Bow and Pledge #8

Opening prayer of gratitude:

Most Honorable Heavenly Parent

Beloved True Parents of HEH,

TYSM, TYSM (no translation at first)

blocking our hearts that strive toward absolute goodness... lease guide us so that we do not become figures who suffer defeat in this struggle. Led by the Power of Goodness and the Authority of True Love that guides our hearts with a gentleness and humility, let us become children who resemble the jeongseong and hyeongseong of Heavenly Parent. And please hold onto us, so that we may attend True

Parents eternally.

Please allow us to discern through the works of the Substantial Holy Spirit, so that we may remove all elements of sin held captive in the death, and blow away all unrighteous energies. Please work through us. As we become one through Cheon Shim Won devotion, You give unto us as a Gift of Hope.

Let the roots of our faith grow deeper. Guide us to become filial sons and daughters, who can overcome the power of death and reveal the new glory of victory. Oh Heavenly Parent Who holds the Authority of new life and the Authority of Creation, reach out with Your Hand of Power upon our infinitely lacking and insignificant hearts and bodies. Raise the power of resurrection in the environments we face.

Please work so that we may emerge victorious in the struggle against the satanic, resentment spirits, the forces of sin that obstruct us. Please work through us, centering on eternal true love, attending Heavenly Parent as True Parents of the Substantial Reality. Please work so that we may become mature and true children who can comfort the circumstances and Heart of Heavenly Parent and fulfill our responsibilities and missions. Please work through us.

Please have mercy on and protect this nation and people whom You have raised as chosen people among countless nations and Blessed as the Fatherland of the Providence. Please work so that the officials in charge of this nation and the citizens of the free Republic of Korea may realize their mission as the chosen people, reclaiming their status and fulfilling their responsibilities as the Providential Fatherland.

May the Mother nation of Japan, in oneness with True Mother not remain in a place of lamentation amidst trials and hardship. Let the works of the Holy Spirit and Truth rise like a flame. Please work so that H Japan may rally the righteous people of conscience You have prepared, standing up proudly once more to advance and achieve the final victory. Please work through us.

Throughout the long years, the Emperor of Peace, True Parents, have walked Their entire Life sweating BS and Ts solely to save humanity and fulfill the Will of Heavenly Parent. As we advance and advance, shouting and testifying the Truth about True Parents to all of humanity, please grant us Heaven's amazing great ability Power and Wisdom at this hour. Please respond to the earnest prayers of Your children who are crying out with all their hearts across the world and work so that we may offer the results of victory before Heaven. Please work so that all the prepared, good multitudes and prepared, righteous people, who

are offering devotion to achieve the country of peace and the Will that Heavenly Parent has so long desired, may gather united as one centering on Cheon Shim Won, centering on Heavenly Parent's Holy Community, please work through our prayer and devotion.

Earnestly wishing for the long Life and good health of True Mother, I pray with gratitude in my name Kim Jong Jin, a BF attending HMH. Aju

'Mother's Request'

Welcoming Address

Song Yong Chun

reads a poem

... although it was a spring rain, I wanted to avoid that... and the clouds... after realizing it was the Tears of True Father in Heaven and the Heart of True Mother kept in the DC, and I feel very sorrowful to the members who are crying at this moment...

Just as the sky never stays clear and blue (all the time), the path of our lives is like the maze, and Heavenly Parent must guide our ways anew... Heavenly Parent Who is always the most painful above

anyone else, Heavenly Parent Who always wants to embrace children with the warm breeze of spring is telling us, 'Do not worry. Because of your tribulation (indemnity) the Will will be accomplished.' TYVM.

Afraid the Imjinga Imjim River will be frozen, I put all the effort, worrying that True Parents might be killed in the course of the Korean War, and we have endured through everything and eventually come all this way for Cheon Il Guk. It took a long time just to establish one central figure, ten generations of 400 years.

Today, when Heaven's Will is accomplished, how long is it going to take for us to fulfill. Heaven please lead the chosen people to stand up right to save all humanity, so that we can let people know the Father and Mother nation. Let F and M nation to stand up in this world.

Beloved leaders and members of Cheon Il Guk family, I greet everyone here at the 1,515th Special Devotion. I am Song Yong Chun, the President of the FF of H Korea. Standing here today, my heart is so heavy and grief-stricken. With the dissolution ruling, liquidators are now rushing to each church, beginning actual liquidation procedures, and locking the doors of the sanctums. (His face so pained and anguished)

It is as if the Heavens are falling and the earth is caving in. Serving as Chairman of H Japan for the past five years, I traveled to every church throughout Japan from Okaido to Okinawa. From the large ones in the cities to the small pioneer churches in the mountain valleys, there was no place my footsteps did not reach.

