Opening prayer of gratitude

Thank you for coming for the unification of Korea and the world...

Heavenly Parent and True Parents, we are so grateful to be inheriting True Mother's Life, only attending Heavenly Parent and True Parents, True Mother's Life was offering Hyo Jeong to Heaven. Let us all inherit Her Heart. Let us be able to be filial sons and daughters who could understand the deepest feeling that True Mother is currently having.

True Mother is going through this suffering, this path of the cross, please help (us see how to most

support our True Mother) support our True Mother so that this path will end soon and let the Gates of Glory be opened wide. We truly hope for True Mother's absolute liberation (before the world). We are praying for the swift release of True Mother.

Heavenly Parent please use our devotion for the condition of a fire to be spread all around the world (to know Who HMH True Mother is) and for Heaven to work that True Parents Glory Light shine all around the world, Heavenly Parent. Let our desperate one-heart prayer support and protect our True Mother wanting to attend Her, gratefully,

3rd son... 19th 40-day Workshop Spirituality grace received...

(interpreter moving her lips after his words)

From elementary school, I lived as an inactive 2nd gen for about 15 years. I was not negative to the church, but in Japan, religion carries a negative social stigma. The church had many strict rules, and I felt there really wasn't much benefit from it for my life in secular society.

However, after being completely betrayed by someone I trust, I found myself completely exhausted in both body and mind. Pushed to the very edge, I was faced with 2 desperate choices, either leave this world behind or attend the 21-day Workshop in Cheba.

To be completely honest, I didn't want to go, but what other choice did I have? As I prayed every day with tears, I was able to meet the Heavenly Parent Who was filled with Love and Joy. Meeting Heavenly Parent allowed me to return to the path of faith. However, later on while attending the Japanese 40-day Workshop here in Korea, I heard a testimony that completely changed my perspective.

I realized that Heavenly Parent's Reality was not only one of joy but one filled with Sorrow and profound Heart of Resentment. Hearing that awakened me to intense yearning to meet Heavenly Parent once again, desperately wanting to understand Heavenly Parent's situation and fulfill my responsibility as a child. At the same time, I was anxious wondering if I could maintain this level of faith ten or twenty years from now.

To find that answer and wanting to meet True Father directly and be someone who would never betray Him, I resolved to join this 40-day Workshop.

The first 20 days were incredibly difficult with no grace or realizations. It was so hard to let go of my ego and offer a really strong prayer. So, driven by a single desire to meet True Father, I shed many tears. I remember my mother's words, 'Do you have to be pushed to the edge like you were before just to seek Heavenly Parent. Even when you are in a graceful environment, doesn't Heavenly Parent long for you to come seeking with a life-or-death, desperate earnestness?'

Gaining strength from her words, I refused to give up and continued to pray.

Feeling gratitude and living for the sake of others slowly began to take root in my heart.

I also came to the painful realization that my life until now had been transactional. I was always expecting a reward. Previously, I had refused to join the 15th Special Devotion Workshop, using the excuse that my ancestor blessing wasn't finished and I wouldn't receive enough grace anyway.

But, while praying in the special prayer room, I remembered the news of the search and seizure that happened in August. A wave of guilt washed over me for failing to respond when True Mother was calling out to me. I realized that even if there was no grace in it for me, I should have reached out for True Mother's sake, and deep repentance came to my heart.

A few days later during our Pilgrimage to Pongyangwon, I was given the privilege to touch True Father's Resting Place and pray for the very first time. The moment I closed my eyes, I felt as if I were being pulled in. And I saw the silhouette of True Father. Through my left hand, True Father's Heart of Han flowed into me, and the agonizing thought, 'If I only had a Physical Body...'

At that moment I could not hold back my tears. A powerful resolution came to me, 'I must take action. I still have my physical body. As True Father's representative, I must offer devotion. I must witness to others.' The rigorous training in this 40 days was for that exact purpose.

Looking back, there were certainly lonely moments, but Heavenly Parent was with us every step of the way. I saw strong b and s and wanted to be the one who can keep moving forward even if our church is taken away. I appealed to True Father. I prayed for strength to defeat the dark enemy.

