Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

I offer my sincere gratitude for allowing us to pray in this Place Cheon Shim Won. True Parents have endured countless hardships but They have never abandoned humanity and Heavenly Parent's Dream, unspeakable times comforting Heavenly Parent while revealing the Truth's sure hope to be revealed, saying not to worry about You but to pray for the Unification family.

How to lift our heads before You, as direct children resonating and resolving every problem one by one until we return as H families, nations, and unified world that True Parents so dearly wish for. If the 1st then the 2nd then the 3rd and 4th generations will inherit Your Will, even the times painful when we come to a halt... Your sacrifice, may it never be in vein. We will surely achieve victory through Cheon Shim Won devotion, giving love to our communities so that HMH will open up our bodies and preside and work through us.

If we never give up, True Parents will never fail to work through us.... For True Mother's swift return safely...

'Wish'

The wight of life on my back makes my whole body ache
I have to deal with it every day
I didn't even have the time
I've been busy all my life
My legs hurt

When I'm tired and lonely
If you could listen to me a little bit
One day, all of a sudden, in the middle of time I didn't think I had
It's not a big one. It's a small one
Hugging me who is tired.
'I love you. I really love you.' If you tell me that

If I walk in the desert, I'll think it's a flowery path

We're not getting old (our love) is getting cooked little by little

The only Person we should go up there with is our True Mother

Aloha... Now you know where I am from, a church leader 1 daughter, 4 sons and 3 grandchildren.

(they said Aloha back during translation)

I came to resent myself vertically with True Mother and Divine Providence and family life, was first, and the second was to find closure for one of the most painful experiences of my life.

One week before, I conducted the Seonghwa for my biological daughter, 2nd gen that we offered to another family... 8 days before her 31st birthday, she passed.

Ron's life was marked by instability, moving often, she struggled with bonding with anyone, diagnosed... feeling abandonment and hurts from certain people...

Every separation felt like a wound that she carried without the space to heal and in the end the weight became too heavy to carry alone. I do not assign blame to anyone. The family who raised her did their best, as I include myself also.

BUt I share her story because, if even one family is protected by knowing, then her life has meaning beyond her years. During this Workshop, something happened that I did not expect, realized Ron never had the community I witnessed here to belong and be held by.

It was here watching these young people at Cheon Shim Won that I understood what parents must build, a foundation strong enough for children to stand on when the storms come.

The lectures, the devotion, the guidance about the SW, all of it gave me peace and more than peace. Heaven gave me purpose. For the parents and 1st gen in this room, give your children a stable environment even not perfect, steady, and give them room to speak while their hearts are still forming, what is going on with them.

Above all, pass down your faith. Timothy passed down his faith from his mother, Eunice and his grandmother, and our Mother inherited the faith of her mother and grandmother. The tradition of True Parents must be passed down by all of us, until all of us stand rooted to who they are. Your work is not finished. We owe it to them. We owe it to Ron.

Identity is also everything. Our Continental Director, Demian Dunkley, has been traveling around with the single message, 'Know who you are, and be proud of it.'

You carry a lineage that is pure from its very beginning. You are the fruit of your Parents. You are the Way Makers, the promise keeper, the Light in the darkness and the hope of Heavenly Parent and True Parents! A child who knows who they are can weather the storms that would otherwise break them.

Ron did not have that sense of identity and without it, she searched in places that could not hold her. This is more than identity, it is protection

Through all the grief and unanswered questions, Rev. Chong said, 'Thank God, no matter what, because you never know what's around the corner.'

His testimonies of people walking through tragedy and then receiving great Blessing. Ron passed away in April, yet today a dozen members are here in this Workshop.

Hawaii will also host a West Coast gathering in August as the first of its kind, and a friend I hadn't seen in a long time returned. I don't believe these are coincidences but blessings in return.

Ron was born on April 13, the same date as the opening ceremony of Cheonsung Gung and she passed on the day that symbolizes resurrection and new life. I do not yet understand the full mystery of what Heaven was doing, but I choose to believe that Heaven was and is there with her still. If we remain grateful, there are things there beyond the horizon that we cannot see.

I will turn 72 next month and I just completed my 40-day condition to visit the Tree of Blessing 120 times. I am not done yet. None of us are.

Let us remain spiritually and physically fit for God and True Parents and fulfill the Dream for BF until the end.

