A lonely island in the East Sea far away. a strong wind will blow again today

Because the wind blows on the small face

Dokdo, did you sleep well last night?

Arirang...

Let's go over Arirang Hill

Even if we take a break when we are tired, Let's go hand in hand and let's go together

The clear water of Geumgang, Mountain flows into the East Sea

And the clear water of Seorak Mountain also goes to East Sea

Where do our hearts go

When will we become one?

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved, Victorious True Parents of HEH

We express sincere gratitude for today as well, to be in unchanging attendance in the Main Sanctum of Cheon Shim Won, and to gather in Spirit and Truth.

Heavenly Parent, in this Cheon Shim Won TC, countless children are being born again inside Mother's Womb. Countless of us, without exception can experience Your Heart Revolution and be born again. Our Mother Whom we miss and long to see, in this situation which is so critically serious when She is undergoing what would be for us, what would be difficult or wary for us. Through today's vigil devotion, let them overcome our sickness, our fallen nature, so that we can work in a way not shameful before True Parents and Heavenly Parent.

We know that now is for us no longer to just receive Mother's Love, now is no longer the time to beg for Mother's Love, but now is time for us to offer filial piety through the beauty of attendance before Mother. So, please work so that we can gather devotion upon devotion in this Place of Heavenly Attendance.

Allow us not to be those who hide before the Will, but have a stark conscience so as not to deceive ourselves. We earnestly wish and desire that we can become one of those who advance one step at a time toward the Will.

Now that we know the fact that when we converse with the Origin of Heaven and go forward toward the Will that You desire, the SW moves and Heaven resounds and Father substantially works through us. Lacking though we are, we will accomplish our portion of responsibility, and we will offer devotion so that Heaven will definitely come down to us.

Since a crowd of more than 40,000 brothers and sisters who do not change will gather at all times, resonating with Heavenly Parent and True Parents Heart and experiencing H's Heart together with billions of absolute-good ancestors transcending dimensions explosively, let us advance forward, so that we and the SW can work.

While earnestly desiring True Mother's innocent release and longevity and health, I pray in my name Yu Su Han, as a BCF with gratitude attending Holy Mother Han

True Mother's Words:

To meet you guys, I made special effort. How do I look?

As you grow, you must grow well, and become the true children who support Me with the Truth that can lead the Providence. How fast would progression of restoration in the world be? Can you imagine how you are truly proud ancestors?

One sunflower, whether it is cloudy or windy, it always looks at the sun. Just like that, you Hyo Flowers... You must always be in a position to become one with the Cheonshim OBD, with True Mother 24/7. Do you understand? (Ye!)

You're not sunflowers, you're hill flowers. Because of you, I receive strength.

God chose the people of Israel as the chosen people. It took 4,000 years to send the OB Son, Whom God could call, 'My Son.' However, what happened? Mary who gave birth to Jesus and the Jewish people of Israel could not become the environment for Jesus. Jesus did not have any choice but to choose the path of crucifixion.

Jesus Christ, Who walked the path of crucifixion, Heavenly Parent, Creator God looking at Jesus walking the path of crucifixion, how pitiful, how unbearable for God to see Jesus. Until now, God has been living a sorrowful Life. Our Heavenly Parent, all of you who gather here must fulfill your responsibility and by doing so, you can make Heavenly Parent not to walk the hardships and path that Heavenly Parent has had to endure. You can offer Glory back to Heavenly Parent and become the filial sons and daughters and patriots of Heavenly Parent. I Bless you to become such beings.

In order to restore children Heavenly Parent lost and embrace fallen humanity, Heavenly Parent had to endure 6,000 years of grueling Providence in order to meet this day. Our Heavenly Parent, that is Who Heavenly Parent is.

As I look at you today, I feel that I am ten years younger. As you resolve yourself and become one, let us go beyond nations, and create this world of Cheon Il Guk. I want to say TY for your resolution.

For the settlement of Cheon Il Guk, you are the great Hyo Jeong man and you are the great sons and daughters of HF and HM.

