Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

I offer my gratitude for the grace and love that called us to this Place where Father waits and Mother embraces us. When we think if True Mother Who has walked the thorny path of tears and blood of a cross for 268 days because our devotion wasn't sufficient, we cannot hold back our hearts filled with inadequacy, sorrow and remorse.

True Mother, even at this moment is praying with Tears and we know the desperate cry of Jesus with Tears and Blood, 'Could you not watch for one hour, watch and pray for Me?' Please allow us to hear the voice of Jesus at this time, appearing asking if we cannot stay awake to pray at Cheon Shim Won to pray for Mother, HMM, True Mother. Let us hear the earnest cry of True Father, and we will pray today, tomorrow and always. We too will reduce our sleep to pray, even weary and exhausted, we will pray with a devotion heart, strongly so that True Father can world and the entire SW mobilized.

Just as You said as a war and not be destructed but pray like war to fulfill Mother's Words, and we believe a miraculous work will occur and mobilized SW will work and we pray for HMM and Her swift release as innocent, in gratitude

She bows

First, gratitude to Heavenly Parent and True Parents of HEH

I Yon Hwa... youngest daughter from Yongwal Church...

During school days, due to behavior of someone obsessed with me, I suffered from personal contact of

personal relationships. I began to change in university where there were 2nd gen members and hearing the testimonies of various trainees, I had the desire to go to Workshop too, and while hesitating due to the cost, an accident gave me the money, and it became a time to heal long-standing trauma and my faith.

Want to be at least a little help to Heavenly Parent and True Parents Who let me enter, all I could do was offer devotion for Mother's sake, but my heart was shaken by the reality I face, and on the 40th day, my heart was heavy as feelings of regret kept surfacing for my own inadequacies, not investing my full strength when Mother is so suffering.

A Voice came, 'You must not leave yet.' And that is how I made the resolution to go to the academy and assigned to the goods team, where I could see members up close to give love, and it was a precious time...

I had a dream that the area around the cafe had a red carpet with people dressed in white standing on the red carpet. I woke thinking how could I serve these people and then was assigned to the Cafe.

To help it settle down from the early days, I poured myself into it. Then I was able to live with a joyful heart thinking I was doing something for Mother, but then when there were customers who had negative thoughts of us, seeing the photos on the wall and saying it was a Unification Church cafe. But that made me feel about Mother's suffering so much more not comparison.

I could never give up on the cafe established to give joy to True Mother, and with determination to change the negative perception of our church even a little, I poured my devotion no matter how exhausted I felt (tears) but I thought to question whether I was pouring devotion in the coffee, and someone said that they tasted my nervous heart anxiousness also in the coffee. I tried to overcome it through prayer and devotion. How to convey only the love, and the process was not easy, and at times I wanted to put down the academy and leave, but talking to my mother on the phone, she mentioned Yona, was becoming more positive from being so negative for a long time.

I was encouraged to want to offer victory for True Mother, and be the channel of Her to their connection. As I poured myself out, I began to feel HMM's Love gradually, then seeing that the answer was not a grandiose way but simply being happy with True Mother's Love myself, not technique, heart of living for the sake of others myself. Thanks to my teammates, the number of customers has increased significantly, and I have hope to offer a report of joy to True Mother.

I hope Mother will return and leave behind all Her exhaustion and drink the warm tea and rest comfortably. Thanks to Heavenly Parent Who always guides me with Love.

GPP following 40th Workshop, following going to Japan to meet my younger sibling, and at my mother's house, she praying earnestly for my daughter, I heard a Voice say, 'Go to GPP.' This was the 2nd time, but I injured my foot and could not participate properly. I am grateful for this second time. I did bows and Hoon Dok Hae and prays for my daughter and then she attended with me following the tight schedule well.

I am grateful that my daughter promised to consider 40-day in the future and I felt my prayers answered with gratitude, and I felt I was becoming True Mother's Hands and Feet for the restoration of Gapyeong.

I have memory from childhood when I made rice cakes for children and when I saw the children enjoying themselves and being happy, my heart was happy, and playing the games and cleaning the streets, I felt a great sense of reward for every action being for making True Parents known.

