Opening of gratitude

Upon this we offer our sincere gratitude for calling us into the boundless Embrace of Mother's Love. Heavenly Parent, the lesson left by numerous CF's throughout history is that in any situation, they did not

blame their environment but remained victorious to Your Will. Through gratitude so profound it could move even Satan, similarly HMH, True Mother, is overcoming all hardships while embracing only the one goal of leaving Mother's Love for future generations.

Even in situation where it seems impossible to be grateful, by showing us the true meaning of AFAL and AO with Her entire Being, She has awakened us to Her True Being. Recalling the True Mother Who prayed with tears in Her Eyes, Heavenly Parent TY, I am grateful, I am sorry', we believe that if we offer our earnest one-heart prayer at this hour, our prayers will save this church, restore families and restore a vibration that leads this nation into the Embrace of Heavenly Parent.

Gratitude can solve all the problems, move the heart of even Satan, and change history. At this hour, as Blessed Families throughout the world, we absolutely offer prayers of gratitude centered on the standard that You, Heavenly Parent, can directly govern, we earnestly plead and desire tht You, Heavenly Parent, transform this nation in the direction You wish and establish righteous people within this nation, so that true leaders, who realize and take responsibility for H Will may emerge.

Even at this very moment we earnestly long for the longevity and swift return of True Mother, Who prays for us without ceasing. We also earnest pray and plead that You protect the health, spirit and body of all members who offer devotion at the DC.

When I go to meet True Mother, I was told that I should never cry because we need to give hope to True Mother, and that moment is for True Mother, not for myself, and I told myself not to cry and prepared my heart to go in.

True Mother said to make the report short for room for the song... when it was my turn I said every vigil I sing songs that You like and when you sing in front of True Mother, as you look at True Mother, you cannot help but to be moved...

I thought I might cry so I just looked at the lyric to not cry, and after the first song...sang Song of the April, and I was so moved in my emotion, so I just stepped back, but True Mother asked if there was anything you prepared and sang 'The Spring Comes' and with a minute left, we sang Omayá Nunaya and sent our hearts and love and hope that we could send strength.

I think now that it was not a place of sorrow but just a place to be with True Mother, and I am sure there will come a time to remember with smiles... The one who wrote down the conversations just smiled and left when we started singing (He was not going to write down the lyrics of the songs), and I think no one else did as we do with the songs every time, and I think we are making a new culture in the DC.

I am too emotional now, and I hope I can sing the song okay...

Testimony

International Workshop trainee

Natasha Chen

from Panama Central America

Started marshal arts now for 35 years...It was aiming to help the youth with education, marshal arts and discipline. What honestly moved me the most is that we have a family similar. How to live an honorable life. Knowing that in this place people have also been learning how to live in the eternal life as well as this physical life was very touching for me.

My master also guided us to prepare for eternal life, that each one of us is the messiah on earth and to live by Jesus' Words 'Go and make disciples, and I will teach you these things and be with you until the end of the world.'

To look at our students as if they were our children, giving the love and proper guidance.

Hearing the same teachings in such a structure, reminded me of what my master said, 'Surely, somewhere in the world, there will be another family like us' and that family and b and s were actually you. I love you with all my heart. big applause

The words, 'Sincerity moves Heaven'.. I have felt the Hand of God when loving and sacrificing for them, so these Words of True Parents moved my heart deeply.

As I finish this Workshop, I sincerely hope that Master will continue moving forward with Tongilmu do will be progress and be able to directly teach the character through more instructors, my goal 30,000 and surely bring joy to God.

Heavenly Parent is the reason for my existence, the found Dr. Sook has immense character of great love with strong spirit and passion to serve as truly miraculous...

I came to know about True Parents for the first time on this occasion but I have come to love them and Their Life and Love mission for Jesus. I admire Their global mission and the Heaven realm They have built on earth.

I sincerely thank all who prepared this Workshop, allowing us to have this precious experience, with accommodations, teachings and overflowing love.

TY Master Oshiko, Jonelle, Liki, Kenshi, Onadong,... all of you I love you for helping everyone to come to know Heavenly Parent, Jesus and True Parents and walk the path of eternal life, TY and I love you.

Special Lecture

Moon Im Song

He offers greetings, podium (at the side of the stage)... This is a lecture I already gave that PL said to give it again, and although I am lacking in many ways, with heart of obedience, I am here.

