Summary

Going to the Holy Land of Jerusalem there are olive trees in the Garden of Gethsemane where Jesus prayed. You have to live a life of faith that puts down roots and grows deeper than an olive tree, but I also see many people who are rooted and depressed in the world. Tenshinkai Seishin is given the trigger to put down its roots. In the second world, spirituality academy, and moshim training can bring down the roots of faith. Even if something is difficult, if you participate in the training session as a place for a fresh start, work hard until the root of your faith comes down, your fortune will be opened.

Shuyo, who gave evidence today, was also a person who lost the roots of faith. There were many difficult things while living a social life, so I organized my workplace, participated in 40 shu and started anew. If

you go into the spirit world thinking you can't stay like this, it's a big deal. I am moved by the tearful praise and prayer of the spiritual students at the training session. Don't be a church where tears are dried up for humanity, sweat is for fathers and mothers' feelings for earth. True Fathers were laid on global foundation, but I was told why our church can't develop, it's because there are no tears. The noblest praise is the praise of tears. Even when giving evidence, the evidence of tears is most influential.

There are people who leave the church due to brother-sister injuries while scolding their true parents as parents, but failing to feel like family with brothers and sisters. Those who have gone away cannot come back to church even if they want to. If you have such food nearby, you have to do your best to pray for them and serve them with their food. It is important how we achieve the food community called the World Peace and Unity Family Coalition. When you come to church you can feel the love of your family, the church automatically develops. Through the training session, this trainee's feelings were changed drastically, and from his troubled life, he began to think, "How can people who visit the church feel the love of Heavenly Father and True Father." Before and after giving Tenshinki Seijin, you have to inspect what has changed in yourself.

Even with a small number of people, I'm impressed by the way the shokuchi keep working hard all night long at every church. You can find many prayers in your father's prayer letter, "Remember the church president who is guarding the altar today." If you shed tears in prayer, the church will develop as many tears fall. As the number of tears grows one or two, the church is restored. If you pray for your mother in the whole world with tears, heaven will take charge and the righteous will appear and surprise you. When your mother was told only about Tenshin-no-suri, she was told to 'discover Tenshin'. Tenshin is the heart of Heavenly Parents and True Parents. Discovering Tenshin is not the end, but when Heaven is sad, there

is a resonant phenomenon that causes tears together, and Tenshin must become my heart. Enlighten the heavenly spirit so that all churches should enter into the words, praise, and life that resonates with the heavenly spirit. If your prayer cannot resonate with Heaven, you must keep seeking until it does. Some participated in the Resonance Prayer Training Meeting eight times. When heaven is fully settled through words and praise, the true kingdom of heaven is at rest. Whether the resonant subject is Tenshin or Satan, Tenshin is Tenshin Suri and Tenshu Yakuji that can organize the subjective heavenly world. Now is the final phenomenon of moving from Satan to Theocracy. After the proclamation of Tenichikoku, Tenjongu Shrine Tenichi Shoden was dedicated to enshrining Heavenly Parents as a real entity, if I still can't resonate with Tenshin and resonate with evil heart and become one with Tenshin, then I need to change my way of life.

Your mother is in jail, but your mother's spirit is free. A mother who created an era wherever she went, she could live in the eyes of her Creator Heavenly Parents. If I pray with the heart of welcoming the true father and mother into my heart, it will show up as authority and push out the darkness of the world.
