Bow and Pledge #3 and 4

Opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

... Every day as we cross the hills of Cheonon, we offer our bows to you that used to be only joy but now deep longing and sorrow, and we cannot help but shed tears for how inadequate we have been. We are led to pour out our hearts in prayer, no matter how exhausted we may be. As we finally come to you in prayer. Please forgive our lack of loyalty and filial piety. Our Mother who is on a path of battle every day, every single minute and second for the Providence. You told us that there is no rest on the battlefield and to drive forward, sacrificing our sleep, and as time passes, those solemn words pierce us more deeply and with tears.

You are our Mother more beautiful than the forsythias and every blossom... We will risk our lives in this cosmic war, and our b and s of the same Bloodline are standing with us singing the 'Man of Wilderness' and march forward with a song of victory, and we earnestly pray that our devotion is truly offered for Mother's health and return to Cheonjung Gung... We offer our gratitude (tears)

Kim Ju Won

Testimony

KIM HYUNG MIN

Eldest son

Growing in an ordinary family, attended SS and went to activities trying for a steady life of faith, but that faded when I went back to daily life in the world where good and evil existed and my identity, not wanting to think about the church, but in the military I became especially confused and pushed the church away. Negative news of True Mother began airing and the officers began to criticize Her, and I felt so apathetic and distant.

When returning my parents recommended the Workshop, and I was hesitant with my anger flare ups, and I hesitated, but my mother told me to just go. 'It's okay if you give up half way, but just try.' It was so tough and burdensome and I wondered why they had to go to such an extreme. Then I heard the message about Mother, Who worried about us even through every moment of Her own pain.

I began singing and praying with all my might, and during a lecture I learned that we need to clear our own past lives and I wondered if I could really overcome my shortcomings and began to shed such tears... comparing True Parents Life to my own... Despite learning about True Parents, for so long, I have never really prayed for Them with jeongseong...

I tried my best, but exhaustion overtook my feeling of jeongseong, experiencing the peaks and bottoms of

my faith at the same time. My Direct said, 'Break through and overcome your limits.' The moment I felt tired, I repented for making conditions of devotion only to abandon them when I felt my limits. A profound realization hit me, about how True Parents also faced moments when They wanted to collapse, yet They always took that next step forward. Heaven always knew my weaknesses but also efforts to stand back up. But the important thing is to stand up again when we fall. I realized True Parents knew my weaknesses and watched over to the end, guiding and it brought me immense comfort. With a much lighter heart I made a new determination not to give up.

I currently am a hair designer and through my profession I run a team of trying to practice true love by helping to try for others to feel the Heavenly Parent's and True Parents's Love through me. I do an activity for those experiencing financial hardship. I will try for this to lead to witnessing which I believe is the true practice of true love that Heavenly Parent and True Parents's desire for us. Because Heavenly Parent has called me here, even I still have weaknesses and much to learn and even small changes can amass and I will do my best for True Mother...

Sung Myung won

gratitude

Both of my parents devoted themselves to a public life for Heaven, but our financial difficulty preventing me from eating or doing what I wanted. My mother said, 'It is hard right now. But a day will come when we will shine' To this my father said, 'The hardships we are enduring now will surely become a blessing for our children. So, honey, let's gather a little more strength and endure this a little longer'

When I heard those words, I felt incredibly ashamed of myself for having resented them all that time... realizing how deeply my parent loved us and the tears would not stop... My father was more caring than anyone, but as time passed due to various difficulties with the church, he eventually turned his back on it and acted out with painful behavior, and our family members would run away, sometimes taking shelter at someone else's home...

My father's health deteriorated and still, I realized that I needed to inherit the path of the Will that my parents had worked and served as a leader and youth ministers trying to find the lost youth to offer a little strength to True Mother, but it was harder than I expected with not any or only a single person showing up. Both my mind and body began to break down, with insomnia not getting even 2 hours of sleep, and when I was sick I couldn't admit it, feeling I had to grit my teeth and bare it, but with the limit of not being able to do anything anymore, I relented to take a leave of absence. Even receiving several spiritual messages from True Father to go to the Workshop, I didn't want to leave my mission entirely, and kept delaying it.

