Opening Prayer of Gratitude

Most Precious Heavenly Parent

Most Beloved True Parents of HEH

We thank You We are so grateful. TY You for flinging the Gates of Heaven wide open at this hour and for Personally and for Personally presiding over this 1,535th Cheon Shim Won Special Vigil Devotion.

Heavenly Parent please allow us to possess the Center of True Life and a standard of eternal value, a heart that can look toward Heaven again, a heart that transcends human emotion and can pierce Thy Heavenly Heart.

To us who have set out to find the Original Homeland, let us realize that, centering on Heavenly Parent's Heart, we have the responsibility to make the flowers of the spring garden of love bloom, to fulfill the Will entrusted to us today. Guide us so that we may offer the sincerity that move the Heaven, putting forth all our strength and practicing it with total devotion.

True Parents came to this earth to awaken the humanity from being in the darkness of death. They shed Blood, Sweat and Tears, as They Walked the Path of our Salvation. Let us boldly proclaim a witness to the entire world. Work through us to become victorious as the chosen people who can become a new morning of brilliant light.

Overcoming trials and hardships we face today, let us pray for this nation, for humanity and for the Providence, according to the Words True Parents have given us, until the Day of Victory, protect us and lead us together with the AGSs and the H angels so that we may march forward. Heavenly Parent, now we shall become the heavenly warriors who resolve the sorrowful grief of Heavenly Parent and unite as one to complete the responsibility and mission, while holding onto Your Heart and Circumstances. Please be comforted and work through us.

Specifically, the BF members of the Mother Nation, the H Japan members have resolved to break away from the position of trial and hardship and make a new start in Oneness with True Mother, through the fire-like work of the Spirit and Truth, work so that they may rise up boldly, shouting on, and achieve the final victory. At this time, please respond to the earnest prayers of Your children who are shouting with all their hearts across the entire world, work so that we may offer the results of victory before Heaven.

To fulfill the nation of peace and the Will Heavenly Parent has so desired, so that all the good multitudes and prepared righteous people, who are offering sincerity, may be gathered and united as One, centering on this Cheon Shim Won.

Earnestly wishing for True Mother's long Life and Health, I pray with gratitude in my name, Kim Jong Jin, of a BF attending HMM. Aju

testimony... able to experience Heavenly Parent's Love and by living for the sake of others, able to protect True Parents and the Unification Community.

We are gathering our sincerity to protect True Mother, Who worries about us more than Her own safety.

True Parents Who Live each day with the Value of a thousand years, we believe that through the 40-day Workshop, the trainees become victors who inherit the value of satanic separation course.

Under the grace of the CheonBo Providence the 11th Workshop started March 19, with BF members in a wide range of age groups into their 90's as well as leaders participated and returned to their churches to unfold the grace they received. It was a time to deeply learn various methods of prayers and devotions, centering on the Special Vigil Devotion in order to shed flaws and stains, find the original self and be reborn as filial sons and daughters.

During the short 3-day trainees gained resonance with Heaven, learning the Shimjeong of True Parents, practicing the foundation of devotion to drive it deeper and move the SW.

With the Touch of Love given to them by True Parents, the itinerant workers departed July 20, 2023 delivered the Grace of CheonBo Providence to the entire Korea for approximately 3 years. They totaled 1,360 churches visited, and approximately 105,000 people have participated in the HJ CheonBo Assemblies. We are investing ourselves so that the Special Spark of Cheon Shim Won Devotion becomes torches of heart through us, and awaken individuals and families.

The Special Itinerant Workers Meeting was held, with them demonstrating for the themes of HMM True

Mother's Status and the Miracle of Cheon Shim Won Providence. They shared future directions to ensure that the CheonBo Providence and Cheon Shim Won grace which True Mother always emphasizes can be delivered to the field without exception. True Mother has emphasized several times, the importance of devotion that moves the SW, that it keep pace with the standards of True Mother and build a tower of devotion with Spirit and Truth, gathering the hearts of the members together with Cheon Shim Won devotion.

