1,584th Cheon Shim Won

prepare song

True Parents's Dwelling Place

Bow and Pledge #7

opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely TY for permitting this 1,584th Cheon Shim Won and allowing us into the embrace of True Mother's boundless love.

True Parents have said that the most pitiful people in this world are those who do not know the SW. You taught us and led us all our life, asking how we intended to make our way through the path of the SW

which is blocked layer by layer. You said that those who do not know the SW are so pitiful that one cannot even bring one's self to scold them.

You warn us that those who know the SW yet pretend not to know must truly bare responsibility for it. Without the devotion of Cheon Shim Won in this age, how could we have resonated with the subject Partners of the Heavenly world and moved forward as object partners of the PW? How could we have overcome and been led to this time and Place. How could we have been led with tears and prayer as You lift us up again and again through Mother's Love?

Beloved Heavenly Parent, You have testified many times through HJ Testimonies and Reports that, when the measure of Cheon Shim Won is full, You will surely perform Your Works. Therefore, we will offer this devotion earnestly with one heart and mind and our faith strengthened even more this day. Please receive it and move the SW mightily so that all Truth may be revealed and for the swift return of HMM.

Please work so that may march forward to the Era of Cheon Il Guk and all attend Heavenly Parent in substance, with all offered for the sake of HMM True Mother.

Kim Guy Yon of BF gratefully attending HMM

Testimony

Hyo Yon Kim 2nd gen

Hamyong Church

Like other ordinary 2nd gen, I went to church because my mother went and to WSs when there was a vacation... and at the Workshop I learned more about Heavenly Parent, but returning home and at the military a grew more apart. I had kept the question, 'What is a 2nd gen and how should I live?'

Humble faith, the responsibility of a 2nd gen and trying to fathom the Mother's Heart were among the things I was realizing that cannot be expressed in words. I came to more realize the relationship of Parent and children 2nd gen. I was agonizing over how we as 2nd gen of pure waters of the Purpose of Creation should fulfill our filial piety and achieve the hyojeong of true love that children must fully offer.

As I organized my own thought, I reached some conclusions, but they did not touch my heart deeply enough to stand on my own conviction. Then at Cheon Shim Won I offered 40 bows with the thought of completely forgetting myself. As I offered bows, trying to offset the thought of my mind, strangely enough, from the point passing 26 bows, every time my head touched the floor, the words that I was happy kept coming. I was happy. I was happy.

After the 40 bows and eating dinner, I had a confused heart wondering what this message could be, and I realized why I had worked so hard during the Workshop. I had always kept the thought that Heavenly Parent was with me, so I smiled, devoted myself and tried to love people because I wanted to make my Parents happy.

I realized that every effort of mine was to make my Parents happy. Realizing this, my body began to tremble wildly and I could not control tears, running to the Cheon Shim Won and able to experience true love together with HPs. I heard, 'I am happy you receive and rejoice in everything I have given you. Even forgetting Myself, I desire to always be with you. If you have the desire to share that Love with Me even just a little bit, I will embrace you, rejoice and cry with you and be with you forever.'

I can boldly confess that what I felt was True Love and I could understand the meaning of that I was happy. I could vividly feel with my whole body that Heavenly Parent had always been with me during every moment that I had a good heart, comforting me and encouraging me.

I am no longer at a stage of faith where I choose whether Heavenly Parent exists or not, or whether I

believe or not. I can simply testify that Heavenly Parent is with me through true love. Since then, this Workshop as simply been a process of solving my own challenges regarding how to put this realization into practice and how to develop it further. Therefore, I look back on what my true love was during the Workshop.

I always tried to smile because I wanted to make the people happy, everyone I met. And when I saw the trainees who were insincere in the Workshop, I didn't understand them, so sometimes I felt angry. But when I tried to understand them with Mother's Heart instead of judgments and offered prayers for them, while listening to lectures, I sat in the front row, thinking that, if I showed that of listening from the front, other trainees might sit in front with me.

I participated in rehearsals brightly and diligently, hoping that the choir members would love each other and I volunteered to deliver the comments during the praise. I continued to go out for witnessing practice because I wanted to know how to share love with people in society.