We could only do this work for about 2 hours, and seeing the elders treating us with such care made me sorry. I could only experience through GPP, going out every day for a week, and my body weak, am grateful to serve True Mother.

Thanks to the staffs and pastors and wives taking care of us, and even Mother wasn't there I felt Her Heart longing for children to visit often and my heart for Mother deepened. I was able to visit Places never been to before and in June month of patriots and veterans, visiting the memorials and the Cheon Shim Won vigil was even more grateful and moving.

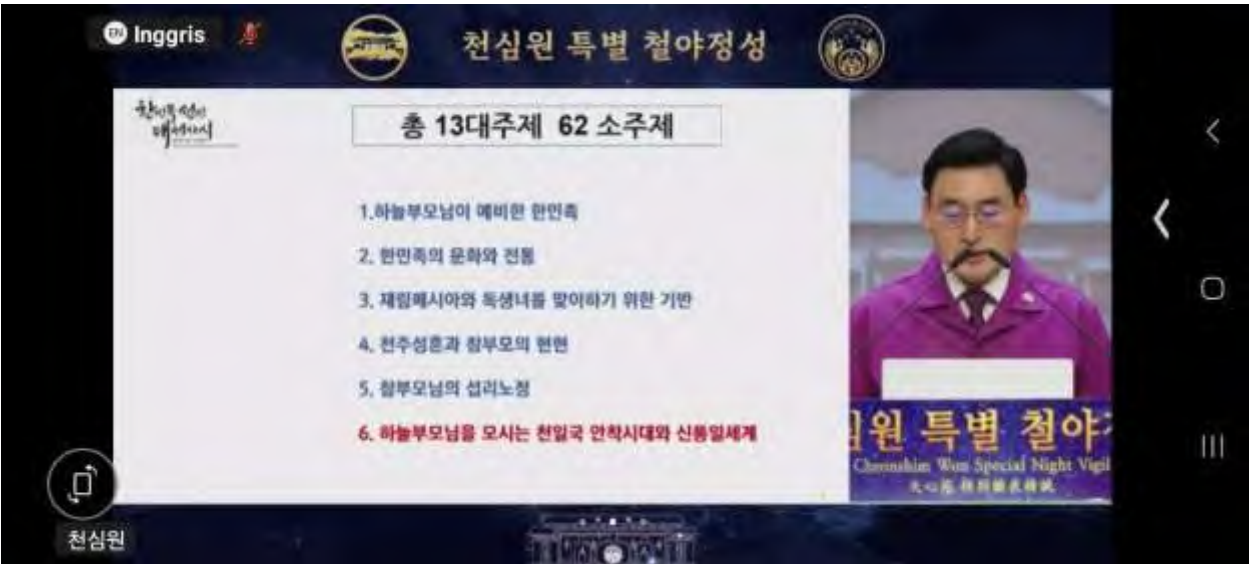

During the Epic study and explaining the works of art one by one, I could feel how much Heaven must have rejoiced, and the joy of sharing the drinks in the hot weather, like Heavenly Parent and True Parents protecting us (tears), not just volunteer time but the learn prayer, devotion and practice and I will continue to try to fulfill True Mother's Will.

HJ Report

Jun Yu San

Director of Education Department

I hope our devotion can bring Mother to return and my gratitude to all attending...

Epic 3-day Workshop:

Cheon Il Guk Chosen people, it has a meaning as a BF to fulfill Heavenly Parent and True Parents Dream. True Mother through the motto told us the chosen are not just Han people but those one with True Mother. Instead of studying the history of the past, how can we write our own epic history and centering on the climate how the land of Gapyeong can transition to be the chosen people aware of that.

Testimony question... We of the BFs are in the position to be the protagonists to continue history in this very moment...

Contents 13 main and 62 sub themes... vast knowledge... so condensed it to 6 main themes.

- 1. The Han people prepared by Heavenly Parent
- 2. The culture and tradition of Han people
- 3. The foundation to receive the 2nd Coming Messiah and the OBD

- 4. The Cosmic Holy Marriage
- 5. The Manifestation of True Parents.
- 6. The Providential force of True Parents and the Era of Settlement of Cheon Il Guk of Heavenly Parent and H unified world

As chosen BF is #6 Attending Heavenly Parent and H unified Korea.

