Most Precious Heavenly Parent

Beloved True Parents of HEH

May I pure, white love longing for True Mother reach True Mother. We hope warmth reach True Mother from us with earnest hearts, becoming one with Mother and advancing with heart of moshim. We came to know the path of the Will and world of love cultivated by True Mother... Please allow Mother's thoughts and circumstances are not distant, Mother's tear are ours and overcoming together, for the health of Her Body and innocence acknowledged with release.

### 'Komapso'

Kim Jong Oh

When I visited True Mother, I sang this song and let us all offer this for our True Mother

---

### HJ Testimony

Jung Hun Shim

Attendance Workshop trainee

I wish to return the love and filial piety to Heavenly Parent and True Parents

eldest of 2 sons and 3 daughters... 7th moshim Workshop presently...

I lived a life of blind faith with my parents. As a seonghwa student, I did not like going to church and didn't particularly like the people and returned home quickly. But I gradually began to mingle with people and developed relation so that I was a more horizontally orientated member of the church. I later resolved to enter UPA and wrote a HJ Offering Paper, but the method of offering bows and devotions were foreign to me, but I entered EPA and wanted first place in faith and academics and when I finished a semester would share my feelings with my parents, but when a new semester began, I felt frustration, feeling difficulty with the vertical Lense.

My inadequacy to experience shimjeong caused a problem... I entered military... I refused to attend Workshop and thought to give myself a rest instead, coming to a state of mind close to resignation. I thought, 'Let's believe in my parents just this once, and if in the first 5 days I felt no change, I would leave' My feelings became, 'Will I really be able to do this well?' But I engaged again with the heart, 'Let's just try with obedience for now!'

Watching the others participate, I felt True Father directly educating me and surprisingly feelings came for overcoming a heartistic, frustrated heart. To further establish a vertical faith, I resolved to enter the 7th Spirituality for offering filial piety to True Mother. I finish the bows and name calling and came to know the taste of it, and not the number but the heart and taste of the emotion. I thought that Heavenly Parent would be joyful to look at me, no longer sorrow.

By following to offer everything into it, I came to believe I could do anything even with my deficiencies, by offering my best. Now I attend not simply at the level of motive to receive grace, but for Mother and will enter the Spiritual Academy to love and serve members and as the Hands and Feet of True Mother, constantly giving and forgetting, doing my best with life-risking determination and moving more toward

the Heavenly Heart...

**Testimony**

Moshim

Orebe Itsunichi?

in Japanese

gratitude I am Oribe Miet, the daughter of a 30,000 Blessed Korean/Japanese couple. I lived hitting the walls of reality since childhood, having to take care of my siblings and housework since my parents were busy with church activities and rarely at home. I traveled an hour and a half to church with my siblings. Sometimes there was not food and we would substitute meals with seasonings. It was not such an easy life, but for me it was a happy and fun family.

My parents were diligence before the Will of Heavenly Parent and that appearance was beautiful, but living as a 2nd gen and mixed nationalities, I experience the discrimination as my mother had and the conflict between faith and reality. I wanted to live more freely, but somehow the existence of Heavenly Parent grew larger in me. Feb 2024, I went for mission to Philippines but due to circumstances, I had to return home and again returned to university. Father and Mother began to appear in my dreams mysteriously like revelations and I felt called by Heaven and saw myself in the academy as a 9th year spirituality student.

I wanted to meet Mother even if in a dream. In a dream, Mother looked very physically exhausted but watching us dance, and She painfully moved Her Body and danced with us. When I woke up I was surprised because the song in the dream was the one we were diligently working to sing for the Busking event, but that opportunity did not arise...

(tears) However, through this dream, I felt Mother saying, 'I want to see. I want to listen' and I resolved to make it happen and not to give up, even my heart was starting to break, I want this one condition to call Mother to return to the Palace.

As a Hyojinjeong staff, seeing the trainees shining every day, I thought I must go too, and pure heart toward Mother grew stronger and what could I do more and the contents of the dream grew larger, but thought I could not concentrate on the moshim Workshop. There were many trials, and with perseverance, I took courage and looked for people who would join me one by one. Mother smile came to mind about what moshim is. (tears)

During my childhood my parents were not by my side, but seeing their smile was so joyful for me as if I had obtained everything in the world. I experienced the happiness of a loved one is the joy, not through dreams or revelations, but finding out what the other one wants and then taking action.

What I can do right now is create a space in myself to attend Heavenly Parent and help others to do it. I will continue to do my best for Heavenly Parent and True Parents to be moved. TY, True Mother I am so grateful and grateful to be born as Your Daughter. I love you.

### HJ Report

Counseling Center Director Kim Myung Wok

True Parents's Words:

The number of spirit people greater than earthly people. You must do the work of separating resentment spirits. So, you must go to the CP often and do this work...