Although I had impatience and personal feelings in my heart at times, I realized that in the moment when I was trying diligently, I received the saying from Heavenly Parent that I was happy.

I realized that the heart of simply wanting to be together with purity, whiteness and pure gold, having a heart that enjoys giving joy, and faithfully fulfilling my role in fulfilling harmony and peace (is filial piety), and when I return home, I will practice and realize the true love more, starting with my own family. My father often looks lonely. Now I will practice the true love I have realized to have conversations with him that will please him, eat meals together with him and watch movies together with him to make him happy and showing him my smile always.

I will do my best with each and every member of my family until our home overflows with love. My ultimate goal for the restoration of my family is for the whole family to go out for the vigil devotion together. Realizing that I am the central figure of my family, I realize that if I express my joyful heart of hyojeong to my hard-working parents, and gratitude to my older brother and sister while offering devotion, I will surely be victorious.

Also, even when I go to church, I will practice true love by warmly greeting each person without discriminating, and vy volunteer street cleaning or visiting nursing facilities and other activities, I will

openly say that I am with the Unification Church 2nd gen who practices the true love of HMM. that expresses true love, and by doing this and spreading it out, I want to be a person who contributes to the H unified Korea when I have matured more.

Although I am returning home now and have to return to school, I have resolved to attend the 40-day spirituality Workshop this winter, to offer true love and greater devotion for True Mother. Until then with the heart of HJ and the heart to become one with Mother, I have pledged to move forward while practicing true love and building the Heaven realm on earth. I offer glory and gratitude to Heavenly Parent and True Parents of HEH for guiding me to realize the joy and happiness of true love, and I will become a person who spreads the love of Heavenly Parent, and he bows to the audience and to HPs.

'Wish'

Testimony

Uri Che

2nd of two daughters... I've completed spirituality Workshop and presently am in the Academy. I suffered from a cleft pallet and another (?) disease and had to receive immediate treatment in the hospital. My mother would take me with her to Jeonseong and offer devotion with me. Through my parents devotion, I've been completely cured and live a healthy life now without any particular issues.

I naturally began attending church following my mother who was a seonghwa teacher, by her way of

living... but a faith closer to following than being my own and as I grew older, my mother recommended the 40-day Workshop for the sake of my faith.

However, I did not like group living or group settings at the time, and I refused, even saying I would absolutely never go. Then, hearing that a younger friend was going, I participated in my first 40-day with a lightened heart, since she was going. It was a time of new learning for me, but also leaving behind regret and disappointments because I had trouble adapting and could not properly adapt a life of faith when returning home.

With the regrets deep in my heart, I returned again the following year, this time with more resolution, offering 120 bows every day and HD. I did not know about the vigil devotion, but a friend told me and warned to make sure I make my mind up firmly before going.

I was so surely, so I attended and I saw many praying while calling out with resonance tears, and I was moved that people could be this earnest, and wearing the purple robes when singing the praise not like a simple song, but like a prayer, and I had desire to be like that too, and I looked forward to it.

The resolution to attend the spirituality Workshop came and I entered the 8th one. Through it, I received much grace and at the Cheon Shim Won prayer time that was most moving, I realized how important it was to pray while calling out loud.

I realized I was a person lacking in really living for others, and that the academy was such a service learning, I wanted to be of some help, no matter how lacking I am for True Parents and the members. And I'm currently in the kids cafe team. At first, I was very fearful and worried if I could adapt well, so I took those worries to Cheon Shim Won to pray.

'Heavenly Parent, please establish my mindset correctly so that I can welcome the children of True Parents who visit the Kids Cafe.' And now, thought fatigue accumulated day by day, I can welcome the children well with a sense of gratitude and doing my best.

The Academy students each take on a role and contribute to the vigil hours. I majored in make up, was asked to contribute that way during the vigil hours, even I had not done makeup on others before.

However, a heart of gratitude welled up in me, and I could be happy to be of help to Heavenly Parent and True Parents and those who give testimonies here. Joy and happiness overflowed by being needed and by those who were so pleased when looking in the mirror.