About 400 trainees participated in the International Cheon Shim Won Resonance Prayer 3-Day Workshop, a time to shed flaws and stains and find ourselves through Cheonshimwon Devotion, and those who left their hometown to join to fulfill the Will in Korea, the Heaven Homeland Place. They deepened by praying for one another and praying with true love to become a fence of heart that protects HMH True Parents with unchanging mind on the path of the Will we walk while attending HMH True Parents.

Last February 20th GWs the Chair of the WCLC, a lot of the pastors went to Korea and Archbishop Rosalio, when he went back to New York, Bronx, he was offering 21-day devotion for True Mother, and the very next day after, True Mother's detention was extended for a moment. So, with some of their congregation created this Song titled, 'Light in the Darkness' and here is the video.

Light In The Darkness

With a Heart of Compassion, She's fought the good fight. Her Heart's an ocean endless and bright
 So we send our prayers as the world looks on. For love never fails. It shall carry on.
 Holy Mother Han, we raise You in song,
 for within Your Spirit, under You we belong.
 May justice and truth become strong in Your Name,
 To spread the love that no prison can tame.
 We trust in the journey You lay out ahead
 In each whispered prayers, each word we've said.
 HMH forever be strong. In the arms of Your children, where You truly belong.
 Let light pierce the shadows, let hope break the night.

O Lord, hear our prayer, our hearts take flight.

In this co-place of prayers, I offer my gratitude to be able to stand together with you. In this hour, may this time be Blessed not to be a mere gathering, but a time when we embrace the Heart of God together. And I am so grateful for the devotions made by Pres. Lee Gi-seong leading the entire Cheon Shim Won, not only here but throughout the entire world... big applause

I'm so grateful to be able to be in this historical moment together with you.

The Bible speaks: 'If it is possible, as far as it depends on you, leave peace with everyone.'

Romans 12:18

Blessed are the peace makers for they will be called sons of God

Mathew 5:9

Yes, God is looking for peacemakers right now. Everyone look at this era. Right now this world is being divided, nations are splitting, people dividing, pushing each other away rather than embracing each other.

However, in the midst of this fractured world, God is searching for one thing. Who will bring reconciliation? Who will bring peace? Brothers and sisters, I believe this, that you who are in this place. big applause

Through each and every one of you God desires to achieve peace on this earth.

Not long ago on Feb 24 at the auditorium of the Religious Peace Federation at Pyahdong Seoul, centering on WCLC, led by Bishop Kim Gi Hoon, we listened to the lecture, 'The Epic of the Korean Chosen People' along with leaders who came from various countries, including the United States.

In that place there were questions that resonated deeply

within my heart: 'Who are we?' 'Who am I?' 'Who are you?'

'For What Purpose Does Your Nation Exist?' 'What is our responsibility toward the world?'

In the face of those questions, I realized that the Korean Han people are not a mere ethnic group. They are a people established by God with a clear purpose.

In the Bible, there are Words that God gave to Abraham. In Genesis 12 - 'You will be a Blessing.' God did not call Abraham to be a person who receives Blessing, but a person who is a Blessing. Everyone, these Words are a Message given to us today. We are not a people who exist simply to receive Blessings. God has already given us abundant Blessings. Now, we are God's people called by God to save the world and achieve peace.

We must fulfill this mission.

Recently, through 3 journeys God showed me to feel God's Heart. First, the Holy Ground Tour to a Holy Ground that the Church of Las Angeles is cultivating with total devotion and sincerity. It was a vast land with many parts still needing development. On March 15 I stood at the Summit of that Holy Ground, on the Altar overlooking the mountains and the lake, gazing at the vast nature, I prayed:

God, please remember those who are suffering, because of their faith. Hear the prayers offered at this HG

and let many people be affected and established as Your people. In that Place I really felt where God's Heart is directed.

The second and third journeys were in China, with Chairman Ho Min Jong with the KCLC, it was a 43-night journey of 1,300 kilometers, but from Talyan to Baektu Mountain with 18 members of the Christian Federation and the Korea Federation Conference led by Chairman Ho Min Jong. The first destination was Lucian Prison, marking the 116th Anniversary of the martyrdom of patriot An Jin Gung. I was so moved how he did not live for himself. He lived for the independence of his nation and for peace. There, I saw the vision of One Family Under God, the world-peace vision of Rev. Sun Myung Moon and Dr. Hak Ja Han.

