opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

This precious Day with unchanging heart we offer 1,583rd Cheon Shim Won... People offering devotion here at the HQ with the subjective SW, we gather for the release of our True Mother. Please allow our shouts to be pure shouts of pure gold and may our authentic devotion bring about the works of our True Father. Allow us to separate the fallen nature from ourselves to attend our HPs, repenting of our sins and overcoming limitations, so that 1st, 2nd and 3rd gen can move forward for True Mother and with the blazing belief of True Father and True Mother's Love, convey our hearts as direct children of True Parents, gathering all these words,

My main son is a public official and second daughter is in Zambia doing mission work. I had a heart to return to offer devotion for True Mother's release.

I received my husband's permission to go to a first and second Workshop. I had a dream where True

Mother came to a place where missionaries were gathered. She seemed to want to say something, but instead had to lie down on a bed in the back. I never thought Mother would ever be in such a situation as She is now, and recently when there was a helicopter accident where my son was serving, True Mother came to mind and said, 'When the accident happened, angels came and protected it, and not a single one lost their life.' I wish it would show how the SW worked through all this time, how Your devotion reached the Heaven by Your dedication. You must guide the way like that. This nation must attend Heaven, and you must help those who do not have direction.'

A scene came to mind. Before that accident, I had seen True Mother descending from an airplane, so impressively. He was carrying a burden several times larger than His own Body. Then I felt that I could understand the meaning of True Mother's Words and that I must offer more devotion and go to the 40-day. Of all devotion, I believe the greatest is at the Main Center. So, I resolved to live a life of practicing true love and offering devotion at the Main Center. I believe this is the path that Heavenly Parent rejoices in.

When I prayed with tears, 'I'm sorry I came so late.' I offered devotion to perform activities well, calling out, 40 bows, prayers for my church family and over 210 prayers for PL and my eldest children serving in public office and 1,000 for my children not yet receiving the Blessing.

Meanwhile, I have lived my life by seeing the devotion of the trainees, academy and 2nd and 3rd gen. There was a day I received congratulations because of birth of my 3rd gen grandchild. While offering devotion, I fell asleep. It was the crash again and the people in an uproar looking at the crash, but there was True Mother lying in a painful state, 'Why does no one recognize me' And such regret came to me. The time was 3am. I prayed, 'I'm sorry I fell asleep. I will offer 3,000 name calling prayers today.'

The following day, when I heard the news that M would be in the hospital longer, I felt such gratitude for effect my small condition may have made. I was looking at the paintings with artist Kim Bu Seh and it was a reminder of how we should live in this golden age of Providence.

I also was able to go on a Pilgrimage to the Korean War miracle fighter jets, and here the significance of Gapyeong, and I could feel deeply the Providence of Heaven to send True Mother to this land. Although our devotions are small, I hope our conditions together can effect for unification of Korea and True Mother's release.

I thank all church leaders and officials and members, PL, and all my family who offered devotions for me at home.

a 2nd gen from United Kingdom... My father from England and Mother from Japan... I currently lead CARP activities in Japan and joined in the participant and leader of this 40-day Workshop.

When I first joined my motive was simple and personal to offer jeongseong with my new wife, I truly wanted to focus on my wife, but I then gratefully accepted a leadership role asked of me.

Over the course of the Workshop, my wife and I offered many forms of jeongseong together, side-by-side leading the Workshop. I never truly grasped the divine importance until this Workshop. Going to the Tree of Blessing together, devotional prayers, bows...

By attending vigil not with a logical mind but sincere heart, I could come closer to the true Essence and love True Parents have given us and cry out and resonate in a way as not before.

Through this I came to realize that to be one with True Parents means to carry a parental heart toward everybody. I began leading differently with the trainees as my children, getting to know each, their birthdays, picnic and movie night, sincerely wanting to love them with the Heart of True Parents.

But despite my best efforts I was told were not satisfied with my leadership, that I was arrogant and I was in pain to pour my heart and not be received. I struggled not to feel resentment and discouragement.