At the same time, I felt glad that my efforts were not in vein. Looking back on my life, there were days that I wanted to collapse with increased physical exhaustion, but I believe in the reason why I was called to this Place. I still feel that I'm still so very lacking, but then I strive to work from a lower position. My heart to treat everything with true love is still very lacking, but I will learn more because I want to move away from being a self-centered person, and love others first, share more and spread happiness.

Although I am lacking, I will surely move forward to become the better child of True Parents. Gratitude...

Japanese 40-day trainees

'As Time Goes By'

HJ Report

Education Center Direct

Kim Myong Ok

Welcome and thank you and I love you.

True Parents Words: The # of spirits is far greater than that of people on earth. Do you know how vast the SW is? Have you ever thought about how many people are in the SW? It is calculated that on average 3,320 spirits follow each person around. Nowadays, modern people who don't have belief in the SW, Inkabias Broadcasting Station in Korea and Shamans would come out on TV saying, 'Ah, that's because there is a ghost/spirit in you.' And I was astonished, because people don't have belief in the SW, they use these broadcasting stations to spread awareness, so KBS and SBS have similar contents.

So, I believe they are saying about the central spirits with us, spirits clinging onto our bodies. There are many spirits on our bodies, but how to liberate them and send them to the SW as AGSs, and how great a gift and joy to be able to do this, we cannot fathom.

True Mother said: 'I know there are many members who have gained hope and happiness from the liberation of central spirits. You must govern the spirit world and only then will the negative spirits receive education and become good spirits, thereby making the world an earthly Heaven realm.'

Not long ago, I went to the Kongwondo Wanju Church and a couple came for consultation about their daughter and it was so shocking when they shared. Here is a video:

Last Nov. 23, Director Kim Myong Ok, and I had been having the inclination that there was a member of our family who participated in the Injin War in Korea 3,000?years ago, and I kept feeling a kind of resentment and my back was hunched and my legs were bowed in a 'O' shape. So, I received ansu, after which my back straightened significantly and after returning home, countless small red spots kept appearing all over. So, I asked my husband to take pictures.

At first I didn't notice, but after two or three months around the end of December, the spots looked like a face of a crying woman. She was naked and her belly was protruding. I realized that my ancestors had committed an act against the Korean woman, and how deep her resentment must be.

When I looked at my leg, another woman appeared to be oppressed, as if her neck were being oppressed by a man. I could feel Mother's Love through Director Kim Myung Ok... grateful and we see the photos of the woman covering her face and the central spirit sticking its tongue out and then the absolute goo spirit and her back straightened a lot... And through the recent visit we could share the testimony.

We saw many struggling like that and True Father said 70% of the diseases would be healed if you go to the Workshop even if you don't go to the hospital... the resentment spirits came and if you repent and wail and roll on the ground, all diseases will be healed.