Eldest daughter 1 sons and 2 daughters

I'd like to share about the Workshop. Through various circumstances, several years ago, my body and mind broke down and I collapsed. Because I majored in counseling/psychology, I knew that it was not a final stage of depression, but the next stage was like a vegetated human being, not able to swallow and even relieving upon the blanket they lay on. Due to panic disorder, phobia and 12 places of distress in my body vertigo and fluid inflammation and losing of a lot of weight.

I wanted to come to Cheon Shim Won but it became a place that brought tears to my eyes, but it was a Place I could not go to, becoming so futile. Because of the fact that I must exist eternally, I did not want to end my life. I saw so many spirits and no will was generated. An older sister I knew showed me how so many difficulties were solved through the vigil and I began to watch it... and my friend who I had been able to pay attention to for a long time, I saw that it is okay, even if only when I had the strength or heart, little by little to attend, it is fine.

So, I thought to build up devotion again and I began to organize the words and having experiences that the SW is together with trying to practice in life, and I felt hope to go to CP and began to purchase items that might be able to go to the Workshop in person.

A Workshop coordinator said that while praying a thought of UnYu crossed her mind, and since it seemed that True Father was calling, she said to enter the Workshop and shouldn't we lay down all our heart for True Mother.

I couldn't give an answer right away and with less than a month before the Workshop began, it approached as a great burden. And thinking that if I went to the TC, I would face many people. My heart beat so fast all day long, and especiall with my painful feet, I had no confidence to follow along with the schedule.

Then during the Workshop, suddenly a welling of emotion arose inside, and following that, but during a vigil, a phrase came to mind that the spirituality Workshop is hope. And while praying the phrase came to mind of my having hope through the Workshop, and feeling, 'Oh, Heaven is calling me. And even if my legs limp and I cannot follow along with the schedule well, I will offer devotion for the sake of True Mother.' So, I came to apply for the yeongseong Workshop. And on the night I applied for the Workshop, True Mother even gave me a T-shirt engraved with the sky-blue inside a dream.

For me, the Workshop's schedule was so very overwhelming. During the weekends' shimwon intensive prayer gathering conducted on the first day, when offering 43 bows of devotion for the sake of Mother, from the very first bow, my knees pained as if they would snap and after 7 bows, I felt it was my limit... The pain of the bowing became more and more overwhelming as the schedule approached. In spite of that, I could absolutely never give up.

Leaning against the wall with the heart that I will somehow at least do Chanyang, I entered into CY, leaving myself to Heaven, and somehow climbed to the Tree of Hyo Jeong, possessing the faith to establish the condition of devotion in order to establish this Great Work.

On the final night of the Great Work, during the intensive prayer gathering conducted by the yeongseong trainees gathering together, I miraculously was able to offer 43 bows of devotion in the correct posture for the sake of the safety of HMM. For me this was a miracle. applause

I came to accept this as Heaven's meaning for me to offer even more devotion for the sake of the remaining period. And while conducting 1,000 calling out name prayer for Pak Shu's health, although it was just a brief moment time, I received the grace of healing from 4-5 years of foot pain that had tormented me. Normally, it hurt even just standing for five minutes, but it seemed that the SW was together with me and telling me to put forth the entire devotion for the sake of shiyu.

Although it is regrettable that the legs returned to the painful state again once when the prayer session ended, what was truly fascinating was that when I offered devotion centered on Cheon Shim Won, I could experience the pain disappearing, especially when we offered devotion for Pakshu and True Mother. It is time I offered one-heart resonance prayer, and I could know that I was gradually getting better and absolute faith was generating in me toward Cheon Shim Won devotion.

Ultimately, the snapping, paralyzing pain rising from the soul of my feet up to my knees disappeared upon the 23rd day of the Workshop. applause

During the intensive prayer, my paralysis disappeared but my right-foot pain did not, but it has been now entirely healed, and pain with my left became only with that soul of my foot pain remaining.

