opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

On May 1st 14th year of Cheon Il Guk I offered my gratitude for being able to offer commemoration. On this Holy Day when walking the path of the Will in the position of representatives in the history of Hyo Jeong, of cosmic suffering, and no matter how harsh the winds and tiresome the battle becomes, as children we have gathered to collect devotion upon devotion to contribute to the Providence, and at this time when the trial is not far off, our devotion is the most important than any other time, and with our Cheon Shim Won President, we cry out with one heart and mind.

How can AGS, how can Heaven not be with our genuinely sincerely cries. Please stir the SW and let True Father work with us. 1,586th Session, we now charge forward surpassing 40 days 40 times over, as we gather our devotion for True Mother's Longevity and complete release...

72nd Anniversary of the founding of FF... the fall... the Mission passed on to True Father, but Christianity disunited... HSA and Holy Wedding...

How can 8 billion people all come to know Heavenly Parent and True Parents. We must awaken the Christian Foundation and let them know that the Creator is the Parent of our humanity.

The HQ in Seoul in the early days sparked a great revival, despite the prison course, the sincere tears and sweat of members continued for hope from this era. Ceaseless events of True Parents to deliver the Words of Heaven and establish true children.

While making known the Value of the Blessing, the Religious Value Movement and Unification of N and S Movement. Finally with the completion of True Father and True Mother, a foundation for Cheon Il Guk was established, and True Mother Who proclaimed the Cheon Il Guk Heavenly Parent longed for, has broken down the borders of races and cultures to attend as true family of humanity.

On Occasion of 100th Anniversary of True Father's Ascension, True Mother proclaimed the Heavenly Community on Foundation of restoring 7 nation, 7 religions and 1 continent. With devotion from around the world, future generations have resolved amidst tears of deep spirituality.

FF of Korea and Japan are receiving Epic Education... Republic of Korea is the chosen people, responsible to establish Heavenly Parent's Homeland...

The Completion of H Providence, the Entrance Ceremony was held, before the grace of True Mother, and members all over the world met in joy and excitement, opening the Era Heavenly Parent works on earth since Creation, with responsibility of serving True Mother with Spirit and Truth... and attending Heavenly Parent in our homes and provide hope and Blessings for the future gen of pure waters.

The history of the cycles of misunderstandings and now True Mother walks suffering amidst this era of unfavored... Those who still do not know the Life and Path of True Parents and FF and FF has taken the lead to restore trust and put into action a renewal policy in our faith community... with IRS certificates and FF devotion of practice of faith for peace of humanity co-existing with society.

We must know that his nation is chosen and become able to attend True Mother OBD and become the protagonists, not just in a record of time but of love and sowing peace in the world. This hardship cannot stop or block our footsteps but made us stronger for a wider Love.

70 years of FF now heralds toward a bright and transparent tomorrow with True Mother's Heart of Peace blooming, and the peaceful world we dream of will surely be realized. We pray True Mother's return to Cheonjeong Gung and H's Will realized, with restoration of social trust. Heavenly Parent and True Parents, we love You...

Sister Kimari from Academy

'Greetings'

If love is too far away  
and cannot come, I will go to You  
Gently listening to your dreams  
and sharing my life  
Isn't longing perhaps a scent lost

a long time ago  
On days when I wander  
My dear, I will run to you first  
And stand there as a flower

---

Testimony

How my heart of singing has changed. I felt grateful for being able to offer praise, but it was also a burden. I think I was more at the center of the praise than Heavenly Parent. I thought about singing well more than praise to Heavenly Parent.

I attended church service. I thought I was lacking, but I didn't know how much I was being loved. The times I remember most were devotion time and intensive prayer when my heart changed little by little, thinking more about Mother and love for Her growing. And then I naturally came to repent, think, 'Why didn't I know Mother and this love until now?' I always thought I had to work harder and do better, but I had not been properly looking at the love of Heavenly Parent and True Parents for me.

That came unexpectedly when my heart was moved greatly from the praise behind me and looking at the lyrics, how Heavenly Parent was with me even in the moments I did not know and I was already sufficiently loved, and I received the grace to know everything I have is received through love.

Then I thought my voice that I thought was a skill of my own effort, was actually a gift of Heavenly Parent, all possible by love and grace of Heavenly Parent, and since then I developed the habit of praying every time before I stand on stage that my singing praise make Heavenly Parent happy and comforted and please let the grace and love be conveyed to our members as well, and I think more about the lyrics and heart they were written with and how to convey what Heavenly Parent wants through the words, and it is a time to converse with Heavenly Parent.

Of course, I am still lacking and there were times I clashed with people and could not be grateful, or did not reflect on myself. I learned that if I am aware how I am loved, I become grateful again and can love again. As Mother's Word about gratitude more today than yesterday and tomorrow more than today. This heart will not change. My desire is not to boast of skills but to be a person sharing the love from Heavenly Parent and True Parents with our members.

