Bow and Pledge #8

Opening prayer of gratitude

TY, TY We TY for flinging the Gates of Heaven wide open at this hour and directly presiding over this 1,520th Cheon Shim Won vigil. Your Spirit of long Endurance and the children You have never ceased to want to bring salvation and hope... Please receive us and preside over our minds and bodies. Although we cannot help but worry about the Providence of today and tomorrow, True Mother has said to let our gratitude be an eternal gratitude with the voices that call for F and M.

We earnestly pray and desire that You protect the day to come when we can earnestly pray and sing glory together with all things of Heaven and earth. Because of our inadequacies, True Mother is walking a path

from bottom of hell for the Heaven on earth and in Heaven, but now please guide and correct us so that we may become mature children and true, loyal subjects allowing the power fo Heaven to descend upon us and this earth to achieve victory, giving the strength over trials with devotion and gratitude that exalts the True Parents.

Please guide us. Through the work of true love and substantial Holy Spirit, lead us not to appear defeated in this battle, but to emerge victorious. Please lead us, work through us to remove all elements of disbelief and sin captured in the dark shadow of death, and to blow away all evil spirits.

Please work through us Heavenly Parent. Please release Your Heart of worry and let us take it up and advance with the Will upon us. Please be comforted. Work through us that we may bask in the single ray of hope and light and Your Glory and eternal righteousness.

Heaven please work through us, have mercy upon and protect this nation that You have raised and Blessed as the Homeland of the Providence... Let the education of the Epic bring the righteous chosen people forward to fulfill the responsibility. May the Mother nation of H Japan become one with True Mother. Kick away the Position of trials and hardship and rise up.

Through the Holy Spirit Work of Spirit and Truth, work to gather the conscientious, righteous people you have prepared so they may stand boldly once again. Advance and achieve the final victory. At this hour, please respond to the earnest prayers of Your children who are crying out with all their hearts from all over the world and work through us so that we may offer the results of victory before Heaven, so that all the good multitudes and the prepared, righteous people who are making offering to achieve that nation of peace and that Will You have so desired, may be gathered and united as one, centered on this Cheon Shim Won.

Earnestly wishing for True Mother's health and longevity in gratitude attendance, I pray in my name,

Kim Jon Ju

HJ Today video:

The 2026 True Parents's Birthday and Cheon Il Guk Year 14 was the Winter GWs with foundation of 100,000 and 120,000 this GWs surpassed 145,000... It was a scene of miracles that allowed us to witness the tangible history of Heaven.

The unified resolution of members worldwide to surely protect True Mother, resulted in a breakthrough that moved the SW beyond all limits. On the first day, if it was HyoJN, HeungJN, Daemonim, we have to pray that we are going in the right direction. We must allow this fortune to come to us and allow Mother to be released.

The CY yoksa was given in passion.

... all WSs making it a valuable time,... Commemorative Celebration, True Parents's Birth, powerful start for the 14th Year of Cheon Il Guk. If we become one, if more than 144,000 people become one, we will surely achieve a victorious year of 2027, and the works of the subjective SW and True Father and True Mother can bring the hope... all investing to fulfill True Mother's Words... with the dedication beyond any trials in oneness with True Mother, performed in sparks of a burning ministry throughout the world.

The tenth Cheon Shim Won resonance prayer underway since Feb 26, learning various methods of prayers and devotions... to cast off flaws and stains, find ones original self and be new as filial sons and daughter...

Amidst the earnest prayers and wills to greater victory so that True Father can work through us we will move forward. Glory to Heaven, peace on earth, living with the Substantial Heavenly Parent, like red horses we move forward, pleading for Heavenly Parent and Korea to fulfill as the chosen people.

as in the video, I was there and grew to awaken to the heart of Heavenly Parent and True Parents there. As a 7th Academy leader before, and I was a leader... H appointed and would surely be with me in my inadequacies. I receive that only 9 people had come committing to the burdensome transportation, so we began the name calling and resonance prayer and sincerity...the number increased to 42 and concluded successfully.

Because of the difficulties with language and battle of my limitations, resolving to move even darkest spirits for the sake of True Mother, and investing again and again to find even one small needle to give joy to Mother, but all the true love I had was running dry.

