Bow and Pledge #5 and 6

opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

At this night, as we attend with a longing heart in front of the 1,588th Cheon Shim Won Altar, we are grateful we can offer our bow to you. Please allow our spirits and our soul to meet Your Heart. We truly desire. Tonight, instead of being in a bright Place, You are trying to search for your children in the dark and in pain. Please bestow Your healing, someone in conflict or unfilial, please work for them to become filial.

As time moves on, deeper and wider from the result of devotion. As we come that the wall between N and S Korea will break down and the time centering on Heavenly Parent and True Parents will come, please as soon as possible and overcome in Japan for the H Japan brothers and sisters one and a true Mother nation, and open the H unified world. Please work for this.

Cheon Shim Won devotion is the motivational force to create miracles and change our characters and personalities centered on Heaven to ascend to the higher position...

video True Mother's Words

TY for growing well and receiving the Workshop well. You are the hope of the FF... You all have the credential to become not just leaders in Japan but global leaders...You are the children only when you are living the Words the Parents speak. For all the children to attend True Parents and advance before Heaven, they must receive the Blessing. For resurrection and new life, being reborn from Satan unrelated to the fall.

Therefore, I am very please that you are in a position to be filial sons and daughters before Heaven. I feel very glad. I have heard lectures and given many throughout the world that I am the Mother of the Universe, let us fill the Heaven realm on earth.

In particular Japan has a responsibility to the world. This era where one day is a thousand years, this is the time when your wisdom and hard work efforts are needed. Every aspect must strive in a direction that allows us to attend Heavenly Parent and move toward a world of one family. You will make this resolve, won't you? (Mother's smile is so true) TYVM

"The Grace"

Ah Ya Jinori

Cheon Shim Won TC

Testimony

400 BC

J TC

When freshman came to CP by my mother's suggestion and there was a member struggling after many wrongdoings and my body became very heavy, then tears poured and the Voice of God, 'I had no choice but to love such people.' At that moment, tears feeling deep the course of God to love even God's enemies in that 5 minutes. Through this experience my perspective of my father whom I had hated changed 180 degrees, beginning to think of him as a pitiful person and began to resolve my father's deep sorrow and for the restoration of my father.

My father dropped out of medical school after his conversion. He was a person that had highly respected expectation of the people and my grandmother lived with much finger pointing and criticism and said she lived as if her son was dead.

I visited my grandmother to witness to her on his behalf. Even when I came to Korea, I would take days off to visit her who did not easily accept me, not even considering me her grandson, but one day I happened to run into her and greeted her by saying, 'Grandmother' but when asked she said she didn't know me.

Even when I went to her house, there was not conversation, and I would clean especially the bathroom. I said goodbye and that I would come again, and she would say, 'Don't come again.' But I would come again with her scolding. One day there were bags of rice in front of my grandmother's house that she could not move and asked me to do it, and I was so glad, feeling moved from position of servant of servant to servant.

Afterward when there seemed to be mail from scammers, I would handle it on her behalf, and eventually we became close enough the talk late into the night, and she shared with me the numerous experiences and stories after her son joined the Unification Church, but she said there is no other grandson who serves her as I did.

From now on, whenever it snows or hurricanes, I call her and she says, 'When are you coming? Come quickly.' (tears) We are so close that my heart has such a desire to see her. I also visit the store where my aunt works and made the devotion of praying all night, including my aunt in my prayers and now my aunt received the education and is a member of the church.

I heard there was a dormant member among our relatives, a 6,000 BC, and I contacted them earnestly persuading to return if only for the sake of 2nd gen, even you continue to live as you have been... Since then, they have been attending church consistently and their daughter even received the 2nd gen Blessing.

Through this experience with my grandmother, I continue it with the restoration of Gapyeong. I received a strong internal message to engage in tribal messiah activities and I was assigned... That was an area where another member had given up due to the difficulty of pioneering. The residents there treated me coldly and I faced internal difficulties, and even deciding to go, a reluctance would arise where I did not want to go and let excuses of family matters or something for reasons not to go.

Each time I asked myself, 'Why am I here and living here?' The motivation for my activities is for the sake of True Mother, and I would brace myself saying, 'I must go for True Mother's sake' and head toward the village, and one day my youngest daughter I found lying down with a high fever and then hearing, 'If you continue you activities, I will not leave the child alone.' And I was afraid, but I continued my activities.

Then I had severe stomach pain without finding the cause. SW struck me hard. When I prayed about it, I felt as though the SW of the village was interfering to prevent me from working. 'Let's see who wins, you or me' words came out of my mouth. I couldn't eat because of the stomach pain, but I could still drive and headed to the village, just as I was.

