I hope you're doing well
1471th Tianxin Garden is all night sincere

Summary

From the detention center on day 106, "The longer the period of tribulation, the more sincerity can shrink the day when truth is renewed." Holy Mother Han's true mother's faith, offering spiritually ferocious devotion, assured of victory."

As Tenshin Kyono is developing into Tenjiku Suri, the types of training sessions are increasing, such as middle and high school students on the 21st day spiritual training session, the 3rd day training session for Koshin Kononoi, and starting tomorrow, the Tenshin Kyoono 3 day training session will be starting from Japan. I believe that it is a surprising act of Heavenly Parents who are alive to come together like this in this hard and tough time. Even though she is in detention, I think that all of your mother's interests are with you, and I hope that we will all go beyond this fortune to repay her favor.

Chairman Fumimroi reported that his mother met for a New Year's greeting. On 2nd January, New Year

adoration was offered on behalf of everyone. The first greeting from your mother said, "It's a new year, please receive many blessings in the new year." This is the first time I've ever worshipped the New Year standing in front of my mother and it broke my heart, but I think this will also be a history record. Reporting that public opinion has begun to reverse as a book published in Japan has become a bestseller, "There are lots of good things for Japanese foods in the new year." Trusting that heaven will work together, and be eager until the truth comes out." Now is the time when the truth of your mother's righteousness will be revealed in the world, so whoever you meet, you must not be shrinked or afraid, but you must bear witness to the greatness of your true father and mother. Wherever you go, your mother remains the same, she can communicate her mission and dreams with Heavenly Father. If we, like our mother, move forward with so much enthusiasm that the spirit world and everyone around us will be moved, it's time for more surprising things to happen than before.

A mother who always smiles at you, even in the midst of hardships, is walking one step or two towards the day of victory. In order to become the person who can say that when mother comes out, it is Tenshinkai Seishi that we can replenish our inadequacies and wash away our wounds. If you look back, you will see how many wounds and shameful things are, a sin committed once cannot be erased, no matter how much you regret it. It won't go away. No matter how much you regret it means nothing. If it can be erased, it can only be the love of Heavenly Parents, the love of True Parents, and the love of Mothers. If you marry your ancestors in their 430s, you would have committed many sins, but it is a miraculous blessing to be able to become a beautiful soul and reborn again through the blessing of receiving the blessing of chief. We live in the glorious era, witnessing what our Family Union is doing and hearing the evidence of the dreamless things that no past master could accomplish.

Many of them serve as proofs of healing through consonance prayer. Praying together as a Tenshingen

team can drive out the forces of darkness. Even if you can't drive out the darkness on your own, you can get out of it faster when you join forces with bright power. When you spend time together in one heart in prayer in every home and in every church, officers will surely happen. Consecration prayer is important.

After father Seiwa, mother said many times, "How is the most urgent question to return to the inaugural mood?" We need to become a church full of movement and spirit united. Every day, without ceasing words, can you tell new people that after 7 days of training, 21 days of training, 40 days of training, can you advance to the position of blessing? "We must have a church that breathes movement." The mother was troubled and told many times that she had to depart with the spirit and truth, and for that reason, she was announced a surprising order called Tenshinzai. Today, centering on Tenshin-sai sori, three-day training, weekend training, 21-day training, 40-day training, spiritual training, Moshim training, and spiritual academy, and training to deepen the roots of faith, and here, the branching of the whole world revolves together. If that happens, spiritual services continue to occur. Even if you devote your sincerity for a whole year, if you don't have a single evidence of sympathy, then you are doing your sincerity wrong. Persistence must always be seen as results. You have to give your all diligence to be among those who can say, "Here is the result of diligence". THE LIVING HEAVEN WILL SURELY ANSWER AND WORK.
