opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

The works of Truth are embracing the world at this hour, going beyond marvelous expression we only go forward to find the sorrowful Purpose of Heavenly Parent and True Parents's... In the June our Mother is overcoming the sorrowful circumstance. Let this be such a time, moving forward all making their own accomplishment, but True Mother wearing the crown of thorns and walking course of sorrow and suffering, and not just watching be, we will align our entire minds and bodies and offer devotion.

Please let us not speak a hint of complaint but allow us to fill with hyojeong to pay all back to You, True Mother. All the mountain have filled with breeze and radiating the power of Life and allow us to deep root our faith centering upon Her, receiving true life from Mother and becoming the hope to cast away the dark, finally allowing the deep night of True Mother to end and the glorious dawn to open.

That is what we believe and let all our devotion until now to be victorious.

Jun Yu San

Chanyang

activity video from Turkey

From 1993 up to the present day, Mother has been carrying out a mission of love with Islam (Turkey)... I

can say with confidence that I really need to do something for the Middle East. That is the starting point, because that is how our Mother is. Unless Islam is restored, the world won't be at peace.

Father has made it very clear. To the very end, I want to carry this out. This is the source of my heart. Why do I keep going on and on about the Middle East. My daughters keep telling me to go back to Japan. Even for some reason I can't go home, the only reason I don't want to go home is that still Mother is fighting for this and it still hasn't been resolved, the issue in the Middle East, for peace in the M.E.

Given the current situation in the world and the M.E., as long as Mother is still fighting, it is the source of my own heart.

HJ Testimony

HJ Academy

Quan Ta Bin

he bows

gratitude

eldest of 3 sons... My childhood was a time when I was just a pure child and followed my mother's life of faith, but then when older I realized that we were different and in school they taught the Imperialist Japan and pointed out that my mother was Japanese, and my friends threw away or stole my belongings and the bullying became worse, but I could not tell my mother the truth saying I just lost my things.

I made a firm resolve to hide that my mother was Japanese and I wrote only my father's name in school correspondence. As I grew older people understood... Then I joined the army and when discussing whether God was real, I accidentally said 'Heaven Parent' and they realized I was with the Unification Church and some tried to tempt me that I couldn't date and should enjoy my youth and leave.

I began to struggle with my faith, watching my mother offering vigil at home and at the church and didn't think it was so important. Seeing the notice for the Workshop, I applied and the schedule was too different and sleepless from mine before.

Then my mother told me how she was kidnapped due to the persecution of relatives, and I shed tears until my pants were soaked, and even held resentment to Heavenly Parent. I wailed and offered prayer of tears. But I felt True Mother's Heart for the first time feeling my mother's course was somewhat similar and that True Mother and my mother beyond cultures and races of people, and True Mother provided and my mother the foundation for all of this.

I was drawn closer to True Mother's Heart little by little and then heard of Mother's Heart from children leaving Her because of the responsibility... At first I then worked diligently offering fundraising and mission activities, wanting to live public service as others did, and resolved to take that course, and while serving as the president and getting exhausted, I became distant.

I joined Workshop and Academy to try to overcome the fallen nature and even making mistakes at the cafe... Every morning we set internal and external goals and put all our devotion into everything to convey love the citizens of Gapyeong, and some of our customers now greet us warmly and we respond to those smiles and work harder here in Beoktown, and investing in prayer and service based on what I have learned and felt and I will devote even more...

'Allow Us to Pray'

Joy or pain, Earth's providence will end in victory

Testimony

Kim Won Ok

Academy Trainee

He bows

2nd son, member of academy... When young I loved running and playing in the mountains, but physical impairment worsened, and coinciding with puberty, I lived a decadent and sinful life but thought not to go on like that. Offering 5,000 bows, I attended a Workshop and experienced how Heavenly Parent and True Parents loved me despite the sinful life and I cried bitterly...

Since then I only was thinking of Heavenly Parent and True Parents but face a trial, feeling something circling around my head, entering and starting to torment me. My head would shake violently and my body would thrash around on its own. I entered Sun Moon University but had to withdraw and move my residence, but the condition got worse.

Whenever I tried to do something, I was overcome by the fear and could do nothing. Once I couldn't eat and had to stay in the same spot and it took an hour to walk to the Main Hall from Cheon Shim Won, spirits would try to take over, I made strange gestures and screamed, but in the midst of this, Heavenly Parent and True Parents held onto me with endless love.

