**Bow and Pledge #8**

---  
**Opening Prayer Of Gratitude**

Most Honorable Heavenly Parent

Beloved and Victorious True Parents of HEH

... TYSM, this 1,465th Cheon Shim Won devotion gathering.... at this hour please hold our body and minds solely according to the Sacred Image of H Parent/True Parents and allow us to become mature children who can fully shoulder Your Will. Please enable us in a Place with the Heart of Heaven to sink the roots of devotion ever more deeply knowing that an inevitable Course of destiny lies before us, a Course through which we must surely accomplish Heaven's Will.

We ask that You extend to us Your Hand of Power so that, by holding onto Heaven's Heart and circumstances alone we may overcome today's trials and hardships and emerge victorious. In particular, please protect the Republic of Korea, this nation You have Blessed as the Homeland of the Providence and raised as the chosen people.

May the leaders entrusted within this nation awaken to the Will of Heaven they are meant to establish, and may You work so that they can fulfill the Mission as the chosen people. Please allow Heavenly Japan as the Mother nation to become one with Holy Mother Han so that the works of the Holy Spirit of Truth may arise and gather the righteous people of conscience whom You've prepared, so that this nation may transform into a country that takes responsibility for the Providence.

As we boldly advance, advancing and advancing, proclaiming True Parents correctly to all humanity and attending Them as the Central Axis of the Providence, we ask You grant us Heaven's astonishing Power, Authority and Wisdom. True Parents have walked Their entire Lives shedding Blood, Sweat and Tears to realize the salvation of humankind, and the Dream of one family under H Parents.

Please answer the desperate prayers of Your children and please work through us so that we can bring results of victory for the world peace that our Parents have wished for so long. All the righteous people,

all Your children centering on this Cheon Shim Won are uniting as one, so please work through them evermore.

While wishing for the health and longevity of True Mother, I pray with gratitude... in my name Kim Jong Jin a Blessed Family gratefully attending Holy Mother Han, Aju.

cosmic victory of Heavenly Mother being revealed substantially as Holy Mother Han has intersected with trials brought about by the cosmic existence of satanic forces, we would like to share the Living Grace of Heaven at work through a testimony...

"In this final devotion of 2025, the HJ shared through the CheonBo participant of the 21-day Workshop, which has been held monthly at the H Japan Cheon Shim Won Cheba Training Center:

Although attending church at a young age, church always seemed like a rival that took away precious time, with my mother being constantly busy. I could not understand why my mother offered donations even when she said she did not have enough money. I felt that my human rights were being violated by the strict teachings that denied the secular culture and romantic relationships and thinking that marriage must take place within the church and purity remained.

My mother worked tirelessly from early morning to late night shouldering her job and all the household responsibilities by herself. She always looked exhausted and so I felt that I could never fully depend on her or act spoiled as a child. I came to truly dislike the words 'self sacrifice'.

Above all, I could not understand my parents continuing to encourage church life and the Blessing for the children despite living such difficult lives. I thought my parents had been brainwashed and I will live my own life.

However, as I entered society and faced certain realities, I came to feel that there was no one in this world I could truly rely on. Not knowing why I was living, I carried a constant sense of loneliness in my heart, yet as I was guided to attend this 21-day CheonBo Cheon Shim Won Workshop I came to feel from the deepest place in my heart the love from Heavenly Parent that my mother wanted to convey to me, and the deepest, darkest place in my heart was filled with warmth so gentle that even I was surprised, and tears began to flow without me realizing it.

The voice that said, 'Heavenly Parent created human beings because Heavenly Parent wants to Love Heavenly Parent's own children. Heavenly Parent wanted them to be happy. The reason you are here is to be Loved. It is to become happy.'

That reached the lonely inner child in me crying for so long. The Heavenly Parent's Love and my mother's love, who had always hoped that I would come to understand the Heavenly Parent's Love filled my entire being, and my tears would not stop.

I realized for the first time that my parents had always loved me, but I had simply failed to recognize it. My mother ascended to the spirit world two years ago, due to cancer. Yet, through the words, the songs of praise and the way of life taught here, the warmth and kindness of everyone, I was able to feel my mother's presence and embrace throughout the entire time.