True Father taught me His 'han' and His joyful Love, and when I prayed to inherit grace, Heaven taught me what true love really is, not what wanted but absolutely everything I needed.

I'm grateful to Heavenly Parent and True Parents for guiding me to where I am today, and my fellow trainees who fought alongside with me, the b and s in my group, and the elders who have protected Japan up until now and my own parents who waited for me and watched over me to the very end so that I could return to this path.

TYVM for listening to my humble testimony.

Visitation

finding my body last night awake in the dark hours, cutting through the dawn air at minus fourteen degrees, I arrived an hour earlier than our appointed time.

Every day I greeted You in my heart, but today I brought my physical self to stand before You. Beyond the glass of the partition of the visiting room, beyond the iron curtain, True Mother was already there, waiting for me. The only one Heaven has sent to me---My heart aches at the sight of your greying hair, and tears well up even at the sound of the wheelchair.

The mug wort-colored prison garb, the number on your chest... Ah, can all of this truly not be a dream?

The stopwatch flows heartlessly, rushing toward the ten-minute mark. Our greetings are brief, leaving me even more choked with emotion.

Have you been well? 'Yes, True Mother.' All my stories of trivial daily life, You comfort me instead, saying, 'You did well. That is how it should be.' With your hardened hands, you soothe my heart. The One Who should be comforted, instead pats me on the back. And with a trembling voice, sing a verse of a song for True Mother.

In that brief time, the song we sing together strikes the glass wall and shivers, eventually spreading into silence. At nine minutes and fifty-five seconds, my heart collapses before the song can end.

As if knowing my burning heart, You say, 'Do not worry about Me.' Instead You let me go. True Mother waves Her Hand to send me off, and unable to grasp the Hand, I bid You farewell with tears.

In that low place, in that narrow place, one day must feel like a thousand years, in that dark and cold place. Yet even in the midst of a black whirlpool, True Mother stands composed, Her Spirit still supporting the Heavens.

During those ten minutes of visitation before Your children, beyond the walls of the DC, what is True Mother gazing upon? Is it the footsteps of the crowds of the pilgrims at Cheon Won Gun? Is it Pure Water, or the faces of the Unification family? Or is it the approaching spring of Providence?

Your retreating Figure as You leave the visiting room pierces my soul. Yet unable to take You with me, the footsteps of my filial impiety weigh thousand pounds, and the weight of my heart, ten thousand.

True Mother, I pray for Your health and well-being. Crossing through this time, colder than the harsh winter, may You come out into the warm sunlight as soon as possible. With joined hands, I fervently pray.

HJ Report

President Kin Jin Chin

CheonBo Won

he goes all the way to the True Parents's Chair and bows (dos not bow to audience)

Good to see you all. We heard the poem recital of Chairman Lee Sang Man. Today marks the 169th day, and I could see Her Face. With heart of repentance and sorrow, I'm standing in front of you, and all of you already know, March 4th we heard the decision about our Unification Movement that breaks our hearts, and it is a situation where all of our J members are pouring their heart and tears, and I hope this message will bring them some little comfort. It is the message of PL that I have prepared even though it is lacking in so many ways, and I'm truly grateful for Heavenly Parent in the SW and True Mother suffering so much.

On March 4th, the dissolution as ordered for H Japan family was ruled and the liquidation attorneys sent out notice for the process. First rule of engagement is absolute compliance. They ask for the total surrender and thirdly a standby protocol and absolutely follow the process. It was such a shocking thing that they told with the legal effect immediate. Our legal status was stripped away.

Also, the liquidation process was effective immediately. They went into the liquidation by force, and we have witnessed it, and all was so hard to imagine, such a pitiful things we are experiencing. When I saw this, I was deeply and profoundly sorry to Heavenly Parent and True Parents with heavy heart, and with bottom of our hearts we apologize and are so very painfully sorry for this situation.

I have been in a lot of activities and witnessing with the Japanese members, and I know deeply their faith. We heard a lot of tear-filled stories from them and through this process I have 3 things in my heart: First, our J members, I really respect them for their AFL and O they showed and I'm so grateful.

Secondly, because you went the really hard path instead of us... They sent a lot of missionaries abroad and supported financially and offered devotion, not surrendering to do it. I deeply grateful.