This course seems to have been for overcoming the state of sickness. Pres. Lee Gi-seong's words were to overcome satanic sickness, to offer devotion even more sickening for you, more stubbornly than the satanic spirit.

So, during this time, I made a resolution for satanic spirits to give up. I have made up my mind. Even if you break my legs next time, I will stand here and cry out until the end. 'Go to HeungJN's workshop!' I made this resolution many times and could overcome this pain.

A sorrowful heart arose inside me for Mother, Who must be suffering so much more than me. Why shouldn't this grace go to Mother. With this heart I gathered devotion and am recovering more and more, and I decided to volunteer on the ansu team for those sick. I expressed sincere gratitude to Heavenly Parent and True Parents Who have led me until now and to my family offering devotion for a long time.

Although I was so difficult to face people, I wish that all the processes become over so to be of comfort to

True Mother even just a little.

Kim Ju Won

Frist Jun Yu Jon fishing Workshop. As True Father was with us, we could finish gracefully...

All the contents and meaning of this Workshop are embedded in the first page, with the full moon, making us miss True Father a lot. On March 19, during the opening, listening to PL's Words, I was surprised when he gave words about me, and I was just going to let it go, but then I felt that it was Heaven's Message and maybe I should prepare something

If you offer devotion at JunYuJon a lot of SW can come, and that place is really great for fishing. I used to love fishing, so I settled down in JunYujon, but not a lot of people did it, failing to see the light.

So, for 2 days I listened to the words about JunYuJon, and I thought to go there myself, but I felt True Father expected something great. So, I reported to PL one more time, and received his content. And he said to prepare. So, first, we cleaned that place. There was a lot of garbage, 40 to 50 bags. And every time it rained, the garbage came up. So, we gathered our strength to maintain the place, and also planted many trees and flowers.

The Place where True Father gave a lot of Words, we gracefully were able to offer a Place where even

Heaven can enjoy... applause

It looks beautiful with the blue-green roof and rocks on one side. but I had a concern about my little experience in fishing, but may just go and fish, and I told PL I would do it. But I thought that I think I touched something not easy to do. I looked for videos about fishing, but no matter how much I listened, the world of fishing was so vast and the contents were only about river fishing and the common CARP.

I had fear, but again just thought to go and just threw out the rod and sat and waited, but no fish bit. I thought I failed and why don't I just pray...

I remembered this photo, 'Father, I have offered fishing devotion, but if I don't catch even a single Carp, how can I invite members to come... and I prayed also for True Mother, and a half a day passed. I thought someone like me who is a beginning, not even a single fish would come. When I started to pull my rod out, it started to pull back and I thought maybe it got stuck on a rock or something. I thought then it might be a small fish, but after 30 or 40 minutes, it came into my hand, with the sound of Cheon Shim Won yoksa coming, I thought, 'How can I pull this up, and I just put my hand saying, 'Excuse me' and I just fell and I put my hand in to get it, and I cut myself with the fish's scales and I remember Father said He got cut also. And this was the day of the police raid, and PL said this had significant meaning, and for True Mother, let us release this fish.

Releasing the Carp into the lake again, let Mother be released from all difficulty. Let us offer applause for True Mother to be released like the fish... The first one actually was a 52 centimeter Bass and then the second one was this Carp, and at the exact time the Korean Christian CARP was created, those who caught Carp for their entire life only caught 43 centimeter, so I realize Heavenly Parent and True Father were working and also caught Golden mirror Carp and a catfish. I started to catch more and more fish.

Also, Heaven prepared a righteous person. Mr. Hirobishu san, by PL's suggestion, I talked to him. Without the fact that he went, and I put a picture of him up, and he went to visit and there is something called 'Coffee Cheli' and it was where True Mother had gone to drink it.

And there is a sister Kongmunje next to True Mother and her and her husband attended True Parents and with their feedback, we could prepare the Workshop gracefully. He invested with True Parents's and he went in charge of True Father to attend True Father, even until True Father Ascended. So he had such

memories and attended us enthusiastically and we could preapre the Workshop very well because of him.