Then there was a person standing there who was a new village leader, who welcomed me and offered me coffee, and the moment I drank coffee with him, my stomach and diarrhea, all the pain improved as if it were a lie.

That became a turning point with the residents attitudes changing little by little. I felt as if the SW was asking, 'Can you still love this village?' And the only resident who attended a church activity of ours was one grandmother, but I did not give up. The more difficult the environment, the more earnest I could pray.

True Mother said we must accomplish restoration of GY... With Mother giving those words believing if True Mother had spoken it, there must be a way and then the Senior Citizen's President attended an activity for the first time and afterward introduced me to the village head who also attended activities and

the Training Hall TC.

After the Entrance Ceremony, the atmosphere changed completely. Now, they asked what they should call me instead of 'Hey. Unification Church member' The village entrusted me with village cleaning and asked me to take care of the village youth and even to hold an event where we can cook for them.

Looking back, Heavenly Parent had already led me to walk a similar path, and I came to know that no matter how difficult a person may be, they can change if I push forward. Heaven would give Blessing. So I pushed forward to establish a standard and make my family in Japan a CheonBo registered family. Afterward, True Father appeared in my dream taking a commemorating photo with me, and afterward, we walked together side by side.

Through that dream, I felt that there is still a long path left to travel and I resolved to move forward even more diligently. Two weeks later, True Mother actually visited the TC and She took a commemorative photo with us, when we were introduced as the Japanese Workshop team, and I had an opportunity to join. I felt that that had completed me with True Mother on this earth.

Recently, True Father, HyoJN, HeungJN, I can feel them crying out to us, 'You must attend True Mother more than my devotion, more than my heart' and when I hear that, I feel it from my heart and I cannot help but feel that devotion and move forward... TYVM

(wow, I can't believe there's not bigger applause... so moved by this brother, so grateful for him, also it is like Pres Lee Gi-seongs course) applause

321 start... video of the Workshop grace

True Mother's Words:

These are chaotic times because people are not attending Heavenly Parent and True Parents...

Because we have created the era to attend Heavenly Parent, all problems can be solved through true love. The BF's must realize they are the chosen people and fulfill R and you must educate Epic, starting with H Japan that must inherit the rights to victory. I believe in J members and know the loyal heart of those who follow and believe even among difficulties. Please tell the J members that I love them.

We must educate about Epic and stand at the forefront. In H Japan there are members at the forefront and one of them is N.A.B.I., the butterfly effect....

video

As I attended school, there were 2nd gen criticized about their faith by the teachers. When we showed our insurance card and from FF, there were members being denied and ill treated every day. Because of the media framing us, living every day became so difficult and even there were 2nd gen who committed suicide. What we want to convey to you, this high court, I hope you hold it in justice to secure the freedom of religious in Japan.

I love Japan and that will never change and I and our members will show them how much we love them. As a J citizen, I want J to be a peaceful, happy country and contribute to world peace, and I will advance

with that heart.

The FF is not what should be dissolved and we won't stop to shout out with our voice that J must protect the Democracy and the family for a happy and peaceful and fair Japan.

Truly a video with great significance, as many 2nd gen face many difficulties but still do not give up and they stand up to show their names and faces to the world, and how hopeful is this.

testimony: This person attended 40-day of the wives and even now goes out to proceed with her activities. 'When the dissolution was handed down, I was truly speechless but I felt the Heart of Heavenly Parent and True Parents Who want to save these children, and also I watched some rejoicing by the content of our speeches. I always prayed for what Heavenly Parent would want to say through me, and I also was posting about the media and now one post received about 2 million likes and even difficult now, I will invest myself with the heart of loving Japan.

Like, this they try to embrace the people with Mother's Love, boldly going out as NABI. After dissolution, they still continue.

applause (where is the applause... can hardly hear it)

In every family, they are actively gathering together in places, even the church doors are locking them out. We are uniting our hearts to move forward and I feel that we have hope by this scenery of creating the hardship to an opportunity and our members try their best through family church with great hope.

Truly every family in J is pushing forward with conviction. They attend 40-day, and one reason for that is to offer devotion for True Mother, as many of them say. We truly hope True Mother can return to Cheonjeong Gung and stay safe, recovering health. As we gather in one Place with one Heart and Will and we offering a Tree of Hope gathering on the Parents Day in Korea, with this significant devotion:

video

(praying with hands on the tree, praying as couples,

Truly, as a representative of the Mother nation, the Mother Tree, to offer devotion there was so meaningful.

testimony: Thinking of the Hyo Jeong Tree as Mother, I felt just as Mother shares Her own things for Her children, I could feel that Mother's Love watches over the small trees to grow into the bigger trees. My heart wants to grow firmly like Mother and be a big tree to share much love.

