Opening Prayer of Gratitude

Today, we offer our sincere gratitude that we can offer prayer here at Cheon Shim Won with one heart and one mind, here at Cheon Shim Won, True Father's Office and a Place overflowing with True Mother's

Love.

Especially today marking the 76th Anniversary after the outbreak of the Korean War, You have taught us that the Korean War, in which 16 UN nations participated was, from the perspective of the Providence, a holy war waged by the Heavenly Parent to protect the Second Coming Messiahs. We offer our sincere gratitude before Heavenly Parent, Who protected this nation amidst the horrors of war, protect the True Parents and guarded the Republic of Korea as a nation of freedom and faith.

We realize once again that the reason we are able to offer this Cheon Shim Won and callout earnestly to F and M is only by the countless ancestors and patriots who gave their lives for our freedom. We pray that we may offer gratitude and hyojeong to Heavenly Parent at every moment, and through our devotion at Cheon Shim Won, become Your filial sons and daughters who overcome every difficult problem one by one to create victory.

Now we will live with a deeper realization that all of us Blessed families have a calling to fulfill of Cheon Il Guk. Please allow us to actively participate well in the history, opening H Korea, and let the great values of the Holy Works of True Parents be revealed to the whole world. Please work so that righteous people who testify to True Parents may be rising in every field at every level and causing the hidden truth to be revealed so that True Mother may return to the Palace, and open a new era of a new Providence.

Please let this Cheon Shim Won today be a precious condition for Heaven so that this may be accomplished.

At this time, as we begin, we earnestly pray and desire that You Personally Preside over and Guide this Session. I pray all these words,

Chanyang

285th 21-day Workshop

gratitude to wife

I was dispatched to Wakayama Japan and have been walking the path of public ministry but always the Word from True Mother that I cannot forget. 'While I am on earth, we must restore 1/3 of all humanity' How to do this was in my heart and prayer. Perhaps I need to go out into society and witness for the sake of restoring the Birth rite.

About 500 public official who had been following the path of the Will decided to take early retirement and I felt that perhaps H wants me to go out into the secular world, and I discussed this with my wife, and praying about it overcame her first reaction, and she said she would go forward until the very end.

With the Supreme Court affirmation of the dissolution, I felt sorrow but also pushed by Heavenly Parent Saying, 'Go out and find the children who do not know Me.'

I am grateful to visit CP for the same time since Entrance and I also participated in the resonance prayer 3-day with the exact same number, 321, as in the first Workshop. It was a precious time of my deep repentance. I realized I had been thinking of Heavenly Parent and True Parents as separate beings when They are One, but I was feeling that True Mother was a distant being and keeping a distance from Her in my heart.

Mother said, 'It is the mission of True Parents to return humanity to Heavenly Parent, so that Heavenly Parent can embrace them.' I repented how True Mother has shed more BS and Ts than anyone even at age 17... Because She had come to know Heavenly Parent's Heart and Grief, that Heart was conveyed deeply in my chest, and I felt Her Love, but with time I again began to look at Mother with my own standards without even realizing it. So many tears came so that I was choking on my sob.

The purpose of this Workshop had changed to become one with Mother. Vice Director Yokoi's lecture was of Mother's resolve to finish in Her own generation, and the Providential significance of Her Birth as the OBD. What did I know about Mother, that I judged Her humanly, without knowing Her Heart. My chest tightened, and scenes of early days when M spoke to us with love came to mind and so many tears came while praying at Cheon Shim Won, looking at Mother through the lens of my own values and leaving Her alone, failing to be the small needle for Her.

Even though there was damage to my hands in pain from CY, I used to try to accommodate not making more pain, but this time when the pain came, Mother's Pain appeared in my heart and I felt this was connected to Her and a heart of gratitude came and I felt no pain at all and could have deeper repentance. It is this Place where True Father operates and works directly to become one with True Mother.

Message: 'I have been waiting. I have been waiting.' I became convinced that F called me to this Place, because I had not yet become one with M before starting this new life of the Will. I plan to establish a new company with those who share the same vision of growing true love.

Now, the FF has lost public trust, but I have resolved to show love through this company and testify that Heavenly Parent is our Parent, but how foolish when living for the Will without being one with Mother. It felt as if my heart was tearing apart and not one with Mother, I had been hurting my wife and daughters, treating them with my own emotions.

