Song of the Heavenly Soldiers

Bow and Pledge #3 and 4

Opening Prayer of Gratitude

for the grace and love You have Blessed this Cheon Shim Won as a Place where humanity can experience

living with True Parents and communicate with the SW. Thinking today of True Mother in Her 139th day of suffering, we cannot help but repent with tears and cries to True Father here at Cheon Shim Won and offer our devotion with a heart of gratitude and a life and death determination no matter the circumstances that come to us. Please forgive, Mother, our disloyal, lacking and ignorant past.

True Mother has no wrong-doing other than trusting, believing in and loving Her lacking children. Please punish us instead so that True Mother of no wrongdoing can return to the Palace. True Mother Who believes in and loves us even in this moment, we will wash away our stains here and be reborn in a pure state where Heaven can work and we can move forward with Spirit and Truth, resonating with True Father's shimjeong, so that we can no longer be a burden to True Mother and our selfishness no longer be a block.

With new mind after 40 times 40 of devotion of 1,600th Cheon Shim Won, we will continue earnest praying and desiring to offer risking our lives, so that True Mother may be declared innocent and returned to the Palace.

Testimony

I Su Hyon

2nd son of 3 children

was not the owner of my own faith but following my parents, and just enjoyed socializing with the church members, without trying to understand the Shimjeong of HPs or having a faith of my own.

I had a loss in my life and came to 40-day with fear but also crisis that I didn't want to miss this opportunity, and a series of miracles followed. The team leader said although our purposes may be different, the common thread is for True Parents. When I saw the phrase of the lecture about the time not always being there, I made a strong commitment and then I could experience shimjeong, as the Japanese were training and encouraging each other, I felt it was the family Heavenly Parent desires.

Also, the Chanyang was really a time to inherit the true love, and hit strongly to pass the dark spirits, but also wanted to forgive, comfort and save them as children of True Parents. I felt the reality of Heavenly Parent that I only knew before with my head, now with my whole body.

For the first time offering 430 bows, my body was exhausted and then dozed off, and felt the warmth of Someone on my right shoulder. When I opened my eyes and looked back, there was no one there, but I felt it was Heavenly Parent. For me who had been doubting that Heavenly Parent was with me, I could

believe that Heavenly Parent was always with me, accompanying and comforting and suffering with me.

Performing the praise chanyang, I felt the connection of the responsibility with True Mother and tears for True Mother's 1,095 days of devotion and traveling between continents at Her advanced age. Singing 'Way Maker' and 'Our Promise' about Mother's Promise, I bowed in regret for the self-centered complaints in my daily life.

But the Cheon Shim Won special vigil 1,600th session felt so significant being 40 # of foundation of restoration casting out darkness and beginning from Mother's 4PF... and wanted to sing while putting shimjeong into the lyrics and my self-consciousness disappeared and I could express my surging emotion, 'Aboji' particularly by singing the 'Way Maker' feeling Heavenly Parent and True Parents beside us opening the way, and my heart was filled deeply, but at the same time True Mother shedding tears and those sworn to go with Her, leaving.

With all my earnestness, I hoped it would reach members and the throne of Heaven, and let me be the embodiment of True Parents and spread true love. I bought energy drinks and sharing them, and seeing them happy, I felt if only a little how Heavenly Parent wants to give love.

To my future Blessing partner, I vow to keep her precious, and know it is for a time to offer oneself, I will live according to the Principle of Creation in this GA when True Mother is here on earth, I will be unashamed before Her to receive the Blessing. Before coming to this Workshop, I had not offered devotion even once, but seeing those around me offer up to 1,013 and if I am with such people, I can surely be victorious.

