Workshop staff who devote themselves day and night with great passion and love... TY....sincerely I love you with true love...

3rd HJ testimony

Yamasaki Aya

2nd daughter

By grace and love of Heavenly Parent and True Parents, I completed 40-day and spirituality Workshop. Now I am attendance Workshop...

My Mother had a difficult life from childhood, suffering from spiritual situations. My father went to play game. I was afraid she would die and no hope for our family, but then I joined STF and came to believe in Heavenly Parent as my True Parent. The spirit world is not just a place of fear. Heavenly Parent had never given up on me and my family but continued to love and believe in us and me..

I majored theology but it s difficult... I afraid of people's eyes and ran away. I was diagnosed with adjustment disorder. I attended a 40-day Workshop with my mother and joined Top Gun and spirituality

Workshop to grow further in faith... Heavenly Parent allowed me to meet one trainee and practice love for them by going through difficulties in Workshop...

From the first encounter, I felt familiar because she has the same name as my older sister who suffered alone since she was young. She then told our parents just several years ago. I had spoken to her sharply. I had such pain of regret for that. So I approached this trainee with the heart of a parent... It was a struggle to let go of myself so I asked Heaven for help. I asked how Mother would speak and act with this trainee. I felt Heavenly Parent saying, 'I believe in you forever and I love you and also, 'I'm sorry'... tears...

During the Workshop the trainee's mother also came and we talked and overlapped with my own mother. My mother is my mother but from the viewpoint of Heavenly Parent, she is also a child. I could sense the heart of a parent that wants the child no matter what. Because of the hope I saw for my own mother, I felt hope for this trainee, who also cried for me, and I made determination for her and my mother for the sake of our family.

But also I felt that because I am lacking, I cannot love anyone. but Heavenly Parent sent me a child that I can love and I am determined to go toward the children that Heavenly Parent wishes me to love to...

After completion of H Top Gun the next month of march, I can be a child who can spreads Heavenly Parent's Love. Do not forget that I am the child of Heavenly Parent and True Parents... I am gratefull and I love You...

Testimony

She bows

Fifth daughter of 6

Until now, my life of faith is temporary, I am practicing it only when I felt like doing it. After seeing my friends from the Dept. of Theology who had gone to the oversea's missions and witnessing the transformation, the dream of mission work began to grow in me. They said that by encountering difficult environments, their spiritual center was established.

Because of Covid, I lost the opportunity, but last year exchanging with my husband who was a missionary, I again wanted to step out in my comfort life, but doubted myself who has not witnessed to a single person. How to witness to others abroad. I decided to participate in the 16th spirituality Workshop.

When I saw that the Workshop was entirely centered on devotion for True Mother, I began to feel doubtful and wanted to quickly find my own center of faith. I became impatient, feeling this was not the way for me personally to grow spiritually. The painful reality in my heart became even more complicated.

But on the day True Mother was taken to the detention center, through the words of the Workshop coordinator and lecturer, I realized my faith had been based on my own thoughts and desires, focused only on my own growth and unable to lay down my circumstances and truly unite with True Mother.

I asked, how have I been living my faith until now? Have I engrafted True Mother's Words in my heart and practiced them? Have I lived with True Mother's Heart in mine? I had only loved True Parents outwardly, not sincerely from my heart, only receiving and calling for parents and clung to them begging for help, only understanding Their pain and suffering intellectually, not emotionally. Thought it natural for parents to forgive their children and love unconditionally.

I learned about the status and value of True Parents and Their Life Course. I forgave while walking the difficult path in our place out of love, not to be thought of as natural or taken for granted. Only when I saw True Mother sacrifice Herself, then I realized that how important the responsibility of a child is. I repented deeply, having forgotten the humanness of True Mother, who had given birth to 14 children. How many times must She have wanted to run away in Her Course. My heart aches with guilt and cannot lift my head.