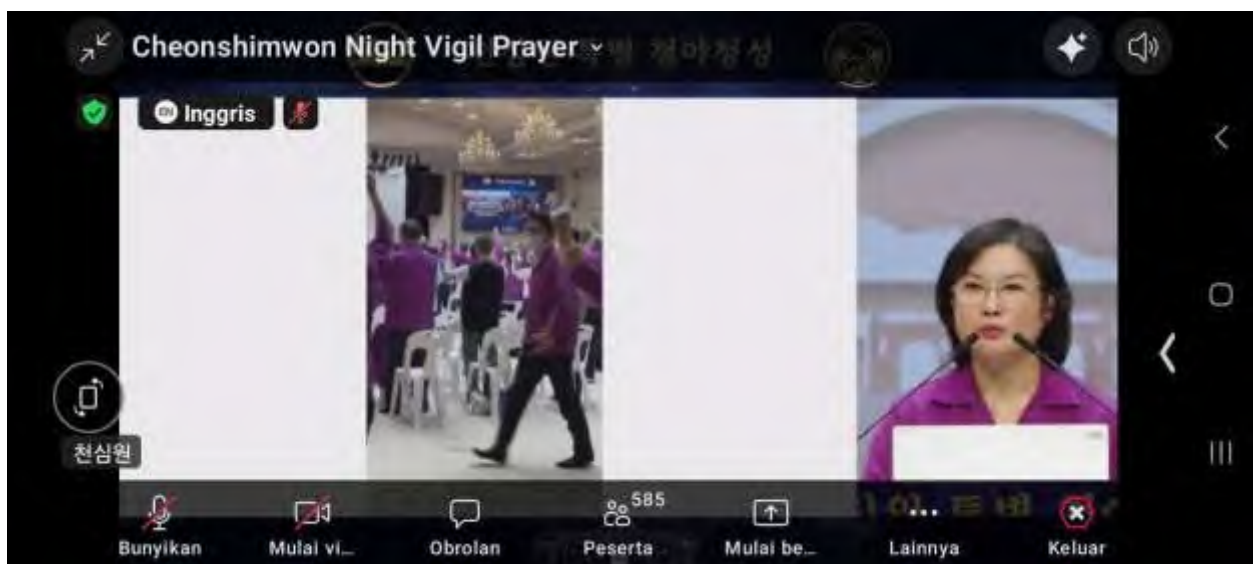

This other brother has a mental state that turns to rage and violence, and to heal the child, the father works so hard and when he earns some money, he will bring his son for the healing. And when he came, the son had a very bad face. I said, 'I really miss you, did you miss me' And I said in Japanese Habashi, lonely... and then he said he missed me (She understands me)... I said I didn't think this was a mental illness, but told him it's not good to roll around and hit his father and we promised to give him ice cream...

The father said there was a time when he would act badly before his son and use bad language and anger. From the beginning of the Workshop I would go together with my son to the holy ground, but then there were times when I would see him getting up and going on his own. And there were times at devotion when he would come up to the front and wander around, but now I can see him offering devotion with the heart of concentration.

As a parent I felt that I need to grow my heart according to what I realized. And the son said, 'I went to the holy ground and participated in the devotion diligently and I will go back to Japan and work, and I will come back in autumn. TYVM.' And the father bows deeply and then the son also bows...

The son went to Japan while I was on tour. And one of our staffers said I should video call him, and it was very natural 5 minute call, and at the end he said, 'Oh, I will come again.' At first, there was some rage in his voice, like the Japanese 'Idonai' 'I don't need it' but then that descended to melt to a very friendly conversation, not awkward at all. And many of our Japanese missionaries said, 'Oh Kimdara... 'You can do well.' waving. So, we all became one and cheered our, Mr. Suki... He was very violent at first, but then like angelic... And I am going to treat him as though he is healed.

I told his father to educate him about the right way to behave, and now he is still and doing vigil diligently and his father would always message about how he is doing and here is the kana about the Korean and I would answer and give suggestions. If I go strong, he goes weak, and if I go weak, he goes strong. So, we will try our best and if you see him in August, please hug and encourage him... to Mr. Suki and his father...

Kim Song Ho Minister, we talked about his son... and if you see him, please love and embrace him. His father said ansu is amazing, but the power of hugs and grace is also amazing.

The father said his son followed the instructions to do devotion and visit the Tree of Blessing and Love and drinking water and with the busy schedule and when we came to the TC, I demanded a lot from him and he returned and when I asked who is the subject of the Workshop, he said, 'Dad, brought me to the Workshop and then he understood after a while that he is the subject and think that is the factor of his training. Sometimes ansu makes people turn away, but with the flames of the Holy Spirit I watched him change (sorry I couldn't hear translator well..) Heavenly Parent gave the grace of Cheon Shim Won, and I want to introduce this grace also to the people of the world (and the son makes a heart with the father)

Please embrace Cheongyeun when you see him... 'Free Hugs'... video applause (The father also got so much brighter, seeing his son change, getting strength)

'Praise is the flower of vigil devotion' At times, we are so focused on praise that we don't realize our tears. The arts, songs, opera and drama. This is something beyond what is needed for young people who are full of vitality and to release the stress they have received in wrong ways. And the hobby industry, I'm looking even at that.' F said

And I tell many trainees to do the bows and Hoon Dok Hae and go to the Holy Ground. Looking at True Parents's Words, I believe that all those devotions have so much significance. Ancestors must sequentially offer bows for the 1st generation so that the ancestors in the SW can have their resolve. After thousands of generations offer bows, the condition must be established that all family members on earth have attended and bowed together with their ancestors in their house, only then is the way opened to cut off all relations with resentment spirits from the SW that have infiltrated and joined in the victorious liberation realm of True Parents.