Finally going to the Workshop, I experienced my limit plunging to the bottom. The words came, 'You must throw a tantrum to True Parents and I went to pray 'I don't truly understand. If True Father is here, please show me and teach me directly.' I heard True Father's Voice, 'I am always with you, but True Mother needs you.' I felt the Love of Heavenly Parent as never before, feeling True Father with me holding my hand. I could feel the desperate shimjeong of Heavenly Parent Who never forgets us and loves us but with no physical body cannot express it as Heavenly Parent wants. I prayed for 2 hours.

when I thought of True Mother praying for us even while Her own strength was failing in physical pain, not able to consult with anyone and unable to flee because of understanding the agony of Heavenly Parent more than anyone. This was transmitted to my own heart. I began to pray deeply and asking questions more. I was impressed with the word 'academy'

Heaven said, 'Heaven never gives a negative' and then something inside me began to shift and I began to

resolve a new start to give even a little help to True Mother. Working as a coordinator, my body was utterly exhausted, but looking at the trainees in a position of a servant, I watched them transform and grow and was able to feel at least a little shimjeong as a parent.

I had never experienced it really even I knew it in my head. Despite my lack of faith to really trust my Parents' love by having the experience. Heaven told me, 'Mother needs you.' and I felt the reality of F educating us here right now. I saw I was someone of complaint and dissatisfaction, but Heaven gave a grace like fire of the Holy Spirit.

When I resolved with risking my life, I was allowed to grow the olive tree kind of roots... Holding onto the mission I found here, I decided to become a lecturer on Mother's Life Course, to give vivid depiction of the Life of True Parents. TYVM.

HJ Report

Director Jun Yu Son

about 2026 Cheonwon Workshop

'Born Again With H Love'

True Parents Words:

Do not worry. Do not worry about Korea. Go out and tell the members around the world that I am okay. And tell them thank you. The Providence is still alive because someone advanced in places we don't

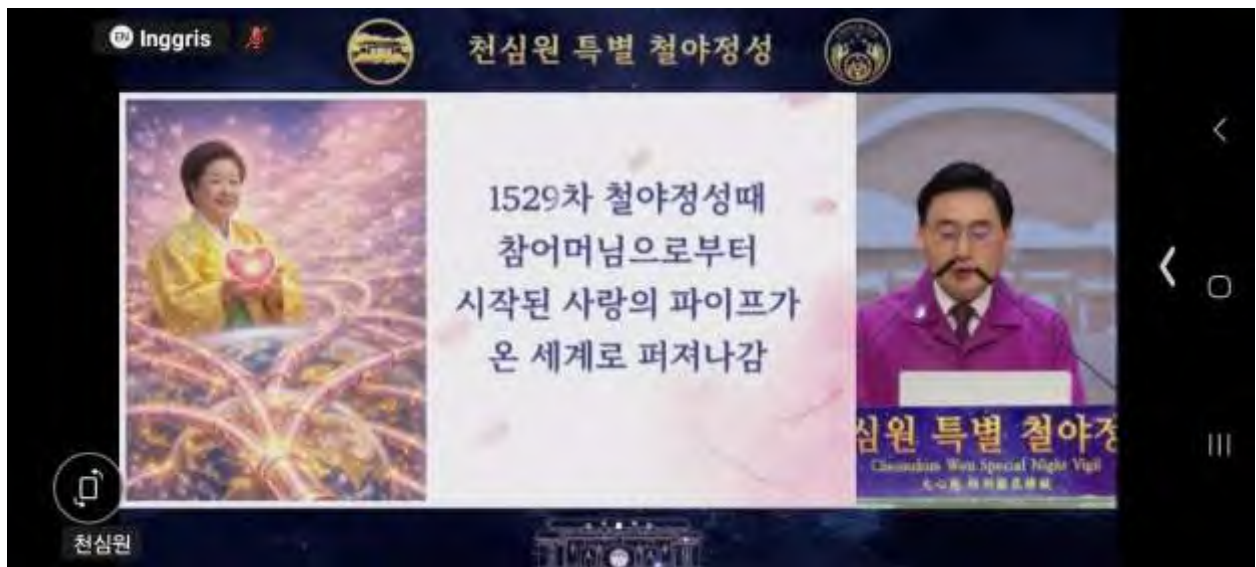

know. So, we are here today.

True Mother's gratitude and love for missionaries. She is the Manifestation of H Mother for entire humanity and showing that through Her Life.

