Summary

"World Super Religious Clergy Peace Rally for Freedom of Religion" continues to be conducted to mobilize the spirit world. We must move the background of the underworld so that the righteous can participate together. From now on, religious people, political and economic people will also rise up and believe that there will be a role to become one with your mother.

Reporting from Hyogo Parish food

After seven years of dizziness, he couldn't even stand up, and he couldn't get better. After entering the shrine ceremony, he thought that the time had changed, so he decided to discharge the central spirit, and

he stopped falling after that. By practicing the word of heaven, I felt that the spirit world would do all its power to guide me. We need to feel the central spirit operating through physical and physical torment.

The evidence that I was moved to hear the report of Mr. Okinawa. Throughout the report, I felt her mother's warmth and breath, and her love and deep faith were instilled in her. I felt that a mother who was more concerned about others than herself, with a peaceful heart that never wavers in pain. Only saying to be one, love one another and heaven's will be fulfilled. Obeying his words is whoring and practice of faith. Upon hearing the tearful report, I became one with love and forgiveness, and decided to practice what heavenly wishes so that your mother could be released soon and returned to Tenshogu.

Proof of being a student

After graduating from Unification Seminary, he went on overseas missions regarding public office, but he became panic attacks due to unknown unease. It is written in principle that an anxious heart comes from the works of evil gods. Life seemed meaningless, living like a machine without emotion. After eight years, she had a baby girl, and she had a change of heart when she became an object of love. I was moved to hear the evidence of the food that I participated in online all-nighters, and I took courage to participate in 40 shu (40 shu). When I heard a saying that complaints and complaints hurt the spirit, I put the evil spirits together with loud praise and prayer, a heart of gratitude came out, a heart of loving my children and gratefulness for my parents, and I came to realize that I was loved by my Heavenly Father.

Kun-doku only words: 'How can the spirit world be mobilized? You just can't receive assistance from the spirit world if you're told to. I have to realize the words "decision to life and death," practice and go all out. That's why I say practice it. Report before heaven daily, saying, "Be all who move with heaven." Looking back on whether your past actions were meant to be aided by

the spirit world, you have to decide to live or die, give it your all, and practice true love as the center. The underworld is a place where love is made, and without love it is choked and cannot resonate with the hearts of the father and mother. Evangelism is how much love we planted as the center of true love. That is where you all receive good fortune. And if you move forward with the heart of evangelism back into the environment, Heaven will take charge. That's why you need elaborate. "

Ignorance has no completion, so we must educate. Heaven has already taught me, so if I can't do it now, I can't practice it. If you decide to practice the decisions of life and death with the heart of your heart, then the good spirit will definitely be the role. If I decide to die, go all out in prayer and get my spiritual body clean and organized, my sexual phase can shape and change individuals, change homes, change church environment. I pray that through this diligence, it will be a time to be spiritually organized and see results.