However, the experience of uncontrollable tears and a voice and thoughts not my own I came to speak and I spoke 'I'm sorry. Please don't blame yourself. I'm the one who is sorry.' And I knew it was my twin younger sister, Injin, who has already ascended. I did not know why she was searching for her father so desperately, but her earnestness and desire to convey these words resonated deeply within me. (tears) and after that shed messages to family and said, 'I am always with you, big sister' and I offered prayer while wailing uncontrollably. That feeling remains. So, I shared these words with my father. At first, he was silent, but later he opened up.

My father had been drinking and smoking when Unjin was in the womb and after she was born she had to undergo surgery. My father must have felt guilt and from that point on, he quit and offered devotions, but Unjin still passed away.

Through the grace of the CY, I learned that our ancestors always want to be with us and we can resonate with them. With a firm conviction of that and the SW, I went and prayed desperately for the AGSs to work and True Father Who loves True Mother more than anyone, I offered devotion for even one person to be True Mother's small needle, and F came and said, 'TY, you worked so hard'...

The trainees began to open their hearts more, and heal their difficult experiences and make resolutions. I broke through many challenges and gained the heart of Heaven and the SW, and I will become someone who can carry out my duties for the Will of True Mother.

Pres. Lee Gi-seong Address

H USA 1,000 Cheon Shim Won Congratulatory Address (We heard at LV Cheon Shim Won)

big gratitude to Heaven... from the first to the 1,000th to Kim Gi Hoon President and Ryiuchi san Secretary as well, we offer great gratitude, expressing to members also our appreciation.

We are coming through the hard time, with True Mother in DC and H Japan's time of trial and how great to have the Cheon Shim Won now with True Parents Present at all times and we can move the SW.

For Cheon Shim Won at 1,500 we were offering testimonies to show how H works and I am in utmost gratitude that H has inherited that true love to N America.

True Mother when She went to America, She ordered the special education about Cheon Shim Won as the most precious gift, the hope and the key that can resolve problems for H USA. She Blessed the Cheon Shim Won with these words and has sent me to America

And to Pres. Kim Ki Hoon as he tried to realize this Word, he had offered this devotion everlastingly and now has reached the thousandth vigil prayer.

Dear members, throughout this time of coming to the 1000th vigil, N America has seen many testimonies and grace of H. And if H USA continues this, then there will be a great revival through Spirit and Truth the H USA can truly become the first Son nation.

"Cheon Shim Won is the central place of devotion for Cheon Il Guk, the center of all spiritual providence in Cheon Il Guk, and the main base for the spiritual development of Cheon Il Guk leaders and Blessed Families."

Heaven has showed us the path that we have to walk through Cheon Shim Won devotion.

In Korean Cheon Shim Won as well, until the 400th night vigil prayer in Korea, there were only about ten people, but as we inherit True Mother's 3-year Course of Shim hyo Cheonseong, Shim hyo devotion, a

miracle has happened with continued devotion in the Main Hall. Every night there are about 1,500 and about 40,000 as well and this will create a greater miracle and our hopes will cry out louder beyond any difficulty that comes, and this providence of looking for the 2nd and 3rd gen is continuing with the successive WSs. and tenth long-term trainees studying.

The Pledge of striving every day to advance the SW and PW in unity, is being realized. Also the 1,111 and 1,152 vigil Oct 18, 2024, we achieved this victory. In starting the hopeful 2025, the 1,20th vigil (Dec 31, 2024)... and True Mother gave the motto for 2025:

In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent substantially, let us, the Blessed families from around the world, become true s and d of Cheon Il Guk who fulfill our responsibilities as the chosen people in unity with True Parents!

As we try to realize these Words, we have to offer much more devotion. Because it is impossible to accomplish this without realizing this for yourself.

'Cheonshimwon devotion is a devotion to deeply experience True Mother's Heart of 'Memorial Jeongseong'. If you continue with a heart to offer this devotion, you will be able to receive H's Blessing and grace that you have never received before.

And the 1,440th Korea Cheon Shim Won vigil (Nov 21, 2025) was not for the GWs and was not for a Ceremony, but we were able to open this at the World Center and it became a grace-filled night.

