Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

I offer my gratitude for the grace and love that has led us to Cheon Shim Won today, Father's Office where He works 24 hours a day, 365 days a year, and where we can meet Father directly.

Mother has Blessed Cheon Shim Won as the greatest gift Heaven can give, the greatest hope and the key to solving all problems. As I reflect on that meaning and value, I realize once again how precious and valuable this devotion is, building a foundation so that not a single Word of the Guidance with which

True Mother has given will fall to the ground.

Please, I beg You to hear our prayers offered with the heart of hyojeong, just as Jesus said in His Words on the Mount, Blessed are the pure in heart for they will see God, I believe that if we cast off all blemishes and stains through Cheon Shim Won devotion and resonate with cheonshim heavenly heart, Heaven will be with us, and we will witness Father's Work.

True Parents Who are fighting with all Your risk of Life on the battlefield, I believe that at this time which is like a spiritual war, I believe that if we all offer all our hearts and minds to pray and offer devotion at Cheon Shim Won where True Father works, all these trials and hardships will melt away like snow can, and only the Glory and the Value of True Parents will be revealed before the world.

I believe that all the saints and sages will work together to find the righteous people will be prepared by Heaven and unite a fire like a flame for the Movement to testify to and attend True Parents.

True Mother Who has asked us to pray with cheonshim, work with cheonshim and act with cheonshim, I believe that if we drive out all spiritual darkness with cheonshim won devotion and come to possess Cheonshim, True Parents's Heart will be moved even more and True Mother's painful and sorrowful circumstances will resonate even more deeply. I earnestly desire that You will work through us so that we will inherit such cheonshim and become such children in each of our respective places.

Today, we will join our hearts and offer earnest prayer yearning for our Beloved Mother. I earnestly pray and desire that You grant us a time of grace where True Mother's Blessing to say to us, 'When you become one with Me, miracles happen and we can realize Your Will substantially... offering all these words, I pray in my name Kim Ju Ahn of a BF in grateful attendance to HMM

Testimony

Japanese Workshop sister

gratitude... eldest daughter of 4 siblings

Until high school, diligent with my parents with the church, but later had the difficult feelings about the church and my faith.

I was receiving counseling and participating in groups for 2nd gen members, but the difficulty in my heart was not easily resolved.

In 2024 my mother encouraged me to participate in the Workshop in Germany but because of my difficulty, I said, 'Let me ask God, and then decide.' I received a strong impression to go and I headed to Germany thinking, 'If I cannot find the answer this time, I will quit my faith and based my life on this decision. However, even after going to Germany, I could not accept True Parents. Because my relation with True Parents was not good, I did not have a strong relation with True Parents but I did not want to abandon my belief in God.

While agonizing about my faith I thought about Jesus whom I respected since long ago and about the Christians who kept their faith and considered converting to Christianity.

On one morning while staying in Germany I was taking a walk and saw Jesus on the cross and felt Him saying, 'I am already not here. My mission on earth has ended' and then I felt to understand more about True Parents and Their Mission.

Although the answer did not come immediately, I was guided through meeting with various people and ended up attending this Yeongseong Workshop. The greatest grace was True Parents's Life Course, realizing that True Parents were not special from the very beginning, but rather They had walked a Course

of hardships.

I shed tears for how They gave up everything and invested endlessly in order to accomplish to liberate Heavenly Parent's Heart. The question, 'How could They go that far?'

Everyone has the desire to love their own family and cherish their own life, but seeing True Parents Who offered everything for Heaven and humanity, I wondered what such a Person must be like, how much has Heavenly Parent grieved and Desired to Know a Family. I desired to know that Heart as well.

Also, during Cheonshim resonance prayer in nature, I found myself looking at the lake. I had prayed that Heavenly Parent would surely answer me (even before I didn't feel much from nature.)

Then miraculously words kept rising in my heart and it felt that I was conversing with Heavenly Parent and hear Heavenly Parent Saying, 'I have always been by your side.'

