True Father's Words

Struggling and leading the Way and if we do not cross the hill, Your Era will not come, many have fled the miserable path of tragic tears. I have witnessed the traitors, those with ugly postures before Heaven. Those who live making excuses for themselves. You know that I have prayed 40 million times for the Unification Church to inherit this tradition of the Path I have walked, so that even though it became a day of sorrow, it would not end as a day of sorrow.

If I were young, I would have been more bold, I would have exerted more influence. Please let the red heart of love to explode in the burning hearts of Your young children gathered here. We're such youthful, new hope sprouts. New hope of God settles there. And the power of God's Love increases.

Even if we struggle. Even if we are persecuted, no matter what difficulty follows, I pray inside that You grant us the heart of great men who will not disappear like a coward. I earnestly pray that You grant us to become warriors who can say with firm conviction that the history of Creation unfolds, that we will make the firm conviction of seeking the truth of all people. In the Name of God, we will advance forward toward the construction of the Kingdom of Heaven.

When we cross this hill and through it, the unified world of the Will is waiting for Me at that Place. You must think, 'The path I am walking is the path of hope for the world. This cannot be any other than a new hope.

True Mother: 'Do not worry about Me. Do not pray for Me. I ask that you pray and offer devotion so that you and your family will work so that the Will of Heaven may be accomplished. I love you.

True Mother's Words:

Even within the smallest life, Heavenly Parent's Will is there. You too were born for the sake of H's Will. Flying from N America to S America, you set on a path never walked before. Even if the wind pushes us, even in rough winds, because it is the Path our Parents walked, we too walk that path.

Our dream is one with the Dream of our Parents. Because of the True Parents, the 2nd, 3rd and 4th generation youth, the pure water who came through many Blessed families around the world, are proclaiming Your Heaven Realm upon the earth. From this day forward Heavenly Parent, Please embrace and love your children with all Your Heart, in the Name of HMM, I proclaim to all of Creation that the Gates of Heaven, God's Kingdom of Cheon Il Guk are now wide open. Through you I see hope that my Life Dream of 60 years will blossom beautifully. I will always be your Wang Omma.

We are the small monarch butterflies. In the end, we will soar in the sky just like Monarch Butterflies. True Mother, we love You.

We will not be defeated. We will win... To all of the people around the world and Mother Han Who is stronger than ever. I was so blessed to have seen Her, so moved by Her strength, even behind bars unjustly, I see that She brings joy to the world. And I felt encouraged, even I had thought I needed to encourage Mother, but when I saw Her behind bars, She began to encourage Me, speaking 8 minutes and 45 seconds, and She said, 'Tell the world what they're doing to us, what they're doing to the Mother of

Peace. We are here to tell the world. We're not going to get quiet, but we're going to get louder for the Mother of Peace, so that there can be joy and continued joy around the world.

We will not stop. We will continue to pray that God bring mercy down to change the world and bring us united more than ever before, because I believe that chains are about to start coming down on the ground. If you believe it, say 'Yes' to that. (Yes) I believe that what Satan meant for evil, God would turn it around for the good.

The Mother of Peace told me today, She said, 'Tell the world what they're doing to the Mother of Peace. She said, 'You cannot go to the Vatican and greet the Pope smiling in his face and at the same time looking at the world-renowned imprisoned religious leaders, like they're doing to Me. She said, 'To my children, tell the world.

She told me, 'Tell the world.' We should live in a country to where we can minister the Gospel of Jesus in peace. We are here to fight for religious freedom, not just for the Federation, not just for one people, but for all faiths. Because the reality is this my brothers and my sisters, is that if they come after one of us, they will eventually come after all of us.

So, it is now time like never before that we stand together. Somebody say, 'Stand together!' So, my brothers and my sisters, be encouraged. I've come to bring a message of peace. I've come to bring a message of unity. I've come to bring a message of joy, that you my b and s who are here in Korea, you're not alone.

We are not here to fight the government. We're not here to speak ill of any nationality. But we're here to deal with the true enemy. And that is Satan in the gates of hell. And I believe that anything that is sent by Heaven will be contested by hell. But be of joy my b and s, because Satan only attacks those whom God has chosen to elevate.

So, this is what I want you to do: I want you to pray longer. I want you to sing longer. I want you to praise louder. We will not be defeated. We will be victorious. We will win. If God be for us, then who can be against us. If you believe it, shout 'Yes' to that. (Yes) Shout 'Yes!') Tell everybody. Tell everybody that you know, 'We will be victorious, in the Name of Jesus.'