After Father's Ascension, who could understand Her Heart? Many of Her children left Her, but Mother said, 'I have to do.' She continued to move forward to keep Her promise to True Father and fulfill Heavenly Parent's Dream.

True Mother, I'm so sorry not to understand Your painful Heart until now. If only we had awakened earlier and practiced Your Words sooner to lessen Your suffering, maybe this such present situation would not have come... True Parents are the ones Who love unchangingly. I reach Their Hands and say, 'Let's go together'

I received teachings from HyoJN. He said my name is my mission. Ko In Hae, means to share love for the sake of others. Just as HyoJN lived remembering the meaning of his name, 'filial heart,' I will become as my name... True Mother, from now on I will become one with You and bring You comfort, attending safely and go to the mission field and acquire victory without fail. True Mother I love you

Testimony

Kong Mung Min

Attendance Workshop

2nd daughter

This spirituality Workshop was more difficult than any other, but also more joyful than ever. I came to believe in and love True Mother uniquely and to live my entire life for True Mother.

In fact, I stayed far away from the church, thinking there were too many things I had to keep and too much I could not do. I thought that every problem in my life in our family came from the church for no reason and I hated the church. I was distant from them and felt they would be perfect if I weren't there. I left and spent days only working with no contact of them. I felt recontact them was not really so possible...

At that time my mother said when she saw me, 'It seems that satanic has covered your eyes to see the future then walking on a good path.' The situation was that bad, but a turning point was the time when my older sister's engagement ceremony. She had kept her hair short and was optimistic to the boy, looked beautiful more than anyone that day and my mother looked so happy. I felt that I want to make my mother happy too so I will be happy too.

Before realizing it, out of my mouth came the words: 'Mother, I want to go to 40-day Workshop. Even I was earnestly praying, I felt no confirm center in my heart. I did not truly love True Mother. I had desire to be one with Her. I decided to go for the spirituality Workshop... At the time of Mother's warrant was being held, I spent the entire day in CP. Pray offering for True Mother's safety and well being, but it was actually a desire for myself to confirm how much effort I was making during this time... I came to feel deeply how I was really self centered. I used to comfort myself that I had done enough, by how long or how hard it had been, but I realized that what truly matters is not the external things but whether the devotion was truly for Mother or offered with a heart that Heavenly Parent could joyfully receive.

Tears came down...I am realizing my devotion was far smaller than those even who denied True Mother. True Mother had no choice but to walk another thorny path. I resolved to offer all my heart, not just formal devotion. I resolved to resemble Her... Even at times I should have been in earnest struggle..

The words came in my ears, 'If you have yesterday the same as today and expect to change, that is madness'. I resolved to live each day differently and ask myself, 'What kind of change does Heavenly Parent desire from me? I felt it was to overcome things I feared and disliked the most, so I decided to face that, like fear of attention and standing out. So I made deliberate effort to speak louder and participate more actively during lectures.

Among all possible things, I chose the devotion I wanted to do. I woke up early to do 120 full bows and calling out name prayer, and began writing a gratitude journal to face the difficulty with my own emotions each night. After vigil prayer reflecting on my day, trying to keep True Mother at the very center of my heart, and at first it was very difficult and exhausting, but with time, I felt if I can bring protection to True Mother, I would gladly to do this again and again, and thankful I could offer with my whole body. As I continued, I began to see change in myself each day.

Having always remained in a passive, receiving position, I now came to take a lead position in the Workshop, wanting to lead everyone and centering on True Mother to embrace others with love and felt Heaven raising, nurturing and transforming me. Then one day the first thing at Cheon Shim Won vigil, tears began to overflow. During the resonance ansu and Chanyang, I could not stop prayer, crying from an unexplainable sorrow. I realized that these were not my own emotions, but could it be True Mother cried like this endlessly every day.

Until then I only viewed Mother as the Messiah, Only Begotten Daughter. I had not truly loved Her as a human being and assumed whatever trials came, She would always be under Heaven's protection. But True Mother as more human, I realized She must always appear unshaken before Her children, even while bearing unspeakable pain. Only because of True Mother's tears and devotion unseen, I am able to stand here today, and by Her grace given to me the opportunity to take responsibility.