The special missionaries became Blessed and live the live of Thai and Mongolian missionaries, and living in Korea a lot of them were working as hyjeong. So 529th vigil when we were shouting out for True Mother's return, I felt the pipeline of love spreading throughout the world in a vision and thought of the HJ Workshop, where we could be born again through H Mother's love. A hyjeong is the CheonBo registration staff for churches and we asked our hyjeongs to promote our TC and help for GWs, but as time progressed, with online WSs, we asked them to help once a month, but it became twice, but whenever there is a special itinerant Workshop, they help for those events, truly living a life of sacrifice and volunteering without ever complaining.

Sometimes they will take a leave of absence from their job and help out with registering. applause for their dedication

During the Workshop, the cheonshim flower blooms. What is God's sorrow: not finding an object of love who can endlessly serve and sacrifice for their neighbors. To resemble True Parents like this. I think those people are hyojeong, and I thought the spirit world is thinking about our hyojeong...

testimony video: I have an allergy and I had a sore throat and I slept but I couldn't breathe, or even go to the ambulance, passing out and I went to the Pearly Gates and a lot of AGSs and I was looking for who needed to go to the SW, but looking at me said, 'You have a condition, so you can go back'... They were doing a massage pounding and my heart was so painful, but I was doing a devotion and we registered 98 people and I would ask other churches as well, and we registered 100 people, and so I received a lot of grace to be sent back from SW.

Our people, 130 here is video

In short time so much grace. Preparing for this Workshop, we were thinking how to share the Love of True Mother and PL offered them the cafe and also the CheonBo Message Books, and those who could receive the Cheongshim robes. The Cafe next to the terminal and PL has made it for our 2nd gen and the

donations for the cafe was given for it to become famous in Soran after only 3 months. Good for members to go here. The staff prepared sandwiches after the vigil devotion and our members felt the love of H Mother.

They were so grateful and to those who made the sandwiches they gave applause and gratitude... Also, we have received the message books of PL's Messages in the vigil compiled. Also the SW was working so hard for them to feel the love of H Mother.

The South church... testimony... Why body was working so painfully for my family and I spoke harshly to my sick husband, and I took time for the Workshop and I felt Mother's love and my heart recovered as well as my body, as if it had never been sick, and the spirits attached to myself fell away, and moving forward, no matter how hard, I will be a child who resembles True Mother, loving my family and those around me even more.

I hope members can receive this Workshop at least once a month and receive the love and grace.

testimony From the start Heavenly Parent Heart touched me and I shed so many tears, and it was a time for me to reflection myself and repent. I determined that while I am on earth, I must evangelize to even just one more person.

Our HJ is a bridge for connecting Japan and Korea, and for resonating more with True Parents shimjeong. Shouting, let's sacrifice beautifully, I felt the ancestors behind me also singing beautifully. There was physical and spiritual love and through the lectures and meetings with each other.

We had Monarch Butterfly therapy, with that butterfly traveling such a long distance, and the 2nd gen to their 4th generation 7 months will become the future purified generation. So it is to become the BF living a life of hyojeong shared with future generation, and True Parents Words:

'You should think about how you will die one day, and what kind of single words and works you will leave behind.'

Al lot of members when writing our last will, we may have a lot of regrets, and the trainees had time to reflect and make a new start.

testimony: To my beloved family, I was so happy to be able to live with you after True Parents gave the greatest gifts and I am so grateful for everything I can't express with words... I am a daughter of Heavenly Parent I want on my grave...

Through the Cheon Shim Won devotion, we could see fulfillments.

testimony... While volunteering our family grew closer to the TC and my husband who used to oppose it, now we offer devotion together. We go to the Main Branch on Friday and my 2nd son is offering devotion, I think all of this was fulfilled by becoming closing to Cheon Shim Won...

another... liberating up to 430 generations but my daughters Blessing was not going well. and then she decided to meet with candidates and receive the Blessing. I saw the SW moving.

This is not only in our church, but inside our families, when we do so, we can see the results of our devotion...

another... I was calling out for 700 people for 4 years... My children changed with their words softer and sometimes I could see the central spirit in my child's heart and going out to witness to the towns people and then a grandfather gave a large donation to my child, because he was loving him in his visits, and then we could do liberations and do more tribal activities and be the family that gives joy to HPs.

Through this calling out, the relation difficult with the children has become so developed. We were able to see these things happening through the devotion.

another testimony of the daughter and then the mother: After the Hyo Jeong Workshop a lot of grace in their family... the daughter avoiding 40-day but suddenly her uncle appeared in her dream, who loved her 2nd to her parents, 'I was able to meet Heavenly Parent through you. Thank you very much.' Then I was able to listen to the Cheon Shim Won report about my mother.

