Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We offer our sincere gratitude for gathering us to this Place once again with the subjective SW and the object PW, so that we may offer our devotion. Heavenly Parent, especially tomorrow, we will welcome the 1,600th Cheon Shim Won Special Vigil... True Mother has said Cheon Shim Won is the greatest Gift. We offer our heartfelt thanks for awakening our spirits so that we can welcome the Heavenly Parent substantially, helping us to solve insolvable problems and healing of faith and loving those we could not love with the shimjeong of our Parents... offered with earnest tears, this 1,599th devotion. Please truly work for True Mother's return and for the turning point of Cheon Il Guk and unified Korea and unified world, powerfully moving forward...

May this be a time to deeply inherit the grace of Cheon Shim Won and grace until now

True Mother's Words: We need to expand

'It's not a path to walk alone for us, but we were on the Shoulders of our True Parents, holding onto the Hands of our True Parents on this path. While we wail and sing, You never gave up on us, while shedding tears of Blood...

HJ Testimony

Nagano Grand Church

Mutsagushia Church Leader/Pastor

(begins in Korean, not translated)

2 years ago in March our church leader was in critical condition, and I spent the time in the Cheon Shim

Won prayer room, and he slowly recovered and even we could go out together to offer fishing devotion.

The Nam Kyon Song is a noble character and the Grand Church Leader came in 1998, a truly precious person. I believe that failing to protect him is failing to protect True Mother, therefore, beginning with just 15 people, it grew to 70 and PL said, if 70 becomes 100, a miracle would happen, and we had 1,000 at the event.

While such devotion has helped the Grand Church leader, Japan is truly in pain. Then March 4th the dissolution order was decided, and 3 hours later, 3 lawyers came to the church, and they took confiscation measures for the church and cars as well, and we were not permitted to enter further.

We were devastated. I guided the lawyers and showed them the 4 church facilities. Usually, members would look around the church with the excitement and joy, feeling Mother's Presence, but the lawyers coldly just looked for what might be assets.

Since then, we have not been able to enter the church and cars have been disposed of. A notice was put on the church. We have spent days in despair and resentment. However, thinking of Heavenly Parent and Mother in the DC, members have never shown tears, but moved forward with smiles.

We created over 120 Places for worship, using each as a base... We've been able to conduct assemblies and events by renting village halls and venues for 200 to 400 people, and continue in a single room of a youth dormitory for overnight vigil... We say Aboji, Omoni, like this (without make a loud voice, and we don't all the way clap our hands loudly... but with all our spirit).

Finally, with the help of the members, we were able to rent an entire detached house and a sanctuary that can hold about 80 people and since yesterday, July 1st 2026, we have been offering our vigil devotion there. big, big applause

However, there was always a corner in my heart telling me that this was not enough, and hope was not springing up within me. I have visited DC more than 13 times, but Mother's Voice did not come out. I could only hear the Voice, 'You are completely useless.'

I resolved that, in that case, the only way is to stand in front of PL, who is in front of the break water to protect Mother. So, I continued the vigil devotion, but when our eyes meet, tears stream down my face.

It is not that I have not run desperately until now. Day after day, I would meet my test, wondering if I had been of any help at all. The social media has tried to send hopeful news, that there is still hope in Nagano, but it kept coming to me, 'Is this the end. It is because of me that things are not working?'

I also reached my retirement age, having the title of Elder Pastor, feeling I have no foundation to pass on, unlike earlier I feel that I have not invested completely. That is why I chose to attend this 3-day, wondering what can change in just 3 days, with my wife and daughter participating also. After going through various programs, finally yesterday I heard the Voice of God for the first time in a very long time.

MESSAGE: 'It is I Who restored you. Why are you worrying? It is I Who made a promise to you that I would end the sorrow of all people. That promise will surely be fulfilled. It is possible because it is you. You can surely do it. The 2nd gen was born on the foundation of the 1st gen. Do not run away from anything. Your existence creates the future.'

When I was 17, I was witnessed to on the street, and with my pure youth, I devoted myself for God's Dream. However, as numerous things happened, I lost my confidence. Even when things went well... I (felt down on myself) and protected myself with lies. In doing so, I lost the ideal that I had first embraced and realized that I had failed to align my heart with True Mother. (This brother just bursts me with tears for his genuine sincerity, his expressions of face and body).

3 years ago, at the Top Gun Departure Ceremony, True Mother said, 'Thank you for giving birth to pure water.' I was happy. I was truly so very happy. Every time True Mother stays at Cheon Shim Won, 1st, 2nd, 3rd and 4th gen become one, and I burst into tears.