Furthermore, speaking about my desire for the future, it felt like Heavenly Parent was saying, 'It's alright. Let us work it out together' And I realized I am and have not been alone and tears would not stop for realizing this Love.

However, I think the Love Heavenly Parent has given me must be far deeper than what I have felt, and I want to experience that more deeply as Heavenly Parent Wants to give me.

From a young age I had a dream about missionary work, because my mother was and I heard the stories and thought I too wanted to go to foreign countries and take on a new challenge, but I realized how so far I had been self-centered.

However, through this Workshop the meaning of my dream changed completely by how True Parents's Motive was knowing Heavenly Parent and Wanting to save humanity, and it is because of that Life Course that I am able to exist today. At the moment a heart came to me to want to be a source of strength for True Parents and have the same Dream.

The more I prayed, the more my desire grew but with feeling lacking I struggled with my desire and

ability so different, but still I want to do everything I can.

Through this Workshop, I made a resolution to live for True Parents's Will, do more devotion and practice in my daily life.

Lastly gratitude to Heavenly Parent and True Parents and my family and church and all who have embraced and guided me until now.

Testimony

Takama Huruke

Cheon Shim Won Academy

My mother ascended to the SW due to incurable disease when I was young, and my father as a pastor was often away, and I had loneliness in my heart. I had times I couldn't go to school and times too difficult for a child to bear, but someone taught me how to edit video, and that became for me to learn more and then it became not just fun but hope through the filming of video production skills, production stage management and sound...

The job was good and the people treated me kindly. I thought staying there was the most realistic choice

for my life and starting a family, but a thought began to grow in my heart. 'In this GA of living with True Mother, I cannot stay here, even I was anxious about leaving a stable job and worried about my future, but also the desire to go to Workshop became even greater.

Thinking of the grace of the scholarship I received from True Mother, I resolved to work at the Academy, producing videos and broadcasting station content. The most difficult was putting myself aside and offering my work to Heaven not just for money as in the past and for being recognized myself. Because I believed that the greatest offering I could give was my videos, I pursued letting go of myself.

A brother said that the videos were not completely made by me but only because Heaven worked through us. What I was thinking as just a job before I began to think of every video as a devotion. While working at a broadcasting station, I had a lot of limitations and it became a mental struggle to produce every day and also manage the team to see that the content was consistently uploaded, and I couldn't sleep for a month and things weren't working out as I had planned, and then I heard of the dissolution order.

I had been working with the thought that the dissolution absolutely wouldn't happen, and for everything to be taken after such hard work and care with every church and how must it be for them. I felt drained of all my strength, but then saw a video of the Japanese in action even all external things were taken away, but the joy and love for HPs had not been taken away and that love was for us of 2nd gen, and I wanted to made more videos more frequently and as if my life depended on it, but it was no longer burdensome, thinking of the members watching, although they were invisible to my eyes, and to offer them as a visible result when Mother returns.

Also, I wanted the art-centered culture to offer that HyoJN desires. Video production became my hope and strength to move forward again, and I want someone to be able to have hope and stand up again through the videos I provide, with this talent, not just videos as simple records, but allowing viewers to feel the love and hope of True Parents, and I will continue trying to bring joy and hope to Heavenly Parent and True Parents. TY Heavenly Parent and True Parents, I love you.

HJ Report

3-day Workshop...

video (I received shocking news of denial of the rebuttal, and the dissolution is completed. This can bring out anger, and we actually issued to the court, but this is the result.)

Despite this, we have the heart that we must make a new start properly and True Parents prepared this 8th resonance 3-day ahead of time.

At the 8th as the 1st we had 321, and we feel that Heavenly Parent is encouraging us ahead one by one, and we felt this Workshop should have some significant meaning and Sunday was the beginning of it at night in a special prayer room prepared by staff and we offered the calling out name prayer... all lost their voices.