First, through Cheon Shim Won devotion N and S unified, and first Gapyeong must be unified. True Father must Personally take the lead. Cheon Shim Won must become the mainstream of the Providence.

Cheon Shim Won devotion began from 2018, but this June 2020 True Mother gave us these Words.

Dedication Ceremony, True Mother told us we must, we should have restored the nation, so at least set the condition to restore Gapyeong for a foundation. That is important until the 60th Heavenly Parent's Day. So, to do our best.

As I studied to history, the more I can feel that GY is the center. So, True Father said this Place must become the homeland of the world and all humanity in 1970. And True Father rooted the Cheonwon Complex as the Center, and True Mother wants this area as the capitol and gave us many Words to create the Heaven realm on earth.

The epistemology of the 'Ka' in Kapyeong is synonymous with 'Kan' which means the chieftain of a tribe

And in Puyo and... the king was called 'puha' so meaning is a peaceful village ruled by a king.

True Mother told us that the Cheonwon Church must move forward to become one with other churches. In order for Mother's Words not to fall to the ground, we created the GY Peace Project and GPP members dedicated for the Opening Ceremony, and it moved my heart deeply. Gratitude to all who attended, but after the Entrance, the # of participants dropped significantly and the standard that Mother wants is not yet established, and we also made a promise with residence, running anywhere unconditionally all the time. applause 15 members to the

Since the founding 2024 9 27, we had 1,200 volunteer activities...

With 3 days the effects the same as 40 days for more and more members

testimony: He is a taxi driver wanting to witness, sharing at least one word about True Mother. Cheonil Sanctum as the same sound as 1,001 and he read the letter of gratitude to his wife and 100 roses...

And this time during the 3-day he said grace made him realize gravity of Providence and establish his faith compass to live a life as a proud chosen people.

The District Leader saw the change in the member and said same value as 40-day. And this photo was

sent to me with various members offering prayer and devotion near the azalea that bloomed again, where CY yoksa takes place and I believe this is a way for Heavenly Parent and True Parents to send their love.

We had Epic lecture and 2nd day volunteer activity the entire day, and third day we went the Cheonwon Gung Cheonil Sanctum and thought about blossoming our own life, centering on this Epic. As we rode the bus with 46 members and here's the video:

Applause

Centering on PL, the Opening Ceremony. He explained 5 reasons why the Han people are chosen and why mansu is important to pay indemnity, satanic has no place and will flee. The shouting instantly severs satanic accusation. We must set a position to overcome the indemnity, and we can overcome our trials through Oeg Monsei, and the essence of the chosen people is to realize they have the responsibility and not leave indemnity to their descendants they leave behind.

testimony to come to the Workshop is that True Mother emphasized it a lot, and I thought I attended it well, and going around to the monuments, a lot of people sacrificed their blood and life so that we could attend the Appearance of True Parents, and I was able to feel more. From now on, we should truly understand and fulfill True Parents's Words to all become the chosen of Cheon Il Guk.

I, (Jun Yu San) did two lectures... True Parents said the Korean War was beyond the nation to protect God's Providence. On June 25 1951 the Korean War broke out and a time of retreat to the mountain Urok... to the right and it is one of the holy grounds of Hyo Jeong Cheonwon... Our soldiers fought there and defeated the Communist troupes and then 3,000 troupes defeated 20,000, which happened at the Beoktown of GY.

The battle of GY laid the foundation for the victory, along the Seoul Juchong Road to safeguard the line... Because of that victory, our Korean army could regroup a Korean defense line, and that's where the Cheonjeong Gung is, so our Korean armies are stationed there and the Pyodongwon, the Twin Mountain. the forefront of the war. The Yongmulson Battle defeated a Chinese army, which lost the spirit to move forward, and they retreated (last defense line to protect or they would have lost the war, so they put it in their hearts that they would die here)

But because our troops could create a great victory, Yongmon Battle Monument with great significance. So, because the Chinese lost the battle, they signed the peace treaty instead of keeping pushing with the war. And 4,000 Chinese Communist troupes came down and 240 people defense, not a single one died but the Chinese were killed and captured. With the heart of dying, they waited for the right moment to fire, reminding how True Father waited and waited for the right moment to catch a fish.

