Summary

Proof of a trainee

Despite the difficult circumstances, she miraculously gave birth to her eldest son, but she was born with a disability. After that, she gave birth to her second son safely and lived a peaceful life, but her eldest son, who had never had any problem behavior, suddenly assaulted the teacher at the disabled child protection center and broke things, and even though he was admitted to a mental hospital, he didn't get any better, and he experiences a life of unimaginable anxiety and fear. His father also took a vacation, and the second son who had been away from the church for 10 years, together with the family rented a room near the Shuren-tei (a school of training) and went to the Katechitsu with the whole family to organize the central spirit and devoted themselves to their devotion. Then in 10 days the night of horror disappeared and a miracle happened that the whole family had a peaceful night for the first time in a month.

People who have never experienced this must often come to the serenity of the Holy Spirit, where they have no idea when it will happen to them. It is emphasized that Mother must be the Messiah of the three ages past, present and future. We must be blessed families in this fallen world blessed by true parents and families that live up to the name. What happens in the journey towards achieving the name of a blessing centered household, a clan Messiah household, and a Tenji household. When it becomes dormant, the unbelieving spirits descend and become the central spirit. We must become families that seek to restore the share of responsibilities of righteousness through worship, life of offering, and practice, and achieve a life of faith through sharing of responsibilities. There will be great blessings if you take this testimony as what you have experienced and move forward.

**Testimony of the Academy of Resilience**

After hearing the information report, he received great benefits, and passed the 40-day training, spiritual training, academy, and Moshim training, and realized the feelings of his brothers and sisters. Resonating with Koshin-sama's sentiment and love, he learned to love his younger brother with disabilities, and he started to serve as a counseling center for his struggles like his younger brother. Thinking about how to convey true fathers' love and favor, how to conduct them with a heart that replaces them, and when they do their best not only to the hand but also to pray for the name of the person receiving the hand, they experience tears flooding with resonating with the feelings of the father and mother even if their hands bleed. A miracle of healing occurred that a person who was unable to operate due to a major cancer, but the cancer became smaller and could be operated easily with his hand.

When you report the role of healing to your mother, she says, "My mother has done a lot of hard work." Grand Mother working through my body. My parents use this body as a tool. Thinking, "Thank you for

using my body," and also grateful to be able to walk well at 70. Saying hurts here hurts there but gradually it's sinking. "Gratitude" creates a hedge from which the evil gods cannot come. "Lamentation" creates a glimpse that the good gods cannot come. Don't create a groaning space. That's why we praise when we gather. Praise can build a hedge to prevent evil gods from coming. Same with the church, no matter what position you are in, you must set up a standard of gratitude that heaven can afford.

**The Proverbs of Exodus**

""The uniting church of the whole world has become one, saying that your father is guilty." That's the surprising historical connection. In the history of order, everything has been linked. This is an opportunity for God, Father and the whole world to be in the same position. Hence, it's another historical turnaround. It's time to emotionally occupy one higher ground and cross over. We must become lions, loyal retainers, and fierce women. But the lion comes out in difficulty. Loyal subjects are the same, that country does not come out in comfort. When the situation of a country hits the final nail, and the whole dies or lives, those who, at the risk of their lives, gave all their diligence, fulfill the responsibility of turning the fortunes around and solving the national crisis can be called loyal retainers of that country."

If we all come together with one heart and one thought in tears for our mother's struggles, that is itself a surprise and a miracle. I believe it's time for historical turnaround and a surprising change will be made in household unions and heavenly principles. Thinking of my father Danbury, I hope that today will be a time to pray with all of our strength so that we can become a tipping point where we can emotionally occupy and cross the higher grounds.