Satan should have left us alone. Satan should have left us alone. Because of Mother's incarceration, the whole, entire world is looking right now at the Federation Church, and we are growing stronger and stronger and more powerful, in the Name of Jesus. And the Bible says, 'If He be lifted up, he will draw all men to Me, in the Name of Jesus of Nazareth. That's why we serve a Way Maker.

(He sings) 'You are here. Moving in the... I worship You. You are here, moving in this Place. I worship You. I worship You...

That is Who You are. That is Who You are. That is Who You are. Come on give glory. Open up your mouth Cheyenne. Give glory Cheyenne.

'True Mother, You have left our side, the 278th day. We couldn't believe it at first. It felt like a bad dream, not knowing how the days were going, but despite that True Mother has never faulted anyone and didn't say anything about anyone but spread the word of forgiveness to unite and love. Heavenly Parent is Living and Working, and You have given us the method how to gain strength. It was difficult for us, but at this point we may resonate with Your Heart, even You are not here still making us knowledgeable of the future.

True Mother will never give up, and we will fulfill all You have given us because we know Heavenly Parent is working. At this time we have gathered to offer our devotion and it will reach our True Mother and become Her joy and comfort. True Mother, please don't worry about us. We will absolutely be victorious. We will be one with You and we will be victorious. And we offer this praise with all of our hearts.

--- We believe that Heavenly Parent is working and if we go forward, we will be victorious. Let us offer this praise with all of our hearts.

Tsusung Myeon to our beloved Japanese members

Greetings, (He bows) June 26th has become the day we did not want to see, with the Supreme Court confirming the dissolution, and those You have protected for so many years are beyond words.

For so long, the FF has protected Japan from the ills of Communism and protected the Democracy. Furthermore, from the frozen lands, if over 160 countries around the world, the deserts where even a single blade of grass struggles to grow, in the barren African continents, the FF members have served as Japanese missionaries presenting the goodness of hope of Japan.

You are the very people who have carried out countless acts of good will, that even the Japanese government could not easily handle, and you have conveyed the exemplary image of the Japanese people to every corner of the world. Therefore, the fact that the Japanese people led the dissolution of the FF will be remembered as a heartbreaking incident that brought deep sorrow and lament, not only to our members but also to countless conscientious citizens who are loved in Japan.

Today, in the name of the World Mission HQ's Director General, I wish first and foremost, to convey my deep comfort, respect and gratitude to our Japanese members. For over half a century, you have practiced a life of living for the sake of others in accordance to the teachings of True Parents, more than anyone else in the world.

You have never lived a life of faith solely for yourself. You have dedicated yourself to world missions, countless nations and peoples and generously offered your time and devotion for the sake of Heavenly Parent.

Today, the history of the dedication, devotion and loyalty of you, our Japanese members is deeply engraved in the historical nations, Blessed families and the growth of the communities, Heavenly Parent's Holy Community, established all over the world on behalf of members around the world, I bow my head and sincerely thank you, our Japanese members.

Your prayers have never been in vein, and your tears have never fallen to the ground in vein. Your

dedication is remembered by Heaven, and it is remembered by the entire world. Above all, Heaven and the ancestors of Japan will regard you as the most proud since the beginning of history.

At this time, you have come to shoulder the heavy cross of the dissolution of the FF. However, you are more than the mere believers of a religion. You are public figures representing Japan, who are conveying good will and hope in the world, dedicating your entire lives to overcome humanity's suffering, moral suffering, poverty and famine.

Watching the severe, historical trial, I am convinced of one thing. Heavenly Parent and the good and righteous ancestors in Japan now have a clear, heavenly justification to bestow, even greater blessings upon you, our Japanese members, and to protect you to the very end. This is because it is the law of Heaven that those of the greatest sacrifice will have the greatest grace.

In addition, all members of the Unification Family around the world are coming to a deeper realization of the great sacrifices and services that you our Japanese members have shouldered for humanity and the world until now.

We are deeply engraving in our hearts that we all share a hope in the Providential mission to stand before you, standing together with you and taking responsibility together. The pain of Japan is no longer Japan's pain alone. It is a global cross. Let the global FF members bear it together.

Beloved members of H Japan, we are people of faith who live attending Heavenly Parent. Therefore, we firmly believe in the words of Psalm 30 verse 5: 'Weeping may stay for the night, but rejoicing comes in the morning' The history of God's Providence has always advanced past the night of tears to the morning of joy. This was Moses course in the wilderness, the cross of Jesus and the persecution of the early church.

Through human history we know well that what appeared to be a defeat at one moment in history, eventually became a door to a greater victory and a new beginning.