What was most significant was a realization of love and wanting to repay it and follow after Mother's gratitude motto. TYVM

Testimony

Moon Yumi

Workshop trainee

---

older sister... gratitude

360,000 BC... In the past, I did not like listening to testimonies before, because I felt envious and jealous of the resurrection and grace, thinking my family, my son is not like that... And I would attend after testimonies had ended. As a result, my church life became passive and difficult things began to happen in my life. My daughter asked me to look after the baby, but I said I would not go. Later, I went, but the in-laws had come and I was no longer needed. And then I became depressed and strongly felt the cause was because of my own personality, so I attended 40-day determined to fix this personality.

It was still not easy to attend others' testimonies but I determined to attend diligently, and it seemed jealousy and envy had been rooted in me for a long time, but I spent time in the front row, praying. As I learned that the secrets of change were in the testimonies, and they became a joyful time I looked forward to.

Just as I thought the spirits had been liberated, I became depressed as the choir leader when we could not get enough members to stand on stage, or when I came down with a cold, and I didn't listen to suggestions just saying, 'It's okay and gave members order to enforce things and members said they were depressed because of me, and I wanted to go home. The choir seemed to run without me now, and I felt jealousy watching others hold the microphone and sing, and the jealousy rose again. I thought I was a useless person and the 7,000 calling out prayers became useless.

Then I was to sing but my cold was so bad, and then I said, 'I am like this because I am lacking. I'm sorry.' And the words came, 'You must not stay in depression. You must make Heavenly Parent happy' and I felt grateful then just to stand on the stage, and realized when the leader is bright the entire team is bright as well. I had a vision of True Father smiling and I felt I should also smile and rejoice like that, and be happy when someone else held the microphone, and then the members supported me, worried about me and praised me. I was grateful that they called me their leader.

One person also came to me especially and would comfort me in difficult times. At the prayer Hoon Dok Hae the next morning I appeared in tears for everyone to be able to sing for True Mother, and we could be one and create a moving performance with the members finding confidence and be brighter. I realized the problem was within myself and Heavenly Parent had been training me to transform from the fallen nature and enter into joy.

Only then did I remember how True Mother walked in silence and appeared publicly with brightness, and

I realized I had centered on myself and must look at each thing through the Eyes of Heavenly Parent. Now when I see the 2nd gen, I can rise up and say that that is truly wonderful, and others asking 'How did you receive the Blessing? How were you introduced?' I felt only to live for joy to True Mother and Heavenly Parent, for Heavenly Parent's Dream to be realized. Then, infinite joy arises. I sincerely thank Heavenly Parent and True Parents and all who received the Workshop with me, also PL who conveys great grace and the pastors and leaders and wishing for True Mother health and safe return... Kim Yong Jin

Korean Leader of Workshop Team

40-day Workshop with heart of HyoJN, 'Filial Heart is mine.'

True Parents's Words: We must become filial children, loyal patriots, and virtuous woman, that emerges under difficulty not comfort. Only the person taking responsibility for resolving a national crisis, risking their own life in circumstance of difficulty can be called a loyal patriot.

The noun patriot, loyal, the noun virtue in times of difficulty are recorded in history. True Parents told us to become filial children and loyal patriots. This Workshop in the month of May, the month of family, was to be true children of Cheon Il Guk and filial sons and daughters toward True Parents.

The ages were mostly teens and twenties and an increasing number attending with their families, with

hyojeong for happy families increasing more and more.

Third session of 3-day Workshop is now, and please do not hesitate to come, individually or as a family. We ask for your interest.

On this day 35 out of 94 received their graduation certificates and the rest remain to continue.

3 themes

Because a true filial child knows and considers the Parents' Heart, and first that True Parents's long to education is Epic and clean up activity

2nd, was devotion and Mother's Path

3rd testimonies of trainees moving toward a life of hope

Because the Seorak land is such a precious place, we do clean up activities with every session.

True Mother: We must return to the environment of the original creation. My heart aches because it is not yet so. We must gather all leaders and say, 'Let us save the earth' You must speak from a beautiful environment. To become a true owner is an ideology that applies not only to human relations but to all things.

What kind of person can be a true owner is one who lives for the sake of others, who loves, protects and nurtures all things with true love becomes a true owner with true love. Above all devote and serve others, love, protect and nurture all things.

This is the most important path in achieving the 3 Great Blessings. The GPP Workshop is currently being implemented as we do our best, ceaselessly striving to inherit the heart of HyoJN and practice with Spirit and Truth.

Through the volunteer activities, many members said it was growing their spirit selves. With the greatest

vision engraved in their hearts that this Cheonil Complex must become the capitol and be engraved with Mother's Heart, realizing the Heart of Heaven.

The volunteer program is for every group, ongoing, and this fact has been reported by local media and a source of great pride. This is the truly beautiful Cheonon Garden, not only for Memorial services here but also all over the world to offer memorials to their own hometowns and clean up volunteer activity.

A stream near the bus terminal in Cheonon Church, we conducted under the slogan of the restoration and Mother's return and then visited the cafe for a time of healing with delicious and cool drinks under our motto theme.

