Opening prayer of gratitude

Kim Ju Han prays...

... You told us to come to this Cheon Shim Won and TC often to cleanse and grow... You, Heavenly Parent, have come among us, becoming One with True Parents, and we yearn to be one with You, make True Mother happy and pray for True Mother. Please let us empty our fallen hearts and minds and only be with HMH and True Father. Let Your circumstances be ours, no longer alone. Let us be the proud Providential families, offering the achievements of victory before You, Mother, with the subjective SW and objective PW becoming one.

Please let the grace shower all gathered here tonight and we earnestly desire for True Mother's long life and health...

(previous prayer

We have come where Heavenly Parent resides substantially with us, and please allow us to be used to overcome the darkness of the long night... Only the Holy Items and Words can be left behind, but the Body has limitation. Descendant after descendant, You made a Path for us. Please allow us to inherit that to our descendants.

We have worked up to this 14th year of Cheon Il Guk Era, and especially True Mother has undergone the path that pierces Her Skin to lay the foundation. Let us feel and be one with Her in this, and not think that all the Blessing You bestowed to us is only to us and for us.

Please let the light spread throughout the world, so that all the nations and world receive. Please allow our inner hearts to grow, to not be an embarrassment but can represent Heaven and report the victories before Your Altar...

Please allow our devotion to be hope and comfort for You and to stay sacred for Mother's release and for our descendants to move forward calling out Oeg Monsey, and be the hope for True Parents and let this night be such a night and vigil...

2nd son...

I would like to share about the things I didn't tell anyone... and my difficult middle school years and depression.

I cause the flu during the first Workshop that kept me not so involved in the second Workshop... i remember praying that I die peacefully in my sleep.

During a conversation with a young trainee, she suggested to go to the Yeongseong Workshop and I decided to go seriously...

I offered earnest prayer, 'It is so hard because of depression, please tell me why I was born into this world' I realized that my mother gave birth to my sister by C-session but afterward my birth was natural birth, like a miracle... I had lived thinking my life was a curse but then I felt gratitude and tears. But I drifted away again. I realized I had told others members that they were working hard, but never told myself that even once, and realized I had not taken care of myself at all, thinking of death countless times, and then tears flowed endlessly... And had such gratitude for giving me this realization.

True Mother walked this path alone, because I am so lost to Her. I determined to offer even my sleep time

for devotion, and prayed about whatever Heaven wanted from me for my future. I asked to move forward through hardships and trials with joy. I realized Heaven has always given me greater joy and happiness whenever I overcame hardships and trials, and I wanted to return the love and grace I received... When my depression returned, thinking of the Love from Heavenly Parent and True Parents, it completely disappeared.

I decided I want to help others to know that Love of Heavenly Parent and True Parents, rather than the occupation I had planned before.

I especially thank Yokime and PL and other staff...

2nd of two daughters

gratitude to husband

Currently serving in the ansu room for 2 months... Since I was young, I had unresolved depression in my heart... Then in Workshop, I realized the Heart of Heavenly Parent for the first time, Heavenly Parent as

someone not ignoring my pain but so miserable and full of grief the True Parents's Course was crying for Heavenly Parent. I thought I had been living for Heaven, but at the center was my own focus on how I was hurt.

Now I want to be someone who comforts True Mother, and my prayers have become for the world. For 6 months I offered prayer for Jardim and Bolivia. The witnessing touched my heart and I began my service of ansu under Heaven's guidance. And feeling the hearts of others on the other side of the globe, I felt the embrace of Heavenly Parent across the world.

How much comfort and hope would Mother want to convey to these precious children, and engaged in earnestness for the ansu to work, and members gave feedback that they saw the AGSs working and felt Mother's love. I felt gratitude for the sacrifice of 1st gen, that we can exist today.

Though sometimes I felt I would collapse, but if I did Mother could not fully express Her Love, and how happy it is to practice in oneness with the SW. In Korea afterward, I face my inadequacy, shaken by the environment in the outside world. I felt my lack of love to embrace others and be one with the ones I most needed to. I doubted my ability to go through trials and prayed to be guided further.

Then I served in the ansu room, which begins with an hour of lecture, HD and a significant part of the day is ansu training and mission. The Director always said that satanic side is alone but Heaven's side is together... My teammates would give me ansu also until reviving again, and I felt we are truly together as one, with one replacing another about to collapse...