I'm currently doing calling out prayer, and then my youngest daughter went to the WSs and is currently working in the academy (mother's testimony)

The daughter realized the reason she is here is because of the mother's devotion prayer. I had thought to take it for granted because she was the mother, but whenever I was wavering, she was holding me. This is how Heaven prepared for my life, and I could hear from my uncle because my mother's devotion moved the SW. All I went through is Heavenly Parent molding me to be a daughter of deeper faith and not stagnant but sharing the love I received. (tears of gratitude)

Devotion may not show results right away, but it did make the huge difference and will never go away and will show miracles. Aju

So, the spring GWs starts May 1st and pre-register will start April 11th, where we commemorate Heavenly Parent and True Parents's Day and the Cosmic Holy Wedding of True Parents of HEH and also the First Anniversary of the Entrance Ceremony, and we will be able to see the miraculous result and go over 145,000... We have the greater goal.

True Father said: I want to lend strength to True Mother through the GWs... that is what the heart behind must be and striving to fulfill the condition somehow, for reviving ourselves and family and for strength to True Mother.. the foundation to allow True Mother to return earlier

Through those doing prayer registration, the Cheon Shim Won Team will be offering prayer, and through all the list, those of pre-registration, offering a prayer for the goal and the rest on the list.

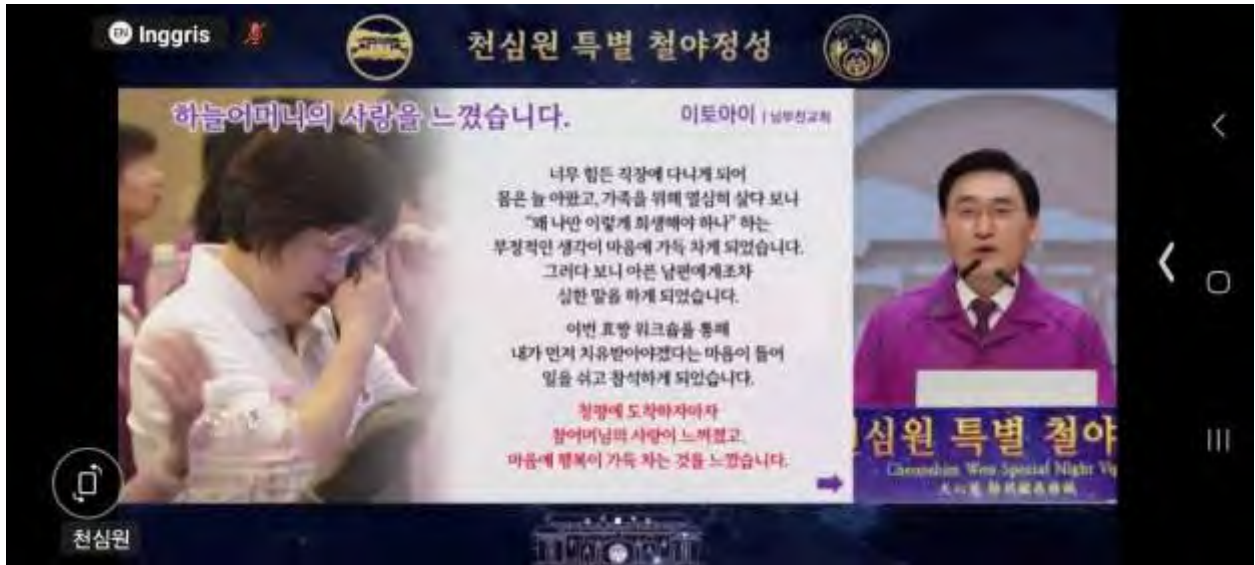

Last year, this photo of True Mother with family... currently in the darkest place, but Her Love is more sincere and passionate than anything. We believe the Providential Spring will open when True Mother comes back and let us all offer devotion for this cause.

Break

Hoon Dok Hae

'Sowing Seed in the Spring Yields A Hundred Fold, A Thousand Fold'

The harvest is so greater, and we can now connect our efforts for a salvation of great love so magnified. If you follow the way of Love and Principle by which it produces within the loving embrace of this universe. Even if people of the earth curse Me, calling Me the ring leader of a cult for My ruin, I will not be led.