Nothing could be accomplished without being one with Mother and I resolved. I will walk this new path of the Will, no matter what pains and sorrow come, and if I fall, I will rise again and refine my character to make Mother's Wishes my own and advancing forward. TY for listening

'Holy Forever'

(they changed the words and also proclaimed other lyric to be after-Entrance lyric all about HMH/True Parents, even as Jesus is also all about... and this comforts Jesus... as True Mother directed us to do also with songs and lyric)

Testimony

Jinjihe

Coordinator of the Attendance Workshop

(she bows)

2nd gen, 2nd of 3 children 2 sons and 1 daughter

I lived far from the life of faith for a long time and grew up with family discord and discrimination for being multi-generational, and I was a sensitive and anxious person difficult to express my feelings honestly. Above all I resented the church of the Blessed marriage, which I blamed for my family's discord, and I only wanted to achieve and have financial independence and I received an award and did two jobs without rest, look good to others, but with only one goal, to be able to live alone without relying on anyone.

When my family, who wanted to rely on me called, I was resistant. But I was far from happy, and at my parents' request, I went to 40-day Workshop treating it as the final path of my faith, even I was angry with my parents who didn't know how to give up on me. But the spark of life and faith came back and with so much joy of grace, but there was greed and terror that I would have to lead others on the path of faith, and all I could do was run around all day no matter rain or snow, with blisters on my feet and sores in my mouth, unable to live comfortably. This was physically grueling but also the loneliness to endure it alone was even harder.

The reason I could never really stop was the trainees who came here were incredibly precious to me, they themselves being the CP holy ground. I too desired to find happiness centering on Heavenly Parent. I embraced them as if my own and did HJ Papers and prayers whenever I could. The stipend I received I poured into those of need and hope that they would discover in themselves the reason for gratitude and happiness, realizing that the sorrowful circumstances of Heavenly Parent Who could not give up on the children had more value than any money I could have my entire life.

However, with satanic power energies full force, I realized to pursue responsibility, a world of heart that could only be understood by bumping into it directly with their all and the grace coexisting, then I felt the weight of truth True Parents had to carry their entire lives and the breaking of borders that exist with differing languages also.

Finally, I realized that the Heart with which True Mother Exists of Wanting to Embrace of humanity as Heavenly Parent's children is itself Attendance. Still, I burned out with my first experience of panic. My mother who did not have any way of knowing, came to CP. I told her that I wanted to cry so much, and told her everything. She said, 'Then cry.' Then I looked at my mother who never let go of me and fought for me and then I looked at True Mother, HMH, as the One Who Gave all, True Father said True Mother is the King (or Queen) of Attendance, Who came from the lowest positions to attend for the children and it reached the depth of my heart.

Many asked me how did I return to the path of faith, and I can say because of my mother's devotion with earnest and tears for her daughter to be saved, and that was finally answered by Heaven. Although my father keeps some distance, he nevertheless shared the position of the Blessing with my mother, and I can exist because of that.

This training was not only to be one with my parents, but also to attend Heavenly Parent within me. The position of coordinator for the last 190 days was for me to walk the path of Mother myself, or else I would still be focused on individual life rather than a communal one. I trust in the Heaven that changed me and will live with determination with AFAL and AO. I will also pursue learning more about True Parents and my parents in the rest of the Workshop. TYVM

HJ Report

Special Itinerant Shin Dong mo

Cheon Il Guk leaders and our b and s... I was told I would go somewhere else, but why am I here? It is because Providence is really busy right now, and from June 1st, I was called to be a special itinerant...

'Grace of Cheon Shim Won and One-Heart Devotion that Harbors Heaven's Hope'

True Parents's Words:

The path I go is a dim, moonlit night and the path I go is a? (sounds like deen) path As I go, darkness will set in, and the middle of the night will come to visit, but I know that is not eternal. And after midnight

passes, the time will come when I can welcome a bright new light. Because I knew I could welcome the sun the faster I go, you must know that is why I am doing this. Do you understand?

'You must call upon and move the SW from Cheon Shim Won. The result must solve problems on earth. 365 days a year you must go to Cheon Shim Won and be able to see Father and be able to converse with His 4PF. Cheon Shim Won is where humanity can always have the experience to encounter Heavenly Parent when you pray and offer jeongseong at Cheon Shim Won. It is where you must center on True Father, HyoJN, HeungJN and DMN, and it must become a way of life where all members love, unite and become one.