I felt we offered devotion that we could do, but then the night before the coordinators daughter had to be taken to the ER and my heart hurt so bad, she even 1 year old and even the needle couldn't go in and I could feel how both satanic and Heavenly Parent are putting their attention to this Workshop, and this Tuesday, whenever we have the Workshop something goes wrong, and I hurt my back so that I could hardly move and we couldn't do the Workshop normally, not easy.

However, this time nothing happened and the coordinator's family paid indemnity, and it would be good it

could go well, but I received the call about my wife having to be taken to the hospital and she had to fast for a week, unable to eat or trying, she would vomit. She said, 'I'm grateful that it is me and not you or our children.'

This is so wrong that True Mother should be in hardship but She has the heart glad that it is not Her children. So, my wife has a really weak blood vein and whenever they tried to get shots, they had to continue to stab her with the needle to try and her arms were so bruised, but she didn't complain even much. She repeatedly say that Mother is in such more difficulty, having to receive shots and not sleeping every day and checkup ordeals, and to reach True Mother's Heart, I believe things happened to our family, and during the opening of the Workshop, I received much grace with 321 participation..

video

(so much all-out praying spirit...

If you ask what is the greatest Gift True Mother has given, it is Cheon Shim Won... The battle is a spiritual war. With the belief that when we achieve victory in the spiritual war we will become governed by Heaven and reveal the Truth to the world. I hope this becomes the most gracious Workshop devotion...

The one who made this video is brother Yone and the testimony brother both from the university... and volunteer teams came to support... applause

Academy of 9 and of 3, and volunteers always come, and because of their support, we could hold the Workshop without a problem, and we must conduct Workshop twice a month and we created two teams and instead of just dividing, we resolved to offer devotion together and cooperate together to lead the session. We had the Workshop that went over 600 and all the staff will be joining...

Takani Coordinator was in charge of this and a voice was heard, 'I have been waiting for you " " really ' When I heard there was a message you wish to convey, True Father said there is much han and True Father could not be with Mother on Her behalf, but that is impossible because He does not have a physical body. But I believe that if it were you, you would help Mother. That is why I have been waiting.'

another message, and hearing this many trainees shed tears

'I believe True Father called all of you... Do not offer prayer that you want but that Heavenly Parent would like to hear'

Truly from this position, I feel that Heavenly Parent called me here, and that is a grace and love position. I feel that I came very well to be here. I could see True Father smile looking at me with those Words.

The staff offered calling out prayer for all the participants. I could feel that True Father is truly here and truly has called us. I'm truly grateful.

By separating the spirits that were entangled in my body and having a stronger heart of cheonshim, I was able to set a new start, and through that I could feel that Heavenly Parent and True Parents have guided me. And I am very grateful.

I am very fortunate that I am alive and here. I cannot help but say 'Thank You' and setting a new start, (and he hugs her) and this Workshop is a new start for us.

Young couple: I truly hope for HyoJN to call my name early. I received the message, 'I truly hope that you have received this prayer earnestly and more' and I repented, and I was able to resonate more with True Parents's Heart and True Children's Heart.

True Father Said, 'The fact that I cannot offer calling out prayer for True Mother is very regrettable for Me.' And I truly felt that. Truly, in this physical world it is us who have to do it, and I repent my attitude so far, and truly with my own strength, I will do my best.

The brother with the white hair said, 'I'm just grateful that I'm alive and I could be here.' How much did he go through so far in his life, but he was able to say that.

And the sister felt HyoJN heart, and HyoJN said to her, 'Why didn't you call me stronger?' And everyone repented with tears. And we realized that we didn't know True Mother's Heart, so we became serious. And it was truly a time when members repented.

another: Just as Coordinator Ud no said, I realized that True Parents were waiting for me and this praying was something I experienced for the first time in 30 years of life of faith. I felt the heart of True Parents overlapping with the waves of the message of the coordinator, deeply resonating and spreading in my own heart. That a heart flowed through all the programs. And it was a very grace-filled period, in which I was able to participate with the Heart Realm of True Parents.