To do this work there were times I had to wear rags and endure. While pioneering the path, I suffered every unimaginable hardship, but I thought to Myself how God has endured far worse than this, how could I not endure this much. The more stories of suffering you endure in the public position, the more you can restore what others do not possess.

In the history, Unification Church began in a prison with curses and accusation. I am not a Man without a Backbone. I will never forget the words the DC warden said to me when entering Sodomon Prison, but in less than a month those same people came apologizing to Me, saying the misunderstood from the rumors completely different from that.

I have first-hand experience of how, no matter how hard the persecution may be, this is the path of taking responsibility for the people God has been seeking, and so we must not lose heart, never be discouraged. My sufferings mean absolutely nothing to me now.

You must never forge the Father of the past, cornered and driven out, cornered and persecuted for the Unification Church, Who stood before the judge in a prisoners uniform bound in iron chains.

Now that that time of deep sorrow and bitter regret have been resolved, our time has finally come. The spring day has arrived when sprouts can emerge. So, if you sow seeds in the ground, they will surely bring harvest.

Pres. Lee Gi-seong's Message

I Gwon Eh Church... the church groups rather than offering devotion alone with the Cheon Shim Won vigil.

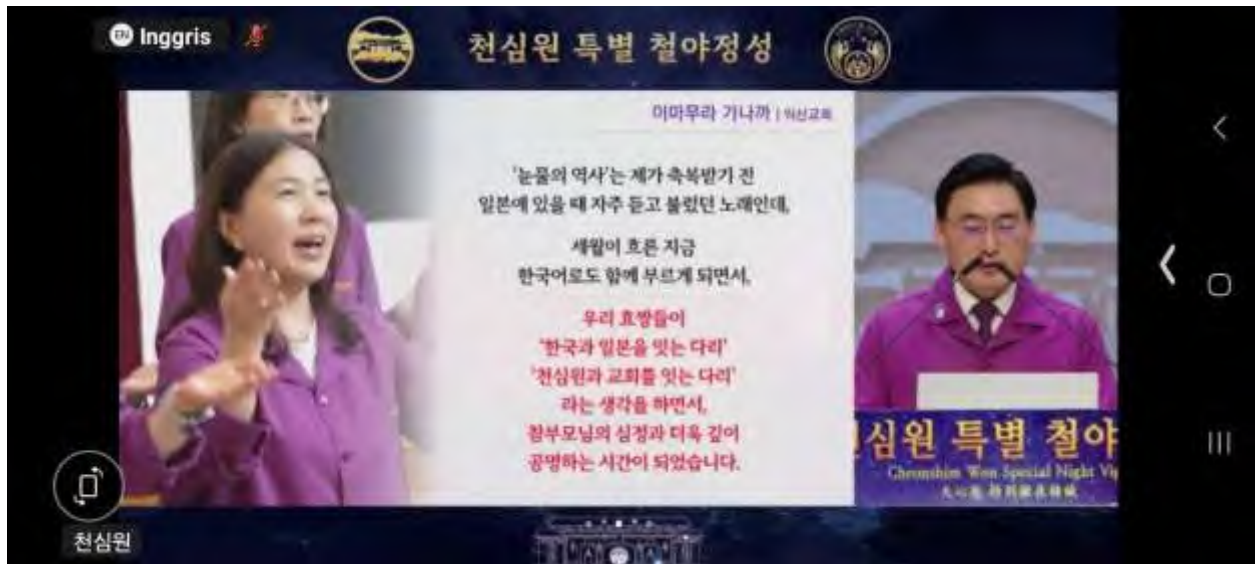

Director Sakuwa Mitsu... in the Mind/Body Workshop Cote-D'Ivoire Yopougin... applause

WSs at CP has the training spreading to the branches throughout the world.

In front of the DC, Message, Song In Yong:

True Mother 198 days, for Her Health and complete liberation and return, an elder pastor and with the Heart of True Parents for the victory of 2027, there was a national assembly for the leaders, especially in Yasoo, and looking at the Places where True Father and True Mother have been, we renew ourselves, standing on this devotion with the heart of HMH True Mother. Aju

All parents should send children to a 40-day Workshop before going out into society...

When you get the vaccination for yellow fever etc., then you can go to the field, and to the military, to have the heart of a warrior, strong externally and internally. If you enter the military and then stray far from the church, but because the mother was so great to tell him just to try the Workshop even he quit mid way.