But it was at that precise moment that I met Heavenly Mother. One of our elder sisters came and said, 'Ally, are you okay, and gave honest, positive feedback how I could improve and then gave me a big hug.'

In that instant every feeling of resentment and self defense vanished, and instead just wanting to do better. Only through the love of HM could I resolve negative feelings and grow. This experience brought my home country to mind, a group of brothers and sisters who deny True Mother completely, becoming deeply confused, where they deny True Mother and Her Words entirely, so deeply confused.

Whenever I have conversations with these b and s, they see Her as only someone pursuing power and I have deepest regret for the pain to True Mother and True Father and Heavenly Parent. However, what I experienced in this Workshop showed the power of True Mother's forgiveness and love beyond logic to understand, but must be experienced by each one. Then I was able to forgive, love and unite.

And it is with this experience and the lectures of Moon Im Sung, that I want to return to help these b and s return to True Parents/True Mother and not just True Father. Moving forward from this Workshop, I resolve to do my best every day for True Parents with all around me, just as True Father loved Kim Il Sung as a Parent, I will strive to love those around me as a parent for a child.

Finally, in the face of conflict I will call upon Mother for the ability to forgive, love and unite and spread that Heart of Mother not only in Europe in my CARP mission but throughout the world.

I Have A Dream

a dream song Tanshim, meaning You, God and I have a dream

True Parents Words: Heavenly Parent, through the human ancestors... Heavenly Parent wanted to be a visible Heavenly Parent, that was God's Wish and Dream. True Mother always asks, 'Do you know what True Mother's Dream is?' and what Heavenly Parent's Essence is. I wondered why True Mother speaks of a dream.

True Mother explained that True Father said the Family Pledge is our prayer but when we see verse #8, True Father left a goal that we must accomplish. What do you think the goal is? I think it's unity between humankind and God. That's what I think.

A while ago, we sang country roads, and the meaning is in a state of Virginia, because my Mother is there. I want to see my mother. So, True Mother enjoys this song because of that.

video with the song Country Roads...

See the lyrics changed. I was a little astonished all standing up and singing together and seeing this, coordinator Pak Jong Yong led and we ended up singing it four times instead of once. Then they like the early days, they would just dance of their own volition. And DMN said a time will come where we liberate spirits through clapping, and I saw that with this scene and True Father was here dancing with them and our ancestors were happy.

During the graduation ceremony, I shared some words, and they had a DJ and rock, and Heavenly Parent's dream I was happy to see fulfilled with dance first, becoming one with the children and dancing

and fulfilling the ideal family, this Heart of Heavenly Parent. Do you agree?

So, the F I know, True Father, is very creative. So, we would sing songs of pop culture and turn them into holy songs. So, True Father, didn't... Prayer in essence is calling upon Heaven and speaking with God, creating moments in your daily life you become attuned to Heaven, we call prayer time, more moving than spoken prayer, dance can lift you to a realm of sacred mystery. So, concepts throughout this Workshop was offering prayer through song and in Cheonseong a lot of praise, and F said the 3-day is a spirituality Workshop condensed into 3 days, and many said it felt as though they received the extract of 40-day.

And many could feel True Mother was working in this Workshop. And on the mugs it says 3-day Workshop, and to those who came as a couple, we gave these cups. And all the International Office staff would come together and talked about the design and much effort to making these...

It says 'You're mine' 'I'm yours' 3-day Resonance Prayer Workshop

True Father said to offer your heart and devotion. Director Chun Jin Ah and our staff have a lecturer, Melody, and they are touring all the churches in Korea. So, here many members joined the central witnessing and Cho San Jun...Philippine have their own dialect and Mr Cho San Jun would offer lectures in that language... and it was so nice for them.

And during the tour, on this foundation one trainee came who was working a part-time job would not go to the 40-day no matter how much the mother wanted, because of one of these touring lectures he did resolve to go to Workshop. applause for our Philippine members and lecturers.