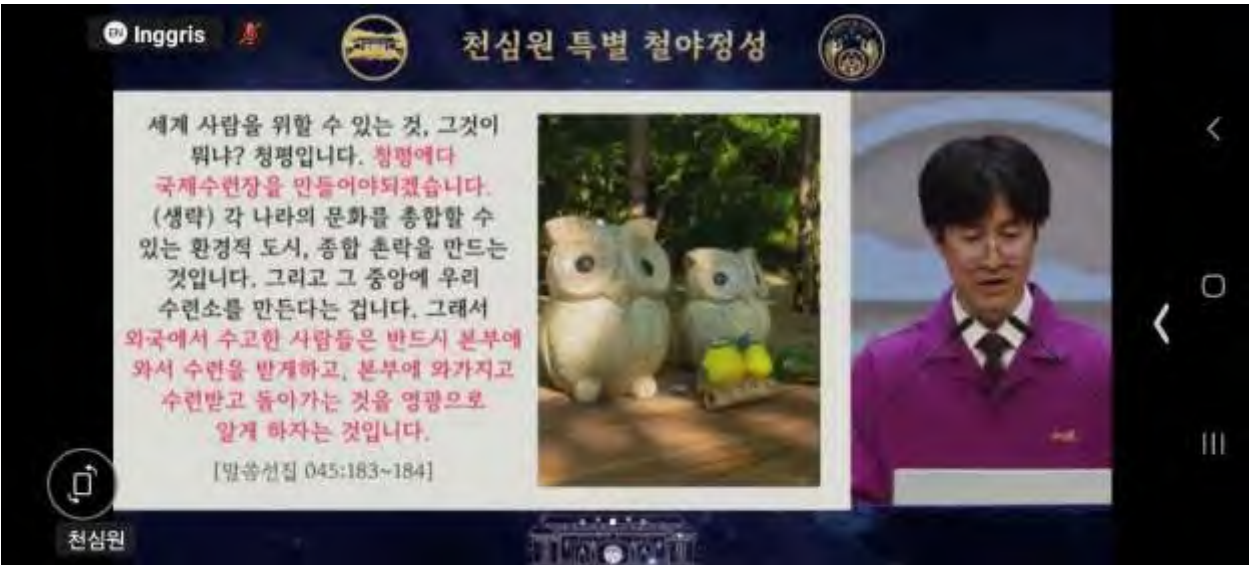

A Word of True Mother at that time I cannot forget, 'Just as Satan tested Jesus and Rev. Moon he tested Me as well. I overcame those times with patience and resolve, but also those were the times when Heavenly Parent came to Me and said, 'No one can gain only sweetness or pleasure on the path to Heaven. Religious suffering is the precious time when one can receive the grace of Heaven.'

During that time, my father did many liberations, and I felt that I must win this battle even if it cost my life. Gradually increasing the steps and distance, eventually I could ride the subway alone and now I am

standing here to give this testimony. The reason I could overcome is my parents devotion and all who supported me and all the ancestor liberations.

Now through the Attendance Workshop, the importance of complete investment, and the one that helped me grow the most is attendance we decide on ourselves, reflecting what is cheonshim and attendance. We cleaned the locker room of the Cheon Shim Won bath house, and thinking if I don't clean with all my heart, I can never live together with Heavenly Parent, and then my heart felt clean as making a small environment to attend Heavenly Parent.

We cleaned the toilets with our bad hands, that I first felt resistance to, but watching others doing it with a pure heart, I thought I should not be the only one not united, and the moments I began, there was a sensation from my fingertips that Heavenly Parent did not turn away from things like this in us, and then I felt a deep unity with the other members.

I felt a central spirit clinging to my spine with power, making me very sensitive to others and disliked shouting of others without heart, but I reflected my own failure to fully invest. The entity that changed me what the other trainees, one offering so many bows every day, and thinking that was why he could be resurrected and seeing others breaking through, I finally saw the darkness in myself.