Thirdly, I'm so apologetic and deeply sorry from bottom of my heart.

That is the 3 things, the heart of respect, gratitude, and heart of apology. I would like to express my heart through this. All of the leaders and members, J members who are doing so much...

I would like to share my heart and he does a so sincere full bow to the audience.

It is deeply agonizing, however we cannot stop or quit or let go of everything. We have such a profound vision, a Vision of Heaven... When we think of our Japanese members who joined with such a vision and walked the path of such hardship, with absolute, unchanging and universal Vision determination of heart, Heavenly Parent's Ideal and Ideal of Creation and 3 Great Blessings all.

And to achieve this, the Providence of Restoration, through the 13th year of Cheon Il Guk, and this True Mother has proclaimed and from that foundation inside of Her, the Path of the Cross, and through its victory we should be able to perfect the Golden Era. They cannot dissolve Heavenly Parent, True

Parents's Ideal. No one can dissolve these things, even the dark world does their best, we have this in our hearts.

In the fallen world there are a lot of difficult things, but we continue to be changing, and with this we should not give up. Just as Jesus said, 'The Providence doesn't end after the crucifixion of Jesus, through us this is a new chapter, and with a new heart, we will march forward because we cannot give up the Heaven's Vision. That is the absolute standard of our HMM and all members.

Twelve point of that Vision within the Principle Words, and I am centering this from my Research and we have the things your cannot find anywhere else:

Heavenly Community

" Vision

" 3 Great Blessings

(That is our Vision)

Life of Loving Heaven, the people and the nation

We have the Vision of the

True Parent

True Teacher

True Master

Heart of True Life

True Word

True Love

True Lineage

And we practice this daily through our Family Pledge

we are building a society of inter-dependence

mutual prosperity

and universal, shared values

that transcends, religion, nationality, race and culture

Furthermore, for the peace, we have living a life of:

inter-religious

inter-national

inter-racial

inter-cultural love

and we are practicing True Father's Words

All of these things (that the world need through us, not found elsewhere) are the reason we are continuing our faith

and this becomes the standard of our faith.

Centering on this Heavenly Vision, our life, you cannot find this in any other religion or community. It is such a profound appearance that we are living.

How could we become heretics? How could we become a cult or an anti-social group?

All of the leaders, all of the judicial part and all of the press, do you actually live this kind of life? Do you have this Heavenly Vision within you? Do you have this profound Vision? How could you talk easily about our True Mother, and how could you torture Her Mentally and Physically? How could you judge our members and our community, and all of our members and community are living a life for the sake of others, for the sake of others. That is the reason why they are able to take advantage of our members.

All of our members are so honest and humble. We have this ideal. Members have the ideal vision of the Cheon Il Guk, the ideal world.

It is because the Cheonsim humanity was to build this ideal world and in the Golden Era, we could glue this Vision. When you look at True Parents Words:

This is the final end time to complete the Providence. It can no longer be prolonged. Heaven can no longer extend or delay the Providence of human salvation. This is the final last days.

All of our members know this, even it is so hard, it is the Last Days with the Center of it, True Mother. And we are attending True Mother, so we can go passed this with so much Value.

We had so much ideal world view of the ideal world in the past, however, for the FF, the ideal world is Cheon Il Guk. Mother has said that repeatedly. So what is Cheon Il Guk?

Cheon Il Guk is not a simple nation. The purpose of the Cheon Il Guk is to substantialize the original world. It is for us to practice the 3 Great Blessings, which transcends nations. It is international, inter-religious and inter-racial.

