Opening Prayer of Gratitude

Most Honorable Heavenly Parent

True Parents of HEH

Remember the Holy Footsteps of True Parents, Who walked with single-hearted devotion toward Heaven even under the scorching sun. True Parents's entire Life has been a path of hyojeong, pure and more beautiful than anything in the world.

They Walked while Attending You, Heavenly Parent, and fully experiencing that deep Love, the noble Sweat and Tears of True Parents's have now become an unfading flower in our hearts, engraved upon the cosmos now engraved on our hearts as a strength to live in the world. Please guide us to know the meaning of that beautiful Life and become children who can fathom even the depth of sorrow shimjeong Heart that our Mother is experiencing.

This evening let our hearts cry out in loud voices and become a spiritual artillery that destroys the barriers of Satan and please work so that this becomes a furnace of the Holy Spirit where we unite and bond together let us be a nucleus in the Heart solely within True Parents.

Please work so that our small devotion will create a massive spiritual wave of True Parents and tearing down walls of disbelief and conflict and becoming a holy cornerstone, a holy devotion for Mother to return the Cheonjung Gung, please work through our devotion...

Please let our humble devotion radiate like the sun, becoming a substantial foundation where Heaven can directly work, that the AGS realm will be fully mobilized to shorten the Providence with the momentum of ten thousand horses filling the whole world with Heaven's fruition. Please work, bringing an end to the Cross of suffering and persecution True Mother has born and let Her Sacrifice be a foundation upon which the path of cosmic blessing and glory is thrown wide open for the world to know Her.

Let this devotion be a precious historical time, where we accumulate the hyojeong in the month of June into a robe of victory.

4th cadet of Sun Moon University. I learned that in order to invest love, I must first know the love of Heavenly Parent and have that strength, but I had not been able to and my internal heart became increasingly exhausted and I could not offer prayer properly now received answers and I felt severed...

Ending up like this was a great disappointment and then I attended the Workshop. My concern was a deeper relation with Heavenly Parent and feel Heavenly Parent's Heart. Therefore, I decided the purpose was a one-on-one relation and invested in that.

I prayed, 'I truly want to know You, feel Your deep Heart, feel everything, You Heart of Joy and Sorrow.' Although no answer, I offered devotion consistency.

While listening to the lecturers 'Oh, I see.' but then by the Pure Heart of the Parent in the lecture on True Parents's Course and fulfill The same Dream, slipped right into my heart, and when I went to pray, tears would not stop.

'How have You suffered until now and when others did not know You and when I did not feel You. I am sorry for breaking Your Heart' Then my relation with Heavenly Parent began to be restored.

The lecture on the life principle, we had to look into the eyes of who was there beside us and give a

compliment. It was someone I did not know. But she looked at me with such warmth and just that alone made me tear up, and I felt she was like a mother to me and the path she walked until now could not have been easy. I said, 'You must have walked hard' She didn't look at me.

The next day she gave me a letter, and it was a message from Heaven. 'TY for growing up so strongly. I want to tell you why I brought you here, and the answer will be here' Tears came nonstop. I had wondered why Heavenly Parent had called me to the path of public mission, and I just thought I had wanted to help True Mother, but the concern was still in me.

I felt Heavenly Parent knows me and is the One Who Plans and Guides everything. I had been challenging myself to offer 500 bows in the weekend and 1,000 during the Cheon Shim Won devotion. Through the Director, I could reflect on my devotion again, 'Is your devotion for Mother or for someone in a more difficult situation than you.'

I had been driven by my own grief that if I offered a number of bows, I could get an answer. I saw it was self-centered, instead of caring for and sacrificing for someone else, looking for a comfortable situation.

Therefore, from now on, rather than for my own sake, I want to offer devotion for the people around me, with Heavenly Parent at the Center, not working hard only during this Workshop but in life, laying down all I have and becoming a public official to attend True Mother.

Promising that I would grow more and work hard during the remaining period, I will end. TY for listening.

'Bloom with Me'

Testimony

Hyo Ja I

3rd of 4 children, 1 son and 3 daughters

Cheon Shim Won Academy training grace in the past year and a half, going from someone who did not want to attend WSs and academy.

I grew up wanting to make Heavenly Parent happy by listening to the Divine Principle, able to feel that Heavenly Parent could not abandon us and always loved and missed us, but I thought of the Blessing not only that I wanted to receive but that I had to because otherwise it would make my parents sad.