'It is because there is a God Who works harder than you. I Myself, when I sleep well at night, I am repenting, 'F/Heavenly Parent, when I have time to sleep and rest when I am tired, but I think of You not being able to rest for the long 6,000 years, with open eyes, with the Heart of Intention, I must go, and I am ashamed to cover Myself with a blanket. Thata is what I do. Even after waking up, I must shed Tears and repent. You must know that this is the ideological foundation of the Unification Church that you did not know. You must know, if you do not use this and do something wrong here, you will be caught in a big way.

These are the special Words given by True Father, His Heart. Whenever we think about the CS, if everyone could be able to offer devotion with this True Father's Heart and resonate without sleeping, thinking about how we need to offer even more devotion and resonate deeply with hyojeong Spirit of our True Father.

One of the places we went was Dallas Church. From April 23rd to May 21st, I worked in H USA and then was called back to work in this Cheon Shim Won and during this period, I could go and participate in the weekend Workshop in Dallas, a big and beautiful church, like a Christian Chapel. During the Workshop, when touring in Korea, I was able to condense it into 3 days, but there is a full day and service on Sunday, and since I could give all to the Secretary General, I was also giving some of the lectures. And they are offering all to Cheon Shim Won devotion for 7 days, and we are offering together with them.

And the 2nd day, there was a special lecture about the Cheon Shim Won, and CY session and other lectures by the SG (Ryuichi Stevens) and those who received ansu training are volunteering to give ansu

to the members. And on the last day, after the SS, I was able to give some sermon. And this Dallas Church, a lot of them participated in the yeongseong Spiritual Academy, and the youth are now doing the CY live.

On Sunday, we gave sermon about the Providence. And there were a lot of youth members, and we took a photo. It was such a tight schedule, and afterward, being able to go on tour in America two times, I was planning to give an education about the Cheon Shim Won, but I came back to Korea, but I believe that this Providence will continue.

Testimony of a lot of grace: One sister got the Message, 'Don't worry. There is a way.' When I heard that message, grace and new resolve. Takiko Willus had Parkinsons in 2018, and through the ansu, she was also able to receive ansu through the ancestors. After the first ansu, I was resting, but I received a message from SW not to rest. After the ansu, she actually felt light and during the liberation ceremony, she was able to feel the resentment and the sorrow of the resentment spirits of her son.

And a 6,000 Couple Elder from the Korean Church in Dallas was diagnosed in 2023 with terminal kidney cancer, and connecting to this Main Branch, and also, whenever the ancestors participating on tour and in this Workshop, this was able to deeply experience the grace of ansu... someone with back pain and surgery of lower back with 8 screws put in

had grace of overall recovery. TY for loving someone as lacking as me.

3-day spirituality Workshop, even only 2 to 3 staff, many volunteers, and all of them could change and educate and teach the Korean songs. At the last day, they went out to the stage and performed this praise and the CS robes were bestowed and they offered sincere devotion educating the schedule and content from the Main Branch, and some of them were done in Japanese.

