Testimony

We sincerely TY for allowing this 1,603rd Cheon Shim Won at this hour, offering all b and s to offer devotion with one heart and mind. Today is the 290th day of True Mother's path of the cross of suffering. How sorrowful must the Heart of Heavenly Parent be as Heavenly Parent watches that appearance, although it is Heavenly Parent's Desire to Embrace and Protect and Embrace True Mother at this very moment. Please guide us so that we may feel and resonate with the agonizing Heart Who cannot freely love True Mother because of the Way of the Providence for us.

Please allow our hot tears and earnest hearts to become a comfort and a strength to True Mother. We earnestly pray and desire that You work so that the Promise True Mother made to leave no further history of indemnity for future generations may be fulfilled during our lifetimes and actions.

We will never be shaken by any accusation or dark attack of trial. We will attend Heavenly Parent at the Center and become one with the Subjective Heavenly world, and become proud Blessed Families who manifest the Authority of Heaven. We will become filial sons and daughters to stand in the Place of True Parents's Heart and not retreat in any environment, but fulfill our responsibilities to the end. So, please grant us the strength and courage and wisdom at this hour, so that we will attend True Mother to the end and surely be victorious during this time, when True Mother is still Physically Alive on earth with us.

We pray that You collect the prayer of members from around the world at this vigil devotion, which continues at this 1,603rd Cheon Shim Won after Mother's Declaration of this Gift, and we earnestly pray for Mother's swift return to Cheonjeong Gung.

Testimony  
Academy Workshop trainee  
An Se Ni  
gratitude  
eldest son of 1 son and 1 daughter

Speaking about how I resolved to go on a H America mission and what I learned during this period.

As I grew in childhood, my legs became crooked, and I've undergone several surgeries. I resented Heavenly Parent, asking why I was not born healthy like others.

Although my parents led lives of faith more diligently than anyone else, every time my resentment preceded gratitude toward Heavenly Parent, and I began to make excuses, repeatedly leaving and returning, amid temptations and choices I should not have made, and the more guilt and depression came to me.

During the Workshop, I returned to the church and took on the role of youth department leader, but as time passed, I saw myself pulled to return to my old days. At that time, my parents recommended Yeongseong Workshop, saying it was my last chance before graduation. At first I refused but two weeks before, my heart was moved to go (I believe, looking back, it was because of my parents' countless love and devotion).

At the Workshop, I prayed and repented, wanting to now return the love I had received. The moment I watched the video about H USA mission, my heart became hot to go on a mission and be a source of strength for Heavenly Parent and True Parents. However, because of practical problems and my past self, I could not so easily follow through with that desire.

I attended vigil, thinking that, if there were no answer after today, I would give up. While praying and during the Chanyang, my parents' words came again that this might be the last opportunity, I filled out the application on the spot.

However, there came news of my father struggling. He had once collapsed due to sudden chest pains. I was shocked to see my father, who had always been so strong and healthy, being carried away in an ambulance.

My father lost his parents when he was young and lived in someone else's house as a labor. He lived his whole life without receiving the love of a parent, and then he was witnessed to, and he encountered my mother and received the Blessing.

Since I was born, he has lived his life sacrificing himself for my illness and surgeries, working without rest to pay the expense. (tearful) When I look at my father who lived such suffering and sacrifice, lying in the Intensive Care bed, my heart collapsed. I have not been able to do anything for him, or repay the love he gave. If I just live with unfilial piety, I had to cry from those thoughts. And during the mission, when those thoughts surfaced, my heart fell apart.

After learning of the han of Heavenly Parent, I had never once prayed for myself. I headed to the Cheon Shim Won when no one was around. On that day, I laid everything down and prayed. (tears) Just this once, I want to pray for myself, for my father, pouring out everything I had kept inside my heart for 2 hours as if telling my innermost heart to my parents. I felt the heart that had been weighing me down begin to lighten little by little. My burning heart calmed down. Above all, that time was so warm and happy, a time of feeling held in the embrace of my Parent.