She would place me forward for choir and Workshop performances and other things, and if I wanted to just live my own life, she would make me feel guilty. Whenever I stood in a position of responsibility, I did my best, but in my other life, going over my friend's house, my parents worried excessively when I could not be reached... and I felt a sense of freedom after being an adult.

It was then that I established my own sense of wanting the Blessing. But then my father was diagnosed with rectal cancer and our family began to gather every night through Zoom with tears, and gathering our hearts into one, my father was miraculously healed. Through this I could feel the SW work, and the preciousness of time with my family, and the work of prayer I had only known intellectually until then.

How precious the Blessed family granted truly is. And then I became curious about how my mother came to the Unification Church family, and was seriously alarmed about the violence that they had to endure in the kidnapping. And I wept endlessly in my room, learning about abduction and confinement, and the death of the violence and countless things to bring down our family that cherishes the value of purity like life itself. I couldn't dare to imagine what the heart of the elder members must have been like when they crushed True Parents's image.

Was it the right choice to lay down one's life and purity by signing the paper and then walking the path again. Regarding Peter who denied knowing Jesus, I spent nights asking myself what choice I would have made in that position. One thing was certain that there were elder members who did not let go of the string of faith even with their whole bodies during those storms.

I feel it is because of them I am standing here, and also wanting to have my own faith apart from my parents. Although they always worked hard and protected me from the rough world. I concerned about the level I was and how would I teach my children and raised them to have their own faith.

Having growing up with such parents, I also wanted to raise a family that realizes the 4 great realms of heart, and I began to study and prepare, moving forward I felt myself becoming one with my parents and I felt I was growing as an individual.

To organize what it was in my mind from the beginning, I realized I had only know the surface. Through the Cheon Shim Won devotion and CY, I finally established my faith correctly. When I offered the resolute prayer to True Father, I received the card that I need yeongsang spirituality.

Seeing countless trainees flowing in, and exceeding the goal, I could feel True Father working and the spiritual war with my whole being, and the day Heavenly Parent could directly govern.

True Father said, 'I also want to wear purple clothes and offer devotion together, while True Mother is still alive.' I felt sorry to True Father and missed Him so much, and so He would not feel heartbreak, I would jump into this war for the sake of Heavenly Parent and to make my roots deeper not just with words, I entered Workshop and began to look at people of this world from Eyes of Heavenly Parent and True Parents, a Workshop to inherit the deep heart of True Children and elders and see the Words behind Mother's deep Heart.

Although there are practical challenges, I personally serve in the Academy and Workshop... no easy, but I am happy I can move for the sake of the Providence and know I am investing in various places. So happy to be a member of the FF.

Because my parents offered devotion for a long time, I know that when I was almost kidnapped and almost in an accident that didn't happen, it protected me in dangerous moments. Just as this countless

love, I will now become a person who shares, not just receives, and I will plant love in this world and challenge myself in overseas mission and serve from a humble position of learning and be there for the AGS to work together needing me, with gratitude to my family hat is my strength and the members working together with me. 14th 3-day resonance prayer Workshop

HJ Report

Kim Yu San

Recently the 1984 Life of Father imprisoned and Mother giving Words to the members, I watched the video:

True Mother said: 'You who have received a lot of love from True Father, you must show something with a pure heart, repent with a truthful heart.'

Those Words, I believe also applies to us, show our result victory and repent ourselves at Cheon Shim Won, spending our time in that way. Let us make this year the greatest result in our life, that is a yearly motto that True Father made, and I realized that during this time for our True Mother, we must set the greatest results, and to do that I must support our members and offer more devotion, that's what I thought.

Before beginning Cheon Shim Won Workshop and Academy trainees had ten days' special devotion,

1,000 calling out and for the trainees that are coming.

Nowadays, our youth, we believe without sincere devotion nothing is accomplished, and they are experiencing the Workshop progressing. And we always ask motivation for coming:

to offer devotion for True Mother's return

resonate with Heart of Heavenly Parent and True Parents and become one

raise and grow my spirituality

restoration of our children, firm faith starting from myself.