We just had our second resonance prayer Workshop here and about 200 people were there and during opening there were not even 50 people but 220 registrations, so I was anxious and suddenly at 8 o'clock they came at once because of delay with a traffic jam. So, such a graceful start... At the center Philippine families and South American also, international members.

We attended the Cheon Shim Won vigil together and had a Pilgrimage and to Holy Ground with the topic and breathing and frame-making and one-heart prayer and intensive prayer and a special lecture about harmony between Cain/Abel and love experience with H Mother...

sketch video

Those who are free are free indeed. In our Father's House there's a place for me... I am chosen not forsaken... I am who You say I am... You are for me not against me... " " Whom the Son sets free is free indeed... In my Father's House, there's a place for me "

(It is up to us to change how there is no concept at all through history of the Heaven Mother God... When the words as not changed as Mother directed, to reflect H Mother, to help heal the pain of Heaven Mother Creator Parent's Heart not to be known through all of history. How many of us have sensitivity for that every time it is once again ignored that only 'Father' 'Him' 'His' are the words that again go into us along with the music that always goes in., I 'feel' pain, like punched and keeled over, and I couldn't continue to type for awhile... But Heavenly Parent showed me to look more to the whole content of the Cheon Shim Won that IS leading to have this heart and change the words. And that's what I needed to see the Cheon Shim Won vigil do after Mother's Earnest Direction for that)...

Songs are so, so, so vitally important, as Mother directly said to us...and how is Mother and Her Word more vitally important... This Cheon Shim Won is to bring everyone around to changing lyrics as the examples were given and as the experience testified to by trainees was so powerful... after making consciousness (and also making lyrics not just sa6 'God' more vaguely, not just 'Father' but super Parents both Father with Mother revealed in the now) making the energy of the music about Heaven Mother and Her Love, also motivated by feeling Her Pain... The words we use to make it about Mother and Mother's Dream that is True Father and Heavenly Parent's Dream, now centering on True Mother, OBD, HMH, Wang Omma, absolutely needed with our faith and attendance to bring all to conclusion.

True Mother at this time is the One most tragically ignored, hated, persecuted, attacked, suffered... In the testimony She collapses and says, 'Why don't they understand Me? Why don't they know Me?' We need to understand and know HMH True Mother, and make every different we can for others to come closer to knowing Mother.... and the Workshop was to serve for trainees to have their own experience that makes the immense world of healing difference of the Spirit and Truth times together... So, I heard from Heavenly Parent and had that experience of comfort and healing hope for how Cheon Shim Won vigil Content obeys and honors True Mother's Direction every time... Heavenly Parent gave me what I needed

to see and hope in for how all are taken care of, protected and loved into the future...) letting the moving music bring them to change the words so that we bridge the gap to H Mother, True Mother, HMH... where there was no concept at all for all the history before that and in every-day life everywhere, and with the popular songs of our cultures that is the environment that all of the trainees will return to... and are to lead the way, sensitive to the needed difference for change... So, we should not use one example of not changing the words to justify not doing it again... because which brings more comfort and attendance to True Mother at such a time as this...)

one youth's testimony: It was like experiencing the microcosm on earth that allowed me to know the love of HPs... both True Father and True Mother

one youth's testimony: During the singing praise, the first song I realized God is not just good, but God is our super Parent... and only after the Blessing life has more life and color and meaning, with my husband together... and the song 'You raised me up, God has raised me to more than I can be and how powerful to realize the Mother's Love for that. That filled me with gratitude to Heavenly Parent and True Parents...

With the song 'I have a Dream and when thinking of Heavenly Parent, I cried tears for Heavenly Parent and dreamed that His children would realize His dream but also felt how His children kept disappointing Him and waiting for them to realize His utmost Dream... Last song, 'You are doing better' thinking of the Elders and pioneers and I am really grateful to them for their sacrifices and being with True Parents until the end, and even our sisters and brothers who underwent such suffering in Korea but remained faithful and so thankful for them, and all because of the love of Heavenly Parent and True Parents and HMH... and bravely to go back and we have the family festival and I believe it is a meaningful, grand homecoming for all of our members in Korea and give comfort and joy.. TYSM Kamsahamnida

This person we interviewed cried so much that we had to keep cutting the video... When I led this praise prayer and seeing them singing and dancing, I would laugh and cry with them and I thought about the Chinese characters of 'resonance' and how to say. So, when a baby cries and the mother cries and no one resonates more than the new-born baby, and being to see all the husbands that would laugh and cry together and attend the vigil devotion laughing and crying together. I truly thought perhaps singing can bring about the prayer easiest. We sang I have a dream changing the lyrics a bit

I Have A Dream (He says, 'Those older may know this song... We changed, the Heart, the Spirit, the lyrics...)