Whenever, PL offered devotion at vigil, our elder members who attended True Father through fishing, PL told our brother to join, and he became the first trainee and that Carp is a Carp that True Father sent. He said he caught that kind of Carp with True Father. He was so happy to come and said he would do anything. So, I want to introduce this lineup of ten people for our first Workshop...

Chuman oo Elder Pastor, Pres. I Gang su, Yangchanshik Pastor, former President, Pastor Pagyonman, Kawon oh Shikwon oh Missionary, Sister Shiyo hwa Academy trainee, Chohwayon youth representative,... applause

For Sat 2pm to Sunday 3pm, we held the Workshop... They could just stay until 1am from the standard of vigil, but they stayed longer...

There were no experts, but they watched You Tube and learned the standard of actually measuring the fish and checking all the logistics... This is the welcome kit you get when you come... and also this necklace and there are various different needles for fishing... This itself is about 100,000 won... also we give the vest and a different kind of hat and a T-shirt and a CS robe. Although we're lacking, we could prepare well.

We gave two prizes for bigger fish and most fish caught. The Coordinators, 2 days before the Workshop, as they prepared the name tag, they prayed who would win to put on the name tag, and they chose (What do you think? Pres. I Gwon su was who they chose but I'll tell you later...

Pres Yang Sang i prepared the contents so gracefully...

'True Parents's marine Providence was a history of BS and Ts through which They started the Chung Pyung Lake, with small inland waters here in Korea in which They constructed a global inland community, connecting the Mamoth Rivers and Lakes and wetlands of South America and oceans of Hawaii and North Pacific.

This Providence which started from a small fishing boat on the CP Lake Site, is now continuing as our responsibility. It is time that we must inherit the Spirit of Challenge and Broad Love like the ocean, that

True Parents showed. Now embracing this great vision of marine peace inside our chest, we must become the main protagonists and move beyond the 5 oceans and six continents to establish the foundation of peace in the cosmos.

Earnestly praying that everyone moves forward along the path of the marine Providence that True Parents opened, I conclude the congratulatory address, TY. applause

Truley, in a wide range of the Providence that True Parents led was grand but I had to reduce the contents.

PL: I feel that this kind of Workshop is what True Father has been waiting for a long time, and that it is another way of resonating with True Father, through Cheon Shim Won devotion, according to Heaven's inspiration to each person's individual ability, one by one WSs are held again, and centering on the WSs, new ideas are generated showing how one's own work newly develops.

Cheon Shim Won is not just offering devotion, but just as Heavenly Parent is omnipresent, it is an amazing blessing that can gradually develop in all aspects. I have come to have that kind of thought. Therefore, with this Junyujon, I have stated for a long time, it would be good if we conduct a Workshop. applause

True Father gave the spiritual MESSAGE:

Finally, I see you fishing. Even in the SW, I did fishing. Did you know what I miss the most? It is the hen? taste in the waiting.

For the standard, matching that time, the most important companion of my life was precisely fishing. Fishing was also a Providence to me. Fishing was devotion. Fishing was prayer. Fishing was Providence that could not be omitted from human life.

Regarding that kind of fishing, there is no longer a person to inherit the Life Blood farther. Because I said it like that, everyone ran away. There are no people. There are no people. Even so, I am really joyful. I will be together with you all day long.

Fishing all day long, even at the moment when you insert the fishing float, I will watch with joy. I really miss the time when I fished with the Japanese brothers, the time when I called all the families together. They had the motion sickness so severe that they could not even move, but Father told them to follow somehow, and down to even those fellows who just sat holding on the entire time, you don't know how much I miss them.

Really, fishing was a life. In fishing, I hooked God. I met God right there. As much as I held my Breath and waiting for the time I reached the realm of nothingness, Heaven appeared right there. On that kind of day, without fail, I hooked a big fish.

