Bow and Pledge #1 and 2

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We thank You that today upon the foundation of tears and devotion shed by members in SW and PW while attending Heavenly Parent and True Parents over the 1,600 times of vigil with a horizon of victory and welcoming a new wave of spiritual fortune. TYVM.

On this night may our earnestly crying resonance prayer broaden the passage of Cheon Il Guk and guide us to be a crucible of Heavenly fortune surging with Spirit and Truth. May our one-heart prayer shouted in oneness with the SW and PW unlock the long-closed gates of the Korean Peninsula, and allow the path of N and S Korea to be wide open by the victorious ability of True Parents.

Please clear away the darkness of division and conflict and may the radiant Lighthouse of H unified Korea stand tall on this Land of the East. Therefore, may the fortune of the land of Korea extend to the five oceans and 6 continents. Please work so that this is historical reversal, where conflict and war are ended, and this is established on earth with one humanity, triggered through the devotion offered in this Cheon Shim Won. Please work.

May all of us gathered here be spiritually reborn in the governance of Heavenly Parent, and every hour through the night the spiritual barriers to be broken down and the work of resurrection ever flowing.

May the one-heart prayers in which we pray for the circumstances of one another spread across the entire world, resurrecting shimjeong community that had died, and may they form relation based on communion and trust. Please work.

From the deep foundation of this Cheon Il Guk, which is like the Holy Heart and Womb of True Mother, we earnestly hope and desire that You Guide this 1,601st Cheon Shim Won devotion to be a time when we cast off any of the past sharp hatred and animosity for each other and achieve the higher resonance of forgiveness and love, while attending True Mother.

'Monarch Butterfly'

Testimony

Shimada Aina

2nd daughter of three siblings

Although born and raised in Japan, I have never truly lived a life of faith, only after Sun Moon University, but then returning to Japan, for several years only focused on making money. Last year, returning the CP after five years, through the Workshop I experienced a restoration of heart, but I was worried about the short sleep time, but my body felt light and vibrant, and I could feel my spirit self was alive.

I returned to Japan, but found myself reverting to the time before the Workshop. It was difficult to make relations with people, and even I received so much love in the Workshop, I felt unqualified to go to the Workshop again, even I knew Heavenly Parent wanted me to return, my fallen nature blocked me. But talking to a coordinator that I knew and he suggested I try being a staff member, but I was flustered. I

could not speak English at all and felt I could not do it, and said I would think about it. But the Workshop kept lingering in my mind and in one moment my thoughts changed that his was an opportunity at this Golden Age and I would regret missing it.

I decided to challenge myself and began as a staff coordinator, and among the words of opening two things:

The statement: The children of Heavenly Parent must live joyfully.

The Essence of Heavenly Parent is Joy and Happiness.

This reminded me of a friend that I confided in about my worrying. She said confidently, 'Heavenly Parent is always with you.' I felt envious of a friend who could say such things. I realized I had not fully trusted Heavenly Parent and made it my goal to near the Essence of Heavenly Parent.

I also remained in my heart that, 'If you spend money on yourself, it disappears, but if for the sake of others, it returns to you.'

I offered prayer at the Tree of Blessing and the Tree of All Things, and I thought I should offer a HJ Offering Paper for a Yeongseong Workshop trainee.

The card I drew read: A person who knows how to love their own body is a person who loves their own mind. And a person who loves their own mind is a person who loves God.

I felt that Heavenly Parent was saying, 'It is all right. Loving yourself is loving Me. Love yourself more'

Even I offered for the trainee, I felt Heavenly Parent was saying to Words to me finally only now, and I shed tears.

I participated in offering 1,000 bows of devotion, in stages 300 and 300 and finally 400 with rest periods in between. This was my first time. I would never have even thought of attempting it if not a staff member. For the first 300 bows, I shouted 'Yeongseong absolute victory in my heart.' But I had distracting thoughts, unable to concentrate properly.

Thinking that I would just be checking off numbers if I continued that way, I increased the speed of calling out prayers from the second set onward, not to give room for distraction. During that time, my eyes caught True Father's Face in the portrait at one moment. I had never met True Father in Person, and I only remembered the charismatic way He Spoke in videos, but the Gaze of True Father in the Portrait was incredibly warm. It felt as if True Father was beaming at me.