I have a dream, a song to sing, to help me cope with anything... If you see the wonder of a fairy talk, you can take the future even if you fall... (Think of Heavenly Parent when you sing this song and it becomes very different... Centering on Heavenly Parent, we sang it with a new interpretation. True Father, as He made pop songs be changed to holy culture, so I believe in angels is changed, so I believe in the human ancestors Adam and Eve, so insert your own name, such a way, we changed the lyrics so truly HPs Heavenly Parents' Love is there. I have a dream to become the Parents... I have a Dream to help me cope with anything... I believe my children, and you can take the future, even if you fail... Truly, Father and Mother using the bodies of Heavenly Parent, what They showed us was to fulfill Heavenly Parent's Dream...

Let's hold hands and go together... So, truly we can feel that through the song and truly members can feel, 'God, is singing this song through me, for me and they receive the grace of healing. And songs that came up in the testimony... I love U, Mom. U R my Father and Mother. (A Christian song) God is Good. I love You Lord. You are my Father and You are my Friend, but Christianity didn't go to the extent that You are my Mom, so we changed to 'You are my Father and You are my Mother and many felt that Heavenly Parent is here, He is here for me.

(Okay, leaders are guiding to change the words not just Father but to Mother, which is most important and the original melody is beautiful but different from Cheon Shim Won... song is the prayer to receive Heavenly Parent's Love and we would do this meditation while walking, and when True Mother emphasized 'I love you' 'Kamsahamnida' and if you repeat these phrases, H fortune will come to you. And if you say and sing in the Principled manner, that is give and receive action. You exhale 'TY' and you inhale, 'I love you' and this time I did it with standing bows, going down saying, 'I love You' 'TY' and members said their hands warmed up and they felt healed in that short time.

And this lady, Taiwanese, named Lena, and after the Cheonshim breathing, what happened was, whether going to Mother's Path or the Tree of Blessing, the flowers and plants would come and talk to her. I met her and they went back today, and she had come to me after the mother came to bring her from being shy... a little ill before that. True Father said if your resonate with HPs you can converse with nature and this daughter continuously communicated with nature and in the middle you can see here what she gave

me, symbolizing H Father and H Mother... and in the center is a four-leaf clover... So when you resonate with HF and HM, good fortune comes your way.

Testimony

The deeper my prayer, the more energy and my body temperature heating up. In my busy work life I saw the moments of missed opportunities that had been given by Heavenly Parent and True Parents. I wrote the words, 'The more lacking you are, the more Heaven performs its works and they prayed with deeper earnestness, and with the Heart of Heavenly Parent, performing one-heart prayer, there was the grace and here's a video highlight of the intensive prayer...

Using AI, he made a video

(Young and old, all colors praying so intensely for other...)

Director Chun Jin Hwa... Cain and Abel must become one in order to meet their Parents. by achieving this, the parents can hold their coronation as the Kings of Peace, stand before God, and guide the entire universe.'

So the trainees with such a heart would embrace each other...

In August from the 14th to the 17th, centering on Philippine members, this is the Dream of Heavenly Parent, and especially international members for 4 days would have a Family Festival. Please offer much prayer for this, for PL and all the staff and international staff preparing for this. TYVM

Offer devotion of hope, devotion of glory and devotion of attendance... As people on the earth, we must be liberated on the earth. It is not God Who created the complex situations, making it so that you are in conflict wherever you go, and so that you are dead wherever you go. It is work to remove the wild roots, scrape away the blemishes and help you cast away your fallen nature quickly.