Dear BF members, True Mother is now inside a Place where no one can imagine such conditions and circumstances. After the victorious Entrance Ceremony of the Cheonwon Gung Cheonil Sanctum, True Mother should have been able to live freely attending Heaven on earth, but right now She is going through such hardship, but despite that, True Mother has told us:

'Do not worry about Me. Don't pray for Me. Offer prayer and devotion for you, your family and Unification Church family, and for Heavenly Parent's Will to be accomplished'

She tells us that She is okay, and She actually worries about us more, that we will fall down from satanic test. 'Work diligently with missions you normally carry out. Move forward united more as one with

Inheritors and 4PF True Father. We are now trying our best to uphold True Mother's Words and because of that we were able to exceed our numbers... 121,112 for the first time and then more than 145,000 for the GWs last.

KCLC and ACLC have come to the vigil prayer and have opened opportunity to encourage us. TYVM dear BF members in North America. We had received such news from Japan of the dissolution and the Person that aches most about this is True Mother. But despite that True Mother is worrying about us more.

As Moon Yeon Ah nim said:

'No matter what situation you are in, you must move forward firmly and resolutely without wavering. The Mother Nation will respond well. Since we have a destination and the record of the work we have carried out, do not be anxious and do not worry. In any circumstance, do not yield: fulfill your responsibility and continue to move forward.:

She expressed Her support, encouragement, and words of reassurance. (from update on True Mother during Cheon Shim Won Special Vigil Devotion)

Dear Members, we will achieve victory because Heavenly Parent is with us, because we are with the OBD, and True Father in the SW is always with us, is always with True Mother on earth. HyoJN, HeungJN, Daemo nim and all of the loyal, good spirits are with us.

Throughout the Works that True Parents have achieved, we can see that Heaven is always with True Mother.

'Witness how closely and how greatly Heavenly Parent is with OBD, True Mother'

All of us need to take notice and witness of it.

Uniting with Inheritors and 4PF True Father, we will now see for ourself the amazing victory H has prepared for True Mother.

May H's Love and Blessing be strongest as Heaven wants, with you, your family and your church

And I once again congratulate your 1,000 LV Cheon Shim Won vigil...

Welcoming Address of the Cheon Shim Won Director Kim Gi Hoon:

HMH, wishing the health and longevity of True Mother and to all members here, a short report I would like to show...

True Mother came here April 30th, 2022 and Blessed this Cheon Shim Won Place:

HMH Blessed True Parents's residence in LV to be used as HJ CheonBo Training Center and bedroom as Cheon Shim Won Special Prayer Room

True Mother has Blessed North America by saying that, 'Once you offer devotion in this very Place, great Blessings will come to America. And afterwards, True Mother has sent Rev. Lee Gi Sung and Rev. Jung Jin Hwa visiting Las Vegas Cheon Shim Won.

Through True Mother's Words, they helped us offer and dedicate this Place to Heaven.

On June 6th, 2022, Cheon Shim Won alter was being setup in True Parents's Bedroom. And through Rev. Chun Jin Ah and Chu Gatsu, we were able to alter and repair some places that needed it (11.12.22 Grand Opening of LV Cheon Shim Won)

We gathered all the leaders and members for the Dedication Ceremony... 100 days until it was finished, we offered the devotion right here. 'Nothing is impossible at Cheon Shim Won'

After 200 days this Place was prepared... 'Let us become one with HMH'

And we came back here today to offer devotion and inherit True Parents's Blood, Sweat and Tears...

And that is the official start of the Cheon Shim Won in N America. And True Mother also came back after that and leaders, with Pres. Demian Dunkley came here offering a 3-Day Special Devotion, upholding the Word of True Mother, telling us to pray and offer devotion for Japan. All the members became one and offered the devotion opening a new door to the Cheon Shim Won history.

On the 300th devotion, Demian Dunkley became the Continental Director once again, and on to the 400th day and members became more active in Cheon Shim Won vigil.

With the 400 vigil, 21 days, 7 days, 3 days Workshop started and the revival of the members here began.