The 3-day is gradually becoming the Workshop of devotion for True Mother's Return

PL said we must become those who inherit the heart of heaven and the original heart, and like a war for True Mother's return. Have you ever entered that deep Heart of resonance for True Mother's Will. It means Heavenly Parent's Will becomes your heart and you can embody that Heart when Heavenly Parent is sorrowful and truly comfort Heaven.

He gave us such graceful message, and during the opening such grace...

Video

truly an atmosphere of closing ceremony and I had to take a note, and for the first time in the praise, the music stopped when singing Way Maker and we don't know what happened, and it the song played again, but because it turned off and everything turned off, but at that moment members were offering praise with a deeper heart, and we felt this was Heaven working as well.

video

In 2017 True Mother: I have said that we must move forward with Spirit and Truth. How much have Korean leaders loved. You must liberate your ancestors.

I do not know how much you are experiencing the SW, but amazing and miraculous work is taking place and I have given you, in this way, every opportunity to embody Spirit and Flesh. The people who call themselves leaders of this country must come to their senses. It means not just saying, 'Enough for today. Enough for tomorrow as a mere formality.

Do not just think of the words 'total investment' with your mouth. '

These Words, our church pastors are fulfilling through 3-day Workshop and I hope all will show how much they love Cheon Shim Won and devotion to become one with True Mother, and I hope many will come, and a lot of members have shed tears, instead of thinking of Heavenly Parent realizing they were self-centered.

resolve to think about Heavenly Parent and True Parents's deep heart and pray as a time to find Heavenly Parent's Heart waiting for children for 6,000 years and breathe to inherit that Life. Heavenly Parent and True Parents have been living that way and I will create change to live that way as well.

We have sung, 'We Will Achieve' and through the lecture, everyone shed tears, and no one was able to finish the singing. And the grace of calling out prayer, I hope you attend personally and experience the grace.

This is a special time at the Hyo Jeong Tree gathering

video

The prayer gathering most moving if Tree of Hyo Jeong, and PL emphasized to offer prayer there. Recently, finally, we were able to understand why. And True Mother, her legs are in pain that She has to be in the wheelchair, and that is how She got up there and said, 'I didn't know such a place existed.' She didn't worry about Herself, but Her children first and She Blessed that Place, and our members offered a lot of prayer there, and while holding the tree all the members prayed for True Mother and Her Health, calling out for that and many said they never cried during calling out, but this time, they cried and cried, and offering with one heart every person cried out loud in their prayers, and that atmosphere was so strong that the tears where flowing more than the sweat they shed in summer.

So, I hope many members come there to offer prayer for True Mother and Her Health. And we had one-heart prayer which many members love.

This was the content that I wanted to avoid, thinking I couldn't do it, but I felt it was Heavenly Parent wanting to love the members through me and at the same time I felt I was loved by Heavenly Parent.

And it was the same for me. I learned to pray for the members and I learned the prayer of tears for the first time here at the Workshop. There weren't many opportunities to learn that, but here members are able to realize this...

I have seen the sea of tears, and I wondered if I could be that way, but was able to experience for myself that prayer conveys love. I hope this occurs in the family also...

As you know there is special prayer room prayer only in the GWs, but now we opened it, and members could resonate with HyoJN HeungJN and DMN as well, able to feel what it is to pray with resonance, that is how the coordinators learned, and then we took trainees there to have communication with the spiritual beings to send them to the Workshop and be liberated in this Place that has more power.

Everyone cried out for True Mother's return to Cheonjung Gung, and great emotions, not alone but with the AGS... Things that I did wrong came to mind and I repented, and I cried out that I missed Mother so much. I felt all processes were to help us overcome difficulties and it was Heavenly Parent's Love leading us on the right path.

Our choir team led the praise gathering. A lot of testimonies came out. Being able to sing together with the Academy gave a lot of grace. It had been difficult to even look at myself, but listening to the Academy members sing praise... applause for her to recovery fully from her cancer

I felt the warmth of Heavenly Parent and True Parents lifting us up and holding our hands with ever word of the lyrics, and it became a grateful time with True Mother saying, 'You came well.' And I was so grateful.

This elder pastor, she was born in 1936, now 92 or 91, and his daughter drove him here, and he attended

so diligently that all coordinators were talking about him, that they themselves received the grace from him... applause that he will stay healthy to come again...