He was struggling to know why we speak with such loud voice, but by the devotion of the mother, he could determine to do his best, instead of the thought that he would surely respond to for leaving.

It is not easy to have this life of faith, but he offered his very best in all the programs and had times to reflect, even when his standards were going down. How could he figure it out and actually make

breakthrough by devotion, and now when he goes back to society he can offer devotion and practice true love.

He is a hair designer, not that common for a man, but he will be able to meet a lot of people, knowing all the people in the town and he could become a witnessing king. I'm so grateful that he could establish this kind of thoughts. We need this type of people in Seorak Town.

another trainee with parents in public mission for 15 years, but the father received such a great hurt from the church, but it could also be for a trial. But he left the church. Everyone, the reason you are getting hurt is because you are weak, but if able to wear the armor of the Principle, even the leader or President gives you some hurt, you will not be defeated by that hurt and you will be able to receive even greater hurts when you attend at all levels.

True Parents Themselves might even hurt you, when you receive unexpected scolding from Them. What would happen to you then? You should think it is Words of grace to revive and strengthen us more. A single leader could ruin a nation, ruin a district, ruin a church. If you are a leader receiving a scolding, it is a grace, and with the heart of not getting hurt in any circumstance, but a lot of people receive hurt from each other, husbands and wives, and children and parents.

Her testimony was like this, being hurt from the parents. When the hurt becomes deeper, it will rot even to the bone... So, we should have the strongly rooted heart that will not get hurt. If we are able to be so, we will overcome any trials. But her father got hurt, and when he came back from work, he would get violent and eventually became terminally ill.

If you are complaining and resentful, when going in the SW, you will not go into the realm of liberation. If you have the determination, there might be a trial of receiving hurt from your husband and children... All of the elders are receiving hurt from the children, sometimes from their daughter, daughter-in-law. Please listen to these words, and do not get hurt anymore, that makes you the influence of dark spirits.

The leader in one CARP house, even she was working so hard, she could not resonate and she couldn't sleep and had low blood pressure and then went to the emergency center and had a leave of absence. She received a lot of messages that she should go to the spirituality Workshop. She had dreams and visions to go to the spiritual 40-day.

After 16th Workshop still complaints and dissatisfaction in her heart, but realized she needed to pray like a hungry child finding the Mother. She thought of prayer of greater importance to her than food. True Father said, 'I am with you all the time, but Mother needs you right now.'

Heavenly Parent is always in our heart, but when we enter than position is when we can receive messages from Heaven, and she experienced the warm embrace of Heavenly Parent and she became the coordinator and truly feel heartistically in this place where True Father is educating us directly.