The next day, I heard that my father had regained his strength. Through that time, I was able to understand why Cheon Shim Won is called 'Mother's Womb.' When I prayed, I felt Heavenly Parent and True Parents listening. I was impressed with how important it is to build devotion with the mission from the first to the last moment. Our team set condition of devotion, even though, never having offered devotion before in my life, I had doubts about whether I could be accepted or meaningless. However, our team was able to find six spiritual children of faith. applause

I felt that the devotion will eventually bring result if it is fulfilled, and I felt hope for Mother's return, even still lacking and falling down many times, I will continue to move forward without stopping.

Thinking of Heavenly Parent and True Mother going through the most difficult time of all, I will go forward and cast off my fallen nature with devotion to True Mother. I thank the academy and my church and above all Heavenly Parent and True Parents of infinite love.

Testimony

(interpreted)

Malaysia brother

gratitude

Lin Way Chin, 27 years old 1st gen from Malaysia with the Yeongseong Workshop and resonance prayer changing my life.

In 2018, when I was 19, I joined the church through the witnessing of my spiritual mother. I had always asked myself what the purpose of my life were and where are human going.

I worked along side the chief minister in Malaysia. Politics was a dream I cultivated with immense time

and dedication, a dream of discovering my life's calling through that path to serve humanity.

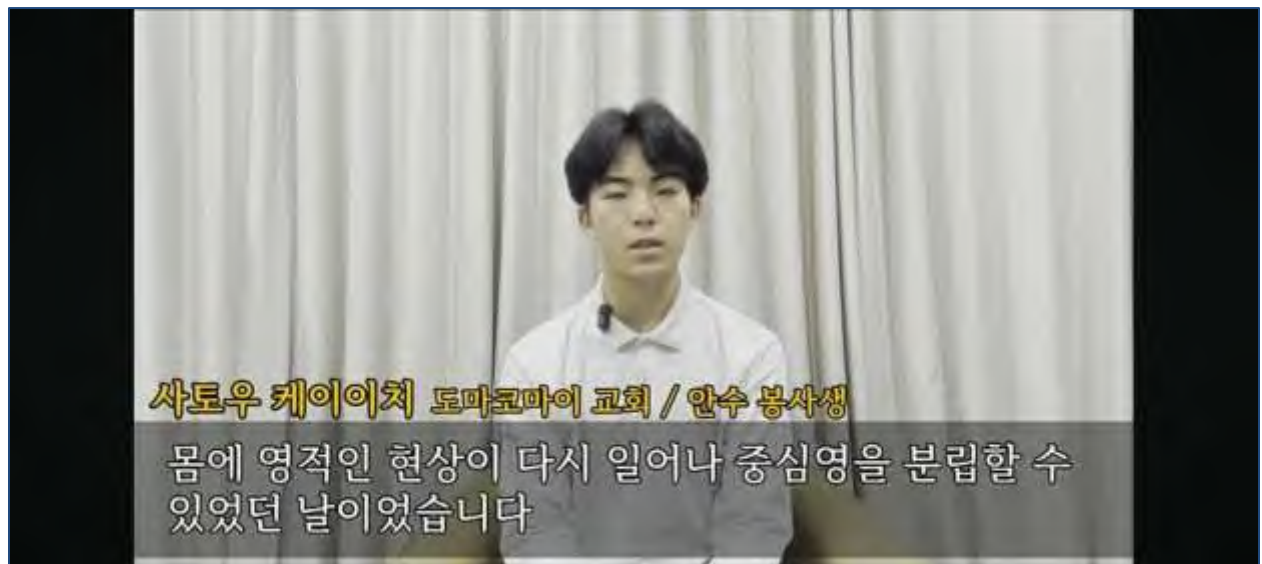

But in 2025, I experienced deep betrayal from a friend a trusted most, and felt constantly watched and scrutinized with anything I said becoming ammunition for attacks. I felt exhausted with tension. I had been cheerful and trusting of people before, but now I was quiet and difficult to engage with anyone, building a wall, and only trusting my parents. I was weak but forced myself as a leader to appear strong.

