opening prayer of gratitude

Most Honorable Heavenly Parent

Most Beloved True Parents of HEH

We offer our sincere gratitude for the grace and love of Cheon Shim Won which You have Blessed as the Main Hall of all Providence and devotion for the sake of True Mother, so that the entire SW will be mobilized and our prayers will surely be answered.

However, because our devotion is still lacking and we have been unfilial and disloyal, when we think of True Mother walking this difficult path, we must all become one in heart and mind and drive this Cheon Shim Won devotion more powerfully like a war and be desperate with tears so that True Father can

perform His Works.

Please lead those not yet offering this Cheon Shim Won devotion here where True Mother's Womb embraces us and we can establish the conditions so that Heavenly Parent and True Parents can directly intervene and True Father can Personally take the field, and True Mother Who embraces the world with true love amid any persecution, and with this true love we can overcome any situation, with the highest persecution, the highest position, so that we who unite with true love practice will surely succeed to fulfill True Mother's Words and the thick darkness vanish and morning of light will dawn.

Absolutely believing that this devotion and earnest prayer will move and inspire the SW bringing the day of release along with Mother's Longevity, I pray

gratitude

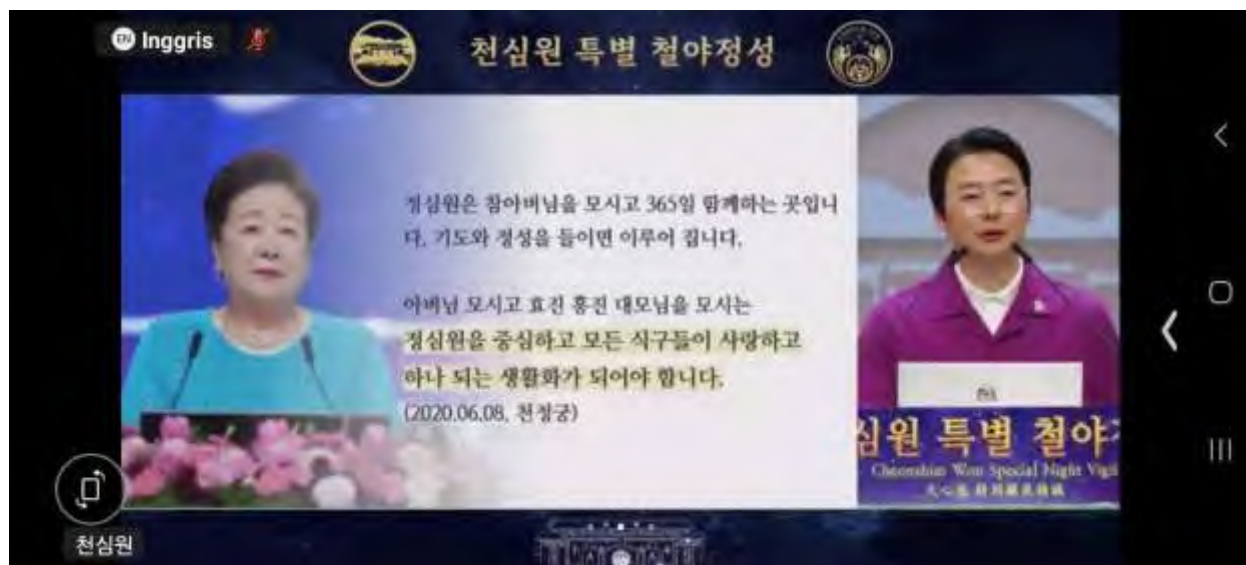

I am spouse of my beloved husband and received the grace during the 40-day Workshop.

Wife's 40-day after the Blessing, because of my mother telling me it would be good to sort myself out

and make the devotion. However, my mother who would participate with me with the heart of devotion for True Mother, became worse from her condition which had been long term, deteriorated before the Workshop so that she could not come, reminding me of my pain about that.

At the same time, I felt Heavenly Parent saying for me to offer devotion for my mother, my family and for True Mother. I felt it a great opportunity to participate

I felt grace during praying to feel the heart of my mother and True Mother overlap. When I tried to pray for True Mother, I felt lost for what to pray but when I thought of my mother's heart, words came out more naturally even in my focus on True Mother.

Until now, I did not have any particular feeling about True Mother in the DC, but then I became able to feel True Mother's Pain and Suffering of Heart and Body...