For that we have to offer HD devotion, become one with the Word so that there are no shadows. If there is even a slight difference between mind and body, a shadow is cast. Even if there is a small gap in physical life, there is a shadow. Because a shadow is cast, a father and son and daughter cannot become one. You must hold Hoon Dok Hae every day and night, become one with God's Word and Words of True Parents. They say resentment spirits run away when they hear the Hoon Dok Hae together with the

family. Please have faith in this and go to the Holy Ground.

The Tree of Heart, offering prayers of reporting there, to see Blessing for all things and also prayer of gratitude and go to the Tree of Blessing to inherit that realm of Blessing and come down and drink the water of Life and the Tree of Love in the center of everything. Why was the Tree of Love in the very center, and I asked while circling the Tree of Love, and I received, 'It was also Adam and Eve's fall, the center of the Garden of Eden and Tree of Good and Evil, do not eat that fruit, and the restored Garden of Eden, at the middle also is the Tree of Love and the symbolism of the Tree of the Knowledge of Good and Evil.'

So, the conclusion is that you must pray and inherit Heaven's True Love. So, I tell trainees to circle around the Tree of Love and offer prayers of repentance.

True Father: In the future, physical activities will be important because it is the only way for young people to release stress. If they do not release stress, Satan on the ground will act, turning them into pawns of activist groups and all kinds of acts/accidents will occur. That is why we have to exercise. And if we go to the Holy Grounds, we exercise and offer prayers. So it's two birds with one stone.'

So, you must go to the Holy Grounds for the purpose of listening to music, and at the HGs, you lay yourself down or empty yourself. And when I educate them in such a way, the trainees say that the nature, the grass, the flowers, the wind is greeting them, is talking to them on the way.

And 70% of the body is water, and we need to fill this, to circulate and relieve the stress.

True Father said: Food and also water is delicious. Water is delicious. If you work hard, you should drink once or twice an hour, and if you sweat a lot, then you should drink water 24 times.

So, doctors recommend a different amount of water, depending on your body weight. But generally, I am encouraging trainees to drink two liters of water a day. True Mother said that there are many treasures here and PL must find them. And he found the Tree of Hyo Jeong and also Mother's Path and established these things.

And now, many members are walking Mother's Path with bare feet, and one day people from society will

come and do that also. At first, there were so many stones and sand and PL himself would clean the path with brooms. And PL would ask, 'Did you walk bare footed?' And they might say, 'No.' But how refreshing it was when we did so. They are saying that the feet are the 2nd heart, and if your feet are fatigued then it feels that your entire body is fatigued.

At times it feels like my eyes would pop out and I cannot even walk. But at those times, I would massage my feet. And as I do so, fatigue is relieved. Every trainee, we give different homework... walk ten thousand steps, go to the Tree of Life... go to the Holy Ground and prayer and CSE vigil, and I hope mentally and physically you improve in health. And I emphasize to have a hobby.

True Father: What kind of time is it that because the computer has arrived, you can do work anywhere in foreign countries, and now there is time for hobbies to relieve your stress, and in that position, you can live your financial life also. Please do not catch depression and other mental diseases.

So, our 2nd gen pastor now in Haso Family Church, many attended...

The daughter came with her mother for her mother who wanted to be forgiven for her entire life before going to the SW, and what blessing would that be... Going back and forth to Korea, I wanted to make a fresh start... And the daughter could not stop crying during her mother's ansu, and the daughter was grateful that her devotion was not in vain and that Heaven was with her... (The mother for a while was dormant and with the daughter's devotion, she returned)

testimony... I thought that the family was finally sanctified and I registered two devout Christian witnessing candidates...

Last month, surgery on her arm as an artist, but it was healed... and another... regret for not being filial and 'I'm sorry. I'm sorry. I'm sorry.' And she was able to overcome depression... and a deaconess... Father and Mother, Thank You for healing me... mother suffering from shingles...

The difference between American and Korean and they say 'Get me this. Bring me that' But because men are simple it is good to say sometimes, 'Let's go see the flowers'

injured in the lower back... with ansu the pain disappeared... gratitude... son in law of Pastor Han Ji Ol,

upstanding family, the father works in public office and the son works in the church Pajo Church...