Victory Over Suffering, Victory of the H Heights... 'Suffering Victory of the Heavenly Heights'

meaning that one who triumphs over many hardships will be victorious in the high Heavens. And the misfortune is turned into Blessing.

This title, after the sad news, and thinking what to share, and I received that to give the Heart of Wang Omma, I must give Her Heart for healing. Personally and all the Japanese, I thought might have this kind of face, sad face. But I was thinking, 'Would True Parents be having this kind of face? This slide is the upside down of the same photo, for how this moment will become happiness.

And thinking how True Father faced the trials. The ones who will be the princes and princesses in the high Heavens triumphs over many trials.

When H is about to bestow a great responsibility on a person, Heavenly Parent first brings hardships, starves their body... Did they say they would bring them a full belly? No. Throws them into poverty and brings their actions into disorder.

It is to shape their heart, increase their patience and abilities in areas where they were once lacking. Isn't this amazing words. This was at a moment of difficult for me after an accident. I prayed to be able to live until my child entered the university, and I received the note that I would live a long life. I was shocked to hear that from a doctor as well.

Trials are not the enemy but the material which can determine great value. I already knew this in my head, but when I was about to die, it brought me a new perspective, and I keep these words at the center of my altar.

Our own strength is insufficient to face many enemies, so when our prayer aligns with God's Will, it is fulfilled, thus the path is one of turning misfortune into Blessing.

From True Mother's Words also it is about turning misfortune to Blessing. And True Father said prayer is about creating moments to be attuned to Heaven. While singing prayer can be more moving than spoken prayer lifting you into a realm of spiritual experience.

Father sang a lot of songs.. One was 'The Rock that lives a thousand years' (He sings) As soon as hearing and singing together with Father this song, I had a lot of tears. Why don't we just hold hands and move forward. True Father sang a lot of J songs as well. And I was wondering what kind of song for this message.

There is a beautiful singer that if F knew this song, I think F would want us to sing it together... carrying message of war and hope, being a time able to say about it looking back. Those who part can meet again and those fallen rise again once more...

Our J knows this song, so he put Korean lyrics, and... How was it?... With our heart, let us try to follow, so to our J members, we can show our support... one more time... why don't we move our arms and make a heart to each other... our Secretary General's wife could not help to cry... Laughter and crying are the gift from God, question is what kind of meaning the song has, we cried when we sang with Father and it heals us.

The first cry of the baby and smiles of love are signals of sincerity that come right away. They have expression very close to God. Laughing and crying exist primitively before language. Because you're too sad that even your tears dry up and they cannot cry anymore, but True Father said we must cry together, so that we receive the gift of God and be healed from there...

there is similarity between laughing (endorphins in both body and mind that gives healing and purification) and crying helps to relieve stress. Truly the fact that True Mother is in the DC is the highest form of stress, so through crying you can balance... not to keep it inside, but with all of your heart cry.

When you express emotion it restores the balance, and heal the psychological effect... so don't be embarrassed to laugh and cry. It connects human being when we do it together, as in the time with Father. And science proves that. Empathy is the core of what makes human beings.

There is a saying that men only cry 3 times in their life, but that is opposite of what God intended... Humans and nature have the similarities and all things represent God symbolically...(Shows the people and animals connecting and sharing love, all different animals... even a fish... even pigs... turkey... whale... seek God's love through human beings... the dolphin is nudging, loving the cat.

This is a twin baby... they are hugging... one the doctor said would die... They separated the baby that would die, the one baby started hugging the other baby and even the nurse was scolded, the baby didn't die... and lived a full life, and there was great news about how a hug can heal and it is even scientific to reduce stress hormones... crying, laughing and hugging is what Unification Church members need. It

promotes oxytocin... increase immune system... and who found the similarities? Yokoi Vice Director has the answer... The third one is on me... but the third one is the answer.

Animals start to rub their faces to humans... Why would the elephant nose the person closer. They want skin ship contact... contact allows nerve endings change, lowers blood pressure.. Rev. Chung couldn't sleep worrying about True Mother and did another vigil.

At this time, PL said to do what I did before in the Workshop, so I will try to take up the courage, so I need some support so Secretary General Pang Sang Il and his wife, pleas come and Tsujingte former Cheon Shim Won Director, are called up.

Among 2nd and 3rd gen, I would like one couple Kim Cho I couple going to Zambia soon, coming up.