So, I too will join as a proud, direct child of True Parents holding True Mother's Hand tightly, even if the road is thorny and be victorious, not just a faith of following but live my whole life serving Heavenly Parent and True Parents... TY

Workshop trainee

Testimony

gratitude

3rd son of 4 siblings

Until last year I lived at the church negatively and would argue when the subject came up, thinking it was only obligation, but seeing my older sister and mother living happy lives through the Blessing, I began to change, and this year I received 3 WSs and now another. Through the spirituality Workshop, I could feel if only a little, the Shimjeong of True Mother and toward practice of faith in my life

It seems Heaven does not work if practice does not follow. After the Workshop began, the coordinators often asked what I thought attendance was and I would give a sheepish smile being still in the process of finding out. I tried to find out by constantly asking Heavenly Parent and asking my mother and sharing a conversation, realizing she lived attending 4 siblings with love, and I had taken that for granted. Every moment of my parents' life was moshim and I felt it was with my body when doing the tasks in the WSs.

In particular the Moshim Workshop held a praise session and prayer meeting for the Japanese members, and I sang praise with all my heart as if every moment was my last and looked at the gestures and tears of the members, hitting their chests and crying out 'Aboji,' 'Omoni' and I thought, this too, is a practice of

attendance, and if the members receive comfort and strength during devotions, that too can be attending.

I understood a little the words of HyoJN that through Hyo Culture and art is also attendance. I walked along Mother's Path accompanying an elder the age of True Mother himself, as he walked slowly apologizing to me, and continually checked if he had any discomfort in the narrow places, without letting my guard down for a single moment, but then regretting why I could not attend my grandmother like that and family members closest to me.

When I thought of my own shortcomings, I felt gratitude and happiness, and saw that moshim does not have to be something grand but thinking of the other to make happy even in the smallest of things, how to properly attend Heavenly Parent and True Parents of HEH. I repented for not properly attending my father who is closest to me and looking at his shortcomings. I hid when he came home and was critical of him, thinking that he made it difficult for my family. But now I see how he works early to late and almost no time to share with him, and perhaps he wanted to share many stories but because we seemed uncomfortable with him, he was unable to share his heart.

Even now a discomfort remains with my father. I was thinking that the family's hardships were because of him, but now I see it is within me. Instead of changing myself first, I was waiting for my father to change. For me, the Workshop let me look back and renew how to move forward again, seeing my father's sacrifice and live filial piety, doing my best for the remaining time of the Workshop.

I will attend True Mother in this Golden Era when we only can. I will attend the members, containing Mother's Shimjeong to restore them. TY

HJ Report

content of the 8th 40-day Moshim Workshop

After True Father's Seonghwa, Mother said to advance toward the early church overflowing with truth and love...

Their Thoughts the same, with One Heart, One Body and One Harmony toward the early church. And True Father gave more than 100% agreement at this time of new start in the SW, directly calling us to walk the path of life-or-death determination and pouring out all our efforts.

True Mother consistently gave us the Words to advance toward Spirit and Truth.

True Mother said She will complete the Providence within Her Life, and when asked what the method is, She pointed to the early church overflowing with Spirit and Truth and Love where the tears well up and flowed. She saw that if such a church became a tribe and people and nation, we could advance the Heaven Realm on earth.. and we strive through the practice of moshim to do this, out from realm of just faith to practice and experience realm, teaching and practicing the Principles, through study and volunteer activities, we had time to feel even in a small way, what kind of church the early church where shimjeong was.

video of early church

'getting rid of my self-centered thoughts'

At opening, PL said, this Providence is one of enduring for a long time, remembering how difficult to get even ten people to come consistently. The most people knew the taste of the grace now. If our Moshim trainees learn and spread this moshim power, great results as never before can come, adding our 5% Heaven can multiply the Blessings for qualitative change. And we gather our devotion externally and internally.

True Father: Most important is how to return to the Spirit of the early days, without stopping disseminating the Principle to the people and lead them to the Blessing, a lively, breathing and living church.

The 27th day after His Seonghwa, F gave these Words. And Mother, even before Her Sorrow was at all abated, continued to take on this path.