Among the Words we read, 'Heavenly Parent's Dream is only one, to realize the ideal of love.' I was deeply moved by the pure tears of the pure water to fulfill God's Dream.

We are walking this path to fulfill God's Dream. It is not whether we can or not. We will surely fulfill

God's Dream. Having a lack of ability is not an issue at all.

It is about believing completely and assuring the completion of God's Dream. I see that I have been living while ignoring the Will of True Parents. Now, I tend to move forward by repenting and reflecting on myself and right now, these Words echo in my heart, 'You are My son' and from now I will move forward with the Heart of Heaven.

PL and all of the staff

This is the first time I'm giving this testimony in front of so many people and I'm sorry for giving a testimony about myself.

About my life of faith. I was in 1965, living a life of faith for over 60 years. I was born two months before True Mother. Regarding the very serious crisis the Japanese Church is facing today, I feel the responsibility. Even the citizens of Japan, we are perceived as an undesirable organization, and the Supreme Court issued the final dissolution in June.

I feel nothing but apologetic to Heavenly Parent and True Parents (about the dissolution). (He is so gutturally speaking his heart before Heavenly Parent and True Parents...) Even more is that True Mother, HMM, is being so difficult Physically, and about the dissolution I would like for all the members to offer devotion for True Mother's Health, and for that I participated in the 3-day Workshop.

Most of all I have lived with True Parents, walking together, guided by True Parents, but I want to share the grace to 2nd and 3rd gen. In the photos, this is the memory I had doing billiards with True Father...

As you look at the picture, True Father really loved doing billiards, also the table tennis. Yesterday, Director Kim Ju Won gave the report about Workshop, but True Father really loved table tennis. I hope they will be able to have billiards Workshop and table tennis Workshop, (laughter) and I believe that 2nd gen will be able to really enjoy this Workshop and feel True Father. Do you know the Person in the picture playing table tennis with True Father. Actually, it is True Mother.

True Mother loved table tennis. In Germany, this is Her playing. She was in a small house for 3 months in Germany. At that time, looking at True Mother being victorious, I did not fully realize that True Mother would become victorious as HMM, with Entrance liberating Heavenly Parent. applause... I also believe that True Father will also... (translation trails off)

(He speaks for a very long time each time... don't think the translator can get everything...there is laughter

twice... maybe it will be on video) When I was able to attend HyoJN and HeungJN closely when they were still on earth... These are photos... at the Yoido Rally of 1 million, and True Parents at the Center of the Cheon Shim Won and True Father children... truly I feel the responsibility to share the grace of this to our 2nd and 3rd gen.

(Photo of Cheon Shim Won) (He is... This time, to be closer to True Mother, with a heart of wanting to pray, I participated in this 3-day Workshop. Up until now, I received a lot of grace from Cheon Shim Won. I really want to share this experience with you. First of all we need to acknowledge that this Cheon Shim Won Providence started with True Mother, and tomorrow will mark the 1,600th devotion.

(truly he is endearing the audience how he is saying what he is saying...) After 3 years of the first Cheon Shim Won, upon the foundation of the devotion of PL and staff with less than ten people, True Mother was guiding this Cheon Shim Won Providence directly, and that was the first time I knew about the Cheon Shim Won vigil and I was...

Mother had guided Personally this Cheon Shim Won devotion and I was able to know the Providence of Heavenly Parent and True Parents and I truly believe that all of the members should be able to participate in this Cheon Shim Won devotion, even if they need to reschedule their jobs (and other schedule)

I know that Heavenly Parent is wanting us to, so that is why we need to participate in this devotion. In particular, PL emphasized GWs such as the 100th and 200th and stressed that... He would talk with PL and he emphasized that the Cheonshim rod could be given... and tomorrow is my 700th devotion and I received this right before that.

Today I want to say it might feel that the Church in Japan is over, but it is when our family is becoming the Church and we can see the family being established as churches...

This is the photo... There are Words I heard from True Father, and when I go to the SW, I will descend into the Family Church, so in this current situation, it's not just, I truly believe, this is the positive end days. That is the case.

(don't know what they are laughing about so much in between his speech... anyway, he is delightful) This

is the Era when 2nd and 3rd gen can see and listen to True Father's Words, but I am over 80 years old, and True Father appeared not in a vision but in exact Image that I saw Him before He went to SW, and He talks to me...

All of my children were overseas thought currently living in an apartment with 3 rooms, but True Father appeared and said to prepare the Cheon Shim Won Altar, but I told Him it was impossible in such a small apartment but True Father said, 'You need to do it. Didn't I already give you a sign.' And I received the Cheon Shim Won portrait, and I believe that was the sign True Father gave. And we made one of the rooms a Cheon Shim Won prayer room.