To Her children, our True Mother gave us abundant grace and love. Every time we look at the HyoJeong Tree, this one seems to embrace the other trees really like the Mother.

trainee interview: Came to treat my stress condition, work and raising children and had to move to my parents' home and long hours of work, and anxiety and fears. I resolved to join the 40-day and the insomnia could dissolve but then re-occurred so I realized that the devotion I piled up was not enough to resolve my problems and I felt the evil spirit working, so I received the special ansu 5 times a week and am liberating the central spirits and then I was able to sleep well, and I could feel able to move, that itself was a miracle when I had fought with a fear, and didn't want to do anything in a lethargic state and had to liberate the ancestor and while doing this, I started to regain strength and could stand up again and overcome a wall I couldn't in Japan.

There are many things I tried before, but more what my heart is as I do the devotion here and I hope I can send the dark spirits to H Mother's Love, and to forgive myself, not self blame, and I might have doubts about being the victory, but I told myself it's okay to just stay here and push forward and no cause of forgiving but just being here is enough for H Mother. And these words, when I was in Japan, these are the words my wife told me when I could do anything, take care of wife and children, but my wife never blamed me but even complimented me that I could eat today and just being there with them is enough.

God for me was like a grandfather with a mustache, was my image, but through my wife, H Mother was already working like a 2nd Messiah, still listening to me and loving me, she is my messiah.

During the time when he couldn't overcome well, H Mother, True Mother, and the 2nd messiah through his wife, he could be new, and after the Entrance Ceremony, this shows how we can love for the grace.

True Mother: In J the J team Epic and True Parents's Life Course, we were able to learn deeply and meaningful for our J trainees who loved this lecture. Based on the Theory of True Parents, Cheonbumo Ron, we must reach out and testify and witness. And as our brother shared how he conducted activities in GY Cheongtown, testimony:

Only now could I realize that both F and M are included with the status of HM. I had just been calling the Name HMMH, without knowing the status in the true sense. I came to feel that the fact that Heavenly Parent had worked for such a long time and M had worked for such a long time as the CF and carried it through is truly the Path of Heavenly Parent and H Mother.

Just like this, the reason we learn Epic is to know the Greatest Gift of True Parents that Heavenly Parent gave us. We must understand rightly and fully about Heavenly Parent and HMMH to go out and educate others. Also, for our education to be more heartistically joyfully, we prepared the Epic lecture that holds the Contents that J never knew or experienced, the heartistic heart of the Korea, the cultural differences and for a J to understand is actually quite difficult, so our lecturer gave it so that J can understand, not about translating Contents directly from K to J, difficult to experience, but through this lecture what kind of heart and attitude the Korean people had been raised and they received so much grace.

By understanding the world of service in the past. Learning how Heavenly Parent could not be called Heavenly Parent, and felt the importance and preciousness of the culture of the chosen that calls God Mom and Dad, thinking of the Heart of God Who waited for an unimaginably long time to hear those words and I want to pray like that from now on.

The contents of the Han people, in order to understand Heavenly Parent and True Parents, it is so important to understand, we are experiencing that through the lively lecture. We also, had the absolute sex education, and there were some who wanted to learn the difference from what was taught before and now.

This, on the foundation of True Parents's Words, you could learn about the liberation and what to expect, this through Rev. Yokoi. And especially if you have been learning AS already, we see how to prevent the problems we heard of.