I want to say thank you to PL, the entire staff, especially our talented 2nd and 3rd gen and the staff and for the greatest gift of my life, my wife, my family and the chance to begin again. TY for listening...

(He bows again twice)

I participated with my wife and mother, and they said to receive the special ansu night and morning, so I did... the area around my shoulder and lower neck, so I knew there was a central spirit, especially when it moved to my chest. A person appeared, a spirit from the 400 years ago century named Kong song Oh, he was in a small, royal palace, a miniature version of Cheonsangwani Palace.

Since I cannot speak Korean at all, letter and characters kept flashing through my mind at high speed. The content was that he had a wife and 3 daughters, one 20s, one high school age and one newborn, and someone betrayed him and struck them with a sword. He also was scheduled to be killed but instead he was dragged into a bunker with nothing, like a prison. The spirit said, 'Why do you leave me alone. You'd better kill me quickly. But they said that he would suffer here a long time and then die.

Starting 4 years ago, he had been entering my body because he was lonely, and said he would take everything I had. I lost everything from my father and I could not get a job at all, even they said I was an excellent person, that I did not match their company. Every day was a battle between life and death. The spirit said he entered me because he thought I could understand his heart the best.

My father had been hospitalized, the one who cared for me more than anyone else. He got better but then suddenly got worse and passed. I felt sorry that I could not be there by his side. I had such agony that I thought I might die, but then I heard a voice saying, 'Let us call out 'Holy Mother Han'.'

I kept calling out, and at one moment I saw a Light from above in that very dark and stifling space. It was shining very brightly and both I and Mr. Kong Sang Ju were drawn toward it. I thought that through that light I was going to Cheon Shim Won and I thought, 'It's okay now. I can live.'

Mr. Kong Song Ju most wanted his wife and three daughters to receive the Blessing. He insisted that he would only leave if I went to Cheon Shim Won and made a promise before the pictures of True Parents. So, I wrote a HJ Offering Paper and made sure to liberate all of them.

There was a few things my father said, speaking to me in a very strong tone, 'No matter what happens, you must liberate the 13 central resentment spirits. I have set aside a 3-day period. You must persuade your mother and comply within those 3 days. If you just do that you will be fine. Now, what remains is your portion of responsibility.

My mother questioned that it was really necessary to do more because already 20 had been liberated. Then, not doing it, later Father said, 'Since you did not perform the 13 spirits' liberation, I have no choice but to take your work away from you. I am truly sorry.' And in fact, the day after the Yeongseong Workshop finished, I passed an interview for the company I wanted to join the most, but that very day, I experienced symptoms like a cerebral infraction.

Father then spoke so strongly as I had never heard Him speak before. 'Why did you not do it. Did I not tell you clearly to do it. I had gone to you directly many times to tell you.'

My uncle also came along joining with 4 or 5 other ancestors to say I must perform the liberation of 13 central spirits quickly. They told us many time, but because my mother's spiritual senses were not sufficiently open, we were unable to perform it. How much effort and devotion we put into raising him, and you must take responsibility. Do you not have that 5% when I have already prepared the 95% in he SW. If you had done that, all the problems would have been solved.

You established the foundation in the spiritual Workshop. Why are you sacrificing it? Do you not know that you must tell this content to your mother. Do you understand? But my mother would not listen to my words at all and simply brushed them off. I too ended up giving up.

For about 3 days after that, Father continued to scold me loudly at Cheon Shim Won. The 2nd message came on Jan 8, 2024. I was taken away in an ambulance again with symptoms of myocardial infarction with the pain in the chest, and I was scheduled to go to the SW with this condition. However, at that time my uncle was hospitalized with terminal cancer and at that time a choice had to be made whether to save my uncle or keep Kiyuita alive.

Father said that Kiyuita was a vital person and I would be allowed to live under the condition of sending my uncle to the SW, and he passed 2 days later, with my heart of deep remorse. I made a pledge that I would certainly protect my aunt who was left alone.

The other message was regarding my wife. According to Counseling Daitin, because I do not know Korean, Father appeared at that moment and I had a final time to speak to my wife, 'TYSM. I'm truly grateful.' When my depression was severe, I told my wife, I wanted to divorce her about 4 times, and even filled out the divorce papers and ran away from home. Despite many such incidents, my wife said, 'I will never break up with you.'