Because of difficulties with the stream overflowing, mud holes and washing away roads, we are connected to the restoration of roads project... to create waterfront spaces and walking paths

We had the departure prayer gathers, and although this place was created for a bicycle and walking path, it was in such a terrible state with trash and mosquitos and smell of the waste water and feet sink in the month... It was a place without a single patch of shade in the exceptional heat, but there was not a single trainee that frowned. We sweated a great deal... Please look at the video from that day...

Video

With the heart that Mother's Heart would be even a little more comfortable, feeling that the path Mother walked was more difficult than this, and I felt True Mother's Heart... I thought of True Mother's Feet sinking into this dark world, and I felt that we must help Her and then had a joyful mind and the compliments of the people felt like coming from True Mother, and I felt proud. Truly, I love Seorak... True Mother I love You...

As if to reward our devotion, unexpected events. The owner of a coffee shop suddenly brought us ice coffee and greeted us, saying the contamination was getting worse day by day, and grateful we were cleaning it up in the hot weather. Seeing the cool drinks, made me smile brightly.

We needed to cross the road with the trash bags but it was blocked with the excavator and we would have

had to go all the way around with the trash bags, but suddenly the excavator driver made a path for us. They really care about us and we were grateful.

Then one grandmother said she couldn't just pass by us and pulled out 50,000 won money for us to purchase cool drinks. Although I tried to stop her repeated, True Mother came to mind and thinking of it as the Heart of a Parent that loves and cherishes Her children, I was filled with gratitude and love and the grandmother said she was the former Seorak mayor and added that she knew us well.

Then we visited the Han Seorak cafe operated by the Academy youth in our region that has the motto: Co-existence, co-righteousness and, co-prosperity, feeling that it was True Mother offering us grace and love, and we offered our gratitude to Heaven.

This activity had the significance of being the priming water for Mother's return, the most important life-giving water for humanity is what fulfills the Words of Parents

I remember Mother's Words: 'Let us go together' and when the villager said, 'TY for your hard work, I felt it was Mother saying it.' and that this too was a form of witnessing.

True Mother said: 'You will go with Me, won't you? Let us go forward until the very end.

I felt that I was not just picking up trash, but tidying my own heart, and that this is a path we walk together applause

In this month of May of family, HMM True Mother occupied our heart, thinking of Her and missing Her, we could inherit the Heart of HyoJN and even more through the Hyo Jeong Tree.

Everyone is probably aware of the testimony of healing at the Mother Tree, Hyo Jeong Tree and here is a video

Mother is singing...

After the prayer our trainees wrote a letter to True Mother... 'I miss You. I miss You so much. Nothing is

well since You are not here. I am so angry, sorry and apologetic that, although we the BF's failed to fulfill our responsibilities causing our True Mother to bear the cross of hardship, we are unable to do anything. We will receive all the indemnity, so we are waiting for our True Mother to swiftly be released in innocence and return to Cheonjeong Gung...

I took off my shoes and walked silently with the heart of embracing sunshine. As I walked around the winding path, the clear resounding of a wind chime washed my ears as if it had been waiting for me... A single ray of light suddenly appeared becoming a pillar of light until the very end of the path...

I stopped and raised my hands, feeling received and aided. There is a Hand that holds the back of my neck... to receive it thoroughly, only then will it become your flesh and your blood. When I turned, no one could be seen...

PL told us to set a goal and receive it. My goal was to receive the best Workshop of my life, and I clung to my notepad with all my life, writing when eating and sitting... Even though I like writing, the writing came out so easily. When one becomes one with the SW, works unfold. I was in tears.

I bow down. After prayer at Cheon Shim Won, I rose to my feet and noticed a strong hole in my sock. As I took out a new pair, I looked back on the days gone by, when the roots of faith were shaken and love went upon the wind, some turned their backs, some hit themselves, and some even threw stone, some were the first to leave Mother's Side.

Mother in the relentless sandstorm looking for a single needle. Before, those Words, I could not lift my head... The hole was not in my sock but it had already been there in Mother's Heart. Struggling with my own pain, I failed to see Mother's Tears. Now with a new pair of socks, I bow down with my whole being. Mother, Mother, please forgive me.

Never again will I let go of Your Hand, never again will I let go of Your Hand...

applause

One more letter

Our Mother who carry the burden of indemnity that we failed to fulfill. I cry out to Mother with a heart of devotion and pain. We are passing through a dark tunnel that seems to have no end, but I believe it surely has an end, and a bright new world will unfold after it. Mother, You are not alone. We will attend to the very end and defeat this darkness. Mother, may You be comforted in this darkness.

True Mother has offered prayer and devotion at Cheon Shim Won to mobilize the SW, and She has said that we must create devotion and reasons and conditions to pour into the SW, and offer calling out prayer 1,000 times.

Through various testimonies, we believe that when we offer prayer and devotions as True Mother has taught us, amazing works of Heaven take place.

The grace of calling out prayer: I prayed for my mother and 3 children...and Hyoseong Academy received the grace and our church has improved greatly.

Calling out for each individual for their circumstances, and my son who applied to a total of ten schools, was accepted into all of them, and in additional countless graces came...

