Most Honorable Heavenly Parent

Beloved True Parents of HEH

TYSM Today at this hour at You open the Gates of Heaven wide. TY for directly governing over

Please allow us to open our hearts wide, like a little child and to become the inheritors of Your Heart Heavenly Parent. Please allow us to use this time of devotion well.

Throughout the Providence of human history, because human beings made selfish decisions, it caused disconnection with You. Please allow us to eliminate the fallen nature and allow our hearts to resemble Your eternal Nature so that our physical body will become Your Body Heavenly Parent, and our hearts to

become the moving heart with Yours and such an example.

All members and churches must become one and fulfill Your every Word. Let us become deeper with the absolute Value of You spread throughout this world. You called us and as Your children let us attend Them as the center with utmost sincerity. Please work through us.

Your have nurtured and prepared the Han people. Please nurture and protect this people, and through the chosen people's Epic, allow Your Will to move forward.

Especially H Japan, please comfort them to be one and move forward with the patriot heart. With all our strength and energy and heart as one all of us from around the world cling to You and offer our praise, so please bestow Your Answer that we can offer victorious results to You.

The Mission, the Will You have Desired, please allow the righteous people to come and become one for it. We truly hope for True Mother's longevity and safety...

HJ Report

Secretary General Kim Jong Oh

Wonmo Scholarship Foundation

Since one year, I stand here with gratitude to Heavenly Parent and True Parents

and to PL, especially through vigil for HMH, True Mother's well being and for the entire SW to be mobilized.

Our vision and activities

True Parents's Words... I ask that you grow well in all aspects to be the sons and daughters that Heavenly Parent will want to embrace

So, True Mother emphasized after True Father's Ascension that nurturing future gen needs to be our focus. Receiving scholarship will be the future talents, and this seed of peace will find the water in the desert. So, we have supported many students and are nurturing many...

HJ PA Scholarship supports international people coming to study and be the future leaders and core members of the network. 29 of them received the scholarship and returned home. Nurturing is a main activity we do, and we try to create a positive cycle, so far 24 times, and now they go out to the world.

We are expanding our criteria, choosing more than 7 from Sun/Moon University and from Russia, and one person said they will study a lot to heal those in pain. The master scholars enrolling try to raise students in faith life and talents in special fields to connect to our FF at the same time...

We have mentors and mentees living together, and as a result 26 scholarship award ceremony, total 43... And with gratitude they read the letter to True Mother and made declaration to become the future gen that True Parents Desire.

PL, the Board of Director, proposed this... Yeon Ah nim also gave congratulatory address: True Mother has been focusing a lot on the future talents, putting Her Efforts and Devotion. This is the greatest work we must do, among all we do importantly.

I would like to expand this and share the stories of how our students grew, and let the entire world understand our True Mother's Vision. We promote through Kakao channels and other ways and through Epic education and other studies to understand True Parents's Life Course, searching for more young talents.

This past year is a seed and the next years to raise those seeds. Please take a lot of interest...

I hope you join through the channel...

Welcoming Address

I Gi Shik, welcome... 4th gathering of 5 districts... 3rd district Epic history and Holy Spirit works 36th

I was deeply moved by how we should feel the dissolution from a Providential perspective, God's Perspective, by comparison to the path of True Parents, dedicating all for the sake of the world. This gave me deep inspiration and pride, especially the explanation of Nagara and Egu, that Mother positioned as the eyes of the typhoon, this region holding the mission of nucleus for the mission of peace broadcasting.