A Voice came from deep within me, 'See you're doing great. I knew you could do it. That is why I called you.'

I was so happy that tears poured out and I didn't even realize when the last 400 bows were finished. Through this experience, I changed from saying I could not do a difficult situation to saying, 'Let's just give it a try.' Because of this, I who dislikes being the center of attention, received the grace to do a testimony here in Cheon Shim Won, which is True Father's Workshop.

I felt that, even when I do not believe in myself, Heavenly Parent always believes in me, so I will believe in myself as well, keeping Heavenly Parent at the Center and live in joy and gratitude. And if there is anyone like me before, I sincerely hope you will open your heart, and know that because Heavenly Parent believes in us first, we can take one more step forward, and with this result I will achieve victory in the National Yeongseong Workshop.

Gratitude. Taking this chance to thank my parents and staff members who always encouraged me. TYVM for listening. big applause

International Workshop Trainees

'Way Maker'

7-day Workshop highlight video...

Testimony someone reading on behalf of Kiya dura

Gratitude. Grace of being able to send 12 to Workshop one time and 4 this year. When I attended the Workshop for pregnant sister's Workshop, I was told that it is good to go to the Workshop 4 times. I felt the strong desire to send my 16 age daughter and 14 age son to Workshop, and I asked what to do for this and I was given 'Create the environment' and I felt to send all the students under the CARP guidance for young leaders.

When I said I wanted to send ten from Hawaii and asking for their kind support, and Rev. Yokoi said, 'Aju.' Because I felt that because the people in the TC were aware something of Hawaii, it would work. I reported to the church leader what I had learned especially about Blessing of spirits and to share with members. I visited with them divided by language and age to share with those who were interested.

Their were families who attended by speaker phone and I arranged about ten such meetings, continuing to share my sincerity to encourage participation. I hope even one more person will participate to connect H fortune to Hawaii and suggested we go together and write an offering paper. Especially to middle and high school student better to send a group at once and do the offering papers, also that parents should lead the way, making it possible for ourselves to go.

But until March of this year, there was no movement or sign that anything would happen, and I started to think ten people as a goal was too big. I began to prepare air fare to share with the families, and finally I

pledge for 3 of my children and a guide and more and ultimately 8 people went on the same schedule. Then our church leader also went, and the mothers going one by one matching schedules with the children and one father quitting his job to go with his son, but then his boss granted a leave of absence.

Then the total became 12 in various WSs. The church leader's wife also decided to participate in the summer GWs and the total reached 20. And families with infants are participating in the LV Cheon Shim Won Branch. Good if they all could eventually go to CP, but there was hesitation about that, but starting with a HJ paper and prayers and devotion, this level was reached before we knew it, by such grace of Cheon Shim Won prayer and aligning with H's Will, how the SW cooperates fully. There was a synergistic effect, and the leaders' having the WSs in Honolulu also playing a part.

May we send even one more person to the Workshop, while watching True Mother's current circumstance, and this is just the beginning. I intend to create the environment so that the participation of members can increase in the future. big applause

Japanese Workshop trainees

'Even the Flowers'

Japanese Workshop Team

Testimony

Ayashinorisa

9th Resonance Prayer 3-day Workshop

total 631 attendees

and this year's total 5,492

For this Workshop academy volunteers 5 Japan and 20 Japanese Workshop trainees supported.

I was in charge and Hore Lecturer... We offered calling out prayer for all of the trainees, and in order to pass away negative energy more than 6,000 bowing and HJ papers and most difficult for me was fasting but I offered this devotion. And at the special prayer room we offered prayer. (offering for 631 participants and all our clothes were soaked) And in my head I heard a sound, 'I risked my life to educate 120,000 people. Every moment I risked my life. When True Father was educating members of Japan, He always risked His Life. And that's the Heart I received to offer my devotion.

video of the 9th H Japan resonance prayer...

True Mother: 'I love you. Will you help Me.' Mother has asked this countless times.

'There is not a single day when My Heart is at ease. That is why I must shout at my children. Mother has entered the DC, what are you doing? Even if you get tired, stand up again and offer more devotion. I need your devotion. That is why I cannot help but shout to my children to offer more devotion. If you offer devotion that way, you will experience as never before and even the Satan would be moved to shed tears. Offer going over for perfection.