Hanam Church is where Kim Jong Su Pastor is, a small church, trying his best. In the sky there was a cloud, and asked AI to embellish... and it really looks like a dragon.

And here she offers amazing music. she went to Samu University and then an even better one and she is still improving.

healing... and True Mother opening the channels for healing and to allow us to meet Father here. It is something we will long remember and treasure to open a new generation of Hanam, and a Blessing to live in the same Era as True Mother, and Blessing to Director Kim Myung Ok and we know that what we need is spiritual leaders of powerful influence and we know that at Cheon Shim Won, Heaven is there and we need a paradigm shift for the spiritual state of the cold Christians and the people of the world who are losing their faith and only this can awake the slumbering church, and let there be a tsunami to realize through Cheon Shim Won that if we do not live like blazing brilliantly in the dark, it is not like living.

May we live so that True Parents are realized upon the earth and attended with all hearts.

2nd gen pastor... look at this candle, the flame is stacked in three layers... If you offer much devotion, then holy candles will respond. Members are offering much devotion... I am grateful to attend special Workshop and understand what kind of era we are living in and knowing the work being done beyond Korean, in Africa and the world, and moved by the healing and the warm kindness of the members, and I want to come and look forward to every service, also by the pastor's sincere sermon... and the Ambassadors for Peace want to come, and we could see that the pastor's wife would completely offer prayers that we let ourselves down and truly live according to the word.

And by her prayer, I felt hit in the head. Though we say we want to be one with HMH, I could see that my attitude and heart was lacking and fake. My attitude toward my husband was fake...

And this missionary about her husband's healing but he would not come and then she received an answer shouting, 'HMH TY' and then more grace... Now instead of saying 'Ouch, ouch' I can get up with ease...

This time the service moved me deeply... Offering name calling before, and perhaps because of that I

shed many tears while seeing the spirits liberated...

And from now on I see the importance of offering vigil devotion with our family to become the church we need to be for HMH...

Seeing the grace of Cheon Shim Won in the field, I am deeply grateful...

applause

Break

Busking

Hoon Dok Hae

Even if you do not sleep at night, make effort into practice. The Word in terms of the human body is the spine. If the spine is misaligned, all diseases come. With the publication of the Cheon Il Guk Scriptures, we are aligned with Father. How much of the Word of life will this be to you.

There must be no one who is thirsty. For the sake of your ancestors and descendants, not just for you, if the scope expands with us, the shadows of darkness will naturally disappear.

While you are alive, you must help at least one person know True Parents of HEH. It is the reason we are alive. You must not forget that. Without that, your life also has no value. When I think of that one day feels like a thousand years to Me.

Regarding Father's entire historical Life, the Word we leave behind for our next generation is important. I want to organize Father's Words into the Cheon Il Guk Scriptures so that you can carry them with you

every day, just as Christians carry the Bible with them every day. I want to make Father's Words, the Cheongseong Gyeong, the Chambumo gyeong and the Pyunghwa Gyeong, may these Books never part from your bosom.

Because many lives can be saved through these Books, They are tools. You cannot imagine what precious tools they are. Since the Word has come forth and saved humanity up until now, you must realize it as a tool that saves lives.

