Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Victorious True Parents of HEH

Today on May 19, 14 year of Cheon Il Guk, HC, July 3rd 2026, we offer this 1,600th Cheon Shim Won Special Devotion, realizing that this number is 40 times 40, the number that transcends indemnity and patience to advance to a new Providential Age. We offer this time and please receive it with joy.

Cheon Shim Won that began on June 1st, 2020, amidst a situation when no one recognized it. You have crossed and crossed again the lonely mountain passes, and You have raised up a history of countless miracles and grace. We offer our deep gratitude and respect before Pres. Lee Gi-seong, who has achieved victory through tears, patience and devotion, holding on only to the Words of True Mother, and only to the Will of Heaven.

Today's 1,600th Cheon Shim Won devotion fills the Main Hall of the Palace, packs the small hall and the Cheon Shim Won to the point where there is no room to stand and countless members around the world are joining us online. Most Honorable Heavenly Parent, we have been too late. Knowing the Path True Parents have wiped clean with tears of Blood, we have been too complacent, and even though the Doors of Cheon Shim Won were open, we could not hear the Voice of Heaven. And even though True Mother's Heart was being torn, She was suffering but our own hearts were too dull.

Beloved Heavenly Parent, our True Mother, we sincerely thank You for permitting us a Holy Sanctum where we can resonate with Heavenly Parent and Heart of True Parents. TYVM. We thank You for Blessing us, Saying, 'If you pray at Cheon Shim Won, there is nothing that you cannot achieve, and for Blessing us Saying that Cheon Shim Won is the greatest Gift in this Era.

Before True Mother Who has Loved us so much, how many complaints, acts of unfilial piety and

disloyalty have we lived with. How many times have we lived, casting aside the Providence. How many times have we judged Cheon Shim Won based on my thoughts, my circumstances and my standards.

At this time Heavenly Parent, please burn away with the Fire of the Holy Spirit all the remaining flaws that remain within us. Please work so that we will clear away all the darkness, unbelief, resentment and excuses. Please work through us. Please pull out all the roots of satanic darkness that prevent us from becoming one with True Parents.

Therefore, please work so that Holy Flames will burn brightly over the nation of Japan, Korea and the world. More than the history of the works of the Upper Room of Mark, more than the works of the Cheonyeong... Please work so that the repentances will be even hotter than those will pour down upon the Cheon Shim Won tonight. In every family, do not let the fire of Cheon Shim Won devotion go out.

Let us become completely one with HQ Cheon Shim Won, and please work so that the future generation, the 2nd and 3rd generation of pure waters will be established as holy priesthood for Heaven. Please work. Please awaken all pastors and Blessed families once again. Please work Personally with Heaven so that we will surely complete the Epic history of the chosen Han people of Korea. Please work.

We will no longer offer loyalty and filial piety only in words. We will pray with tears, put it into practice with our body and take responsibility with lives. Please work, Heaven, so that we will surely become children, filial sons and daughters who become completely one with True Mother and resolve the Heart of True Parents, the Heart of True Parents. Please work through us.

Centered upon the established Family 4PF and becoming completely one with the Inheritors, Shin chul nim and Shin Heung Nim, please work so that we will become Blessed families who are not ashamed before Heaven.

We earnestly hope and desire that True Mother may enjoy a long life and return to the Cheon jeong Gung Palace as soon as possible,

In the city where darkness has fallen and all have fallen asleep, the earnest cries once again, 'Aboji, Omoni' For some, it has been an ordinary night, but for us, even on days when it rained or snowed, even when exhausted with our bodies collapsing, our prayers did not stop.

1,600th Special Vigil Devotion

The Victory of every course True Parents have walked was solely true love. The 1,095 days of devotion after Father's Seonghwa that children should have offered, True Mother showed us first through Her unchanging respect and love for Father. Because She is a Mother, She could not show all Her Tears before Her children... She crossed the lonely Valley and peak of Victory for 2020. More powerful than anything else... We who have realized True Mother's Love too late. It was the very beginning of the Cheon Shim Won, the Office of True Father in the SW, and the Warm Embrace of True Mother that gives the true new life.

True Mother emphasizes the importance of the devotions for becoming one with subjective SW, to realize the ideal of One Family Under Heavenly Parent, instructed us to offer Cheon Shim Won Special Vigil Devotion, which began on June 1st 2020, following True Mother's Words, was the key for establishing all of humanity...