At Buktown, going to that mountain, it says it is the center, like where our human belly button and coming down is Hyo Jeong Cheonwon... and that's where Mother's Womb is, the militarized line (within 35 kilometers) without which our Cheonwon Complex could not exist, and a regular citizen cannot go into that area. It is Mother's Womb and Cheon Shim Won is like an ambilocal cord supplying nutrients and the lake like the am bionic fluid.

So, on the next day we toured around GY Town and experienced GY, prayed at the monuments and went to Gapyeong Church and had lunch, and visited the site of the miraculous battle. And we also attended the cafe and observatory. 700 soldiers are commemorated at the Memorial Tower, and there are hundreds of student soldiers under 20. They volunteered.

We offered the flowers and sang Im Jin Jong and Song of Unity, and offered one-heart prayer and benediction.

testimony: True Parents came on the foundation... We too are standing in the Epic history.

GY has a road named 'Peace Road' about 12 km long all the way to the UN French Italian Monument, Canada, France, New Zealand... Yellow mark is where Buktown Attendant Cafe is. UPF put a lot of effort to establish this road. April 25, 2022 it was established and this is the date the commonwealth troupes defeated the Chinese troupes, and we want to establish it as a Day of Peace.

video

PL Korea - the UN mobilized many nations to defend Korea in the war, 2nd war to seek God's Homeland... Democratic world fought....

This place was a farmland, but they created a road where 3 buses could come through. The door is closed but when we go there, they open the door for us, GY gave us the pass code... Hand-in-hand we offered the song of unity for our devotion... This is Buktown Attended Cafe and could experience it. Every April 25th, the Australian soldiers come and hold the ceremonial and they come here and we provide bread and coffee for free, and they were so grateful and last year they gave that cafe an award.

When you go to Australia, there is a street named GY and a GY Garden. I think Australia loved GY. And Pres. Tsumingte knows specifically, and he explained about the GY war. And our participants loved the drink and food at the Cafe.

On the way back, the Observatory. You can see and from now on this will become the Garden, like a park. We should not just watch but we prepared the volunteer activity, right next to the Town Hall, and for about an hour we cleaned and then moved to GY Church...and there is a restaurant and we had lunch and very happy, grateful time...

The painter usually would only explain about ten minutes, but because of GPP members and Epic people came, he explained for 30 minutes. Years ago True Mother directed him to create this painting, True Mother insisted even he felt unworthy and he heard a revelation, 'Do not worry and just go' This Cheonil Sanctum 14 art works, the foundation and Entrance... need a special method and it combined Western and Eastern methods and explained True Parents's Life and Birth and history.

It began with finding 16 members who were connected. Usually one piece takes a year but in a year and 6 months they finished all of the, one time he was told to try, and with the conviction and just push forward, he selected 11 2nd gen and every day like a thousand years, he finished this piece. Through this process he had to experience a moment when he could not see well, and all the 2nd gens hurt their back and had to undergo treatment... applause

By looking and hearing the song, I could understand about GY... Many came and sacrificed offering their heart. Land of death and land of life, and I could feel True Mother's Words and tradition. It's about understanding what Heaven desires from you and resolved to live like that, finding my mission by emptying myself and pushing forward.

For me the 3-day allowed me to regain my dying heart, thinking what to resolve and center my devotion on, the dream of Heavenly Parent's wanting to return even one more child came.

testimony: At first I attended without knowing exactly what kind of lecture it was, but I realized how much True Parents Loved and protected this land, and we are the name-callers of the Providence. I could not easily come into the Blessing, but learned how important the Blessing is and into the 3rd and 4th gen.