This time H Japan shared the opening ceremony. Director I Bon eh... Start of our realization to expand the civilization that can attend Heavenly Parent from H Japan. True Mother told us that we must start our realization.

PL: 1,597th toward the 1,600th vigil gave: 631 came this time but there must be churches from which ten or 30 have come. I hope you will prepare a Cheon Shim Won room in your house, and if you have a big house, let it be used and the flame of H Japan be ignited and True Father will work.

1,599th vigil, True Father sent a message from the SW through PL, True Father's Spirit Message:

If you feel tired from offering devotion, rest for a moment, then get up and offer devotion again. If you resonate and become one with Cheon Shim Won devotion, you will be able to experience what you have never before experienced. Your earnest voice will resonate throughout the cosmos and move the SW. I hope this becomes devotion that even moves Satan to tears, devotion that has perfection upon perfection.'

To be honest, when I heard these Words, my heart was frustrated... If you feel hungry when you are doing devotion, you must endure it and continue devotion. True Father said, 'Even if you are hungry, you must offer more devotion.' That's the way I understood it, and I thought, 'Should I do it again. And at that moment, how agonizing. How serious our True Mother's situation is. True Father had to say these Words to convey how agonizing the pain is. I realized I still did not understand True Mother's circumstances and heart and True Father's Heart, and once again I began my devotion and resolved to move forward in a time filled with grace.

I am grateful that True Father gave this Message.

I was in charge of calling out and resonance prayer.

Testimony: How earnest True Mother has been waiting for us to come even one day sooner, and I cried out in my heart, 'I'm truly sorry for making You wait such a long time.'

First gen wife: I realized that I was praying just to fill a quota of daily allotment. I realized that is why there was not fruit and I became exhausted. I want to participate in True Mother's Heart even a little.

2nd gen: Just finished Top Gun mission work. Although shouting HMH in each vigil, this time it was different looking for the Heart of True Mother, H Mother's Heart poured into me, 'Please save my daughter Who was Born on this earth as the OBD.' This time I was able to look at True Mother from the perspective of H Mother. It was truly a grace to come to know this Heart

I have been attending Mother for 40 years, I felt the weight of Her walking this cross. It is almost disrespectful to utter Her Name, due to the situation She is placed in, and how to liberate Her from this cross. With tears that would not stop and a sense of responsibility and feeling so sorry. I was filled with

the desire to take Mother's Place if at all possible, and as a lacking senior member.

another: I felt the frustration of those in the SW who lack a physical body and that we on earth need to make a resolution for the sake of True Mother, becoming one with True Mother. Looking back Heavenly Parent was always with me. Heavenly Parent always suffered along side me and stayed at my side, held my hand and walked together with me. Why did I not know this Heart of saying, 'Mother I will carry You on my back. Mother, I will take Your Hand.' Why did I not realized this before. True Mother Who walks with more risk and dedication imaginable, while I have been given a time of grace. I will become the daughter who can carry True Mother on my back. TY

testimony of lecturer Hada man? Japan, Mother nation. I engraved the Words that we must start world restoration from Japan. I must set that path and restore 1/3 of the world and the responsibility of the Mother nation.

video HJ testimony

'I am Mother's son. Such a shock to realize I was born from True Mother. How much I had been yearning for living this world of Mother's Heart, and my heart offered devotion wanting it to be more than what I had received...

another: I realized it is because True Mother has been wishing for our hearts to be truly awakened and that the true victory of H Japan is to become the nation that saves the world. For the sake of the world, I wanted to return to Japan and uniting with Mother's Heart, save the nation and world to victory.

We had the praise and prayer gathering. When we sang, 'Let Us Go Back to True Parents', tears fell down, confessing everything until now saying, 'I have returned to Your Bosom at last' and this time I could feel the Holy Spirit coming down. The elder pastor of Nagano Church, as shared in the vigil, he said he heard Heavenly Parent's Voice. That's how much Heaven and the Holy Spirit were working during that time...

'Make us in H Japan one with Heavenly Parent and True Parents.'