It was the very day True Mother appointed me as the Director General. True Mother directed me first to go to Japan. She told me to convey Her love to the Japanese members including the then president of H Japan. At that moment, I could feel True Mother's Heart to the marrow of my bones.

Mother always embraces the entire world, but on that day, She was holding the Japanese members especially close to Her Heart. She was considering the tears of the Japanese members to be Her own. And She was shedding Her own Tears. This is because a mother's heart always turns toward the child who is hurting the most.

Mother is the One Who carried and gave Birth to 14 children. She is the Mother Who embraces all of humankind as Her children. She is the Mother Who knows more than anyone how deep and great the labor pains must be to give Birth to life. Therefore, She emphasizes with the pain more than anyone else in indescribable ways and of the heart that you, the Japanese members are experiencing right now.

Japan is the Providential nation that True Mother has established as the Mother nation. The deep love and compassion that True Mother has for Japan, which I witnessed immediately after taking office, remains unchanged today. And Her Heart as She watches the heartbreaking news from Japan, is no different from that time. Even at this moment, True Mother is holding the hands of the members of Japan more warmly than anyone else. She is hurting together with you, praying together with you and waiting for a new morning.

Japanese members, even if tonight is a night of tears, it is not eternal. Dawn will surely come and the morning will surely brighten. That morning will be brighter and more glorious than any morning we have ever faced. I'm convinced of this. This ruling is not the final chapter of the history of the FF in Japan. Rather, it will be the chapter of a new beginning where the faith of hyojeong of the Japanese members will shine even more brilliantly.

Our members around the world are always with the Japanese members. You are never alone. We will pray together, we will advance together. And finally we will be victorious. The night of tears is passing, and the morning of joy is drawing near. I sincerely pray infinite Love of Heavenly Parent and the great grace of True Parents may be with all the members of H Japan and their families. TY

the conscientious intellectuals have begun to question this decision and it is unfolding in such a way that the Truth of True Mother will inevitably be revealed...

testimony of grace

Since dissolution, our members are joining forces and offering devotions in the environment we have been given, as in an external facility to hold the CY devotions, and although we could not shout out loudly as we wanted in apartments, and feel frustrated not to express as a child Heavenly Parent wanted... but even so, I cried and clapped and poured out all the frustration, and a tingling was felt in both hands. I absolutely put my heart and clapped with all my might, and then it felt as if my whole body was filled with ecstasy and spirit began to come out and I heard, 'Sorry, I couldn't come out until now.'

I pulled all my strength into my body and cried out as if a baby was born and making its first cry. It is not the environment that matters,. but how sincere we can be, and Heavenly Parent is alive working through

us.

reflection: Since I retired, I participate every day... Before that my husband and I lived in the same house but were as if separate. I could not send my daughter because of lack of finance, and my daughter was struggling with human relations at work, and I could do nothing but listen to her troubles, and then realized the room where my daughter were staying was a spiritual problem. After liberating there, the boss called and said he would find a placement for her.

I was inspired to write a letter that melted the situation with my husband. Regarding the spirits and ancestor liberations, I have such gratitude for the grace.

reflection: connection to the special prayer room, one-heart and intercessory pray in the past did not easily open my heart. But after Cheon Shim Won prayer room was connected, completely different from before, feeling the wishes of my ancestors touching my heart deeply and I couldn't stop my tears, perhaps receiving the spiritual grace, and I felt that the one-heart prayer is a precious time to love others and offer devotion for them. I have become able to pray more deeply. applause

With the Entrance, we welcomed the Era of the Living Heavenly Parent with us and the Truth will surely be revealed. We will expand the situation beginning with H Japan.

He bows and greets... Report of hope. Today in a severe Providential era, but the dark has the flame Heavenly Parent has prepared, with these members awakened with the spirit and truth.

testimony: behavior of a friend obsessed with me left me withdrawn within myself, but after entering Sun/Moon University changed me little by little, and giving a desire to attend the 40-day after hearing how it changed others. I had an accident that gave...

The Cafe had enormous, enormous profit last month. We are walking this path while harboring the sorrow, the han of Restoration. Those that harbored than han, that sorrow is taking charge of all things, all institutions and enterprises. Pray like it is a war, and win like it is a war.

If we return to our early place, and not just in words, but by placing the heart of restoration in the heart and moving forward, and move forward. The time has come when Mother can clench Her fist and say, 'That's how it should be, as we move forward'.