They will show the model of how to hug and if you are with your couple do it, or with same sex trainee. Teaching how to hug. Babies when they come back from school a lot of stress... Mothers pat on the back at the center where vertical and horizontal line meetings and that allows children to relieve the stress... If you are same or similar height, I'll tell you later... raise right hand up facing each other and left hand down and try to contact when facing nd right arm where I said and with left cover the right hand... He approves... do not tap but just hold your hands... To be honest in international team, I do this and they start sweating but there is the pre-requisite for this (Do not tap just press)...

Wang Omma, the substantial Being of H Mother... Imagine that the HM is right now having the Heart to hug everyone. Do not think the one you hug is your spouse or partner but your son or daughter from the Position of Heavenly Parent. those who are tall make sure your hand is on the spot I showed. So, after PL's direction, please find the partner and start hugging... close your eyes and stay still... PL's couple truly beautiful... and give back hug... and as you do this, it's not just hugging but thinking HM is embracing for the first time, so without words just throw your heart, 'I've been waiting for this moment' and the other person can feel it... PL's wife please give more hug... Lastly, tell each other I love you...

Secretary General is sweating because this part of the back is where the energy goes... Doing it without words can really help...

When people went to meet True Mother, they went to comfort, but instead received comfort. In that DC

you can go into panic, but this is what True Mother enforces through Her Life. If you want to receive fortune in whatever situation you are in, you should say, 'Thank you and I love you'... She is not just chanting the words, In order to receive the love, you must give the Love. We try to share love back to True Mother, and we can reflect that True Father said, 'If you understand give and take action, you can receive love. True Mother says TY in such a position, practicing this throughout Her Life.

Busking, very tearful Japanese sister...

Hoon Dok Hae

If hearts are not connected one cannot become a filial son or daughter. Today, for the first time since Heaven and earth were Created, human beings appear before God as The Sons and Daughters and emerge as Bridegroom and Bride. It is the day when God says, 'How much you must have labored to find the Heart of Heaven and seek out Heavenly Parent amidst all the various adversities on earth... and when God Blesses Them with the Substance Body in Place of Formless God.

The Marriage Supper of the Lamb

It is on the standard of standards equipped with the Promise of Ideology of the True Bride and the standard of the True Filial Son and True Filial Daughter. From that Day of receiving the Blessing, They

become True Parents. They become True Parents of humanity, wearing a tangible Physical Substance in Place of the Formless God.

Originally, if human beings had not fallen, they would have grown well in a good world, received the Blessing of God's Love and become children who could connect with God's Heart. Therefore, you must complete a tie of heart where God can say, 'You are filial sons and daughters who can represent My Heart (otherwise not know what Path God has walked, you cannot present the Form of the Original Adam and Eve that can be presented before the Ideal of Creation) The MSL is precisely the ceremony for attaining that Form (to attend with).

Even if a person speaks just one word to Me that touches My Heart, I will cry. I possess such a Heart. Whenever I think of God, I feel choked and there is something like a sensation of my spine being driven down. I Myself cannot help it. Because such a realm exists, even if I do not pray, My entire Body and Life is a Life of Prayer. Therefore, there are countless times when I collapsed choking with emotion, clutching a tree or telephone pole because of God's breathtaking circumstances. God's unbearably indignant circumstances.

At times I experience the Heart of Shimjeong to the point where I cannot support my own Body. When I look into the reason, it is because, at that hour, God is experiencing something sad and God is letting Me know in what place such a thing is happening because I have come to earth bearing central responsibility. I have the mission centered on Spirit and Trust and connect the foundation of Heart. Therefore, God surely connects with Me and notifies Me.

When Unification Church first did witnessing, it was not done through the mouth of people. Many people were witnessed to through revelation, as telling them to go to the Unification Church. And if they did not go, they were struck with a curse. The SW did the witnessing. The sons and daughters were told, 'If you go to a certain place, you will meet a Man named Rev. Sun Myung Moon. Then they were witnessed to.