Another brother the same age, and he wrote, 'through Spirit and Truth, I will attend True Mother until the end' And he said to the members, until my life is ended, I will attend True Mother, and I will be victorious. And when he went down, he said he was still healthy and he could run, and he ran back to his seat. applause for him as well

And there is one member who makes me curious, always sitting at the center, and when I see him, I think, 'Oh, it is fortunate that he came back' And he attends for the 4th time, even the first time it seemed he came by force, but 3rd and 4th he attended by himself. To be honest, I didn't know about his life, but I found out he was diagnosed with last stage cancer, but he laid down everything and came with his wife in the 3-day, but he left a great word behind: 'You who believe in Unification Church, all of them are crazy, but I am crazy as well' applause

It truly reveals Who True Parents are and who we are, and because he received such great realization, I offer prayer for knowing Heavenly Parent will work through him miraculously, and the impression is that Heavenly Parent said, 'I already worked through him' (but his cancer is not cured) and Heavenly Parent said, 'He left the amazing word, didn't he.'

Until he is fully healed, I believe he will attend this Workshop.

video

We went on Mother's Path and we had chance to write to True Mother:

'Coming to CP, Mother, I miss You even more, the Place You sat and You waving and Saying, 'I love you.' Everything is still the same, but this Place feels so empty without You, True Mother, who is the true owner.

Having become a mother and seeing the children who are drifting away, I now resonate with Your Figure at Age and wonder how lonely and difficult it must have been for You. Tears flow endlessly.

Although it is late, I want to convey that You have worked so hard and I thank You and I love You, and just like You, Heavenly Mother, Who embraces children, I will also not give up and I will love Heavenly Parent's children. I make a firm resolution to become Your representative who will testify and convey that Love to the world, on behalf of Heaven, living to attend Heavenly Parent and True Parents of HEH, and offer glory together.

The sky, wind, grass, trees, and even the flowers at CP are waiting for You True Mother. I earnestly pray that You stay healthy and soon return. True Mother, I love You. I miss You (She is from Okayama Church in Japan)

and from the same church... I came after the dissolution, and because of my too lazy life of faith. I saw the resonance perfectly with Cheonjeong Gung and I was able to participate with a humble heart while facing my inadequacies, starting from the first lecture.

When all trainees became one during the one-heart and resonance prayer with all their might, there was not a day when tears would dry up, experiencing at least a little of True Parents's Life, Who lived one day as a thousand years amidst a busy schedule, tore at my heart.

At the closing ceremony, PL calling out, 'My child, make me feel the desperate heart of Heavenly Parent' So, I offered prayers even more earnestly. Since you gave me new energy through this 3-day Workshop, since I was exhausted, I want to return to Japan and ignite flaming heart once again and participate with many people.

also, a young member, he introduces... his one-heart prayer awkward at first but then most memorable, had never prayed like this with his family... feeling apology and regret (the mom) for things I had done wrong with my children. I thought then, 'Once would be enough, but then what if it doesn't work out' But she came and participated well and then I never doubted once.

Mom, Actually this is my 2nd time and I didn't think maybe I needed to receive it again, but I feel that I need to come often.

sister/daughter: I participated because of my younger brother's earnestness and I thought I would just wear a mask and go along with it, but now I don't need to wear that mask...

son: I thought my mission was to bring back dormant members and at time wanted to give up, but really feeling True Mother's desperate Heart for Her children and seeing elders in 90's not giving up, I was inspired not to give up.

mom: I would end up taking on this and that, so that it was hard to handle and I felt a bit burdened, but good to return and feel more how True Mother struggles in earnest...

sister: I don't know what I will put into practice at the end, but I will participate more in church experience... applause for her to come to the Yeongseong Workshop and experience greater heart.

I realized how I was wrong in prayers until now, especially in the special prayer room, calling out only for True Mother now, and I felt I must resonate with

Cheonshim and move my heart more.

Sung Chun Chol and Nako... I saw that 3-day was in between the already schedule here and I was curious and I wanted to learn the praying and inherit the fortune and being together during this time, it was the best.

The 40-day is like regular coffee and 3-day like a rich espresso, and digging into God's Heart, and it hit me like a storm, and then my heart opening up widely, listening to the message, feeling I could absorb anything.

Before I offered calling out in my own way, but I realized what a fake calling out, not piercingly from the position of Heavenly Parent. When PL said to do it from the position of Heavenly Parent... Realizing in one-heart prayer the position of the woman trying to witness to her husband and the words that we should pray like war.