I have a great deal to boast about. And if you go there, what is left. A grand record is left. That is the gift that Heaven gave. That single fish was God. Today too, you must meet Heaven. You must visit God Who becomes a fish, even as a stone, even as water, even as sunlight. Therefore, wait quietly. Do not touch only your mobile phone. Inside deep prayer and deep meditation, you wait for God Who comes quietly. Then you will definitely hook a big fish.

Down here as well, there are many large fish. There are many inspirations saying, 'I am a local Deity.' Who must hook those fellows. You must hook them. Kim Ju Won, you must properly show it. Whether you are the Director or not, you must show it right here.

Even if it is not to produce a grand record and boast to everyone. Boast that Father was together with you, understand?'

Truly, I feel that these are the Words that True Father is giving directly to me. These are the Words that brought a lot of members and elder members. It was filled with a lot of grace, but for me, it was a great burden. I still feel that I don't know what I'm supposed to do.

So, truly when True Father works, I will do my best. So, after the Opening Ceremony, we caught a 78cm Carp. I caught it a few days, and we let it go again for True Mother. And I was so moved during this time. And during the Opening Ceremony, he said the words and there was the meaning of 7 and 8 times.

And there was the special lecture from the Missionary Segyenehbu who was with True Father. Until He

Ascended to the SW, our brother was with True Father right next to Him, and he missed the time of fishing with True Mother. And when I visited him, he was already welled up with his tears, truly longing for and waiting for True Father. He showed us a lot of photos of his memory, and I felt as though I was with him during the time when True Father was here.

Another interesting grace was Academy trainee Kim Jong nam. He majored in food, and he made food for us, and all the trainees ate the delicious food, also the Korean barbeque. The next morning, we had the tasty sandwich and coffee from Hanlon Cafe, and also the boiled meats that were the first time to eat such soft meat. Such foods

Also, Missionary Chihanabu, when we offered fishing devotion, he said,

'Why don't we Place a seat for True Father and a special rock for True Father' saying that we want to do the fishing with True Father and attend True Father. So, because of his request, we prepared like this. And next to True Father's Chair, Academy trainees made this moon light with True Father's Face, and that light color was exactly the same as the moon's color.

And because we set up this Place, those who passed by, our Elder members and trainees were so moved and told me many times that they feel they are fishing with True Father.

And I was right next to True Father's Chair because I was in charge, and Missionary Shinhyunmu suddenly came at midnight, and he sat down next to True Father's Chair, and he sat so quietly for a long time. I asked if he wanted me to take a photo, and I took a photo. He said he could truly feel True Father here, and it so moves me, and all of us next to him cried together.

We prepared the video of everything:

many moments of grace

As time went on, we started to catch some fish, only counted when longer than 20 cm, but we caught only smaller ones, and I started to get worried, but PL caught one that was 221 cm. But for a long time we didn't catch anything, but we spent the time happily thinking we were with True Father. As I watched the others, CheriYangchonseh and the President were here and we were so tired, but they didn't sleep for a

second and just fished and fished, and even the next day Pres. Hayon visited everyone and complimented them. Our elder members with this kind of spirit and heart, they have led the Providence.

We say or even complain about being tired and how difficult it is, but no one said any negative words, and Pres. Yangsang said he never saw people fish so diligently even they did not catch anything. All the younger people were so tired and dozing off, but the elders had the spirit different from ours, and we were very moved... Here is Pres. Hyiyeong and the others, looking so handsome.

We have Brother Chanyongho... so old but amazing spirit, even when I arrived he was already fishing. I took a photos but my smile was not an actual smile. I got nervous because the big fish would not come, and the time was finishing at 12 noon and it was Sunday. We listened to the Gapyeong Service and did fishing and PL said he was expecting a big fish to be caught and I had a severe headache and stress and I thought I should write a resignation paper, oh I have failed. I am done. Should I report that we would continue until last week. Although around 8 or 9 o'clock, I was about to fall asleep, but a voice came, 'Are you sleeping?' and I woke up shocked, but thinking again that somebody would catch the big fish.