The devotion behind the singing voice and heart of truly wanting to love us was conveyed and healing with everything washed away, and I felt we too could be reborn and become pure water...

'I felt I couldn't do much of anything and just prayed desiring to resonate with True Mother. I realized that the SW and lecturer's words to pray like a war and realized True Mother is pouring out all Her strength to love Her children, and I prayed to fight and so that I could hardly stand'

Even young 2nd gen, it was difficult for her to stand because all the energy drained out from her body. There were members in 70s and 80s and members who actually went to the hospital too. That's how much energy they poured out in prayer.

Natataki led...

I realized that Heavenly Parent truly wishes for the happiness of children. It is not that I do not love you (that I push you, ask this of you)

reflection: experience that could only be here at Cheon Shim Won and I want to put this into practice at my church.

In H Japan, the dissolution order was issued and there were a lot of members who wanted to continue the one-heart prayer in Japan. Looking at us offering prayer for each other, they resemble True Father and True Mother and tears come. True Parents have been Living in that way. As a community of heart, H Japan can revive and resurrect.

After one-heart prayer not at all strangers but truly close relatives.

The coordinator's impression. It was not me reading with my own strength but the SW and the heart as if I had become True Father.

As we do more and more Workshop, the members are most satisfied in this time, and a lot of grace, and members want to continue in the families.

Pang Sang Il said not to let the grace flow away but to write five things on a paper, and I practiced this

immediately. He said it would be good to pray in the karaoke room or put a bucket over your head and shout (which filled the room with laughter)... Secretary General who knows the situation more than most anyone else. He said to go to the karaoke room and hold the devotion.

When they were directed by Heavenly Parent to go to Japan, they were not allowed to go in and had to go abroad and risked their lives. That's how True Father encouraged members to have great strength. It was like a wave when he was president of H Japan.

I Bon Sok Director joined and shared testimony during the vigil. And learning that the vigil existed and he felt like tricked. It is the key to solve all the problems... Also, all our directors said, 'Let us become one' Through the 3-day Workshop, such a path exists for us to be one with HMM True Mother.

To be honest, during the ceremony when he shared his testimony and shed tears during the 3-day Workshop 'I have always thought the Will shall certainly be accomplished'

During the praise: 'In reality in my heart, asking, 'Isn't it over now. Should I really be here. What will change in 3 days? I took my steps with a heavy heart, despair was piercing my chest, but since my wife and daughter were also participating, I took my steps with a heavy heart. As I went through the various programs, finally, during the resonance prayer time, I heard the Voice of Heavenly Parent for the first time in a long while. MESSAGE:

'It is I who brought you to the path of restoration. Why do you worry? Do we not make a pledge together? That you will end the sorrow of all people. That promise will surely be fulfilled. is possible because it is you. You can surely do it. The 2nd gen were born on the foundation of the 1st gen.

Do not run away from anything. Your existence creates the future. Did I not make a promise with you? I know. I know. I know everything. You have suffered much until now. Did I not promise that I would make everyone happy together with you. I know everything about you.'

I was witnessed to on the street when I was 17. In my innocent youth, I was excited by the Dream of Heavenly Parent and dedicated myself. However, as numerous difficult steps were repeated, I lost my self confidence. And even when things didn't work out well, I protected myself with lies, deceiving myself by saying, 'That can happen.' In doing so, I lost the ideal that I first held and realized that I could not align my heart as one with True Mother.

testimony: Shinhiromi sister said: Everything was filled with grace but PL brought it to its peak. I experienced that True Father is working even as I heard testimony from 2nd and 3rd gen until now. However, this time I spiritually felt True Father and the AGSs pouring down like the starlight upon all the BF's gathered here on the vertical foundation. And I strongly realized that from now on it is the full-scale start of the Heavenly nation.

Currently, Japan is in the midst of great pain and difficulty such as dissolution, but PL said it is instead 'childbirth', with the Providence truly starting from Japan.

big applause for grace of the 1,600th vigil...
July 10 to 17th and 18th 1,700 vigil is added... and afterward the GWs and we will be one and Heaven will work through us...
9th Workshop, all wore the CS robe, and this purple flower will cover all of H Japan and become one with True Mother and rise and be victorious...