Devotion for 3 sisters, Deaconess of Dakonoh Church, her whole family would register and attend and offered liberations for her 3 daughters and every day an Offering Paper, and she earnestly engaged in ansu for 40 days.

My eldest daughter completed 40-day, with hearing and intellectual disabilities. Pl advised her to attend with me, her mother, but because of work, it was difficult so another family went to her. But she would watch videos and said it may not be easy to break this problem and an incident happened when she became missing and had to be tracked. Then I thought the situation was worse than I thought before.

My youngest daughter gave testimony of her lonely heart with feeling that the parent's love was for her sister with disability and her other sister. I heard lecturer Kim Guy On suggested for praying together, and sometimes the Deaconess's son also prayed together inside the car, and the vigil devotion began every day with the church and others prayed for us. The two younger sisters went to Workshop for the sake of their

younger sister.

As time passed, my eldest daughter's problem of watching obscene videos nearly disappeared and also improving mental ability and passing an examination, and my eldest received the Blessing. In this background of the 100-day devotion, PL also said that prayer for a member is a culture of heart and we must pray for the sake of others.

I could not stop my tears when I found out about the 100-day devotion for my children and opened the path for them. Although I am still lacking, I will try to repay that grace and also pray for others with difficulties.

Centering on Cheon Shim Won, praying for others is the short-cut to becoming one with True Mother, HMM. Gratitude to Heavenly Parent and True Parents... applause

Attending HM at the center, our trainees will become one and do our very best...

Break

Busking

---

Hoon Dok Hae

If you follow the central teachings of the Unification Church, you will surely be victorious. The HQ of Association in Han Bok Byeon was so small that one could reach the eaves with one's hand. Because of this the sign was repeatedly damaged. The neighborhood children would take off the sign and use it as a board for playing and opponents would throw it down and break it, requiring us to re-assemble it and re-attach it. After bowing one's head to pass through 3 gates to enter the house, there was a well in the corner of a small yard and a small terrace for crockery next to it, the size of if three people laid down they would

touch to walls and a small guest room.

The men lived in the inner room and the women in the guest room. The low ceiling would wobble if you hand touched it.

To the right was an inner room

Like this, the Association started from a Place like a hut. Even if only a few gathered, True Father would pray with a voice as loud as if there were thousands and His shirt was soaked with sweat. Even if speaking to just one person, He would cry for over an hours and pray earnestly. Everyone would burst into tears with the grace of being filled with the Holy Spirit, soaking the floor with tears.

After liberation in 1945, because the prepared Christianity did not accept True Father, He founded the Association after going through a Course of Indemnity and paving the foundation for the start of the restoration of the world. No matter if I was on the eves or in a hut, I thought I must serve God here. Attending God here, where this Place lacked devotion, I said that the Principle of Creation shouldn't a representative from a small house be able to offer devotion on a world level?

This is Father's ideology. Next I said, 'Shouldn't we offer devotion that fits a world-level in a slightly larger house?' Like this the Unification Church started from a small Place. Developing from that small House, this is how the Unification Church has grown big. This is the mainstream ideology of the Unification Church.

Even though we went around making it known enough for the whole world to know, there was not a single person who criticized the Unification Church for being small. The issue was what we did in that Place. Father did not speak even though He had a Mouth. Even though He had much 'han' buried in His Heart for His nation, He endured.

This is not because Father is a timid Person. He endured saying, 'Blow Typhoon! Blow freezing wind!' Such things are temporary. they are destined to pass. He rather took hardship for granted, saying, 'How could there not be at least this much difficulty in pioneering the path of suffering for the sake of the world?' It is not because Father was inadequate that He did so.

It was because the history of the Providence of Restoration was inevitably indemnity. He decided to walk that path, and I founded the HSA for the Unification of World Christianity. Aju

Pres. Lee Gi-seong's Message

Hello everyone... (He bows)

It's not just one or two days, but 1,586th days, and all of your courses have registered in SW. Through out the world 40,300 are gathered...