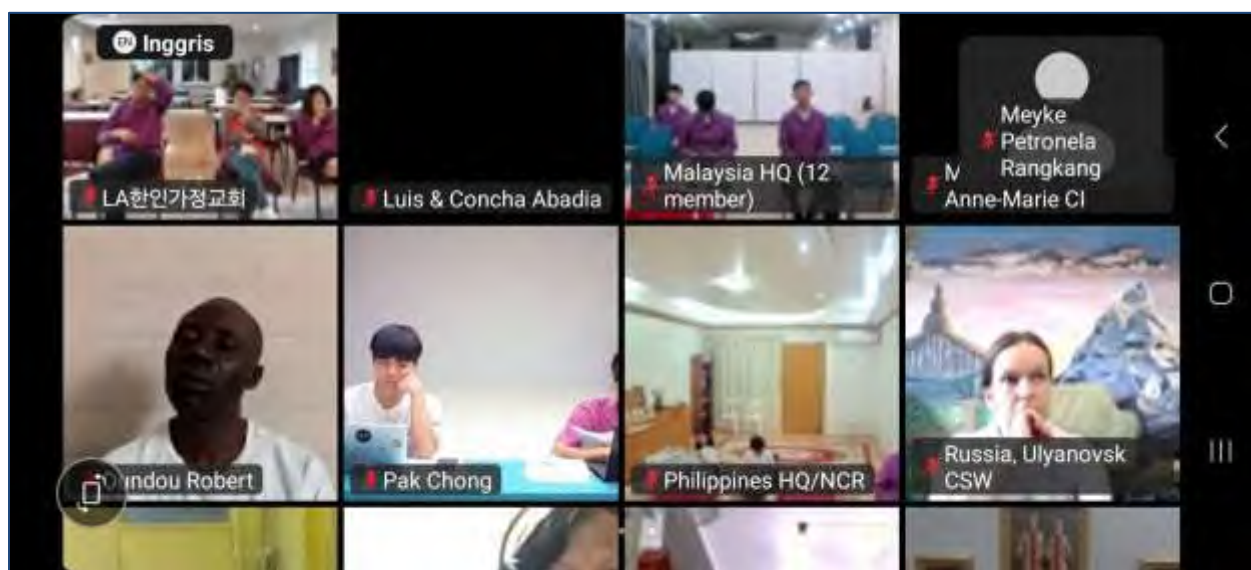

You must liberate your ancestors. You must resolve the resentment of your ancestors, create an environment to be free from all indemnity, engage in witnessing diligently. In witnessing, you must stake your life and pour out all your energy into it. To do so, I have Created the Cheonseong gyeong and Pyeong Hwa Gyeong, which are like the concentrated Essence of the Word.

Now you must become people who, even if it means not sleeping at night, work to save even one more life.

HJ Praise

Cheonshim Choir

'Our Promise'

Pres. Lee Gi-seong's Message

Welcome and numbers

reflection of 4 days here: 'Heavenly Parent loves me as I am' and a few people sent testimonies:

May 19th our 600th devotion, and with no location for all the members to gather together, we gather as 5 or 6 in our families but together 90 plus attended. For us to be a church that brings happiness to True Mother, we offer.

I always watch on You Tube, but today I watched on Zoom and could see the many around the world offering devotion, and could see we are the church that is amazing... Amid prayer, the words of wishing for True Mother's return come out automatically and he was strengthened to see all the people offering together.

H Japan is offering devotions in their families, gathered and praying and holding hands, and we could feel our hearts becoming so strong truly as one family and hearing True Mother, 'Let's go until the end together' And we could make resolution again together... and the seeds of devotion around the world will grow...

So, rather than offering devotion alone, the more we can gather the more strength comes to each of them...

And at the DC it is quite cold, and offering devotion together the 'Han' people went through many trials, but that did not defeat the people but got them actually more united and the crystallization of responsibility and spirituality, to them the OBD was sent and an Era of the Providence of Heaven was opened for all humankind. For Her we will offer even more heated devotion.

362 long term trainees and many are entering the next 40-day. And our 6,000 couple Pak Song Guk couple, his fourth year of entering every May, and last time Pak Chu Sa Mo Nim writes poetry and she gave me many of them. And I hope you also will write down your poems and realizations.

During this time she would sweep Mother's Path:

As I hold this broom I see, yesterday I broomed diligently and I see the sand and bugs and as I hold my broom, I see my path and I see Mother at the end and when I long for Mother I go to the Tree of Hyo Jeong and She is sitting there and I see the clouds and my eyes are tears. Nothing is forever in this world, and when I broom there is a slight wind under my feet and light opens...

And she is composing these poems and every may they attend as a couple... applause

Kim Hyo Yong today from Hangnam Church, he was diligent in his life of faith except after the military, asking, 'What is HJ and how am I to live, and with the mindset of forgetting his health and offering bows, heart pounding and tears, feeling the grace of Heaven, the conflict of whether God appears or not, he felt the true love with his body.