True Mother: 'Why is Cheon Shim Won prayer important? It is so that Father can mobilize for the environmental realm that we must expand for Heavenly Parent. Do you understand? That is True Father's Wish and humanity's wish.

With Spirit and Truth, Cheon Shim Won devotion began for this era and has reached its 1,600th Session. Six years of time, walking silently while thinking of True Mother's Words, miracles created by tears and earnest of the Unification Movement members, overcoming countless peaks of tears, prayer and devotion.

A new era starting from the 1,000th Cheon Shim Won, when the subjective SW and the objective PW offered devotion together.

1,111th Cheon Shim Won was offered as an Altar of Cosmic Resolution before the Entrance of Cheonwon Gung Cheonil Sanctum, presenting an even greater history of hope and victory before Heaven.

Furthermore, following 2024 CheonBo Great Works, record-breaking victories of surpassing 100,000 and 120,000, 140,000 and 150,000 participants have continued. Even now, True Father is working, and all of this is the work achieved through the absolute faith that we will surely be victorious if we become one with True Mother, and the cooperation of the SW, centering on True Father.

Today, Cheon Shim Won devotion continues to burn as an unquenchable flame of devotion to fulfill Heavenly Parent's Dram and True Parents's Wish, an era where we live attending the Creator, Heavenly Parent. Victorious Heavenly Parent and True Parents of HEH, thank You for the grace and Love that has led us to this 1,600th Cheon Shim Won vigil.

On this night when we miss True Father so deeply, we call out 'Aboji' 'Omoni', filling our hearts with this sentiment. Even if time passes and environments change, the hearts of the children do not change, so that all of the hearts of devotion all over the world will become a comfort and victory to True Parents, we will not stop. We will shine the candle of Cheon Shim Won devotion even brighter, and we will march forward powerfully.

We are not living in the past. We must see the completion of the Providence. Toward the day when we attend True Parents globally in Cheonil Guk, we must run without rest. The world we live in today is a battlefield to reclaim the original world True Parents posses. Your devotion must reach Heaven, so that True Father cannot help but move. The destination of a single drop of water, forming a stream and a river must be our devotion.

True Mother: I love the 1st, 2nd and 3rd generation forever.

Today the meaningful day marking 1,600th Cheon Shim Won devotion, my sincere gratitude for all who have joined us with unchanging faith and devotion.

Please join me in offering gratitude and glory to Heavenly Parent and True Parents, Who have remembered all the Cheon Shim Won devotion and guided the Providence, and my gratitude to PL, steadfast list the North Star and extending to all the staff. It is because of your silent and dedicated service that the Cheon Shim Won could continue to be a lamp of faith for countless members. applause and applause

In True Mother's Childhood, while reflecting on the life of Hoonmo nim and Daemo nim, She said the following:

Grandmother liked the very profound saying, 'God works through a person who is thinking with actions global, while at the same time being able to see the beauty of a single flower...

This shows that the love embracing the greatest whole and even the smallest life can never be separated. The deepest response with the Words of Jesus 2,000 years ago of what is the greatest Commandment, He answered, 'Love God and love your neighbor as yourself', revealing the core of all the Law and the Prophets.

The work of Heaven is fully realized with the grand mission and daily love in the mission toward the

world when the warm heart of one person coexists, the Life of Hoon Soon nim and Dae Mo nim conveys a deep resonance to all living today.

Following this, True Mother introduces to HyoJN a letter True Father sent to Hong Soon Ae, DMN.

'Grandmother, I praise your hard work and endurance, knowing that victory accompanies the depth of your suffering. May the silent light you convey become a strength to achieve new hope.

I pray for your health. Grandmother, thank you.'

In this short letter, True Father's deep Heart is completely captured. Even True Father Embraces the world and leads the Providence meticulously remembering the efforts of Hong Mo nim and conveys sincere gratitude and encouragement. At the same time, the expression 'silent light you conveyed' offered a glimpse into how they deeply understood and relied on each other amidst an exchange of heart not able to be expressed in words and mutual trust.

This letter can be called a precious testimony showing the fact that the power to achieve a vast Providence does not originate solely from a great vision, but stands from love and trust, in which we respect, encourage and share hearts with one another.

Respected members of the Blessed families worldwide, I hope that the devotion and prayers we have offered so far and the prayers and tears we will continue to offer, without change, will become a silent light you convey to True Mother, Who is Walking the Cosmic Path of the Cross alone in this very night, and become a great strength and comfort to Her.