At the Hyo Jeong Tree prayer, when I prayed about why I couldn't pray for True Mother until now, I felt Heavenly Parent moved and tears coming down. I felt that at this time Heaven is hoping that the children will pray for True Mother.

Also, while listening to many 1st gen, I felt the sacrifice and devotion that 2nd gen lives because of, and I too want to build a family that does not end with my generation but that goes on as naturally as breathing air, with the next generations.

However, since childhood I questioned by I was born into this family, because my mother's wounds/illness was too difficult for me to bear and I felt loneliness.

Around the time of ten days left in Workshop, while praying I surprised myself with thought, 'Even if I were born again, I would want to be born into this family'. This thought arose from the depth of my heart.

Reflecting on the love of my mother and walking with my family and all that made me who I am today, I felt glad and moved with tears. And the time of praying for my mother and family and True Mother, I began to accept my own life much more little by little.

Looking back, I felt that this Workshop enabled me to say to myself that I'm glad this is my life. In the past I thought I wanted to live with ease comfortably, but during the prayer I surprised myself to say, 'Let me live for the sake of others, even there are many more trials.' I want to live for the sake of others.

When the Workshop ends, I intend to start my family immediately, a place where we lead each other to HPs and become closer with that Center for the true start of a family life.

I am learning how to set myself upon someone in prayer, and even in difficulty have gratitude. I want to build a family that convey love centering on Heavenly Parent and not forgetting what I learned this time.

gratitude

Chi on Kim, 3 daughter Philippine BF. 12th spirituality and 4th Attendance Workshop I completed, and I had been a young person who learned much about True Parents and Their suffering, but because I knew the weight and responsibility, I was turning away from it. But the faith in my head descended to my heart to more be willing to endure painful circumstance and I made a vow to do what I could for True Mother and able to make a new start like being born again.

I had hope to serve at the Academy, but I knew of the shortage of help at Cheju, and felt True Father would want me to serve there. But my devotion toned down, and every time I put on the Cheonshim robe, I felt to doubt my worthiness, but with True Mother enduring longer in detention, I could not go on like that. I wanted to face the things I feared most, and during the Workshop I could more overcome making commentary and testimony to the world.

Hearing that we were the last generation that could attend Mother, I wanted to do more, but I wanted to avoid the spiritual Workshop team because I felt I could not do well, and considered the team having nothing to do with me, but Heaven led me to the spiritual Workshop team, knowing nothing about cameras and ran without rest and repeated needed tasks until dawn, and even wanting to join the vigil, I

could not put down the camera with sense of my work.

Even my motivation was clear for the sake of True Parents, there were members hurt because of my inadequacies and a trainee said that they wanted to go home, and I felt I had been a hindrance to True Parents and I ran to the Cheon Shim Won and asked to be shown what I should do, and I offered name calling for the trainee over 6,000 times. In the midst of prayer, True Father told me, 'You have not been looking at the trainees with the eyes of Love from the Parents Position and as a mediator of true love.'

I realized I was to convey love on behalf of True Parents and so should not have any hesitations. Spiritual reactions occurred in prayer and I felt how important to distinguish between good and evil in our lives and create the environment where True Parents can dwell. But right after 3 days break, after 6 months, I could not go out for myself, and running around without looking at myself and an issue unhealed, it became difficult to face the trainees, and I saw myself wanting to rest and take the easy path.

'Let us not succumb to this fallen nature but surely dedicated to True Parents as a victory. M has not had one comfortable time. I felt this guidance from Heavens and that myself was still too large in me, and I needed an infinite energy, not thinking of myself but of H's Providence first is when I can move even satanic...

Currently the grace of my mother driving 40 minutes every day to do vigil. And my mother received the robe also. Although I did not offer devotion for my family, my family is giving me gifts and support, and I'm offering prayers for my sisters.

I am serving as Training Dept Director for the fifth time, and I know this is because the Providence is urgent and Heavenly Parent allowed it, and they had to turn to me.

During this next Workshop I will think of Mother Who wants to see Her children but cannot. And I think of those supportive with me in this Workshop and I will live a life that naturally testifies to True Parents and even when not a public official, my life is the same as if in a public office and I sincerely thank True Parents Who have called me to this place until now.

HJ Report

21st Spirituality Workshop

I will be giving it

Please welcome me with a small round of applause... He bows (Let's give him a big applause actually)

Hello... The coordinators pairing with the HJ Report, if we could express this Workshop in one sentence, we got this: The Workshop that brings love and unity with each other through Cheonshim devotion.

I re-read the testimonies of the coordinators, and how much we are the ones that received the most grace.