I felt, 'Oh, this is how it should be done.'

True Mother experienced war and saw people die, and then I thought this is how I should pray from now on, realizing to the bone that I must pray piercingly. I have been emptying myself and letting go, but from

now on I will do it piercingly.

While offering CY praise, I felt the SW was moving so much, and I felt my body moving naturally, and I followed along with all of them, and then feeling the SW was completely filled and moving along with us, as if every cell of my body was filling.

I knew them before and I knew he was like this, and when his wife was speaking he looked like an excited child feeling more inspiration...

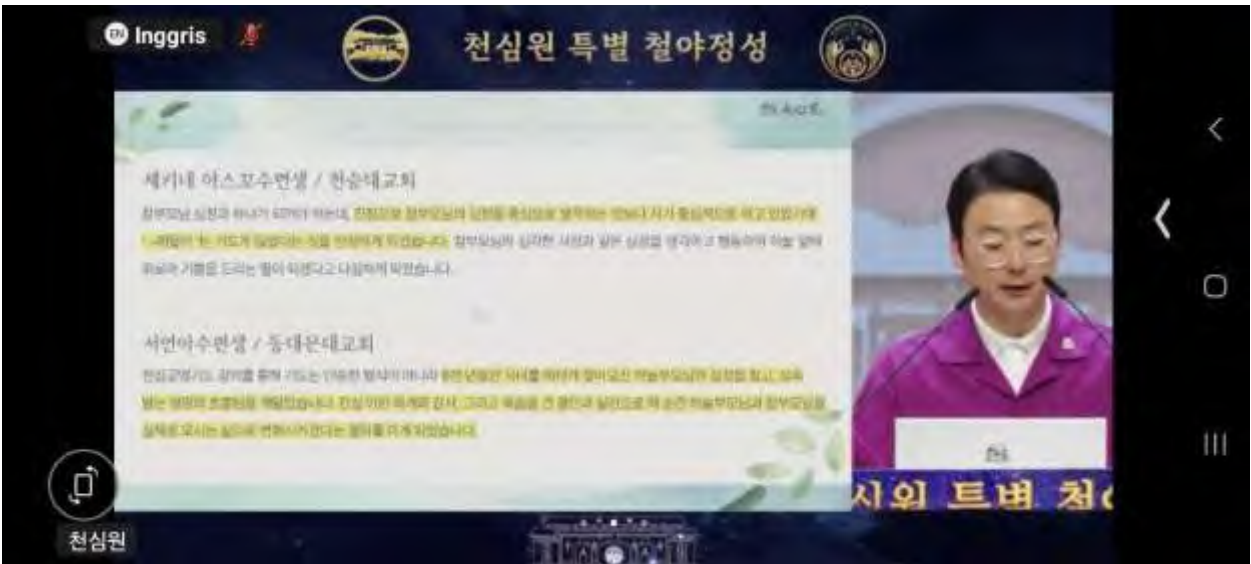

So, this Workshop, I said the opening ceremony felt like the closing ceremony, so passionate like starting anew. And those who left went back to their church and were sharing many times... They became the promotion member spreading the news.

Centering on E Yong Jin Pastor 13 members came to 3-day and they are putting themself into practice. They gather an hour earlier and centering on the pastor, they offer the prayer still until now... applause

And our trainees became staff after striking their faith deeply rooted. And we thought we might have less than 100 at one point, but 235 members joined as a new record. Last year 430, and for the upcoming Workshop greater year total 2,346... and through this Workshop, they will accelerate.

I want to go over 300, if True Father moves and works it can happen...

Break

Busking

Hoon Dok Hae

(sometimes I can't hear well enough... here the interpretation is lower than the Korean, so I'm guessing

what is the idea)

We must continually (look to) True Parents. If you (attune your senses to knowing Who True Parents are), you will want to know everything True Parents are doing. We have established a system to share all materials and experiences globally so that you can be educated and know your responsibility.

You have become Blessed families through True Parents, which means you have responsibilities and no one can say they don't know, and you can fulfill 100% or more.