Heavenly Parent prepared a teaching prepared for every person attending. Such a person lacking like myself, it was not me but Heavenly Parent and True Parents allowing me to come here and experience Heavenly Parent's Dream to create one family under God, and I hope you come and experience, and I truly hope True Mother can be released as innocent and we can realize True Parents's Hope and Dream... True Mother, I love You

True Mother's Words: We must let it be known that we are the chosen and the greatest result from crossing the final hill. Now a new Providence can unfold, and if not, there is indemnity. BF's must step forward first and fulfill their responsibilities and then H will work.

We must reflect ourself and our lives, so let us reflect the climax of Cheon Il Guk chosen people.

We must not forgot the heart-breaking history of Heavenly Parent and True Parents's Course. The Ceremony of the Offering on the 6th Day of the 6th month in 1960, July 26th of the solar calendar at the

HQ Church in Chong Pa Dong Seoul. It was (1963) a Ceremony to reclaim and offer back to God all things in the universe that had belonged to the realm of Satan in the realm of God's children.

True Parents retroactively dedicated the first day of the lunar month as the annual Day of All Things. They set this date following the Day of the Conclusion following the Declaration of True Parents's 3-Year Course as the Day of All Things. In offering this Day, the path leading to this Place where you are gathered, this is a path of tears. It is a Place of Tears that cannot cease no matter how much you weep, a Place of wailing that cannot be described, a Place that cannot be blocked by anything.

This is a Place where you inherit the entirety of God's Sorrow.

You must hold onto the conviction that you will build the foundation to reclaim all things which God originally intended and offer them back to the entire universe as the object of God's Joy. Only then can you become qualified to attend this Place.

We must not forget the heart-breaking history of Heaven. Heavenly Parent, this offering is a sacrificial offering under the condition of dedicating all things to You. I offer this money to You symbolizing the entire cosmos, and it is the most humble condition to ask You to resolve the sorrowful 6,000 years, knowing that You are a Parent Who does not look at the material itself, but only at the heart behind it, I offer this condition unto You. Tears of Blood are mixed into this.

Because Abraham offered his sacrifice incorrectly, everything fell apart. In the work we are doing at this time, all sorts of Providential history will take place. There will be those who sell their own blood to give, there will be those who trade while suffering all sorts of hardships. Whenever we witness such history of works, we must stand in the position of shedding tears.

In 1961, I have a Cheonshim won Heavenly Victory Boat. In America, I began building boats to ride and spend my whole day and whole Life riding them. I went out at 5am and returned at midnight, rain or snow. I went out almost every, single day. It was not that I went out to catch fish. It was to offer devotion.

All things are our third parent. Therefore, we must become people who can love all things just as you love your own bodies. Before a Loving Owner, all things are bound to follow.

'Let Us Go Back to True Parents'

1,587th Cheon Shim Won and TY for coming. About 40,500 are gathered.

268th day of True Mother's trial and we offer our devotion. Our members are connected centering on Cheon Shim Won devotion. Throughout the world the members heart and will are gathered through Cheon Shim Won devotion. Please allow it to be a sacrificial offering as True Mother walks the Course personally, and I hope it will appear as Heaven's glory.

testimony... meeting a person was difficult for her but to the university, she met other 2nd gens and wanted to go. She received money from an accident, and that breaks my heart. I wish the churches would provide the money for a 2nd gen that wants to go, and that money is not actually a loss, and if the church cannot pay, please contact us. I will somehow support you. Aju?

At the World Mission HQ, we have our Directors here and a lot of leaders here. If there are members who cannot go and tell you that they cannot go because they do not have money, please contact us to see about support.

So, she was able to fix her trauma and make the turning point of her life, and although they faced a lot of difficulties, she felt here devotion was lacking, and that remained in her heart, and then she joined the academy.

When we offer devotion, we should reflect whether we have fulfilled it or not, or else we would become

more distant. When members resolve themselves that they must go to Africa, to Europe, and there are members in Africa who went and members still connected to the Main HQ to offer devotion, and our elders should always think whether their devotion is sufficient or lacking, and if you become that way in your life, you will be sent to the SW with that victory.