My Abel who knew my situation encouraged me to attend Cheon Shim Won, and when I did, tears flowed endlessly. I had a lot of blame and resentment to Heavenly Parent, so I didn't even want to offer prayer myself, so the only method was prayer at Cheon Shim Won. All the pain, resentment and fatigue, I started pouring it out.

One night I hid in my room and cried and with broken heart, I cried out to Heavenly Parent to save me. At that moment, Heavenly Parent, it felt like the response, raising me with love and new life. I was able to feel that, and how much Heavenly Parent and True Parents cared for me, and from that moment I could feel hope.

I did not doubt or feel abandoned from then. Who was right or wrong no longer mattered, only doing good, speaking good words with a good heart, governing my own inner life. When our hearts become small, even small problems seem big, but when our heart become big, even big problems seem small.

After that season ended, I resigned from my job and offered my beloved political career to Heavenly Parent, resigning from all positions, entrusting all into Heavenly Parent's hands. For me it felt like Abraham offering his beloved son, Isaac. But I realized that I could not just believe in Heavenly Parent when things were going well, but surrender when it was hardest to let go.

I moved into the Church as a volunteer. I was not trying to escape the outside world. I knew I needed to face my own heart honestly and rediscover Heavenly Parent's purpose for my life. I also shaved my head as a sign I was leaving my old life behind.

I attend Yeongseong Workshop hoping for restoration. Through prayer and spiritual training and companionship of brothers and sisters, my heart opened, and I found deep healing.

I have been serving in the Church and the Movement for more than 1 year. Looking back, I do not regret the decisions I made. Heavenly Parent patiently guided me, helping me rise again from brokenness. And now before returning to my professional career, I chose to come and offer a little hope to participants, because I too was in need of hope and healing.

Before coming here I submitted my Blessing application, but first I must fulfill the first Blessing of becoming mature and someone who can fulfill responsibility. I hope for my Blessing centered upon Heavenly Parent and True Parents. If Heavenly Parent allows, I hope to be the first politician in Malaysia with a Unification Church background, not for power, but to bring society back to peace and love. I want to allow Heavenly Parent to use my life, whatever he asked me to do and carry.

Finally, I would like to thank Heavenly Parent and True Parents for guiding me here and for my b and s who walked with me and everyone who prayed and believed in me, and I hope like the Monarch Butterfly I can continue to walk the path Heavenly Parent prepared with faith, love and sense of mission.

HJ Report

Kim Myung Wok

Hyo Jeong Workshop and miracle grace of Cheonshim

True Father said about the spirits attached to our bodies... How can we liberate them? send them to the TC in the SW to become AGSs, and we experience that in this TC. True Mother said there are a lot of problems in our Blessed Families, and you must have dominion over the SW so that only then we can bring the Heaven realm on earth and in Heaven.

testimony of gratitude of the relief of pain the used to make me scream... I never even saw True Mother, but on the day of ansu, Mother said, 'You have so much crying in your heart. Go ahead and cry until your heart's content.' (She is so moved and grateful) (She attended our church for a long time. And she attended the Ambassador very well. And she had Heavenly guidance to go to Cheon Shim Won vigil.)

---

True Father's Words 'Collection of True Parents's Words... Today mental problems and nervousness are approaching.

testimony... big change from various ailments... Mother is healed also, so happy for her son's healing... almost no sickness now, even catching a cold that turned to bronchitis, and an urge to self harm, but I can stop myself right away now, and encourage myself and do bowing and go outside and listening to CY and drinking enough water every day. The Center Director asked me if I think there is someone who has deep resentment. I remember a car accident of my grandfather and I. I will keep in my heart the words I can do it.

The mother came to cure her son's illness, even I was grateful to see him endure... My younger sister was in Korea and grateful for her support and all at the Family Counseling Center.

When people come for the first time for counseling, they usually come with a long face, especially like this brother, but as the son got better, the mother got better, and I felt how much mother's are connected to their mother's heart. This young man focused on everything to do diligently. I told him to go to holy ground, and I told him to shout these words, 'I am not nervous. I can do it.' With earnest desire for our Mother, they were healed and went back to Japan.