Break
Busking

Hoon Dok Hae

Just watch. A leap will certainly take place. We must fight against Satan and win. Those who cannot win cannot return to God. The path that a human being was originally supposed to take was to believe in God and practice and overcome. If that had been done, God's Love would be waiting. God's Blessing would be waiting.

July 20th, 1984 was truly a day I wanted to erase from eternal history. Even in the moment True Father was returning from Danbury, He encouraged you all and infused you with hope. At 10pm on the 20th, I departed from East Garden and accompanied Him to Danbury Prison.

I bit my Lip many times, determined to be strong, but I could not suppress the Tears flowing uncontrollably. Even while getting out of the car, when I saw Him not worrying at all about what was coming but putting all His Energy into comforting Me.

I did not know what to do. Before Father left, He said He was going to liberate even the prison, and He repeatedly told me not to cry for Him, but to pray for the accomplishment of the Will. And today, the 22nd at dawn the Message True Father gave Me to ask of you was: Ask who has received God's Calling. Light a signal fire in the Christianity.

I see this as the final opportunity God has given us. Please achieve everything that has been done so far and everything that is currently directed with all your devotion and active efforts.

God will be moved by your devotion. Satan will raise his hands in surrender, and history will welcome a new era. No matter how much 'han' Father may have, it cannot be compared to God's Han.

He went to prison after promising to give everything. He went to prison under Japanese imperialism.

He went to prison after entering North Korea.

He went to prison after coming to South Korea

and went to prison even after going to the United States.

He acted while even looking forward to going to prison in the Soviet Union and China.

When I saw Unification Church members from around the world coming to Danbury Prison on the days He entered, shedding endless tears, I was dumbfounded. 'You are only looking at the Gates of Danbury Prison. You cannot see the world behind the walls of Danbury. But I see it.' He said this when He went to Danbury Prison. He said, 'The sound of trumpets of liberation can be heard. And the shout of the harvest can be heard. He said to just watch. He said a leap will certainly take place. If a leap does not occur, you must guide and teach, so that a leap can occur.'

HJ praise

Cheonshim Choir

'The Calling'

Pres. Lee Gi-seong's Message

Even if you offer devotion today, you must think consciously with belief that you are standing on the foundation of 1,600th devotion.

There are members in front of the DC. It's been 288 days of True Mother walking the cross. With Cheon Shim Won devotion, True Mother has told us that, with True Father in SW and True Mother in the PW, we as chosen BF's have become one through tears and sweat. Especially with 1,600th devotion, please allow it to lead to the release of True Mother.

In the second half of 2026, I'm certain the miracle will occur and Heavenly Parent's Will can be

accomplished, and we will be victorious.

We cry out for Heavenly Parent and True Mother's Will accomplished and everything aligned.

Throughout the world about 41,200 gathered

I Hun Ju... 1,095 days of Workshop... attending 41 times to fill up these days applause

The brother kept pushing to lose weight and I told him I would change the robe if it becomes too big for him. Because of his prayer and devotion, such result applause

1,400th vigil Sunnam Church and Sanctum and ten core members came and set new resolution

H E Africa and Mozambique,... 555 in Okanawa... Europe, Middle East, Russia and Albania... H USA 1,083rd Special Vigil Devotion and they are attending in connection to the Korea Cheon Shim Won now...

Shimada Ayona... testimony... At first only focusing on making money, but went to WSs, but the problem comes of being in the daily life in the world... She communicated with True Father through His Portrait. Before only through videos, but then able to communicate heartistically, and this is exactly what True Mother wants, being able to actually meet True Parents... not our ancestors unable to meet True Parents, not matter how much True Father used His Office and shouts out to His children. While on earth we must prepare this deep communication relationship.

It's very important to ascend to this position. All the first gen must open a path for your descendants to communicate with True Parents in the SW or else it will be almost impossible for the culture of heart to settle in the PW. From the heart 'I can't' to 'Let's just give it a try.'

We emphasize Cheon Shim Won devotion, but to be honest, there are many who neglect it.

Missionary, after a while, she stopped devotion and then one time Father shouted at her, 'Hey!!!!' and she realized that True Father is looking at someone like her who was lacking. Then another dream True

Mother coming out from the DC, and in the car She was breathing heavily and so difficult physically. And I started having the devotion.