14,200 places in H Japan

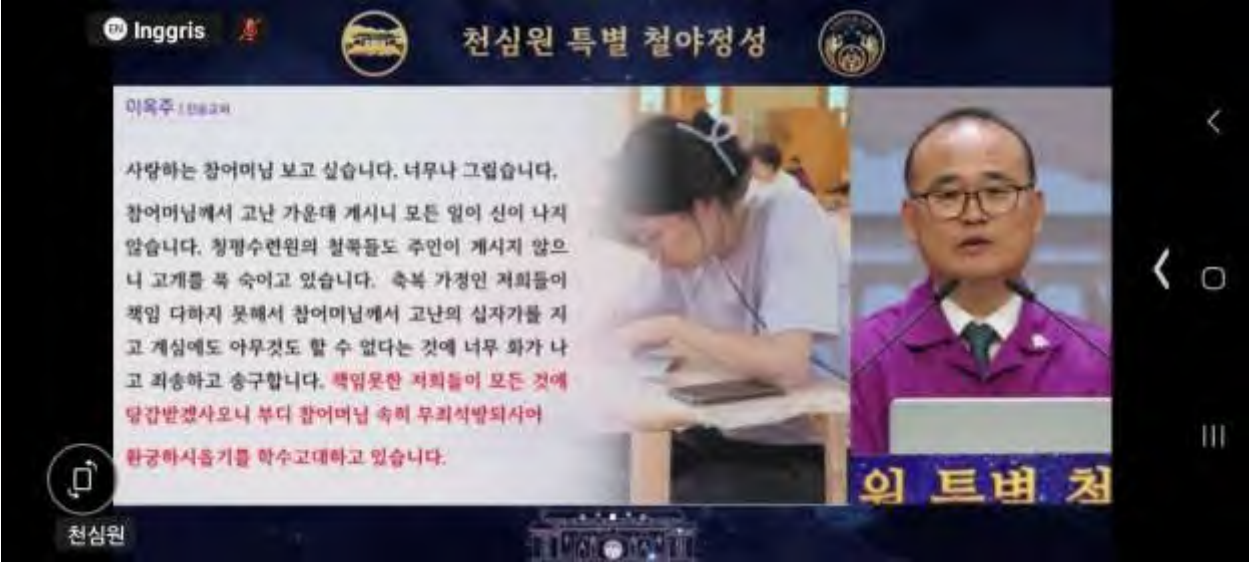

Moldova, where Branch Leader President Moon is... (They wave)

267th day since Mother's detention. In front of the DC, 'The path True Mother walked is to realize Heavenly Parent's Dream and it is the absolute Heart of Hyo Jeong, sacrificing Her Whole Life, and we will inherit this and (this 72nd Anniversary.) moving forward toward the 100th Anniversary of the FF, we will become the church to establish the future generation...

And this Message from the Pastor. Moving toward the 100 Anniversary of FF and on the 64th Day of All Things, we will become the church that restores faith, restores trust. We will become the church

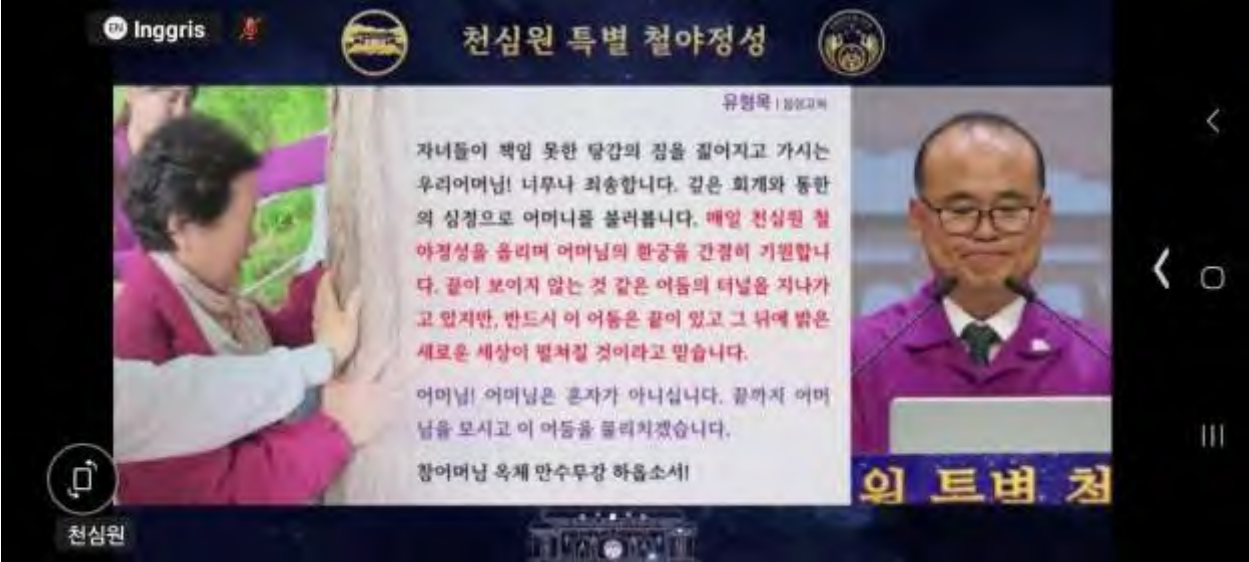

Pastor's resolution: Today, the 72nd Anniversary of the founding of our FF and 64th Day of All Things, from the early morning, CheonIl Gung, Cheonshim Church, we offered bowing. And I am certain that all the churches held this ceremony together, and we all watched the commemorating video of founding of FF (72nd).

But there are still many members who do not know about True Parents especially in H Korea. Through the Epic history and what was necessary in order to give Birth to True Parents, a lot of tears were shed by Heavenly Parent and so many people who sacrificed themselves as loyal patriots, and we must understand this.

And even the Korean War which broke on June 25th in 1950 was a war to pay indemnity to bring True Parents, and we must attribute all these things well to the Korean people so that they can understand that they are the chosen people.