I too used to offer devotion only for Heavenly Parent, but I too lost my motive. Following a total of 5,000 bows, I realized I must offer devotion based on Heavenly Parent's standard and began offering 130,000? bows and shouted conditionally and loudly and felt the grace overflow, touching the Heart of Heavenly Parent and True Parents's deeply and I could run until the very end. On the final 40th day with resolve to invest completely became the pinnacle when I could experience Heavenly Parent and True Parents deep Heart waiting for me, when singing the line 'Revive me who was dead and raise me...' I felt that Heavenly Parent and True Parents had raised me with pure Love, the Parents coming in search of children with love, and that child is none other than me, and tears not my own soaked my face, the same tears when I first met Heavenly Parent and True Parents in my middle school years,

I realized Heavenly Parent had called me to Workshop to help me realize again... Since having the responsibility for other trainees, I will move forward to fulfill the Will of Heavenly Parent and True Parents, TY and I love You.

HJ Report

International Education Dept

In Gu Kyung Team Leader

I ask a lot of support and encouragement with a lot of applause...

True Parents's Words: What is that which can serve the people of the world? It is CP. I must build an international training center in CP. It is to build the environmental city, a village that can synthesize the cultures of each nation. In the center of that we will build our TC. So, those who have worked hard abroad must come to the HQ and receive training. And we should make them feel that it is an honor to return home after receiving the training at HQ.

Therefore, I intend to make this CP an international training center, a homebase where young people from all over the world can come and receive training, a Place like the world HQ.'

True Parents long ago Blessed this Place to be where members from all over the world could gather to receive training. My brothers and sisters, are you all receiving much grace? Yes, seems like you are... TYVM. As I introduced before, many international trainees had to invest a great deal of money and time to come to the TC. Currently, due to the aftermath of the war in Iran, airfare has risen sharply. Africans have to pay 3,000 won, which is 4 to 5 million won in our currency. And they must endure a long journey of over 20 to 30 hours to reach this Place.

However, members come because they truly love Heavenly Parent and True Parents and have the heart to visit here at least once, and they leave all their difficulties behind to visit. Fortunately, PL has heard their worries about Workshop fees and has opened doors so that more members can come. Why don't we give applause for our international trainees... This is the staff of young talents with older leaders. Through them we will manage the international festival with members from Korea and around the world.

We handle registration for over 180 countries, so difficulties arise with names being different than in the computers and having to check each one by one... The total was 47... In the first week we build devotion through lecturers and bowing and devotion and then Principle and CS breathing meditation and 3rd week lectures of God and humanity and holy ground and then practicing and pilgrimage and lectures on economy and meditation and here is a video of the overall progress...

video

testimony... learned how to express when returning to my own country...

lecture God and humanity... No matter how much cheonseong and prayer, one must have the earnest desire to change and overcome fallen nature and not repeat ancestral ills and live for the sake of others through practice. What is in common through this lecture to realize is that the problem to overcome lies in practice not just knowing. So, therefore, taking a step forward from the lecture, we had 3 practice programs.

Our Director and Brother Horashio recorded the practice of the Hoon Dok Hae in our daily lives and our

members record that in their application for 3 weeks, and amidst this hearing Father's Voice, and also continuing the practice in daily life.

video meditation video

One member with two canes so difficult to walk but others supporting him, and he was able to go to the Tree of Blessing... applause for those love-filled members...

Also, we could be one with nature through CS breathing meditation

testimony... (Allister Cough (UK) changed my way of breathing to synchronize with nature's way, exhaling with a loving heart and inhaling with a grateful heart and every time at the Tree of Blessing, breathing difficulties I previously had have been completely resolved.

He received the Blessing with Yeoju during this time of Workshop to realize the ideal of Blessing. applause

Video

Why did you come to this Workshop?

Because we wanted to offer jeongseong together after the Blessing to make a better future

Pattanaporn and Gustavo

I think that at the end of my life now, I need to learn something before I go to SW.

To reflect and meditate about what has been our 34 years journey, and how we can really take steps toward the reality that awaits

Allister: Doing devotion things together here is incredible time, being with each other and knowing that your partner believes and is passionate the same with arms raised... feeling of security and hope in what you can do together

Gustavo: Because we have fallen nature, two becoming one is not easy... I really learned as a couple to try to catch up with things we still have issues with as a couple.

Coming not just because someone told you but because you really want to feel the love of brothers and sisters as one family under God, to really feel it here as Heavenly Parent and True Parents want us to live, and we need to create it outside by learning it from here.

And I really recommend any brother or sister who has a health issue or any issue, if they have faith in God, they can come here, and healing comes.