I firmly believe that our unchanging devotion and hope, will be a comfort to True Mother and be a driving force that advances the Providence of Heaven...

applause of gratitude and glory to True Mother with all our hearts... And with this vigil as the new starting point, let us uphold the Will with a deeper heart and unchanging devotion and march together toward realizing the ideal of One Human Family under Heavenly Parent.

As long as the devotion of Cheon Shim Won continue, the Providence of Heaven, and as long as our prayers continues, the hope toward Cheon Il Guk will also never be extinguished.

I once again congratulate you and pray the love and blessing of Heavenly Parent and True Parents will always be with the BF's from around the world.

My beloved members of FF, and respected family members of Cheon Shim Won, it is a pleasure to be with you.

I have come here today to pray together with you.

I want to share the belief that God never turns God's Face away from the person that prays. Today is a meaningful day marking 1,600 Special Vigil Devotion. When I think of this number, I do not think of a number but of God's Work. 1,600 deep nights, of knelling in prayer, of tears, of earnest cries of praise and prayer. People may forget, but God does not forget.

I believe that today's 1,600th vigil is not a work made by Heaven, but a work of prayer remembered by God. The Bible says, 'Remember me in the day of trouble, and I will deliver you. And you shall glorify Me.' That is right. 'Call upon Me in the day of trouble. Do not... The day of trouble is the time to call upon God. Every night we have gathered for this purpose, and tribulation is the place by which prayers begins and the amazing way that God fulfills history.

God has taught me one thing while doing KCLC ministry over the years. It is that prayer not only creates a work but also changes people. Sometimes when we pray, we expect the environment, and of course God changes the environment too, but God changes our hearts, and I have experienced that grace.

After visiting many churches and talking to church officials and leaders and members, and as time passes, God has been changing me through all of you. It was not logic or a single book, it was your lives that changed me, seeing you kneeling before God in the deep night and dedicating yourself and your family, offering devotion for this nation, my heart began to change little by little, realizing once again that prayer is a time to receive answers from God but also a time when God molds our hearts, and at the very beginning of that change was a gathering I still cannot forget.

It was the time at East Garden that I first met True Mother, charged with giving the greeting of KCLC, beginning with 'Respected Dr. HJH', but after I finishing, Dr. HJH began like this very strictly, 'Do not call me President or Doctor. Call Me Mother.' At that time this was a shock. I did not understand, but God allowed me to meet you and have conversations with you, and then I began to understand little by little. It was how a theologian began to express for the Life and Service of the Person entitling the title, 'Mother' (Mother of the Saints)

I had opportunity to meet True Mother at the DC. The time was 2 minutes. I said this to Her:

Before, at East Garden, I did not understand the meaning of Your Words to call You 'Mother.' However, over the past few years, while doing KCLC ministry, I have heard and seen the Life of Dedication that the Mother of Peace has walked for the sake of the Korean Peninsula and world peace. And now I have come to understand why so many people call You, 'Mother'. big applause

As I finished those words, She smiled brightly, patted Her Knee, and spoke one word, 'Aju'. I still cannot forget this that comes to my memory lively. A life with sincerity and truth eventually moves people's hearts, and I offer my gratitude and respect for the Life She has walked for the sake of peace for the world.

I sincerely thank Pres. Lee Gi-seong and all the family members who have served history by the 1,600 services of vigil. We will continue to gather and praise with you. On July 6th, the KCLC pastors will gather together to hold a special prayer gathering for President, Dr. Han's safety and health at the hearing and sentencing of July 10th, so that God's Justice and Good Will shall be realized throughout the entire process.

Various different religions and with Leader Hong Mun Jong, we will gather our devotion and offer prayer... big applause My b and s, today we are not gathered simply to celebrate this 1,600th vigil but to celebrate offering the 1,601st prayer to God. God Who remembers past prayers, will also remember our prayers today.

Therefore, let us not stop praying, even the environment is difficult, even tears fall, even if there are things you do not understand, let's pray. There is always hope for a person who prays. There is always God's Work in a community that prays. My b and s, do you believe that God hears our prayers even at this moment (Aju!)

Do you believe that God will open a path of peace on the Korean Peninsula and in the world? big applause... Today our prayers will create tomorrow's history. Prayer creates history. big applause

gratitude

Following the unreasonable dissolution order June 22, H Japan had all its resources taken away and no longer being a corporation. We were called together to establish a standard of devotion, and we have attended the 1,600th vigil in Korea...