Ultimately, Patriot Ahn gave his life for the sake of peace. Brother and sister, God is still searching today. I believe that you are the fulfillment of Patriot Ahn's Independence Patriotism for Peace and the Vision of the Heavenly Unified World, held by the Two Chair Persons, Rev. Sun Myung Moon and Dr. Hak Ja Han.

The KCLC will also gather its sincerity for that Vision.

The third journey continued through Gian and Tangdon, stretching 1,900 kilometers all the way to Baektu Mountain. When I stood before the Wangguto? in Gian City, I was reminded of the Great Epic of the Chosen Han People. When I stood at the broken Yallu River, Iron Bridge? in Yangdong City, the land of North Korea was visible before my eyes. At that moment, we prayed together:

God, grant peace to this land. Let this nation become one. God, let us cross over this bridge. 3X

This prayer was not just emotion. It was a desperate prayer for the Will of God. And at the Summit of Baektu Mountain, we prayed again for peace, for religious freedom, for the future of this nation and for the respected Mother of Peace, Dr. Han Hak Ja. Everyone prayed earnestly with one heart.

On March 27th past 7pm, while on the bus headed toward Baektu Mountain, we heard miraculous news. Through Co-Chair Kong Yu Jong, we heard the miraculous victory report that Dr. Hak Ja Han had been granted a 30-day suspension of detention to receive hospital treatment. The bus heading to Baektu Mountain was filled with applause and shouts of joy.

Seeing all the clergy rejoicing and shouts as if it were their own affair, we saw the hope of a true peace community united around the respected Dr. Hak Ja Han, transcending the walls of religion. From the moment, we arrived at the airport, under the strict surveillance of the area, I realized religious freedom is not something to be taken for granted, but it must be protected through prayer.

Today, we are people who prayed to achieve peace, even differences from one another, but important is that we love God together. We love this nation and this people together, and we desire desperately for peace together... big applause

Please pray together with me for the religious freedom of this land and the unification and peace of this land and for us to pray together for Holy Mother Han currently in such a difficult situation while working for world peace through unification of North and South Korea. Let us all pray together.

Everyone, the suffering a religious leader endures is not a personal matter, but connected to many people's religious freedom and Gods' Peace life for the world in this era. Therefore, let us move forward in prayer together that God grant this nation peace through the protection of Holy Mother Han and allow Her to quickly return to Her Place of ministry. Let us all pray together desperately. Big applause.

God is still searching for peacemakers at this moment. It is precisely us. I Bless us to become those who rise again as people of prayer embracing the Heart of God. The KCLC is with you.

The are other members participating, 5 members, let us now recognize and thank them for being here. big applause... They are brothers and sisters who are together with us.

highlight video - 3-day Workshop resonance prayer... the ones of hope to revive Japan... CheonBo Workshop trainees prepared the song 'Song of Victory'

Welcoming Address

Director Kim Ki Hoon

Thinking of True Mother's well being and the difficulties of the Japanese members...

The 5th Spirituality Workshop began at the end of last Feb.

proceeds gracefully thanks to the support of the 2nd gen members participating from Japan, Korea and America that have not come merely as trainees, but as missionaries sent by Heaven, giving grace to both 1st and 2nd gen members and for the revival of America.

These are the instructors and lecturers who guide this 40-day Workshop: From Korea, Dr. Im Jin Chun, Professor Kim Min Ju, and the Vice President of Korean HQ, Kim Dun myun, along with many others sparing no effort, and the ones trained by True Parents until now are also advancing while staying with them every day.

The 6th Spiritual Academy will be held from July 11th through August. I hope that many trainees who graduated from the spiritual academy in Korea and Japan will come to America again as missionaries. The 40-day Spirituality Workshop 2nd gen, and lead them through education activities so that many 2nd gen can be revived.

Furthermore, in April, May and June, there will continuously be 3-day Spirituality WSs for Japanese members residing in America and 3-day and 7-day spirituality WSs for family members, and for summer vacation family work jobs being prepared here.