True Father: What is called the fall is losing all things and after that losing all people. It is losing myself.

Where does that come from, when you are sad and lose yourself and give up on yourself. It is because of a lack of heart, a lack of emotion. Isn't that so.

When you look at the youth problem of these days, they arise from being neglected by parents. Because such environments have been accumulated, the problem of not trusting parents has arisen as a global problem. Looking at it this way, it is an emotional factor. It is because of emotion that all problems come and people collapse, so I hope that parents look at the emotional aspects of your children.

All the agonizing pain, all the concerns carry how we are neglected. Another brother came for Workshop and diligently offered devotion, and I suggested that he stay and learn about ansu. That is because his younger siblings are in a difficult state. This brother also had depression and pain because of the neglect from his parents. His mother was concerned that he might not be able to live properly and sent him to the Workshop.

He felt a desire to liberate the spirits in him, and he received special counseling. It was the day that he separated the spirits that a phenomena occurred and began the devotion conditions suggested by Kim myung wok, 120 bows, 40 minutes of Hoon Dok Hae, climbing to the Blessing Tree, walking Mother's Path, drinking enough water, attending Cheon Shim Won vigil and both morning and evening CY sessions. And I am now an ansu volunteer serving diligently.

Before attending prayer, I had an opportunity to talk to my mother on the phone and share various things of my heart. I had anxiety disorder and had been shut away after quitting my job. My mother saw a video from Cheon Shim Won with Kim myung wok working with members... My mother gained the believe that I could definitely be cured, receiving great courage and hope through that video.

I learned for the first time that my mother has been earnestly offering devotion for me without change. I realized that being cured and living like a normal person now has not been and is never by my own strength alone, but because of the heart and devotion on my behalf. Now I want to live for the sake of those people, and I will resolve not to live in vein, but in filial piety for those who loved me.

He thought it would be too difficult, but by trying to share love to the members, he realized he was receiving love from the members. How happy would the parents be to see their son brighter.

True Parents's Words: Right now in Japan, bullying is a big issue. If you think True Father, Unification Church and Japan have no relationship at all, that is a big miscalculation. Anyone who goes against Heavenly fortune is destined to perish. It is a big mistake for them to think they can rule the world as an ideal nation. There is no such thing. If you do not center upon Heavenly Parent, you cannot win no matter what you do. Anyone who goes against Heavenly Parent and H fortune will perish. No matter how much opposition you receive, when you are living for the sake of Heavenly Parent's Will, you yourself will win.

That is why True Father has proclaimed True Parents and the Completed Testament Age. Is this the first time you are hearing this? It is your responsibility to educate people who do not know. Right now there are people in Japan who are doing the bullying culture, and this is very serious. There is one 2nd gen who wanders around not knowing where to go, and I cannot help but to feel pain as I look at my brother.

I feel that it's about 3 weeks since our brother is changing, and it's so moving that every week, he's changing. And this is possible because all of the members and PL have loved him, I told him, 'You were normal before you were bullied.' I told him, 'Come here. There is no one like you. Look who you are. You had a psychological disorder, but can you do it?' And he said yes 3 times.

And I asked the members whenever they met him to please give him love and allowance money too. Then a lot of members hugged him, embraced him with love. That's how he truly changed. applause. Love can heal anything.

True Father said... On July 6th, Monday, he sang the Fight Song of the Will and called Aboji and Omoni, and he moved my heart when he shouted so loudly. And I said, 'Wow, he's getting better and better. And every day I spoke to his father about the differences. Here is him shouting... applause

A lot of members shared love, and we gave him ansu. One day, his father said that his medicine was not arriving, and I told him, 'Why don't you go to the hospital to Dr. Ikubah?' He hesitated because the medicine was just making him lie down. And I spoke to the doctor to prescribe for him. The doctor said he could give him a month's worth of medicine, so that he could move around the next day.