Thinking I failed, but at that moment, on my left a fishing rod was flying into the lake, and there was a Carp and everybody started running toward that fishing rod, waiting to see if the fish was still there, and we were all shouting together and I Ju Yon, our coordinator had a vest prepared to go inside the water and it was I Ju Won's fishing rod. Everybody prayed together not to miss this and Pres. I Won Su... I belong to Blessed Family Church in Newark(?)... and at CP Lake, I know they offer a lot of devotion, and now PL thought he must revive this to some extent and at this first fishing Workshop, should I call it my theory that the fish does not get caught by the person but the fish allows itself to be caught because of the devotion.

People stayed up completely, even I slept for a few hours, but whether it is something about the Workshop or something not enough, at the time that the bell rings, that the fish is caught, it was like that... Everyone was so catching their amazed breath and then the one in the water pulled the fish finally to cure everyone's despair with such excitement... 74 cm

PL found the meaning that July 4th True Father was imprisoned and then released innocently, with the 74 number True Mother will be released innocently as well like Father...

I was able to not write the resignation paper and my headache disappeared and I became healthy. I was about to kiss PL, but he seemed too startled that I couldn't kiss him, but when I think about it, everyone had some kind of competitive heart, but please someone catch a big fish... When we changed our heart to cheonshim, then someone caught the fish... And he received the biggest award from catching the biggest fish...

From 10am to Kibayashi san caught 35 fish. And he said to catch a big fish, you must get rid of the small fish. So, I caught only those kinds of fish, and then I believe because of that, the big fish could be caught.

testimony: While fishing with True Father together we were able to reflect again upon the path of deep devotional prayer that we must go, and in my heart it felt like True Father was really together with us, and with the soft moonlight sky, I could feel True Mother's Love and Bosom. As the senior approached, moving across generations, it was a time of grace and devotion anew upon the marine Providence of True Parents

As I climbed to Cheonseongjon after about 50 years, with those here and Professor I yo Hwan during my earlier seminar years came to mind, and a hot emotion crushing the depth of my chest. From the afternoon to the dawn of the last day that I cast the rod even the fish didn't appear, recalling those days when True Parents changed his name, I was feeling that Heaven is helping someone as lacking as myself, and I was able to finish with deep gratitude and emotion, and moving forward I hope to see more members experience deep inside thier body the True Parents Marine Providence...

So, after the Closing Ceremony, for True Mother's release, we also let the fish go... and it swam in the water again...

These trainees revived themselves and want to inherit the elders' heart, and they are working diligently not only in other WSs, but also overseas. These four on the left actually found even before the Workshop began, I fished but I never fished with the heart of devotion to Heavenly Parent and True Parents, not just a fish practice but a practice of understanding Heavenly Parent and True Parents's Heart.

testimony: I was able to feel the love and breath of True Parents and spend the time of grace and moving heart. Especially, at the time of releasing the big fish, I could feel that Mother would return and the dark clouds would disappear, and I could feel True Father saying that that was true, and I felt tremendous

gratitude.

Although only ten members attended, it was a truly memorable time and where True Parents and the archangel are embedded and we could feel the work of True Parents. As we offered prayer and devotion throughout the night with True Father, that became the great grace to inherit True Parents's Spirit of fishing and the Marine Providence, and I hope this will be a great Workshop to nurture and raise up leaders...

Afterward, he had a promise to go to Tegu, and others had commitments, but he took a shower and came back and he caught the 47cm Carp thinking that he must show that True Father is working and he caught the 83 cm Carp the same age as True Mother and the next day, we let the fish go again.

And True Father taught about the hobby industry and this is the place to naturally be close to God and this is the greatest life that one can live.

I hope the Cheon Shim Won can be such a Workshop like this...

True Mother in 2014

Cheon Shim Won must be a help, resurrection and growth for members, ahead of the IT Industry. Develop many WSs.