Later, this brother also did an interview that he received a great shock, knowing that it is our responsibility to liberate spirits of the SW. Until now I saw there had been a limitation for people who offered prayer by themselves in their own homes. As we offered prayer for True Mother, 130? times each, for True Mother's well-being and return to Cheonjeong Gung, the total 260 calling out prayer, and this was like the Holy Spirit coming down.

Until now, I had offered calling out prayer as just one type of devotion without a strong sense of responsibility, but I realized that, if we on earth do not offer calling out prayers, the AGSs in the SW cannot work to their heart's content. So, I realized that I must offer calling out prayer desperately with an earnest heart from True Mother's Position. It's not about method, but what's important is how earnest you are.

Up until now, more than 4,800 members have come out and graduated. And those who return to their churches, their other church members say that they are very different in how earnestly they offer the calling out prayers. And that is the proof of how True Father is working through this Workshop.

testimony: Because I am lacking, I always had a regretful heart before Heaven, but I realized that H Mother is the One Who embraces us just as we are saying, 'It is okay as you are. Thinking this way, I came to realized that when we shed tears, when we are sad, H Mother is the One Whose Heart aches the most saying, 'I am a Mother Who cannot do anything for you.

testimony: I always had the heart of wanting to pay back to True Mother. The first time I prayed when arriving here, the answer I received was, 'Become one with True Mother, and offer all the devotion that you have.' That is the strong impression that I received. Because True Father sent me, I thought, 'Okay, I will do it.' But I cannot understand what it means, 'all devotion'. And I was deeply contemplating about. But just now, through the testimony of Yokoi Vice Director, I received the answer:

'As a Japanese, I am in the position where we have to be abandoned. Vice Director Yokoi's family has passed through that course. Many times offering prayer, truly Japanese members could not attend Parents' Will and truly I just felt sorry to True Parents. Our Mother is saying that we should not pray for Her.

Vice Director Yokoi: 'Our Mother, please cry as hard as You can. Please cry. Why are You crying in silence?'

I just hope that True Mother can stay here in the PW longer and only then we can offer filial piety, only then we can realize to be able to do all those things. So, now we must become one with True Mother. We must protect our True Mother's health, and with that conviction, offer prayer and devotion. And truly vigil devotion is something that we must know we cannot live without.

VD Yokoi: As someone who didn't know the value of Cheon Shim Won vigil, once I knew the value, even now when I look at those contents, I feel like when Japanese members look at my testimony well, it is a testimony about confessing my wrong doings, but through that Heavenly Parent never complained, never blamed me but just accepted me as who I was. And I just want to convey that heart. I am trying my best to convey that heart to others.

We held the one-heart prayer, and we had a lecture and a practice, a prayer before Heaven to go beyond one's own wishes and thoughts, a prayer in which you can experience fulfilling it together, when you gather your hearts and become one.

Let us read True Father's Words. All the Content is in there. 'The more you pray for people and the more who offer devotion for you, the more that person cannot help but be a blessed person. To have many people offering devotion for me, a single person, I must first pass on all the Blessings that I possess, to many people in front of them.

Before, as True Mother progressed the CP Works in the time of DMN, there was one time when True Mother came and said what I still remember, 'We must go back to the early days' That's what True Mother told us and asked if we know what that means. During the early days, nobody offered prayer for themselves. They were all having a difficult time, and they offered prayer for the brothers and sisters, for

True Mother Who was suffering, and for this nation. That is why the work of the Holy Spirit came down. But somehow, the time has come when the prayer has been centered on oneself, and the spiritual experiences and work stopped occurring. Now is the time to go back to the early days of our church.

Those of us who are receiving grace and Blessing from True Parents, there's nothing for us to fear. True Mother is the One Who is sacrificing with the incomparably difficult path. Why aren't you able to offer greater prayer and devotion for our True Mother?