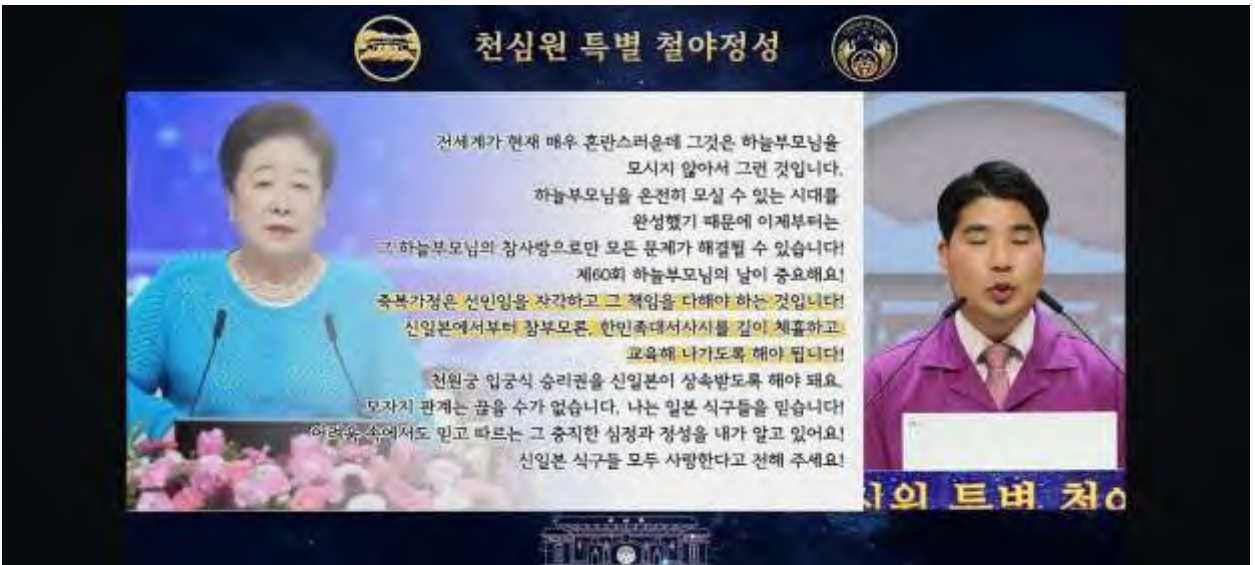

testimony: If only I had leaned earlier in more detail my parents, I resolve now to implement this AS education as soon as I conceive a child and it is important to offer this devotion before and after...

True Father told us to attend 3 WSs, but for 2nd and 3rd gen, they were supposed to attend before receiving the Blessing. Not only the spiritual separation but also it purifies the sperm and ova to sanctify and result in the birth of excellent children.

This is how we can understand that that is true. There are many WSs and all the problems even I attended 6 WSs and I have 5 siblings that my parents made possible to attend more than 3 times, because we love The Parents' Love and grace we received from the WSs (He bows toward True Parents) and I hope that you will think again about only attending 3 times or even only once...

This person in Japan, she listened to the AS Content talking about purity and I was listening since an elementary student, the sexual organ is not for myself but for my partner, and I've been working as someone who receives the babies and many were forced to give birth as a single mother even from being raped, and I thought this position was... having baby because of cheating, so people have been living so differently from the AS lecture in my own life and to educate as many as possible.

Secular people do not know about AS, so unfortunate events happen in their lives. We must create a happy and true family in which Heavenly Parent can dwell, and I'm sure it's important to emphasize.

Also, Workshop for the wives of the BF, specifically. Issues can only be resolved by coming to CP where members can converse with God, learn God's Face and have the moment where you can resolve all the problems. So, we know that Cheon Shim Won is hope. And in the 40-day, we have Yeongseong, Attendance, GPP WSs, but so much meaning and significance behind this Workshop. And Heavenly Parent really wants to see the children in this Workshop.

