Opening prayer of gratitude

Most Honorable Heavenly Parent

TY TYVM You guided and allowed... Your Heart at Creation... Let us feel and live alive fully embodying You Heart. Heavenly Parent, the historical era of Completion of Providence, the trials and Hardships, allow us not to fall into a position of Your difficult concern, so that we reach the day of the song of spring. Please protect us with Your H angels and army...

Now our True Mother facing what She never should have because of our lack. Please bring True Mother bck to us. Allow us to clear up all the faults and fallen nature so that You can work through us as we hold on to and bear Your worries and concerns, becoming Your H soldier advancing. Please have comfort from us and protect this nation of Korea, and through the Epic, allow this nation to realize what path they must take and H Japan become one with True Mother. Let them know the Holy Spirit to gather the righteous people and all stand with greater strength in H Japan... And as all have gathered their devotion, please receive it and the Will that You promised to fulfill, please bless and gather all prepared people as one..

World Missionary General

Sok In Guk

Respected and Beloved 4PF True Father and inheritors and all leaders and members across the world.

One clear fact, every mission victory is connected with the Cheon Shim Won devotion, where the battle of life and death is decided, where we can break through our limits. Among the countless miracles, 3 testimonies on the front line:

Russia: Nadezhd Femina

was so depression... but precious experience being born again through Cheon Shim Won, not ending with individual healing. By liberating war heroes at yoksa... The day the Gates of peace opened at Istanbul... and brought about the peace negotiations and moving the very national destiny

Yassil Cherytanov

heard the voice of Heavenly Parent to stop the many who is dark-skinned and tall. He delivered his content to the church leader and met that man and had deep conversation. So happy to know the SW with us for outreach... tracking down the specific outreach prospects.

She collapsed at point of life and death and promised, 'If you save me, I will rededicate again to public mission' and then later she met Philippine leader and asked about her own hometown where members had scattered. Feeling Heavenly Parent's sorrow, she was asked how would she like to be the leader there. She connected it to her promise to Heaven. Leaving her son alone, she set out on pioneering, with only Cheon Shim Won to give her strength, every time she sang and prayed in that Place.

Then a beginning church began after the darkest moment...

These are not by human strategy or efforts, but only connection to Cheon Shim Won. The SW then moves ahead of us on the mission. Then the news of the victory on the front lines becomes what sets hearts ablaze... A work of revival makes the impossible possible.

Gratitude - introduction of holy robes and gifts

Whenever I stand here, I am too nervous

They moved their store... bar code is there

True Mother made many ideas for product and development... She Herself was making the robe at Entrance... We must have new clothes properly made and we should offer bows with our children wearing these clothes... starting from the rings She made and said we must prepare from infancy... It is a proclamation for the new Era.

It has been 5 years since Christina Han was founded, but Mother's proclamation has not been fully realized...

Male tuxedos and female dresses... 2 designs for women... considering changes in the body changes in mind... newly Blessed and after Blessing and children... Mother wears the necklaces to see how they fit... and permitted us to proceed... official based on the standard of making all things new...

While a simple gift is given at the time of Blessing, I hope you prepare with these... But there is a system where any other jewelry you have that you bring to us, we will give you a discount based on it.

There is a Blessing set, and others are for the already Blessed... True Mother said the husbands must give

better presents for the wives and hope husbands will remember what Mother said.

Many visited and some left the lasting impression. There was the atmosphere where only those who entered the Sanctum and many were waiting with that standard, but now Mother said all must wear these robes whether they entered or not... so graceful

He had been saving to give this set to his wife. The family remains in our memory... The parents and their children prepared their robes together as we had lump in our throat for what True Mother desires... Many others came... One preparing for their son's SW Blessing... He said later he wears it every day and feels that his son is always with him, and I was thankful.

One brought ascended husband's ring and other items for trade in... She said that although her husband never gave her a gift, in prayers she heard, 'This is the gift I am giving' so she resolved to have a trade in.

Seeing members who strive out of single-minded determination even amidst the standards and values of our church. Members, I really respect and love you. The meaning is multiplied when offered by families in unity. I was realizing more why this is the standards of Cheon Il Guk holy robes and gifts and many are preparing but many are not, and now is the time.

Here are photos of the standard... Many who bought to robes said they have no occasion to wear them, so I ask the leaders to make more occasion for what Mother wants... Please help the standards and Words of True Mother to settle, you will help won't you?