True Mother emphasized Spirit and Truth and families as most important. And if I did not offer devotion, I would not have really understood what Spirit and Truth is. I was a Theology academic, but that wouldn't have been enough.

True Mother in 2013... When I spoke for the first time after True Father's Seonghwa I said about Spirit and Truth over and over to advance. We must now strongly drive Cheon Shim Won activities where we can experience the SW. True Mother Said that the way to move forward with Spirit and Truth is through Cheon Shim Won devotion, and how we can bring about H unified Korea and world is through mobilizing/moving the SW and True Father to work.

True Mother: Cheon Shim Won is the Place where we attend True Father and are together 365 days a year, where we attend HyoJN, HeungJN and DMN, all members must love each other and make this life in reality.

True Mother walking the path of detention, She said: Forgive, Love and Unite. But those Words were already given and at the center was jeongshim won but now cheonshim won. But True Mother in this current situation added: 'forgive'

Looking around, I can see many members working for this, but if we don't resonate with Cheonshim or don't resonate with True Mother, that might bring more difficulty to True Mother and our church. So, loving and becoming one, perhaps these are the most important Words we need.

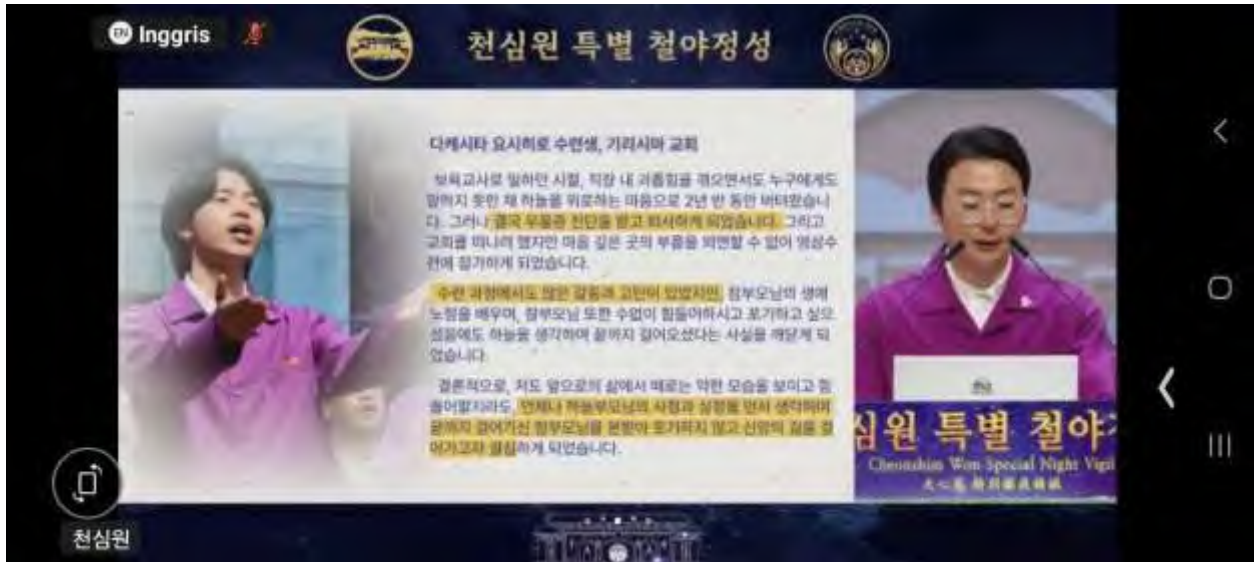

And PL said: Cheon Shim Won is not just about being satisfied to show that, but show the result, that is Mother's homework. Now we can overcome the difficulties of the nation if we all become one. The time

is now to escape from the anxiety of every world problem if we attend Mother and offer devotion.

The way is resonate with cheonsim, loving and becoming one through Spirit and Truth... We see our trainees offering praise and full of love.

video overall atmosphere of the Workshop...