PL taught us the way to overcome is being struck and then reclaiming what is lost. I may have heard this many times before, but it was more realization while in the Workshop. There are many who are struck and fall into ruin. To reclaim what is lost, you must enter a position completely one with Heavenly Parent and True Parents and communicate with them with your heart. Then the path opens, looking with the heart of a parent, then the one who struck you is more pitiful, having to pay indemnity in the future and falling into ruin.

I realized that Mother's Words to forgive, love and unite are the very beginning of attending Heavenly Parent. The court seemed to taught, 'Can you still shout true love and say that the Gates are still wide open' I was resentful. I wanted to call out curses. But this resentment heart has been cleared by resonating with the Heart of HMM True Mother, and I have discovered hope, a path to reclaim what was lost has opened wide. It cannot be denied that shouting for the completion of human history, we members have sacrificed our families, and many nights in tears because my beloved had drifted away from the will.

Satanic has stolen them, but a path has opened to reclaim them back into the Bosom of Heavenly Parent.

Through the cosmic cross of True Mother and the H Japan religious movement, I will resonate to achieve a family of Heavenly Parent in my own home and in my local region, even dissolution, I will prove that the Truth will be revealed and hope lies in the FF just as Mother has said.

In particular, upon the foundation of 1,600th Cheon Shim Won, we will offer more Cheon Shim Won devotion and unity with True Mother and advance with that strategy of being struck and reclaiming what is lost...

Greetings

Rev. Chong He Song, a loved actress, visited the site of Cheon Shim Won devotion and invited before, but this time of her own accord to offer comfort and hope to the members.

It is such a great pleasure to greet you all like this. I am Chung He Sung, walking only one path for 65 years. My faith may not be that strong, but because of recent events, my heart has been aching for a long time. After thinking deeply about how I could pray together with you here, I realized it was in the past invited here for something joyful, but this time I came here on my own two feet today to join you...

applause (special applause)

With the same heart as yours, as the proverb, 'Two heads are better than one' and there's the saying, 'sincere devotion moves Heaven' perhaps God will help us, so I walked all the way here on my own. Honestly, I feel ashamed to be standing before you at the 1,600th time you prayed with such painful hearts, and this is my first time coming.

I believe if we pray with one heart and mind from now, many good things will come and I will pray earnestly together with your hearts today, before I leave. To all our members, I will pray for your health from now and that your lives are filled only with good things. TY everyone...

I'm certain that more righteous people will come here on their own feet as we continue Cheon Shim Won devotion.

A Japanese member who cannot speak Korean struggled and spoke for an hour and a half in Korean, a figure from 400 years ago appeared in a place looking like a small sized Cheonwon Gung. He said about his wife and daughter and a new born, and suddenly a vassal betrayed and stabbed them with a knife. They wanted more pain for him so they put him in a completely dark place. This person became the spirit of him, and looking at where he was writing the name on a paper. Kong Sute... I was a leader of a great group, I have 3 daughters, it is not just me... In front of me, my wife and daughter died. Do you understand?

I saw a vision of them happily participating in the Cheon Shim Won in the spirit world. I was so happy I was able to liberate them this time. Finally, he said, 'TY for keeping your promise this time and this person said he entered me 4 years ago... because he was lonely. He said he would take everything I had. I lost all my inheritance and couldn't get a job at all with every failure and rejection.

That became the trigger for my depression with every day a living or dying time. He entered me he said because I was one who could understand the best.

A light appeared in a ball after a voice that said for us to cry out, 'Holy Mother Han'. The pain disappeared and I thought, 'I'm okay now. I'm allowed.' His wish was for me to Bless him and his 3 daughters. He said he would leave if I promised before a portrait of True Parents at Cheon Shim Won that

I would definitely do it. He suffered 4 years, with the comparison of expression. And usually he didn't speak so fluently, but he became very articulate, just like a lecturer would. The SW definitely exists and we are doing various things in the SW such as liberations that we are performing every day.

Through the 100-day Workshop of HeungJN, these people are reborn and then they truly wish for the happiness of the person that liberated them and their Blessing grace. The 3rd gen not being realized the ancestors would have no where to forget everything and invest themselves. The family members need to direct them, 'Go and do this or that.'

Truly by praying at Cheon Shim Won, the enemy cannot invade the content of prayer there, it is absolutely inviolable like the special prayer room, and an absolutely bright light comes and I realized such grace that comes through Cheon Shim Won given by True Mother.