I'm so grateful to have the hospital nearby to turn to. And he used to have a hunched back, but now that is

better. When I look at his father, I hope all fathers are like him. He is a pastor but he is humble. It's so great to see him and feel his love. The family is the most important school of love in life. This becomes the cornerstone that builds the child's character.

I had a lot of consultation, and when you look at the situation in many families, there are more and more coming with the severe problems, but I hope that the parents have the earnest heart to save and protect their children, and then the children can be transformed. So, I hope the parents will bring their children to CP and have hope for them.

I was grateful to reach 300 churches to tour. Grace at Cheonon Grand Church. The Center Director's words wer full of grace and I could clearly know that SW exists. After ansu, there was amazing change. (Even young people having neck and back pain)

testimony: so impressed, and I received grace comfort and hope, that the wife must move forward, and you taught us the practical method. It was a very meaningful time.

---

inspired to remove many more central spirits... TY, I will work hard. I love you. (The husband collapsed first and again and the last time, he couldn't stand up again, and our sister working hard for our church also to save her husband.

through HJ Offering Paper with an earnest heart for the first time, and things making my wife struggle were disappearing, and I was able to proceed with ancestor liberation. All is in proportion to the devotion I offered at Cheon Shim Won... As our brother did liberation, he could restore relation with his father (and I hope you don't drop this, but remember, not like he said to listen with one ear in and out the other. This missionary offered the earnest prayer so that we don't forget what we learned from the Workshop) I would like to guide and introduce others to this kind of Workshop.

testimony: Growth is about devotion life. I could feel Heaven working in our lives today. I sympathized with the message that SW and PW must achieve balance and the life of true faith with Heavenly Parent and True Parents.

Pastor I Chong Che... When we arrive, we usually go straight to the meeting place, but he brought us to dinner and introduced all the members, and I hope others do like that... and that his church grows even more.

Kim Chi Man Pastor seems old, but he said he was the Jacob child, and his parents already joined to the church and his brothers and sisters were 2nd gen. And his parents asked him to work as a pastor. And he feels he has offered filial piety back to his parent. We were able to have a time of devotion.

one sister having dialysis for 11 years, now comfortable to offer bows. just looking at her, she looks like in pain. Her arms were swollen with a lot of bruising. I hope she stays healthy.

another... after devotion and repentance saying, 'Mother, Mother, Mother, I'm sorry' I felt that Mother had to endure the pain from coming this far. As she received ansu, she thought about True Mother and that she did not raise her children well, but also received grace.

another... every time I went to my parents home, I felt a deep sorrow in the background and I pounded my chest and a very sorrowful heart came up, (while giving her ansu, 'HMH, TY' 'I am sorry. I am sorry. ' and when I said HMH, something arose within me, and a lot of sorrow in my parents home came out this time. I will work hard to resolve all the problems at home, TY (She attended 40 days many times and her son is in such pain, and she shed a lot of tears. I hope this sister will be able to smile brightly... applause)

another... while repenting for all the ways we have been unfilial, whether we knew it or not, I truly hope we can attend True Parents more in the future, and I am truly grateful... (I hope for the Sogu Church)

Sadaemon Church... It is where my hometown is. They will be working diligently facing hardship. It has a deep history with a lot of older members there and sacrificing themselves.