Therefore, the more complex and multi-faceted it is, the faster you can rid of the fallen nature. The Unification Church aims not to only save the humanity on earth, but also liberate the spirits who came to this earth and gone to the SW and are still trapped in hell, still bound to the iron chains of hell. This is the ideology of the Unification Church. That is why we discuss and come forward with the ideology of chunjudwin.

Chunjudwin does not happen through any legal condition. It is impossible until a filial child appears who can move God to tears, and through understanding God's Heart, restore all the historical 'han'. However, it is not possible through filial children alone. Only when a family appears and says, 'God, Jesus as an individual Son forgave humanity.

And now we as a couple become God's family, a couple who are God's son and daughter have united and stand in a position of offering atonement, please save even the spirits who have gone to the SW, can that work become possible. Only with families united can we liberate the entirety of humanity in the SW and in the PW.

This devotion is not on the realistic stage of daily life, but we must offer devotion of hope, devotion of glory and devotion of loyalty and devotion of attendance. Only by leaving such devotion behind can the Heaven realm of True King Parents become my Kingdom of Heaven and my Father and Mother. The devotion until now was the course of indemnity but the devotion of the future must be devotion to attend Heaven. And it must be devotion to participate in the position of attendance.

We who participate in this are of the First Resurrection, who possess the Contents to be able to comfort God, Who has been coming forth in sorrow, and participate in this story of devotion of sorrow. To

become a filial family of filial children, patriots, saints and Divine sons and daughters, you must from now on live a life of living in Heavenly Parent's Presence and Life not of my path or someone else's path. If you don't go, then you'll be obstructed in that world.

'Let Us Prepare for True Parents'

Pres. Lee Gi-seong's Message

welcome and congratulations

Worldwide we are about 41,400 members gathered

Today in Zoom there was a technical issue and there were 1,000 but now only 100. Next time we will prepare better so there are no obstacles...

H Korea is offering its devotion with global family H Japan 14,500 locations H West Africa 56 are attending together and Cameroon and H North America and Poland, Malasia, Thailand, Philippines and Taiwan and San Francisco Church...

252nd day at the DC... We will not let anything get us down but offer devotion with BS and Ts...

Today, in H Japan, Church leader Otsda Message:

With 21 people this is a one-room apartment with many apartments around us, so that we cannot make noise and stop our hands when we clap and only lip sinch to call out and we whisper as if under ground...

When just ten people not as weird but with 30 people it is more strange. and when on camera we try to show our nice, bright appearances and show that H Japan is okay... In this difficult time, offering devotion in such a manner, Heaven will remember it and it is precious.

The reason why we started Cheon Shim Won vigil, before that we had 5am meetings and when we heard there was vigil at the church center, then church leaders of cheonpyeong and women leaders we learned the significance and offered it at the church, receiving much grace and even now we feel spiritual problems being resolved. And hearing the testimonies of the day, we feel inspired.

And although we cannot gather in church, through each family we are about 100 each and youth borrow big karaoke rooms and offer the big, loud devotion. That is how they are doing it in Japan...

These contents will be rewarded in history.

Today was graduation for 190 and 104 extended and from this weekend we will begin 245th Workshop and how big a grace to attend this Workshop, and for many people to join the Workshop we must offer devotion.

Today Cameroon offered the praise Monarch Butterfly... We are the direct children of True Parents, they confessed in the choir. Our True Parents have the most direct children in the cosmos, True Parents coming to this land, a Blessing that guides us to the path of eternal life and rebirth again. And worldwide, through the vigil devotion and spiritual Workshop more are being reborn and resurrected, and we are witnessing these works. The world through many children of True Parents, we must have the thought that we are entering the era where all humanity is entering as siblings.

And one my children (one of PL's children?) went as a missionary to Cameroon and he got malaria and he passed away Chan gwa Yong, and seeing that centering on True Parents our early elderly members who are ancestors of our families moving out to the world, through them, please feel the hope that the world is becoming one through the relationship of parent and child. The one with the most direct children is not Buddha or Confucius but our True Parents, the most Authority Ones of human history.