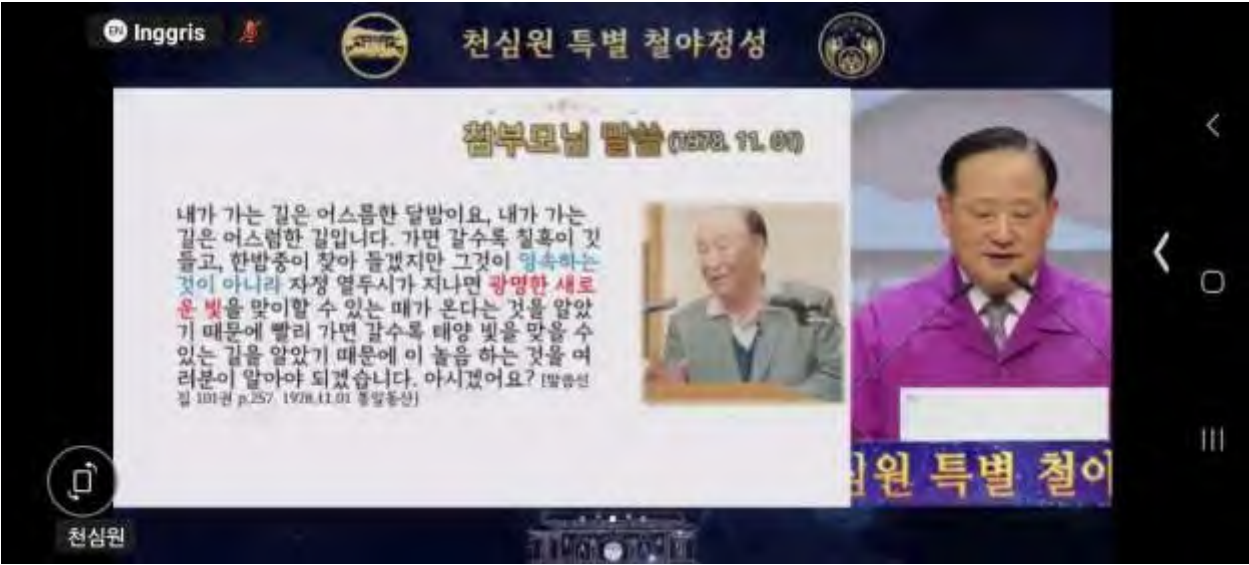

And when I went there to LV, that Branch, they offered LV Cheon Shim Won devotion over 1,000 times, from 10pm to 1am. And the last one on Friday, and they would also connect to the Friday Cheon Shim Won at the Main Branch, but this time I really felt while Mother is still going through suffering, and with the difficulties in Japan, that we need more devotion and how important it is that we need to connect more to the Main Branch. That is how I felt.

And since America is the elder son nation and Canada is the daughter nation, North America should be representing the children as sons and daughters to support the Mother Nation Japan. And most of the Fatherland of Korea, especially to offer devotion for True Mother, at least LV Cheon Shim Won should be able to connect to the Main Branch. That's the reason we offer this way, even when I went back to Korea. I'm so grateful for the devotion. I feel a lot of strength through the devotion and I'm so grateful for the Cheon Shim Won family in H USA.

There is a deaconess who offered a 40-day fasting devotion for True Mother. And starting from Monday to Thursday, they didn't do it (attendance of Korean Cheon Shim Won) willingly, but actually they had all the programs scheduled, and there are people who want to listen to the voice of Pres. Lee Gi-seong, and they downloaded the message with subtitles. And sometimes PL would shout, and you could really feel the spiritual energy through him and through the voice, even they didn't understand Korean, they wanted to feel that spiritual energy and that they are wanting to listen to the Korean like that made me so happy, because just listening to the English translation would make my head hurt, but listening to the Korea was easy for me. Even that was the case, we decided to offer the more connection to the Main Branch.

Right after I was sent back to Korea, all of the staff, volunteers and members, I was able to take the photo. This photo is with the spiritual academy and volunteers. They were not sleeping at dawn. I had to go to the airport at dawn and could not explain well at the time (and hoped to explain more later) but this was 2011 motto calligraphy of True Father. It reads, 'The Completion of Oneness of Cheonjeong Parents and Settlement of the Universal Settlement of Cheon Il Guk, Oeg Monsei'