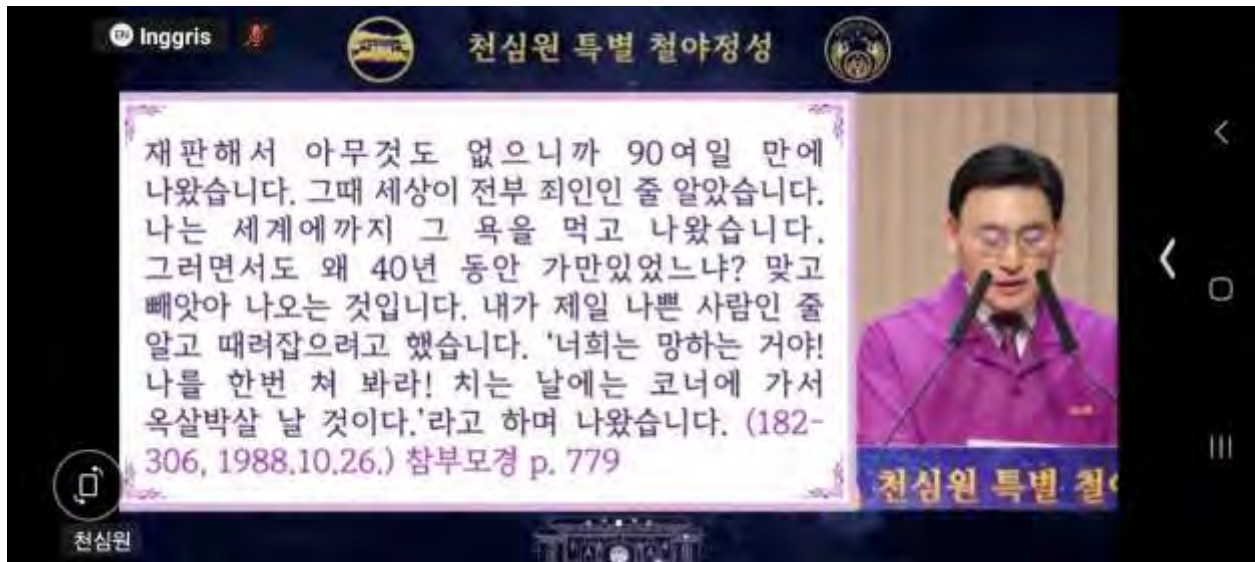

It also is connected to spirits in the SW. Then how could we achieve this? It's not through power. It's through the ideal of Creation. It's the Purpose of the Creation. It's the Principle of the Creation, and through that Principle we are able to do so.

So, when is the Cheon Il Guk? It's from the beginning of eternity. It's of before. The world view of the ideal world was Present before the Fall of Adam and Eve. And it doesn't just stay in the physical world. It

is global and cosmic and transcends the SW and PW and all borders...

How could you say this kind of things bad about our church. We are living this life of faith with this kind of view and ideal world to realize. So what are the basics? It is the 3 Great Blessings that the family members in Japan worked really hard for because they were so touched by the meaning of the 3 Great Blessings. This is the basic meaning and essence that is so emphasized in the Principle. That is why it is so important. It is international, inter-racial, inter-religious, universal Truth.

Whenever I give a lecture, there is no one who actually goes against the 3 Great Blessings, because it is so universal. Ane when we look at True Parents's Life through the 3GBs, from 1960 it was happening throughout Their Lifetimes. When we actually see, there is so much you could go through in detail to show this in True Parents's Life. You could think, 'How even is this possible with Them?' It's so unimaginable in our standard of precedent.

Through 53 years, what True Parents achieved during Their Lifetime, the government could never do this. It is so miraculous factual record through this period.

What is marked in blue on the screen, a lot of donations were poured in from Japanese members, who have participated in person. And we have a lot of material, we have a lot of proof in videos and newspapers to know the devotion, the suffering and the sacrifice of our Japanese members... This is something that no enemy could take away. When we go to the SW, it is always engraved in the SW eternally.

Because of the dissolution of our FF, a lot of people are going through hard times. However, all of these things, the satanic side cannot steel, because it is engraved in spirit, in SW forever.

So, from 1986 to 2000, there were a lot of things... You couldn't even go through all of it in detail.. and all of our Japanese members were offering devotion and participating and achieved the goal of the nation with tears. And when we actually hear about the stories, they're so heart-breaking stories. And these public funds from our members, you could see the tears, sweat and blood of members for this public purpose funds, you could see the devotion of our members their entire lives. Thata's the reason why we should be really careful about not misusing the public funds for this... how we treat our public funds that have such sacrifice and conditions behind. Nobody can take that away from the Japanese members or steel that from the Eyes of Heaven.