This is to untie the problems in H Japan, recounting the Words of True Mother in a dream as a missionary. There is 'Devotion Group' working to inherit the spirit of YuGon su and many are in Japan who have liberated 4,000 people who were forced into labor and to comfort woman in Japan, supporting with fasting and vigil devotion. When I realized that the Japan/Korean relation cannot be resolved without resolving this history. I passed by this place of the Colonial period where 3 million people were mobilized to complete that dam.

There were 43 names of those that passed away in that time. The dream of True Mother came where I was returning from vigil, but instead of going home, I went to the dam, and Mother was waiting in work clothes. So I made a report to Her, and She said, 'Please it's up to your hand' I had asthma so badly, but Mother laid Her Hand on me and the wheezing sound disappeared. Mother asked me for a favor to liberate these people.

So, centering on Cheon Shim Won prayer especially as a missionary I believe I have the mission to apologize and truly acknowledge their sacrifice and liberate to build the nation with them. I thought it would just be (to resolve) an event difficult...

While the sign of devotion is flowing in unseen places, there is a Korean/Japan Joint Memorial Service at the Seoul place desired by both Korea and Heavenly Parent, and resentment is made into compassion...

This is the joint service, 'May the Will of God be revealed in me (chanting) (blowing a special whistle sound) This land where the first frost came and the beautiful mountains and rivers under the bright sky and at the competition... Korea/Japan Joint Member Service... I feel that the souls that have returned are ringing in my ears... I pray for peace. Please guide and protect everything to return to joy and the clear flow of the Han River never cease

We were able to sincerely prepare for this day. TY for using us in this way, through the Memorial Service, we too will live more sincerely before Heaven as good beings. Please watch over us, even though we are sinful, I thank You sincerely.

I feel the crossing of coming here after 35 years, speaking the words for harmony between Korean and Japan, and I feel it will more shine with people like you coming here. Hatred does not cease by hate but only by compassion. Because of conflict, many lives were lost and I pray this will be the occasion for peace to come to this land. Throughout the world history, wars endlessly, and the military power to protect the lives, forces the people to participate in wars taking not only their own lives, but lives of others, and I feel our voices need to rise up not to sacrifice precious human lives again as before.

I was born and raised in Japan, but I try to be someone who understands each other and create the future together, joining hands out from the past.

The leader of the Temple had a revelation to pray for those sacrificed for Japan and erecting a monument and we decided to hold the patriotic commemorating event... The characteristics is for opportunity to think about the past history and with their own strength ponder what they can do to bridge relation of Korea with Japan.

Many who came to Japan from Korea in marriage have received notation of commendation from Korea and are also the pride of Japan. We walk for the goal of N and S unity, and among the families, our footsteps are small, but I believe each step works for a better future and we will continue with you all.

I am a Blessed Korea/Japan Blessing and my daughters and 11 grandchildren. At a coal mine, there was a Buddhist monk holding service for those who were taken there and passed away, and with the service for

Unification and World Peace Memorial Service, and the suggestion came to hold the services together, and we did so.

Initial intent of 4 years became 8 years and then realizing we need to do it ongoingly... The Director of the Independence Hall was truly delighted and they said, 'You Japanese people do not have to apologize to us any more.'

It was the greatest joy. My husband and I repented deeply every day, and we thought if we do not offer a new resolution to God, we cannot connect our children and grandchildren to God. Until we die, let us run for unification and world peace.

This video is not just an historical site, but right now True Mother is walking the course like Sodomon Prison. At this time, I feel that all contains a great Providential meaning leading toward a great victory. I thank the members who have walked this course, looking toward the Providence amidst any trial (and he bows). Because of your unwavering devotion is piling up, until we achieve the day Heavenly Parent has prepared, I truly thank you as we move toward victory.

'Purple Rose of Sharon' song. When she went to the fishing Workshop, and she was shedding tears, so moved and as she sang, she could not help but think about True Father, singing the boat song and triggering memory back to True Father and True Father can work.

I met him at East Garden, and this was truly shocking words for him, 'I am the OBD. When revealing this, all the pastors were shocked.' But truly he has become a precious person who can call True Mother, Mother. In a meaningful moment at the DC, True Mother tapped his knee and said, 'Aju.'

