Inaccurate Automatic Translation

Good morning to you
I hope you're doing well
1427th Tianxin Court is dedicated all night

Summary

I saw footage of my mother who was released today. Headquarters Yukitetsu of Unified Martial Arts, who took his mother's hand and came out with him, and when he was doing his best, he was suddenly struck by lightning and said, "What are you doing, hurry up!" "Hearing your father's voice, he ran to meet your mother. Mother born in 1943 came into the world after 43 days as father acted as a role.

The branch reports that your mother was pleased was a prophet Hadebe. When your mother said, "I am doing this to educate this people," the prophet of Hadebe stayed in order to give back joy to your mother, and tomorrow he will speak the word. Prophet Hadebe said, "We left all the conference schedule and

came to Korea with his wife 16 hours to meet Holy Mother Han with his younger child." I was very worried that my 82 year old elderly mother would be okay in this kind of environment, but I was very happy to see her face shining. I wanted to empower my mother, but she said, 'Don't worry, my Father and Father in Heaven is taking care of me,' but rather she worried about me and my family. Mother is very concerned about the Republic of Korea and told me to go outside and inform the Korean people and Christians. You all have to be stronger. Relationship grows in difficult times. Going through difficult times strengthens my relationship with my mother. When your mother comes out, you have to be stronger than before. During this time of year, talk to your mother more closely. Our energy should reach mother. Because energy is transmitted. Being here is not a waste of time, this energy is giving your mother strength. Thank you from the bottom of my heart and left some very touching words.

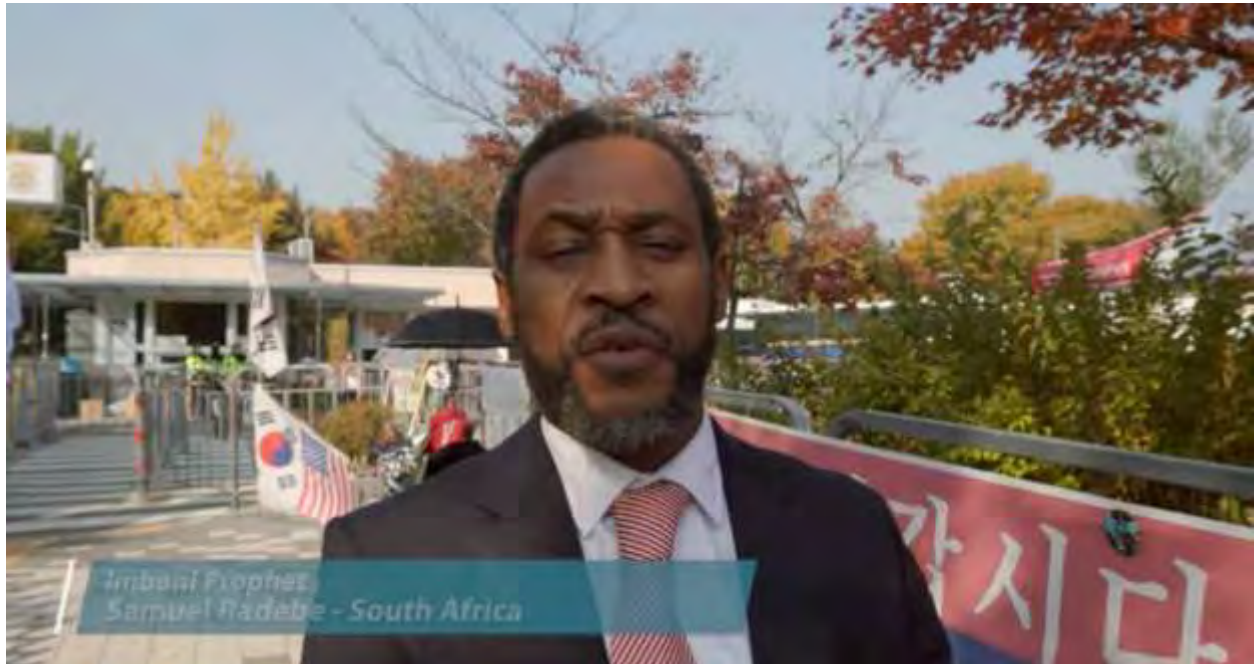

Proof of Resilience Academy Student

I had been dormant for 7 years, but when I did 1000 adoration every day while taking the spiritual academy, I met Heavenly Father and felt the joy of my cells dancing and everything dancing. After becoming the captain of Tenshin Goods, a creative idea came to mind when I cried and prayed every day for a month, and I created a mood lamp so that you can feel your mother's feelings of your father while looking at the moon, and your father's feelings overlooking the earth. If you trust in Heavenly Father in any situation, continue and do your diligence and proceed with confidence, there is nothing you cannot accomplish. I set out, determined to love it despite my shortcomings, and live with a heart that says, "What would a true father do." Plus only allow heaven to play hopefully. All provincial agencies and corporate entities should be prepared to fulfill the words of your father, who said, "If you do anything less, you will be driven out of the public law of the universe," Heaven will teach you if you cry fervently and pray for a month. If you move forward with this kind of creativity, you can become the master of heaven.

Some people have been going to church for 40 years and still avoid praying. The place where you receive training in prayer is Tenshin Resonance Prayer, and by praying out loud we open the gates of prayer, and we train ourselves to receive benefits from the prayer of the monks. He is young in his 20s to 30s, but he has become an expert in teaching command prayer, calling prayer, prayer to interact with heaven, and separation of spirits. If you are going to enjoy the Tenshin Zen prayer and experience the Heavenly Father and Mother fulfillment together, you will believe that the flame-like service of the entity Holy Spirit will pass Korea and New Japan and set the whole world on fire, and the day when Holy Mother Han will embrace this universe Earth Star is approaching.

Impressions of KCLC International Chairperson who participated in Tenshinsai All Night Prayer

As thousands of people all over the world, united on Zoom, called out God's name in the same rhythm, in passionate prayer as one giant spiritual heart beats, I felt profound emotion and awe. Especially in the voice of pure waters, there was an uncalculated purity, a genuine, genuine and genuinely intense towards Heavenly Parents, felt as a fragrance before the Lord, who opens the gates of Heaven. I saw the flame of the Holy Ghost burning with tears, as he raised his hands in praise. I wished that there would be a wind of youth revival meetings in Christianity again, and that there would be sacred relay in which the generation of young adults rowing in the world and in matter would come back to church again to worship and devote themselves to God. I was eagerly hoping that someone's beauty would move someone's heart, and that wave of emotion would cause the restoration of the whole world to awaken souls. It was a vivid evidence that God is at work in this generation. Thousands of saints, crossing language and culture borders, kneeling to God with one heart, was a union of love that melts all divisions in this land. With every prayer and praise, there was a sudden cry, saying, "Use us." I am sure that God will never forget the tears and beauty. Answers for peace, unity and world reconciliation in the land will surely come. I am confident of the day when the seeds of faith planted in the beauty of young men will grow and become great trees in the kingdom of God and embrace the world again. Hear their prayers and open the return of the President of South Korea quickly. Let the flame of this prayer unto the Lord not go out. The sincere prayers of the household union will cause spiritual awakening in this nation, and we will spread throughout the world, believing that God's will will be fulfilled in this land.

With our hearts burning prayers, we will inspire the world and move beyond Divine Unity Korea to the Divine Unity World. I hope this is time for you all to hear the resonating voice of your father.