From now on, I will embrace a life of loving more, forgiving more and being more grateful today than yesterday and even more so tomorrow than today. I'm truly grateful that I was able to attend this Workshop. TYVM.

another testimony:

I received the Blessing in 2020 and have two children, but as I lived while being chased by daily life, I gradually lost inner composure and became unable to understand the Love and Will of Heavenly Parent.

As I was consumed by thoughts that were not truly my original heart, questions such as, 'Why am I even alive if I cannot properly fulfill my responsibilities as a wife and a mother? For what purpose did I receive the Blessing?' I found myself denying the very origin of the Blessing.

Because of this, I made a firm determination: Let me return to Heavenly Parent Who is my Origin. I want to face Heavenly Parent properly and deepen the Parent/child relationship I have with Heavenly Parent, feel Heavenly Parent's Love. And with this resolve, I decided to participate in the Workshop.

Unlike when I was single, listening to the lectures for the first time after becoming a parent, conveyed Heavenly Parent's Heart so deeply that tears would not stop. Some distance from True Mother, as I learned about the Theory of True Parents and the meaning and value of the Blessing, I came to feel the Value of True Mother Who Embraces, Forgives and Loves all with a Mother's Heart, not matter the situation.

As I was held within that Love and felt comfort, tears poured out uncontrollably. When I realized that True Parents are irreplaceable Being, and that They're truly my Parents, I made a firm resolution to stake my life on becoming a devoted child of True Parents.

Towards the end of the Workshop, I attended the HJ Couples' Lecture, a special program for wives. At first I thought it would be a communication lecture to help couples get along better, but in reality it was a message about internal love and life while centering on Heavenly Parent. While listening, I suddenly felt an overwhelming emotion in my chest as never before. The joyful Heart of Heavenly Parent, sensation of ecstasy penetrated my heart and entire being.

I heard Heavenly Parent saying, 'All the lectures you have learned until now were to lead you to this message... my spouse as the other half of Heavenly Parent entrusted to me... realizing that I had not recognized the value and had treated my spouse carelessly until now, and such remorse tears burst forth.'

realizing that unless I cherished

my spouse given to me by Heavenly Parent and True Parents, I can never truly fulfill my filial duty before Them.

Realizing that my spouse is the very messiah sent to me, I made a firm resolution from now on to love my spouse as one standing in the Place of True Father, to become one together and to unite with love and love and unite with HPs, and that the greatest happiness of our love throughout our lifetime is the way to prove the value of the Blessing given by Heavenly Parent and True Parents, and that this is in fact the greatest path of filial devotion we can offer to Them.

At the same time, my spouse and I will offer devotion so that the 2nd generation members who suffer in anguish and pain after leaving the Bosom of True Parents may indeed return to Their Embrace.

---

The True Owner of this land is not Satan, but Heavenly Parent and the Gates of Cheon Il Guk have been opened wide. It may take time, but victory is ours.

Dr. Ki Hoon Kim

brief report from H America Cheon Shim Won...

gratitude to all the members joining the Friday night devotion attending HMH

Entering the New Year, we hope you will enjoy your days with health and happiness...

At the H America Cheon Shim Won, the 4th Spirituality Workshop was successfully completed at?... and students from the Korea Overseas Service Team are continuing their witnessing activities in Las Vegas together with local members and CARP members.

We would like to introduce photos and they are meeting many new young people and individuals on the streets of LV inviting them to the witnessing center and the video center.

testimony of Che Un Su... Following the Third Term, I joined this Fourth H America Overseas Service

Team. Many times I felt frustrated with reaching my limits and as if only standing still. Even so, I'm doing my best to be a source of strength for True Mother.

Currently, we are witnessing on Freeman Street, and area with drugs, casinos and many homeless people. So, it felt even more difficult to witness here than at UMLV. However, rather than training to meet only righteous people Heaven is searching for, I went out with the heart of hoping everyone we meet could become righteous.

My desire grew stronger to help each person I encountered feel the love of Heavenly Parent and True Parents, and I came to realize that witnessing is not simply about increasing numbers, but about sincerely understanding the other person and sharing heart with one another.