Originally, I thought that the Blessing was something meant to make us, our own families happy, but others were incredibly happy for us and told us that they felt God through us. It is not a Blessing just for us, but for the people around us, and I highly recommend it.

Yesterday, we had a special service with the English-speaking members.

testimony: I learned more about creation and happiness that, many times I destroy because of my selfish desires. I can practice an optimistic life of gratitude more with the ten commandments of Cheon Il Guk happy life.

And the 3-day Cheon Shim Won resonance prayer Workshop was also included and I would like to share some reflections not shared last time

I became completely parched with questions surrounding True Mother and I didn't even want to offer resonance prayer. I realized the walls I was making until now. I shed tears that my ancestors and Heavenly Parent and True Parents never gave up on me and feeling Heavenly Parent's Love and Dreams for me. I felt the pain and earnest of other members and that this life is the most precious lifeline connecting me with Heavenly Parent and True Parents and my faith revived so that I will share it with those in Singapore.

Taiwan and Malaysia couple: The wife was in an unstable emotional state but they eventually joined the Workshop and the husband offered devotion since the early days and then was able to pay off his debt and

enter emotional stability and then the wife and son also got much better because of his change. My wife gave absolute support. As the head of the household, I repented not understanding the heart of my wife, while demanding only my own position. What makes us one is the parental heart that embraces the other. From now on I will love my wife with resonance and to realize True Mother's Dream during this Golden Age.

We shared about this brother how earnestly he tried to kill himself, but after 3-day: I appreciate my time here, a message applied to my life of faith and better my education. TY for the lectures and activities, and I wish the lecturers a fine day. (If you knew this brother, you would realize how miraculous it is for him to write this) One of our staff gave this video of brother Ian that he would not give up.

testimony: As any husband and wife would probably do, it seemed this is for me. I was moved by how deeply he cared for and loved me and how truly blessed I am to have him as a husband... (Husband claps) (They embrace and she kisses him and he does not want to let her out of embrace) And a white butterfly came in and flew around Director Chunjin Ha... And one member said, 'Father has come' and we felt that that butterfly blessed us.

We are preparing for a Family Festival of 3,000 people... We want to strengthen the solidarity of family in Philippines and Korea... applause

Personally, in the preparation starting July 4, with the heart to be together internationally, we went there to promote it and want to invite all around the world... Many countries for those who speak English hor desire to learn English to attend the Yeongseong Workshop in Korean and English...

Now, I want to conclude and ask for a big applause for glory to Heavenly Parent and True Parents for what we just shared. TY

Break

Busking

Hoon Dok Hae

Truly serious prayer instills the conviction that God is really with you. The path of restoration is not an easy one. Do you think God Lived, Ate and Slept comfortably as you do? How serious is the Principle itself? I developed callouses on My Knees from praying. I do not know how many Tears I have shed knowing that there were many people dying without knowing and resolving the path of their lives, I always prayed with red eyes to solve those problems. I shed so many tears while praying that there were times when I could not even look at the sunlight. It is by doing so that I found this path.

You must pray every day. In your life of prayer, you must also offer a

tithe of your day, praying for 2 hours and 24 minutes every day. In My Time, I would prostrate Myself and pray for 17 hours or usually or 12 hours. I would not eat lunch. In doing so, I would wail. If I did not do that, I was blocked from all sides. I could not see any way out. Only by praying can you see a needle eye size hole of light.

No matter how ferocious the trials that overwhelmed Me, I did not yield to them. Even in the position of extreme hunger, I never lost the Dignity of God. Even when living a life of extreme deprivation, within an organized sphere of life, I never violated the laws of Heaven.

Even when Father was restricted in all things, He was able to find everything. Furthermore, He found the foundation for a new start and a new Life before God. He did not start from a place of wanting to live but from a place of wanting to die.

If you pray from a spiritual place, you can know how much value prayer has and how much effect prayer produces. Only then will you have joy in your work and have conviction that God is with you.

A few days before the allied forces began their bombing, the Communists began executing prisoners. One day they began collecting half rows and Father distinctively felt that the final moment was drawing near. Fahter offered a serious prayer. The guards called each prisoner one by one and explained that they were being moved to another location and that was their final path. They threw them into a well upside down,

one by one to kill them. It was Fahter's turn next, but around 2am, due to the all-out attack by the UN forces, He was able to come out of Heungnam Prison alive.