Even now when I close my eyes, I remember the faces of the members in those churches who smiled brightly with the joy of attending True Parents.

I remember the wrinkled hands and thickened joints from a lifetime of sweating and devotion and the earnest gazes of those who prostrated on the cold floors, praying to Heaven with tears... faces of our J members and before Kinamabento... looking only toward the Will, and their pain is transmitted to me, and my heart feels torn apart.

Everyone, my b and s, the summary of the judgment specified the following content, that the primary target of the remittances is Korea, and that count for 90% of all overseas remittances. Regardless of the

factual truth of that content, there is no denying that the Korean Church is a beneficiary, standing upon the offerings and sacrifices of the Japanese members.

Standing in the position of such a beneficiary, with the such word, could I offer comfort to the Japanese members, who have been cast into such suffering. And I would like to offer my heart and gratitude to you who have worked so hard and have done great effort. How can I comfort them. I can hardly bring myself to speak.

The absurdity and shock that the J members are experiencing must be beyond words. It is said that the psychological shock of someone losing an election is equivalent to losing a family member. What must be the heart of the members having to watch with their own eyes the process of their sanctuary, sanctums to which they dedicated their entire lives being closed and liquidated.

How can we express their heart. It must be like the child they trusted and relied upon being lost. Having lost the church they protected with sweat and tears for a lifetime in a single day, they must feel cold, desolate and fearful with nowhere to go. Despite such harsh environment, how to overcome this reality and move forward to accomplish H's Will. It is time for us to think and pray together to accomplish God's Will. There are countless trials we have overcome to grasp the victory. I know you remember and I remember.

Ten years, after 21 years later, the government of Japan that had been denying the change of name, then accepted it... It did not come easy, but all the members became one, never giving up with efforts and devotion. It was a result of that then, and the same is needed now. As our Mother walks the path of crucifixion, She is offering prayer only for J members. In the face of such reality, let us become one with prayer and devotion and overcome as children of Heaven. That is what True Mother wants from us.

All the members around the world, let us all become one with prayer and devotion for our J members, crying out earnestly, desperately to Heaven so that there can be healing and strength to our members really as family... Greater things can happen as time passes, with excessive emptiness wound, which can push as panic stress disorder, that pain can return every morning opening their eyes. This will not end with a bit of prayers, but continuous concern and support is needed whether it rains or snows, 'We have not forgotten your pain, and we will stay with you until the end, until the wounds heal' as b and s joined by True Parents, let's be a shield and refuge for them.

I take this moment to appeal to the J members separated by the sea, our hearts are bound more than ever before. The Bible says the Lord is close to those suffered and crushed in spirit. At this very moment, the one Who knows your injustice and tears more than anyone else is Heavenly Parent, remembering also your faith you have protected despite the world... They may dissolve the religious corporation and close buildings, but the Heavenly Parent and True Parents in our hearts cannot be dissolved or torn down by any power, only we will be one and stay awake through this night of suffering with prayer, the dawn of overcoming will surely come, crossing the waves of the sea and become the grace of resurrection to stand up again.

B and s of Japan remember that you are never alone, the FF of Korea will always remember the foundation of blood and sweat you have shed, and we will be standing with you an eternal family of Heavenly Parent and True Parents, we love and respect you from the bottom of our heart... and he bows...

Dr. Ki Hoon Kim

With earnest prayer for True Mother and H Japan, I report of LV USA.

testimony of a minister visiting... This pilgrimage was filled with harmony and sense of purpose with Heaven. Gratitude to Chairman Kim Gi Hoon who has devoted himself to the mission of H unified Korea and responded with unchanging prayer and building a powerful spiritual solidarity among many leaders by integrating the integrity of various nations into a unified vision of common vision and goal.

My heartfelt gratitude goes to KCLC who hosted this sincere heart. Your leadership has laid the foundation for harmony, bonding and holy encounter.

Friday was a long and holy day, including the Special Vigil that was deeply meaningful and heartfelt. It will remain a spiritual milestone for all that attended. Through this mission we thank God for every holy encounter, every prayer, the unification of heart, and for everyone who has impacted our lives. This journey has strengthened our faith and unity, reaffirming our calling toward the vision of peace, reconciliation and a H unified Korea.