This time is very important because we young 2nd and 3rd gen lack a sense of bond without having actually been with True Parents, so reading and hearing the testimonies, we can start to fathom Their Lives, walking together from a human perspective.

President Osami Kaboki who chose the will over his own success and walked the path of humanity while attending True Father.

The story of Mrs. Nang oon Yong who composed the Pledge while holding onto shimjeong with all kinds of persecution and hardship.

Pastor I Yu Wong, who paved the way True Father had walked from the position of John the Baptist

Pres. Bo Hi Pak who laid a global foundation as a profound Korean and Unification Church Church member

In this way we understand the situation of that time and experience the shimjeong by reading the autobiographies of early members, and spending time with conversations with the goal of inheriting the faith of senior members we researched and writing papers.

testimony: While researching the life of Rev. Koboki, although he went through hardships like us, he

always trusted Heaven and hung on to his mission. Becoming one with True Parents is the path to saving Japan and the world stayed with me and like Osami Koboki, I want to be a child that always strives to be one with True Parents unshakeable regardless of the environment.

True Mother: The Unification Church originally started with Spirit and Truth and became a church overflowing with Love, and members wanted to stay up all night with True Parents and do whatever True Parents wished without anyone forcing them, overflowing with true love. Likewise, today we must be reborn through the Word and be families and nations that can spread true love.

They made all their life for this in every way. Now we are offering total investment to plant deep roots of that shimjeong with the best of our ability with heartfelt shimjeong and moshim.

We had intensive prayer every evening solely for Mother's Return, and gathered in the special prayer room, calling it the 7-day devotion, no ordered by anyone, but by the moshim attendants, even when sleep is tight, we gathered with an earnest shimjeong until 3am.

video

We will take the lead as a pioneer, becoming the children who attend absolutely our True Mother

applause for Moshim attendees

testimony... qualitative change while offering devotion. After my father had heart attack and passed, and my mother had to take care of 5 siblings, but she did not let go of her faith, but after Cheon Shim Won devotion, she often headed straight to the church without missing a single day. At first, I didn't understand. When I asked why, my mother replied, 'For our family.' And then I began to attend vigil devotion, but I did not grow immediately. It was still a dependent faith without my own real conviction why.

During the Moshim lecture and the testimonies of the senior members, I realized how important it was to practice True Parents's Words in our lives. When True Mother followed the Voice of Her Heart more than Her Body. And as I led various volunteer activities, I became as was unimaginable from before.

With a bad cold/flu, it felt my body was collapsing, but I did not want to give up devotion. Even my legs were trembling but I thought True Mother's Body must have been far more difficult that this and I shed many tears, and thought of my own mother not giving up solely for her family, and that moved me to meet True Parents again with the path my mother walked first. I will not have a dependent faith any more.

That we grow into a wider world, I intend to take on mission activities and convey this grace and love to the world. applause

At the Parents' Day, PL said more than giving a carnation is becoming a true son or daughter.... The rebirth as an independent person of faith, planting the shimjeong more deeply and finding the new 'I' with that.

testimony Una Kato video of devotion... There was no day her voice was not heard crying out... She lived a life far from the church while being stalked... While receiving the regular 40-day, she eventually came to the academy with 40 days of devotion. Before coming, felt faith lacking and struggling with loneliness, but realized we can practice AFAL and AO because True Parents have Love us that way.

The more exhausted my body was, the more I could feel the shimjeong and even wanting to give up, I could not. Doing nothing for True Mother would be my greatest regret. Living with a heart of compressing the 6,000 years Providence, I want to return to zero every day and return to True Parents. Thinking I want to win against yesterday's self, all my devotion was toward Mother, even in the bathroom thinking of Mother.

I set a goal for 130 bows and 700 /130,000 calling out prayers every morning 530 bows starting at 5am. Through this, I made dedication to only True Mother and returning to Japan, I want to become an actress of that dedication, as a servant of servant with that shimjeong.

