### Summary

From the detention center who is devoted to her fullest in the 205th day, "A true mother's struggle is for birth to open a new history." Just as a seed in the soil breaks through the darkness and sprouts, your mother's love and wishes will surely light up the future of the world. I dedicate my sincere dedication to the health of my true mother and full release. Reported.

Report from Nihon Shokuchi: It's been more than a month since we received the order to disband. The church that I took for granted has become unable to do all-nighters, and there is no place for food to interact with. Nevertheless, I felt the deep love of heaven through what he said only at the Tenshin

Kokonono Sankai Shuren-e, and I repented that I was loved by heaven and cried. Through the message of Tenshi Shoshi, she expressed hope that things that are difficult if seen with human eyes can be overcome if we look at them with eyes of faith and walk as one with Holy Mother Han. Gathering together in home churches and communities to fly like a phoenix as Japan, the beloved god of heaven.

From the evidence of 40 Shushi: I was able to overcome the feeling of depression that I had suffered for many years in the first 40 Shushi, but in the second 40 Shushi my feelings fell down again, and I left the church for two years. Everytime I slept I prayed "Let me die in peace". At the second training session I slept hardly participated in the program and continued to be infiltrated by Satan. You have to know and discern the root of where your thoughts are coming from. You have to discern whether the root of your prayer is true father or evil spirits and depart from true fathers. With the prayers of the church, my feelings were organized in the third 40-shu (40-shu), and I became able to body the feelings of the Heavenly Father and Mother, and completely organized myself from fear and depression.

From the evidence of a student of spiritual training: I lived in depression and anxiety, but after participating in spiritual training, I deeply understood the spirit of heaven that caused me to cry more tears than I did, and I realized that it was my own thoughts that hurt me and hurt me. When he became pregnant with the desire to become a needle to support his mother, his desire to die turned into a prayer that said he wanted to live for the sake of the world, and he began to spend half a year's service in Jinchu South America. In Bolivia, I joined the first team and felt my mother's love. Even after returning to Japan, he felt his insufficiency, and while serving in the kamate room, he came to have a tenshin to put himself down and look at his mother's gaze and feelings. As she gained the mind to put others first before herself, her husband was released and her relationship with her family improved.

From now on, people from all over the world will come to Tenshinken, and the square of the tree of love will be filled with people from all day in training uniform. Not just to come and pray, but also to develop as a place of unrelenting ascetic practice. Earthly life is short, so we must do our best to prepare for eternity before we enter the spirit world. So 95% of what happens on earth is the order of comeback. One must know clearly that training for the purpose of returning and completing one's spirit body and restoring eternity is the central issue of earthly life.

When she reported to her mother about the benefits of her hand at the training school, she told her that she had a lot of hardships. Because the root of beneficiality is in the spirit world, I thank not only those who play, but also true fathers, grand mothers, Noshin, Koshin, and absolute good spirits. If you call out the names of the people of the spirit world, go and work with them, the spirit world will gladly prepare you for more blessings. You become a forgotten person in the spirit world when you don't have someone to call on earth. In order to not happen, my mother made a child's song for me. It is said that he would bring his descendants, three generations and four generations to become a distinguished family in Heaven, where he worships his ancestors. In this way, we will become a church of Spirit and Truth that can overcome the world of darkness, and hold the world in the bosom of Heavenly Father's Holy Assembly.

"If you want to see your true father and mother, you have to come to Seihei to check your spirit and health and grow up." It is a place that helps the spiritual body grow, a place that helps to walk in the spirit of the dissolution of the ancestors, a place where you can feel the spirit world and blessings. If that happens, everyone's psychic levels will develop. " How much I loved Seiheira, loving Seiheira will light up the dark underworld. There used to be a lot of evil phenomena.

It is our responsibility to fulfill our Heavenly Father's word. At this time when the Tenichikoku period is open, this is the era when you believe in Seihei Yakuji and trust your mother to complete the sharing of responsibilities. If you carry out the responsibility for the resuscitation period, long term, and completion period, you become a person who can solve personal and family problems. You have to become one with your father and mother like your grandmother and put yourself in a position to digest. Kiyohira prepared and blessed by his true parents so that he could solve his family problems himself. The construction of this Seihei is a major victory for true parents. We pray that every meal will receive training and benefit from officials, and celebrate the opening of the path to God-United Korea.