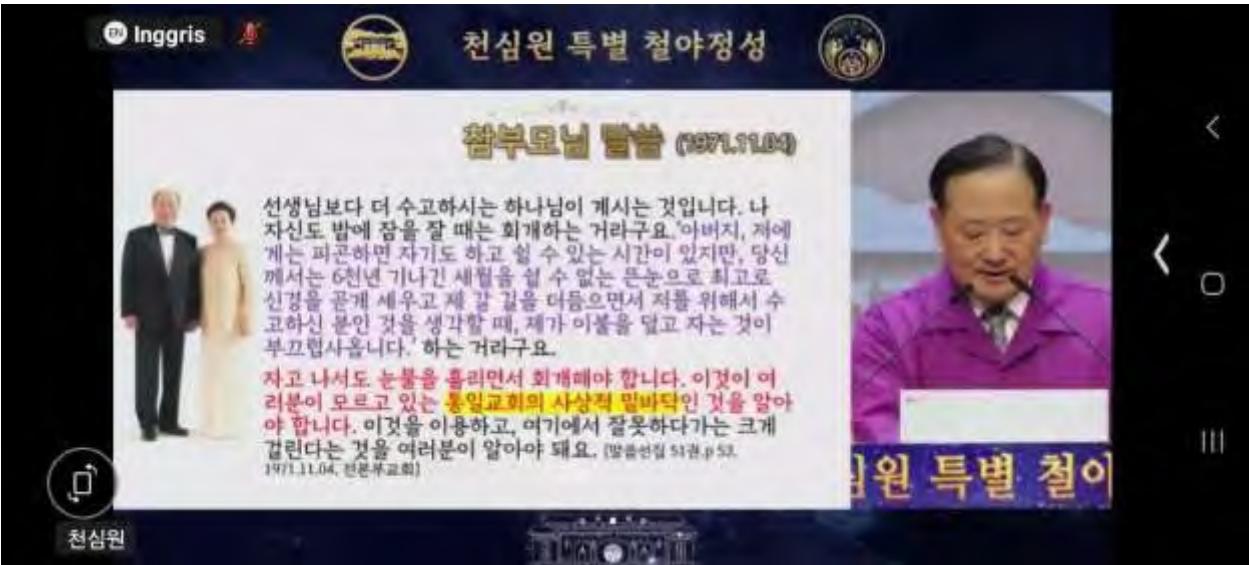

So this was when the tradition of the substantial Cheon Il Guk was all set, and this should be inherited by all family members and that was the original calligraphy.

Also, there are 3 parallels from 2012, April 14... Heavenly Parent and True Parents's Settlement of the Substantial World for the final Completion, Conclusion and Proclamation... and especially, because of the Direction of True Parents, they were told that there would be Korean, English and Japanese.

When I would go on tour in Korea, I would ask then Branch President Chun Jin Ah to take a photo of it, and that photo was still there, and it was so happy for me to see that in person. And I was able to receive the Heavenly Fortune of those victorious Proclamations.

After the HJ American tour, when I went back to Korea, we went on tour. And there were a lot of small churches. Even though it was Saturday, a lot of people came and we had the devotion. So, they emphasize participating in the Main Branch Cheon Shim Won at least once a week, even though it's a small condition, they realize the importance of Cheon Shim Won devotion. And they will do calling out prayers for the ancestors, the witnessing targets and the separated family (distant family)

And they sang the Monarch Butterfly, and received grace through that. And through this revival, I felt that many things that had been frustrated until now were being organized. And one of the devotions they offered was HD, and doing HD of True Mother's Memoir, there were complicated things that happened, but she was able to switch the mindset for this that all of these things were

resolved. So, even a small condition of Cheon Shim Won vigil, they received the grace.

Through this Special Workshop, they were able to find the initial heart of faith and experience the love of Heavenly Parent and True Parents more deeply.

'Even I knew it in my daily life, I would like to practice it and live for it and spread this love.' (reflection of the church leader)

next church, a long distance, but even a short time more than 100 members gathered and

testimony: Rather than just focusing on witnessing result, I wanted to understand how to show practice of Principle in myself and my family. I was able to feel, once again, how much Mother loves and cherishes 2nd and 3rd generations. I felt the importance of HD and the love of couples, especially those who have HJwon. For the ancestors to grow spiritually, you need to offer devotion from the HJwon. If you offer devotion for 3 years in front of the HJwon, you will be able to develop your spiritual body. That is why we need a lot of HD, if possible resonance HD not alone but as a family.

Those who are concerned about educating the faith children, they were able to resolve anew through this faith message So, there was a mother who has children who don't really want to go to this Workshop, but I told them to do whatever it take, not just leave them, but give them spiritual food, especially those J missionaries who came here and didn't know where HS was located but just followed the Will. You need

to have this substantial condition of having children go to the Workshop, before parents go to the spirit world.

Since you offered this calling out prayer devotion for your children, now is the time to practice, and when they actually practice, there are a lot of churches that actually saw revival. So, if you don't give up miracles will happen.

And one 6,000 couple elder was able to have a heart of repentance, feeling that they were judging True Parents's Words with their own thoughts, 'and I repented once again. I was startled in my mind and that I am too selfish, without really living for Heavenly Parent and True Parents. TY, I love True Parents. Please protect Mother's Body.

The attitude is important. And the really shameful thing is to give up, and doing nothing while knowing someone (Mother) is begging, left a deep impression

PL said to offer devotion, and whether you sweat or cry a lot, you need to offer pouring out your heart. 'When I was pouring out my heart, a lot of members felt grace through that.'