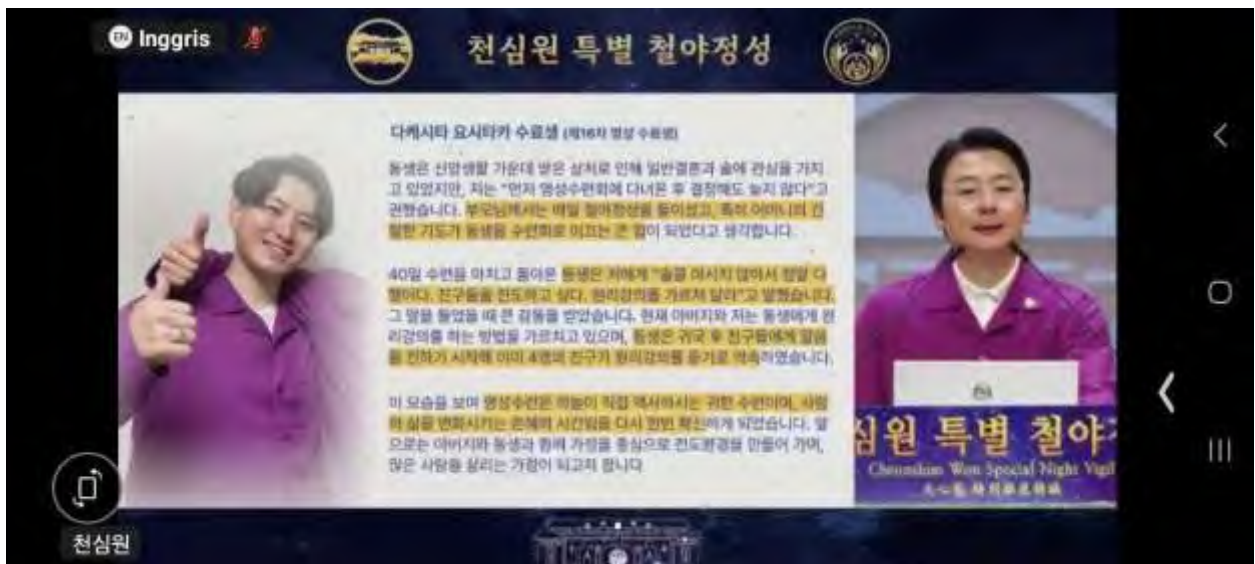

When Heavenly Parent and True Parents are at the Center, you are at the center...

The more we go, shedding the most tears, Heavenly Parent and True Parents add grace. We had special programs, volunteering and during Parent's Day, we went to Gapyeong Church and we said our elder members will not prepare the lunch, we will prepare the lunch, and Branch Leader Sakua is famous among our youth and he gave a special lecture and honest testimony and Professor Oh Gim Yong spoke of HyoJN... and 21st Youth Workshop and over 50% attended and some staffed it, and while preparing not only the attendance but also the spirituality trainees helped, and the Hyo Jeong nam Tree prayer... and PL said we should have been doing this a long time ago, but it was very graceful and it would be lovely if everyone could experience this and have change and realizations, while harboring a lot of painful stories, having been dormant with many wounds and wanting to give up, but saying that if not finding hope through this Workshop they don't want to live.

And there were trainees with deep depression without hope in their life, and one by one interviewing them about their hardship, with courage they attended, and there were a lot of miracles of change.

one testimony... Working as a child care teacher, harassment only comforted by Heaven without able to tell anyone, and wanted to leave the church but could not ignore the calling in my heart, but I realized how True Parents many times wanted to give up, and now even if I feel weakness, I will think of True Parents Heart first and walk to the end.

This person's father was a minister but after the dissolution his father said he would drink and have a girlfriend and live a free life. The father said, 'Okay, if you are to do that, first attend the Workshop and then make a decision, and his brother also attending received amazing grace. The brother was a public official and wanted to give up, but because of the Workshop, he remained. So, because of his father and brother and mother, he attended... but the younger brother had an interest in secular marriage and his

brother also said for him to go to the Workshop and his mother's devotion every night calling out for him.

Then the brother said, 'It is deeply fortunate that I am not drinking alcohol and I want to teach the Divine Principle to my friends.' And now he is learning how to teach Divine Principle, such a time of grace that now they want to be a family together that changes many lives. Truly incredible transformation.

He had a heart of not understanding the clapping and shouting... Here he is more than anyone shedding tears in the praise, and when asked he said he received the grace and made realizations, and wanted to witness to his four friends and his hands when praying for them, his hands would automatically rise. And we hope for his 4 friends. And it does not end here with the grace.

Here is his brother and father, and they will make this their place of gathering in the photo... Although there was the dissolution, this transformation...

Han Josan Church is doing a lot of devotion and this brother... found faith in the SW and realized he could be born again thanks to True Parents, and if not for coming to this Workshop, he would not have known that living on earth is a process of preparing for going to the SW. He was offering mission devotion in Cheon Shim Won and by his prayer to True Father, 'Is there really a SW?' Please answer me, with praying again and again for 21 minutes, and then he heard a Voice of Heaven Hangun Parents (This is the act of buying and selling 2nd-hand things sound) that sound repeated on his phone, but he still lacked faith from this sound...