And the revealing of the concept of Holy Mother updated from God being only H Father... I felt that the mission was started and would be completed right here.

testimony grace of the Offering Paper... I quit my job to attend the Workshop. Looking for a new job I wrote my desires and conditions on the HJ Papers. I gradually began to worry that what I wrote was too luxurious and lessened them, praying continuously to be guided to a job suited to me. A few days later a staffing people gave me an interview and the position was give to me with all the things I had written. At first, I was think too much of my own idea, but then laying myself down with faith to receive whatever Heaven had, the best possible result came.

testimony of the Blessing of her child. There was a message Cheon Shim Won is the HQ of devotion and Providence that you can solve problems on your own, and I experience that those Words are correct. I made a resolution for my son to go to the Blessing, and I could not imagine with my life walking at the forefront was conveyed negatively to my son... It seemed impossible, but then he met a certain woman and did fasting 3 days and went to the Workshop and they celebrated engagement this month, with my husband also helping me to reach this point. Because of my shortcomings how essential is devotion, and I will continue until the Blessing Ceremony and thanks to all who shared their reflection and testimonies...

If you offer devotion at Cheon Shim Won, you frequency will change to resonate and you can see to solve all your problems

'Pure Wave'

We are a team of 8 driven by a single vision that pure waters can come together to create a massive wave. Starting June 30th we will embark on an 18-day Christian Pilgrimage across 6 countries. We will go to Italy, Switzerland, Germany, France, the UK and Israel. We plan this journey with a clear purpose to put True Parents's Words into practice by witnessing and emulating the profound Love and devotion of the

Christianity. We want to truly inherit that legacy. We hope to feel the deep longing of those who love Jesus with all their hearts, and we will be praying earnestly for the countless martyrs who paved the way.

Upon inheriting that foundation, we want to attend True Parents more earnestly. So, please stay tuned and keep us in your prayers. Pure Wave is coming, TYSM

woe, the really big fish... and doing all the preparations...

testimonies of the elders... how Father did, Father teaching them...

(by devotions, by heart, the fish allow themselves to be caught)

In True Father's Life, fishing was a time of devotion to communicate with Heaven and enter Heaven's

deep world through that time. The most time of Father's Life was Speaking and 2nd fishing Providence. Wherever He went He would head out to the sea or river without even time to rest.

After 2006 when Father began to live directly at Cheonseong Gung, He would come down immediately after Hoon Dok Hae... I made many mistakes not knowing much about fishing and because I was human. But there was one thing I heard that was not recorded when I asked, 'What is the true meaning of fishing? Is it a hobby? Is it devotion?'

And Father said: 'Fishing is scouting'

No one thinks that fishing is scouting while exploring places like this. The fact that He gave me those Words, still remains in my mind.

True Father went out to sea from 5am devotion even there was no fish. I see no better way for self cultivation. There are many good things about fishing. If you spend the night watching the waves changing, watching the clouds change and living through such ever-changing moments, it is truly good. You must meet God. Heaven comes to visit through stones, water and sunlight. That single fish was God. You too must meet Heaven today without fail. I truly miss that.

When we were fishing with Japanese ladies, when we called all the leaders to fish together, and even those who just sat there holding the line, I cannot express how much I miss them. Fishing is a time to meet True Father. applause

This Malaysia family... They're hearts sank to rock bottom when their son said he wanted to run away...
Phua Kean Kok

Shu

Our children like CP, they like the scenery and the food, and we need action, not just words to guide our children. So, even though it was a financially difficult time, we still sent our children.

Since he was young we have quite high expectation and gave kind of tough life for him, no gaming, no TV programs when he was young. They didn't have birthday party nor go to someone else's party. We feel True Mother was raised up something like this way with no influence from the society as the way DMN took care for True Mother.

We were thinking that the 2nd gen, especially him, he had a hard time especially after Covid. Before that, there were a lot of questions that came up. I spent almost one night until early morning just listening to him. He struggled. He told me he wanted to run away from home, from church and from all of it.

As my husband explained, when our son turned 18 and said he would leave home and that he didn't need the Blessing or faith, our heart truly lamented to the bottom. At that moment, we could feel the heart of Heavenly Parent. I felt Heavenly Parent's Sorrow. I could not sleep or eat and only shed tears. I kept thinking about it for several day, how I had treated the child and how we may have hurt him through the wrong methods and ways.

