Good morning

I hope you're doing well.

1550th Tianxin Garden is honest all night

Summary

Today the leaders of KCLC joined us, and the 12 bishops who were blessed by Archbishop Milingo came to learn principles education and worked hard together. Shokuchi of the gods of Japan also believed more passionately than before the notice of dissolution, and it is reported that Japan has surpassed 80,000 out of the 116,904 people in total.

From America, there was a report of a woman named Barbara, who grew up in an honest Catholic family at the age of 88. To help my sister in charge of the church in Côte d'Ivoire, organize everything she owns and go on mission, run a restaurant on the ground to create a large financial foundation. After that, when

my younger sister moved to Nigeria, she moved with her and continued to support her finances. She didn't think of the capital as personal property, but she gave it all to African missions. In 2001, I gave my all for a heart condition and returned to the US. Even in her sickbed, she silently supported her true father and sister's missionary, and until the moment she breathed her last breath, she hoped to see her true mother free overcome her illness. Every morning, I participate in Tenshingai Seishin online, and while crying with tears, hoping deeply to be used by Heavenly Parents, I dreamt that I myself entered Tenshingai in the spirit world. When I entered there, my true father was standing, shouting, "I am so happy to see you," and welcomed me warmly into my father's posse.

Sending from Chairman Totsugi at the Seiwa-shiki

"Even though the cold winds of trials blow in and out of the church, the path we walked is proudly grateful and never waver." Until the day when our last lives are exhausted, we must reflect on the life we have lived more proudly and pass on the legacy fully to our children. I know well how much a true father loves this sister. Many times I have seen a true mother shed tears thinking of this sister as her beloved daughter and beloved sister. These sisters who raised numerous sons and daughters in Africa without complaining even in the difficult situation at the mission field were truly African mothers. You will receive the warm shouts of the mouths who have been in the first line of providence in America and Africa, and after completing all your missions on earth, you will depart to the eternal land of heaven. My father, who appeared in a vision in Tenshinkai Seishi, would hug him warmly, saying, "Come quickly, I'm happy to see you." You are marching toward heaven with light footing, devoting your life fully before heaven for 88 more beautiful than flowers. The seniors who met earlier will be greeted with warm applause. Let down all your pains and sorrows on earth and receive peace and joy in the eternal world where there will be no pain and death again. Victorious Barbara, receive eternal blessings."

A message from my father yesterday: "Even if it brings tears, we must keep moving." You must keep going in prayer until the time of understanding. You must realize yourself. I know all about how you guys are stomping on. The pain, the wounds, the sorrows, the sympathy, the strength that you've lived through. If each of you finish your earthly life and raise it to the spirit world, I want to thank you all for your hard work. I know everything about your determination, determination, and the course of tears, you walked without giving up in difficult circumstances. Every moment you have lived in heaven will be a blessing and treasure in the spirit world. So as a father I pray with tears. All I have to say to you is, press on as one with your true mother who is on earth. Whether we shed a tear or we sit together, let me hold you so I don't fall. Do you fear to stand up and go again. I will spend every moment with you and help you expel those scary thoughts. So let this loving way not cease, love me, love the other, love my home, love my brothers, love all the peoples of this world and all nature, love heaven, love true father and mother, is the way we must go forever. So no matter what tribulations and trials come our way, only the path of love is the way we go without ceasing. "\

Heavenly Father, True Father and Absolute Good Spirit are with us this hour. I hope everyone resonates with that. You can mobilize and experience the spirit world, have conviction through the truth, and have a clear perception of the spiritual and flesh. When perception by the spiritual five senses and perception by the physical five senses are completely one, there is complete perception. One must have the perception of experience through the five senses. Complete perception emerges in the position that has become the perception of the mind and body. Having attained perfect enlightenment, we may advance fully into heaven.

Because we know the truth, we can overcome the power of mortality. No matter how the persecution blows, we will grow stronger and our prayers will rise higher. For I know the living Heavenly Father, the true Father and Mother of mankind. We shall never falter nor fall because we know that the true Father who has ascended into heaven will work in the subjective heavenly world as the Sovereign One who transcends time and place and sovereignty.

Even at the moment of death I move forward looking to my Heavenly Father, my true Father. And they shall see victory and completion and glory He will show us in our pains what glory henceforth we will be in. Believing that we will become the center of the new Asia Pacific civilization when we move forward in Spirit and Truth through passionate prayer. I pray that this time will open up such paths.