True Parents's Word: I said that the light must not go out for 24 hours, offering devotions so that not only members but anyone who sees that light will feel that devotion and want to go there. I said to let us advance toward Spirit and Truth, but how much have you loved?

The Words of the Special Assembly for Cheon Il Guk Leaders: The moshim attendees are always thirsty

for attendance service for the greater purpose, even if devotions mean staying up all night.

There were so many things needing to be cleaned up. The lake was full of water plants and indoor cleaning... They came and invested... I saw them thinking about how they could do better and with the moshim of missing True Father.

In the end, they were able to finish the work that seemed impossible. One testimony... Beautiful landscape, and it felt as though True Father was sitting there. There were many insects and sweltering weather, but I hoped everyone visiting this place could receive healing, and feeling every small living thing was all happiness Heavenly Parent wanted to give to humans, and experiencing being completely wrapped in true love.

I only heard the word before 'Cheonyujong' but seeing it, I could feel True Father having been there and it had been neglected, and I really wanted to clean it up... Seeing the vast lake, I could feel how much True Father must have loved this place and the fishing.

I wanted True Father to feel joy by organizing it again and members to feel grace, so I served with a joyful heart, even while cleaning the many bugs on the windows looking through to the outside scenery and hearing the sound of the fish, thinking they were welcoming us.

They serve while longing for True Father, and invest to inherit the shimjeong of HyoJN and offering devotion for the release of True Mother, with moshim, resonance naturally occurs.

Our trainees in the one-heart resonance prayer and Cheon Shim Won... testimony There was a moment I could feel the moshim through art and music more strongly, a precious time with brothers and sister meditating on the praise and feeling HyoJN with us gathered there. After that praise continued like a storm that didn't know how to stop. And member so much older than us, showed passion more than the young, and I felt that age didn't matter, but music can make us feel the SW, and Mother's Shimjeong became deep in my heart.

I was able to find what moshim means to me. It is to show the love of True Parents to the world.

another... Looking at the life of HyoJN, although I offered bows as staff, I tried not to do it, and then was finishing after only 120 bows and I heard the Voice to do more and then ten more only, and then I heard HyoJN saying, 'not just a limit, but always wanting to do one more and break through the limit'

True Mother: You must liberate your ancestors and give them the Blessing. I do not know how deeply you are experiencing the spirit world, but miracles and astonishing works are happening. In this way, I have given you every way, pushing both spiritually and physically.

How much of this Word of Life lives and breathes in you for the sake of your descendants.

another Kim Won U... Was dominated by dark spirits, taking an hour to move from the main hall to Cheon Shim Won. When he was young, he liked running and playing in the mountains, but came to live only inside with great spiritual trial. A spiritual existence began to enter and torment me. Whenever, I tried to do any actions, it would rush in that I could not do anything, even sometimes eating, having to stay in the same spot.

In the end, I reached a state unable to speak and making strange gestures and screaming. But True Parents came with endless love and my physical parents with devotion 24 hours a day. I made a resolution to risk my life to overcome the problem, increasing my steps day by day and recovering enough to be able to ride the subway alone, and I received a total of Workshop of 18 up until now.

Thanks to my parents utmost devotion and liberation and offering deep love, I will contribute to the Providence of Cheon Shim Won. TY

He is currently in the Academy education part.

True Mother: a weeping church where the sound of devotion does not cease, bound to comfort Heaven. The early church could show healing and spiritual revelations and dreams (even as are now occurring at this Cheon Shim Won).

Although still lacking, we have become a community of members with Holy Spirit spreading like wildfire, and already 68 trainees are receiving Workshop in Russia, Albania 56 people in Cameroon.

When we see this, we can see Heaven is with us, True Father and SW are working... I believe this will grow like wildfire and in the end gather even more devotion for True Mother's health.

By next Wednesday, in the vacation season, the 9th Workshop will conclude and the 10th begin...