As my older brother said, 'It would not have been strange if you had died at that time. We were prepared for the worse. It would not have been strange if I committed suicide at any moment. She replied, 'It would be troublesome if you just died on your own like that.'

Even though we fought sometimes, she guarded our household, supported me and endured, even when I would just sleep, play games or throw tantrums. Father said to my wife, regarding how she worked to the very end, 'I was truly grateful. I was truly sorry. If you had abandoned him, he could have died.'

We are performing liberations, and doing many things, but by HyoJN doing the liberations and in the Workshop, those spirits truly desire happiness, and the most earnest wish of Heavenly Parent is for them to be happy, but since that has not been realized, there would be no object for the ancestors... So, If he says go or what to do, they will do it. So, there is such a grace in the SW for the process of providence,

liberation of spirits and CY yoksa that enables me to return to my original self and receive such grace.

This is also what Father spoke about that at Cheon Shim Won it is a realm taken by AGSs and it is inviolable realm. A Light like a defense shield makes it too dazzling for dark spirits to enter. It made me realize how powerful that prayer is and the walk through Cheonshimwon. So, all of these things, especially spiritual problems and the difficult things we can't resolve easily, I truly hope that brothers and sisters will be able to participate and receive the guidance and grace. TYVM.

HJ Report

Kim Myung Wok

Greetings, we love you, and a lot of members from Japan, and she speaks a greeting in Japanese.

Today, in this HJ CheonBo... the video you just watched is where a lot of the contents is so detailed. Tsuito was the one who received the message TYVM.

True Father said, 'Have you thought how large the spirit population is, 3,329 on average attached to each person. How could they resolve the spirit 400 years old, and made it impossible for the 2nd gen to work properly. If we don't know, we will remain as such a problem person. But many have the hope when we govern the SW, and let the dark spirits receive education.

This is where we struggled for 1 hour and 30 minutes, and even he doesn't speak Korean, he was able to speak for 1 hour and 30 minutes in Korean.

'I was a leader 400 years ago. I have a wife and 3 daughters. I am not alone. In front of me my wife and daughters were being killed. Do you understand, or not. (He is writing the names) I believe I will be liberated in Cheon Shim Won. He was wailing in Korean and writing. And when we see that, it is so lively and we could feel it. The family came here to be liberated. And this brother said, 'My father was the first to go to the SW as a CheonBo family, so that his status and center was high. Because his status and

my uncles passing, I was protected, even I've been in poor physical condition, still I felt a sense of peace in my heart, and there was time to listen to the Word.

I didn't know whether it was real or not seeing the family at the Workshop Center with HyoJN, and they said thank you for doing your promise this time, and doing your best, and then when I sent my father is when I came to know many things and the reality of the SW, and if people with spiritual problems offer devotion at Cheon Shim Won, truly it can be solved, the spiritual things changed.

Brother Moritsi was struggling from depression for 4 years, and after the liberation he could become so different. He can now speak very well, even like a lecture and I felt that Heavenly Parent and his own father loved this son and sent him to the TC... applause

In Korea there is a program where a Shaman shares their experiences, and when I was watching, they were doing the same as we do in the Cheon Shim Won TC. Also in SDS, they share about the SW. And since a lot of people don't believe in the SW, they need to realize about it through the experience of Shamans. But they are so dull. Now Shamans conduct such things on TV so naturally.

The things we are resolving in the TC are so importance, and 2nd gens even seeing these things will still think it was contrived.

But here is another sister from Japan, experiencing spirits surfacing in her, and the feeling of loneliness and sorrow and wanting to meet someone they could not see.

A kamikaze person with this loneliness and sorrow came. I used to search the internet for those who died in battle like this, and I felt that the SW truly exists, and the Words of True Mother resonated with me, how She had been left lonely by her lover and a strong desire not to be forgotten, and I felt that HMM never forgot her and came to find and meet her without forgetting, and I felt the heart of this spirit comforted by True Mother. True Parents still love them as their children and never forget them to find and save until the very end.

The spirit that was inside me, at that time, I did not have cash and thought I could not succeed with the liberation, but someone I met was willing to lend me the cash.