With faith, harmony and unwavering spiritual support, we will continue our sincere, earnest and powerful prayers for the last mission of HMH and for God's Holy Purpose through True Mother. With gratitude and respect in service and oneness, this was the testimony of Archbishop Angelo Rosario and Bishop Nancy Rosario of the Bronx Church, New York.

And upon returning from Korea, Rosario Cathedral in the Bronx has decided to hold 21-day Workshop Special Prayer Vigil for the swift release of HMH, True Mother.

This Special Assembly, which begins this Saturday, will see the participation of ministers from their own denominations, as well as many congregants.

testimony: At the vigil prayer gathering held in Cheon Shim Won, I was greatly encouraged by the powerful message of Archbishop George Stallings, Dr. Rouse, Archbishop Antonga and Dr. Tanya Edward, who all had the opportunity to meet HMH.

During the vigil, I had recalled a passage from HMH's Words, 'All religions have reached their final destination. When you reach the last station, you must get off.'

I felt a strong conviction that now is the time to act upon those Words. From this moment on, my spouse and I have determined to pray in a one-team spirit for clergy who can cooperate and attend HMH, devoting ourselves with one heart to the establishment of KCLC.

I earnestly ask for generous support of all members of WCLC and KCLC. I thank you from the bottom of my heart. I sincerely thank KCLC for inviting me. It was a great honor to meet the clergy from around the world in person and have a time of meaningful fellowship and mutual learning... also that we could pray together as one.

The speeches delivered by representatives of each continent were truly excellent. I felt the Presence and powerful strength of the Holy Spirit moving me deeply. Furthermore, I was profoundly touched to see my fellow clergy members holding such deep respect and trust for HMH, The Mother of Peace. I have resolved to take this Heavenly experience back to Japan and steadily move toward the new beginning of the KCLC with hope.

Finally, I would like to express my sincere gratitude to all the staff members who work so hard. TYVM

I report to you that this past Saturday, a Great Work of Cheonshim was held in Honolulu Hawaii, a grand revival meeting with more than 100 Hawaiian members in attendance.

testimony of member from Kona: My husband attended this and to complete the liberations of 430 generations. The explanation given during the morning lecture about liberation of central resentment spirits was very easy to understand and a truly meaningful time. What especially touched my heart deeply

was that the central spirits can possess even greater power than the 430 generations of ancestors who are led to the liberation ceremony to receive the Blessing.

During CY yoksa in the afternoon, I felt that the spirits departing from within us were rejoicing at being led to the liberation ceremony, and I was moved to tears. Furthermore, as I saw countless spirits from many people gathered there being led to the liberation ceremony, I was deeply moved by the thought that this Hawaiian community has grown one step farther spiritually.

Also, I used my right hand and shoulder, which I use frequently for work, was healed of pain. And currently at the H America Cheon Shim Won, a 40-day is being conducted with 20 2nd gens from Korea and the US.

Junka Honda testimony: One day in a dream, I was standing in front of Cheon jeong gung and someone guided me inside saying that I had been invited to a meeting of women leaders with True Mother. I could not understand why, since I do not hold any leadership position and felt I did not belong in that place at all. After hesitating, I went inside and tried to sit quietly in the back.

However, I was told to move to a table at the front. At that moment True Mother entered the room and began to sit right in front of me. My heart began to beat faster and faster. Then Mother turned around and looked at me straight in my eyes and said, 'I need you.' In that moment, I felt the depth of my heart tremble greatly. This dream shook me to my core.

When I woke up, I felt honored, but at the same time a great burden and fear. I kept asking myself, 'Why me? What can I possibly do?' This dream was one of the reasons I decided to participate in the 40-day Yeongseong Workshop in Las Vegas. I wanted to be prepared to answer if Mother called. As a daughter of Heavenly Parent, I wanted to establish my identity more deeply and better understand how to respond to True Mother's call. I wanted to experience greater freedom in my life within the love of Heavenly Parent and share that love with others.

A part of my heart still wants to remain in a comfortable place. However, I believe that true growth comes through responsibility. Therefore, I want to challenge myself, grow and change to become a filial daughter who can bring joy to Heavenly Parent and True Mother/True Parents. True Mother, I love you

applause

Break

Churches run down

Planning Department

What was the greatest church built in the history of the FF? It was the mud hut in Pusan, built by True Father with His own Hands, the very first church in the history of the Unification Church. Although that building has disappeared, we will proudly remember it for eternity. What is precious is not the structure itself but the fact that the Person inside was True Father/True Parents. In the same way, we will eternally remember ever church in H Japan. What is precious is not the physical building but rather each and every member who is a part of that Body. (They historically gathered at that Holy Place that remains in our hearts forever)

First place, before Sendai Church is Nagano Church with 490 members gathered.