'However, if you start by singing and interpreting correctly, you will make God happy, and you will be attractive to witnessing targets, and once the reflection of Mother/True Parents is there.

I also share about how Mother is giving us the Message and wanting us to forgive, love and unite (and showing us) and through the resonance prayer, when I was praying, I wanted to throw up, and experienced that a lot of evil spirits were leaving my body.'

next church, 2-stories with a cafeteria... There were a lot of Peace Ambassadors there... I could talk a lot. I spoke for 3 hours, and I thought they might leave after half the program, but they actually stayed until the very end. I believe that the era is different, and what I realize is they are participating in the 3-day and 4-day Workshop at Yeongpyeong and Chung Pyung... They actually forgot about... a lot of the members prepared a really great lunch so that they would enjoy it, but they said, one of them, that he really loved participating, and I hope he can become a main member.

Many stayed until the end and this middle picture is True Father's Sign. He received this sign when He

was victorious in witnessing one person every month. True Mother is emphasizing witnessing...

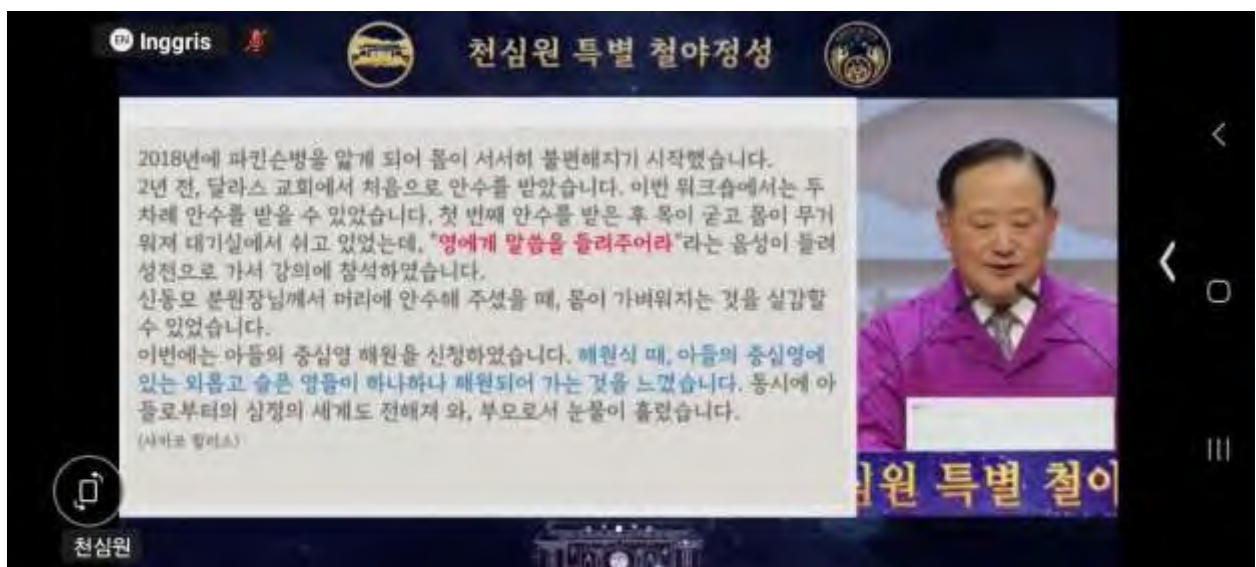

And on the right is a deep fried ginseng which it was my first time to eat. And these youth said they would participate in the 40-day Workshop. I told them if they came to the TC, I would buy them some coffee, so I am saying this promise publicly, so when you come, please contact me. And please give big applause of encouragement to these two young people.

And during the HJ small-group gathering... recently, when Mother appeared before the judge, She was a dignified appearance of the OBD, and to be what True Mother Said when She recently attended court (that She is the OBD)

and now is the time for 2nd gen to be one with the 1st generation, with the Substantial Holy Spirit, OBD, True Mother and become one with Cheon Shim Won.

The pastor was given this message... So, during my HJ Report I received that I need to do one-on-one Divine Principle lecture, and it would be nice if Rev. Shin Dong mo came, and when he came I was surprised by this great gift, and I was nervous as he was emphasizing witnessing, but a lot of the members felt SW emphasizing witnessing, and we hope this member can revive a lot of people...

