Good morning to you all

I hope you're doing well

1465th Tianxin Garden all night sincere

Summary

All of us must gather our diligence, truly pray like war, operate like war, and win. Children must also pray like war so that they can receive training sessions. Darkness comes when you sit still and watch the press without praying. In times like this, if you work together with all your diligence while taking training sessions, you will surely win.

The detention center, which is entering its 96th day, was reported that "As one with Tenshinshi Seiji, we offer special elation to believe that today's tears will turn into tomorrow's liberation and glory, and that the path of struggle will be reversed to the path of victory."

This 2025, even in the midst of trials, great victories will be made. The number of educators in Honjo and Banchi exceeded one million. And the number of people who participated in Tenshinni's all-night seishin exceeded 10 million. If it weren't for this Tenshinki Seijon, could we have surpassed the axis of this trial? It was possible because the living Heavenly Parents and Heavenly Fathers acted as a role, the real Shoryo true mother acted as a post, and the absolute good spirits acted as an actor. Seeing you walk the path of great victory even in the midst of trials, I pray that you move forward with a stronger faith than before.

A message from Grand Mother

"How should we talk when your mother is in the center of a very difficult and terrible torment." Only way to become one with your mother. Holy Mother Han's true mother wants to live with you all, hoping to live and breathe in your lives. That's why I trust you all and I'm in charge. Sometimes you really feel like you can't see even an inch out of your mother's in jail. However, the true father and mother of heaven and earth have already taught us everything.

The way we are to go will never change before or now. It means to console Heavenly Parents who have walked through a hard path, and to walk the true family path, similar to the true Father and Mother, who are the real entities of Heavenly Parents, who live after the Heavenly Parents should have gone. No matter how much this world has persecuted us, pushed us into the swamp, and told us all kinds of stories, there is no change in the way we live.

頼むから信仰を持ちなさい、教会に通いなさいと
제발 너 신앙 좀 하라고, 교회 좀 다니라고

We didn't live for our community only, we lived for our country, the world, the heavens. This is the life of true fathers and fathers who walked in this way, and that is how they spoke. In all circumstances, we live in honor of our Heavenly Father and live with Holy Mother Han. Even after 10 years 100 years and 1000

years, forever we will live with our Creator Heavenly Father and our True Father and Mother who are entities, with our beloved family brothers and sisters. So everybody, please don't move. No matter the struggles, happiness, freedom and peace are forever.

The moment goes by when you blink your eyes. The concept of happiness, freedom, and peace were lost due to the decline, but now the period of heavenly Ichkoku has opened and the age of heavenly parents ruled the earth. Show it before the rest of the world. Though they drive us into a wild environmental area, our footing remains the same. Our hearts have only peace, only happiness, only joy. Even though we are sad and weep tears, they are tears, tests, and things to make us happy with our Heavenly Parents, True Parents. I hope that I will not change the lives of my true fathers and mothers of heaven and earth, and become families, communities, and extend to the world of nations. "No matter what challenges the world gives you, you have to conquer the challenges of today with the faith that nothing can change the great life of blood, sweat and tears with your true father and mother.

Noble Sutra

"We must carry the great cross. Personal trials and family trials were periods of preparation for building a clan foundation. Don't think that life is flat without trials and persecutions now. More range. Walking carrying the cross. Don't just stare at one right now. I need to watch east west north north. Teachers must serve the way God goes, and you all must serve the way teachers go. The teacher is on a more heightened path than everyone else. The God who guides the teacher is a step higher. True fathers are on a path more weighed than everyone else. God who guides true fathers also has a higher path."

Even though we say that we are now walking a difficult road and it is difficult, the one who is walking a harder path that is even more weighted than us is the true father and mother. True Father in Heaven, True Mother on Earth. He who walks through the baggage we carry hundreds of times a thousand times heavier. Thinking that Heavenly Parents are better to walk with more difficult baggage than mine, and if you have tears in your heart that you are the true Fathers and Mothers of Heaven and Earth who cry a thousand times a million times more than those tears, and live one day at a time looking to the True Fathers of Creator as an entity, the surprising work of the Living Heavenly Father will be done through individuals, homes, and churches. Thinking that no one will look back on my sorrows and pains, "My baggage is light, Father and Mother, please allow me to carry more baggage. "If you walk boldly, even with that kind of heart you carry heavy baggage, I pray that today will be your night in prayer, believing that Heaven will do the charge tonight.