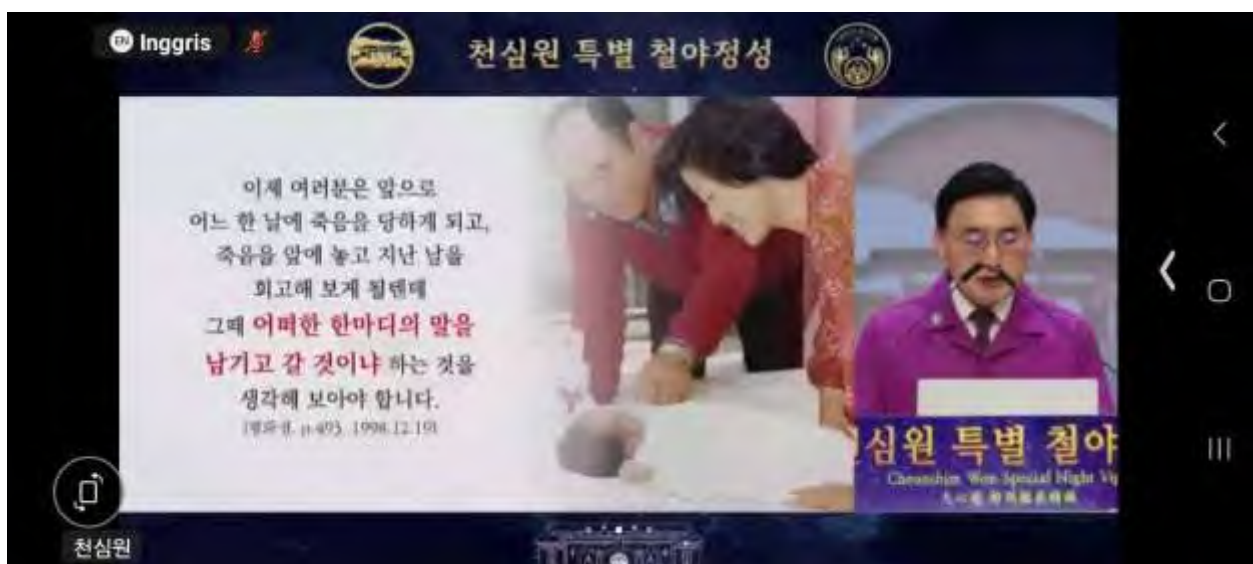

All of the Words Mother has given should be fulfilled by us. If you have no experience and only listen to testimonies, it should be that you are not able to give testimonies but offer prayer and devotion for True Parents Cause and realize and experience thing. To enter that place, we need to offer devotion, not just offering our time, but actually learning True Parents Heart and deep root our faith like olive tree roots.

There is energy in her voice, and I hope she becomes a lecturer to heartistically share True Parents Life Course and many will wail with realization. We need female lecturers not just intellectual.

It was such a passionate praise in the songs and important for you to come here and experience those. Especially being in the Main Branch together is such a big grace... I've seen it among us.

testimony: Even though she actually went to the SW and had a tour there, they said she still needs to go back. When there was so much devotion in the family, in the place of death, they will almost die but not die. That physical death can be overcome. As PL has experience. He was in a big accident and almost died several times, but he overcame the death because of the devotion of his mother.

She would go to the grave place of HyoJN and HeungJN taking a train and bring some rice cakes, 3 trains every month, not only in the spring but year round, not only bowing but offering devotion. It's because of her devotion, many time I and also many of our six brothers and sisters (21 grandchildren) and all of them didn't go through accidents, and my mother is still alive, and it's because of her devotion...

If you have a heart that you should quit hyojeong because you are not receiving anything, you need understand that it is condition for Heaven Providence. If you are getting paid for offering devotions, you should offer even more than you are getting paid for, or you put a minus on your company and become

indebted... You shouldn't be like that.

When you're able to overcome death, you are in a Providential position for advancement. Isaac was absolutely obedient and Isaac's wife when she was giving birth to the son. Because her son was not circumcised but after the circumcision Moses was able to be revived. Such great teaching to us.

We have a lot of great people in the academy, and when they want to work in this District. In Cheon Shim Won, you should work day and night and you don't actually get paid for the work. They want to work in the TC, and when I hear this I think about their shimjeong. With the mind I ask for the donation for the cafe to be established and all of the donations... to work with the ownership mind is working so hard. If you are the servant, it is different. Instead of less, you want to work more. And the cafe became so famous, with the heart of interdependence to become the Sorangyeong, the capitol of Cheon Il Guk, all members should have such position.

There is an apartment of more than a thousand households, but when they come here, we should make this place the Cheon Il Guk Capitol and lead all of the people to the embrace of Heavenly Parent and True Parents, with the mindset of ownership, with becoming servant of servant and servant and adopted child to direct child. All of our Providential Institutions shouldn't just be servants, should just receive payments but become the servant who will make the plus for the company and go over and develop all the way to the inheritor.