So, with the Cheon Shim Won opening by the church leader... Whenever there is an event, there's a condition where we offer a fish, and we went out to sea and caught 4 fishes to offer to Heaven. And a different kind of fish (previously?) within an hour, I caught four fish of the right type.

One of the pure waters came to my home wanting to meet the senior members who walked together with True Father, and welcoming them, it felt like a real miracle.

In our family, there was a Blessing Ceremony... at our home Cheon Shim Won we once had a Blessing Ceremony for married spirits and the mother of (why don't we just look at the pictures... this is international holy ground that was established, because of the True Father, one Tree True Father gave a walnut fruit and True Father gave that to the members but said we should not eat it, but because True Father gave it, we should prize this, and the grandchildren of Mr. Hyoda, and when we completed this Holy Ground, there was this light that appeared and all of the pictures had this light, whatever camera we used...

(grandchildren of Mr. Horoda) Lights came no matter what camera or picture we took, and a medium religious person said that the Person that has this Light, (a notorious person in Japan said this) is a great Person that can help Japan. And that night True Father appeared and said 'You got testified by a notorious person and you received it as a representative, and it is the message of all BF's, and among all that religious people have done, in this picture a religious person said they wanted to meet this Person in the holy ground.

I believe when we get connected to the Cheon Shim Won, even it's not witnessing, when we go forth with the SW, True Father has said that even in this dyer situation... I prayed for the situation to be dispelled, and Father appeared and said there is only one way, to become one with True Mother... and that way is to offer Cheon Shim Won devotion. We need to understand, with the Providence of Cheon Shim Won, the miracle is to receive this CS HJ rod, and when I came here I was able to receive this rod.... and they stand and bow...

Heavenly Parent shed tears of forgiveness for the enemy. God is the God Who takes a hit and then reclaims. You must be the same. God's miserable Course of Providence is mostly because of us. You must know God's Heart that wants to speak like you and work like you. God does not forget and is waiting. I'm saying that you should think about when you can participate in God's Providence of Restoration, you must find the state where you can live with God

Furthermore, you must find and enter the path where you can think, speak and act just as God would. God also possesses Emotion and Will (cheong ji ui) If human beings possess cheong ji ui, it goes without saying that God possesses them as well.

Although humanity on this earth is the offspring of the fall, they are resembling God's own relatives and direct sons and daughters. God is the One Who comes with a Parental Heart that surpasses the Heart of Parents, seeking their lost children. Therefore, every scene where humanity on earth sheds tears was due to the death and pain and is filled with the sorrow... and is a reflection of God's own Sadness and Sorrow.

Consequently, any individual, family or nation that despises persecutes or kills a good person, will not last long. This is because God remembers it. Therefore, whenever our tears fall, we must realize that Heaven's Tears are falling.

Whenever the heart of bitterness and resentment wells up within us toward an enemy, we must realize that God is shedding Tears of Forgiveness. We must fight against satanic and win. Those who cannot win, cannot return to Heaven. What must we do to win? The fallen Adam is the problem.

We must do things greater than what fallen Adam failed to do. Adam could not absolutely believe in Heavenly Parent. Therefore, to be better than Adam, you must absolutely believe in Heavenly Parent's Word. Adam did not center his life on Heavenly Parent's Word and practice it. This is the fall. He could not believe in Heavenly Parent. Furthermore, he could not put it into practice. After putting it into practice, Heavenly Parent's Love is connected.

The path that human beings who were not fallen were originally supposed to go is to believe in Heavenly Parent's Word, practice it and overcome. Had they done so, Heavenly Parent's Love would have been waiting. Heavenly Parent's Blessing would have been waiting.

41,800 people are gathered...

mentions that, unfortunately, a lot of people are on vacation

14,400 in H Japan

Africa 56 and Europe and Middle East and Russia... Albania... Mozambique and H Central and Latin America... so grateful we can gather like this

800th vigil in Hayong Church... special devotion they are offering for the 1,600th Cheon Shim Won devotion coming... those who wrote the Cheonbumo Ron theology, they went to the sea and caught an 87cm fish and a 77cm fish and 16 other fish. The biggest were released and the others to Cheon Shim Won as an offering. Heaven will surely work through 3 main churches connected to the Main Branch.

1,077 Main Branch trainees... and today is graduation for the 9th Workshop... and now this 1,599th devotion, and we watched the video of the Japan Workshop where they could resolve and repent the past and we saw through the highlight video. Please bring this devotion back to your respective field for works of Spirit and Truth.