I realized that True Mother is OBD like the Value of Jesus Christ, and I resolved to offer devotion more diligently. Gratitude to Heavenly Parent and True Parents for giving me the very important message.

For those who set the foundation, True Father can come down and say, 'Hey!!!' Without experiencing True Father spiritually, you will not be able to make progress.

We must make such a world where Heavenly Parent and True Parents can work in the world.

video of the WSs, Europe... Moldova is a very difficult country but we receive abundant grace. Hyadore Masai, Japanese member in Hawaii. After Workshop for wives of BF, she realized to make devotions and emphasized liberations and ancestor blessing and held the gatherings to explain that and offered HJ papers, --- and then she could have ten guests... from Hawaii is more difficult... Hawaii pastor and his wife came and offered greetings and I heard them speaking...

'Even the Flowers too' as made by a Japanese, and this is sung in many Christian churches in Korea too.

'As Light arose, whenever we passed through the Valley of Tears, the darkness will pass and the day of laughter will be fulfilled. On that day, Heaven will open, and everyone will be able to witness, finally the flowers will bloom and True Parents will come' (The Christians think that the Glorious Lord will come, but we believe that the True Parents will come) Even flowers, even the wind, even the vast ocean praises True Parents. Just like that praise...

HJ Report: He offered a lot of devotion for the 3-day Workshop. 6,000 bows and 3 Offering papers and morning fasting. He also offered calling out prayer for the 631 participants, his entire body soaked with sweat and True Father's Voice came, 'When I educated the Japanese members, I risked My Life.' And I believe this brother offered devotion in such a way as staff

And our brother Igonori sah, he attended the most vigil devotions, starting from the time we had less than ten people. And he shouted so strongly, I couldn't understand what he was saying. He has reached true

sincerity and earnest, putting all his body and mind. If the perfect is 100, he is rising to 90. As he shouted with such a loud voice, Japanese with their own characteristic, but he didn't sound like Japanese... Also Rev. Yokoi went beyond his own accent and causing brothers and sisters to be moved by his standard, offering prayer and devotion for each WSs.

When you send a person to Workshop, not to just say to go there, but support the Workshop fee and offer devotion. Even if someone doesn't have money, I should send them. By offering ourself, you should reach the position with HM to resonate with that heart. How many would have resonated with Jesus? There was a Judas filled with self desire, and Jesus said he would betray Him, and even the fox has his hole but the Son of man has no place to stay.

You must become the children that can be that Place for Heavenly Parent / True Parents to stay and resonate with True Mother and HyoJN, HeungJN and DMN, and then amazing Blessing will be bestowed upon you. I hope you resonate tonight.

Calling out / Fight Song

Chanting

Prayer and Praise

Now on the 1,600 vigil foundation, please govern us directly and that the work of Cheon Shim Won arise even more powerfully... Please work through us. Please burn the holy flame of Cheon Shim Won and burn away the pride, resentments, judgmentalness based on our own thoughts and emotions, no more blaming our environment, let us stand before Heavenly Parent and True Parents with AFL and O... Please work through us.

Beloved Heavenly Parent, how many tears have You shed to embrace fallen humanity, how long have

You Endured and Waited and Waited, Your Heart Love rather than judgment, enduring rather than giving up and love rather than resentment. Let the remainder of our lives be lives that wipe away Your Tears and comfort the lonely Heart of True Mother

Please work that we live lives of filial children. Please Heaven work through us. Most Honorable Heavenly Parent, we will not offer loyalty or filial piety only in words, but please work that we surely practice to Epic of choseness that Heaven has entrusted to us... Please work through us.

How much suffering and path of tears our H Japan members for the sake of world Providence, offering everything of their own and running with AFAL and O. Please remember them and wipe away their tears, heal their wounds, protect their families and children. Please work so that today's trial is tomorrow's greater Blessing and victory. Please Bless all of us, and all the members throughout the world who need True Mother and offer devotion, please bestow Your boundless Love and grace, making all members completely one with True Mother and True Father and Inheritors, and powerfully open the start of this new 1,601st vigil, blessing all of us, earnestly desiring True Mother's health and swift return