Through this process, I myself was able to grow more deeply and come to understand the Heart of Mother and HPs a little more. I hope that this Golden Age will not pass by in vein and through our steps, though small, I pray that the revival of witnessing will revive in H America and throughout the world.

Through the remaining period of witnessing, I want to continue moving forward for True Mother, without giving up, True Mother Who even at this very moment is worrying about Her children, not Her own well being. And for countless people around the world who still do not know Mother's Words, even if gaining the heart of just one person is difficult, I will remember that doing my absolute best for that one person is true witnessing, and I will offer devotion in every moment.

---

Now sharing the future activites:

A CheonBo Great Works in NY on Feb 27

and twice in the Western region on Feb 14 at IPEC and again 100 days later on March 3rd

and another in the Eastern Region

and the 5th Spirituality Workshop Feb 28 to April 8th

6th Spirituality 40-day Workshop - July 11 to August 19.

29th 7-day Workshop - Feb 8 to Feb 13th

and for the first time an English 3-day spirituality Workshop - April 23 to 26 and 2nd one May 23 to 25th

a Japanese 3-day Workshop will follow

## H Japan

Rev. Tanaka

... 'The types of organizations that are considered socially problematic, in other words, it was society that defined the FF as problematic... the (opposition of FF) put responsibility was shifted onto society, while those involved (in opposition) said nothing specific about the actual substance of the matter. That is precisely where the major problem (for everyone) begins.'

What now surrounds us is the international network of the anti-cult movement. This is not only active in Japan, but also in China.

speech testimony:... Around Sep 2022, I began to think that I should seriously investigate this issue. I heard many stories from Mr. Goto, and was truly shocked and thought this must be written. He gave many facts that were unknown to the public.

After continuing my investigation for a little over 3 years, I compiled it into a book, 'Sacrifice of the State'.

Rev. Tanaka, 'The media is in a situation where it can attack the FF freely.'

'This kind of mindset, the media creates various mindsets and attacks and people believe that believers are forced to give enormous sums of money.'

Rev. Tanaka, 'Ordinary people truly believe that money is taken from them through deception, without really understanding anything about donations. And parents are no longer allowing their religion to be passed on to children in the family. Being able to convey values or even speak about them becoming established as legal precedents through court rulings...'

---

...My name is Mishuda Shih... and I serve as the Chief Priest of Congual Temple. If you reflect once again on today's rally, I believe you will feel that it was a meaningful time for each of you...

---

passion of our H Japan members is gathering for the 3-day Workshop recently held in 3 consecutive sessions... and at the third,

Rev. Yokoi

7.5 earthquake, intensity 6 occurred without warning... We learned at around 11pm in vigil devotion and a tsunami might come exceeding 3 meters... but later reports came that a tsunami of only about 70 centimeters occurred, perhaps through Heaven's intervention. But at the moment, prayer was offered while breaking out in cold sweat.

One prayer asking for Heavenly Parent to protect the nation of Japan, the very next day 600 trainees from Akiyama were scheduled to come from Japan... affecting air flight...

There is a specific number that the SW directs, and knowing how significant the 3-day Workshop is and the issue that it was in the SW, and with True Mother in the DC, we prayed with the heart that even one mistake could become an eternal regret.

At the time, it was not hot sweat but cold sweat pouring down as we prayed, like a miracle, the full 600 participants arrived. From 321 to 560 to 600...

Although the year of the red horse, 2025, was a difficult time, the song 'A Heart that Runs' and 'Japan Will Surely Take Flight'... Many leaders wept while listening to Lecturer Ashaishi, who appeared with tears.

"I felt the love of True Mother and that whenever H Japan had faced difficult crisis, True Father always called all the members of H Japan, even when His Body could no longer move, after collapsing, He would rise once more and deliver the Word.

At the opening ceremony of the Workshop, once again, the Voice and Heart of True Father was conveyed to me saying,

"I am the One who started this Workshop."

and I felt that True Father is once again calling and guiding the Japanese members so that they achieve victory with True Mother. Even along this journey there are children who feel like giving up, True Father and True Mother never give up, enduring the greatest hardships, offering utmost devotion and wait, believing, loving, trusting that the members of H Japan will surely be victorious.