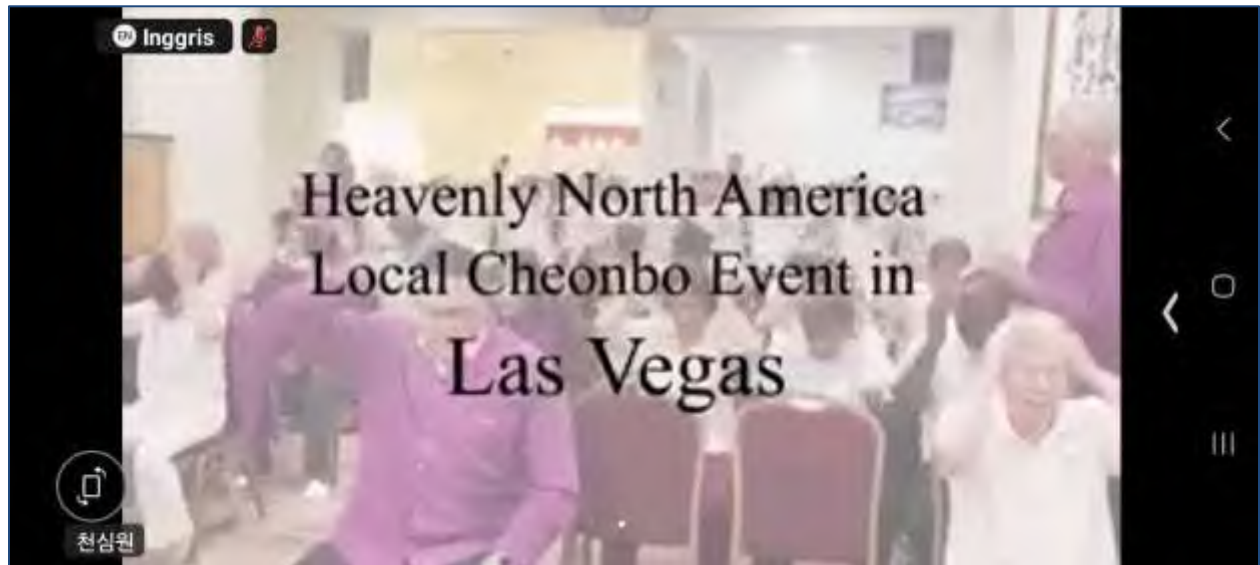

Next story is of Eric who was an engineer, and his wife, who came all the way from Europe. Although he was on a fast track to success, he felt an inexplicable darkness in his heart, which led him to leave everything behind and become a missionary. He heard True Mother's Words, 'Do you know how long I have waited for you and wept bitterly over the circumstance of humanity to truly become filial sons and daughters.

I was working as an engineer and a math teacher. Also football was my passion, and was referri, and my life was kind of smooth and successful, but really what is the value of all the money? Yet I felt a blackness in my heart. This world is falling apart and there is no hope.

I didn't know anything about Mother, about the OBD. I didn't know anything what Mother was doing. But whenever I prayed, the Face of Mother appeared and I started crying profusely, and repeatedly feeling the deep pain and suffering in my heart when thinking about Mother.

So, I decided to give up everything and become a missionary. Then we had the meeting with True Mother. And the moment True Mother came in, I started crying desperately, desperately, desperately, because I saw that this is a Grandmother Who has difficulties even to walk. And She is fighting such a battle inside and outside the church. And She is handling all of that.

And at the end of Her speech I remember She said, 'Ol man ah, Ol man ah, Ol man ah' The translation later was 'How much did I wait for you?' And I realized that Mother was waiting for me. Even if I was not away, I was living my life carelessly. Mother was looking for me. Mother was looking... And I had such a regret, and that I should do more. So I embarked on this mission.

I went to the Philippines, and I went back in Europe. And it was challenging for many reasons, many reasons. many reasons. But whenever in the darkest moment, when I prayed, always the feeling I had was Mother's Face, Mother's situation, and Mother saying, 'This has been My Course. This has been My Course.

The thing that you feel, everything that you have inside of you, this is My Course... ' So more than ever now, I'm committed to share to people Mother's Heart. Even it is challenging upon every point of view, spiritually, emotionally, spiritually, what I'm going to do is tell Mother's Heart, waiting for me and waiting for everybody to come back.