With the 500th vigil, especially the 2nd gen started to rise up with the 1st, 2nd and 3rd gen... we started the education courses.

We were able to have vigil together with N America to fulfill its responsibility

With the 700th vigil day, we were able to inherit the 40-day Workshop of Korea and the Academy trainees and the 40-day trainees came together and opened a Workshop in LV Cheon Shim Won.

The 800th vigil, the members in each of their CSWs and each of their churches started to offer devotion with sincerity and passion and had started offering devotion for new members as well, and for the church. And True Mother once gain came to LV and met the 40-day trainees here and encouraged us and Blessed us.

On the 900th Vigil, the revival Spiritual WSs had started with passion.

The WSs have been continuing. The miracles of Cheon Shim Won have been spreading throughout the nation and there are a lot of testimonies as well, and each church centering on the 2nd gen are now having 2nd gen rise up as pillars and centers of Cheon Shim Won and activities, as not before this time of Blessing and seeing the fruits harvested.

For the first time a 3-day Spiritual Workshop for the Japanese members here. A lot of leaders came as well and other members came as well, and we were able to offer this Workshop as a victory to Heaven. With a powerful, longing heart toward True Mother we were able to offer our devotion for 3 days.

And yesterday, for the 1000th Cheon Shim Won vigil, members came together offering a congratulatory sermon together, and Pres. Lee Gi-seong's Congratulatory Message moved our hearts and we were grateful at this miracle, achieving this milestone, and now we prepare for a new victory.

He gives greetings and bows

Now turning back to a winter day in Japan 1974... With the heart of only wanting to understand Heaven, cheering for True Parents, their hearts fluttering and feet stamping with the tears of singular desire to know the Will of Heavenly Parent, imagine the Japanese youth of that time. This is the original image we must reclaim in the face of our current trials.

We must first encounter the records of these first burning, early days in Japan...

1974 Feb 5 2008 True Parents's Japan Tour images returning to Korea on the 8th...

Col. Pak is there... showing headlines and news articles... precious members gathered... (cannot but bring tears to see them... so historical times before Heaaven...) (I joined in early '74 and can feel the spirit) bemused applause

Because our elders came, we are here right now...

Here still young people rising with perhaps even more burning hearts and video of their sincerity...

True Parents's Words: The spiritual 40-day is to offer a precious gift to Mother. Father said that searching for and establishing one small needle for True Mother is the purpose...

What is a direct child? Children who are like True Parents. Those who deeply understand the Heart towards Heavenly Parent, to realize the Heart of True Parents and True Mother... and act accordingly to that Heart...

If Heavenly Parent is joyful, I am joyful, or cry when Heavenly Parent wants to Cry, resonating and one with that Heart.

We move forward to become such true children... changing and giving testimony of being moved and moving the SW, entering the path of eternal life... gathered youthful energy for that goal with passion...

'They truly are Mother's children, offering for Mother and Japan more than themselves... (even the bearded, tattooed brother stands out as a warrior for that heart to be victorious through tears)...

A life of your joy even in difficulty in attending Parents. It can mobilize the SW. Why can't you be more earnest. Do not cool down, burn up, fulfill the role you are meant to play. Think, 'I can do my absolute best for True Mother and that is enough. Let us attend the Mother. Let us meet the Mother again.'

Moon Yeon Ah nim conveys Mother's Heart to b and s who have worked so hard in the Mother nation and pleads for us to become the children of the path of responsibility to strive even more... The Mother nation placed in a truly difficult and tiring situation, and in this Homeland, our Substantial Heavenly Parent, True Mother, in the most difficult environment for the sake of us, Her children.

As fellow b and s, we must add more of our strength and support showing ourselves together, connected

as one, sending even greater love and devotion. Please express what is in your hearts more and give your support. There are members who continue to strive and fulfill the responsibility for the sake of Heaven, cheer more and fulfill with the desire together to lighten these burdens, and I am reminded of the Words of True Parents saying... difficult to advance without sacrifices...

I believe no matter what comes, going together can help us be strong and Heaven guide us. I visited True Mother and more than ever, True Mother was unwavering and firm and telling us not to worry. Seeing Her like that, I felt we were the ones receiving still from Mother, encouragement. From True Mother's perspective, how could She not be worried, but we have the efforts and responsibilities to keep on with for the future.