And he was with another trainee and he said if the trainee said 'Let's go eat ice cream' then he would believe, and the other trainee said exactly that. This may seem like a nice, funny episode but to it there are much more graceful things happening.

I too when I first attended devotion, PL said, 'If you offer prayer and have 100% faith, then Heavenly Parent and the SW will answer you.'

I prayed HyoJN, I believe 100%, please show me that you are working here, and then my hair fell to my eyes and was bothering me even it was not long, it covered my entire face and then I understood it was HyoJN rubbing my face with his hand. Then I wept, 'Truly you are working. Sorry for not having 100% belief.' If so, SW would show that it works immediately. The trainee receiving amazing grace is attending

right here in the Main Hall diligently.

But please do not feel too pressured. And next testimony:

Sekita Hukinari... summary... Our 2nd child was born but there was no cry and the nurse place them in the incubator. He was unstable and body lacked strength... eventually to intensive care, and we learned he had a rare disorder for brain development, that usually affects girls and so more rare for boys, incurable with current medical technology and could worsen at any time.

By Heaven's guidance, my wife entered Magnolia hospital with him, and I entered the Workshop, hearing the voice, 'I'm sorry, this was the only way.' I felt the Heart of Heavenly Parent having to send Mother to the DC. I felt that I could offer complete devotion if I abandoned my past habits and enter a place transcending my limits, and it felt that H was saying, 'You did not come here only for your child but for a greater Will, and offer devotion for True Mother's Wish and for each and every trainee.'

I felt so sorry (and he turns away) that we failed and I prayed wailing tears every day, and now we enter a new era where children realize things for themselves and fulfill various responsibilities and roles, and this because of the Cheon Shim Won, and I have the greater conviction to become one with True Mother.

And there are things he did not share. At our 15th Devotion Workshop, he came as a staff and while talking he said, now his wife is pregnant with a 2nd child and congratulations were said, but True Father said that he had to lead youth to Cheon Shim Won, and if not another Providence will unfold. He said the good news about his 2nd child and I can't discourage him that he believes the child will be born healthy, but from then I wanted for him not to call me, but not long after he called me with his child having difficulties, and when I saw that, my heart dropped not wanting that to be true, and my heart ached. I said, 'Let's meet.' but even then I couldn't talk about True Father's Voice that I heard and could not attend the spirituality Workshop, but said just to offer prayer for Mother is all I could say.

Then I heard True Father's Voice again, that he must attend the Workshop so that True Father could help, otherwise He could not. Then I gained the courage to tell him what Father said, and the team leader talked with his spouse and parents and came to the Workshop. In that process, we were able to know that there was the immense devotion of his parents for this to happen.

But the more he offered devotion for his child, he had to offer for True Mother. At the end of the Workshop, there was the news that his child's health turned for the worse. During that process he received a call and it was the news that his grandmother was hurt in the shoulder. 'This was a message that he was again to offer more devotion for True Mother than for his child, and then he offered continual devotion for True Mother, and then the procedure of several hours during the child's instability suddenly became balanced.

Through the Workshop, tremendous grace, and through the lung inflammation and through his grandmother's dislocated shoulder, he was pushed to give even more devotion and it brought grace to everyone. The wife and child received in the hospital, he couldn't swallow and we had to take out his spit and he had to have a ventilator. If you're a parent of a child, you could fathom how heartbreaking this scene is.

PL gave special words, 'You and you wife walking the path of public mission, because you did so the spiritual Workshop said that they will pray for your child, and we added the program of 1,000 calling out for Pak shu, and this is a video of them...

Everyone shedding tears as if it were their own child, and during that prayer, a trainee, this happened... An instructor would wave his hands, but because he was focusing, he didn't even remember. It was difficult but I did not compromise until my throat burst. After 750 times a change in me. Before that it was a heart wishing for recovery but then a gratitude and joy for his recovery, as if the SW and PW were resonating and I wanted to convey this, but before I realized, I was at the front shouting with all my might, and what changed was myself.

A yearning to fulfill the will arises and even changes one's actions, and his heart just took him to the center. And many praying for the child, their own problems were being solved... After the intensive prayer, this is the picture we took. Mr. I Gi Shik wrote offering papers and attended to the very end, and because of such gratitude, this will be fulfilled and during the HJ Report, we will show this photo...