So, we must offer prayer and devotion for each other, and that is the way for our hearts to revive. If you agree, please give a big round of applause

video

As I look at members sharing about their 2nd gen and hoping they will come back and live happily in their lives, I felt that I need to reflect about my own life, and how could I share content about it with my son? And as I shared about it, and share my shame, and when I was able to overcome it, and my brothers were able to pray for me, this content that I couldn't pray for myself, when my brothers offered prayer, and even though it was only 3 minutes to receive that prayer, it doesn't matter whether the problem would be resolved or not, but just the fact that I could honestly share my concern and receive prayer from my brothers, the fact that I have such brothers here, knowing that I have brothers here, my heart was liberated.

And as we offered prayer one by one, I could truly believe I have family, and I have made a family with the concerns that we all are bearing, we didn't know how to offer prayer, but as we laid our hands and offered prayer, thinking what kind of words would I like to convey, Heavenly Parent, just naturally the words started coming out from my mouth, and truly I could feel that there are brothers here whom Heavenly Parent truly wanted to reach and work through. In this short time, I was able to realize this truth.

Here, all these brothers and sisters truly miss True Mother. And all of us are family, aren't we. As we offer prayer for each other, we can resolve our problems, and we can go to Mother, we can go to where True Mother is, and we can be able to resolve all our problems, and solve True Mother's problems, and

once we can do that, embrace True Mother, I believe True Mother can come out as soon as possible.

It was such a time of one-heart prayer for me. I also shed a lot of tears. I could feel that it's okay. applause

As long as we can do, we try to make 1st, 2nd and 3rd gen one, and that 2nd gen prayer is so moving for 1st gen, and when 1st gen start to offer prayer, they start to offer prayer for their children and without themselves knowing, the Words of Heavenly Parent started to come out from their mouth, and they felt very moved by that, by the fact that Heavenly Parent resided within them.

That is why, once you empty yourself, Heavenly Parent can work and Heavenly Parent has prayer through us, and you can begin to realize what kind of prayer Heavenly Parent wanted to offer for you. So, I truly hope that members can practice one-heart prayer. And those who have not come to 3-day Workshop, please come and attend.

testimony: While offering one-heart prayer, I was able to feel the Heart of Heavenly Parent say, 'I want to make sure to fulfill this wish.' Thinking of the Heart of Heavenly Parent as Heavenly Parent watches over the lives of each and every person, my tears did not stop. I did not consciously think that I should lay myself down, but I felt the existence of me disappear naturally. It was the program where I shed the most tears.

In order to empty yourself, you must live for the sake of others, completely for the sake of others, that is what it means to empty yourself.

testimony: During the praise song, I was able to praise Mother. Within the lyrics, the contents of my heart which cannot be expressed fully in words, especially our 2nd and 3rd generation, this is the most graceful moment. Especially our sisters, many members have received grace.

testimony: university student: Her husband attended 3-day Workshop and she also joined and as I saw her attending, I asked her to lead the representative prayer. Thankfully (she said) I was assigned to lead the prayer representing the trainees, but I felt a heavy burden at the thought that I would have to pray in Japanese.

When I was blankly staring at the backs of the Japanese members in hopelessness, Mother Voice was

heard like a breeze saying, 'You must love the members here as I do.' And I felt that the meaning of those Words was that I must become one with HMM and live with HMM's Heart.

I took this as a meaning not to worry, because this is not the prayer for my future, but at this gathering is not a prayer of my own heart but Mother Heart. And it is a prayer offered together with the AGSs in the SW who are gathering devotion together.

Thanks to Heaven's work and the devotion of the trainees, I was able to offer the prayer in Japanese. Actually, I don't remember how I prayed, but one thing is clear, that I felt Heaven telling me to take responsibility for the prayer and go with the heart of wanting to walk the same path as the Path of Mother.