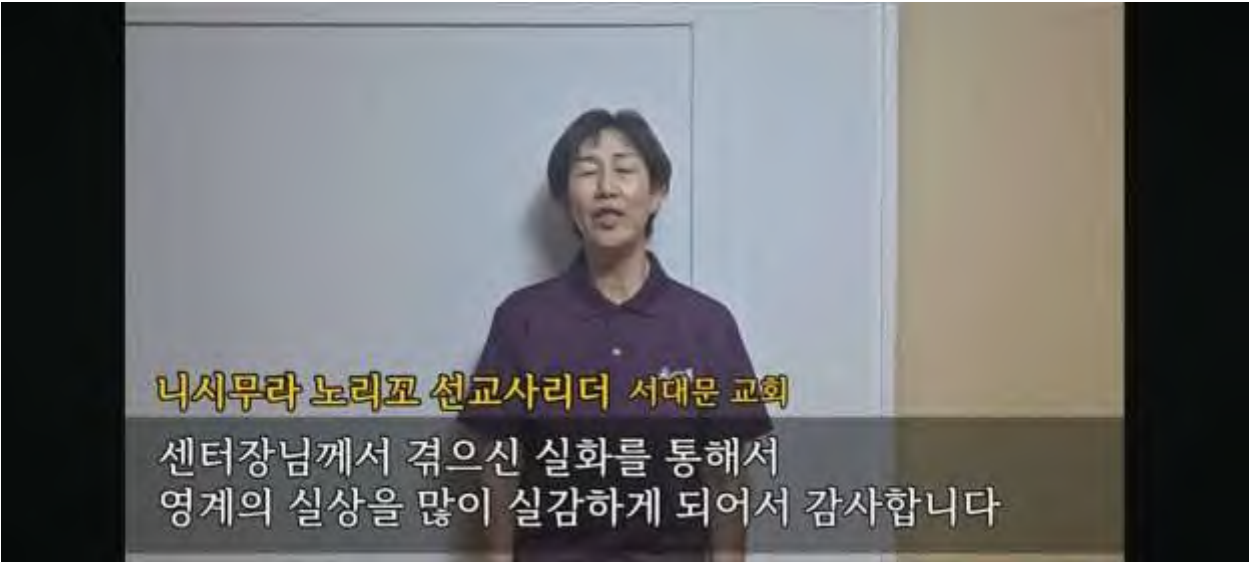

In the corner of my heart, I thought, 'How can such things exist.' I thought when I was having a hard time, there was no one around me, but when I realized the ancestors are always around me trying to help, I was shedding grateful tears. (In order for our ancestors to be with us, we must call them down, and then they will come and cooperate with us. So, please call them.)

Ty for making us realize the reality of the SW through the stories the Center Director shared. I will do my

best going forward. TY, Mother. I love You.

True Parents, when they Blessed us internationally, a lot of people shed tears, 'Why did I get someone who is so difficult to cope with?' (And I often think that, if we didn't have the Japanese missionaries in America, how would we be, and grateful for what True Father did for us...)

another...I am grateful for this opportunity

and the one about to retire (I hope that the members become one and love the pastor. They moved around a lot of times and suffered in their mind and body, but because of the pastors and public leaders, the churches are standing, so I hope you love your pastors and leaders more... applause of encouragement.

Even Mother is going the path of the cross, because we have Cheon Shim Won, I am so grateful and let us give applause and gratitude for our PL.

Pres. Lee Gi-seong Message at the 1,600th Cheon Shim Won

The fact that this day has arrived is because of True Father who works at Cheon Shim Won and in the subjective SW along with HyoJN, HeungJN, DMN and all the AGSs.

Reaching this 1,600th Cheon Shim Won, we can see results, following True Mother's Words, that devotion must bring results. I'm grateful that today over 66,000 people are connected and this vigil is taking place at the Main Hall of Cheon Shim Won Palace and the small hall of the main building.

And Cheon Shim Won is filled to capacity. Today, H Europe and Middle East and Russia 68 members and West Africa 40-day centering on Cameroon, 56 and also they have the mind/body unity Workshop... And H USA, Taiwan and Mozambique and various other nations are here, and thank you for your sincere devotion and I want to thank you Inheritors and 4PF True Father here with us...

Pastor So Jon U, Che Gyu Chu... and Chairman of KCLC and National Chairman and other members of the international community. I'm grateful, and I have truly felt the leadership of Heavenly Parent and True Parents of HEH and at the TC of Mother's Womb, amazing works of resurrection and eternal life, continue with the Cheon Shim Won bringing more and more people to the TC.

1,737th Workshop is on the way with 2,912... We have weekend, general 40-day and for the pregnancy, and Workshop for the Academy for 6 months and fishing and mind and body and True Father Happiness Workshop and even Epic History Workshop and 40-day for restoration of Gapyeong and others. Please know that all of this is proceeding because of the work of miracles.

the commemorative video today was an amazing work of grace and the poetry recitation and the song, 'When I Bloom Alone' will the meadow change. Perhaps some think, 'What would change whether I do or do not participate?' But everyone blooms just like a single drop joins to be an ocean...