You already know that True Mother offers devotion with an unchanging standard no matter what, and is always encouraging and comforting Heaven... and not stopping until the Truth is revealed and the world as one family when True Mother can be comforted and relieved. So b and s let us become one and remember our absolute center and deliver True Mother's wish for us to grow and fulfill our responsibilities as Mother's children.

The family of Kim Jo Hi, who once resolved for True Mother is departing for a mission to Zambia, going to H's calling.

There is a moment that remains in my memory when at the CARP Center I was able to give a speech and the only female at the time, and I said I want to cultivate many female leaders to cultivate the culture of True Mother, and let us be the leaders of Cheon Il Guk to accomplish the task the world avoids. I heard True Mother was very pleased with my speech and had a happiness that cannot be replaced.

Now as a couple going forward, realizing the value of Cheon Shim Won, and I realized that if one inherits the cheonshim, there is no problem that cannot be solved... If you truly need me there, please let me know why it must be me at this time? Archbishop Molingo appeared in my dream. Then I was called with the Workshop mission solely for Mother, but at the end Father said to me, 'Decide quickly, quickly'

Humanistic worries rushed, 'If our salary stops, how will we live and have a baby, 'Fears build walls, but

love opens paths' and I asked myself if I were one of the spies who reported on the Land of Canaan, what would my report be?' And I decided to be the Joshua and Caleb.

The reason to be the missionary is True Mother's calling. In a dream Mother approached our couple, 'You are a pure water and you will carry on, won't you'... Unless it is a situation where I am truly laying down my life, and not worry what to eat or wear, but simply obey the calling of Heaven, wouldn't that be the way of proving that I love Heavenly Parent with my life.

In this time, I wanted to take Mother's hardship on myself, and in dreams I was in prison with Her, but Mother told us to go out to the world and fulfill the Word, and after many conversations with my husband and prayer, I will live a life that shows how the future unfolds, not water stagnant and not without the Blessing of Heaven.

Mother said 'Since you are all part of this, what is there to worry about?' On the land of Archbishop Malingo, there are schools and vast grounds. However, his wife is now 96 years old, and his wife is reportedly anxious because they could not find missionaries, and issues were with land ownership, forged documents and various other problems that made it impossible to claim ownership except for the guidance of Heavenly Parent, the ownership is now reclaimed, and we will now raise students from kinder garten to high school as the future talents of Zambia and provide character education at a young age, so they can experience the living Heavenly Parent.

We will select students for Divine Principle education and study of True Parents's Life and the Epic to make them members. Furthermore, by connecting them with the Korean TC, Cheon Shim Won and the Church, we will establish sisterhood ties with the 2nd gen in Korea.

By showing them a wider world, we will demonstrate the stature of HMMH.

If they can grow, I believe H Zambia can accomplish national restoration, and not merely under the name of Malingo, but under the Foundation of HMMH.

I will restore the environment so that the mother's status and value are exalted. Furthermore, while Mother is still on earth, be able to offer Her a report of victory.

Support to all going across the ocean, the pure water step by step achieving victory

2nd gen member's testimony is next, joining in the desperate cry of the Japan dissolution. It happens while offering a special devotion, and the sound of sobbing came, but the words of True Mother to be grateful...

Pres. Lee Gi-seong's Message

There are many missionaries, but what will you do if you let go of the best and most famous of them... but I believe H has prepared a place for him and he will do well.

The number of trainees here reduced because of graduation, but new ones coming tomorrow, I hope to be the motivation and engine that keeps the Cheon Shim Won going.

Upon greeting this graceful day, the True Father 4PF are here and I am grateful and also to all the leaders here...

There's a leader coming here every Friday without fail for Cheonjin Church and Qwanjin Church... (more churches... 55 total to the Cheon Shim Won - H Japan)

Today 33,000 places

When we cry out it has effect of 77,000 people chanting for Mother's return, and please keep that in mind.