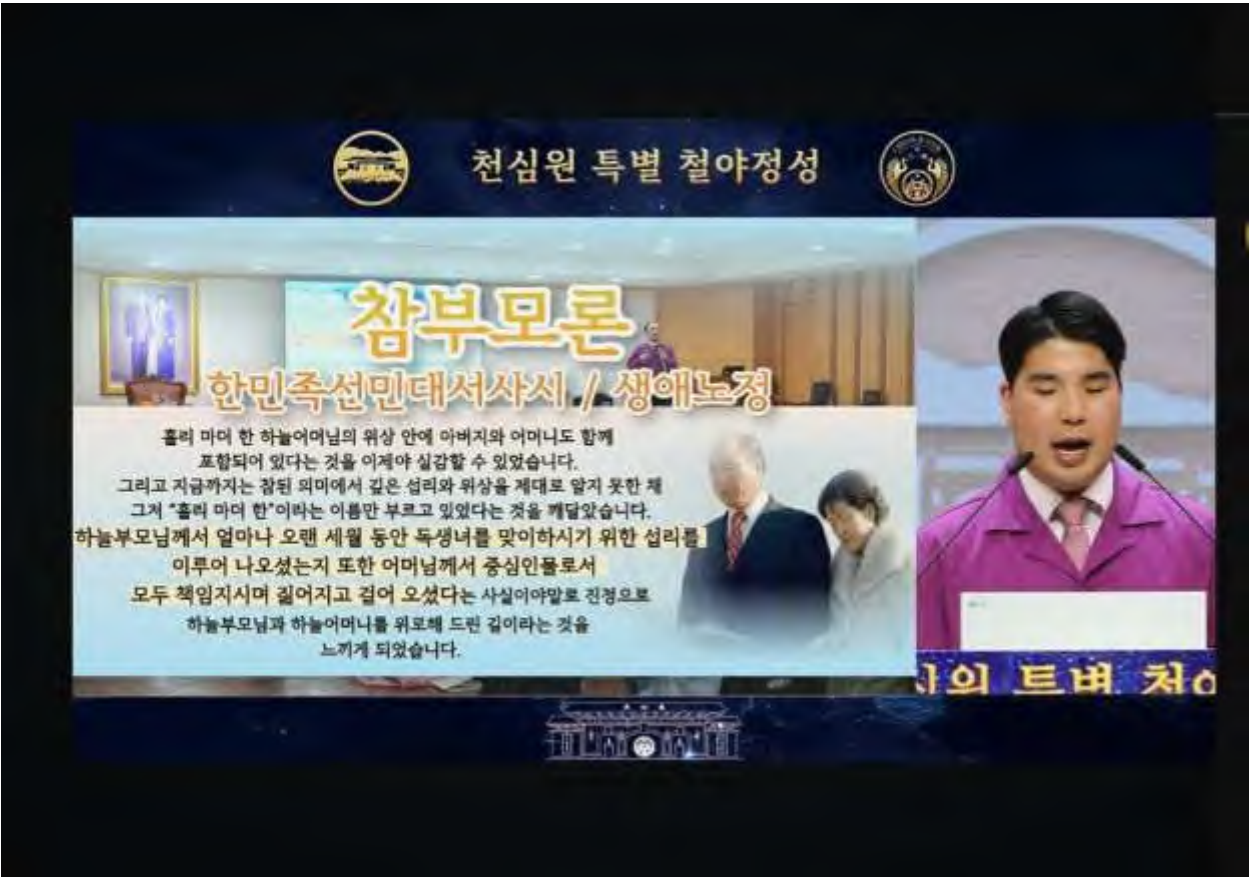

Trainee testimony: I experienced loneliness for 3 years not being able to conceive but grateful to receive this Workshop first for knowing both the SW and PW, feeling I was struggling alone and I lost gratitude, but thinking of Mother's Course, I said, 'It's okay, I can do it' and I felt True Mother saying to me, 'It's okay, you can do it.' I realize this moment is love and in an environment that Heavenly Parent can Bless like the wide open Gate. And I could think about the internal lineage passed down and why I have not

been able to have a child yet.

video interview: I wanted to support my husband's dream and should I pursue my dream or Heavenly Parent and True Parents's Dream. I realized through prayer that until now, I have been offering devotion for my husband but never really prayed for my husband, wanting to make his dream my dream, but didn't put enough effort into it, and I repented deeply, and I want to put my heart and earnest heart and prayer for my husband.

When I received ansu, I felt the spirit that came out, so that I could be stuck with sorrow and sadness. When I read True Mother's Words, and through the entire cosmos, such a Mother Exists Who came to save as only She can the entire people. From now on I no longer will try to love only with my own power but there is a Mother that wants to love through me, and I resolved to do it for my husband and then I received a lot of love and grace and realizing it exists for my husband, not calculating which dream should be the others, but instead all of our dreams are very important.

I hope a lot of people can come to attend the GPP and Wives WSs, Attendance WSs... This 8th Workshop 321 members came and the #8 is for restart, but the number was exactly the same as the first Workshop, and Heavenly Parent is truly working through the numbers and already 560 members have been registered and truly Heavenly Parent working and living through us not by coincidence. And from this Workshop, we were holding it twice a month. That's how we are re-starting and Heavenly Parent is asking us to love more..... applause