I said I would find the way to send him to Workshop. He said, 'Do you even have money to send me?' I said I would find a way. I sold our car to send him. I said that he knows my account pin number, that I never hid anything from him. We practiced to never hide anything from the children, especially the income and expenses.

I saw something that moved me deeply. I saw that True Mother sold the helicopter that True Father used, offering it for the sake of nurturing the next generation. If True Mother could offer something that precious, how could I hold anything back?

Finally, he decided because he liked CP, he would go to CP. He said, 'If I go to CP, do you have money?' I said 'Yes.' I would... no matter what, I would get some money for you. I would send my son to CP with the heart of offering my son to Heaven. That's how he recovered.

My son was able to attend multiple WSs, including two in 2003. During the Workshop his heart was opened. He was able to experience the Heart of Heavenly Parent. Through such inspiration, his mindset began to change gradually. The most essentially aspect was that he was able to shed tears in the prayer gathering.

This was truly a great miracle of change, his heart was able to be healed and my husband and I were able to find peace of mind.

Further, I will continue to ponder how I can converse more deeply with my child in the future. (He said to him) 'Do you know why I wouldn't allow you to go away? Your True Parents said 'If I cannot extend My Family's H fortune, what is the value of my life? You are my children that I love, that I want to just love, but this I cannot give up.

I felt heartbreak. When I see True Parents's Life Course, how sadly I repent... how You see your only children who go a different way... after 6,000 years waiting for children to come back. My wife and I deeply and substantially we can see that CP is the hope, not only for 2nd gen, 3rd or 4th gen, but also for 1st gen. This is our own and the children's environment Place.

If we have money, we go to CP. If we have time, we go to CP. It was not just a saying in our family. It was the foundation of everything we built, and it was from that foundation, standing before Heaven about 13 years ago, that I made a promise that I will bring all my children to receive the Blessing and stand on the frontline for True Parents. I can say that Heaven has been faithful to that promise. (There's his amazing beautiful Blessed couple of his son smiling)

At 2026 Blessing Ceremony, my eldest son, and eldest daughter 3 years now, and her husband served at the international dept of the TC, his third son is enrolled in the 2nd year of Sun/Moon UPA, and my 4th son is at the UPA Language School. In Malaysia, we are the only family to have sent our children to UPA.

They realize by themselves. My children could not even speak one word in Korean, but within 3 years, all my children now can understand and speak in Korean. If this is not the work of Cheon Shim Won, then what else?

All I did was come to Cheon Shim Won to report and send my children to CP, no matter what the circumstances. When one sister here asked how I raised my children, I told her honestly that I didn't. CP raised my children.

Actually, I just stepped inside the hall and I caught fire. Through Cheon Shim Won Heavenly Parent helped me a lot, True Father guided me a lot. Through PL's guidance, I realized a lot.

Last Monday was our family's 700th Cheon Shim Won prayer. When I first attended the vigil which was coincidentally the 700th Session, that resonance is what Heaven has given me and what has kept my family together and kept me from giving up. I do not know all the reason why Heaven has called me, but I know that in Malaysia someone needs to pioneer a path for the next generation. Someone needs to, and I resolved to be that person.

I feel, 'Wow, just coming to Cheon Shim Won, such a life, such a Blessing life...

next is someone witnessed by a 2nd gen from Portugal, how was she who had no strength left to pretend to be happy, learning the meaning of the Name, HMH, that she heard for the first time in her life, and enter into the Heart of True Mother's suffering. We now share her heart and confession as she calls out to her Wang Omma..

I'm 22 years old, and I am a 1st gen member from Portugal. My parents have... and I am the 7th child... growing up I carried many worries inside and a limpness in my chest. I tried to feel Heavenly things, but nothing worked. The pain only grew. I no longer saw a reason to keep pretending happiness.

On a rainy morning I hurried to work with my umbrella down to avoid people. Suddenly someone came and lifted the umbrella smiling and I looked at him, and that's how I met my spiritual father Jung Ju Won. Although we didn't share a common language, somehow I understood him perfectly, as if my soul already

knew him. With more time, I began to attend the Unification Church in Portugal, and there I received a lot of love and learned the Principle. My spiritual father and his colleagues prayed for me and visited me every day with care.