There are members who worked at the TC in the past, and the difficult Place was the TC, and people thought of it as pitiful to be there, but now they dream to work at the Cheon Shim Won Office, but there are already members working and we can only hire when there is an empty place, so the Yeongseong Academy resolved and we must make a base, so 5,000 won has been, so they were able to prepare the Hansaraga Cafe.

In that place, many restaurants were unsuccessful. And the dream of the people in white standing on the red carpet. And she was put there to work, and when she heard some customers say bad words, 'Oh, this is Unification Church cafe. We should go out. We shouldn't come again.' So, these kind of words would have been shocking, but she did not stop there. Even I am facing difficulties like this, she thought of Mother. And she continued to put a lot of effort. And the members should run all aspects of this sacred community.

Our members should open a restaurant too. And from now on, moving to Seorak town and leave the impression of how amazing Unification members are. We should create the Heaven realm wherever we go.

Even there was a customer who had a sacred heart, 'Oh, I feel your love but also I feel your sorrow.' If you make conversation to reach out to that person, and that is your devotion.

The father went to a vigil to see his daughter once. And probably our sister will be very happy today, trying her best to make sure that people can feel the love. And now they have so many customers that I have to wait many times. The spirit of investing is investing whole righteousness, co-righteousness and co-prosperity. Investing and then forgetting about it, with devotion again.

Now they are prospering, and if they expand, a new job will be open for our youth.

Testimony: As she offered devotion for her daughter, deep from within her heart she heard a voice, 'Go to

GPP Workshop.' And at GPP she offered devotion, 21-day Workshop and 121 bows for 20 days and Hoon Dok Hae and her daughter was then able to attend Workshop... She also joined Epic history 3-day Workshop with grace and tears.

This Workshop should have been shared earlier. GY County is where the 1,200 activities have been done. The Corps has created an impression with their sincere heart and are connected to HMM during this amazing time. And if they come and look around, I'm certain they will have a great sense of achievement. How much blood, sweat and tears has Heaven shed. Every single thing would have you resonate with that heart there.

1943 is the year when this was established and coinciding the Hyo Jeong Tree, everything not coincidence but for a reason, and I'm sure there would be the experience of goose bumps too.

This is a Workshop for spiritual experience. Yesterday was the 72nd Anniversary of the FF, and before that when I was President of the FF, it began with such a small house, but True Father offered prayer as if giving message to thousands of people, crying and offering prayer earnestly, and filled with the Holy Spirit, everyone cried together. After the Korean War, when they couldn't be one with Father, He had to begin everything anew.

Yesterday, when we sang the Pledge, and if you know the meaning, we are still pioneering, and all the leaders must think about these words and move forward with BS and Ts. From the beginning you should be earnest resonating with how True Father was in the early days. With this spirit, if you pioneer a church, Heaven's Will shall be done quickly. We have a long way to go, but if you are thinking, 'This is good enough' then you will be in trouble.

True Parents told us, even in the smallest place, a representative must offer a global-level devotion. Next, shouldn't be come out from a slightly larger house. This way the FF has grown big. This is the mainstream belief.

Establishing Cheonil Sanctum is a base from a cosmic level, and to unify the entire cosmos, we must make that the Central Place, and always have the heart to make a new start. Compared to the foundation in 1972, we still have great devotion and then Heaven would give you great authority and work through you to be victorious over great trials.

Yesterday, we read, 'Father did not speak even though He had a mouth, not because he has no spine... but saying 'How can this not be at least the indemnity for world restoration' I intended to walk that path because such a person was required, and I founded the HSA for the Unification of World Christianity.