The position of distinguished family will be established. The most earnest thing you must do in the movement to become one. Of course, for the individual it is important for the body and mind to become one, thinking from the perspective of you the children, becoming one as brothers and sister might be arduous, but I believe it is a task that must absolutely be done. Therefore, if you expand that foundation where 3 people have become completely one centering on True Parents, the Will will be accomplished.

In the 4PF, which can be seen as the microcosm of the world, the horizontal number is 3. If the 3 horizontal people of the 4PF become one centering on True Parents, I believe making the world one is an easy task.

When we expand this, we can see this globally, we see that the world is formed as a 4-position foundation which is a microcosm of the world, it is formed by 3 becoming one. When we look at this world, we cannot ignore to see those with intellectual power, those with economic and political power dominating.

If we condense such powers, we can see them in the individual. If you have such power of love, I believe there is nothing that cannot become one. We must unconditionally become filial sons and daughters before True Parents, and brothers and sisters must become one with true love.

Parents worry more about their incapable children than their talented ones. Likewise, if you love your brothers and sisters with a heart to serve them more, our foundation will grow. That is why going deeper and higher centering on the Will, our foundation will grow larger.

Our goal is one. It is to create one unified world centering on Heavenly Parent and True Parents of HEH.

40 at the LV Cheon Shim Won... now the H USA is attending every night... Our Ryiuchi Secretary General is attending every time every night

I Sang Mu Presid and I Sang Mi... and I hope for amazing wind and work bestowed on H USA... H Japan Brach Leader and former President working with the politicians has come to the TC and keeping the standard and sent his own son to the Workshop. I asked him to lead Oeg Monsei tonight... applause of gratitude

In front of the DC, 281 days True Mother has been detained and the pastor's message:

Tonight the full moon has risen and I hope for True Mother's strength and power, and as She looked at the full moon, She thought about True Father, and it is a bridge that connects Heaven and earth and also connects True Mother's Love. The moon shines a path of True Mother so that She is not walking alone.

True Father is always protecting our True Mother. He always gives strength, not only to True Mother but also to His children, giving us hope.

At this time of 1,596th Cheon Shim Won devotion, we will offer True Parents prayer and sacrifice, and offer devotion for True Mother's safe return and vindication. Aju.

As a result of this devotion, True Mother will be staying in the hospital for another month. Last week CheonBo Workshop.

360,000 Blessed couple shared that in the past my wife liberated her husband's ancestor liberation while I was working diligently for the family and I didn't fully understand about the SW, but this Workshop was able to break down my doubt and change my spiritual frequency so that from the bottom of my heart my tears welled, and the fact that my wife did what protected and defended our family, and to my family members, I resolve to liberate all the sins and spirits as an able family.

What is amazing is that after liberation I dreamed that the indemnity had been paid and all the work was flowing so easily, when it was so difficult in the past. We must become one with OBD True Mother as H blows wind for you. And going to the Tree of Blessing, there was a snake going into the forest and I felt that the age of indemnity was passing, and I will go forward and stand firmly.

So, my brothers and sisters, please do not be disappointed, especially when your spouse does devotion for you, you will realize many things as you go forward.

Today, our sister could make the full relation with Heavenly Parent and she wanted to get away from the heartistic difficulty. She was able to feel the sorrowful Heart of Heavenly Parent and True Mother, and she was able to offer prayer with endless tears. And she realized Heavenly Parent has always known her and been with her, and to experience more of Heavenly Parent, she is offering now 1,000 bows and when she finishes her graduate UPA, I'm sure she will become a great role.

Today this song 'As I Myself Bloom, will the meadow change?' We must think how my church and the world can change by my offering devotion. And I hope you believe this that is true by your devotion.

I hope all the members are awakened to offer prayer in one heart and that we make such a church.

and our sister went to a lot of WSs, and now joined to the Yeongseong Academy, and in the difficulty with her family such grace of her father's healing after 20 chemo sessions. And then all the family attended vigil through Zoom as one family.

Hoon Dok Hae is about 3 becoming one for the 4PF, and when all the family came together, how important family and that SW truly exists and through prayer Heaven works, using all the methods to offer prayer for their parents, such an amazing moment can come.

I hope you offer more prayer with your family, and the indemnity difficulty can serve that you become one with your family. And I hope you believe.