We heard the testimony... her husband a leader in the church and the older sister who spent such a long time in the GPP Workshop, she is amazing, and to nurture church leader Kim Jon Uh... and now she is in

Zambia offering calling out and devotion and I believe that will bear fruit.

Message from Maria Song: Andrew Vonda, Zambia Ambassador today wrote his official membership form. So, an Ambassador entering the church, that is not easy.

We should cast negative thoughts that it won't happen, and we will be able to open an age of great revival, and missionary Han Ah Eh, to put into practice the words of Gapyeong restoration, she entered two WSs with all her strength, and stimulated by the appearance of the young trainees, and she is a grandmother now, and receiving that grace, she went to the hospital to look after the 3rd gen, and she feel asleep and the re was a plane accident and True Mother was collapsed and True Mother said, 'Why cannot anyone notice me' and she felt pierced by an arrow.

And they say dreams that wake you up at such a time, 3am, have significance. And why does the media not understand True Mother, and even the headlines cause unexplainable anger. The media and politicians and people of legal authority cannot understand Her, so She goes through such difficulty. Without even Gapyeong understanding Her is too much and She had us hold the cultural festival of March 29 last year.

We must make politicians and media of Gapyeong County recognize and attend True Mother, and all the leaders in GC to attend True Mother, for them to be a fence that protects HJ Cheonwon. I hope you offer more and more devotion for this. To find this Gapyeong County, how many youth made sacrifices and going to the Memorials. And the more we looked around there, we realized how many shed blood for this County, and it shows that if you hold on, miracles can happen, and for all the people to understand in politics, finance, law and leaders cannot ignore True Parents and attend Them with proper faith. Our voices should be risen for this.

And in the dream, 'Why don't people recognize Me?' and may this be a new day to offer devotion and attendance for that.

'Wings of Cheonshim' so many youths offering this praise, doesn't it give you strength in this time of difficulty. The more they gather, the more strength there is, and if we have many trainees even with no place to sit, that will be a new source of strength.

Allister Couf, gave his testimony, a CARP leader in London who became the Workshop leader and he

offered his efforts through devotion with a parental heart, but the trainees didn't understand it and made complaints with resentment.

But with the advice of the elder sister, the first gen, even then he would embrace them with a parental heart, after receiving Mother's Heart through that sister so sincere and earnest.

There's no Father without a Mother. It is a precondition for each other. And the words we read today has such contents. And we are not only to save those on earth but in the hell in the SW. That is why we discuss 'cosmos universalism' chunjuhwin... resolving a historical 'han', but it has to be by a couple and family, not as an individual son or daughter only... not only by the son Jesus, but we now stand in a position of atonement, so please save the spirits in the SW. Only when families unite can we unite the entire SW and PW... Page 1,099.

Jesus has no record of saving a single spirit in the SW from hell, but now there is True Parents, but if you deny either True Father or True Mother, there is no true live, life and lineage, and for F's mobilization, that is why we offer these words. To those who deny True Mother, we must bring about the works of True Father's mobilization.

testimony of HJ Report... truly the 3-day is where international families spent time in harmony, and as a continuation in August there will be an international family festival. And perhaps the families that passed away will come too.

True Parents's Words today, in offering devotion it must be of hope. True Mother offered devotion to fulfill Heavenly Parent's Dream Her entire Life. She laid a standard for that for us to follow after, for the wish of Heavenly Parent and True Parents, with hope for that Wish fulfilled.

In the contents of our prayer, we must see the standard of hope. If we have the hope of the individual only, it does not work. We must have the prayer of offering for True Parents Who Lived Their Entire Lives. Heavenly Parent is not only the God of the Father but of the H Mother, and that Temple of Glory was established through devotion that moves Heaven and that Temple is the Cheonil Sanctum. You too must offer for the glory of True Parents centering on the glory of HMH and the glory of each family through that.