Finally, I would like to introduce the testimony of a member who has participated in the Cheon Shim Won vigil devotion without missing a single day until now:

... It has already been 3 years and ten months. If I were to summarize the last 4 years of Cheon Shim Won

prayer life in one word, it is 'resonance'. At first, I did not think deeply about this word, but as I continued resonance prayer every day, I realized that the very purpose of my life is precisely resonance.

We know that true love is important. It is the relationship between subject and object that has resonance. God's Dream is precisely resonance with human beings. God tried to resonate with me, but I was going in the wrong direction. Resonance prayer responds to the Will of Heaven. Cheon Shim Won prayer aligns me with Heaven. At that time I came to understand the concept of HJ Hyo Jeong and why True Mother attaches that name to everything. It is the greatest value of our humanity that True Mother always emphasizes to know God more deeply.

Another thing I truly realized is that, with Cheon Shim Won prayer, nothing is impossible. (The Words of True Mother) I like to come a little early and pray first in the Prayer Hall, always starting with the words, 'There's no impossibility through Cheon Shim Won prayer.' Heavenly Parent and True Parents welcome me, comfort me, 'Do not worry Akira. You can do it, Akira. You are the best son, Akira.' They speak to me like this. To me, Cheon Shim Won is truly a place of rebirth and growth. It is a place where one is born again by returning to the Heart of God.

Resonance prayer connects me with Heaven. That is why I continue to come here and participate in the vigil devotion. I'm sincerely grateful for Cheon Shim Won, the great hope True Mother has given to America. With Cheon Shim Won prayer nothing is impossible. Akira Ota from Las Vegas

Leaders around the world, pastors and b and s, hello...

In the SW right now, True Father is encouraging the sincerity of our members. We introduce the testimony of Kim Jin Jun who stood up again after hearing Father's solemn plea to offer sincerity for Mother, when this sister, after her husband seonghwa had the desperate circumstance where She lost 60 kilograms, and True Father appeared:

Father Clearly Shows Who We Must Become One With At This Very Moment

'Because you still have work to do, go to church every day and offer sincerity for Mother.' She thought how she was already offering devotion and she couldn't even stand up, how could Father tell her to go to church.'

Father said, 'When you entered the church, you entered calling and I saved you, so why can't you do it. You are younger than Omma. If you go to CP and receive ansu, you'll get better.'

Her entire body was as cold as a sheet of ice, but after the ansu, I recovered day by day, absolutely obeying Father's Words, and managed to go to church starting in March, to offer vigil. One day, feeling that I would collapse, I finished only part of it and went home.

Father said, 'Why don't you finish until the end. You won't die. So, don't worry. Offer sincerity until the end for Mother until 3am.'

After that, when it was too difficult and I would lie down on the church pews and continue the devotion until the very end. One day seeing a member who received the purple clothing but was not wearing it, Father said, 'Purple is the color of True Mother. It is offering the devotion together with True Mother. So, how must the sanctuary be filled with purple.'

When feeling burdened from Father working through me, I asked, 'Why are You making me do this?'

Father said, 'When you had no choice but to die, I saved you. I gave you the Blessing. And didn't I let you even let you give birth to sons and daughters. I wish you would help Mother.'

I resolved, 'Even if I die, I will die offering devotion at church. I'm contacting distant members to ask to offer sincere devotion together, telling them that we must become one with Mother to live. I'm appealing to you and let us awaken other members who are spiritually asleep.'

big applause

Last week on the 18th Anniversary of HyoJN's Seonghwa, a Memorial Service for True Children was joyfully offered despite the indescribable sacrifice and indemnity of True Parents's Family. Pres. Song Yang Chan recalled the path of indemnity that true children, including HeungJN, YoungJN and HeJN had to walk due to the shortcomings of the BFs.

'Problems arise because the BFs have done wrong. All of the mistakes were place on Father's and Mother's Family to take this off as it must be, and to do so indemnity must absolutely be paid.'

'Just as God took responsibility for the mistakes of God's sons and daughters, I must take R, my Family must take R. When problems arise in the True Father, we come to reflect Heavenly R of BFs. Furthermore, with the sacrifice of True Father's children, we come to think how heave was the R of BFs is.'

