2026 Tianyuan Palace Temple New Year's Day Prayer Meeting

Li Keicheng Garden's Message for the New Year

Dear beloved leaders and brothers and sisters in the whole world, in one hour we will send a very difficult year 2025 and hopeful new year 2026. Happy new year to all. But Holy Mother Han True Mother is still going on the 101st day of tribulation. Today, through the 2026 New Year's Day Prayer Meeting, which will be held to welcome the true family's fourth rank basis, Amarai Shoshi family, we will move the throne of heaven and hope that your mother will return to the palace as soon as possible.

We departed on New Year's Day prayer meeting here in 2025. Mother gave a chronological word, '13 years of Heaven, living in worship of the Creator Heavenly Father and Mother, the whole world's blessed families will become true children of Heavenly Kingdom who will fulfill their responsibilities as the

elected people united with their true parents,' and then, she blessed us to pray thanksgiving in the name of the blessed family enshrined to Holy Mother Han, and won the entrance ceremony of Tenjoungu Shrine Tenichi. Mother says "Master of the universe Creator Heavenly Father, you are the master of this earth. From this day on, I will continue to love my children as much as I can, and I declare to the whole world that the gates of the kingdom of heaven have been opened." However, as they say, "Trials after Grace," I went through a terrible ordeal that I couldn't have imagined, being imprisoned by your mother. We are gathered here in strong faith without wavering because we know the truth of providence.

Jesus said to the leaders of Israel, who said, "A demon possessed by him," "Even if you do not believe me, believe my works. that you may know and understand that the Father is in me and I am in the Father." If anyone reads your mother's autobiography now, they can clearly see who she is and how much she worked to establish her true ideal of creation, heaven on earth and heaven. And if you witness the reality of the five-colored races gathering in the six major states of the five-ocean, superracial, supernational, superreligiously crying out, "Aboji, Omoni," you will believe that a world of peace will not be far away from the heavenly father and mother. I am sure that there will be a day when all humanity will be able to return to Holy Mother Han's only daughter, the true mother. We never fail despite the trials. With the owl spirit, we must change the corrupt night culture into the day culture of heaven. True fathers taught us the principle of returning to the victory, the secret of victory, even after falling down, rising up again, and moving forward shouting Hooray, no matter how painful it is, and they were told that Hooray.

July 20, 1984, the day of your father's imprisonment in Danbury, your mother said she wanted that day to be erased from the calendar. At the meeting the night before, father instructed us to sing three hanzaï. Danbury is set to see a time of explosive recovery. September 22, 2025, has reached the day I want to

wipe out of the calendar again. However, instead of lamenting grudges and complaining, we moved forward shouting billionaires and giving thanks. I believe that complete decline conditions will result in a surprising role of full return. While your mother is in detention, she said, "Forgive, love, be one." The food of the whole world is firmly united as one," he was told. Last October, 12,120,000 people were receptive for the autumn major functions, showing them that they are united together, and today they held the 1468th Tenshingai all-night devotion, and through the 2026 Genroku prayer meeting, they are moving forward completely as one with the true family fourth rank foundation, Tenai Shoshi family.

We were told that we must win.

The reason is: 1 'Heavenly parents are alive to serve as a role,' and the mother is saying 'Heavenly father and mother are alive to be with their only daughter. "Now we have no failure, only success, only victory," said clearly.

2 "Because Father acts absolute good spirits," through evidence of compassion, we witness how much Father acts every day, and we are able to move forward to absolute faith, absolute love, and absolute love.

3. "Every blessed family, because the youth of the second and third generation are burning with love," the target of the 40-day training session in 2025 was 5,400, but the result was 7470 (138%) victorious. As a result, we won the education target of one million students in 2025 by 104%. I won a successive class that I couldn't do before because of Heavenly Father's amazing work.

4 ""Because we have righteous people all over the world who uphold us up, who remain the same even in trials", the 2026 New Year's Day Prayer Meeting will be welcomed on the base of 12 million people after

crossing the 100-day tribulation of the detention center. Last night, my father appeared in the second world and said, "2026 victory is coming. Tenai Shoshi, winning as one with the true family fourth base is our way to go. 2026 will be victorious if we enlist Holy Mother Han and become one. With a burning heart, we must move forward in spirit and truth. "The spring of providence must come."

"I myself often ran into pitch dark walls. In those times the voice of my marrow was in my bones saying, 'God does not die.' "and told. Your mother was victorious in hellish places and opened the gates of heaven. February 1, 1985 Danbury to East Garden was connected by telephone and declared the day of the Opening Gate linking hell and heaven. Mother is now opening the real heaven gate from Seoul Prison to connect Tenshin-gu. Even in a hellish environment, let's open the 14th year of heaven, where we can see the creator heavenly parents.

We must become the true children who fulfill our responsibilities as an elected blessed family, united with the true fathers. I was told that last 2025 will be the year of the blue snake, the year we can see the completion of providence, but we must confess that our mother's hardships are due to our inadequacy, cleanse our mistakes from days gone by with tears of repentance, and offer the ultimate elation that touches the heavens. And 2026 the year of the red horse, hopefully we win. There's a story of a red horse in the book of Revelation. This red horse is Tenshingo. If you use Tenshinzen as a weapon to work hard, you will surely win.

Today everyone who participated in this prayer meeting will be performed by prayer, promotion, and Oma-sama. Your children and daughters of faith will be mobilized and open a new year of hope 2026. I believe in being a flying heaven on a red horse. Let's move forward boldly.