Tongil mundo Workshop and a tournament for the swift release of HMH will take place that will truly be a devotion to protect True Mother.

sketch video... TYVM, God Bless you...

In 2019 True Mother gave Her Words at the 40th Anniversary of establishing Tongilmudo... emphasizing unity between mind and body.

'If the world today had become the ideal of Heavenly Parent's Creating, it would be different, but the human ancestors fell at a position where they were incomplete and their minds and bodies were not one, and they have been practicing spiritual training to strike the body to become one with mind.

However, they did not know the Creator God. They did not know what God's Dream was. They still do not know why they were born or where they must go. The conclusion is that is a fact that they have moved in conflict, war and lack of unity.

In a position where one cannot even unite the mind and body of one's own self, it is truly a difficult task to make the family, nation and world as one. The position of being absolutely one with True Parents is the position where your mind and body are unified.

With this Tongilmudo, not only for yourselves, but for your neighbors, families, tribes, nations and the world, must you now accelerate your effort. Isn't that right?

Until the day your life comes to an end, I ask and Bless you all to go proudly to that position where Heavenly Parent can Bless you, saying, 'Indeed, you are my proud son and daughter.' I Bless you.

The Chairman of Tongilmundo said that the main reason to hold the Workshop is to protect True Mother.

'Why the Workshop in this beautiful place? Because we want to protect True Mother spiritually and make the foundation for Her to be liberated. We learn through this 40-day that first of all, we have to train our mind and body to move forward bravely to accomplish Heavenly Parent's Desire.

Another calligraphy True Father gave to us is the way of loyalty and filial piety is the foundation to win over everything. So, we want to develop this loyal, filial heart through Tong Il Moo Do.

As you know, Dr. Hi Chul Sung stays near the DC, living there and offering such a prayer, and really wants to serve True Mother to be liberated and improve Her health. So, we want to inherit Dr. Sung's.

Another calligraphy is 'aechun ang hae guk' We have to love Heaven, love humanity, love nation. Also, True Father's motto was, 'Utmost sincerity moves Heaven. So, we want to really invest everything here

during 40 days.

We want to move Heavenly Parent to liberate True Mother and or Her to restore Her health. This is our determination to invest everything in this 40-day. True Mother really loves us with such sacrifice of Herself, and we want to love True Mother. We want to pray and bravely discipline ourselves for unification of Korean and unified world attending True Mother when She is here on earth, our determination and commitment. I feel so much prayer from many people, raising up many youth to be great for the world, one family under Heavenly Parent. TYVM.

A German member participating in the Workshop, is not merely disciplining the body, but the Word of True Parents carries deeper meaning, the external aspect to another level, based on True Parents's Words, the Divine Principle, Unification Thought, pure love education, marriage Blessing education, breathing meditation and invaluable internal guidance from the grand masters.

Tong Il Moo Do and Il Wan Do represent the harmony and unity of yin and yang, masculinity and femininity, the Father and Mother characteristic. It is a beautiful art created to maintain our health both spiritual and physical and to balance our energy system at all levels.

The Workshop is one of the best experiences in my life, uniquely special because it is held here at the HJ CheonBo Complex under the guidance of Heavenly Parent and True Parents. it is a precious opportunity to learn directly form the Founder, Dr. Suk and all the grand masters. It is a deeply enriching and humbling experience at the same time, with purpose to maintain peace, unity and harmony based on the Principles of true love and Unification Thought expressed through the beautiful and harmonious forms.

We teach our body and mind to understand the flow of the Principles of Creation and come into synchronicity with God's Will. Due to the fall, the body has become the mind, and we live in separation, putting myself first, which is putting the body into subject position over the mind. This causes a breakdown and the world is filled with resentful spirits and distorted energies of the fall.

Our children at school and at the universities are under the influence of an unhealthy spiritual and emotional environment. Through the mass media and the secular culture, they are constantly bombarded

with distracting messages. They suffer greatly in this confusing, conflicted environment and have difficulty maintaining their faith and at times their purity.