And because True Mother gave us these Words and centering on PL's words, we will do our best

And lastly, True Father gave us the mission for all members, talking about ChunYuJa:

'Around here there are many large fish that are inspirational. I am sustaining that, 'I am the local Deity. Who hooks those fellows? You must hook them'

In order to fulfill those Words and True Parents's Dream, we will do our best. And the next Workshop will be next Friday and Saturday, and already many have registered... Our phone number, we will think about how to receive registrations, and I hope you will take a lot of interest.

The Providence of Restoration is the same as fishing. When the Unification Church first started, in order to manage the marine products business in the future, we brought young people and trained them while educating them. There was a lot of water in the place called Yamu. There were all kinds of rumors that a thousand-foot monster is there, or that once you enter you cannot come out. In the pond there, there was nothing that was missing, saying that one would ride a boat and catch fish in the ocean the same as God's Providence of Restoration/Salvation. If all human beings are the same as the fish, you must have good faith, tie a sturdy line and the fishing rod must also be good. You must catch by equipping everything.

The line, the bait, the technique must not be bad. Living in the world is exactly the same as catching fish. Now, our time has come. It means that we have welcomed the one time that God desired. The one era of hope which countless humanity of the patriotic era built up while choosing to go the path of blood is arriving before our eyes.

When it passes 12 at night and 3 in the morning and one becomes weary, sleep pours down and the sound of rooster crowing is heard from the distant village, but when the fish bite, the bait and the bell rings and wherever one's spirit has gone, it flashes back to alertness. It is truly like that.

Even a lightning bolt cannot be that fast. If you possess that kind of spirit, it is unmistakable. Even while closing one's eyes and snoring, before one knows it, one takes a correct posture and is gripping the fishing rod. That kind of thing takes place.

The joy of that kind of time and that taste is the way. This is the real God-style way. Father does not fish in order to hook fish. If you offer devotion, the dawn comes breaking upon the path to go. Offering

devotion is unifying the spirit, and this is a scary thing. A person who offers devotion and makes the highest effort can occupy the summit.

Only when you do work that people of the world cannot do, will the SW cooperate. If it is not different from the usual, it is not different from the satanic world and will not work. It must be unusual to work, a bolder standard when the people of the world go to the ocean, go to climb the high mountain, Heaven cooperates.

Father carries a fishing rod around in order to not lose that standard. Aju.

Pres. Lee Gi-seong's Message

There are 9 people standing in front who will be leaving to H Central and South America as a volunteer corps, and truly they offered a lot of devotion to let themselves go. And the daughter of the team leader shouted strongly yesterday... applause

In front of DC 253rd day of True Mother's detention... Han people throughout history have inherited Heaven's Will and the path of restoration of humanity, pushing forward, especially HMH True Mother as Someone Who completes this mission, or the Korean people's identity and mission... We give devotion for True Mother's longevity and health... for True Mother to not go back to the DC, let us offer devotion to reach Heaven.

There are members who keep telling me they miss True Mother's Words.... True Mother talked about the

sunflower and to be one with HMH True Mother, you must stay in that position for 24 hours, without even a slightly different angle, but all of us must stand in that position, filial sons and daughter loyal to Heavenly Parent, becoming the patriot so that Heavenly Parent will not have to continue walking the course of hardship as Heavenly Parent still is now... I hope all of us can become such children of this devotion.

Become the great hyojeong nam who settle down the Cheon Il Guk... so that even one person can come and multiply... one thousand to become ten million, but are we fulfilling our mission as hyojeong nam and pray and ask and if you ask, Heaven will give you the answer...

We had graduation ceremony as was the video shown... Our young 2nd and 3rd gen with unchanging heart moving forward, they will absolutely be victorious.

The song 'Monarch Butterfly' and as they sang, you receive more grace.

testimony - Two days ago there was an incident and the Director was buying food for someone else, and she had collapsed and had had a lot of problems physically and mental phobias and 30 kilograms, her body lost the weight and an evil spirit came face to face with her and many problems like that that she was able to liberate from...