True Father's Autobiography, a million copies have been spread, and True Mother's Autobiography also a million copies have been spread. And the devotion that True Parents have offered is indescribable. There's just too much throughout all the fields and all the areas, True Parents have Sacrificed Themselves for the people of this nation. They just invested and invested and invested. And there are still people who do not understand.

In Acts Chapter 7 verse 51, that's the verse that I remember, 'You stiff-necked people. Your hearts and ears are still uncircumcised. Just like your ancestors, you always resist the Holy Spirit.' Because they are still arrogant, because their hearts are not circumcised, they cannot hear anything properly, and that's why they could not accept the Holy Spirit. What should we do for those people? True Mother told us the method:

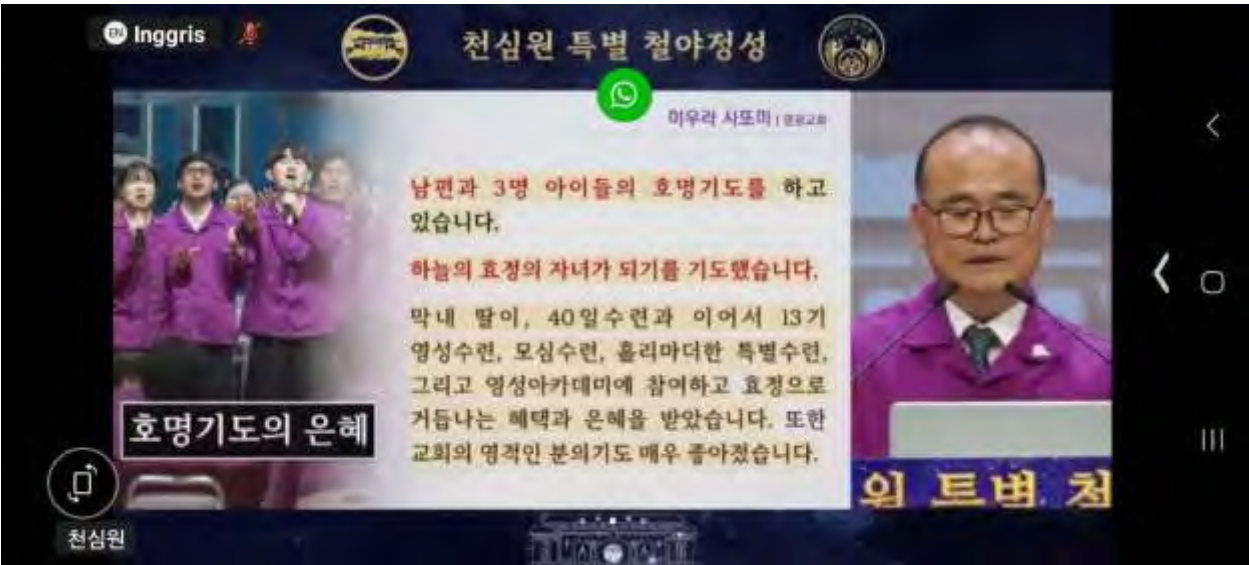

'Move forward with Spirit and Truty. Move forward with Cheon Shim Won devotion.'

Report and offer devotion so that Father can be mobilized, so that True Father can work. You must make that happen. Aju?

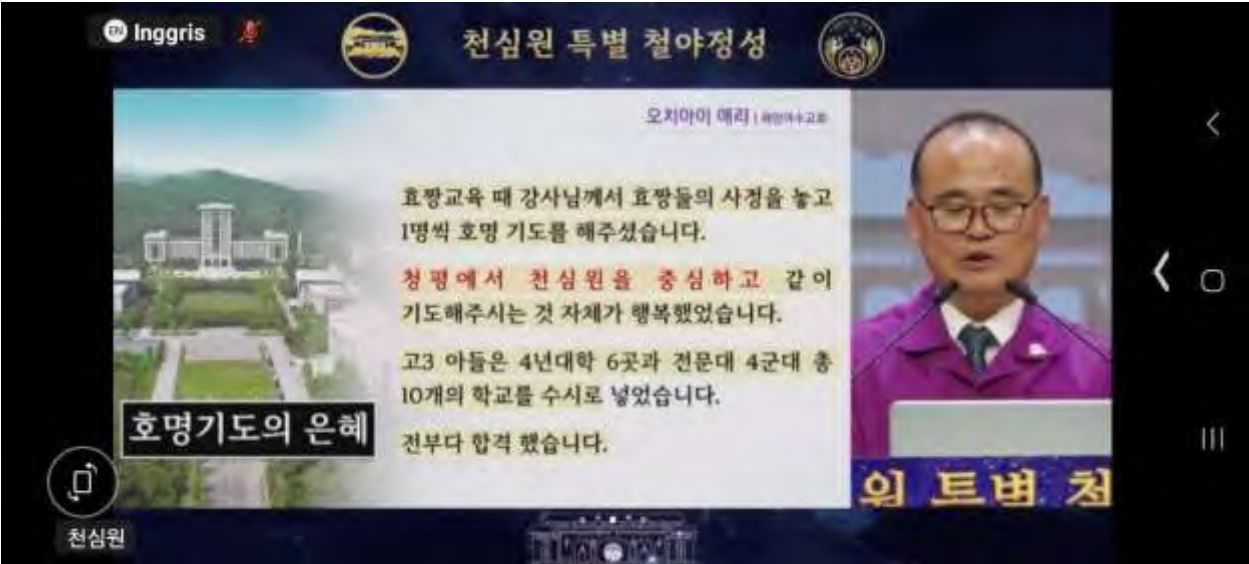

In Acts... You ancestors... Was there ever an ancestor that did not persecute. They even predicted the coming of the righteous. One. And now you have not received but murdered him. Steven has been killed.