Also, she could feel the heart of 1st gen members, and she came to Yeongseong Academy hoping that the Providence would not delay and the resolution to love True Parents and love this world and be a child that AGS can use when she is needed, and her siblings attended, 3 children were able to finish. All of them really a family organized centered on and attended Heavenly Parent and True Parents substantially.

When the list of participating members comes in, for ten days the staff prays so earnestly, as you saw in the video. With such earnestness and desperate voice, the opening ceremony had such moving grace of tears on all faces. It felt hot and passionate as if it was the closing ceremony.

So, please realize how important it is to offer devotion before beginning anything. All those spirits residing in the area will come, and you can experience that like electric through your body.

The Director's report, for ten days they went around the street to testimony and Director Kim Myung Wok? was able to go, and I received the report from the Pastor. So, grace comes down if you prepare devotion, which means you are preparing the size of the bowl to receive grace. To prepare a big bowl to receive the grace, you must offer greater devotion. And to inherit grace in every church, we are holding the 3-day Workshop.

You might think that, 'Oh, for the first time for me, it was really good.' How wonderful if you go back to your church and continue this kind of prayer that can move everyone.' They are walking the path to fulfill what was learned in this TC.

This is the way to fulfill True Mother's Words: 'Make the church move forward (like the early days) with spirit and truth.'

True Mother from 2018 oversaw the vigil devotion and from 2020 actually told me to stay in Cheon Shim Won instead of going out to churches, and that's why with Rev. Tsujingte, we received the clothing like generals. And in order to pass out 1 million copies of the Autobiography, although I'm pretty sure not many have read it yet, but what if they did. We must make a great video of True Mother, a wonderful, amazing video to spread throughout the world, what a great way for the world to know True Mother.

If there is someone who received the book and just put it in the corner of the house, we must move the SW and lay the foundation for their ancestors to work through their descendants, and this is the Place to do that, that they actually really read that amazing Book.

Two more brothers have come to attend 3-day, because older members cannot move well and freely, they can offer more and more prayers. Do not think that you cannot do anything. True Father in prison couldn't witness with His Mouth, but still He found 12 members in prison...

Through your devotion, you must experience Heavenly Parent's Heart. And from testimonies of desire and achieving prayer of a higher degree so that we can testify to True Mother to this world, having a higher degree and temperature than how we worked during the early days of the church, especially now that Mother is so suffering.

Our brother reported that he will raise his level to be elected as the province governor. All of us must raise our temperature and devotion and let the people of the world realize what they did wrong... We have experienced the Heavenly Parent many times.

And through witnessing and fundraising, a lot of members have testified how Heaven has worked, and no matter how difficult moving forward for the Will. Our first generations are such amazing and great

people. And many 2nd gen are inheriting from 1st gen. This course of trial can be shortened also with a new foundation in H Japan and in the world.

Living Heavenly Parent have been with me, but Heavenly Parent and True Parents will come closer. I hope you believe Heavenly Parent is Living and Working as well as Heavenly Parent. And you also can receive messages and then testify. That is what True Mother is telling us. Push yourself more to make relationship with True Father and True Mother, and that Place is Cheon Shim Won. But if we miss even a little bit, that can cause the SW to work. When parents acted in the wrong way, we leave the shadows behind, and child may go a wrong way.

Now is when to finally feel and experience finally meeting Heavenly Parent and True Parents, HMH. And we can realize, any of us, what it is to become the small needle. If all of us move forward with the resolution. On this Friday, let us offer, every Monday resolving again. I myself have resolution and determination like that, and if you do it that way, Heavenly Parent will absolutely work through you.

because of our failings, True Mother in such pain situation... Why do you remain silent? Why do you only watch the suffering of True Mother? We sincerely repent our past at this time, and please work through us who are lacking, beloved Heavenly Parent, please let the devotion of Cheon Shim Won, that our prayers can blaze life of flame across the whole world, please work, help us realize the fact of the trial and suffering of this moment, how it can make us stronger to be a light and salt to the fallen world so that True Parents's Will is accomplished as soon as possible, and that the way of love, forgive and unite truly

become the way of our Unification Church.

In this battlefield where life and death are decided, please work that we fight against the satans for the Heaven victory. We as the elite soldiers, let us testify to HMM and educate the Epic history. Please bestow Your Power and Courage within us, please work through this nation. Knowing Who True Parents are to be unstopping for all to know True Parents, and that we who are lacking offer more life-and-death determination for victory.