Thank to their dedication, on November 23, 2024, I became a member of the Unification Church. That day, when I saw the photo of True Father and learned that He is the Messiah, Jesus of 2nd Coming, my heart overflowed. I cried and laughed and shouted with joy. The heaviness disappeared. I felt truly reborn as if God Personally Embraced me and wept with me. I shouted, 'I made it, as if I had come home' applause

Later, I was invited to CP, and when I arrived I was overwhelmed with many questions and doubts about the reason I was there, groping in the dark. During the resonance prayer, I cried out to HyoJN, HeungJN and even to True Mother Herself, asking for clarity. At that moment, I heard the clear visions of the chaotic world we live in... children dying... violence among people, love growing cold. And then I deeply felt the Heart of Holy Mother Han. Her Hunger, Her Pain was like a thunder attack as if something was piercing through my chest. In my heart, I heard, 'This is the Pain of HMM. She does not sleep, worrying about starving children. She carries the Heart of God for children, and seeks to create an ideal society. She chose this path to console the Heart of Heavenly Parent.

I experienced deep connection of Heart with HMM. At that moment, I realized why True Mother had to suffer so much, give up Her Youth. Only after earnest prayers could I truly realize and open my heart. I watched my brothers and sisters and I could feel the joy and happiness.

I realized these were God's children, praying without seeking power or any evil ambition. I only saw God's children loving each other and enjoying being together, only wanting to praise Heavenly Parent, talk and be together. I saw nature that had been hiding its children around me, and I felt a deep joy in my heart and then a sadness of True Mother, and a Voice said, 'This is My Will.' Tears burst and I wept uncontrollably.

Then in the mid June I felt my mission is to serve my brothers and sisters internally and externally. Then the spirit world opened in front of me and I was shown the wars and True Mother's Hope, a world without greed, without war filled with pure young people desiring to love Heavenly Parent and True Parents. I

was shown Cheon Il Guk and I heard True Mother say to me, 'This is My Intention.'

I was full of joy to see True Mother's Dream, but at the same time, I felt how desperately True Mother Wants this Dream to come true. My heart breaks knowing how True Father's Heart is still struggling in worry and concern that the Heavenly Parent can be at peace.

Since Mother is shouldering the path that I should go instead, I want to do something. The person who should be in that place is me. I must help Mother. 'Mother, I am so sorry for being so lacking... so sorry that I could not do anything. But I promise You, Mother, I will invest everything to restore my country. I will praise the Name of Heavenly Parent highly in my homeland.

Mother, You have given me a new life. You let me be born again. And You let me know the meaning of life when I was only thinking that I really wanted to die, but I saw the Love that Mother and Father gave me. I saw how great Heavenly Parent's Love is. And I wanted to live. Mother, because of You, I wanted to live. I will live again for You, together with beloved 2nd and 3rd generation and Blessed families. I will always live according to Your Will and work for the expansion of Cheon Il Guk which our elders have cultivated. And I hope the Cheon Il Guk will be settled deep in my heart as well. On the day that that happens, all the history of God's Sorrow will end. I am Your daughter. My heart belongs to You, Wang Omma. Therefore, from now on, I will live as Wang Omma's daughter, Wang Omma's child... as a daughter of filial piety, following True Parents's Example and guiding people home, and to offer my nation to True Mother.

Thought I am 1st gen, I want to save others as I was saved. My family believes and they are waiting for me to change them... I Cynthia pledge that I will do everything to attend HMH, with True Father in the SW with faith and love. Kamsahamnida Wang Omma.

(Her name, Cynthia)

We plead to HyoJN to please use our bodies. This testimony of a young man who started his day bowing to a portrait of True Parents and ended his day sobbing for True Parents's cosmic cross. HyoJN's portrait was always in our home, my father was the protagonist of his and always with him when he came for live performances...