We have started using the Place where DMN offered devotion, and I have no doubt there will be even greater gifts from Heaven and experience the early church. TY

Break

Busking HyoJN

Hoon Dok Hae

Through the Works of the OBD and the Substantial Holy Spirit, I began to experience what allowed me to know God from a humble position. From childhood the young age of 16, I began to agonize over basic questions of life, such as 'Who am I? Where did I come from? What is the purpose of life? Does life continue after we die? Is God omnipotent or powerless? If God is omnipotent, why does God not solve the problems of the human world? Why does such immense suffering exist on this earth?

For 9 years after that, I always lived with the omnipotent thought in Jesus. Many times I entered the SW, amazingly God taught me astonishing truths. It was as if a long dark night had passed and the morning sun was rising. Within that truth I could see the dawn of a glorious culture.

I Myself also bumped into the walls where the path I walked was pitch black. You would not know that the Voice saying, 'God is not dead,' still remains in the marrow of My Bones. Whenever that happens, I've

never forgotten the sorrowful circumstances of God Who called Me.

I cannot forget the Words that God Commanded Me, 'You must know only Me, and you must never forget Me.' The more I feel that I am pitiful, the more I feel that God is so much more pitiable than I am. You must be able to experience inner pain in our heart, the Shimjeong of God, Endured until now with the resentment of history.

Therefore, we must become sons and daughters who can comfort God, saying, 'Have I have not become the most filial among the sons and daughters, who know Father's Heart more than anyone in history?' and become sons and daughters who can offer everything. I have fought for that purpose.

With the earnest desire of true families who should live in the environment of True Parents more than anyone else, may become healthy families of filial sons and daughter, Heaven has permitted this with the works of the Holy Spirit centering on Hyo Jeong. Welcoming such a new era and history, through the Foundation Day, this CP is moving, through the Works of the OBD, the SHS.

Because the world and the environment is still in the fallen realm, you must frequently visit this Place and make your minds and bodies health. I hope you will be thankful for the existence of this CP, and become people who visit this Place often.

Pres. Lee Gi-seong's Message

Today 41,200 members gathered

Providential leaders are here with unchanging heart...

777th Cheon Shim Won

H Japan gave report that they will expand the venue

14,600 Places

Albania 84 and 40-day devotion

Mozambique 40-day Workshop

H America is joining daily

This Main Branch is resembling the Heart of Heavenly Parent and True Parents... Womb of True Mother and Office of True Father... Please believe this grace can be resonated. Please make a time for this.

At the DC 289th Day of True Mother's Detention and with fasting in the humid and hot weather in front of the DC, they are joined with Cheon Shim Won devotion as we face the last public trial.

When we look at True Mother's Holy Life and endurance through this detention, all of the Light cannot be hidden... With absolute devotion and heart of our members, we are in earnest for the result...

24 are at the Epic education Workshop

We pray for JARDIM and the Academy there

testimony: not individual faith but dependent faith... With the devotion of his mother, he was able to resonate deeply... and feel substantial embodiment of the Love of True Parents... For those offering training for a long time, they have that kind of experience a lot... Listening to Hoon Dok Hae and lectures and testimonies... He had substantial change. Now he cannot help but shout 'Aboji' with a loud voice. 'feeling' Heavenly Parent next to us and the Way Maker Who opens the path...

Through the 1,600th vigil really feeling these are the people of sincere devotion that the victory can come through with them together... He will become the embodiment of the Word with ownership until the end.

today, the performance

And the moshim Workshop trainee is becoming a great person even from rejecting the church before not able to talk about it without argument with his parents...