We heard the congratulatory message on behalf of the World Mission HQ, the Director having a severe cold... and he sent someone else. Let's pray for their fulfillment.

The wife of the minister of the fishing Workshop was barely able to speak. While singing the boat song, Father worked. Chairman of KCLC gave us moving words. I met him at Cheon Shim Won, and Mother gave the shocking message to call Her 'Mother', but I believe that he is the precious person who can call

Her 'Mother' as his own Mother. She tapped his knee and said 'Aju' and I believe he can be an antagonist of miracles in the future.

We saw the brother speak in Korean for an hour and a half, and demonstrating how Mother allows spirits to walk through the path of Her Womb. No on can be born without a Mother, and only through Her we can be reborn as the children of the True Parent. We swore today that no one should perish and how precious HMH is.

I believe that from now on, when all transcend their boundaries, all can run toward a unified world under one b and s to move the world. That is what I believe, and to fulfill that change of the world and the future, our trainees sang a song of spreading their wings and taking flight. Aju.

The religious people are truly precious and I believe that the Heavenly Parent listens especially to these people. Prophet Rabebe shouted so loudly. 'If you want to contribute to True Mother's situation, you must be on fire. You must be strong and give strength to True Mother. Mother will surely come out. She will come out soon, and then great things will happen (in 2025) and if every church burns with prayer a great work will be accomplished.

The Bishop Rosario offered 21-days devotion with his parishioners, and on the final day of a 21-day devotion, and one of the members wrote a song,

Oh 'HMH', today we offer devotion for You. Help us rise above the fierce storm and struggles, and shine brilliantly reflecting the Lord's Life, and with the world watching we offer our earnest prayers. Oh HMH, be healthy forever. In the embrace of our members, You shall find a place to stay.

The very next day, the prayer was answered by an extension of the suspended detention, for recovery treatment in the hospital.

When our Chairman So Jin U and other members prayer for HMH, at the holy ground of Mt. Baektu, they heard the news of the suspension of detention that day, and shared 'Monsei!!' inside their bus. The prayers of righteous people have great strength. Aju?

Although it is said that the FF of H Japan has been dissolved, we are by no means dissolved. We are more

united than ever. The word 'dissolution' can mean to scatter, but it also means to give birth to a precious child, to give birth to loyal sons and daughter, filial sons and daughters.

I believe that all of our church members in H Japan have now become loyal, filial sons and daughters. I believe they are fulfilling Mother's Words. Mother said, 'Have strength. Heaven is clearly alive and is working even now. If you look with the eyes of faith, Heaven is by no means silent. It is visible when you open your eyes to see with the eyes of faith. Heavenly Parent's Dream will surely be realized.

I believe that in any situation we must not be discouraged and must move forward believing in Heavenly Parent. Heavenly Parent always knows our prayers and devotion and also knows all the tears we shed and the hardship we endure.

Heavenly Parent has always begun a new Providence from the position of suffering. We know that difficulties we are realizing now are also within the process of realizing Heaven's Will.' Mother gave us these Words, and to fulfill them, H Japanese members have been here with tears for 3 full days, and many were reluctant to leave and stayed to attend this 1,600th devotion.

The reason we have no choice but to continue working is that Heavenly Parent is working. Heavenly Parent is by no means silent. Heavenly Parent's Dream will surely be realized, and Heavenly Parent knows everything I am doing and is encouraging me. And it is because our eyes of faith are gradually being opened.

Before Easter, Christians spent 40 days in lent, meditating, praying and offering devotion while thinking of Jesus' Suffering. Today, we are in the week of suffering for HMH. During this period, as we suffer for the 385th day, if we all move forward with the heart of suffering together, Heaven will surely bring about an amazing work for you.