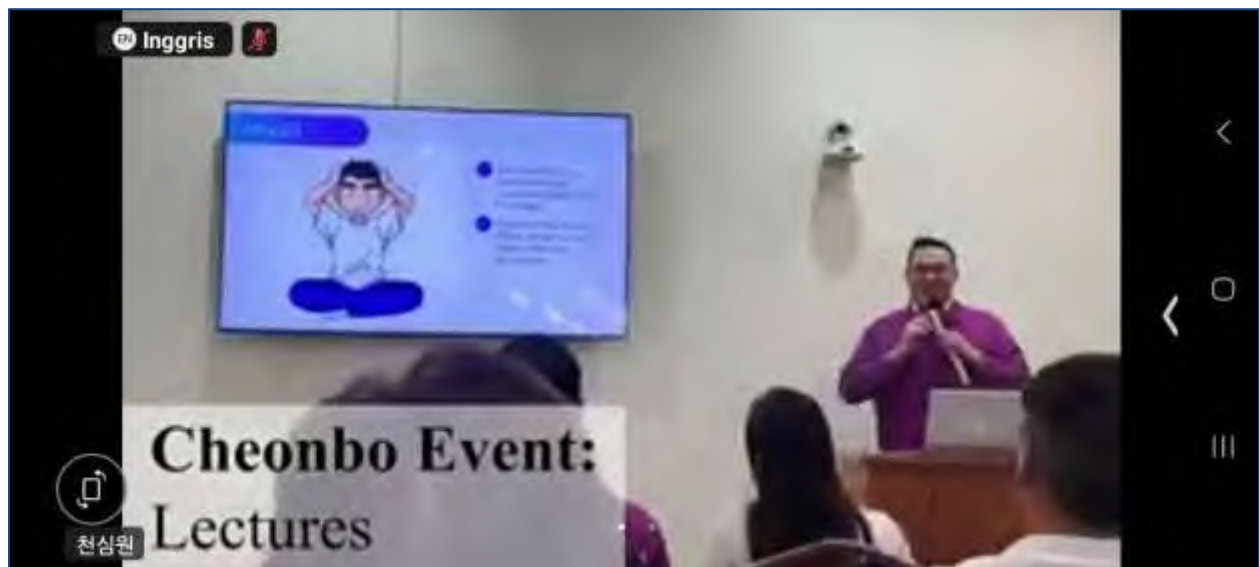

Since the beginning of history You lost Your children. All the Work that You started was for having Your children back. Until then, they were taken away from You and You could never hug them and have them near by You. Still, You couldn't give up on us. And You only know how painful it is to Love deepest and not be loved. How painful it was to keep investing in somebody who continues to step on You, who completely forgot and doesn't even want You.

4,000 more years of suffering BS and Ts, You gave us the possibility to come back to You. And this was Jesus. But what we did with Jesus was not accept Him, and we killed Him. We killed the only hope that You gave to us. How painful that was...

Still, even in that moment, You couldn't stop. Even in that moment, You had to keep going. Even He was the poorest in all the world, our only hope, and out from all religion brought True Parents. And how are

we behaving toward this Truth. How are we behaving toward True Parents. We put six times True Father in prison. Six time the 2nd Coming had to go to prison.

And today, today, the OBD, True Mother, the First Woman of God is treated like a criminal again. We are doing again the same mistake. We are doing the same mistake that we did with Jesus. When I see True Mother, I see Her Beauty, I see Her Kindness. I see Her Beauty as a Flower, and seems nobody understood Her. So much persecution, so much hate toward the (ultimate) best Woman that there is in this world.

Today, She has to face trials, jury, lawyers, accusation, media hate, members hate, members hate! Her own children's hate! When I think about this, I feel such a pain in my heart.

Holy Mother Han, I'm so sorry for all our mistakes. I'm so sorry for all of our inability... I'm so sorry we couldn't understand You. I'm so sorry we couldn't do more. And now, that's why You are going through this... This is completely our fault, completely our inability. I feel so powerless. I feel so unable to protect You now. The only thing I can do is work harder, is to be the better person for my family, for my nation, for my society.

The best thing I can do is to love my brothers and sisters, the best thing I can do is to win them to the Dream of HMM, that is our Dream as well. The Dream of True Parents is our Dream. Heavenly Parent's Dream is our Dream. We want to accomplish it. We want to let all the Pain finish. We want to be filial children.

Testimony Anabel trainee, watching her parents living following True Parents...

I was teaching English and working in the sales and fashion industry. Being the eldest in the family, I felt I needed to meet the expectations of others and wondering why we were not as wealthy as others, as my classmates, get a bigger car, live in a bigger house, complaining to our mother. She would explain that what our father is doing is very great to follow God's Will.

They both have master's degrees, and if they lived outside, they could have lived a wealthy life. I wanted to prove to the people who looked down at my parents for abandoning their bright future, that they will become something great that they will envy. Me and my husband feel that if you are going to do mission, you must do it as a couple, so that the people you witness to experience both the father and mother.