Has everyone felt the grace of Heaven like this person. When we sing the holy songs, not feeling the rain of grace that Heaven sends, and just ignorin and going on... but his brother tasted the grace and tears came... and works will surely come about...

Whether to believe or not or go to church or not, you must go through these conflicts quickly so that you can accomplish a happy family. And this brother would smile and sit in the front and told himself he had to be a model. There are those who sit in the back and if they do something out of order, thinking no one would notice. But you must come to the front for the most graceful... truly offering devotion with a concentrated mine, then that is the place for you. Each person, their position is different. There are those who just close their eye, and those who stand upside down. One young man without knowing, He would come out in front of everyone and shouting out praying, and he didn't even know he was doing that.

I hope you can find that prayer that you lose yourself to suit yourself. This brother resolved desire for his entire family to attend devotion, and he said he was the central figure of his family and he must also think of himself as the central figure of his church as well, meaning to volunteer the most and do activities and participate in the Workshop training.

Team Leader Kim Song Oh sang 'Wish' that True Mother likes very much.

How much devotion must the mother have offered for this daughter to have the full recovery of her health and to go to the Workshop. How heartbreaking to hear the daughter say she would absolutely not go to the Workshop, and how much more devotion did she offer. How many families have such a situation, and also the path opening for the parents own faith when they give their all for the children...

Because of not being able to separate from the fallen habits, she had the regrets in her original heart and made more resolve and was even more moved seeing the others praising with tears of sincerity. She wanted to be like that, she saw her true desire.

Director Kim Myung Ok shares the touching testimony, upon the foundation of Cheon Shim Won devotion, amazing works... Today's True Parents's Words, even if you do not sleep at night, make effort to let the world know of True Mother, Who emphasizes the Cheon Shim Won vigil devotion. Of course, mobilizing the SW is important, but more is knowing the Identity and Value of True Mother and True Parents is the Essence of that.

Through prayers of resonance cheongshim... and over 300 sessions of that prayer, Heaven will absolutely work and give you ability and to them we gave the HJ staff. So, the staff doesn't have the ability of power but only with the people who resonate with Cheonshim, the staff will help, so all of us must stack higher the tower of devotion, becoming one with Spirit and Truth and make a church that is alive and breathing so the the scope of goodness expands to light away the shadows of darkenss of family and church and nation...

Right now, the reason we are living is to spread awareness of True Parents and without that our life has no value. We must keep these words in mind and heart and know devotion through experience, AFL and O moving forward to know the great works of Heaven, these HJ Reports belief upon belief.

You must always examine if your towers of devotion are rising higher in strong foundation, rise and go higher. And once you all fulfill these words... you will have your own testimony

Deaconess Kim Ki Sun would hang on to me and keep talking her experience of Father when she was praying and she would brag that she offered deviton of 1,095 days of Workshop and has such profound experience. How important this TC is. You must know that and ascend to the position that Heaven desires of you. So, you must examine yourself, 'I can't go on like this. Even I received the Workshop, I couldn't separate from the fallen natures.' To become such a child, you must offer your all.

A 73cm fish was the truly happy time when he couldn't close his mouth. And Rev. Ohyung also caught a very big fish with the help of Father. And tomorrow there will be another fishing Workshop and if they catch a big fish, they can offer the service, and we can take it that Heaven is preparing our victory...

And as we revive this fishing devotion, a national messiah of Japan said we could use his land and have a Workshop there. And he caught a very golden fish and took a picture and sent it to me. Mother and Father when they caught a big fish, They took it as a sign. So, please do not languish for Heaven to work, and for that time, I hope you give your prayer and devotion.

Prayer and Praise

Rev. Yokoi prays

We must hear the voice of Father saying, 'Please mobilize Me'... For H unitified Korea and Japan and America and world, each family living for each other, actually living in such a way making families of true love. We will not be self-centered (as the world) but always centering on true love and thinking of Heavenly Parent and True Parents becoming full of joy, let us always act upon that, chosen people, Blessed families with the great Epic education, let us teach the Heavenly Parent is alive and working, let us boldly and wisely proclaim our True Mother, HMH, as the SW desires that, let us actively know the SW, and be owners of Cheon Il Guk, all members gathered as one, I pray....