Taegu Church is going to a higher dimension and sent this message

600th, 600th, 700th... and hard then to increase ten more people, but if we continue, I believe H will bless...

big applause for the ten people who went to Central and South America. It was not by force, but because their heart was move. As well, no sponsor, but they will go.

Testimony... We are grateful... Words came from her mouth, 'Dad, I'm sorry. Do not feel so guilty.' which was really her twin sister. She realized more about the SW, and her twin is with her, and also True Father coming and hugging and encouraging her... And she encouraged the trainees to victory, opening their hearts.

Prayer and devotion must be with absolute faith. The substantial form of Heavenly Parent and True Parents, to be one with Them, then I believe H will give you blessings.

Through H N America Cheon Shim Won, we could see that work as well. True Mother, after starting, I believe that some leaders remember this. Commemorating HW of True Parents, there was meeting educating us about this. Dr. Kim Jin Chun lectured and we did vigil until 3am. And so, with all our voices we offered sincere devotion in Cheon Shim Won. To be honest, after finishing the lecture many leader would talk behind their backs a lot.

But America went to America and changing Cheonwon Gung to Cheon Shim Won and Director Kim Gi Hoon did his best, progressing from the first day... It took so long to 600th to officially open... 800th was also a new beginning and testimonies were overflowing... up to the 1000th...

Members, even if you're offering vigil devotion, keep track of each miracle, after each milestone. If all the leaders, after receiving 21 days had declared in front of True Mother in a very loud voice, and taking up that Word and Declaration connecting to Cheon Shim Won, if at that time, the leaders connected right away to Cheon Shim Won and offered devotion, I believe the current situation in Japan would not have happened.

True Mother said that we should not let Her Words wait until a future time, but be effected right away.

True Mother lives a day as if a thousand years. If we cannot go on this, with the speed of True Mother and achieve and realize Her Words, then think of the indemnity, think of the hell that we might live in. Think about it. If you go to the SW, you look back and realize that we're in the chosen land... We're in the sacred land, but we only offered 300 vigil devotions, how much are you going to regret about this.

I believe that all churches must determine to be a church that protects True Mother spiritually. We would have been able to communicate directly with Heavenly Parent but for the fall, and then no one was able to understand Heavenly Parent's Heart.

Christianity was thinking that if Jesus hadn't been crucified, the world would not have been saved. The pilot's wife at that time told him of her dream not to kill this person. We received such messages, but that civilization is still unaware of it, and led an era of not realizing H's Heart, and Christianity in the beginning was not able to uphold True Parents, and True Parents had to start from the bottom of hell and open the doors again to Heaven.

Following True Parents Footsteps have come to the path of 2nd and 3rd gen testifying to this. They say, even now I can sacrifice my life for True Parents. If many with that standards, Heaven can work. F said, 'If someone tells me the heart of Shimjeong of Heavenly Parent, I will cry out and my Body aches, and My Life itself becomes a prayer. I want to hold onto a tree to tell of Heavenly Parent's Pain.'

Because True Father prayed in that standard, He said in the beginning they came because they saw revelations to come. That is why they stayed and became the Unification Church member, and even I tell them to go away, they won't go away.

I Gwon U's grandmother as well offered devotion and received a revelation to go to the Unification Church. True Father is talking about this standard to pray, so that not just True Father but all of the AGS world will be mobilized. That is why we are receiving Cheon Shim Won education.

Even H Japan as well the 1st, 2nd, 3rd, and 4th time and then the fifth Workshop 598 trainees miraculously came and then 2,400 people and the 6th Workshop will be in March. How many? 800 have registered, but we need at least over a thousand so that True Mother's Word can be connected and a new door opened.

Let this Workshop become a Workshop where we restore everything and all the AGS come.... The Church is the cells of True Parents, and if we damage the Church, we damage True Parents. So, we need to start anew, not stay still and lament or just watch. Those will just leave. True Parents in the midst of hell are still coming to save everyone. During the pioneer time, members offered devotion early and late in the mountains. There was a time everyone will go to the mountain, the the holy ground, or in their house. And Heaven would guide them where to go and pray.

Right now, a greater miracle is awaiting H Japan. So, I hope everyone can be a person to realize this, and that next week many more members will be coming here and the prepared time come faster.
