Summary

Impressions of a 43-year-old Japanese woman Shikukuchi: From the evidence of a unified martial arts training student, she learned the depth of the benefits of spiritual training, and felt the love of her father and mother in the message of Chairman Shikuguchi who devoted her heart to protect each I feel proud of the two generations who openly reveal the truth even before the wrongful decision to dissolve, and the people who continue to serve the society without the same, and I also decide to do everything in my power for the remaining golden years. These tears that I shed now, believe that I have infinite value that cannot be changed by anything that can inherit the feelings that Heavenly Parents persevered for 6000 years, and I have decided to become a blessed household that will comfort Heavenly Parents.

Proof of 40 students in Korea: I decided to participate in the training session for 120 days, hoping to learn the feelings of my true father and mother like a family. The atopic that I had suffered until now was cured through the special kite, and in the beauty of all-nighters, I experienced a tearful benefit that embodies the feelings of true parents. When I resonated with the heart of heaven through a resonant prayer of resolve, my heart swept away and I was able to emotionally unite with my father and mother.

Proof of a third generation trainee: He lived far away from his faith, but he participated in the training

meeting after his mother recommended him. Initially, he thought about how to escape from the Shuren Institute, but he learned the principle and completely misunderstood him, so he apologizes to his mother. While concentrating on lectures harder than anyone else, he has entered a position where his parents are embarrassed. When I tried to work on it not on my faith but on my own, tears of repentance flowed without stopping, and I gained a sense of noble faith to live with gratitude every day that everything I've taken for granted is a blessing from heaven.

3/5 Japanese Shokuguchi offered an inspiring prayer of thanksgiving during Kakao Talk. "Heavenly Father swallows all the foodstuffs of the unity family with sad heart. I know our Heavenly Father who looks upon this situation is enduring greater pain. Please make me a child who has the compassion that I am willing to give to and give to you. Thinking of our Heavenly Father, who is in pain even more pain than I ache, and I believe that in these situations, when the mouths gather their heads together and do their best, there will be a surprise work. Only that I may be able to look to heaven and listen to the words that come down from heaven. Enable me to live with humility and unchanging faith knowing that the past results of our failure to become one have emerged. Make it a force that can help small powers come together to become big waves and overcome the world's powers. Please protect the body of the true mother who is silently bearing the hardships of the present in the lowest position in the world. Please make sure that you can be firmly connected with the true family love Shoshi. This is the departure of absolute faith. Please console the wounded Japanese Kokuchi hearts and grant them permission to surpass this ordeal with the same heart even though they are separated. "

Kunjoku no mikoku (Japanese reading) says, "I have seen justice triumph even from the severe

power." The path of righteousness is hard, but I was not discouraged because it is the way to take responsibility to the path of the flock that our heavenly father seeks. A leader who leads the flock must never be discouraged. If the parents who are leaders in the household are discouraged, the second and third generations are discouraged and departed. Never be discouraged if you are the one leading the pack. ""Trials and trials, they are not just difficult, but they are stimulants of joy in the future. You can visit not only the joy of the future but the country of hope. If you have hope to overcome difficulties, you can fulfill heaven of joy from that place. No hope is fulfilled if difficulties are not overcome, so the Heavenly Father in Love trains man to overcome the stage of this preempting trial. "\

We are the pack trained so far to overcome the challenges we face. When we consider that the training process of many persecutions and ridiculed is an occasional present in which we can feel the stimulation of joy as more valuable, we must not accept that difficulties and difficulties are the basis of our happiness and factors in which we will inherit the happiness of tomorrow.

"I'm not a bitter person. I don't need your sympathy either. I am a happy person. My Heavenly Father, the Master of Heaven and Earth, understands me, so I am not unhappy even if I am in a position to bleed, torn apart, and cut off with torture. I am not unfortunate because I know the heart of our Heavenly Father who has put our beloved son in this position. As we struggle to find a country where we can grasp heaven and comfort heaven, no matter how bad the torture may be, that is not the problem. Even though the overlapping Way of the Cross has stood, even though the Way of the Cross pushes me to the difficulty of defeat and a sense of despair, Father, there I am determined to go with a new mind and a new hope. "\

I conquer everything with a heart that says that I am happy because Heavenly Father, the Master of Heaven and Earth, understands me, and it is Father who has heavenly victories, so if I pray earnestly, the spirit of Father, who is the absolute main subject, enters my heart and encourages us. "Don't be discouraged. Be strong. Be strong. Stand strong. Be bold. Heavenly Parents are with us in every situation. The place is a happy place. If you pray to your father with a spirit of victory, he will answer. "\

Since this is the age when we go beyond the Tenichikoku Anchi and worship the Creator Heavenly Parents as an entity, the blessed households with Tenshin, people who are completed as the people of Heavenly Kingdom, organize all the techniques of evil gods and make us as a troop with Tenshin that only the good gods can serve. And he told them to teach Tenshin-sai to all churches in every continent and all over the world and pray fervently. If you enshrine Tenshin-ni, the office of your true parents, with your heavenly parents, and devote your utmost devotion to the heart of the sympathy, where the ancestors of absolute good spirits are present, heavenly affairs will occur in the household. Nowadays, we need to make Tenshin Zen prayer like war, so that even a drop of water can flow like water in a river towards the sea of destination, unite in every household and church, so that Heaven can do the work. I hope that everyone who prays at the headquarters will be proud of their tears and testify of their time's blessings. How big our absolute faith will play as we move forward together as one, believing in Holy Mother Han, who will open the gates of heaven and create a new history as the hidden Heavenly Mother entity. I wish everyone to win with such conditions.