Finally, an announcement to be busy preparing for the May 2 Blessing, less than one month away. We are in close discussion with the World Mission HQ and are preparing more rigorously than ever. Therefore, because of difficulties in Africa, we are having a limited support service for this event. Please see the specifics online... Christina Han

We sent out 5 codes, but we are welcome to anyone... We plan to use the holy robes for photo shoots and ask for your interest.

I feel I should shout in a much better way... TYVM

I think the report was very well heard

testimony

Bishop Rosario's couple

working at the NY, Bronx

She is at the forefront working diligently...

The vigil devotion held on Friday was moving, beautiful and inspiring. The messages of the WCLC clergy were not only inciteful but deeply stirring, offering spiritual guidance and encouragement for renewed sense of responsibility for faith, morality and unity.

As Dr. Hak Ja Han, the Holy Mother Han often emphasizes, we are one family under God, and the spirit of that mobile family was truly alive and present there. The entire gathering was filled with reverence, hope and a strong sense of purpose, strengthening everyone's commitment to peace, prayer and devotion to God.

During our recent visit to Korea, we were also deeply shocked and heart-broken to witness first hand the DC of the detention of True Mother. The fundamental principle is that a person is assumed innocent until proven guilty. Their basic right to be with their family must be guaranteed. However, even this most basic principle has not been upheld.

Witnessing just the first phase, we were 200? 200 days? doing the prayer vigil, raising our voices for the freedom of True Parents, for the freedom of all those detained because of their faith, and for protection of religious freedom around the world.

True Mother has consistently taught that we must live as one family under God. She has also emphasized the need to build a peaceful world that transcends religion, race and nationality. Such freedom and peace can only be realized when people unite as one in conscience. Now is the time to set aside religious differences and work together for humanity.

There is only one race in the world: the human race.

So, this couple came back from Korea, and at the monthly webinar of WCLC, in front of 500 Christian leaders, they have witnessed about True Mother, HMM and truly moved a lot of people's heart. And the 21-days of devotion will be finished on the following Friday, at 6pm in the NY, Bronx on March 27th with the various different religious leaders.

We're going to hold the last prayer gathering. And our brother Secretary General Ryuchi Machimoto Stevens has been traveling to Atlanta, Boston and through CS Workshop, he is truly moving a lot of people.

testimony of member attending vigil every night, Yoko Lincoln:

Almost every day, I have been attended vigil, but my deeper involvement began from the 500th session to 1,000th. On June 27th, my husband and I attended Cheon Shim Won Workshop in LV where we were able to participate in the vigil in person.

At session 800, after returning to Omaha, I began attending once a week on Friday night, but gradually was more inspired and participated up to 5 times a week. From around 550, I started recording the Cheon Il Guk Calendar date and the presider and the content of the message. At first it was difficult, but over time it became a grace-filled and learning experience.

When we reached 900, I felt a deep connection to 40-day Workshop participants, including academy students from the US and Korea. Their calling out and resonance prayers, and testimonies deeply moved my heart often to tears. It felt as though their prayers reached far higher and deeper than my own. I learned so much from them and began to desire to be like them. They come from the direct lineage of True Parents and are trainees prepared to resonate with the heart of Heavenly Parent.

I sincerely thank True Mother for allowing me to learn so much through Cheon Shim Won.

Cheonshim Weekly

We wish to share Mother's Victory through the passionate voices of the 2nd gen, those who testify about H miracles, the Lives of Parents and the Truth. Through this I hope we can bring comfort and joy to our True Mother.

We have someone who remained distant for 15 long years and only met True Parents at the threshold of death, and a young girl by the sacrificial devotions of tears of her parents. What is this record they have written in tears.

These devotions at the edge of despair are spreading a substantial wave of hope that transcends individual resurrection to heal and change all of Japan.

first testimony:

In Japan, having a religious label made it difficult to maintain a good social image and the many church regulations I didn't believe had anything to gain while living in the general society.

After a terrible betrayal by someone I trusted and being exhausted in body and mind, I had two choices, leave this world, or receive 21-day Workshop in Cheba. I didn't want to go, but choosing that of the two, I was able to meet Heavenly Parent Who was full of love and joy. That allowed me to return to the path of faith.

But afterward, during a Japanese 40-day Workshop in Korea, I heard a testimony to realize that Heavenly Parent is also full of unresolved sadness and pain. I wanted to know Heavenly Parent more and be a child of a faith I could keep even after ten or twenty years and undefeated by satanic energies, and continued with Yeongseong Workshop...

During Pilgrimage to Bonyongwon, I received the opportunity to pray while touching the Tomb for the first time. The moment I closed my eyes, I felt as though I was being pulled in and saw Father's Shadow.