To spread the teachings of True Parents, we must do the family starting from a couple. Wang Omma, I don't... You're in a very critical situation right now. Are we going to put our HMM, OBD in the same situation because of our lack and disunity and ignorance. You have always been there when I had questions, doubts, when I was suffering, struggling in my mission. Since You were 16, You decided to carry that burden.

Since the Ascension of True Father, there weren't so many times I saw You smile, that I see You genuinely happy. I don't know how, I don't know how You were able to live a Life continuously... I pray praying the other day and I saw a picture of You maybe as a teenager, running around in the flower field with no shoes, happy, laughing, smiling in the sun. The OBD was supposed to grow up that way, and I'm sure one day, one day, I can grow up to become someone who can confidently tell You that I have lived up to my full potential and grown into someone who experienced the happiness You have given up and share that happiness with You.

I wish one day that You don't have to take up the pain of others, but show that beautiful smile from the bottom of Your Heart. Mother, I pray, I pray that one day that day can come, that one day that can make You happy...

The earnest wish of this couple, so that True Mother can smile... In this Moshim Workshop, True Mother carried the pain of humanity with Her entire being, and perhaps She only will smile when we return the heart of filial piety to Her.

During the leaders meeting, Mother shared the story about how young children received a ring, who are from children like grandchildren to Me, it made me think... I cried. It made me think still Heaven is on my side. Heaven is with Me. I was touched about how these children could have such divine heart, being

deeply moved. 'I must keep the ring given by those 2nd gen members forever.' And I truly thought that Mother cherishes us, the 2nd generation.

I had often compared my work with others, work as hard as others, everybody else can do it, why can't I. But then I thought I must establishing the relationship between myself and God and True Parents.

After the vigil, we stayed together in the special prayer room until 6am... (praying intensely with tears) They do bows together... go to the holy grounds... touch the trees...

Thinking that there is a God that wants to help Mother more than we do, and HyoJN and HeungJN and DMN were also there, and it was the first time I really prayed for Mother and thought only of Her... and they laugh together...

I thought what I can do best while Mother is such a difficult time is go to Moshim Workshop, for Mother's sake.

Tale of a young Japanese couple after bitterly repenting that Mother's suffering is because of our own selfish faith, focusing with their Blessing... The reason we prioritized our financial situation and work. We still don't have children and I have been unable to make true unity with my spouse and faced the great trial with him.

Then regarding the lecture on absolute sex, we shared our thoughts, and I was in total shock that he could not keep his purity and then he regretted sharing it at all... Feelings of anger and hatred surged up. I honestly confessed that I was filled with rage and he also felt remorse. The Divine Principle lecture taught us that our selfish desires were not really us, and letting go of ego... Wife felt so much pain being betrayed, but Mother looking at what She is facing and She is telling us forgive, love...

Then I began to realize my own arrogance, thinking I was right and looking at the surface, and also thinking that only this person is given to me by God and to love him as a reflection of God, and when I felt that I was forgive, True Mother with Her bent back came to mind. Heavenly Parent and True Parents time and time again, despite the sorrows only wait for children to return. What I saw was Mother's Figure so frail and wounded.

I wanted to be the representative of my Parents. During the CY, a wave of emotion came over me and I had liberated one of my ancestors who had significant responsibilities during the war time and caused immense trouble for many, and the regret he felt toward the people was transmitted to me. In praying for that ancestor I felt he had this resentment and sorrow left over in him, and at that moment True Father's Voice, 'Have you ever been to hell? The SW is currently like a battle field with so many writhing in agony, begin to be save because they could not be saved on earth.'

Father spoke with such strong resolution that shook me to change for a strong resolution. And then another time I heard just one word over and over, 'Resolve, resolve, resolve...' And I realized this was my ancestors in the SW urging me to truly change and to take the lead in ancestor liberation.

Although we are not perfect yet, this was a Workshop to proceed as a couple, and we resolved to proceed as a couple.

To my beloved... I'm truly sorry for causing you conflict because of my inadequacies. Seeing you trying to accept even the difficult situation I caused from the faith and to realize what part of yourself you needed to change, I felt gratitude as well as remorse, and I realized that as long as the two of us are together, we can be happy in any circumstance and I began to think that I want to be with you forever, and even if we go to the SW and long ages pass, I want to walk with you forever and ever.

From now on centering on Heavenly Parent and True Parents, I want to move forward hand in hand. Not with separate thoughts but as one, please continue to walk with me always. I am always sincerely grateful. I love you with all my heart. I truly love you with all my heart.