I saw my clothes and the clothes of the spirit were the same... TYVM

How mysterious... She felt lonely and sorrowful, but finding the name of the kamikaze member, she realized that his lover was the one that entered her body. Do you think that it is a fake story.

another story: I felt that someone bumped into me and my shoulder was agonizing, but now after the ansu, I can lift my arm again (and she feels happiness, love and joy)

I hope you also feel that through this Workshop. And this deaconess, it is her fourth time, and she would come every week and receive ansu and 3 40-day WSs. She never felt painful. She says her husband passed away from bone marrow cancer and another family member with a brain tumor passed. She after her Seonghwa, I thought I could not go on living, so heartbreaking agony, but then thinking of True Mother, I tell myself that my pain is nothing.

I feel that without this Cheon Shim Won and the TC, I would have fallen into depression, and now my whole body has become so healthy, and I feel even more grace through the young 2nd and 3rd gen.

She is currently, Deaconess, participating in the Workshop. Thinking of True Mother, she is overcoming her depth of sorrow, and offering devotion. applause

True Parents's Words: Now we are to achieve perfection of character through the unity of mind and body that have been torn apart under Satan's dominion. We need to find out and establish our families, obey True Parents and raise our children without sin by forming as an absolute couple. With a 3-gen family in one family, Heaven will be with that family forever.

May we have absolute faith in these Words and create that absolute family.

We toured and went to 295 churches meeting 34,000 people. This one church is small with about 40 or 50 members, but the Seorak pastor was doing his best, and they were wanting to hear the longing hearts of the members especially in this chance time.

One of the brothers had to go to the hospital, and with his wife looking and all of us praying for him, it

was heartwrenching and hard to come back to the church.

The testimony... It was as if lubricant had been applied to all my arms and legs and so grateful to Heavenly Parent and True Parents and Director Kim Myong Wok, and as a CheonBo BF, I will strive hard to fulfill the Will of Heavenly Parent and True Parents... TYSM (He sent a lot of boxes of plums we shared)

another felt suffocated and hardly could drive the car and also much pain, taking pain killers. It was a time of thinking about embodying Mother's pain... TY to Heavenly Parent and True Parents for this CheonBo Providence

Chinju Church, Pastor Chunjinwon Oh, whose son went to the SW, and he in such sorrow. The 2nd gen who is such a faithful person, he offers a lot of tithe to the church. A 2nd gen is active in the church and also became a doctor.

another... Realized there are so many spiritual problems in the world I didn't know about or concern about. When I heard HMM say to 1st, 2nd and 3rd gen, 'I love you.' Her voices seemed so pure, and hearing the youth chanting for Her return. As True Mother said, 'Nothing of this world is eternal' and I also received the ansu and love, that I did not receive from my own parents, and I find myself laughing and talking a lot more. I am attending the church and there will be a day I can convey the True Parents's Words with my own voice. (So, she is a new member, a cousin of a member in the church) And she is testifying even more than some of our members.

another... She says about her church being good and Pastor Chunjunoh is the best... All her pain melted away like snow... TY! (She used to do a lot of Shaman things, but when we do events, she receives this grace)

another... grateful Heavenly Parent and True Parents, especially the love of HMM. So, hard when son went to the SW. The Director said he needed to stay healthy to do Heavenly Parent's Will. But True Parents sent 4 of Their children to the SW before Them, and with the heart of repentance... then 4 spirits went out from me, and I want them liberated... and to educate Epic, I want to make our True Parents happy, and especially PL loved our church and HyoJN, HeungJN and DMN, I felt that they also came... For 11 months, we will do our best...

(He has such high blood pressure, really longing for his son, but after ansu that went to normal.)

Seven of the husbands participated in counseling and the wives holding their hands, and there were deep insights shared and we will continue to live diligently while holding each other's hands.

For an hour and 30 minutes, 2 hours, they kept holding hands, and I was happy for that.

Elder Yang Chang I... so many spirits came out from my lung area, and thinking of True Mother how difficult it is to practice Her Words, forgive, love, unite, without completely, completely letting go of myself. I will live a life practicing true love and to accomplish the completion. Thanks to Heavenly Parent and True Parents for such grace today.

This brother has an apple farm and we hope for many apples. This is Pastor Pak Son Wang who did Oeg Monsei yesterday, and I'm sorry, he is not very good looking, but if you talk with him, he is so moving and hard work that is touching.