His mother was the one attending moshim the most... with the heart of a parent and body of a servant, shedding tears for the earth and blood for Heaven... becoming the staff and leading the praise/prayer gathering, he felt to attend the trainees well. He was able to see the tears from Heaven... Also, attending an elder of True Mother's same age, he thought also of his own family, his grandmother, and also thinking of his father, changing his perspective that his father was actually attending his children, going early in the morning until late at night and without his children even welcoming him home. The mother should attend that father, and tell the children they are eating meals because of the father's hard work. But there are a lot of mothers who resent the fathers who do not attend the church service, and children also blame the father for any misfortune of their own and their mother. The father is the most unfortune in the household.

PL says his own father didn't have land and how difficult to earn his money. He did everything to earn the money, taking the cows a long distance to sell them, as a farmer borrowing others' land to be a farmer. The love of his father to want him to be educated. The love of the father is even greater because of the misfortune. Think how the father is attending the children this way. There are fathers here, and I truly believe this is a time they will shed tears. And through this Workshop, he was able to dedicate filial love to his father and to True Parents.

When he goes back to his church, he can find the dormant members with a heart of True Mother. He gave

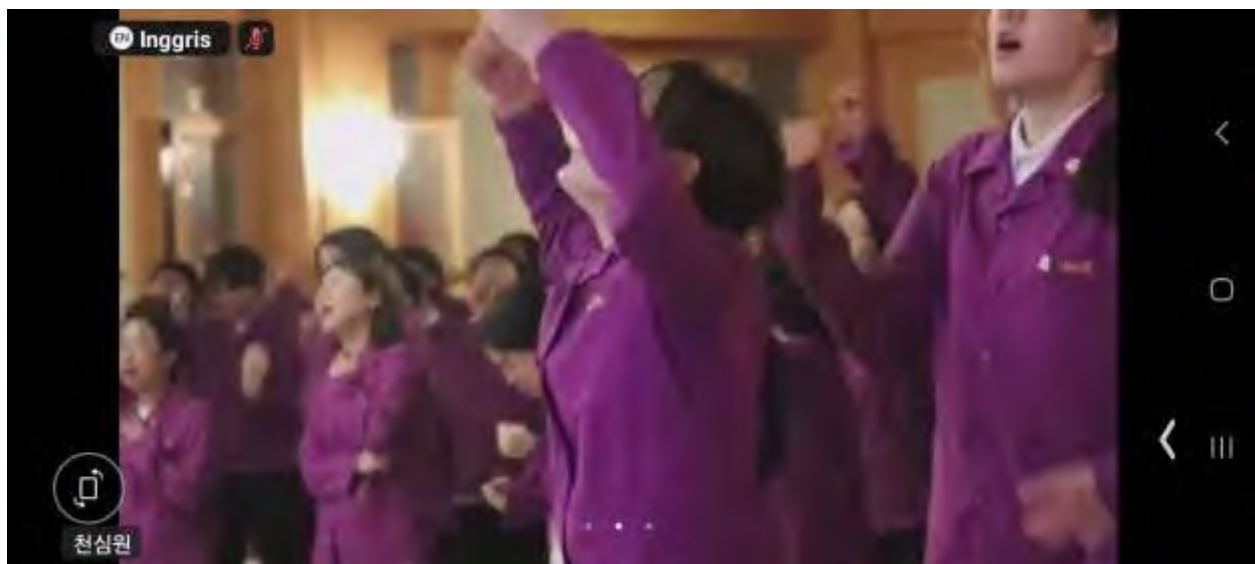

us his promise. It is an amazing grace for the parents and the church.

The report of the Moshim Workshop was so moving... where we substantially attend the Parents through the Entrance of the Cheonwon Gung Cheon il Sanctum. There were so many bugs and we couldn't really do the cleaning and we needed to mobilize the attendees of the Workshop, but they had the amazing grace. The reason we live a life of faith is to become a divine spirit through attendance of True Parents. Then our parents and children can become the protagonists of a bigger love and bigger cosmos... and we are preparing with this heart.