I realized that the heart I gripped tightly to myself was imprisoning in a jail called, 'Me'. The time I spent focusing on the members without stopping was a training to move with the Eyes of HMM. I could feel that my stamina and ability to perform ansu had grown. In the past, seeing the resentments of my father, instead of reacting, I began to think about what was their situation and feeling, thinking of the other person first, then the love that only adapts to the children Mother's entire Life was revealed to me.

Based on the Heart, Truth and realization we have learned here, we want to become the hope of Cheon Il Guk for future generations, and I am gaining more confidence to make my family one of true love, I advance even further.

Heavenly Parent had prepared the nations, for the sake of unification and freedom of those nations. Although I am lacking I will experience Mother's Heart, guide spirits to Her Bosom and convey Her to the entire world. HMM, True Mother, thank You and I love You. applause

Becoming the ones who live for others

the background of beginning the special prayer room

True Mother: For 40 days I lived having conversation with True Father and His Thoughts became Mine and Mine His, One Heart, One Body and One Heart, and True Mother proclaimed the day and transition of the Providence centered on HyoJN and HeungJN and centered instead on True Mother and with 3 days remaining, True Mother authorized that the portrait of HyoJN must be enshrined and they have become one.

True Mother created an automatic system in which we can solve problems ourself, if we offer devotion. This means the SW foundation is established.

True Father went to the SW and completely organized the Heaven and earth systems, and now you can experienced as DMN did. On March 30,2018, Mother commanded the leaders, especially PL to offer devotion from 12 to 3am and the tradition of CheonIl Guk is eternal...

After Vision 2020 Mother directed the start of Holy Community and Cheon Shim Won devotion...

We must run until the Day Heavenly Parent Desired comes, offer devotion, reach Heaven and mobilize Heaven... One drop reaching the ocean

You must offer devotion, commanding the SW with the result on earth. 365 days going to Cheon Shim Won to see Father, and humanity experiencing living with Heavenly Parent and interaction with the SW, so that SW is mobilized.

I met True Father when young and never slept more than 3 or 4 hours. Only then will there be greater intimacy with the SW. True Mother changed the name of Jeongshim Won to Cheon Shim Won and I will

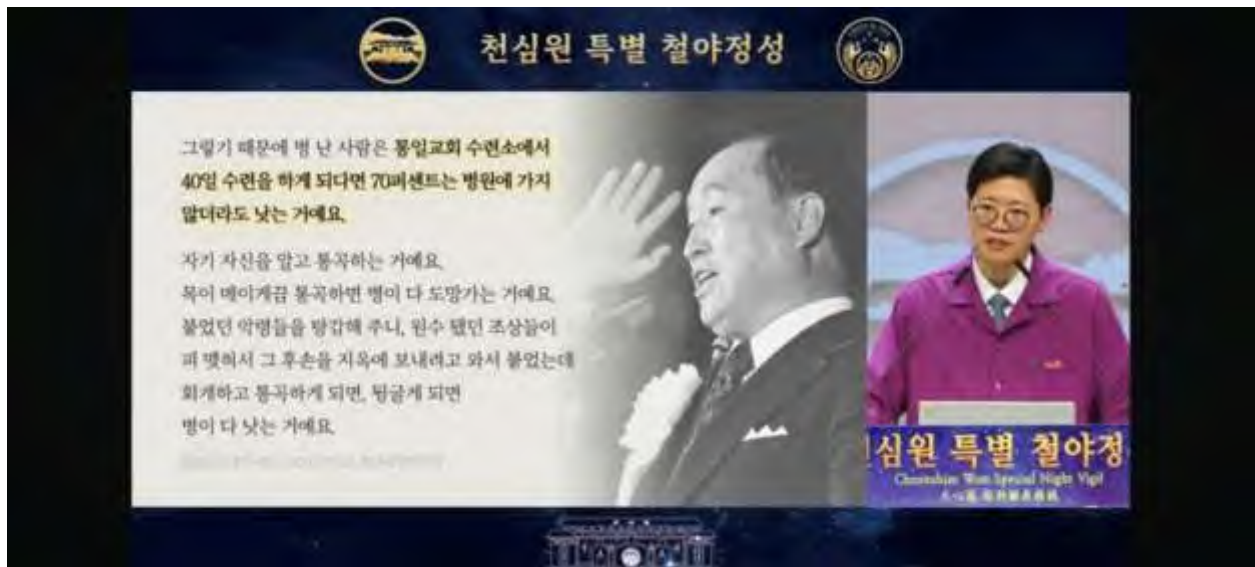

make it run smoothly like water and gather the talent... it will be world HQ. True Mother gave PL the responsibility...