He took off his clothing and through it. And that clothing fell right in front of Apostle Paul (who was Saul).

And Jesus was mobilized through Paul. At Damascus, Jesus called, 'Saul, why are you persecuting me?' With that bright Light, his eyes became blind, only following the Voice of Heaven and the work of healing. And the one who wanted to kill Jesus was transformed.

We must let that work occur. And that has been the direction and motive of our prayer and devotion from Heaven. That is our responsibility. That is our mission from Heaven. For True Father to be mobilized and the SW to work, we must make that happen. That is why Cheon Shim Won devotion is so important. No matter how stiffened your neck is, no matter how our hearts and eyes are not yet circumcised, we must read the autobiography of True Father and True Mother. And if there are still people who cannot realize accomplishments, we must realize the works of Heaven through those people. That is why True Mother, HMH is telling us to offer prayer for that purpose. And if you don't move, nowadays, we must realize that people of the world still arrogant, that is why True Mother is walking this course and we must, like Apostle Paul, make people feared before Heaven. How much indemnity to pay, as the Israel people, indescribable indemnity.

And True Mother told us repeatedly that those who do not fulfill our responsibility, we will have the indemnity to pay. We must offer devotion so that we can bring even more what Apostle Paul brought... With the heart of we are still lacking no matter what we seem to be accomplishing...

The sister joined the Jeongseong Workshop and when starting to grow love for True Mother and also realize how much love she has already been receiving, and everything she has is a gift from Heavenly Parent. And to bring the greater joy, to become new, she resolved to become such a person who sings with her heart, not just focusing on notes and singing itself. She referred to True Mother's Words and now our sister, Kimari. And there is a song that has her name. Mari is a very good name. And her husband is here (he stands). He majored in cooking. And I hope he doesn't let his wife stand in the kitchen at all. And maybe he will open a restaurant here in Seorak Town.

And the sister who had envy, she couldn't organize and let go of that. But then she resolved to fix it. Without liberating your fallen nature, you cannot help but stay in the fallen world. You cannot enter Heaven without healing your fallen nature. She stopped comparing, and her envy reduced, and serving as

the choir leader, a lot of pains, but able to overcome realizing that the central figure should always stay bright (as Mother was not matter what She was going through).

Our church is in crisis with True Mother Herself being persecuted. But if the central figure is not hopeful, then everything will end. The central figures are those who give hope. And True Father even in the prison, gave us hope. And True Mother is giving us hope that Heaven is with us and no matter what, we must move forward, and never lose hope.

All who came to meet Her, Mother welcomed with a bright smile. You must realize you have responsibility and be responsible for your family and your nation...

This sister left a good quote and she saw Father smile brightly, and she realized her self-centeredness, and then had a heart of gratitude for how amazing brothers and sisters of 2nd gen are.

Japanese brothers and sisters sang the song so moving...

This morning at 10am, we will hold the opening ceremony...

HJ Report said our purpose is hyojeong. Loyal patriots rise in the times of difficulties, not from the comfortable state, but while his nation was in a difficult time. Now is the Golden Age of the Providence, and the great sons and daughters and patriots can be recorded in this time.

Rev. Won Ha Ju lecture told me he is writing a book about the greatest people of our Unification Church, and I asked him to write a good story about our brother Chun Man Oh. You must not sigh in the difficulty but become loyal patriots.