My life was saved because of the church... I entered the school for arts and I wanted to want to be like him, and I knew when I set out on the path is a dangerous one where I will be wounded, in pain and suffer, but the only path to end Heavenly Parent and True Parents's pain and suffering. Even if I felt that you were happy with me, I realized that You are the Heavenly Parent Who holds the Sorrow that cannot be liberated by such joy, that cannot be countered by such joy, but only knowing Your Pain...

Yet You are the Heavenly Parent that wants to forget that Pain and live and visit with us, converse and embrace and love us to Your Heart's Content. How many times did You call to us when we fell, hoping we would rise again to live with You, even You suffered with this child suffering and knowing You had to give them the mission of difficulty hoping somehow they would overcome, and I know there are countless sons and daughters that do not know You even You want to embrace them... instead they hurt You more... Please let me be the person to dedicate my entire life to this world for the sake of Heavenly Parent. I feel it is my lack that sent Mother to the DC. If I could have thought of You, cried out for You, Your Sorrow would have been decreased even a little, but because I failed to do so, You still carry that Sorrow and Sin.

Mother has overtaxed Her Body so much, She has heart disease and Her knees and eyes failed and worsening... But the Cheon Il Guk must come while She is still here on earth, for the sake of protecting us. I want to stake my life pouring out all my BS and Ts. Please let me walk it, and become a true child to fulfill my duty as a son of Heavenly Parent and humankind, with hyojeong that Heavenly Parent raised me with and conveyed. Please do not be sad anymore because I am here, we are here. We will surely be victorious.

Please do not be worried any more with Tears that won't die. Our devotion can move Heaven and move the world. Even we let that Person we least wanted to suffer down the most arduous path and I do not want to be a burden any more for the sake of Heavenly Parent and True Parents of HEH. Even though we did nothing for You, You told us, 'I believe in you'...

For the sake of being together now, please fight with us to heal Mother's Wounds and be victorious with Mother, and lend us strength to protect Mother to the very end.

The most thing to change the world is the wailing of heart that burst from every person, for the foundation for True Father to work and bring Mother returned Cheonjeong Gung

Secretary General shared award scholarship ceremony, the greatest gift True Father left for True Mother was Wonmo Pyongeh Scholarship Foundation...

True Mother prepared the money from F's Ascension and the helicopter for future gen, till 2025 more than 5.800 students received the scholarship... more money for international students, so that they could lay the foundation, and may this movement not end.

Kim Mun Shik and other leaders shared their support and without stopping we push this forward, and spread the news for all to know so that True Mother's Name will be lifted higher.

Today, in H Japan we heard the miraculous news that the son who did not come home, eventually he went to Workshop and changed to receive the Blessing...

How important the Providence of fishing, one of the major devotions we need to offer where we can resonate with True Father, even it is difficult, imagine you caught a big fish and then you will be screaming and dancing and forget all the agony and pain and you will be able to unite your mind and body.

True Father gave a lot of inspiration and realization through the fishing, and we to find the time to do the fishing to meet God. And we received the message that we must hold the fishing competition. But no one has done it before, but the Director said, 'Let me try' and the miracles took place.

And in the magazines, there are a lot of records recorded there and the one who never did fishing before caught a fish of 96 cm... and another caught 84 cm fish... True Father is working right there...

Pres. Ho Yang and various members joined to offer devotion together and amid this 74 cm Carp and we witnessed such results as we gather such devotion. And Kim Cho Ahn and Cho Man Oh then 74 cm... Hyo Ja Yon and I Gwon Su President told me to please release these fish and we offered all-night prayer to release True Mother...

Members screamed when the fish were caught and it became the motivation for us to stand up again. In early days, True Parents offered devotion through fishing and overcame hardships and expressed their love to Heavenly Parent...and as we catch fish, Heaven will definitely send us hope to move forward in that way...

Yosu Ocean District wants to hold the fishing Workshop as well and they will do it... The pastor and all the members are still attending vigil.