You must know leaders who are pure and stainless and know True Mother's Heart to read it. We must educate babies that Heaven considers pure. Cheon Shim Won is the place to raise the Voice of Heaven. No one can manipulate this...

3 Places of Mission : The Main Hall of Cheon Shim Won Devotion, Main Hall All Spiritual Providence Cheon Il Guk and Main Hall of Spiritual Development of Cheon Il Guk Leaders

In 2022 under Mother's Direction of Direct Dominion, a Special Workshop for World Leaders was conducted through Cheon Shim Won and it was inherited by branch and local churches, and this is how Cheon Shim Won ansu began.

In Sept 2022, a member with an incurable disease came to this Main Hall and risked their life to come here even they were in no condition to board a plane. Hearing they were healed, Mother was overjoyed.

When a couple received such grace for their True Mother used the royalties from Her Autobiography, and made the golden armor clothing, and Mother said She wishes She was 20 years younger (although those around did not know exactly what She meant)

The President of ansu gave the benediction in 2023 and direction how to move forward to move Heaven... Now 9 years and 9 months have passed, and many have learned ansu here and pure water is gathered here.

3 goals of ansu room: healing diseases of body and mind, experiencing the Heart and Mind of Heavenly Parent, and raising and protecting healthy families for Heaven

This becomes one goal to inherit HMM's Heart to give ansu.

Ten lectures cover theory to actual practice. We conduct counseling for members' body and mind and they center on one hour of devotion and bowing and attend various other WSs... The photo shows the ansu workers. Aren't they cute and beautiful... applause

When I look at the members, I wonder with what kind of Heart True Parents's are watching us with. Like a grandmother caring for her sick child, my love for the members in front of me, feeling the desire of Heavenly Parent's Heart to come through me, and I feel my inner heart expanding, and the Place to walk with Spirit and Truth is the ansu room. TY True Mother, I love You

The ansu experiences the challenge of their own limits and knowing the SW and Heavenly Parent and True Parents are Alive and Breathing. We learned that many members are physically exhausted and we can see the path of healing and provide guidance about how to perform the ansu.

Since Dec 2023 total of 66,774 have come... about 90 people per day, special ansu most with serious

diseases, and we also visit directly at the hospital for the ansu, some with diseases we never heard of, some diseases from spiritual problems...

What percentage actually see improvement. True Father said 77% will be healed without going to the hospital if we do the devotions. We determined 70%, while some are difficult to track. It is behind the Cheon Shim Won and you don't have to have prior reservation.

Through deep prayer and devotion, the Director's Words: It is the flow of perfected love and the 4PF, called cheonshim. The Providence of Indemnity and Eternal Life is used to heal sickness that is done from the contradiction sins that can be healed...

Just like this Cheonshim ansu is the inherited Perfected Heart of True Parents, through our hands representing the Hand of True Mother with our left hand and True Father with our right, centered on Two becoming One. I have learned this specific method from the ansu Director

Make the arms vertical with the body

Keep them slightly apart, rather than tightly against the ribs

(This allows the arms to open to the maximum extent.)

Then following the rhythm of ansu by opening to 280 degrees.

I can see members practicing. For all of our health, why don't we try clapping.

Hyo Jeong boksu jubit

(He didn't say about keeping the thumb and fingers tucked in, as they do in the lecture for it)

TYVM... By this standard, you will feel your palms becoming hot and resonance with Heavenly Parent and True Parents's Heart. These hands do not become hands that torment anyone, but that eventually convey the ultimate Grace of Heavenly Parent's Heart and Love.

After ansu, the indemnity can transition to the person performing it. Therefore, you must learn under the guidance of the ansu Director. Therefore the conditions must be established at the TC, to comfort and liberate the spirits and send them to the Workshop in the SW for training.