Now here is the child healed... Now no ventilator and he sleeps in peace... Now he can move his neck, suck a pacifier, and a child who couldn't cry, he cried for 7 hours and now he is gaining weight... And the father felt, 'Finally, the boy was born anew, crying like a cry of a child to the Mother and we must cry like that also for the SW to work.' That is what he realized.

But the trainees that offered the devotion for the child, Pak shu, realized they must offer even more devotion for True Mother...

720 times each calling out, 4,300 callings and here is video:

And that change started from the health of Pak chu, changed to True Mother...and members are praying for each other, helping each other with such earnest tears...

True Mother Said: A culture of prayer has emerged. These Words of True Mother saying we should love one another centering on Cheon Shim Won. Those Words are being fulfilled. The Team 7 and 1 and 2 prayed so earnestly and when the vigil ended, they would pray for each other, the men, passionately even more than embracing their wives. And even they did not have money, they would gather money together for the Offering Paper for True Mother.

Human beings were created to respond with true love with the mind and body. And there was one person who filled two of these cheonshim notebooks but in this Workshop 19 and after a certain count, they were given notebooks for free. This is almost all Korean people, and 6 made a determination to join the academy and others made resolution for their churches...

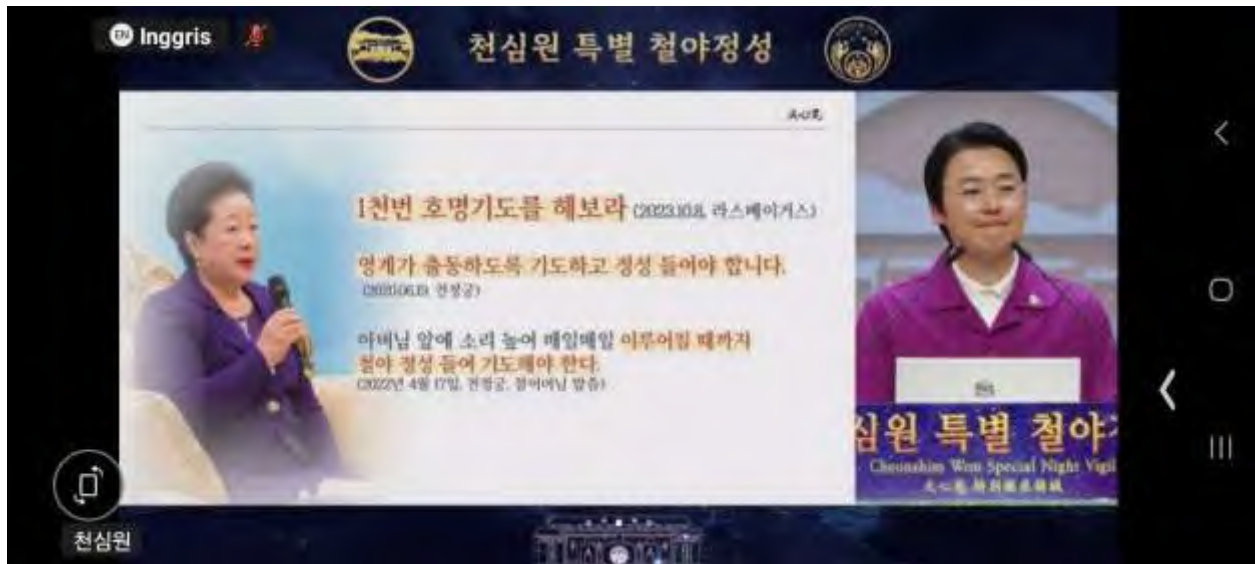

These will bring works of miracles. We must now strongly drive the Cheon Shim Won activities to where we can experience the SW. These youth will bring about hope and joy to True Mother and great revival... See these faces of these born again. Let us enter the Workshop and pray earnestly for True Mother in this Golden Age that not much is left of chance any more. Those going through difficulties, True Father is waiting and promising that He will work. And ministers, please encourage attendance of this Workshop, next one July 18 begins.

For making a new record for Mother to gain strength and joy... Let us offer this...

Break

True Parents's received the greatest persecution and reached the highest position. The more we think about that the path we go is the path we must forge through anyway and that it is impossible with our own strength alone. That is why one must pray and when we cannot find the alignment with Heaven's tradition, that is when the path of God's Will ends up either contrary or aligned.

You must realize how crucial your current position is. Fallen human beings may seem to have been born in joy, but they go shedding tears when they depart.