'Way Maker'

President Lee Gi-seong's Message

About 45,000 are gathered...

about 114,000 on You Tube in H Japan

56 from Cameroon are attending Workshop and with us

Truly, amid the hardships of Europe and the Middle East, our Branch Leaders are moving around to work. We saw the video of Turkey and then they went into Moscow to begin 40-day Workshop. applause

H USA Cheon Shim Won... TY H Japan a sister attending Cheon Shim Won sent testimony: Not long ago PL told us to share the grace we received, so I attend Special vigil devotion. At 1,586 PL said once you overcome the wall that seems impossible, Satan will go away, and it was like this for me. Truly there are Principled laws and orders and I was able to express what I experienced through words where before I said I was busy as an excuse. If you attend the prayer, aren't there too many difficulties to overcome, and I repented and after 120-day I received this grace, I couldn't sleep and went out for the FR and many times I had nosebleeds and even my family told me to stop.

But I persuaded my family that I couldn't just rest knowing that my family is there and always asking how I could bring joy back to Heavenly Parent and True Parents and accomplish a higher level of life of faith and although my devotion is small, with members around the world I will invest myself. TY

The fact of attending Cheon Shim Won devotion is not so easy, but the more difficult it is will be registered in the SW, and once you overcome that, you will feel satanic leaving your body and there are members accumulating devotion and Sang Tang Lee Paster's message:

It is the 273rd day of True Mother's detention and we gather our hearts to offer devotion and at the 1,591st vigil today, we truly hope for the victory of Epic education and True Mother's return to be accomplished (and they offer outside now)

448 members attending at the vigil... and since last week 1,735th Special GWs and we had many more than usual, 70,665 registered... You may think many must have finished the ancestor's Blessing but so many registered through the accumulated devotions of the vigil...

Doors have been opened by AFL and O condition... During a class on Japanese culture as an elementary student (in the today testimony) he received the persecution and bullying from the other students... The society atmosphere also does not like discrimination against the multi-cultural family these days. It is getting better for Korea. Because there were multi-cultural families, he was able to live better. But in the military, if he hadn't accidentally revealed himself as Unification Church, he would have received accusation in the SW, and then in the military he was able to receive apology...

When you reveal you are Unification Church, you will be able to do more to change society when the Truth does come out as it will, and you can make the victory. After discharge with another doubt about his faith, he joined the Jeongseong Workshop, which was not easy. In the military everyone will eventually sleep through the night.

But when he heard about the kidnapping persecution of his mother, he shed so many tears, and even was resentful to Heavenly Parent, but then he joined the Workshop and Academy and with that training he could overcome the wrong parts of his lacking life...

The most important work on earth we must accomplish is to complete our spirit body that eventually must

reach a divine spirit. At one point am I a formation or growth or divine spirit. Here you have been educated well, right? Have you received the education? To form well, you must live a life away to practice the Principles and align with nature also, and then your body will align and come down.

In the old stories in Korea, there are the folk tales that the spirits in white will come down and tell you the wisdom to heal your spirit or earn money, etc. So, even a good ancestor may come or another with the shape of the snake that wander in the PW, and will look for someone they can resonate with and work... Some cows are sacred cow spirits and they come down and work through those things, and from Buddhist view you might think that somehow reincarnated as a snake or cow. And there is the one that hits the drum, and there is where people hear the sound of Buddha and try to find the source, and finding it from the place where the cow was, they realized the sound came from the cow that made the same sound as the Buddhist monk made. and members must realize they must attend church diligently and because you feel that this life is not good, you start swearing.

Jesus said, 'You children of Satan' How will you avoid the curses of anger, many times people calling each other the name of an animal, and you must realize whether your spiritual body has the form of an animal or half human and animal. In Egypt there is a Sphynx where the face is human and the body something else.