From 2001 to 2012, there were so many things that if not for the Japanese members we could not have been able to fulfill, like the 3 Great Blessing. Father was saying, 'We need to do this for the Providence. But how could we do it. That's the reason why True Father is scolding our J members differently. However, if see True Parents after the event or go into True Parents Room, I have heard several times that True Parents are crying not feeling comfortable to be so strong scolding toward his children, but it had to be done, with True Parents's trust of J members to receive it.

True Father is actually asking, begging so much from the J members. If you see True Father crying alone in His Room, as True Mother has seen, for all of the sacrifice and devotions of the J members.

But all of the lawyers and the Christian pastors and the opposing media are using this against us. There was the Russia and China war and the Japan war and the US and Japan war, and Japan actually a lot of people in Asia were dead because of the Japanese military, and they all went to the SW with so much resentment, but spiritually all of the resentment was liberated through our J FF members. Nobody could do this in the government, with the laws, nor in the press, but it is done through our devotion from our J

members.

If you see this profound Providence of the Holy Golden Era, True Mother is in the Center. True Mother went together with True Father (submitting to Him and supporting Him quietly) for 53 years. However, after the Holy Ascension of True Father, True Mother has done so much (in Her own Heart and Power Identity that always was Central to Providence)

True Mother has Lived Her Whole life attending Heavenly Parent (without flaw). After FD, so many peace activities were fulfilling Heavenly Parent's Dream. And it is essentially different for those who are doing things for the Nobel Peace Prize. Everything we are doing is for the cosmic purpose. Nobody actually Lived this Life like True Mother (nobody Lived like this but True Parents).

Uniquely, for 50 and 60 years, True Mother succeeded for more than 380 peace activities. When you look at this, after True Father's Holy Ascension, True Mother has taken Ownership. How could She actually think about this? How could She prepared financially, or how could She be able to progress this. So many donations were poured into it by J members' devotions and conditions, continuing after True Father's Holy Ascension...

Also for the liberation of the SW, all of these were made possible also by our J members. CP Complex also.

What is the meaning of the cross we are bearing... Because of the leaders' wrongdoing, True Mother is indemnifying those wrongdoings and wrongdoings of the chosen people. It is their responsibility of 5% no fulfilled. When we fulfill as we have not, True Mother will be liberated. Through this we are cleansing the family and national level to see the fulfilment of H's Will. And Cheon Shim Won is doing so much toward this. All could be listened to understand through this Cheon Shim Won and cleanse our fallen nature... liberate...

True Mother's path of the cross will absolutely result in victory because it is solely for the fulfillment of Heaven's Dream. It is the desperate devotion of members all around the world in these final days that True Mother is going this way. Heavenly Parent must finish what Heavenly Parent started.

This must be a healthy, hold community and our FF has done so much. And we could see the vision and substantial manifestation so much more through True Mother and tis Cheon Il Guk Constitution. We first need to organize ourselves internally and align ourselves with that Vision, communicate transparently, have this kind of culture internally to make a sustainable and healthy and holy community to protect ourselves from the fallen world.

We could see these values within ourselves (through pure waters and CP education and devotions)

SIX things:

First, practice core things in ourselves so that we will be able to see the situation in Japan resolved, organized, as well as all over the world

Cleansing

devotion

professionalism

see from different perspective than before

All the BFs are chosen people and we need to go over True Mother's suffering course,

the suffering of Japanese members

to be able to pay the indemnity and substantialize victory

For substantial dominion of Heavenly Parent and fulfillment of the Golden Era, we have so much to do, and it is far ahead, but we need to do it quickly, go through it.

We have a clear roadmap but need unwavering faith... Leaders have no place to go to offer service and gather for Cheon Shim Won, and are doing this in their houses though. We will not be damned, but will see new ways for the new start, new hope, new Providence, currently and future...

All the members are currently praying and will continue with this essence of our life and the meaning of the Family Pledge and mottos all centered around the family and Heaven with True Father and True Mother's Words as well...

enemy is forceful doing dissolution unnaturally... but we will make the new community centered on our family and we will know Japan will be victorious... Up until now J members have done the Heavenly 4standard and will continue. I have faith in them and our Essence...

It is a gamble that we will scatter and weaken, but we cannot be dissolved from the same Center as before, that is the Power and Light as always before...