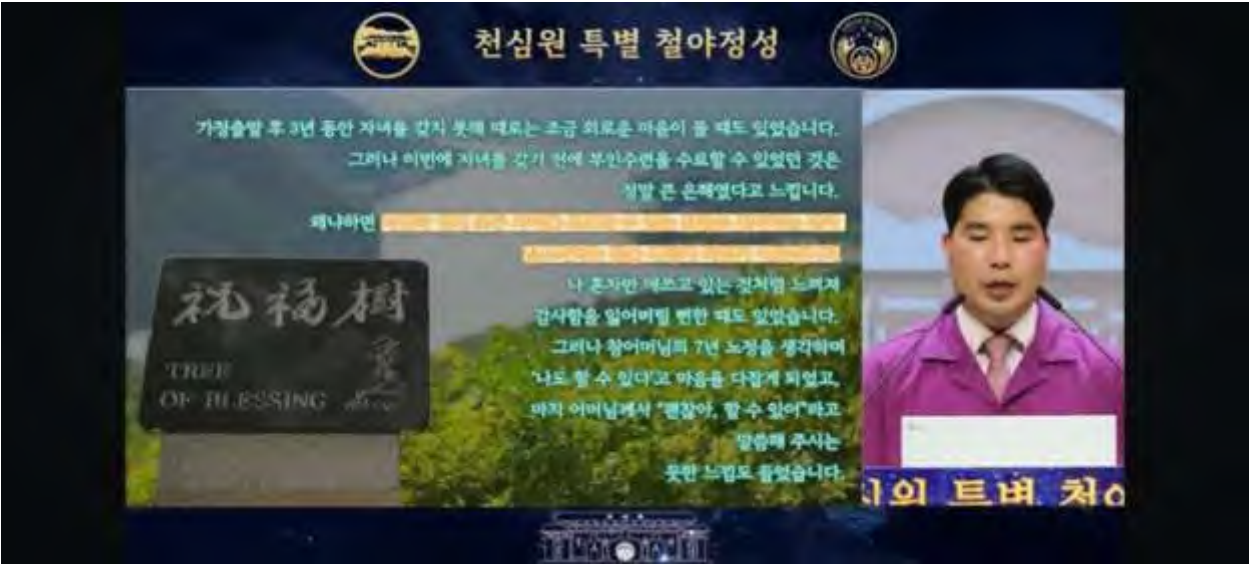

4861 trainees have registered until now through all the 8 WSs and until the end of this year, we have the goal of 10,000. We are preparing the August Yeongseong Youth Workshop, so we will have only 1 of our WSs. We are still recruiting until July 3rd, and we will attend them well, so that H Japan will be revived with a greater energy.

We will ignote our hearts as True Mother wants and H Japan will absolutely be victorious. TYVM

Break

Busking

Hoon Dok Hae

A world attending Heavenly Parent and True Parents will surely be realized. You have heard all the Words of how this shall be advance, now it remains entirely on your F. If you fail, you will naturally have to pay indemnity. True Parents have shown you the Example.

Although you live striving the attend the Word, there are the pitiable group who live distorting the word to be centering on themselves. If you only fulfil the R given to you, a free and peaceful, unified world will certainly be realized.

I walked the Path of God for the sake of Love, I wailed for Love, I walked thousands of miles for Love, I crossed the oceans for Love and I struggled to Love people of different races who cultures (who didn't love). There were many times when it was stifling and I wanted to pack my bags and leave. I do it because if I don't, someone else must do it. That is why I am doing it.

True Love begins by investing one's life and then forgetting about it. God is present there. God is the Love of Parents. It is to invest and forget, invest and forgive. Since the fall, God has continued to do so. God will continue until all of humanity is saved. What a pitiable God God is. Because I knew I must attend such a God as my Parent, I never changed throughout My Life, even when being thrown into prison suffering all kinds of insults.

True Love does not become a minus, no matter how much it acts. The output is greater than the input. Natural force has a smaller output than input, but True Love has an output greater than input. Therefore, Parents have invested everything throughout their lives and forgotten it. Then what happens as a result of True Love? The world gathers around.

If you think about how much True Parents have suffered on the public path throughout Their Lives and traced the history of human suffering, tears will flow from your eyes before you even realize it. True Love has the power to move all people and even the universe. True Love travels the shortest, direct distance. You cannot imagine how much Father struggled to find this Principle. I walked the painful Path of Tears where I had to soak and ring out my pants during the winter months.

To save humanity as God's children, one must continue even if it means stripping away one's own skin, cutting away one's own flesh, scraping one's bones and squeezing uot one's very bone marrow as a sacrifice. Because I knew the Heart of God, I was merciless toward Myself.

We must not remain descendants of Satan and leave behind Satan's blood lineage. You must deny everything of your own.

HJ Praise

Cheonshim Choir

'Our Promise'

Pres. Lee Gi-seong's Message

I wish Heavenly Parent's Blessing and grace with you always who are piling up the devotion.

To those of our elder pastors in their 50s and 60s of FF, I asked one of them who has the loudest voice to express (devotion?) for someone you know... (?)

About 40,700 brothers and sisters have gathered to cry out to Heaven.

Cheonshim Church, Iksan Grand Church are here now, Yangsan Church 800th vigil, Cheonon Church, Chanwan Grand Church...

H Japan Nagano in a small apartment 38 members gathered, including online 402 members... Cheon Shim Won Japan 700... When you gather, the more the grace of the devotion...

West Africa, Cameroon, among them 56 are continually connecting to offer devotion

It is truly amazing that we can offer praise together from around the world...

Today, long-term 270 trainees...

166 have sung in the Cheonshim Choir and I am and you can witness how much they are changing...