The Elder Pastor gave a report. His situation was to risk his life offering Cheon Shim Won devotion and pray for others, not easy but after liberating the 66 spirits, they made a condition where 70 of them were doing devotion and over 1,000 then and the pastor could be healed to a state where he could offer the fishing devotion. I believe this church is the model.

Today there are a lot of members that came from the Nagano Church and asked to take a photo with me, and to practice their education, I truly believe miracles would happen, and all of us offering devotion in their own homes and can see the rented venues and Place where 70 people can gather. I believe this sparks revival of the Japanese Church.

He went 13 times and continued this devotion as a public leader and sent news of hope in the difficult situation holding onto Cheon Shim Won devotion and struggled and endured. After receiving the grace of

Heavenly Parent and True Parents... His wife and daughter participated in this 3-day and heard: What are you worried about. You can do it. You can shape the future.

He listened to this powerful message. He joined when he was 17, and suffered a lot, but heard, 'You are My son, and please go to the very end with Me.'

Mr. Horiamoto gave a grace-filled report, looking at True Mother's suffering and after True Father's Seonghwa, he received messages and continued to offer devotion, and after he knew about the Cheon Shim Won Providence, after the 300th and 400th, he could see great works. And when he was in my office, it was the 700th devotion. I didn't know, but when I prepared the rod, then he told me it was the 700th... He was able to resonate with the Subject SW and listen to the Voice of Heaven.

And he heard True Father say to prepare the Cheon Shim Won prayer room with devotion, he gave the report where he could see a lot of the grace. There are things he should share. He didn't share all the things, but that great things are happening, and if members offer devotion like Mr. Ahsuda?

Heavenly Parent is the One Who gets hit first and then despairs. We need to be the ones who get hit first and resonate and communicate with the Shimjeong of Heavenly Parent and True Parents, so that we can reclaim after getting hit, needing to pay indemnity, and think about that when a righteous person is hit, Heavenly Parent sheds the Tears of Forgiveness of the enemy, True Parents also walking the same path, even in their childhood receiving persecution, They could have the cosmic-level foundation.

True Father and True Mother's Tears are overflowing, and we can see the works we can reclaim after getting hit. If we are not shedding tears, it is because our struggling is not enough. With the suffering you are receiving, may you enter a place where you can reclaim

True Mother's Words: 'I love you. Thank you. Won't you help Me.' And all of the children spoke without hesitation to True Mother's Words.

This is where the SW and PW is devotion, and we cannot see their devotion, but it is a time to push forward. True Mother was with me in Danbury, and it was a time when She offered desperate devotion for fulfillment of the Will and to become one with the children. I was the same, without a single day of

rest. I'm telling you, 'Mother is in the detention. You need to offer devotion until it is over and do not back down or ignore. If you feel doubt after devotion or hunger or to fall down, you need to push yourself even harder and risk your life. I need your devotion.'

We need to gather all our devotion for the fulfillment of the Will of Heaven, communicate and resonate and offer devotion. All of you will be able to experience what you have not until now. True Parents Who walked the path of the Will of Heaven, until the very end, as if you are in a war, pushing forward as in a war, desperately crying out, and I truly believe that your voices will move the cosmos and the satanic for protection upon perfection. With that heart let us resonate with the Subjective SW and coordination with the PW. Let this be such a night...

Prayer and Praise

We pray, let us pray with one heart for True Mother's health, safety and exonerated release...

With the heart of Jesus on the cross, allow us to pass through for the release of True Mother, with the same Heart Jesus has possessed... True Parents, you said we must know the Sorrow and Resentment and overflowing with Love for humanity, yet the Heart of Jesus was to have to depart without giving all of that Love and all His Life and Ideal to bring joy to humanity, without being able to directly give the H Love was the Sorrow.

There for the world to know True Parents and HMH, not be like Peter, with the ultimate question between Heavenly Parent and myself, let the Unification Church members be those who harbor H's hope, a sign that Heavenly Parent has sent the children by us being the one's persecuted. Beloved Heavenly Parent, even the difficulties of a cross, we are not the people who despair, just as one son shouted Monsei while

saying do not worry about H Japan, we are not the people who fall away, but we will equip ourself with the heart of implanting the Love of True Parents to the ends of the world.

We believe Heavenly Parent called us in such a way, we believe You are calling our families to that standard to be a Movement as such. The Words Spoken by HMM, True Mother, let us equip with an appearance so that we may awaken this nation, and all people as a chosen family, all people of the Creator Heavenly Parent, and live.