Though the left side was filled with 'han', the feeling also, 'If only I too had a Physical Body...'

I could not hold back my tears. Then the thought came, 'It is practice. I have this physical body. As Father's representative, I must offer devotion and outreach. And I prayed:

'Heavenly Parent, no matter what happens, I will not abandon Heaven. I will not let go of Your Hand. I am okay. Please protect 2nd gen members who are leaving. For the first time, I offered a prayer of comfort to Heaven.'

After this prayer, I felt reborn and convinced of victory. I felt that I had reached the starting line as a person of faith. Like firefighters, like doctors, we Japanese trainees are going back to save Japan and protect the faith even if the churches are taken away.

another

My father is a minister and my mother has worked along side him. Although they get along well now, I spent many days watching them fight and hurt each other, and anger toward us children. Around 6th grade I lost my sense of self worth and was swept away by the world, doing many things to betray Heavenly Parent.

In the midst of that I felt a desire to participate in the 40-day Workshop.

With opportunity to attend Cheon Shim Won vigil, I didn't know what to pray for, and the thought of offering keumbe came and I offered with repentance for my past self. I had never offered more than 120 bows, and was going to stop there, but I felt to stop while still having physical strength would make my devotion too small compared to my deficiency. I found myself offering 503 bows.

(Even before coming to CP, when I had offered 120 bows, I was out of breath and exhausted but during the 503 bows, I felt a strong power that was not my own staying with me. Especially during the last 100 bows, my body felt lighter.

Later when I told my mother this story, I learned that the number of vigil devotions my father had offered at the church was exactly 503. At that moment, I was reminded of images of my father and mother that I had not realized before. Them taking about how to develop a church that could comfort True Mother Wang Omma, and how they could overcome the pain beyond words (tears) suffered through their relationship as a couple and with their own parents. Yet they stayed together to overcome it all.

How much did they sacrifice themselves to attend Heavenly Parent and True Parents... I want to overcome my own self perspective images of them not Heaven's view of them. I saw the image of Heavenly Parent Who loved even when I ignored that Love, while being covered in wounds, (tears) remembering my harsh words. Yet, feeling Heavenly Parent embracing my sorrow and sadness, made me also feel determined to return the love I received and not make Heavenly Parent sad anymore.

There was a Heavenly Parent Who wanted to bring me here, no matter one, and Who I can please even with a little devotion, and know Heavenly Parent and True Parents are always with us... (tears) TYVM and I love You.

Chun Hyo testimony from Brazil

a young girl just entering high school, felt the deep sorrow of HyoJN and HeungJN who now longer has a physical body. The blooming of these gen is the comfort and joy of Heavenly Parent and True Parents...

I was able to spend a month in Korea I longed for. I fell asleep in lecture and just went along with what others were doing. I heard True Mother was coming to Jardim TC, and I wanted to report to my parents that I was doing well so for the first time participated of my own and really listen and learn. I told my parents I wanted to come to Korea.

I felt the longing of HyoJN and HeungJN enter my heart. HyoJN who said, 'Filial piety is mine' and what was his sorrow, missing Mother more than us... and as I sang, 'Let's Go Back to True Parents'... Like my name Chun Hyo (H filial piety) I will surely become that daughter.

There was a lecture on the Life of True Parents and a video of Father's message, 'If I have one wish, it is to offer vigil devotion for Mother alongside us, but He lacks a Body. He wants to pray, hold the microphone and sing praise together with us...

What I can do is pray for the many members we have left Mother's Bosom. It hurts my heart, and I think so much more about the aching in Mother's Heart and restoring them and I want those people to be happy. I'm so happy to be a 2nd gen and in the era of True Mother. But they have such difficulties. If they knew Mother and felt that Heart, they could be so happy. Witnessing that Heart being the greatest filial piety. And beyond that I want to restore people through art, just like HyoJN.

Currently, the unprecedented persecution has come to Japan by the dissolution order, but they refuse to hide, but take to the streets and testify to True Parents and this is the most reliable victory to offer to True Mother and 2nd gen members.

We are (tears) the 2nd gen who had the dissolution order on us. We came here because we want to convey the honest thoughts felt by us, the active believers

'Our church has been handed a death sentence by the state, and situations to restrict our religious activities. The religion we believe in our hearts and the church that was our home. These are being denied and we feel pain and shed tears...

Whether they came to face themselves after being moved by Divine Principle or a different process for some of them.