Because the children did not fulfill their responsibility, True Mother Herself went to the lowest place. I resolved that from that moment to protect True Mother with tears and devotion, and for the first time offer prayer that I will stake my own life for True Mother. I felt the seed of my faith sown and that I'd become a true child, not just protected by Her, but protecting Her, deeply rooted in Cheon Il Guk, always centering on and united with True Mother, becoming Her Eyes that see and Her legs that walk.

I am happier than ever, simply because the purpose of my life has become one with True Mother's Will. Only now can I truly be myself, trust and love myself, with the desire not to keep this happiness to myself but share it with everyone, I make the determination to join 4th attendance Workshop and 9th Spiritual Academy... applause

I will practice and share the love that I have learned... True Mother TY and I love you

Pres. Lee Gi Seong Message

More than 50,000 gathered.

Shin Chul Nim reported the rally with more than a thousand members. Prophet Adebe and Pastor Mark Burns, they should know they are the chosen people. This is the responsibility. Now especially is the time to go out teaching Epic History...

Our brother Kim Myeong Nam took the shots of the vision we never saw before with the rainbow and the white bird coming...

Testimony.... Older sister of the one who usually sings at the vigil, her difficulty with her heart and True Mother. At Cheon Shim Won, she cried and cried and some say it is too quiet and cannot pray with all our heart Please make it more noisy, so we can just cry out loud. True Mother gave us the words we could always offer praise crying out loud... We need an environment more to invite that spirit...

As we do everything, she offered 120 days and her sickness disappeared. In front of our brother, she danced...

Our sister with psychological issues, set a new start

Spiritual problem with her mother... not easy to spend a night with someone with a spiritual problem. She didn't have a father there and our sister was right next to this mother... Both parents changed and they

became CheonBo family and she was the coordinator of the Workshop. She took care of the trainee and many were moved seeing how she took care 24/7 and really like her sister... applause of encouragement....

She approached the trainees mother also to give her hope and resolved to be an overseas missionary and receiving words directly from True Father to be a leader..

I remember the sister by her parents as the most faithful. Because of her mother's devotion, she could be moved suddenly one day to transform so much...so many extra conditions, sincerely... and even at the risk of her life, a new start...

This sister truly grew up very well. She lived in Japan for 5 years, felt limitation. At Hanon House while resting, she saw the word 'Be wise and truthful. Believe in True Parents's Words. Then she went to America and volunteered herself and her voice changed to a voice of resonance prayer and as she worked diligently, her family was restored and she is an amazing leader.

Opening ceremony today, True Parents Words we read, 'The devotion offered in the past will judge who I am today.' And True Father was always live this way... How to allow one moment of self-pity or indulgence to remain in His environment and Heavenly Parent should not be the one who could accuse my devotion... The devotion offered for the will would judge Him, True Father said. What would happen if True Parents's devotion or elder's devotion would judge or accuse us, how would you feel...? If True Parents came to ask how dare you live like this on the foundation I have made for you? We need to accomplish our responsibility... The ones at the vigil, finished at 1:30 offer greater devotion, instead of being judged from the past, the SW would come down... and see miracles happening...

KCLC pastors came and amazing works happened...

From Pakistan, an Islamic country, but Misha Wakasu, within Jesus' Family Church, they held an event and named their church 'Family' Church and this person was on the news. I hope Cheonshim Weekly will have this story... Lahore is the 2nd biggest city in Pakistan protested for the arrest and demanding the release of True Mother... And held special prayer gathering and pray card and they moved... throughout history, they said They are people who have sacrificed without compromise for themselves. She has overcome the boundaries and gathering people's heart throughout the nations and many around the world have respect. The pastor asked for the quick release of True Mother and this has been released in Pakistan news... applause

Today through prayer, I hope you experience like this...