As I think of True Father and True Mother, tears naturally flow from my eyes. And with the determination to convey Their Heart without leaving anything behind, I'm giving my lectures with all of my strength.

Rev. Yokoi: When I reflect on Mother's Words telling us to pray for the Blessed families and to pray for the Providence, I realize what those words truly meant. Mother has always been and will always be our Mother. For us, Her children, even now, when I see Mother as She smiles and encourages us, I cannot help but repent, asking why we have been such unfilial children.

---

Even amid the severe crisis facing the FF, the 2nd gen pure waters are uniting with unwavering faith. In particular, more than 170 participants are offering devotion together at the 18th spirituality Workshop.

Kim Ju Won Director of Cheon Shim Won, who oversees the progress of Spirituality and Attendance WSs delivered a progress report... "The Korean word 'moshida' to attend is difficult to convert into

Chinese characters. However, the character most commonly used is 'shi' meaning to attend or serve. The meaning of 'moshim' is fundamentally derived from 'moshida', but it also incorporates the meaning 'to long for'... 'mo' and 'mo' Mother, thus meaning to attend parents with a heart of longing and to become children who resonate with Mother's Heart.

Everyone, the standard of 'moshim' first requires transcending oneself. When one seeks to serve and attend others beyond one's own thoughts, that is when Heaven's works take place. What then is the difference between spirituality Workshop and attendance Workshop? It's a Workshop that becomes increasingly loyal, offering more devotion, serving more, and practicing with an even lower posture...

While the standard of heart rises higher, one's attitude and mindset grow lower and humbler. If only the heart is revived and the passion and prayer increases, it becomes difficult to harmonize with the people around us. Only through moshi training, our life in spiritual academy with humility and internalizing a life of attendance in daily life, can we truly say that a person has grown and has been genuinely reborn.

Commonly, many participants share that they entered the training because they felt their own inadequacy. They with courage encountered those.

True Mother once said through Director Lee Gi-seong that the more one feels one's inadequacy, the more Heaven enters into the empty space and fills it. As I personally witness the devotion of the 4th Attendance Workshop trainees and also monitoring them, I came to realize truly with tears how careless I myself had been. Most of the trainees, even compared to me, who have worked here for about 7, 8, 9 years, were offering devotion with far greater desperation and sincerity, with heartfelt tears.

Their heart toward Mother was even more earnest and closer than my own, I confess honestly, and even all day of devotion, they felt it was not enough, offering still more 120 bows, 430 bows, and watching this, I repented deeply of the thoughts I once had:

"This is enough. This should be sufficient."

filled me with profound shame... In addition, a special condition of devotion was established. On the days of True Mother's court hearings, from early morning until 8pm, without resting even a moment, continuous devotion was offered here at Cheon Shim Won, a full 12 hours watching our young people, I felt a deep sense of hope for the future. If Mother were to see this scene, She would surely shed tears.

In the past, parents would send their children to Workshop saying, 'Please, just have faith in the church, and the results were often that they would change to be willing to go to the church a little. But now the era has been completely changed. Even trainees distant from the church, change to want to witness to others, and restore their own fathers and mothers to the Center of faith, go overseas and do any work....

Seeing this is profoundly moving. Moshim is the state of their hearts and it will never stop with various commitments...

---

Among those visiting the DC last week, 4 Continental Vice Presidents visited and Pres. Umberto Anjalucci of NE Continent met our dearly-missed True Mother:

'Brothers and sisters, it's a very special day for me because I had a chance to meet our beloved True

Mother, HMH, OBD of God... an emotional experience, but I believe it is not only for me or those who went there today.

As you know, True Mother came out of the DC for special medical care and held the hand of our Tai Kwon do brother, Master Soe. And that picture stayed with me in my mind. And I had a dream that True Mother called me, 'Anjalucci! and She lent Her Hand and She grabbed my hand and we were walking together. So, I decided to go directly to the DC, a day of so heavy snow and grateful to join devotion in that atmosphere of very high spirit, shouting please come back to the Palace quickly.