For your name engraved in the Cheonil Sanctum wall, you must have unchanging devotion of loyalty about H Parent and True Parents.

and offer devotion of attendance. True Parents did Their entire Lives.

There are many Words about Attendance, with a new heart every day to return the first hour of the day, offering Their entire Lives as Devotional Offering, Attending the Heavenly Parent. All the contents of a prayer are to be the contents of attendance, so what do you desire. For what must I do for You to be happy?

Not forgetting that Heavenly Parent is with Them always walking together, always keeping Heavenly Parent in mind. So, what is the teaching of the Unification Church that is to pierce our bone marrow, it is to receive salvation through attendance, to attend Heavenly Parent and True Parents and parents in the family. And living like that well, these teachings of the Unification Church, we didn't teach for it to be ignored. We never taught to resent and complain. Those who resent and complain are the first satan.

So what is the merit of the Unification Church. Within the family attending your spouse and to bring about H on earth and H in Heaven, with attendance H can remember. With more gratitude than the food you eat, a life of attendance. A life remembered by others... having a heart of longing and they shed tears. When they see delicious coffee and food, they shed tears with a heart of attendance, a life of tears and with methods, by-laws of attending. And if you don't live by those by-laws, then there is anger that follows.

So, a life of attendance is a life of offering for Heavenly Parent to receive all the glory, and with a cross I will bear with a heart of love (and joy) devotion of hope, glory and attendance. It is True Parents's request to offer such devotions and become victorious with is. Because we fell there is such a course... It is not that Heavenly Parent is making complicated situations, but the more complicated the situation, the faster the path to liberation indemnity it is.

It does not work on our own, but like a shell with many barnacles, you don't even know what it is... There are whales with barnacles that people try to take off for them. We cannot take off the barnacles on our own. The True Parents Doctor came to take off those barnacles, and to the people on earth of so many

dark spirit barnacles, it is the CY yoksa that takes them off, and you must believe that this is happening and by knowing this grace.

And now is the time of living like a day of a thousand years of gratitude and take off these barnacles... That will lead us to cheonshim, and only then we can truly attend True Parents. Without separating dark spirits and committing many sins, you cannot attend True Parents... Please make many realizations and determinations... TYVM

Prayer and Praise

25th day 4th month 14 year of Cheon Il Guk... Gratitude to You for directly presiding of this Cheon Shim Won... over 42,000 have connected with the heart that moves Heaven for swift return of HMM True Mother to the Palace... You said that You walked that path not only to avoid shame before Heavenly Parent but also before the countless spirits. Mongojinsunga is Yong Guji Wan ja, The King of Eternal Glory, This has been the Life of True Parents Who taught us through Their Own Lives that One Who Overcomes Ten Thousand Sufferings becomes the highest King of Glory, not harboring resentment for the history stained by the resotation of indemnity of the Old, New and Completed Testament, You unraveled the tangled knots as if unraveling threads, taking it upon Yourself as the Responsibility of the True Parents.

The Life You Walked adding suffering upon suffering that no one could accuse was never a Life desiring the glory of presents, but for the sole purpose of liberating our Heavenly Parent, our pitiful Heavenly Parent, for realizing Heavenly Parent's Dream and Desire upon this earth, for the sole Purpose of Attending You as the Creator, Heavenly Parent, as the eternal Parent of humankind, for the sole purpose of realizing the eternal world of peace and opening the future of hope, a Life of Blood Sweat and Tears.

And yet, Beloved H Parent, Who can liberate of pitiful True Parents, Who can liberate True Mother. Beloved Heavenly Parent, we must not remain merely as children who recognize True Parents's hard work, but realize the circumstances that True Parents walked for the sake of liberating the Will and Dream, and we must become those who take on that path in Their stead.

True Mother, who created the place of training the talent and hearts of the next gen, the Words of True Mother are being fulfilled, True Parents Who would not leave the HD Room and go directly to fishing for 35 hours, true children are emerging who are offering the devotion. It has been said that the eternal inheritance of True Parents is Their Heart. Please work and bless us so that we can truly know that Heart...