We have sung the Holy Song #21 many times: 'How could I leave the cross of nails to others. Struggling and struggling, I will walk until the very end. What can I do offering this body before the Will. There's nothing to fear on this path, where I have staked my life. Aju.

Parents have endured and come to fulfill that Will. If sons and daughters come together, it will be done. Even if the toil has not yet been fulfilled like a mountain, we will empty it, and we will attain eternal

Blessing, not Blessing just for a moment, but eternal.

In honor of the 1,600th Cheon Shim Won devotion, Heavenly Shin Dong mo missionary asked AI: 'What is the meaning of 1,600th prayer session? The AI gave an incredibly moving answer:

First, the completion of Providential numbers and the Completion of the Providence of Restoration.

In the FF #'s are not simple counters, but signify spiritual foundations and conditions of indemnity. In Providential history 40 is an absolute number for the separation from Satan and a new beginning.

1,600 devotion means that the devotion has been layered and become completed in a 3-dimensional way, realizing the complete condition of indemnity that breaks down all blocking walls between the SW and the earth.

It signified that the Providence of Restoration in 400 years in human history has been converted into substantial numbers through days of devotion and offered before Heaven.

Second, the total union and resonance of True Father and True Mother is Spirit and Body. Cheon Shim Won is the Center where True Father in the SW resides 365 days a year to perform His duties, and it is a Place for the 4PF communicating with True Mother on earth. This is devotion that has continued for 1,600 sessions, and means that a spiritual environment of spiritual union and resonance has been completely settled and members on earth and in the absolute good SW become one to work miracles. Through this a spiritual highway has been opened and receives the full cooperation of the SW to accelerate the settlement of restoration providence on earth for H unified Korea and H unified world.

Third, the reproduction of the Holy Spirit Work and the restoration quality of the early church see H unification. Cheon Shim Won devotion is the substantial Place of realization of the work of the Holy Spirit in the Upper Room of Mark after Jesus' Resurrection and the work of the HS during the early days of Pyeongyang and Cheompa dong.

The power of the strength of the 1,600th Session means that it has completed its role as a spiritual power planted where members around the world break through the limits of their personal faith, and directly experience the power of true love, true gratitude and true Holy Spirit.

Fourth, the spiritual shield for the final separation of Satan and Settlement of Cheon Il Guk. Amidst the chaos of the international situation and the Providence of this period, the vigil devotion of over 1,600th Sessions has become a spiritual shield that blocks Satan's final struggle. It is the decisive devotion that supports True Mother's Providential Steps and suspends the substantial environment sphere for the Settlement of Cheon Il Guk on earth.

In summary, 1,600th Cheon Shim Won Vigil Devotion is not merely an accumulation of time but can be called the Proclamation of the Supreme Peak of Spiritual Victory, offered without interruption to complete numerical conditions of indemnity and perfect the resonance sphere of mind and body to lead the Providence on earth to victory.

---

The AI is truly excellence, the Providence being answer even with AI. And if we are one with Heavenly Parent and True Parents, the SW will truly work amazing things through us. Thinking that the Heaven realm on earth and in Heaven fulfills the purpose of all religions and has arrived, I pray that you all become people who can mobilize along with the victory of 1,600th Cheon Shim Won devotion. TY

Calling out / Fight Song / Chanting

---

Prayer and Praise

We most want to become one with HMM True Mother, as our central axis with new sentiment AFAL and AO, Satan can never separate us, even if some force is holding onto True Mother's Physical Body, us as one body with HMM, the Will shall surely be accomplished. We believe we will be a unification family of responsibility to expand the environmental sphere of Heaven, becoming a person in charge.

Beloved Heavenly Parent, please give your works abundantly to all b and s to know, 'I am the representative of Heavenly Parent and True Parents and of Blessed lineage and true children who harbor the hope of HMM. Please love freely and show us that You are working to love us abundantly. We who live and attend Heavenly Parent and long for True Father in Heaven and True Mother Who worries about us first are one family. We Who long for this night offer our gratitude, realizing that the culture of heart is being offered for us, and we offer our gratitude... praying for the health and swift return of HMM...