J members, we respect and love and have such gratitude for you and are deeply sorry, we truly love you and know your sacrifice BS and Ts as Heaven and HMH True Parents know... and we reflect more about this and 2nd gens have a lot of tears, because of the donations of their parents, they were struggling so much not getting the love and presence of their parents... but you 2nd gens are the diamonds that will come out of it and lead the world and be the hope for the world, and only you need to feel proud and feel Heaven's love for your parents and share with your neighbors and the world...

Elders now are old and don't have enough money, and if they couldn't give donations and are hiding at the back, I am truly sorry to ever see that and feel our respect and apology... and we truly love you...

Hoon Dok Hae

During the Liberal Party Regime, governments and ministers tried to strike Me down. Dr. Sungnam Rhi issued a special order to five ministries, including education, public and foreign affairs commanding them to completely wipe out the Unification Church. When they investigated, what did they actually find. They had to fabricate the rumors themselves, trying to frame Me and wrap Me in rags.

But when they dug into My Life, they found absolutely nothing to fault. We went to trial, and because there was no evidence at all, I was released after 90 days, but by then the whole world treated Me like a criminal and I faced the insults and scorn of the entire world.

Yet, why did I remain silent for 40 years? Because it is the H way to take the blow first and then take back what was lost. They thought I was the most wicked Person and tried to destroy Me. I thought to Myself, 'You are making your own ruin to try to strike Me. The day you strike Me, you will be backed into a corner... The Person who offers the utmost devotion for Heaven and remains loyal will never perish.

Heaven loves Me. I My moment of deepest loneliness when no one understood My Heart, I personally experienced Heaven stepping in to help Me. This didn't just happen once or twice. When I think of how frequently Heaven intervened, I cannot forget the profound grace.

The Providence of Restoration cannot be achieved with money or power or even with children, but only with true love. Even when I was in Sodomon Prison, I never cursed the Republic of Korea. I never prayed for Christianity to perish, but prayed, 'Please forgive them for they know not what they do.' Please lay all of the burdens upon Me, so I may pay the indemnity for the sins committed by this pitiful nation of Korea.

How wonderful would it be if Korea could receive Blessings simply by insulting Me. By this a great hurdle was gone over and we can now connect this to the salvation of great love, tens of thousands of times, by the Principles of which true love multiplies, this miraculous work of pressing the seed unfolds right here.

With the loving embrace of the Creator of the Universe. When struck and having to wear rags and scorned, thinking how much more tribulation Heavenly Parent has endured. How could I complain about enduring this much.

The more you endure persecution and sacrifice, the more you will fill your house with precious treasures that no one else can possess.

I truly want to protect our children and I want to inherit and engraft Heavenly Parent's Holiness and Shimjeong...

We should pray for Japan for the fulfillment of H's Will, do our utmost best before the entire world. (I was able to recall him when he was the President of Japan, and felt he was offering the devotion and my heart became warm feeling it. True Mother saying how pitiful are the J members who devoted themselves for the entire providence, and my resolve was to go to the end with You True Mother.

All of the members were saying that this is the beginning and they are more firmly steadfast and holding onto the connection with Heavenly Parent and True Parents...

60-year-old female, so grateful for the Cheon Shim Won devotion, with which we can stand again, and

with freedom as individuals we can practice, and we will resolve to be reborn again for that cause...

After the order in H Korea and Mother's situation, so I want to say to Mother not to worry about Japan, we are able and going to attend True Mother and will be victorious, and I'm grateful for the devotion and prayers of members all around the world.

When the persecution is great, the determination is greater..

testimonies of today (as above)

The Roman soldiers were afraid to go into the tunnels. There were carcuses, skeletans there... but because of the Christians faith, we could live in Democracy... We are living in an era that we are able to shout out and pray in the mountains and fields and think about Jesus' Heart, our voices should be even louder... The Cheon Shim Won voices should be bigger...

Sometimes I was crying and shouting and thinking even in my dreams that it is not enough. This is not a battle of the individual. We listened to a lot of testimony of going over spiritual battles, but it is not just the people who are offering devotion, our own voices of prayer in our mind and heart need to be louder to see Heaven's work...

Worago was able to give devotion for more than 21 hours, and you see him praising in the very front. True Father is living and working with True Mother