As she called out for health of Pakshu, the pain in her feet disappeared, and even it came back, when she offered prayer for someone else again, it disappeared again. Heaven allowed our sister to feel it, and the fact that you are standing in the position where you shout, you must realize that Heaven has prepared this grace, not a simple staying up late, but a most essential aspect of our life, a time when we receive the vitality element from Heavenly Parent's Word and we receive these Elements from Heaven. This is the important time to only receive the elements from Heaven.

Some say when they cannot sleep at night, it is because their health is not well, so when they sleep from 10am to 1am... Our brother who has been offering vigil though old, when he does, he looks so young. Those who do not offer devotion have to be taken to the hospital. With the prime energy our mind and body engages during this time, and the vitality element comes and the illness is driven away.

And if you live your life centered on these Words spoken here, your body will become the Temple of God

with such abundant Blessing upon your body.

Realizing that Heaven was calling her, she came, and at a certain point the pain left. 'Satanic spirits give up! I Have already made up my mind, even if you break my leg, I will go on. God to HeungJN's Workshop.' And she repented for praying for herself when True Mother was going through such difficulty...

She became the victory of the one with unchanging determination heart for helping others, and show the world how Heaven is with her...

Kim Ju Won Director gave the report about the fishing devotion. There are so many words about fishing. And Hibuyason who did a lot of fishing, I asked him, and we made a fishing devotion tree, and now they offered this devotion with the fishing and a 90cm fish was caught. When we offered devotion of fishing at the time CP was opened, today is the 56th year 5 times 6 is the new beginning... And he caught the fish that came itself, a beautiful gold Carp, gold Carp when Pres. Yonjon shik said they only stay in the deep water and are usually dark, but he said that the fact that he caught this fish was that True Father sent this Carp... 56th year and Carp being caught has great meaning... also 78 cm Carp, fall down seven times, get up 8th time...

83cm Carp is the age of True Mother... Fishing time is the most important devotion when you can resonate with True Father... Based on what they did in the physical world, when you sing HyoJN's song, you can resonate with HyoJN. So, as our brother Hyojon Oo resonated with True Father as he said when we asked him.

True Father had Life time of devotion and He never left the Ocean Garden in Yeosu, and He said to offer devotion upon devotion, and He also did fishing in the river and the pond. He set up the tent and the elder pastor stayed with Him and offered devotion with Him. I did that once, and I could only hear True Father crying, and He spent the night.

In one boat for 21 day, True Father could not catch a fish, but True Father stayed on the ocean, and let us remember True Father's devotion like that... Presidents having the memories, and he prepared the congratulatory address.

When True Father did the fishing with him, his name meant rock and Father changed his name to water, 'You must be the light of the water' and at the first fishing Workshop, he did become the fulfillment of that name.

Our members truly joined the Workshop with devotion and found a very good spot, but there were a lot of mosquitos he suffered from, but he did catch 35 fish and received the award.

Truly an amazing Workshop with all gen there together and with 1st gen looking at the elders appearance, saying they resembled True Father.

Message: After True Father's Ascension, the marine providence fading, with no one taking interest, and as someone hearing from True Father how important it is, I shouted out, but no one was trying to form this, but PL has blossomed this Providence, and knowing this heart, this has been held as the first fishing Workshop and because it ended victoriously, it left a great legacy for the future gen. And I could not help crying, as I put out the bait, feeling the warmth of True Parents and talking with True Father all night long. And he didn't sleep at all.

The Light was coming down, and it was a moment of grace to see the hope, and releasing the fish will allow us to cast away the dark clouds and I could truly believe True Mother will come back to Cheonseong Gung... The fishing became the Alpha and Omega in this CP and a new beginning of the marine providence and create a new momentum and vision and hope for our movement and True Father feeling joyful and saying, 'Yes, that's it.' and I could resonate with His Heart and feel such joy, and True Mother's innocent release, Oeg Monsei and new beginning of ocean providence Oeg Monsei, and he resolved to bring the leaders to hold the Workshop, so please move forward with earnest heart to help them have the foundation to catch the fish (that let themselves be caught)