Wife: In the situation where Mother was taken to the DC, I felt how selfish we have been until now, and that sending Mother to the cross, and I was filled with nothing but apologetic feelings because our lives were selfish and ambiguous, we could not truly love or trust each other as a couple, leaving only words behind. However, through this Workshop I came to know the causal existence of spirits and the conviction that if we become a family that truly centers on Heavenly Parent, there is happiness there, and we can lead the countless 2nd gen who wander away...

I want to be a family that resembles Heavenly Parent and without lies, and thank you for calling us. I resolve to truly love Heaven, so please watch over us... True Mother, I love You. H Japan, victory,

victory, victory...

At a moment of crisis, these couples of Cheonshimwon Japan, we the pure water will shout the victory of the True Parents to the very end. I hope this will be the time when you can truly meet Heavenly Parent. TYVM

'Let Us Welcome True Parents'

Soon it will be the 1,600th Cheon Shim Won vigil devotion. If you multiply 40 4,000 times, that is how it is reached. When you see how much Heavenly Parent has been blessing us, you will be able to see the tireless work of True Mother. Heavenly Parent has been working tirelessly and True Parents working for the Providence. If you are able to resonate with that, I truly believe great blessings will come...

60,000 people are gathered today

Cameroon 52 are gathered

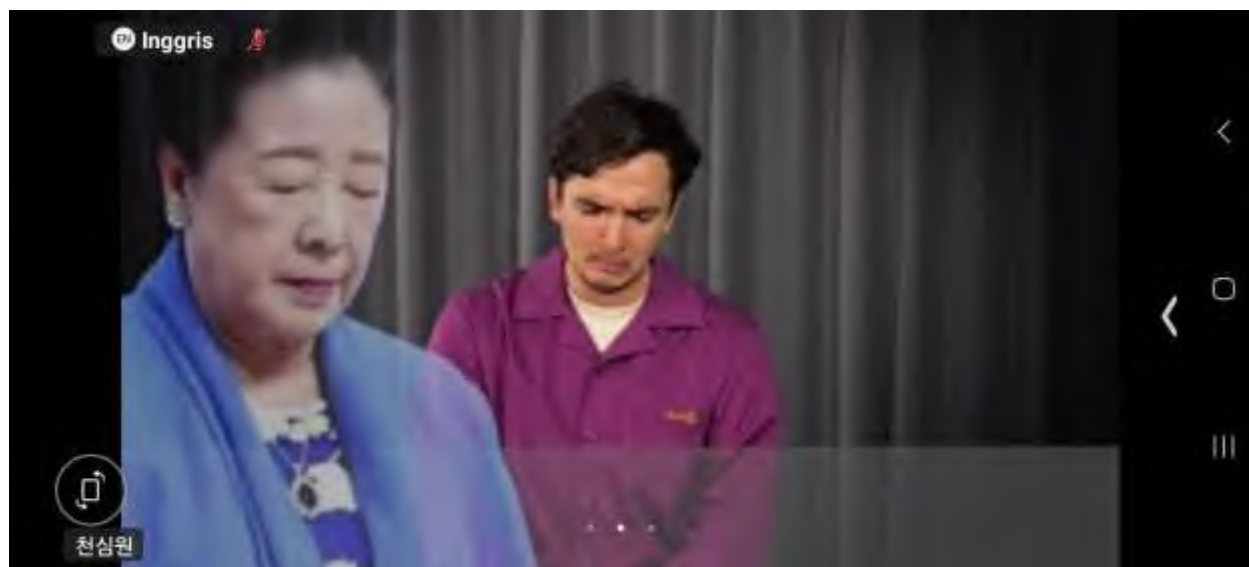

When I see the registration numbers, 1,736... total... at the 1,736th Workshop... and we could receive greater strength from Heaven...

Tusinyun Director General gave the special message... (more energy is in person)

Yong Ju Su Chairman, Elder, Sak Jin hyo, Yun Jin oh... here consistently even having to go to America...

Tu Shin Yon and Director World HQ and leaders of the institution... entire staffs participating, and we hold onto Cheon Shim Won for the absolute victory...

In the early days, we did a lot of fundraising and the we were able to see the entire SW mobilized, and I believe the most external miraculous things to be experienced, and for HMH to be praised in this Golden Era if we fulfill our responsibility.

If we fulfill our responsibility, the entire SW will be mobilized to support you. The J and international, those who volunteer for the Gapyeong and one of them is the Chairperson's wife of the Unification Foundation... They're offering so much devotion for the restoration of Gapyeong, 9 of them participating.