To the Japanese brother who didn't speak Korean at all, our brother spoke for an hour and a half with a spirit inside him. A spirit can be reborn like this, because of HMM. Without Her, no one can be reborn. Because of True Mother, all of us can be resurrected and be called the direct children. The Providence to save everyone, which is liberating the Heaven realm on earth and in Heaven, you will be able to transcend

your own religion to realize the Value of HMH, and all races and religions one family. The time will come soon, and it has already come.

In order to change the time, the future and the Japanese members sang, 'Wing of Promise' to realize all for Heavenly Parent and True Parents. They are truly precious people, and I'm certain Heavenly Parent will listen to righteous prayer. Prophet Radebe said, 'Be on fire.' He shouted his words.

If you want to contribute to True Mother's circumstances, You must be on fire. True Mother will definitely come out soon. She will come out soon, and afterward a greater thing is to come. At the 1,428th vigil, he shouted those words. And if you are not yet on fire, you must repent.

Pastor Rosario offered a 21-day special devotion for HMH, and at the end a member shared a song:

'Today we offered devotion for You, despite the stormy path, please allow us to rise, ignite the Light of the Lord and be able to radiate it through this world... As the world looks at us, we offer earnest prayer

HMH, please be eternally strong. The place where you can stay is in the heart of the members. True Mother's extension in the hospital was made. Righteous people's prayer has great power. They cannot dissolve us to be united stronger than ever before... This word can mean 'dissolution' but it can also mean 'reborn'... I'm certain they will be and they are fulfilling Mother's Word. True Mother said, 'Have strength. If you open your eyes of faith, you will see that. Heavenly Parent's Dream will absolutely be fulfilled. Heavenly Parent knows our prayer and devotion and all circumstance we are going through.

What we are facing is just the course to fulfill Heaven's Providence. And in order to fulfill those Words, up until yesterday, members have come and shed their tears, and they still didn't go, and attend this vigil, receiving Heavenly Parent's Heart. applause for their consistent devotion and prayer. Heavenly Parent is living and working, not being silent, but H's Will will absolutely be fulfilled, because Heavenly Parent knows everything and encourages us every day, we push ourself forward, with eyes opening more than ever.

Before Easter, they think about the cross of Jesus, and we must have the same heart as the suffering of True Mother, and then Heavenly Parent can unfold amazing works allowing you to push forward. No matter what, if we do push forward, we will not perish and there is nothing for us to fear. True Parents's

have been waiting and have been patient, and as long as we go all the way through, there is Blessing. We are not here to have Blessing now but in the future.

Ai for the purpose of Cheon Shim Won devotion: First it is for completion, the number 40 in the FF is separation from Satan and it is an absolute number where you can set a new start and the 1,600 is this number piled up 40 times, meaning the walls between the PW and SW will be destroyed and such indemnity is paid for that purpose.

And throughout the course of history, the Providence of Restoration has been turned into a victory through the Cheon Shim Won devotion, and that has been offered to Heaven.

Second, the absolute one-heart resonance of True Father and True Mother, They are at Cheon Shim Won, where True Father works for 365 days a year. This is a corner of devotion, a place where you can communicate with True Father and True Mother. And the 1,600th vigil that has continued up until now, absolute good spirit realm and all good spirits have become one with members and it is settling down the spiritual foundation through this vigil.

And by doing so, the spirit world will absolutely cooperate and the settlement of the H unified Korea and H unified world will be achieved faster. It will allow us to go back to the early days of our church with spirit and truth, allowing us to hasten to fulfill the Will.

During the early days at Cheong Pa Dong, that Pentecostal happening, that has been substantially made through the vigil. At the 1,600th vigil, the power of devotion we have piled up will break down the limits of individual devotion prayer, and allow individual members to experience and feel the substantial true love Work of Heaven.

Fourthly, this is the last protection for separation of Satan, becoming a block of Satan's last attack, and we be perfecting Heavenly Parent's Course spiritually and able to make the condition for spread of Heavenly Parent's Realm wider in Korea.

In short, 1,600 vigil is not just piling up the tithe, but it completes the number of the Providence. It allows perfect resonance between the spiritual and physical world in order to bring victory in the PW, this is the

greatest spiritual victory that has been laid as a foundation.

(all of the above is what AI said)

Up until now the foundation we have laid, Ai is saying like this, if we truly believe and attend Heavenly Parent and True Parents, as long as we can become one with True Father and True Mother, amazing works will unfold before our eyes.

The Kingdom of Heaven on earth and in Heaven which will fulfill the hope of all religions, I hope you believe and through this vigil, set a new resolution this time to set a new start.