To be honest, our sister I Dong Gyu offered a prayer that surprised all of us. A Japanese cannot pray like that. She spoke Japanese very clearly and brought strong spiritual power with many members moved.

video

I felt True Mother telling us, 'You must fulfill what you have prayed. 'Mother, you have protected us with tears and protected us with that big Love. Because of that, we are able to stand in this Place. So, Mother, we will fulfill Your Dreams. Do not worry about us. We will (She smiles and makes him smile) and continue the future.

Rev. Yokoi: To pass down the legacy, at Sun Moon University, she never showed her feminine aspect, so truly she becomes a cute sister in front of her husband.

Lastly, we had a CheonBo resonance session. It was not about reading slowly with my head trying to understand the Words, but reading with a unified mind and focused on the Words only at the fastest speed, I could feel the Holy Spirit descending. And through the Words, I was able to experience my heart effected and purified.

and Cheonshim resonance HD is becoming more and more of a tradition for our members in Japan. And we will create a method where we can offer earnest devotion through HD. And at the Closing Ceremony, Secretary General Sang Pang Sil gave words concluding again with the Gift of Cheon Shim Won

Cheonshim.

And I made a resolution in myself that I will make the way True Mother can smile upon us and feel joy that Heavenly Parent desires.

A lot of testimonies were similar like this, with smiles and core message. We will continue unwavered by shocking messages. And our Japanese members are not weak. On June 30, 600 members will come, and I would appreciate if all the members here would welcome them. All the members who had difficulties, if you could share your heart with them even a little, that would be great.

I should not be pointing to someone, but there is a public official who always gave us chocolate when he came to the Workshop, and I hope we have more members like that.

Now we have 4,861 members who attended all the courses. And this is only the beginning. Up until the end of this year we have a goal of surpassing 10,000, and we will overturn for H Japan through our devotion.

And August 1st, we will have a Yeongseong for the youth, 2nd, 3rd and 4th gen, who must absolutely become one. And through that we will save H Japan. We will

be absolutely victorious. TY

Break

Busking

Hoon Dok Hae

It's not ability that remains but a foundation. It's not preparation that remains, but accomplishment.

Heaven made us stand in place of God's Heart and God's Role to save people.

It is a serious matter. Father gave many lectures and sermons, but in the 1950's, there was not a single day I preached without shedding tears, not a day I did not wail. You must give all your blood and sweat and reach the point of exhaustion where you feel you might die. Only when you say you will rise up from that point will Heaven comfort you and work through you.

If you are responsible for a group, you must go to the highest mountain to pray for that group. And if you cannot go to the high mountain, go to the deepest valley to pray. Do not stop.

Next you must go to the most high, holy sanctuary Place and pray. The tears in the Sanctuary must never dry up. What remains in history is not an ability. Accomplishments remain. This requires foundation. This applies everywhere. So do not just speak when you speak. You must speak based on accomplishments. When you give a lecture, you must move people, even if it means wailing.

That is why in the early days, amid such severe persecution, Father preached while shedding Blood and Sweat. 'I preached until I moved the people who had gathered. Even though I am more exhausted today than yesterday, there is still a path to walk, so I invest My Strength.

To invest My Strength, I must engage in a war of attrition. So I pour out all the Energy I have. That is how I led the way out. This is because I had to leave behind accomplishments.

What True Parents emphasized for 2nd gen education is to forget all the habits you have lived with until now. You must start from the Unification to make it a habit centered on Parents and God. If you, the 2nd gen, has tried to do as they pleased without receiving the Blessing, they must return. Thos who betray H Law, those who ruin their own nation and ruin the world, have no value to exist on this earth. It is a serious matter.

Here at Cheonon Special District, True Mother gave him a great Blessing... Quanchon means graduate, and one member went there and said that there is a drain or plug hole that needs work to fix it, and with the heart of sorrow that they could not shout out, Japanese gather, 14,400 places this time

Cameroon 4th Workshop trainees working diligently to offer prayer and devotion to resonate with Heaven

Russian, Moscow...