To restore through indemnity that standard of the fallen Eve, who drove a deep nail into Heavenly Parent's Heart in the SW, HeJN, in the form of the most pure and stainless baby had to go as the first sacrificial offering of True Parents's Family, on top of the bitterness of putting this baby upon the Altar of Heaven. HeJN's sacrifice became the most painful and holy cornerstone of the Providential Path of the Family indemnity.

HeungJN bore the most sublime cross, giving his life...HeungJN a teen-age boy, blocked Satan with his

entire body, willingly offering his one and only sublime life. He was the Substantial Entity of True Parents's Hyo Jeong. He protected True Parents until the very end. Later, True Mother also recalled with deep affection, HeungJN is the one who, at such a young age, took the way of protecting Father during the Cold War, the son who tried harder than anyone else to protect the Parents. The Holy Sacrifice that made even Heaven wail was not in vein. Eventually, it led to the Great Proclamation of Avenyae? which surrendered the power of death through eternal true love.

Having entered the SW with the qualification of a victorious Prince, HeungJN became the H Commander in Chief, moving freely between the earth and Heaven. Even at this very moment, he is leading countless H hosts and angels active in the most fierce positions of the Providence'

The emotion of the Memorial Service continued with the devotion of the Leader Oh Min yong, remembering HyoJN not as someone who plays music, but as someone who played the heart, living out the true life, allowing us to discover the true appearance of HyoJN. We come to realize once again, the love and sincerity of the elder brothers who are working to protect HeungJN and True Mother.

This elder speaks so softly (He's so melted in a humility) 'Beloved HyoJN, when I first met You, I did not know You properly. I thought of you as someone who does music, someone somewhat gruff and difficult to understand. However, I realized you are someone who plays the heart, the shimjeong. You are not someone who merely delivered the Word, but lived out the truth through your life. You were truly a person who loved people. To you, love was not an emotion, but an action, a determination and a R.

Therefore, anyone who met you could never forget you. Even meeting one person, you did not treat them as an individual, but as a representative of all humanity. I heard that, when you composed 10,000 songs, you spent less than 3 hours a day. From the moment you opened your eyes, you poured everything of yourself into fulfilling the Will of Heaven.

When inspiration came, regardless of the hours, and even when your body was in pain, you did not stop. You were a person of honor. Once a connection was made, you took R until the end and held a deep resolve to go together not only on earth but even until the SW.

'Let's live together and let's die together'... This one phrase contains your entire life. Above all, you were a pioneer who embodied the Will of Heaven through art. You were persuaded that the era of conveying through Words is passing and the era of conveying through heart is coming. Therefore, through multi-media music, you chose the path of moving people's heart and changing lives. To you songs were not mere music, but a sermon and a piece of life.

Beloved Hyojin HyeongNim (older brother) thinking of you brings to mind the Words of True Parents, 'Offering HeungJN on behalf of the 2nd gen as a living sacrifice, that heart which converted the path of true love into the path of saving humanity, even at the Place of Seonghwa, not shedding a single tear, and saying 'I am a dreadful person' Those words of True Parents remain deeply in my heart even now.

Even after going to the SW, becoming the H Commander in Cheif, living the path of sacrificial true love, endlessly investing for the salvation and restoration of Blessed families and 2nd gen younger siblings. At this time, taking the lead more than anyone to work for HMH our True Mother, within the love of Hyojin Hyeongnim and Heungjin Hyeongnim, our lost younger siblings are coming back to life here at Cheon Shim Won, and becoming one with True Mother. For this I offer infinite.

You who went the path of sacrifice due to the mistakes of BFs. We are truly sorry. We did not know the Tears True Parents shed inwardly while letting go of the ones They Loved more than anyone. In June 28, 2009, True Parents Who visited Room 1,723 of the Lahara Hotel in Las Vegas, had to lead the sorrowful peak of restoration through indemnity where They had to love the Cain world more than Their own sons and daughters. They reported to Heavenly Parent that They could not look after the difficult environment of their children and asked for forgiveness.

'Youngjin, I'm sorry I couldn't come to see you. I couldn't take you with Me. But on behalf of this time today, I forgive you again. And I hope you follow your Father fully and protect the surroundings. I hope you stand at the front becoming one with HyoJN and HeungJN and protect the families of your siblings...