There was the important motive to substantially attend the Creator Heavenly Parent in this time of Cheon Il Guk. That is how important this Workshop is. And we see them change qualitatively, able to deeply root their faith. Even more than experiencing the shimjeong, seeing visions and having the deep spiritual experiences, able to be in the deep realm.

Testimony: I think about the mothers, 51 of them gathering every day because of the mother of five children. She goes to the church right after Cheon Shim Won. And this sister who wants to be an actress is offering 7,000 calling out and bows 530 times every day. Because we have this kind of people, we believe Heavenly Parent's Dream will be fulfilled.

In H Japan, our member gave reflection: On March 4th, after the dissolution, the church pastor has ended the vigil devotion. However, our PL said we could count the devotions in our family. Because we attended renting a karaoke, we can say not only bad things, but good things happened. A 2nd gen was saying she was pregnant and she was pressured by the baby and had cardiac arrest and was sent to the hospital, and the baby was delivered healthy, but she had to have a heart implant. It wasn't a situation where we could shout victory... She was barely holding onto life, and we did not know... But through the 550th devotion, the 3rd gen baby was shown and we witnessed the ICU moved and she didn't need to implant the heart and was moved to a general hospital... applause for this miracle

At the end of March, she could go out from the hospital and living with such a joyful family... If we gather our devotion, how great. So grateful to Heavenly Parent for saving our 2nd and 3rd gen.

For 30 years this church did no wrongdoing, but the land owner wanted us to return and we will do a new contract with the owner and have a church again. If we pray with one heart, those prayers will move

Heaven...

Let's pray like that and praise with such conviction to see individual and community miracles. Let us deeply and sincerely attend HMH True Mother and see this very night the great works. Let us march forward without ceasing. Even if you started late, you will understand it is not easy. For me, after going such a difficult path that I couldn't say all the details, but what would have happened if I ceased? We should see a lot of people giving up, but see more devotion today than yesterday.

If you know True Father, and HyoJN and the AGSs shouting and crying and begging to us, you could not but go forward more and multiply.

More than 3,500 people gathered at 1,600th Cheon Shim Won and all the Japanese missionaries should come here and sing the Song of the Boat, and how great to resolve ourselves together with True Father, not a Place where we just come and go, but absolutely fulfill the Will. How many just came and went. Let us 'feel' Heavenly Parent working. Let us be rock solid in our faith.

Calling out / Fight Song

Chanting

Prayer and Praise

We offer sincere gratitude, centering on the Main Cheon Shim Won to offer devotion for the complete and innocent call for release of our HMH True Mother... voices reaching out, cries mingled with the scorching, early summer and looking upon the surface of Cheon Shim Won Lake that is changing from moment to moment, we offer the moments of our tower of 1,602 devotion. We welcome fulsa(?)...i da jajat-ta, the full-fledged summer has come, and even the sounds of the Acadia seem like cries for the return of HMH, Her Body worth more than a thousand ages of... When I think for a moment of True Mother's... situation... I'm so filled with regret, unable to lift my head.

Most precious Heavenly Parent, on this occasion, coming to us are the tears of True Father's painful shimjeong. We remember His earnest cry, 'Hey, so and so, in this time when Mother is in the DC, what are you doing. Even you are tired almost to fall, do not retreat. True Father shakes and wakes our souls with mournful, desperate Voice of appealing, 'Please wake up and help True Mother with devotion' is echoing into our hearts in this dark night...

Most precious Heavenly Parent of great Love, we will not stop. The trainees and Cheon Shim Won will unite and the cry in our heart of True Father, even we are tired and hungry and even if we fall, we will stand up again and advance never losing our earnestness to True Mother, so please work through us. The Inheritors of True Parents's Love and Blessing and 4PF True Father and all of us never a moment apart from Heavenly Parent and True Parents. So that our community may hold even more hope, let us overcome for True Mother's victory to be seen.

Heavenly Parent, please bestow Your great Blessings and love upon all the trainees, as well as all around the world offering devotion together for HMM's health and return