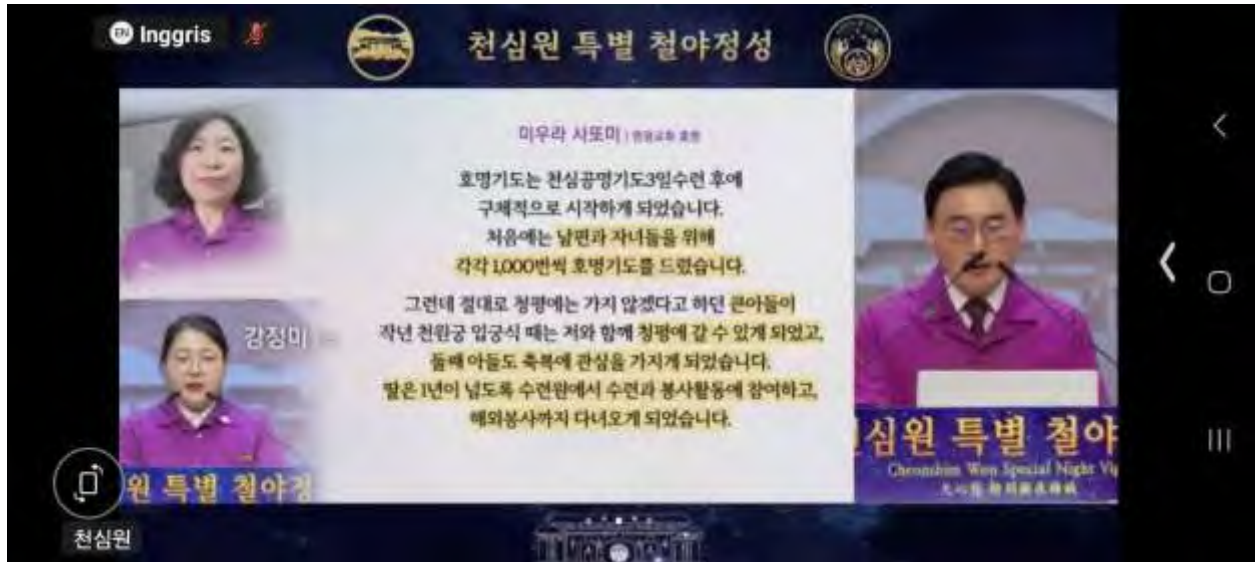

To become in this position, you should risk your life and do your best, never a minus, never a deficiency, or you will be an outcast of the universe

True Parents Words: Unification Church beginning from the prison and persecution, being cursed, the lowest place... 'You should go to ruin' and there were people who reported him and it was several denominations and religions and sometimes the entire nation and leadership persecuting. So, not easy to follow Unification Church. All elders attended True Father Who was in the prison. In that path they never wavered, and let us offer applause to those elders... applause

True Parents also have never despaired, even They were receiving so much persecution, They saw victory ahead from that persecution, and these are the Words that we should never forget True Father in the prisoners uniform. We had only seen True Parents wearing the Holy Robes, but we should never forget,

like even now True Mother is wearing the prison clothes. But those who persecute will return and bow to True Parents.

The Providential Spring is come with seeds of past and present. We planted daffodils before winter to bloom at the cusp of winter entering spring. We must plant the seeds of devotion and live and love (and liberations).

There are war-torn countries still planting the seeds of love. When we are able to see the good, we should be able to reap a thousand fold. Our faith with True Mother in the DC, we should have changed to be absolute faith, love and obedience. Sometimes our shimjeong became very low, but your faith should be absolutely one with True Mother and True Father in the SW, and in that position, when we enter there, we will be able to see the liberation and complete freedom of the Heaven realm.

We couldn't be people where dark spirits are working but where only good spirits work and bring forth the complete freedom. Those offering devotion in Cheon Shim Won for a long time will see the dark spirits in spirit but will be quiet. Those people, their eyes look wierd before the dark spirits are removed.

In this era, we should be individuals where Heavenly Parent can work through us. We should waver. If we are wavering, Heavenly Parent could not work through us. Abraham could go through the trials, and Isaac and Jacob and through that, Heavenly Parent could send the OB Son. Also, when Heavenly Parent wanted to send the OB Daughter, Heavenly Parent was looking for loyal patriots.

12 disciples of Jesus betrayed. However, Heavenly Parent was looking for an absolute filial daughter, a patriot. And the fruition of all those things was HMH, even walking through so much trial and hardship, She embraced everything like an ocean and the entire SW is praising Her Life as Holy, even though She is currently in the DC, wearing the prison situation. She is our Holy Mother and She has told us that we are Her direct children.

True Mother was able to do the Entrance, and told us that the CheonBo registered families are not just any family, but are Cheon Il Guk citizens, and should go into the restored Garden and be in the position before the Fall. We should not stay in the place of ignorance nor let the dark spirits work through us, and should reflect whether good or dark spirits are working through us. With that, with all the devotions, we will be able to attend True Parents and embrace the entire world.

And there will be able to be people seeing vision and revelations about us, and receive Oeg Monsei through all generations. But if we leave Heavenly Parent and True Parents, we will be in a position of eternal accusation. We should think about the temporary leaders but know the Heavenly Parent and True Parents Who are the Eternal Center, and through Them we will be able to go to the SW.

One hundred years are a single blink, but Heavenly Parent and True Parents have prepared for us to go to the eternal SW with the life of attendance to Heavenly Parent and True Parents now...