So, in this time, I was able to contemplate a lot on Heavenly Parent's Word, and to think how precious a time it is when I meet each member and each person. There are a lot of members

who really want to reach a lot of people and who are offering devotion for the 2nd gens.

And one of the staff members, her father is participating in this Podang Family Church, and one of the elders I truly respect and his children where here, one of them doing a public work, and they had difficulties, such a good church offering devotion and they resolved that they would see revival of witnessing, and like a lot of places were able to open their hearts to the words and dedicate to witnessing, and do witnessing through HD.

I was able to receive a lot of the Words about True Mother's Value and status and why Cheon Shim Won is important and shared how they received grace through this content.

Dream of Mother embracing her, even she felt she needed to do better. Mother called her name, and she was able to fee after the revival where one new guest was here and the son of the pastor came and they felt that the H fortune is there. Important to feel that. And June 25th was a really historic day when the Holy Spirit was coming down.

And dedication was felt to bring more guests, and they have 'Happy Dream Center' witnessing center. 21 of 25 were contacted and they wanted to grow this church and offer everything in this church, and I was so moved and grateful and prayed hard for them. There is the spiritual mountain and there are a lot of resentful spirits there. It was one of the biggest cities in Joseph's? Dynasty, so, it was surrounded by a Methodist Church and a place where Patriot I Gon Su was witnessed to be Methodist, and there is a pool that is our land, but all the surroundings are of the Methodist Church, and there was a difficult position, but they did a lot of liberation of the spirits and the holy grounds, and where the Catholics were executed. And upon this, we did the CheonBo Workshop.

There weren't so many members but they resolved to gather as one, and here is the photo we took with the Peace Ambassadors who wore church clothes. They are volunteering to give free food and working as if they are members, and even we are being persecuted by the media, they are united as one, and completely one with Mother in Heart (although my body was difficult), I was grateful.

They had a short time to prepare but all did Cheon Shim Won and bowing devotions... All of the pastors and PAs will offer volunteer work and give out the free food and make their own food with lunch boxes (They've been doing this for 20 years).

So, in the community, they are being recognized as a small but great church, and we educate them and I feel their hearts are open to be members...

The biggest gift in the firm establishment of Cheon Il Guk is the Cheon Shim Won, so how foolish are we if we do not utilize this that we received. And our True Parents have worked so hard to open this era. And you don't need to differentiate True Father and True Mother and True Parents and Heavenly Parent... They have become absolutely One. And after the Era of the Foundation of Cheon Il Guk, For the success of Victory of the 7-Year Course of 2020, the mainstream of the eternal Providence of Cheon Il Guk, as with the Content of Page 35 in the Cheonbumo Ron, for the success of the victory of the 7-years' of Visions 2020 Course, the Mainstream is Cheon Shim Won and the internal Providence of Cheon Il Guk

Era is Cheon Shim Won, and Cheon Shim Won is the mainstream HQ of devotion and Mainstream of Culture of Cheon Il Guk, mainstream for cultivation of the spirituality of Cheon Il Guk.

The Cheon Shim Won is a Providential Gift that we need to utilize. Beside the Cheon Shim Won Community, the Cheon Shim Won is a Providential Organization within a Dual System, and using these Words of True Mother, Cheon Shim Won has a lot of functions, but the most important is that it's for the cultivation of 2nd and 3rd gen., our pure water generation who could resonate with the heart. We are acknowledging that they are now coming and being revived, in the responsibility of PL, and we cannot allow any weeds to enter.

And during the Cheon Shim Won resonance prayer, I had two words that came to my mind, 3-object purpose and 1600. I wrote that down on a note, and when I looked into P. 34 of Divine Principle, according to action of give and take the subject and object separate into two aspects of the Subjects they set the standard of give and take with each of the others and complete the 3-objects purpose. So, we are in the direct dominion, and when you look at P. 61 of the Divine Principle, there is

explanation, how do we have direct dominion of all things (in the Principle of Creation).

So, direct dominion is fulfilling the Purpose of Goodness. There are people to whom I am the subject, but even if your husband says you should not go to Cheon Shim Won, you should be able to say to your husband, 'I want to center on God.' When we give and take, it must be the Love and Unity Center.

(really wanted to get all of Rev. Shin Dong mo's words... will try to make another send for the end here and for Hoon Dok Hae... missed PL's Message)