In the future, people will be able to meet Heavenly Parent and True Parents and cry and be reborn through Them and through the marshal arts more and more. And we will be fully booked, even we have to set up tents, and we need to show people and the world.

True Father: We listened to His Voice, 'The people who are running away, making excuses. When looking at the present situation, with what tears or accusation is the SW looking at our disconnection. Among us we shouldn't be betrayers justifying ourself. Even if we need to pray 10,000 times, move forward with the heart of a general. If we go over this hill, we will be able to see great unification, and with that let us pray for the exoneration of our HMH and proclaim how great She is to all the people of the world.

We also look at True Mother's Voice that we are in the Era where Heavenly Parent can directly govern and we substantially attend, so True Mother says not to worry because Heaven is with us, and we should not break down. We know the Providence of Restoration and the existence of the SW.

Our sister of the musical profession, came back here to study for the glory of True Parents not her own glory, with the dream to build the orchestra.

The OSD of the Korean War movie, here in this position and working so hard to show this Cheon Il Guk Place as the Heavenly Kingdom... Show to the entire world what True Mother has done...

For the GWs of the Japanese members will be remembered by Heaven. That is why True Mother asked us to write the autobiographies and people will go to their knees and cry. And the question, 'How much did you work for Heavenly Parent and True Parents? What have you done for True Mother? But as Kim Ju Wan said, to let him come back and how he is serving now with this chance again from the death of him in the SW...

As direct lineage of True Parents, to love the people, we lived a life, and when the Korean elders went to Japan, looking at how difficult. These are how they lived. They are the proud Blessed families and leaders, going out to the missions, and we have the foundation in the world because of their investment. Please write all of the things in the autobiography so that the entire world that is persecuting can know in the future how they have lived. Do not false testify. How could you do that... You will face all in the SW.

The 2nd gen have the persecution of the society for being a multi-cultural couple, but they were able to see the Image of our True Mother and Her difficult suffering and they pray for 24 hours with earnest sincerity and were able to resonate that this is what True Mother's Heart is and make the resolve to live and die for True Mother's Providence.

We should not be the ones to ride on their spirit, but these are the youth who could fulfill the Will, and if you are older not be in the position of being accused eternally. Every Christmas, there are Christians, Jewish people being accused of how they killed Jesus. I should not be a person like Judas, and (he sings 'I don't want to be like Judas') A lot of people cry while singing this song. We should not be in a position where we can be accused 10,000 years later, accused by the future generation.

Our 2nd gen are being persecuted that they are with the Unification Church, but when we overcome that and go forward more strongly, it will go well for us in the future. Embrace yourself, not just stop but have the spirit not to be wavering. Even if we fall down, there is a tradition of loyalty we need to set, a tradition of filial piety.

If our church buildings are lost, the culture of loyalty will be fulfilled by this chance, and in the future a lot more people will follow the conviction. The reason for Heavenly Parent to give this suffering is not for me to perish, but to see the hope. True Father said this is the path for the sake of a great hope that is becoming one with True Mother, and we can be stirred awake for this.

They were able to listen to the Heart of Heavenly Parent and True Father and we can see not to lose power, because True Father can work through our body and we can experience strength and hope and visions, amazing spiritual things. So, this is the greatest truth through the Cheon Shim Won devotion and resolve all problems. All of the picture of the Providence of Restoration is now being in fruition because of Cheon Shim Won devotion.

That was 7 years ago. If you still do not know the value, it shouldn't be like that. How loudly are they shouting to us to resonate with Heaven's Heart...

Prayer and Praise

We're so grateful for Your accepting our devotion, in this era when Heavenly Parent directly governs. Please let us be connected for our True Mother. True Mother is in the Providence of Blood, or sins so big not able to resolve the situation. We are so apologetic and sorry. Let us get rid of all the stains and selfishness, let us gather all our hearts as one, not be divided, gather all of the hearts of devotion to offer to True Mother.

Let's not be satisfied but allow our voices to be even louder, even in the midst of suffering, for the sake of True Mother's Heart not shedding more tears for the children. Please listen and accept the voices of prayer of the H Japan members. Even they take our churches, they cannot take away our own unchanging hearts. We truly believe Heavenly Parent can establish us once again, even as a firm believing church.

Please listen to the desperate prayers of the members all around the world. We're so grateful for Your saving the lives of our children. Please let us not be anxious or fearful, but cultivate our children to be leaders of Providence. Through this Cheon Shim Won devotion, miracles will unfold. At this very

moment, centering on the Will of Heaven, let us be able to resonate with absolute heart and be one, with the 4-position foundation of true family.

We truly pray for the longevity and health of True Mother...