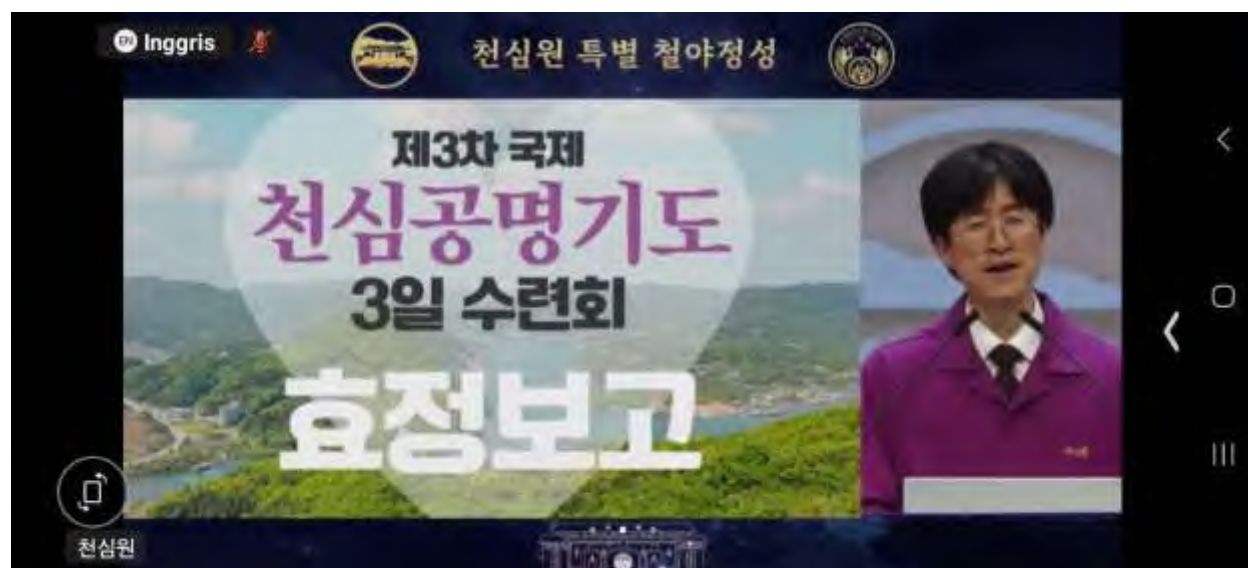

If you don't follow the Principle, you cannot be a full human being and you are basically losing the love of God. Going against the Principle loses Love of God. You must stay in a position to receive God's Love. Jesus said, Let the dead take care of the dead and you come with Me.' You must realize and put all your effort to get away from satanic hand and enter God's Love. All of us must reach divine spirit, and those ones have formed the Temple of God inside you.

Who is inside you? Is the dark spirit filling your heart. There is a young man who had 2,000 soldiers living in his body creating problems with others and there is the story where Jesus cast out the spirits that went into the pigs and the pigs went down the cliff to die.

Even though you live an entire life of faith, if you don't have joy, you should check yourself that you should be the way you are. We sing the song 'I Will Love You with My Life' but we should also shout that we need to live better.

Testimony: His goal was how can I live for True Mother, and he made the coffer and bread with the heart of giving love to the people so they would want to come back again and again. And this is the secret to success. It is how you are going to attend other people. So, our brother found the greatest teaching of True Parents. And if he works, no matter what work, having the heart of attending True Mother.

In kitchen work, it is not easy... carrying the big rice cooker and creating food rice for so many people in so many heavy rice cookers. If you live for yourself, you will hurt yourself quickly. 'We must have more people to create more love for more people idea, not how much more work it is...'

Through the dream, it was very difficult to find our own shoes to go out. But now in the Main Hall and at the World Center, those thinking about Heavenly Parent's Will will rejoice, but others will just look at it as hard work and those will perish. So, those who are working, you must have the parental heart to work.

Are there any parents who would say, 'Oh, I'm tired, I'm not going to cook for you.' Every parent would continue to cook and serve the children and also the spouse. Without the parent heart, you would not. She is still cooking food for her husband and truly I think the husband met a wife well who still cooks in their 90's. When children are sick some mothers would scold them. With the heart of not being like this, I will remember this phrase.

This brother had hardship, but I believe that because Heaven loved him, he had these trials, and he offered 5,000 bows when he went to Workshop, and he wailed and really tried to let the students learn about Divine Principle. But he became a crazy person, not even able to eat. In the Japanese office to Cheon Shim Won, it took one hour. And I saw him, and truly this is what happens when a spirit is attached with resentment to a person.

But True Mother said, 'After finishing ancestor liberation and Blessing, as he started step by step, he attended 16 times and now he can run up to the Tree of Blessing and he graduated Sun Moon University as a theology major and he is truly putting himself into practice.