The person receiving the ansu must fill the empty space from the absence of the spirits, with HD Nad devotion. Only then can the giver and receiver remain safe within the protection zone.

Next, about the Special Prayer Room

Mother proclaimed to the entire Cosmos after the 13th year of Cheon Il Guk, the Era of Heavenly Parent's Substantial, Direct Governance, after the Entrance Ceremony.

Ansu members try to enter a state of complete selflessness during the praise and CY yoksa, putting aside how inadequate they are in order to inherit HMM's Heart.

Last GWs, 48 served and over 1,000 members came to receive ansu.

testimonies

The daughter had a lump in the brain that later completely disappeared instead of receiving the operation.

What happens is that the dead cells in the brain must be released but the resentment spirit was blocking this.

Interview

All doctors said there was nothing wrong, even my symptoms were present, my back in a walking angle almost 90% and unable to stand straight. Before coming here, I felt there was not really feeling from the bottom of my heart, but after coming hear I feel the gratitude and joy so deeply.

another had the cancer through her body, but with feeling True Father's Love through ansu and the side affects of 4th stage all but disappeared and I have living my daily life... truly grateful

(instead of chemo, which made the cancer worse, she changed her medication and continued chemo together with the ansu and now the cancer is much less...)

another had the state of her liver better and she does not feel tired as before. When trying to conceive the baby, even by direct injection and liberations and HJ Offering Papers, even after 47, we were able to conceive twin babies... wow... applause

Several members received the ansu education and PL prayed that the substantial Energy of Heavenly Parent would arise leading to an amazing work in the Catholic sphere.

They provided ansu education and service. At the end of February, and 1,500 people in about 40 days... Antoinette video

Grateful... I believe we can make HMM's Love to flow and I believe we can serve members. At the TC in Korea, I always think to heal by HMM... grateful for the training and guidance and all the others who do ansu and brothers and sisters... TY

The ansu has expanded to the branches... to send the Heart of HMH to heal people....

Last time, doing ansu, I was kept in unbearable anger, but I was allowed to hold the HJ staff and afterward the anger disappeared. It was all because of sorrowful spirits hurt by my ancestors and I truly hope for their complete liberation.

Eva Davadova from Africa... lower back and body pain... back to normal... Deep sadness and negative emotion spirits left, and I felt my heart eased. Also, through the sisters ansu effort, I could feel the HMH's Love.

After Father's Ascension, HMH True Mother's Path was unpioneered and lonely. She asked us to drive forward centered on Cheon Shim Won, and with the ansu practice. We know we are facing the greatest crisis, but True Mother is the One comforting us first and always next to us.

For F to work and the AGSs to work, let us gather our devotion in this Place. Please come to our ansu room whenever you desire and we will receive you there. applause to Kim Su Team Leader and Director and staff of ansu...

Solve you own families' matters yourself through the TC, be helped to possess a matured spiritual body, checking yourself for a healthy state, feel the grace and blessings.

If your heart is thirsty and you miss your Parents, come here and you can see the way. You must liberate all your ancestors, and help others in the direction of liberating their ancestors as well, so that the entire SW will be with you. That is the wish of Heavenly Parent and True Parents.

Stand in a position to fulfill your respective responsibilities, with standards of AFAL and AO, offering devotion as DMN did. If you live the Life after True Parents, where They go you will go to. But because you lack experience and are inadequate, the CP TC exists so you can solve matters yourself

Our True Mother Who has been waiting for us, we will now protect You, True Mother

Pres. Lee Gi-seong

Pastor's Message at the DC:

Today was the 205th day of True Mother's suffering... I heard the sudden news today that surprised me...

As the spring breeze wakes up all the things, True Mother's Pain is a Labor Pain to bring life to this earth, so with the heart of hyojeong, let us follow and learn the greater love, absolutely being led by True Mother's Bright Life.

We have about 44,000 gathered

H Japan 15,800 places are connected

and there are members gathered in one place to attend, and I saw the video of them together... They keep going... We here offer earnest devotion for the TC...

Last time the testimony... It's been more than a month without a sanctum to gather and worship. During the vigil, I was able to feel Heavenly Parent and True Parents how much They dearly love Japan and I could not stop crying, reading True Parents's Words with tears and I felt urged to love brothers and sisters more than Heavenly Parent, opening our hearts as a child and being reborn as a child. I shed the tears.

