Good morning to you

I hope you're doing well

1463th Tianxin Garden is all night sincere

Summary

Christmas Eve in the midst of difficulties, I hope that the mother who struggles the most is exerted with a peaceful heart, the fortune of the mother's love will cover the darkness of the detention center, and that all prisoners will be able to start a new beginning in heaven's grace. Evening as she spends her 94th day, she is in front of the detention center offering special sincere gratitude to her mother's health and a speedy return to the palace.

The testament of 40 students: Their parents were able to lead their homes in peace, but they forgot to give thanks and began to attend church habitually and formally. When you see it from your mother, she has a lot of worries and prays, and she recommends 40 monks, and she participates in wondering that she has to go. I think I got pulled by mom's fervent calling prayer. However, if I don't feel anything at this training session, I will stop, so I will do my sincere and best in all the programs and actively participate. I try so

hard, but everyone is crying, but I felt a lack of faith wondering why I can't cry. When I thought about it, I felt my whole heartedness, tears opened up at the moment of synonymous resonance, and I could deeply feel my mother's feelings.

Proof of being a GPP trainee: I participated in the 40 training 2 times, but I felt helpless that I couldn't do anything for my father and mother, and for my family, so I prayed at Tenshin-sen to ask what to do, and I heard a heavenly voice telling me to go to GPP. However, when I was worried because I had no money for training, a friend whom I met like heavenly guidance brought me out. When I asked God why he sent me to GPP, he said, "To teach you to say I love you, so you can love someone else." I was able to resurrect a man who devotes his whole life for his Heavenly Father and for his family.

After the entrance ceremony of Tenjingu Shrine, it was said that they had to live a new life in a new culture. In all fields of lyrical cultural revolution, music and arts, you have to live a happy life by receiving role in the spirit world. Nishin-sama and Koshin-sama serve as a role and give them the ability to suit the person. Even in Africa, the grandmother is being played in empowering her abilities. There is no telling how many people will receive abilities through Tenshinkai. My mother was told that Tenshingo would become the most important regulatory institution from now on. If you have faith that miracles are happening in Tenshinzai and work hard, you can win by receiving comments from the spirit world in all areas. Wishing a blessed underworld interacting with the earth this evening on Christmas Eve. In this golden age of providence, when all the underworlds will come back and serve as a part of the revival, if our sincerity reaches heaven there will be service on earth. Believe that if faith is made, it will be done, and pray that it will be a time that resonates with heaven.