H USA Cheon Shim Won, without missing a single day, they are connected to the TC to offer devotion...

gratitude and congratulations...

800th vigil... and front of the DC... 275th day of True Mother's detention, and for our True Mother we offer our prayer... 1,592nd Cheon Shim Won, we will offer so that Her path will not be lonely but as if we are burying the cross and burden of True Mother

When they offer devotion here, they do it passionately, resonating, and when you do the grace will be spread to each of your respective places. When we are signing Fight Song of the Will, there are those who just watch as if they're bystanders, putting their arms crossed, and when we shout out here at the TC, there are those who are not attending, not offering devotion, but just watching. Please have the heart not to be like this but offer devotion more constructive.

And on the other side of Korea, if you offer more than 400 times, Heaven will give you some powers of work, prayer, praise, service, love. Those who attend for a long time, please check what kind of heart you received from Heaven. But there are people who don't know what they received. Heaven gives you power and I truly hope you have that faith and resonate diligently with resonance prayer.

We heard the testimony... The relation with her parents became bad and she could not get away from negative thoughts. Her mother suggested the Workshop in Germany, but she could not connect well with True Parents and was thinking more connected to fundamental Christianity... but at the TC Workshop, she had direct communication efforts and experience and could hear the message and feel in her body that Heavenly Parent had always been with her.

So, brothers and sisters, as you live the life of faith and have experiences, do not think that is everything, but that unconditional, unlimited love, how many have experienced that, and what you have experienced in the past, there is still a long way to go. And I hope you have the feeling that you are still lacking and push yourself forward. Otherwise, it is not easy to surpass family. It is not easy to look at your spouse and children with that love is really difficult, but with Heavenly Parent loving up to the entire continent and world, loving all the spiritual beings, that immense love. When will we finish feeling all that love.

When a spirit comes to you and screams, would you run away or want to love. If you feel Heavenly Parent's Heart, you must realize what kind of path you must take, and know you are still lacking and put ourself into practice and train ourself. We must live such a way.

Our sister realized that her mission dream was too self-centered, so resolving to live for the sake of Heavenly Parent and True Parents was the great accomplishment to go forward with.

When the trainees experienced Heavenly Parent and would cry and cry, how happy would Heavenly Parent be with the children in that way. That is the way Heavenly Parent would feel so happy to see and hear those testimonies, how happy would Heavenly Parent be, even if they cannot sing well and made weird sounds.

Little children would learn to sing, and in front of grandparents, and even they don't sing well, how happy would the grandparents be. I hope you realize and connect to the heart of how desperate a person is. So, we sang a song and I hope Heavenly Parent will be happy.

And we heard the testimony of the difficulties in the 2nd grade and middle school, and his editing videos and learning the production of the stage and being a manager director and was in a good company and financially stable, but there was one thing that made him feel bad because this is the Golden Age.

He quit his great job and began his service, and I think he's been in the academy for a long time and is running the broadcasting station and with difficulties and with the dissolution, they took away everything but never, never can anyone take away relationship with Heavenly Parent and True Parents. And when he saw how they were strong, it gave him the strength and motive to create what would show Mother to be happy.

When you look at the Japanese, you will see there are many videos. When you are able to make testimonies, then this world can change, and we should not only be able to show the world audibly but visually so that the entire universe can know about Heavenly Parent and True Parents and how they should live. Pushing forward like that the Cheon Il Guk can come very, very soon.

The time has come for our 2nd gen to work. And at the Japanese spring court, the order has been released. Maybe many people thought that this would happen, but we are not afraid of how the secular world judges. That will pass away soon, but Heaven's judgment is eternal. Also, the law changes depending on time and place.

The Catholics were persecuted so badly in history, most severe than any other time, but because of that, they still hold their names and there are people (of that endurance remaining blessed and remembered...)