321... the same as the first and 40-day 123, interesting how the numbers align... I believe for a new start... Heaven is working through this providence.

In front of the DC, members continue 269th day of True Mother's course of trial, and we hope for Her safety and return... gathering in one heart for Cheon Shim Won vigil and as we gather the day when True Mother is released as innocent we earnest for coming sooner.

Testimony: Pastor of Kamikowa Church, he greeted members and for 3 days attended vigil devotion and with an earnest heart of members mobilizing True Father in SW, I was deeply moved and we called upon all the Presidents of Japan to wish for the release of True Mother. On that day, the dissolution was the shocking verdict and we had to go back to our home. But my wife said, 'Why don't you visit members house and call them?' And I started visiting them, and I felt that although we lost the external form, the church is alive in their hearts. Our members let me use their cars and prepared meals for me and with all their energy clung onto me.

Through the guidance of Heavenly Parent and earnest devotion of our members, we were able to borrow a third floor of a building and begin a temporary place for church, and that established on the 40th day March 16 and the thing they desired the most, Cheon Shim Won vigil, was able to be continued with the shouting of Aboji and Omoni, and as we were using the entire floor, we could hear children entire joy and laughter, feeling passionate and hot like the early days, and gratefully, the main Pres. Lee Gi-seong called

out Kamikowa Church in every vigil and the numbers increased now to 36 members

PL called our church as the very first to be called out... I could not help but feel all grace through this 90 days... In 1976 True Father visited and gave us the title of this place, and a lot of members have loved Cheon Shim Won devotion so dearly and I cry with gratitude as we push forward to establish H Japan and we will be at the forefront. We will become such altar...

So, it's not the time to stay still, but put ourselves into the attitude of prayer and practice. Do you know what follows? You will see the path, no matter how much you were discouraged, you will see that light as small as a needle at first, a great hope. If only True Mother would receive strength from us. Like this, all the churches are making victory, showing explosive revival, gathering more people and offering stronger devotion.

At this time, worship at Cheonyujon, our members are not sleeping and offering devotion right now, and members who are working earnestly to create the environment of Gapyeong, they went to offer devotion by fishing. As we offer the 4th fishing Workshop, it does not compare with the Cheon Shim Won vigil, because you cannot sleep the whole night, and you can experience True Father and Heaven's Heart, and when you catch such a big fish, you will receive such courage. The only way to receive this great strength at fishing Workshop...

Our pastor requested us to hold such Workshop and they went to the ocean and caught many big fish. One member kissed the fish and maybe released all the stress at once through that experience. We need all experience, as True Mother said to pray for you and your family and community.

Mother, do not worry about us. We are experiencing Heavenly Parent and we are running forward. Heaven has prepared everything already as we do our R, all is waiting for us.

testimony... 2nd gen 400 Blessed couple brother, a truly precious lecturer, but he had hatred for his father. He could let go when he went to the Tree of Blessing and there was a trainee making it difficult for a trainee to attend, and he heard, 'I cannot help but love such a member' and then he thought what an amazing person his father was, dropping out of medical school and receiving the entire village to sigh and point and be so disappointed in him.

Just like him, a filial son has to be established in the family. He liberated ancestors and made his grandmother surrender in true love. Even he heard the words, 'You're not my grandson.' and 'Don't come back.' It's difficult to come back and also cleaning the house.

We read the words that true love can solve everything. And the grandmother asked him to move the rice sacks, and he was so happy to go from servant of servant to servant to adopted child, to direct child so close with his grandmother, talking all night long so that she was liberated of sorrow in her heart and said, 'When are you coming? Come quickly.' And I heard that his father is still in the Workshop... applause

And he resolved to work as H tribal messiah, working now for 6 years and able to bring only one person. He heard, 'Let's see who wins, you or me?' Eventually, he went beyond one grandmother of the village, on August as he became the senior pastor, when I was launching 6 different towns, as our brother went to Seongnami, he brought 25 from the village to the TC and also made his parents a CheonBo family... applause

All the villagers have such amazing stories and we witnessed these results and GY County leaders and governors did not change their hearts after the detention of HMH True Mother, and saying, 'Please, when

She comes, let us greet Her.' That is because we have heros in GY creating the environment. Listening to that report, all the villagers, we should set ourself to work and have someone in charge of all the villages and every village and all the mountains have the environment and standard to attend True Parents.

Every village must be able to attend True Parents. That's how the nation should become. And as we set a base in GY, we must create it as a model and spread it throughout the nation and all the members who are here, they must resolve, two and three families in charge of every village so that we can overturn this entire GY spiritually.