These missionaries go out every day to testify to True Mother at the terminals, and even it is snowing or raining, I couldn't help but cry and applause of thanks to them...

This couple, he looks so young and doesn't fight with his wife 6,500 couple, and True Parents gave the picture and said they are such a good match... and we have a family that can laugh and live passed anything that happens, and like the saying that we ripen with age... My husband type B blook and I am type A, so it doesn't seem many things match, but we are truly fulfilling each others' missing parts...

another... heart condition... I was told to live with my own sense of happiness, and from now on I wish to become a member who is happy working even harder for the church

another... He came from a Japan church, not ours... now so much more mobility... He was very spiritually open and could know the heart of people when he looked. True Father gave him a mission he was not able to receive, but one day all of that got eradicated. He looked back on his life of conviction, and thought he must live for the sake of others more than before...

Then the pastor's wife... husband passed. He was the national messiah of Hungary, and I asked why he didn't appear in my dreams but is in other's dreams. But he appeared through someone else's dream and he said he comes to give her a message and he comes so often because of how they were united in love, and even he is in the SW, we are always living well together spiritually...

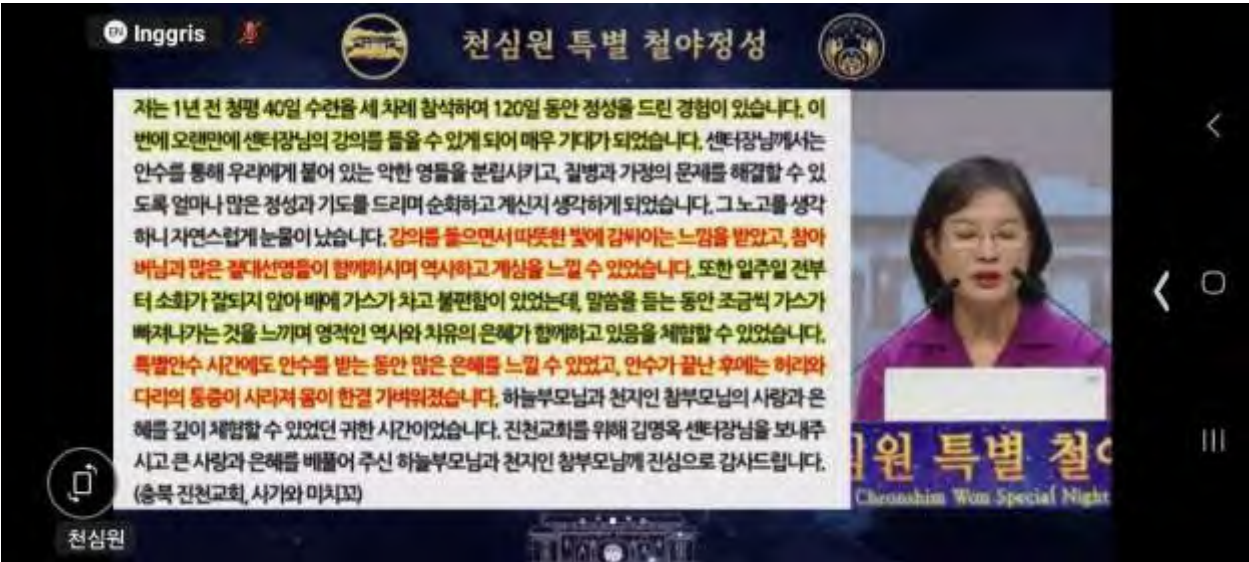

You could see how happy she looked. Then this church full of the plants and devotion. Epic history peace speech every day at the terminal. Moved to see the hyojeong of the missionaries, and more grace added. I saw a vision of good spirits gathering with the members and I received the food prepared and after seeing the plants carefully attended, and when the pastor said that, I felt a lot of fatigue dissipate. All the members came out from the ansu with love and joy that came to me also.

After the Director left, the members shared gratitude and emotion. applause

Now we must find the individual, family, nation, world and cosmos, whom CS wishes to relate to, Whom H Heart want to relate to, or else you are just repeating the courses of those in the past, when Heavenly Parent, to come to this historic day, has endured 6,000 years of sorrow and pain due to the fall.