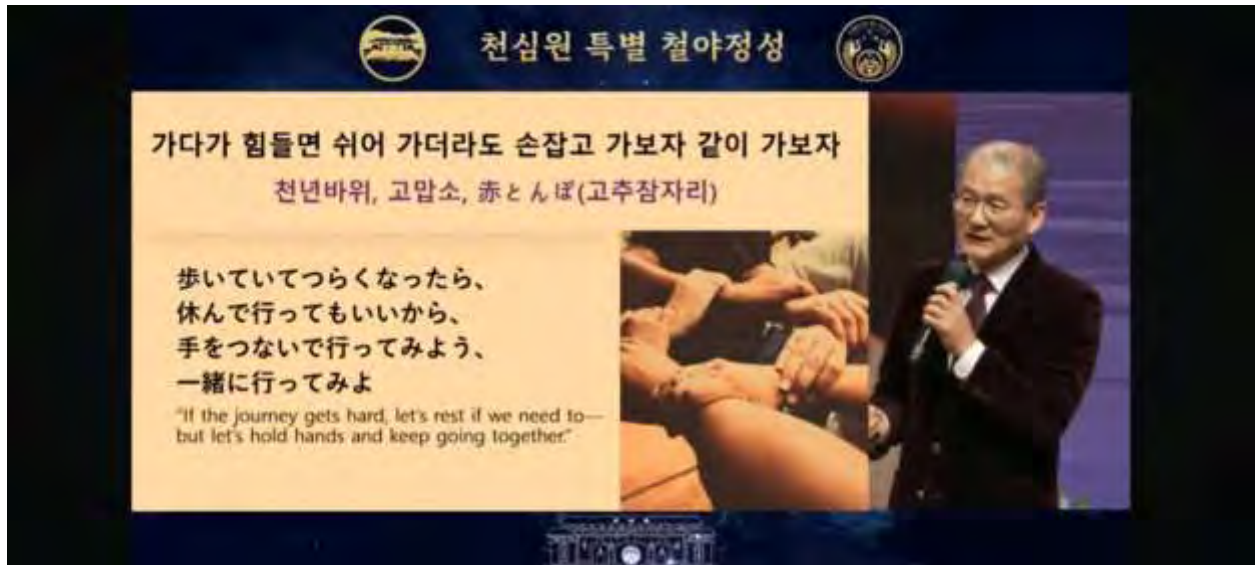

If they tried not to go, they were kicked out or driven away so that they would go by any means necessary. The people gathered in that way are the members of the Unification Church.

46,000 have gathered...

At the TC, True Father 4PF are with us and with various leaders and trainees... 3,100 are here, but our Yeongseong Workshop trainees have graduated but some have stayed to offer praise and the new Workshop will begin, and because they were with us, we could push forward with devotion. They are truly the important ones moving forward with Cheon Shim Won Providence.

Among the registrants, please also ask someone you love to join with you.

H Korea (names the churches... numbers in the WSs)

Now more through recorded video...

USA Cheon Shim Won:

Yesterday was 1,000 special video devotion and they asked me to record a video, and they have made this great victory, even Cheon Shim Won pastors were moved and came here and through the WCLC Movement, they have set the foundation to give strength to True Mother, and next is to go over the 1,095 number...

Through Cheon Shim Won we must solve all the problems in ourselves and our family, and as a result, throughout H USA, members are joining. As they connect to this main Sanctum, they are holding WSs and are settling down and I'm certain a new wind will blow in America.

172nd days... (names churches)

and total of 90 at the DC.

To fulfill H's Will, H gave freedom and responsibility, and give hardships, but in that moment the faith is revealed, and we sow seed for the future. At this devotion, offered utmost, we are at the brink of spiritual battle, and I hope all the nation can know results of victory of this process.

video of EUME

It is truly different from 21-day Workshop. As we graduate yeongseong trainees, they become academy and spread to Europe and the Middle East and more will join soon.

Kim Song Oh sang with the suit he wore in front of True Mother and shared his beautiful singing. True Mother truly loves the song and said to make the report short and sing more songs... and True Mother I sense was in Heaven at that moment... Even when True Father was in prison, Mr. Pak JU Hwa who was with True Father, saw True Father even when bombs were dropping only thinking about the ideal world.

And our True Mother where it's difficult to stay even a single day, She is moving forward. We cannot be more painful than True Mother even with the many things that are not good, think about True Mother and have our heart aligned.

If you move forward in such way, Heaven will come down with you and show you the future and tell you stories and show you vision and H will work. All the hardship came in the process of aligning with Heaven, and think about what level our heart is at.

I hope you remember the song Kim Yong Oh sang.