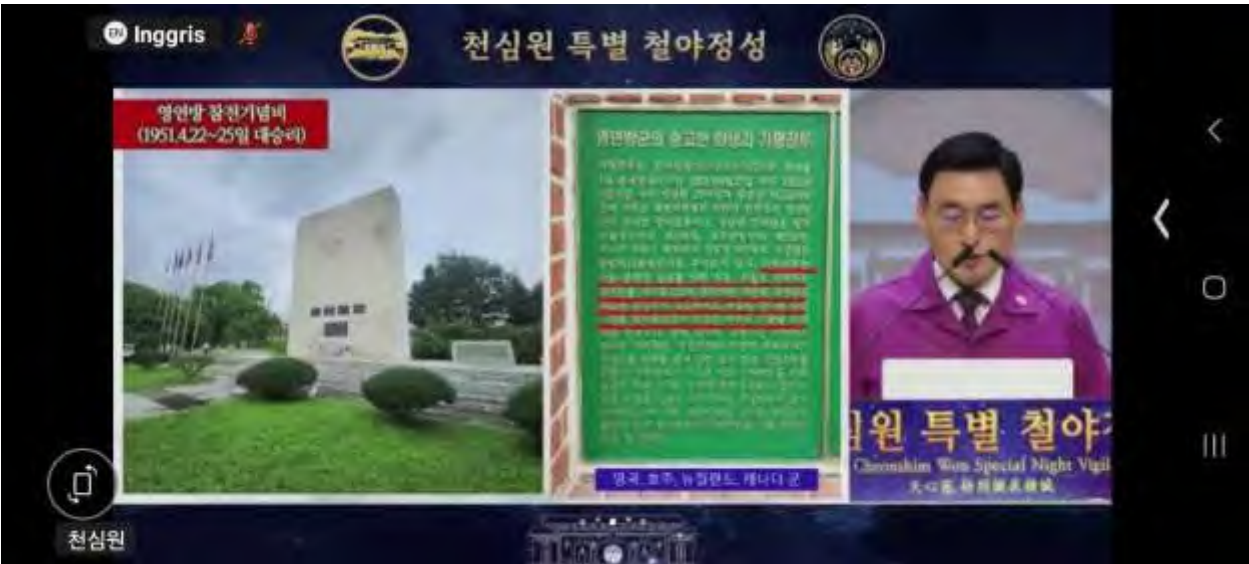

So, True Mother's Words as a conclusion on April 18, 2026... We must let it be known that we are chosen and I hope all of you think we are crossing the final hill. Even you live all your life respected by many people, if you give up in the final times, you lose everything. If satanic takes away people in the final hill, we should shout out Oeg Monsei until the day we die, boldly and strongly without wavering. You must have the heart to attend how the new Providence will unfold. The Will coming down and judging, 'Look what's going to happen'

The Christianity was formed to unify the entire civilization... You must know your responsibility to completely become one with HMM. BF's must step forward first and fulfill their responsibilities, and then Heaven will work. Our Cheon Shim Won devotion shows how Cheon Shim Won is working, and the family fulfilling makes the amazing work of Heaven unfold. Then you will see miracles as Heaven comes down to unfold the Word.

A trainee received this Message from True Father: Heaven is working so that Koreans can put away their hands from blocking their ears and eyes.

The fact that the sister received a voice for her to go to GPP, that is the work of Heaven. You should push yourself much more strongly and go forward and the time of victory will come soon. Until the end, push yourself forward.

I Gi-seong, push forward until the end, True Mother called me and shouted and scolded me. After the Ceremony, I went to True Mother, and She told me to say something, and I copied it. And whenever True Mother had difficulty, She would shout Lee Gi-seong, and everyone outside ran inside thinking something is wrong. When True Mother was in tribulation and hardship, what have you done? You might hear HyoJN and HeungJN's thunderous voice. We must hear them say, 'You did your best.'

Even people make rumors about you, you must do it properly. If you don't offer properly, then no matter how much you offer satanic can take that away. Devotion we offer properly can reveal Heaven's Power

and Authority. So, as central figures of the Providence how important our R is. You are the messiahs and tribe leaders and you must offer and do it properly and then all the days of loneliness will disappeared and you will have days of happiness. Mother will absolutely return.

So, we must always open our ears to what True Mother is telling us, and if you make judgments and complaints, that is a problem. You must live aligned to Heaven to be happy. You heard the testimony of them saying, 'I'm happy. I'm happy.' And True Mother will say, 'That's right. Although you were in hardship, you are moving the nation and the world.' And such of our prayers must be offered so that that work will occur, faith upon faith from the past and stand on top of that faith so that unprecedented faith can come down.

I hope you make this time such a time...

Right now Heavenly Parent is listening and for True Father to work, let us raise our hands