Due to the sins of the ancestors, there are these attached spirits affecting health of the members...

testimony, Director Kim Myung Wok knew exactly where the problem was... I realized the crime and how my ancestor took their own life and I would be completely healed by the work like this that our True Parents prepared for our grace. True Mother/ HMH True Parents are truly the Messiah...

Our deaconess offers devotion with so much intensity and never skips a day, and by that result, two of her sons are working at our TC and doing the Cheonshim weekly and the team leader works in the TC as well and he received a lot of healing last week

True Father: Diseases of every part. The SW will transform in an instant and if they don't listen, the SW will take away and give the disease and then give the medicine.

The singer's mother almost went to the SW, but two months after the TC, I went to the hospital and the cancer is much smaller with follow up visits much less... Currently with her husband it seems she has been completely healed and doesn't look like a cancer patient, and the husband has been giving such love to her, and I believe the works of the Substantial Holy Spirit are working for her.

The grandfather and mother and husband and all, when living for each other, there is certainly a H family.

testimony: Do you think that your mother caused the depression or your father? he was asked. I do the counseling and listening, they were sharing what was happening. I direct them to give compliments to each other and that is one of the most popular programs to see them become brighter receiving the compliments, a healing program where we can find our true selves. Up until 6 years old, you are able to form yourself. We can see our traumas from youth that stay until we are older, but we have chance then to heal ourselves, resolve resentments...

this family, because the grandfather and grandmother did not really love each other... I went to the Workshop to untangle the knots, always thinking I was right, and didn't realized my wife was harboring resentment and I made a firm pledge to never hurt her again, and also I was healed from physical problem...

The wife is grateful for a chance to offer a way to resolve the resentment and I don't feel the cold as before. I plan to receive the ansu until the end of the 40 days and we will live our lives earnestly.

another... I had a deep-seated resentment and through the Director saying we must resolve this and you're being dictatorial to me, taught to absolutely obey what my parents ordered. I thought I was doing well, and out of selfishness I ignored you feelings and I want to ask your forgiveness, and they hug...

I believe the deaconess has a great heart able to forgive. They have a lot of children and their youngest was the only one Blessed. Their children worked in the Attendance Cafe... It was his first time with ansu and it felt like needles and reflected how much pain Heavenly Parent and True Parents must have felt to lead the Providence up to this point and tears kept coming, and also I felt sorry for the lives of the resentment spirits. I had constantly felt guilt not to be able to attend True Mother properly, but the scars in my heart were resolved and so grateful... TY and I love You... He makes a heart

---

The youngest daughter and the granddaughter were offering so much devotion for their grandparents.

True Parents's Words:

The public position one has shouldered is for the sake of the masses... Do no become self-centered.

testimony

I had some thoughts about, 'Why am I doing this?' but with True Father's Words I was able to resolve myself. Through the process of the healing members, I realized the shimjeong of True Parents and how could anyone think to judge True Parents, and True Mother going through this course of incarceration... Let's just pray for Her health.

The tour is going to Taiwon and I will do my best so that they can receive a lot of grace and ask for your prayers and devotion... 278 churches and more than 33,000 people participated.

testimony

I believe I was lacking devotion, and the wife was losing her temper and spirits blocking her from coming thinking of the burdens of taking care of family... I want to be a daughter absolutely needed. Until now only receiving love from True Parents and I want to be a daughter who attends HMH...

Whenever we go on a tour, we see so many members with difficulties but our members are truly longing for and loving True Parents and I hope for us to be children attending.

The Director said we can ask questions of ourself and grateful for her direction.

The mother passed, but for the revival of Namon Church applause encouragement.

PL really thought about how to restore Gapyeong and after True Mother's Direction and there are the pioneer churches now and leaders there working so passionately. This church has the member Kim Yong I who did her best to prepare and a Peace Ambassador came here and he is riding a motor cycle even though he had a lot of accidents with the bike. He gave testimony of wanting to come if another event.

Had never really realized the existence of the SW and the Director talked about all of us having a soul... So improved from his accidents from the ansu.

CheonBo event with the lecture has such grace (2nd gen) Lately, I've been so exhausted and nauseous and as I called out HMH over and over, I felt Her healing hand and the pain is gone... so grateful TYVM...

testimony... by sincerity, until the last moment, the mother-in-law is attending Christianity and they receive a lot of persecution from her, but they were able to come with the husband (who doesn't attend the church very much) as a couple, and seeing that anyone coming in could receive such grace and tomorrow is the Anniversary of the Independence Movement, with their loyalty until the end. What an immense Blessing to receive the ansu right now.