So, please know that that has already been set by Heaven. And then they started to ask, 'How shal I call you?' His status was so changed in the village. He realized that the way of restoring his grandmother was the training and then the dream of the commemorating photo with True Father and then reality of a commemorating photo with True Father.

In the beginning when I said that we must shout to mobilize SW and move True Father to be able to come and work. And when he prayed by my instruction, he prayed so loudly that I couldn't understand what he was saying, and later I said he doesn't have to cry out loud but just offer prayer with a deep heart. The lecturer who feels Heavenly Parent's Tears the most is lecturer Hadaishi. The reason we cry out loud is to clear out the spirits who would stop us from resonating with Heaven. Father shouted so loudly that all the people of the village could hear, He spoke as if speaking to thousands, to defeat all the dark spirits lingering around.

If spirits come down to you, do you think they will go away without shouting out so strong, so powerfully. Your mouth should be able to spit fire and swords, so that satanic cannot take control over you. So, if you offer resonance prayer, cry out so that you can reach the standard of the deep heart of Heaven, and our brother has made that heart.

In the Japanese team he is one who attended the Cheon Shim Won devotion the most. So, Cheon Shim Won devotion is the greatest Blessing of Heaven.

The 40-day trainees in the past had grace but not as today. We started by saying just to let them join only on Fridays. We began like that. We didn't let trainees all join like now.

The trainees had a habit of holding onto the phone with obscene things. Then members let go of their phones to sleep early for the Cheon Shim Won attendance, and then many testimonies of their grace and cleansing and creating habit of Heaven's tradition even when they went back to their homes, and only then every church can find a path to live.

In the past, we did not have that standard, even Blessing, too many disconnected to the church. The deep roots naturally continue from the Jeongseong Workshop and Academy... and then going abroad, that itself is Heaven's guidance and providence, and you must be people who do not judge by your thoughts but deny ourselves to be guided by Heaven and not deny the Holy Spirit.

By attending Cheon Shim Won vigil, you can have your own experience, and I am trying to align everything that way. If you try to gossip, I am not the one who compromises with those gossiping. Even if I die tomorrow, I need to know that Heaven will be happy with me. But some say, 'Oh, I should not be living this way. I am lacking like this. My heart is distant from True Parents. My Mother is suffering like this. Why am I not crying?'

Once we reach that state of one with True Father, one with True Mother and Heavenly Parent, how you

can know the happiness of that. Even though you let go and abandon everything, you will still sing the praise and move forward. What is required is not just to be a smart person or skilled person, but to have the authority and blessing of being like your Heavenly Parent and True Parents. For this, we should always repent yourself, scold yourself, align yourself, have life-and-death devotion at Cheon Shim Won as if at war. That is what True Mother is asking us to do. That is why True Mother gave us the general-like clothing.

Right now, in this battle all of us need to become the leaders and children led by Heaven. I hope you have that experience from your devotion tonight.

Calling out / Fight Song

Chanting

Prayer and Praise

... all of the human ancestors, the path that you had to walk was too long, how sorrowful, how sad you have been throughout this course. We have finally realized True Parents, The Physical Body of Heavenly Parent, True Parents have liberated you from the sorrowful han of Heavenly Parent. In order to liberate you, They had to walk the path of BS and Ts and we did not know such Parents of Heavenly Parent and humankind.

We circled and circled around in front of you, truly unfilial, failing... Please allow us to repent at this time. Our True Parents of HEH Who Lived wailing, please at this time let us engrave Their Heart within our heart. Please allow, in the Place of Loneliness and Hardship, that sorrowful injustice She had to face, please work so that we can liberate True Mother.

Our True Parents of HEH should have been manifested as the Parents of Joy and Glory, but we cannot but bow our heads before Them knowing how They have lived. Please work so that we can be awakened properly through Cheon Shim Won prayer, we will rise, so please work through us. Through Spirit and Truth, through True Love, just like our True Parents of HEH, please allow us to live Your Way, and by doing so, we can bring True Mother fully healed and liberated to return to the Palace, so please work through us.

Although we are lacking, we will let go of everything, emptying ourselves and putting our lives as You have Loved us with Your Life. Please allow us to pay back the Love. Until we have reached this devotion, thank You for allowing us to offer our devotion from the bottom of our heart.

PL who established this Cheon Shim Won, we will become one with him and absolutely fulfill Your Words, we will become such children and move forward above anything else become one with Inheritors and 4PF True Father and realize the H unified world with our hands. We will move forward with that conviction. Please work through us. Gathering our prayers and devotion offering all these words,

leads

We received the message that Cheinchong Church must be at the forefront and we pushed forward with the peace messages on the street and we will continue

TY (and we love you)