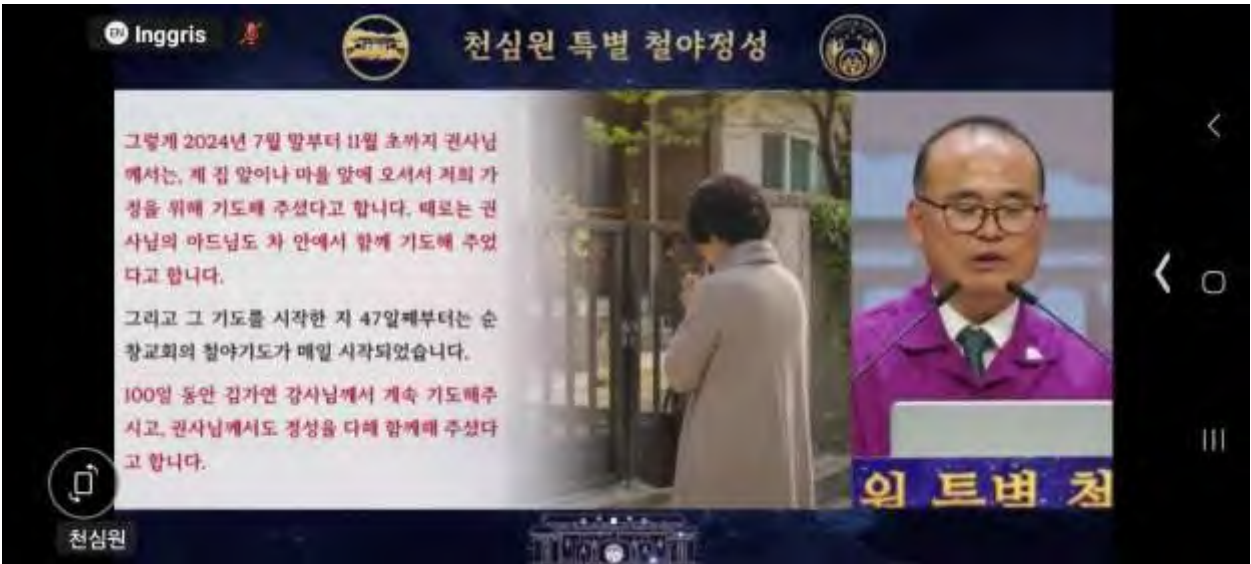

There's a son attending his father in the restaurant, and when his father was dying, he cut his hand to let the father be better, and eventually he gave birth to 8 people, and there was another woman who followed her husband when he died. You must be listed as the loyal sons and patriots. Push yourself to do that prayer you didn't feel you could, pushing beyond your limit so that satanic will separate from you.

That's why everything is Hyo Jeong filial piety inside its name. Kim Yong Jun shared about the environmental restoration activity. It was really dirty, and the people around that area did not want to

clean it out, even the city and town officials. But they were very moved and gave 50,000 won for the trainees to eat something well.

This river flows down to Seoul, so the mayor there should be grateful for this cleaning. Our brothers and sisters activity is resolving that the Gapyeong County is the homeland of Heaven so that everyone will look forward to this place and Korea itself will be known as the Homeland, and the culture to spread, so that H Japan has that culture of True Parents's Intention in an amazing step forward more and more.

If all of us go out to serve Gapyeong County, they cannot help but believe in us, and we can move their heart.

The Hyo Jeong Tree prayer gathering is very important. I hope you will offer prayer when you touch the Hyo Jeong Tree and Mother said if you do, you will be healthy. We found the Father's Tree. If there is someone with you, offer prayer gathering and the amazing history will come down to you. People gather to offer devotion for the villagers and I think we found the right tree. And I hope you offer prayer there.

The poem, 'A Hole In a Sock' and I hope you set a goal and accomplish it and leave something behind from coming here, truly it is amazing grace. But no matter what words, if you don't practice, it is meaningless. I hope you will practice and then you will surely bear the truth.

Let's have faith as never before, and I hope you set a new start tonight, fulfilling Pledge 8, or else we cannot release the Heaven Realm. You must enter the position. You cannot go to Heaven making intimate relation remaining with satanic, envy, jealousy, and resolve not to listen to what you are ill feelings with, you cannot enter Heaven realm. You will be pulled down unable to enter.

We have 3,320 spirits attached to each person on average, True Father said. True Father told us all the methods to fulfill and release all negative things. We have all the methods and benefits given by True Parents. And when True Mother comes and hears this, we will face great revival and hold this vigil at the World Center, and then no one can block the path True Mother is walking and we are walking.

I hope you see the victorious vision first and Heavenly Parent and True Parents are waiting for this day, so to prepare ahead of time, just as True Parents prepared to give birth to humanity. If we move forward with faith, you will see the day of victory is already prepared, for True Parents and for us. For the

manifestation of True Parents, the first and 2nd WW broke out, to lead the Providence of True Parents, True Parents met this situation. But because we couldn't liberate our selfish desire, True Mother is walking such a course now, but I hope you become such children of new beginning tonight.

Prayer and Praise

Secretary Pang Sang Shik prays

...We held the commemorating ceremony... The reason why TFs established the FF was not for a religious order but to re-align ourselves so that we can become true children. Since then the path was never comfortable, as Christian foundation could not attend, True Parents did not walk the glorious path, but They were mocked and walked the path of the cross, but True Parents never complained or stopped loving even Their enemies, and please let us inherit and realize that Heart...

Because we followed True Parents, we were persecuted, but please let us realize the Truth of this path of Heaven. True Mother is still detained, so please allow Her to be liberated and released as innocent. In front of True Parents's Authority, we were ignorant and we did not offer prayer properly, and we repent with tears, so please forgive us, and allow us to cling onto True Parents so that we can liberate and offer more prayer with life-or-death determination. Please work through us.

Most Honorable Heavenly Parent, please work so that those religious and righteous people will come to know True Mother correctly. Please work. Let them realize the path for the nation and world to live is to realize Heavenly Parent's Dream with True Parents. Let the flame of Cheon Shim Won burn again. Please eliminate True Mother's Tears and Suffering. Let us with the Inheritors and 4PF True Father together go

the path of true love. Please work...