Actually, I feel sorry for the Japanese society. I feel it is a result of our own lack of contribution. There were more I could have reached out to and saved. From now on I truly want to be of help to J society the more.

Living by the original mind and for the sake of others by true love. Because of these teachings, I can boldly say that I am happy, but the process of this dissolution was unjust. Even in J now, if there is the opposite side, the law and social system are being distorted and will surely become dysfunctional. We will move forward for victory at the Supreme Court.

We may be branded by the state but will never give up until the world realizes that the FF is a wonderful, religious organization.

The testimony of a young man imprisoned for a month for his faith, by misunderstanding and prejudice, and True Mother in prison. Mother isn't it hard, but I am okay because You are with me and will embrace the world with true love with You through any trial.

I was outreached when I was 18 in 2017, and it was unnatural for me to believe that God exists, but there were brothers and sisters around me who sincerely loved God and put him at the Center... The 2nd gen laughter was like the gracious greatness of God and True Parents, and I was awakened. Then at 22 at the New Year, my relatives came saying they wanted to talk about the Principle, but it was a trap.

Suddenly, the cousin started to deny what he received and all the windows in the home were barikated and my family was persuaded by an enemy and their severe words deeply hurt me and with my elder brother and a lawyer came to save me, but they were driven away by the family calling the police. But nothing could destroy my faith.

There are many 2nd gen who face difficulty, although called the children of God, but they could not be misunderstood, and they witnessed their parents fighting. Many kept their faith despite brothers and sisters who lost their faith. However, I will not lose my faith and strive to make others happy. I resolved that I want to burn my life for our 2nd gen. No painful words can take away our faith.

I was able to escape through the bathroom and ran toward the mountain and got the taxi and cannot forget the taxi driver... His name uses the letter Hyo of hyojeong and means something like 'stabilizing'...and I believe this was a message from God and looking at the path I was walking.

Various news in the media could bring us down, but however, do not lose your spirit, resolve to sacrifice my life for a world of true love and accomplish this dream with you.

Amidst April 2025 Blessing Ceremony, my wife is a very kind person who worries about me, and told me I need to go to 40-day Workshop. The first grace was the GWs. My family was still trying to separate me from the church, thinking it is some cult. I had an argument with my mother who then said, 'I don't want to see you any more.'

Going to the Holy Grounds, praying with every step, I realized Heavenly Parent and True Parents have been living the life I am experiencing now. Then with the dissolution order, even discouraged all offered devotion. I asked Mother, 'Isn't it very hard?' and the answer, 'Because you're here, I am okay.' not because you're fighting, but because you're here. This is the Heart of HMM that has been hidden and I realized that for a long time, there is Someone Who had to endure the pain and suffering throughout Her Life and that is HMM.

Right now in the DC, HMM revealed Heavenly Parent, and it is the H Mother Who has been confined and detained throughout the Whole Life. I was looking only at my own mental and physical pain and suffered in my own way during those 5 years, but from now on I regained a determination to offer filial piety, no matter what comes with Heavenly Parent and True Parents, HMM at the front line enduring so much more than us.

Even March 4th was sad day truly, was what we tried to convey in vein? That will never be the case. Many voices are spreading on X... exceeding 7,000 posts about kidnapping, confinement and forced conversation. The Truth we try to convey will surely be conveyed to the world, and I will act as an advocate for the victims of forced conversation, saying the truth of this kidnapping and confinement overseas. I will not give up on the relation with my family and will cherish and protect it.

Choosing between the church family and my own family, I will abandon neither. People of the world, please take interest regarding this truth of kidnapping and confinement. Spread it on SNS, not simply to block the dissolution order, but for this country to be trusted by other countries, key is for the human rights and religious freedom to be protected, or we will fail in relation with other countries. So, please spread this truth and fight together.

For the past 5 years, I relied on FF members and now it is my turn to support and protect you. Members of H Japan, please cherish the time to let your hearts rest while doing the devotions we can do now for H Japan, H Korea and the H world. big applause

Do you know why the young man was wearing a mask. It was to protect the very people who abused him from being

True Father's WORDS: To a trainee who received the message for the first time:

'You must have absolute faith that the victory is set and offer the devotion that you will not regret. So, H will move based on what has happened. H will change things like turning the table and you must offer than kind of devotion.

Everyone has gathered to protect HMH True Mother, and I'm proud of you. During this time, offer devotion that your will not regret. Once you set that devotion, you will receive greater love and grace much more than what you have offered. Right now True Father is with True Mother in the DC and shedding tears what He can do for True Mother, so you must offer prayer and devotion with tears only for True Mother, letting go of all of the things in your life. Then I will absolutely work through you.