In a H society people would relate to one another through unconditional love, compassion and empathy. The reality is that, because of the distorted character we inherited from the fall, we interact with each other in anger, resentment, hatred, blame and jealousy. Then we remain with trauma and energetic scars for the rest of our life.

By developing a strong mind and body unity, we teach our young people to become resilient against both spiritual and physical attacks, to maintain their vertical alignment with Heavenly Parent and to protect their purity.

It is wholistic education that encompasses all aspects of the human being. Including Tong Il Moo do and Il Mun do in the education of our children can help all people form a balance of a physically and mentally healthy individual.

applause

However, for these trainees the greatest grace was not the marshal arts or the HD or the lectures, it was the prayer gathering held at the Birthday at the DC where True Mother is staying...

video

I felt the deep pain and hoping Her pain is not in vein. Now is time to resolve to fulfill True Parents's Will... another from Panama... (They do exercises) True Mother, we miss you so much, we love You and we continue fighting and to support You...

Leaving the children with their grandmother and it was a miracle to come when we didn't have the money, but a friend of my grandmother paid... I love the international atmosphere here, feeling embraced with much love. Yesterday, it was an honor to go to the DC and the cold was uncomfortable at first, but offered a prayer to God, 'May the Will of Heaven be done. I leave myself and offering to Heaven.'

My spirit left my body and went to where Mother was (heard this)

Master Oscar Garcia... also attended this DC... (Black face) heard the precious experience of spirit going to True Mother... Mother is a school of how to be forgiveness... I pray in the Name of God and True Father and True Mother... He sings

Congo Africa 2nd gen... time to feel the Heart of Mother and be one with that Heart... He cried to the point that the clothes were soaked... I had been at home when I heard Mother was taken, all day I cried and offered bows and prayers...

One night after vigil, I saw an article that True Mother had fallen at the DC... I felt deep pain with Mother alone and no one to help Her... I wanted Mother to be able to hold onto me and walk, and thinking about

the situation of Heavenly Parent and cried all night long... I have not understood Mother's Heart until now is the most painful, not realizing how great it was... It is still with me... (They play guitar and sing a new song they wrote...)

Champumonim, the kings of Heaven and Earth. No one compares with You in Power and Glory, for You are the Eternal True Parents. The sky is Your Throne. The earth is Your Foothold. And You, You dwell in my heart. What a privilege to have True Parents so wonderful and so great. We bow down before You. We declare your greatness, the living Heavenly Parent...

Thank You for never giving up, enduring all these years. Forgive us....

With what kind of heart are you offering your devotion... I wanted to report the victory of Japan and True Mother, what is Your Heart, how pitiful My sons and daughters are who lived only for the Will and are still walking the path of trial... What is Heavenly Parent's Heart, but the devotion we accumulated is not in vein. As long as we have members clinging onto devotion, I am truly happy and grateful, and we have Heavenly Parent to give us every answer.

I am grateful Cheon Shim Won is here and let us offer prayer until the end. H will know our devotion and the entire SW will work through us. We hope for consolation from us to Heavenly Parent and True Mother and our J brothers and sisters. TY

Cheonshimwon Choir

'As the Sun Rises Again'

Across the world, I believe we all stand with one heart for Heavenly Parent. First, I speak to you for H Japan. I offer my sincere apology for the shock of this recent incident of upholding dissolution. Throughout the trial we appealed our position, regarding the issue of Religious Freedom but the ruling did not honor it. Each church was given an explanation and basically, it was aa situation where (I had prepared a report on all the issues but) only an hour later I found myself sitting across from the enforcers, having to cooperate in the liquidation work, a situation where personal belongings had to be organized and removed that very day.

It was not merely an announcement but the ringing of an action to cease all the assets of the FF at once. The FF does not agree with this, however, we are not in a position to oppose enforcement of the law itself. Therefore, I sent a document to the churches to respond sincerely to the liquidators, and to avoid causing any confusion. As a result, not a single instance of trouble occurred across the country that day.

The following day, we even heard words of gratitude from those involved for our peaceful response. Perhaps the victory we must win in the future is precisely this kind of victory.

We are not fighting against the state. What we are appealing for is to expose the error in the judgment the state has passed upon us, which has not yet been properly conveyed to the government and the judiciary. A judgment was handed down as if their eyes were covered, looking at us as if we were enemies of

society.

At one time when kidnapping and confinement began to be a topic of conversation, the media which had thoroughly concealed this from the public, released a report regarding the (Abe incident, negative testimonies/ perspectives, and later only about dissolution)