It was so surprising because of how much persecution she received from the mother-in-law but afterward did not complain...

another... Thanks to the Director we could hold the meeting today, and we welcomed her like welcoming True Mother and we felt badly to see her limping and wrote the HJ Paper for her and were surprised to see the results she expressed coming so quickly... so grateful... Kim Myung-wok fractured her bone and difficult to have crutches and suddenly my leg was light and didn't know why until she said she offered the HJ Paper...

The pastor is an amazing lecturer and after his opening remarks, he received a lot of applause and I was anxious to follow him with my lecture, but he was giving me compliments and it was an amazing tour there...

testimony... I was thinking, 'Heavenly Parent, why do you give me endless trials.' and then along with a sound echoing in my heart and my head, I saw True Father and heard a voice saying, 'That is how you

live. You only live through that. It is your destiny.' And I began to shed tears. I had been thinking of these things in my head as my work and duty, but I could not admit to myself... the words True Father spoke when He appeared at the time of my Blessed came back, 'You are that man, so you are able to lead.' So, I'm grateful for the grace.

another had healing after 5 years of pain... TY to the staff working so hard...

another... the reflection of the Pastor: I came to realize the meaning of HMH, the OBD, saying for us to pray for ourself, and the Counseling saying words that penetrate the circumstance... Mother prepared for her to come to us...

### Break

the Busking was one older Japanese man singing and

it was so anointed...

---

### Hoon Dok Hae

Loyal subject, filial children and virtuous women are born into times and circumstances of difficulty. Restoration is recreation, but salvation is remodeling. It is simply a matter of a sick person getting better. That is salvation, because humanity fell and recreation and indemnity doesn't happen just as you are. You must absolutely believe in the True Parents. In the way of knowing God that is not done by having one's own thoughts, unless it is by this kind of motive and principle, it is not true love.

Principle was invested and established because true love was known. Everything was connected. True love by the shortest, direct distance... to find such a Principle, you do not know how much Father struggled. I went through a path of shedding tears to the point that the padded trousers I wore during the three months of winter had to be soaked and wrung out. To save the humanity, one must go the strictest way, even if they have to shed their own skin, tear off their flesh, carve their bones and wring out their very bone marrow to sacrifice.

Because the Heart of God is know, you must be merciless toward yourself. You must not become the successor of Satan. The thing never forgotten in Danbury was the path of Love. No matter how difficult it was, a path of great love was desired. Just as our ancestors went in the past and just as Jesus went while preparing for death, Father also does so by risking His Life. It is because Love is more than life. Life starts from love.

Therefore, in order to find the path of love, it must be sought with something more than life. Without doing so, one cannot seek out the path of true love. Even if going the path of death, the path of love is chosen. This is absolute. Since history began, there is no one but Father Who is such a Person in order to fulfill these Contents, while suffering all kinds of humiliation and ordeals for 40 years in the historical era and while crossing the threshold of death.

The path was not abundant. It was because the absolute treasure called true love was known, having gone out this way, I have become famous. We must now become filial children, loyal subjects and virtuous

women. However, a filial child is born in the midst of difficulty. A loyal subject is the same. They do not emerge from a position where the nation is at ease. Only a person who takes a position of resolving the national crisis, by turning their national fortune with all their sincerity, risking their own life in a place of adversity, where the situation of the country hits the final turning point, for whether the whole can die or live, can be called a loyal subject of that country.

The now loyalty in difficult times, filial piety in difficult times and the virtuous woman in difficult time is what determines true love

'The Promise'

---

Pres. Lee Gi-seong

He says hello in Japanese

In this special devotion, we congratulate you for participation..

Pastor So Min Yon Message in front of the DC

The 192nd day of True Mother's suffering, we offer devotion for Her release and liberation... on this March 1st... 107 years ago centering on the patriot, it was a Day of the Independence Movement, and for the sovereignty of the Korean people, they were are to go through the dedication of the Korean people until the very last...

The True Father Moon Hoon Sook nim is currently here and the President Hori Masaicho of Japan are here offering devotion, almost everyone wearing their purple jackets, an astonishing sight, and all of the families in the SW are wearing the same outfit and offering devotion, and H will be able to see great works happening...

40,000 people are offering devotion. I saw the Japanese members fervently praying. Pastor Kim du yong has said 339 families are offering devotion... 600th vigil...

Kim Song Oh sang Komapso that he sang to True Mother when going there... and we heard profound testimony...

There was a newspaper column that the furthest away from your head is your heart, even it's only 45 centimeters on your body. If you cannot experience with your heart, even if you go through this word for several years, you cannot enter the place to truly inherit everything and shed tears.