Cleaning the toilet with bare hands, which he first said he would not, but when he did it, he first felt Heavenly Parent's Love, Who loves him no matter what...

Just like the monk who drank water out of a person's (something?) The mother began working as

cleaning, and he mother scolded me that I made her son cleaning, then even making him security wasn't good enough for her son. But cleaning, even I took up the broom to clear Mother's Path. Think of it as a practice and do not complain of the greatest path of what you do for others. You are walking the path of the Will.

Our brother realized about central spirit liberation, and if completing it fully, I'm sure you would be someone Heaven would be happy to work through. And he reached a peak when singing the pledge and realized he should do more and he is a coordinator helping with the 3-day Workshop in Korea.

You would want the spirits to leave right away, and one sister had that happen and were so grateful, but then she did not come back any more. So the reason the problem is not resolve quickly is because Heaven wants to give you the greater realization and develop more stubborn heart for Heaven and Mother and H fortune.

Now, is the time to truly Place Heavenly Parent in your heart to move forward with AFAL and AO. We are trying to open the door and all we need is that.

Truly serious prayer instills the conviction that God is with you.

At Hungnam Prison, the Communists began to dispose of the prisoners, and explained they were being moved to a different location and threw them upside down into a well to kill them... But by the all-out bombing of the UN Forces, Father was able to come out alive, because Father offered a prayer that moved Heaven.

Today is the 274th day of True Mother's trial and we feel apologetic to True Parents. Without putting your life at stake, nothing will be resolved. He would pray from 17 to 18 hours, being blocked from all sides with no way out and in prison 6 times. He had to pray 17 hours or at least 12 hours with tears and sweat coming out, and that is how seriously we must pray.

The Japanese are kidnapped and have trials, and when you think about his, we must truly, truly, truly offer prayer. People say that because of Cheon Shim Won prayer, their family is not happy, but you must think from HMM's point of view. Once we have people thinking about Heavenly Parent and True Parents, what kind of path They walked. For 53 years, Mother had to sleep only no more than 3 hours, and then

She couldn't sleep after Father's Passing without sleeping pills, because the problem is not resolved... That way of Her Nature... but even if She asked us to pray, asked us to become one, we didn't.

True Mother while walking the path of suffering, and She is saying that because She is suffering, members are becoming more one, and we must shout out for True Mother and be like the course of Jesus disciples, how great that lived with Jesus in His own Life.

There is a woman who washed Jesus' Feet with oil, and Jesus' disciples accused her, but Jesus blessed her for this devotion. And when Jesus revived, she is the one who saw that revival and sent out the news. So, do not complain because you have such responsibility in this difficult course, in this difficult time, and if you see it as a blessing, you will receive the victory and our Unification Church will rise high and the path will be open.

For that to come, we must make the foundation of devotion. Through resonance prayer, we receive Heaven's power, but with resonance with satanic power the brother couldn't walk a single step. Let us do our best to resonate with Heaven.

Prayer and Praise

Pang Sang Il Secretary General prays

Truly sorry up until now, not able to fully fathom the circumstances and Heart of HMH. Please forgive our paths of only testifying with our mouths. Let us practice the determination of total effort and attendance, through Cheon Shim Won, become the true sons and daughter of filial piety devotion...

The H Japan and Unification Church is passing through the dark tunnels, but Cheon Shim Won illuminates and let us run with the Cheon Shim Won Light and not be afraid, no matter what hardships and persecution comes. We will follow this path with absolute gratitude, if it is the path that can comfort True Mother and carry any cross that She may be bearing. Please work through us.

Heavenly Parent, please comfort and love the H Japan currently in the arduous situation, but the more persecution we receive the more we will unite. Please bestow strength and courage upon us, so that we may deeply realize the responsibility that the Korean people must realize and through the education of the Epic and that we may realize how terrifying the indemnity of the children who fail to fulfill the responsibilities...

Let us be the filial children who wipe away Your Tears, who resolve Your grievances, who lighten Your Burden and fulfill the Will of Heavenly Parent on this earth substantially. Please work through us.

We will do our very best, so that the Will of Heaven may be fulfilled working with HyoJN and HeungJN and DMN's devotion foundation and for True Mother to return to the Palace as soon as possible and that you bless all members around the world paying as if war time.