In the 2nd 3-day Workshop, the Contents welled up in my heart. Instead of feeling worry and disappointment and discouragement, I felt yearning to become one with members. As I listened to the Inheritors message, I realized we can overcome and with not our own eyes but Heaven's Eyes, and we can still gather at different facilities and meet online. We will rise again and stand up again and bring back the joy and love to Heavenly Parent and True Parents.

We will rise like a phoenix...

Because Heavenly Parent is always with us... Always having eyes of faith. The fact that we are alive is the work of Heavenly Parent... I hope all of you can feel Heavenly Parent anywhere, any time

testimonies... When his spirituality dropped, and just wanted to die peacefully in his sleep. It's a work of Heaven that he didn't die at this state where satanic spirit can manipulate him the most. I'm certain there are other members not attending programs but just sleeping and coming for meals, living like this in the

TC. That is the view of satanic spirits working.

As you offer devotion, you must realize when that is the spirit with you. Abraham when offering animals, looking at the vulture coming down to take away the last offering. He started hearing the voice of Jehovah, 'What shall I do?' 'Your descendants will go to a foreign land as slaves'

Even after the Workshop, he didn't go to church or attend vigil, but fortunately he did make some prayer to Heavenly Parent, but he couldn't think about what the original of his prayer came from. Where is your thought coming from. Who is the Center of your thoughts.

Thoughts are deep rooted with the fallen people. And all committed by yourself and ancestors, that makes you think as you do. Do you think it's easy for a criminal who has done ten crimes, how difficult would it be for that person to be the actual intended person. The Messiah's Root is different from that. We need to be able to say, 'I know I am the son or daughter of Heavenly Parent and True Parents'

In order to set the foundation for the Messiah, the history has been progressing since Adam and Even. All the fighting has been used as a condition. In the Epic, it is an important aspect of Han history... Because they are able to speak those words. He knew his root and the Root of Jesus, he was able to speak the words and explain the foundation for the Male Messiah, but also there is the foundation for the Woman Messiah to come out through Mary and history of the Bible, we need to discern how the Providence continued through failures to unfold for the Woman Messiah...

Many don't discern or think enough when they pray how everything needs to center on True Parents to start anew. Even with the (good or bad times), you should be able to think about all the things, jealousy, anger... Is it the Parental Heart that allows that to arise. Only when you realize the fallen root of that, can we awaken and arise.

The fact that our brother did not die is because every day in their church the members were gathered with devotion that saved him and also his parents probably offered much devotion... That allowed him to attend 3 WSs. He was able to organized and set hings in order and feel Heavenly Parent's Heart looking at True Mother. From Heavenly Parent's Perspective as he saw True Mother, 'What should I do?' Through that all the negative emotions were able to be liberated and he experienced the work of healing... All those emotions will be liberated to really enter the Heart of Heaven's Cheonshim, and you will be separated

from the satanic spirit.\

But if you have holes letting spirits come in, what will happen?

Even if you face trials, you will be able to endure, and such proclamation was made by our brother... Those in Workshop now, hold onto yourself with life-and-death determination. If you have fear, the resentment spirits will manipulate your thinking and emotion.

Heaven warned that the first ancestors would die, but they did, so we must be life-and-death determination to be separated from that death... not to let yourself be that slave still with central resentment spirit in our hearts...

testimony... 13th Yeongseong Workshop was where she met Heavenly Parent and True Parents's Heart deeply and see They cry and hurt more than herself. Selfish heart has been at the center. Being so tired like going to die, but still she went on and went to Central and South America... When she gave ansu, everyone felt H Mother's Heart, and were so grateful... Any sick person, when someone touches them with love, they receive so much strength...

When she returned, again she found her own limits, and served in the ansu room for 5 months, and they stay here until 1am with the vigil. After vigil, they will go to the ansu education at 9am... The owl team will be in the special prayer room all night long, and then the ansu team would come out and I talked to them from 9am and they begin their day that ends after vigil...and for the members and team members, they train themselves to endure to the end.

She was able to experience what it means to be one with this process that is not easy. But emptying herself for the Perspective of HMM, Heart of Mother was the training for the spiritual stamina. Her voice also changed. Not 'I am tired. I am sad. I am...' She was able to connect her family with the positivity. From now, our TC will be a Place where trainees come.