You should have specific goals to grow yourself and have a more vertical faith... 430 bows, 1,300 calling out prayers... and Tonight we'll be calling out 'Mother, please return to the Palace' 210 times, but even a lot of people are thinking, 'When is it ending?' It's not easy to do 1,300 times, but through this calling out,

he was able to taste the flavor of it. More than the number is to offer our whole, sincere self and pray with that deep realization.

He entered the 11th batch of the academy and determined to become the conveyer of true love and trainee of the Cheonshim, declaring this before more than 43,000 people all over the world.

the other testimony... Even they were poor, she was able to respect her parents as beautiful and great. But after her mission, she had to return back from many difficulties. But through that time, True Father and True Mother came to her dreams. And after a leave of absence with the Ws, if Heaven loves you, H will come down to you.

Even though there are people who offer devotion and cry out to Heaven, but sometimes don't experience Heavenly Parent. However, if Heaven loves you in the way you pray, Heaven will come down to you. Heaven came to Abraham and Moses, convincing them through our prayers. Heavenly Parent will come out to meet us if we offer devotion and train ourselves. Then Heavenly Parent and True Parents can come down and work through us.

So, on the first day of the year she was crying so hard that, even if it's just through a dream, she wants to meet True Mother and she was able to see such a mysterious revelation through her dreams. Also, when they were doing CY, hearing that True Mother's detention was suspended and she resolved for her devotion to touch Heaven. So, I think each and every one of us could be the ones through which Heaven is moved to come down to.

We can have the experience of the HPs love, and she was preparing for that and testifies that it is the greatest joy for us. To enter that position of experience through devotion is the purpose of our training.

Director Kim Myung Wok gave a report about the optimization of the TC and tour in H Korea, and she will go to Taiwan for a week. I hope for the revival of Taiwan with great grace, with more than 800 people registered.

Last night's Hoon Dok Hae was about what the secret is to overcome in any situation. So, H Japan, also looking at the threats that everyone is going through, what is the secret to overcome. True Father said that if you know that, you are a smart person. It is by true love that we can overcome any barrier. That is the secret. Only through victory and achievement.

The Cheonshim won resonance prayer Workshop centers on true love, and we are practicing through the air vibrations, even at this very time, we are able to listen to these words, because we are able to resonate. But if you actually go to the SW, there's no air there. It is a place where we do not listen to sounds with our ears, but where we resonate with true love. Through true love we will be able to go across the SW faster than the speed of light. But if you are not able to resonate with love on earth, you will not be able to resonate with anything in the SW.

So, even the children who receive a lot of love of their parents, there are children who don't really understand that true love, and they go out because there is no love within themselves. How precious is true love where we can overcome anything and only have victory, go through anything, do all things, opening the Gates of Heaven. We cannot open the Gates just by our loud voices, but by our true love.

That is the reason why True Parents lived Their entire Life as They did. In Chenbumo ron, True Parents said, 'I have lived the Life of Love for Heavenly Parent. I went a thousand miles and cross seas and

offered devotion for true love. You may think it is easy, but it is so hard that you feel you want to leave instantly, but with the heart of knowing that if They don't do it, another person must do it. They are receiving the greatest persecution of anyone from the entire world.

We only have the True Parents Who have completed for the history. So, all of the members, brothers and sisters wearing the training robe, I hope can truly live the life. What is the person? In Cheonbumo Ron it is written that the most urgent thing is becoming one, do conversation to love each other and support each other, then there is no way not to become one.

The most urgent thing is to become one. In H Japan the church was dissolved but going the way of love and united with Pres. Hori Masahichi, I believe they will go farther than every before to realize the true love, otherwise, the children won't be able to go the way of true love.

So, the most urgent thing is to become one. In Cheombumo Ron, Heavenly Parent has always attended the children of true love and continuing to offer our entire lives, we'll be able to see the victory of Heaven. And we'll be able to fulfill anything. And that is the position that the Heavenly Parent Subject SW where True Father is living and also giving us messages for living and working, asking us to go forward with Spirit and Truth. And True Mother is saying we should be able to communicate with True Father and able to communicate with the 4PF of True Parents. Aju.

So, during our intensive prayer one of the pure water received this MESSAGE FROM True Father on March 28th.:

The mother's ear is sensitive to the cry of the children, if the child is painful and in distress. Those signals are really heard well by the mother. So, you must know that your desperate prayers and devotion will be heard by True Mother. Devotion is a single light where H can work, and if you are able to do so, you can offer strength to True Mother. You must acknowledge that. So, devotion is the power of filial piety. We must know how much is it that we wanted to attend True Mother. You must inherit everything and experience that Heaven has wanted embrace all children for 6,000 years.

And Heavenly Parent went through such an enduring path of blood, sweat and tears. Wanting to embrace everything of the children... (never turning from such an excruciating path of true love, waiting for us of such dull senses, to know that Heart, receive that Heart)
