Good morning to you

I'm sorry. The order has been reversed

1432nd Tianxin Garden is sincere all night

Summary

Today is November 11th, when I informed my mother that the Tenshingen all-night seismic 1111th session would be held at the World Center, she was instructed to hold a "Determination Competition for Victory in Tenjongu Shrine Tenichi Seiden." I thought that day would be a celestial determination ceremony where Heavenly Parents, True Parents, Heavenly Parents and Mothers, Heavenly Privilege, Promotion, Great Mother, Absolute Good Spirit, and all blessed families will be united on earth. After that, despite many difficulties, he was able to surpass Tenichi Seiden entrance to Tenjongu Shrine with a great victory. It was reported that Nobudesama received an extended hug when she was sending her mother to the detention center, but she received the love of her on behalf of us. I hope we all move forward with one heart during this difficult time.

Thoughts of the trainees

I visited the special prayer room for the first time in 20 years, and devoted my devotion to prayer for two days, hoping to become one with my true mother, and suddenly the words "your tears are beautiful" came to mind. From then on, my prayers became deeper, as if the heavy shell that had covered my heart had been ripped off, and I could feel peace. The sincerity of the mouths that were with us became united, and we all experienced it going into our mother's stomach.

The evidence of Sammonim, the second pastor, who participated in 40 monks

Instead of participating in a rough position, I set a goal to become a daughter of a true mother, but I put myself in a position to receive noble and benefit. I was impressed by the resonance lecture, and as I played the lecture thinking about my mother's body, tears overflowed, connected with my mother's feelings. Through the resonance hand, it is a time to realize your body like your neighbor's body. A mother feels her child's pain as her pain. Resonance Shinte is one of the practices of thinking about the pain of the neighbors. Before I realized my long-bothering symptoms of depression were gone. And as I prayed in the tree of love, I heard a voice of heaven saying, "You are like me, for you love even such a small flower." Father said if the frequency is right, there will be workers.

We also need to be able to hear the voices of Heaven. And I heard a promotion saying, "Please protect my mother." Father is always interested in us as the God of the day. When your mother goes to the spirit world, you and your father will work vertically. Before she went to the spirit world, she was instructed to raise a second generation who understands her mother's heart through Tenshin-sai Seishin and spiritual training. Never in a lifetime should experience hearing the voice of heaven. Through praying for his

mother's name, this person gained the precious enlightenment that she had been with her since she was born. When we go to the heavenly world we will be reborn, but for that we must have our mother with us. It is also said that when you bury your flesh in the ground, it is the same as when you go inside your mother's stomach. We have to go to the spirit world and enjoy eternal good fortune in our father and mother's bosom. For that reason, we must be devoted to our true parents.

Message from Father

"Heaven is done with us. How much do you guys believe that. Heaven serves where there is love. Where there is no love and no righteousness, how can heaven do the work? What is the blessing family that spreads all over the world? Isn't true love. In order to make a comeback in the world, true love must be done first. You must give first. When you first stand up to tell the truth, they too will understand. Those who have known the will before and have known the spirit of heaven will rise up, and their offspring will follow. Heavenly Father is always the one who gives love first. He who gives and forgets not giving, and gives back love. So don't hold a grudge against someone just because they don't come back from you because the love and integrity you put into them seems unfruitful. Thou shalt not judge. It's pathetic that you don't even know the fact that you received love. Heavenly Parents, they should stand up until their children understand that the love of true Parents is always with them. Until then, your mother will be waiting. Until the time this nation understands heaven's will, heart, and love, he waits with love without limit. Such love and eligibility never fails to fruit. When the heavens are with us and are ministering on earth, how can we give up? Those who feel the presence of the Heavenly Father shall not be broken. It doesn't shrink. Loving without limits, loving even more. Even though tears are shed, tears shed with love's pain, recovery is possible through love. Therefore, let us give thanks to heaven for the infinite love that we have received from heaven. "

A lot of people in jail don't have anyone to grudge and criticize someone and appreciate them. Such spirits descend and mother is in a great spiritual atmosphere. Through Tenshinki Seiji, only the place where your mother is, the absolute good spirits will cover it completely. Even in your dreams, if you can have time to hug Amaishoshi, and have love dialogue with your feelings, your mother will also receive comfort. Every blessed household in the whole world must be devoted so that evil spirits cannot penetrate. I hope that such fortune will cover not only the mother but the entire unity family and become today's prayer meeting where the offices of the living heavenly father will take place.