We have a lot of purple jackets here, but it should be filled with trainees here at Cheon Shim Won as Heaven wants... not half and half saying, 'I attended, so where's my purple jacket or staff' We must wear the clothes like the monks do, to then train themselves, not thinking it is enough by our own perspective, but reach for Heaven's perspective in this very short earth life. You must put all your heart and

effort...even sick in the hospital continuing to offer devotion, and they can see the vision of how they are in the SW.

Without realizing where we are does not commit suicide. Heaven has set so many conditions for you to be restored. We call it the Providence of Restoration through Indemnity. You must make the realizations. In that sense, no matter what kind of profession you have, most important is whether you worked to resurrect for the eternal life.

So, we make emotional training, and if you don't do that, you will live a 'fake life'. In the ansu room, abundant grace, and deep-rooting absolute faith into other people itself is the great blessing. True Mother hearing the reports, said DMN is working so diligently. So, to Center Director Kim Dong Ok and Kim Lok Su, using the money from Mother's Autobiography, She gave the Golden Vest to the brother and then gave it to Kim Dok Su Director and he was so, so moved... and True Mother gave him also the blue clothes...

Those who were in the counseling center, all of them must offer the glory to Heaven and should strive to be able to win the praise of DMN as well as praise DMN, lying down before DMN giving our gratitude... It will be a problem if Directors do not turn what they have done to DMN, not themselves... careful not to... All are working to unfold the miracles. We must receive their grace, but also call out their names to work, or they cannot come down asking them to work with you, join your activities.

There was someone who had a lot of dreams to report to True Mother. The descendant of his grandmother, said, 'Why don't you call my name to work?' What if the Branch Leader of GY and there is a gravesight, but no one calls your name and no one comes to your grave site. So, True Mother established Cheon Shim Won for all of us to remember eternally. Your descendant need to come and offer their respect to you. Tell your descendants to come to Cheon Shim Won, for us to become royal families remembered.

'His son-in-law is working so diligently, don't you feel grateful?' Yes. All of this is the amazing grace of True Parents. True Mother must come out as soon as possible to establish the Hyojon won and how amazing if your name is next to the great elders. Descendants will come with tears and we can share words with them, and cast away the dark-clouded world.

If you can create more and more of such churches/gatherings/tribes who come to Cheon Shim Won often, the world will transform... So, you must come to CP, no matter how dark or impossible it seems at some point. If you miss True Parents, come to CP that allows members to receive enlightenment for the path of the Will and nurture your physical and spiritual body.

Sept 13, 2017, True Mother gathered the leaders and asked, 'How much does Heaven love CP?' and there was a moment of having to change the leadership. Many, many people had dark spirit working through them but by Cheon Shim Won, we made it bright.

When I went to Africa, 28 people became crazy... which doesn't happen now, because it is changed to white spirit. The entire AGSW wants to be with you. You must take responsibility for the Content in CP. If you disbelieve in CP, do you have absolute faith in True Mother. If you complain instead, it is dangerous vulnerable situation for you and the your family and the world.

You must be able to stand in your own respective position, and ascend yourself by yourself. That means everything has been prepared. Amazing blessing of the automatic system establishing and the TC is established is an amazing accomplishment of True Parents, and no it's your turn to solve problems and let all the churches reach the standard of Heaven's Sovereignty.

That will allow us the miracle of the unified Korea. Let us offer prayer and devotion, even if today is your first determination, let's make that resolve and move forward with absolute faith in True Mother and Cheon Shim Won Providence, mobilizing the entire SW.

Prayer and Praise

In a Postion of Losing everything, Heavenly Parent entered the Providence with us of Indmenity. Now we live in the era of attending Heavenly Parent substantially. We sincerely thank Heavenly Parent for opening the era of the substantial governance of Cheon Il Guk, repenting and being reborn to establish the substantial Cheon Il Guk.

Please guide us to be substantial families who fulfill Cheon Shim Won through the Womb of HMM. True Mother said we cannot move Heaven with individual thoughts. Please guide us to all participate in Cheon Shim Won by becoming completely one with the Heavenly Heart of Cheonshim.

Let us endure any trials to become a warm spring day, to sprout new buds and bear fruit. All members worldwide, thank you so much for this foundation.