True Father offered devotion as if at war, and as our members did like that, we must gather our strength. In H Japan, leaders when hearing this report received grace and sent this message:

Gratitude for such Workshop at Cheonyujon... like the ocean expanding to the world and a precious moment to witness how Providence is progressing, and I felt such hope, such a meaningful day for me. True Father with the title of Ocean Church educated many scholars and student with that tradition inherited by the young people.

And elders who heard about this Workshop, had bought and prepared a certain area. Japanese members remembering that True Father couldn't do fishing in Japanese, I truly hope that will open, from July 15th to 20th, members of the 1st gen, we plan to open the Workshop.

If you allows us, in H Japan, we want to open that door of Ocean Providence.. As I see you naturally clapping, so I think Heaven accepted and amazing work will be unfolded...

Hak Jon Suk's wife, wrote a poem 'First Workshop of Cheon Yu Jong

As the first stars are glittering and waters waving, as Father Who conversed with Heavenly Parent at night

fighting the evil force, there are many fishes standing firmly, and fishing is scouting, gathing to offer fishing devotion all of them had their own desires, but after over night being anxious that there would be no offering, their shoulders became changed united to want to just catch the offering, and I believe Heaven would surrender the offering because of that heart and also to let the fish go...

(end of poem notes)

The 3 fishing Workshop is held by the Cheonil District... They haven't caught a fish yet, but I hope they will before tomorrow closing...

The Malaysia couple believed in True Parents's Words of CP, with the motto, and all of us applauded... If I have money, go to CP... If I have time, go to CP

The son that wanted to run away saying he didn't need Blessing or faith, changed so much... And behind that with the 700th vigil attendance behind, they could make such wonderful results with all their children... And you too, please pile up the devotion and make such testimony

testimony that his father was one of the band members of HyoJN and that heart of HyoJN inherited to his father and then to him. And I saw HyoJN working through him:

True Father said 'With the fishing devotion, you can meet God.'

If you offer earnest prayer, you should be able to pray like Him...

Cynthea witnessed in Portugal Nove. 23, 2023, felt Holy Mother Han's Pain. And she resolved to restore her nation as a life goal. We saw the earnest prayer work of resonance. Our first gen as the children witness your devotion, we can absolutely be victorious. The more things are complex, once you pay the indemnity, the great liberation will occur...

Absolute love is true love, no matter what situation you are in. When True Parents are in glorious days and you just follow, that is not absolute love. Only through absolute love can you be victorious. In that position you do not complain, but only accomplishment will exist, never complaint.

Sent to the greatest trial, but one day True Mother will stand in the greatest, glorious position place, and then all those who left and sighed and were discouraged will not be able to hold their heads up, and will say, 'Please hide me.' So no matter what difficulty, as long as you push forward and still accomplish, that will be what you can boast about, and that pride will be left behind eternally.

I hope you will think to make something to boast about.

True Parents said, 'When you pray, you must shed tears and sweat and with belief... Have absolute belief that our Mother will be victorious. The day is coming for True Parents's Will to be accomplish. The greater the difficulty you face, the greater victory will come soon. Because True Mother's Course gets longer and longer, some may want to give up and stop Cheon Shim Won and just watch drama on TV...

If you are tired and discourage, you must go one more step, one more step to meet the day of that victory of True Mother/True Parents...

Using God as the motivational force, you should be able to stimulate yourself moving forward, stimulating through prayer with life or death determination and pile up the devotion, the more falling into darkness, make satanic things to surrender by fighting back more strongly. We must fulfill these True Parents's Words or we cannot progress the Providence of Restoration.

Through the fall, we lost those Words, but Heavenly Parent is giving back those words and now we must fulfill and become the embodiment of those Words and pray as at war and when you live that way, you will ascend to the subjective SW and be welcomed. They will line up and welcome you. For that day to come, let your mouth move and resonance come through your heart for explosive revival moments. It is time for that to come. TYVM