Now, we are grateful, we are sorry. You truly are the Rightful Master, and the pure water is advancing to proclaim Your Vision of Heaven and earth. From this day, please Love Your children with all Your Heart as much as You Want, and let us attend Your True Family with true love, and Cheon Il Guk will surely

unfold.

I proclaim to all of humanity and creation that the Gates of God's Heaven Realm of Cheon Il Guk are now wide open.

It was said that there were two trees in the Garden of Eden in Genesis. One was the Tree of Life and one was the Tree of the Knowledge of Good and Evil. What are those Trees? They are the Trees of the humanity that Heavenly Parent must find, the True Mother and True Father.

It is how I taught everything when the Israelites were being led through the wilderness. There were the pillars of fire by night and pillars of cloud by day, symbolically showing that when the Parents come in the Last Days, the Israelites will need to attend Them, or perish.

One must be able to go to Cheon Shim Won 365 days a year to see Father and communicate with the 4PF. Cheon Shim Won must be a Place where all humanity can experience living with True Parents and interact with the SW. You must speak your wishes there, so that all the people of the SW may come to know it, change the environment on earth and move the SW.

Cheon Shim Won is a Place where we can be with True Father 365 days a year, and if you offer devotion, your prayer will be accomplished. Centered on Cheon Shim Won where we attend HyoJN, HeungJN and DMN, all members must make a life of loving become a reality.

'Let Us Return To True Parents'

I look at this Place so beautiful with people wearing the CS robes, and I hope all of you can resonate and

pray together with the subjective SW, and you will be protected.

More than 40,200 people are offering devotion here and those all around the world... mentions America...

The central axis of the church and the pain of True Mother, She gave us the realization and is showing the historical path of the hour. At this 1,589th Cheon Shim Won, we are so grateful and so blessed and we will fulfill our responsibility... May True Mother never go back to the DC, and let us offer the devotion to move the Heaven.

At the Opening Ceremony there was a person who was a Buddhist 30 years ago, and Jesus came and saved him and since then he followed the path of the Will. When we meet True Parents, all the Providential fulfillment, you are the ones receiving this grace, living in this Golden Era, and we should not be dull about it.

I'm so grateful we are able to be guided out from Heavenly Parent's labor, that could not be done by human work alone, and the difficulty to go from ten to 1,589th vigil. How hard was it for Heavenly Parent? Believe that Heavenly Parent's Love will be residing in you. If you don't believe, Heavenly Parent can't share the love even though you are receiving it. If one is living like an atheist, you will live not offering even a single flower to Heavenly Parent, and the SW will be so empty, so void. And a lot of people are like that, going to SW and still not knowing Heavenly Parent. They will be screaming.

We have to know it with our hearts, not just with our heads, not just kind of, but with all our spiritual senses. There are people who still are wavering. 100% perception is not from the head, but both physical and spiritual need to be open for 100% perception. If we go through AFL and O to embody Heavenly Parent, we can enter Heaven.

This fishing devotion is the 4th graduation ceremony. Those who participated in this fishing is all of our union GY County Chairmen came here without sleeping a single night, but they didn't catch a fish, but he actually wrote a poem and read it at the graduation ceremony. Secretary Pang Sang Il caught a 40cm fish and took a picture smiling... applause

Kim Ju Wan caught a 70cm fish, hallelujah... Before in the TC, when I was giving words, a 71cm fish was caught, and that fish, instead of me as the church leader of GY, a coordinator... We let go of this fish

and Chairman Tsujingte offered a prayer and we let go of these 3 fish. It's so difficult to offer these fish, never sleeping at night, but a time to have deep conversations with Father and reflection on their past.

I was so surprised. I thought a person from Hawaii was telling me why they came here to align with the current Providence. We need to do this. When you look at the navigation. It will redirect the route, but if we do not pray, it will not. But Heavenly Parent can show us through revelation that we are going a different path, and showing us through the environment. Those who could go through the indemnity, it is the symbolic that needs to be shown, what we do not understand even if Heavenly Parent hits our body, it is to make us realize.

This brother offered a daughter 31 years old who was in such an unstable position, heartistically and spiritually painful, and then went the path of seonghwa.

After a week of joining the 40-day, he had a hope and offered this testimony so that not a single family will again go through this.