Today the sister who has been working at the Eastern Culture Marshal Arts, and if she give a demonstration of marshal art, I am sure you will be surprised... They need six different languages to translate, but every day they explained and taught Unification Theory, and our sister gave beautiful testimony.

She said she realized that a family we learned of exists here... In this Academy she emphasizes faith as well, preparing to live in the SW. H said, and Jesus said, 'You must disciple to the ends of the world and I will be with you'

Raise your disciples as if you're raising your own children. This organization had been moving forward so diligently, and that is why this organization has been kept for 35 years. Our sister said that 'You are the ones that my Master Phabio prophetized'

Because she is a righteous person, she accepted True Parents's Word, and even offered prayer in front of the DC... The Master also shared tearful testimony last week of leaving his body. God truly loves this academy, and our sister's desire is to adapt the organizational structure here so that everyone can become masters, and she made goal of 30,000. She respected Dr. Sok Jun Oh's great character and confessed that she will attend True Parents as her Messiah.

And Workshop trainees, half not our members but all confessing that True Parents are the Messiahs.
applause

How difficult with six languages needing translation and they are preparing 300 from S America who will come and they don't need a special visa. If it's raining, we will just make a tent at the Tree of Love, and amazing work can happen in Panama and many marshal arts people will join us. So, do not keep saying

how difficult we are and that there are no righteous people. Offer your own devotion to find the righteous people.

Our sister told us she has worked with her disciples as a parent...

'Wing of Cheonshim, H's Heart' A lot of young people are deep rooting their faith, and it is time for them to go out to the world. Please guide people here...

Dr. Yun shared the lecture. They research a lot to prepare and make the creative, amazing programs. The Victory of Eternal Suffering, Victory of H Heights... the prince and princesses of H.

there are many already registered as CheonBo family... victors of the H Heights, and they hold onto a ticket... To become the sinless person, you must offer devotion at Cheon Shim Won where you can wash away the sins of yourself. Many only think about the faults to their parents, spouse, children. I should have done better. And whenever our pastors moved to one church or the other, when in SW, you will remember, and there will be a big H Screen that reveals all of your life. All of that can be resolved and settles at Cheon Shim Won and wash away everything. How graceful it is...

In the TC without Cheon Shim Won, what would happen. Now after Covid, there are many churches closed down. It was significant. Even after Covid, we are moving forward because we had grace through Cheon Shim Won devotion and miracles.

We received power from H to move through this present darkness. Today, realize that crying and laughter are the gifts of God, and please have a time to cry, offer all your tears.

When I was going home after vigil, we had sung the song of the pioneer, and I couldn't even follow the song but couldn't help myself but to cry, even after arriving at the parking lot of my house.... As long as I am buried in Cheonwon Gung, that is fine. That is our desire. We went through FD and Cheon Il Guk has been proclaimed.

We came to the 14th year of substantial attendance and now we should prepare ourselves to die and be buried in CheonIl Guk, and if we fulfill our responsibility, all the angels will blow the trumpet to glorify you.

Apostle Paul as he experienced spiritual enlightening, realized there is a SW, and he made a path of difficulty into victory. He was imprisoned. He was threatened with the sword and in hunger. Even he had to wear the animals skin to overcome obstacles, but he couldn't disconnect what he believed in relation with the Lord nor give up.

Now we can experience the same kind of spiritual enlightenment. As the twins were born and one was about to die and a nurse put them back together from being separated from the one who was to live. The one hugged the other, and there is no one who does not want to live that way. With the Blessing, in front of everyone they still kissed... Two days ago even Kim Il Sung Director's daughter, who did the musical, in front of everyone they kissed her husband, kissed each other very well. But there are countless spirits who couldn't do that, spirits that feel jealous, feel envy toward those people.

People controlled by the latter spirits cause trouble even after the Blessing, causing them to break the Blessing, breaking the family, eventually becoming enemies of each other. And even there was a person

who ran away when her husband tried to hug her, saying I feel like a snake is trying to hug me. Unless we organized and settle away from those spirits on us and cosmic level of SW, then peace cannot settle down, so True Parents worked to liberate spirits throughout Their Lives.

We must realize that hugs are healing. Why can't this world become the ideal world. That is because they cannot carry this song forward. If you cannot visualize/see the SW, you must work more on your fallen nature to liberate True Parents and then reach that point. I wish you a graceful time tonight.