When one hold onto a pitiable nation and weeps, they will receive the Blessing of a notion. One who holds onto a pitiable church denomination, will receive the Blessing of the denomination. And one who holds onto a pitiable world and weeps will receive the Blessing of the world.

One must hear the Teacher and tread the path of the Principle, the Restoration Course exactly as it is an official Course and ancestors and descendants alike must past through it. True Love does not become a minus no matter how much you act upon it. It becomes greater than the input. Natural forces have an output smaller than the input, but true love has an output greater than the input. That is why it sustains itself.

True Parents poured out everything throughout Their Lives and forgot about it. Then what becomes the result of true love. The world gathers around it. When you think about how you become the Parents, suffering throughout Their Life while treading on the public path, you find yourself shedding tears uncontrollably. Who is making you cry like that. True love has the power to transcend all people and the universe and all others.

True Love is what can overcome any situation. There is not any deterioration in it. There is only completion and success. Smart people have grasped all those concepts and hold onto them automatically. Other than the True Parents, there is no one in all history's couples who received the greatest persecution and reached the highest Position.

a variety of trainees, 4 international, mostly Korean and Japanese, and 5 public officials, Pak Bok Ja, Moon Som Myeon and Kim Jong Shik staff and public official of Japan Okumaro Nami... 5 public officials. Attending Ws is very precious in this age. Through the spirituality Workshop is sort of

weaponizing themselves with Spirit and Truth...

And someone from the Hong Kong Technology and a pianist and one who plays clarinet and one the guitar, variety of 2nd gens.

Lisa Ah I trainee of Workshop for the wives. Her mother had a disease that she had to be hospitalized many times a year, but she always wished for the daughter to attend Workshop. When the daughter went to the Tree of Hyo Jeong she shed so many tears and was surprised to think opposite of 'Why did I have to be born to this family' to 'I am so grateful to be born to this family.'

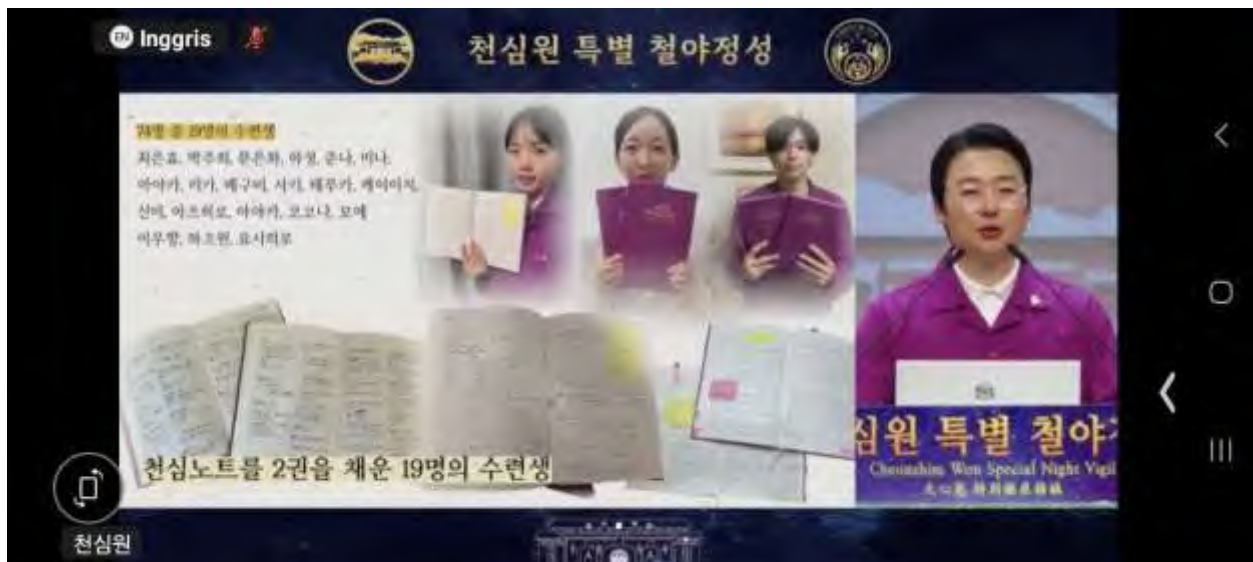

I believe her family will be outstanding, putting aside all the rain clouds.

Before coming, another testimony, of faith in her head, but that descended to her heart, and while meeting True Mother, and on the day of graduation a new birth start, but with so much difficulty starting to falter, she attended another Workshop and also academy and experienced the existence of the SW.