And it's difficult for those in our country to understand what Mother is going through and so lonely course and going up and down the street and She can meet us only ten minutes. And I spent time just talking to Her, and I want to hug You and I think brothers and sister are thinking the same way. And even She is in the DC, Her Spirit really is everywhere and in the Cheon Shim Won, Her Spirit is here, and everywhere where we call Her and ask Her to be and we had a chance to pray to True Father to bring our transformation to support True Mother, and True Mother should be victorious to the last minute for the substantial Cheon Il Guk...

And we don't always know what to do in this moment and we felt when we went that True Father was there with us. And while I was praying and sharing my heart with Heavenly Parent, True Father said I need True Mother to be here with Me, She shouldn't be there and before going to meet True Mother, I had this intense reflection and went and knew already what could be the scenario and didn't want to cry in front of Her but for Her to know we are okay and ready to move forward...

And in the room, with Yeon ah nim, our amazing coach and link to True Mother' Heart and she explained all the details. And True Mother asked who came and she explained 4 of us continental leaders and Mother started to explain about Heavenly Parent, the Dream to make the ideal world and centered on True Family we could make that environment expand. And She said 'From now, don't worry about anything. From now the foundation is made through the Entrance to CheonIlSanctum Cheonwon Gung, and now is the time, the 'Sungni' is here, so that the victory is at Hand.

And True Mother gave this with a very strong Power we could feel. And True Mother looks beautiful, Divine, holy and radiant beauty. She is really amazing to experience. And She said, 'You just need to witness, which means to expand the knowledge of True Parents's Victorious Foundation and to just spread that to everybody, anybody... So, have confidence that God's Heaven is here...

So, it became my time and I said, 'I'm Unberto Anjalucci and I came from Russia and I said I love you' And right away She said, 'Please take care of the 2nd and 3rd gen. Please take care. They are so precious.

And She always connected with whatever we said...She was with us, 'Oh Jardim... Oh, Philippines, Oh South America... and always encouraging us... and the dear brother from Africa saying 'Mother, don't worry, we are here and ready to go back to the field... and ready to really support You

And so many 2nd gen following True Parents now, devoted, making jeongseong

And at the end we just sand 'Omaya nunaya'

And Mother was just like waving to the music, very nice, beautiful moment. I think, uh, brothers and sisters, I want to encourage you, even though we hear many things here and there, but don't worry, Mother is firm.

If you want to have some experience with True Mother, just prepare your heart and then call, Call for True Mother to come to you... in your dreams, call to True Father... They will come...

So, this is my humble sharing with you and God Bless you very much... bows

---

In this world where true love has been lost and where a false love culture dominates, our 2nd gens have been living difficult lives. Even the people of the world know this fallen culture of this false world is wrong and leading people into unhappiness. Yet, they do not know the reason and purpose of life and they wander through life only pursuing self desires) that are really valueless, although this world appears fine and dazzling, but the deeper one goes inside, the more it resembles hell filled with cries and wailing.

---

When I saw the news and the children trembling in fear as victims and I felt no one was being helped. In a world where there is no one I could rely on except Heavenly Parent and True Parents because this world is deeply under satanic dominion... and I tried to seek the comfort from Them through prayer, for that genuine love that let's one truly live, and I resolved to stake my very life and take on the public mission of UPA... and that is the true happiness and difference

Because True Mother loved this world so deeply, She carried a truly suffering Body... and for Heavenly Parent to fulfill this Dream, and thinking I too am a child of Heavenly Parent and True Parents, and how wonderful to really feel I was attending Them... and how great for Them to be attended by everyone throughout the world... How joyful would that be...

Pure water youth are not alone. There are so many. Therefore, together, we will embrace this entire world and embrace all the children of this world on behalf of the aching Heart of Heavenly Parent and True Parents, we will pray and witness like a battle and restore the people of this world. True Parents please wait us a little longer...

When you put yourself down, the path to unity opens... With one heart and one purpose, let us overcome this difficult era together, holding the same vision in our hearts, the day when we can all love, strong and together, not abandoning HMH to walk by Herself... determined...

---

We must make a determination, not just shouting slogans, love proven through action... We pray that this final week of the year will be such a time as well