Right now, you must experience Mother's Heart more greatly. And those who are shedding tears, I will work... Even feeling darkness and difficulty, you must move forward with greater love. Then H will see your heart and love. So, you must have love shown, show your love and devotion.

I told you that if you go beyond 1,000, Heaven will move. Let us all move to turn the tides. '

So True Father is working through dreams and revelation

Important message of missionary Song Il Guk?

Cheon Shim Won devotion is a spiritual battle, not done through human knowledge, thought and power. In order to go beyond limitation and mobilize the SW, he will make greater offering than before and make the impossible possible. These are amazing words that truly fulfill Mother's Words.

ALL THE LEADERS MUST DRIVE STRONGLY WITH Cheon Shim Won PRAYER. IT HAS BECOME THE ROOT OF THE FAITH.

That is why True Mother said that the two organizations Cheon Shim Won and the World Mission HQ must become pillars to move forward together. Just as how True Mother said that Cheon Shim Won and Cheonmo won must become mind and body to move forward.

If we can do the Secretary General's words, amazing work of Heaven will unfold on this land. With the heart like the song, 'Running Heart'

When we met to meet True Mother March 25th, True Mother said She will directly preside over the Blessing... and we said we will have the report from Chistine Han, and True Mother was truly happy about that. We must set the standard of the robes and gifts, and True Mother showed how powerful She is, and from now we should all wear the robes and dresses and say to each other, 'You are sacred. You are beautiful.'

More than 4,500 have gathered for the special gathering through Zoom and they have made the 21-days condition, and we who are connected directly to True Parents, let us resurrect our lineage and offer much greater devotion.

The voices of 2nd gen after the dissolution order, I believe H is working nd Mother's Words fulfilled through them.

True Mother gave a simple message and Pres. Hori proclaimed it to everyone. The first words he said were, 'My brothers and sister from H Japan, please have strength and truly our 2nd gens are putting their strength nd shouting the shout of Heavenly Parent. Within True Parents Words H does not stay silent. Heavenly Parent cannot stay silent for us, so we must shout all gens and youth must shout nd all will start to shout with us.

Jesus said, 'If you don't shout, the rocks will shout.' We must create the environment that leaders globally will shout. We must shout first. H Japan members and us must offer devotion to fulfill those words.

testimony... as he was confined, he shared the courageous words, and with this kind of people H Japan will never collapse and with those words, I hope you move forward tonight. Heavenly Parent is Living

and working

testimony story... After her husband ascended, she lost health and True Father said, 'The reason I saved you is because I have something to do through you. So, you must offer devotion for True Mother.'

I was already offering vigil devotion at that time, so I asked, 'Father, I cannot even stand up and how can I go to church.' Father said, 'You little bastard. How can you say that after your were crawling and I saved you. And now, why can't you do that? You're even younger than True Mother. So, first you go to CP and receive ansu there. And you'll get better. So, go there first.'

So, the church pastor brought her to CP and after ansu she could walk again. Her body was feeling like frozen. After the ansu, she began to regain health. I will be absolutely obedient to True Father. From March I was able to start offering vigil devotion at the church. There were times I felt too tired and went back home. Then True Father appeared in my dream, 'What? Why didn't you do it until the end. I saved you who was about to die. So, you will not die. Just offer devotion until 3am.'

Afterwards, when she feels tired at the vigil, she would just lie down on a long chair at the church and then continue her vigil.

One day when a member was not wearing the purple shirt, True Mother told her that purple is True Mother's color and wearing purple clothing means offering devotion for True Mother. So, we must have more people wearing the purple shirt.

I felt burdened for True Father to act, and I didn't like the fact that True Father is not appearing to others. And I asked, 'Why are You using me?' and True Father said, 'I saved you when you were about to die. I let you receive the Blessing. I even let you give birth to children. I want you to help Mother now. You have something to do.'

So, even if it means I will die, I will offer devotion at the church.

Afterward, I started calling out to the dormant members saying, 'Let us offer prayer and devotion together so that we can save our True Mother, and that's what I'm doing these days.'

In Cheonbumo Gyeong in the year 2013, right after True Father's Seonghwa, True Mother said:

'You must offer greater devotion and prayer.'

For True Parents Words not to fall to the ground. For True Parents's Words to bring fruition, all you family, all your Providential organizations must become one to fulfill it. That is your responsibility who is living in this physical world.'

She emphasized Cheon Shim Won that after 2018, and June 20 2020, True Mother directed us... (as if at war...)