Many spiritual works happen with our academy members, and with feeling overwhelm and burn out, they continue one after another Workshop and academy. They are the supporting energy... As a coordinator, no space to rest her body, and an infected lip wasn't healed, so spiritual academy must encourage each other, and Special District, you must also do something.

Day and night they have their intensive prayers, and we will also do something for the academy... They are truly working hard.

Amid difficulty, thinking of True Mother who could never rest amidst difficulties, then she could endure and continue. Now, she will live a life of natural witnessing and still like a public official, although she is not titled that officially. That is why you are called 'tribal messiahs' and the academy prepares you for that.

Today's HyoJeong Report, some who sleep during that report, could not sleep because of how interesting it was. Cheon Shim Won Churches must all become one. We must deepen our roots of faith through Cheon Shim Won, we heard many times.

You and your churches must ignite the fire there in Cheon Shim Won devotion. For the situation of the church, if you offer prayer like made people, Heaven will work. Things don't just happen. The one who is going through a difficult time, you must be moved for that person and mobilize SW for them, giving desperate prayer and how to repay the debt of those who pray and labor for you, offer devotion for you.

If there is not sound, no prayer of tears, there is no hope, even Cheon Shim Won is the hope. Truly you must pray at the Cheon Shim Won.

CSG Page 179. The path we think about that we must walk anyway, and that we cannot walk it with our own strength, we must make the conditions for SW to work, Heaven and True Father to work after we do all, all we can into it.

It is time for the chosen people not fulfilling their responsibility to pray for the church dissolved in Japan. The path of the Principle is to be trodden and the path of restoration is the path to be sought and once found, one must tread that path. All members and leaders walking the path of restoration through indemnity.

We must not be swayed by society, no matter how difficult, we must walk the path of restoration and the path of true love. True Love does not become a minus no matter how much you act to give it, but the more the husband and wife will inflate and have descendants. The church can experience revival by true love. People leave churches that don't have true love.

There is no complaint, only accomplishment and we are smart people to follow this way automatically, always walking the path of true love. And in receiving the persecution greatest in history, but also we are with the Ones of Highest Persecution as well as Position, our True Parents. All people of the world will praise Her Path of True Love.

True Mother is telling us to forgive, love and unite, even those who are giving Her the hardest time, and we must be resolved in prayer that our church will not fall. And many even it is not vacation are attending and during vacation many more will flood here. We have a future.

Other churches may be growing weak, but we here have a revival to know in their hearts with tears. That is when the Heavens soar with us and we must stack this tower of devotion to build faith upon faith.

Some think that they will only attend on Friday, but there are Contents more on vigils of devotions, and if you stack 1,000 or 2 of faith, soon we will reach the age for the 21st Century Spirituality. Please have the hope that a brighter day will come...

gratitude this vigil

Please guide us with the name calling prayer of all around the world... Our True Mother OBD Who has Come in Your Substance. We desire the return of our HMH M, we cannot endure the pain of our own anger, no way to hide the foolishness and inadequacies of our path that relentlessly flood back.

Heavenly Parent, we offer this prayer with resonance and love and we repent and please help us not return to our own foolishness. Heaven please help all people come to know our Mother of BS and Ts throughout Her Life, help us ourselves realize. Heavenly Parent, please allow us to not fall astray, and with Truth and Spirit be victorious, knowing the shame and foolishness of this nation before the Life She has lived for the peace and unification of the world and N and S Korea. Who can distort the Life of our True Parents Who Lived such a Life crossing the 38th Parallel, pointing out the errors of the ideology of Kim Il Sung and the ideology of mutually shared values.

Please work for the return of the OBD prepared by Heaven... Please ensure that the day surely comes when this country apologizes and attends our Mother and shouts 'Halleluyah'... Please make them confess

the sin deserving of death, and repent and wail that She is the OBD. Please let it become such a people. Please let it be so.

Heavenly Parent, let them currently know that attending the OBD is the right and responsibility of this chosen people. Please allow them to know this. You may forgive the world for distorting our hearts but not the Mother of Peace the OBD. This cannot be forgiven...

Heavenly Parent, Please help us look back on what we have done or not for Mother at this time when She is bearing the path of detention. This is the difficult and arduous time of all of us. Please help the Unification Church families be heart in filial heart and cheonshim. Indo hashiopsoso... When that happens we will be proud Unification Church b and s attending the OBD.