Also, our Korean pastor received a lot of grace looking at 2nd and 3rd gen praising with such a sincerity. The environment was not there for my daughter. We didn't have the tradition, but looking here, he could see a ray of Light and do you remember what he as pleading (Those who remember are good)... Have a heart to listen to your children, not to leave them be addicted to their phones.

One thing you can do is attending the Cheon Shim Won devotion. When we listen to the testimony of them looking to the porn when they thought to absolutely sever this is through the 40-day. With such hope through the Cheon Shim Won. Please do not leave them alone. Please inherit the legacy of listening and the legacy of inheriting your faith to your children.

True Mother has said, 'Which is more heartbreaking is those how did not inherit the faith and went to the SW. ' There are 2nd gen who do not want to do the seonghwa ceremony. How great is that pain for the mother.

After we die, we must separate our corps. We know that Moses still went through the course of separating. The 2nd gen should not be as the 1st gen who did not do seonghwa. If you do not do that...

The most successful person is those who have the 2nd gen with unwavering faith. For that we need to know the SW.

We heard the testimony about the SW. There was the resentful sister who entered and the spiritual things happened for 4 years the suffering, but through Cheon Shim Won and calling out HMM, he was able to escape. His father went to SW as a CheonBo family, and then the revelation to do the 13 liberations within 3 days and tell you mother. But that was not accomplished, and in the SW, they were contemplating to take his uncle or him.

If you do not follow the direction of True Father in the SW, you are going to pay indemnity. If you go against the Words of Heavenly Parent and True Parents, even if you answer with loud voice but still do not follow, there will be indemnity. It is the Providence of Restoration through Indemnity.

Also, we need to share the Epic and we as a chosen nation need to attend HMM. All the pastors need to educate about this to all members. All of our special itinerants are going to the front lines, and giving these world of this reality. TYSM for sharing about the SW.

There are a lot of resentful spirits in the SW and the master who could liberate spirits is HMM. Without True Mother, no one could be fully reborn. Jesus could not do it fully. That is why He said He would come back to do the Marriage Supper of the Lamb. And afterward, we meet the Mother where all of our original sin will be resolved.

The family who went through hell on heart, but meeting HMM, at that moment Heaven's Gates will open. that's the reason he was asking for liberation for his wife and daughters (who had been murdered).

If you look at the photos of before and after, the resurrection is so substantial of a change to be a clean person. applause to Heavenly Parent and True Parents of HEH for such grace.

Receiving AI education among our pastors, thank you so much for participating in this Cheon Shim Won, and if all the leaders know this grace and are able to connect it to their church and pray and resonate, Heaven will surely give the grace and there will be revival every week, and Cheon Shim Won is the greatest Gift and Hope. Then you can solve any problem. If you are not receiving this gift, what do you

think SW will be thinking. They will be in agony.

Israel received the Messiah but did not faith and attend Him. Not a single person had a heart to really receive Jesus, achieving the Words, 'I am with you, and you are with Me.'

Heavenly Parent sent the Mother Who can resurrect all life, and this nation to be worshiped by all nations. The greatest gift to this nation is the Epic. The greatest gift to all spirits is the HMM. With that faith at this time, let us meet the Living and Working HPs and attend in our own hearts...TYVM

...how to embrace these children once more in My Heart is Heavenly Parent... Even True Mother cannot see, Her Eyes, Her Knees, Her Legs... how much have You been fighting for Your children. But we didn't know the Heart of our Heavenly Parent and True Parents and lived self-centeredly... Please guide us to repent ourselves... Through repentance, there was the Holy Spirit but this entire 6 months it was filled by this HS, and if we offer sincere repentance, we will be able to see Heaven's work unfold.

True Mother, we are so sorry. Please forgive us. True Father, we are so sorry. We didn't know the Heart of our Parents, we only lived and thought and prayed self-centeredly. Please forgive us. True Mother said to return to the early church spirit where we would pray until it was fulfilled. That was the education. And we should all be reborn. There are more than 1,000 3-day and 40-day trainees. Now, let us start and have renewal.

We are the direct children lineage of our True Parents and let us be confident and go out to the world and testify with our lives, Heavenly Parent and True Parents are Living and working. We know They will work. 4th and 5th generation, let us inherit our tradition to them. True Father, please be mobilized and work from the spirit world, HyoJN, HeungJN, DMN, please work... Let us all hold hands and go forward as one.
