Bow and Pledge #7

Opening Prayer of Gratitude

Honorable Heavenly Parent

Beloved True Parents of HEH

On this day which is so precious, with the court hearing for Mother just one day away, your children have gathered with our desperate resolve, wanting this time of our devotion to be for Mother's acquittal and release. I earnestly desire that we experience You completely with us, with a pure heart and determination to bring joy to and comfort Heaven.

The early church which Mother so desperately longed for, is now growing here... Now that we have reached the 40 # of separation from Satan, we pray this cosmic number can be on the cosmic Altar. No matter how fallen natures want to cling to us, even if we have to crawl on our bellies and others call us fools, we believe the dawn of Heaven realm is brightening.

What is there to fear if a group of 60,000 gather completely one with life-and-death resolve, what is to fear, and what can block our way. We devote to drive away all dark spirits and protect our Mother above all else and that True Father cannot help but work. So, please let us welcome this time experiencing You,

Yu Su Hun

PL: Until the day that children realize that Her Love is always with them... The day after my mission in Russia, I saw True Mother and Her love embraced me and I determined to follow this path until the end. One day, when I fell to the floor because of my illness, The Mother Who had been calling me through every dream was True Mother Herself, and by the time the Workshop ended, the illness had disappeared.

Ten thousand times for one person. Mother on the kitchen floor:

My mother slept on the kitchen floor every night until my wandering older sister returned, even though she had to go to work the next day.

I listened to my sister's story for 6 hours every day and before I knew it, my prayers had surpassed had surpassed 10,000. That day, before the one-heart resonance prayer, I saw a vision of True Mother putting a baby in Her arms. That baby was my sister.

When a degree of jeongseong is fulfilled, miracles happen. The winter before my senior year of high school, my mother said, 'Cheonyang, I think you need to prepare your heart. It was stage 3 breast cancer.' (Him desperately crying at the window).

One night when I was offering 120 bows at Cheon Shim Won, I had a clear Voice in my dream, 'Do not worry about your mother. She will surely recover.' 40 days after offering CY while clapping until my hands were bloody, the cancer was no longer visible in the test results.' Forever, we are in the Parent's Embrace.

How much have the missionaries who came to Korea been able to walk the path of the Will until now? They said that they had to leave and they were endlessly sorry, weeping and praying to return again. Now, I know that other name for that love which waited for us until the end. I hope you meet that embrace at this Cheon Shim Won vigil devotion. The Name 'Mother' does not give up on us until the very end.

HJ Report

Director Song I Chul

World Tongil Mu Do

(He bows)

I am Song I Chul, who hearing the voice of True Father went to the Seoul DC to be the Guardian of the Cheonon Complex and of True Mother, True Father saying, 'You need to go right now.'

The HJ testimony I am reporting is regarding the 2nd Workshop June 22 to July 4th... with much grace

First, True Parents's Words: It is my time to make arts and sports one, dance and singing and exercise should be one. I am planning to make marshal arts part of life.'

True Mother's Words: If we have a lot of good people, we will become one, and for that purpose we need to hope for and make revolution through culture and arts and make one world through that. And True Parents have offered so much love and dedication for the Tongil Mu do... True Mother! We love You.

The process of Il Won do and Tong il Do are the unprecedented marshal arts of True Parents. The photo is the victory celebration of Seongon Gung where we presented True Parents with the highest rank and this is presenters.

We gathering the jeongseong of practitioners and members around the world present as national marshal arts for the realization of world peace and the founding of True Parents.

copies of the text book receiving the direct signature of True Mother so beautiful in the photo. And here is the Workshop, which has many moving and inspiring moments, especially when we were introduced to Taiwan and pioneering in Panama. There were a lot of Kungfu leaders that joined, and centering on Tongil mudo, the world championship will be this year in Panama.

During Workshop, video of Yu Won Chi trainee

Everyone really thank you so much and b and s who welcomed me from Taiwan. We were having the conversation to share our hearts like the culture of Heaven, and we will make a dojo when I go back and become even more advanced in the future.

During this period, there's a story about Tanjinori and even her husband did not participate due to an injury, she brought him to the hospital. But while receiving tests, there was an abnormality in her husband's kidney and could overcome with early treatment. Then our trainees offered for him one-heart resonance prayer and the surgery went well, and he is recovering. We're so grateful... one of the miracles. She is currently here and texted me good news.

video of one-heart resonance prayer...

There was a special event in front of the Tree of Love, with members of the H Japan and others for about 1 and 1/2 hours, and leaders and members in Japan a lot of them receiving so much suffering, and we could see their postures were not good, so trainers came to fix their body posture...

video

We completed the 40-day victoriously and the Il Won Do Special Workshop with gratitude to PL and all staff for help and consideration. I hope these Workshop can contribute to the founding of Cheon Il Guk and joy to Heavenly Parent and True Parents.

2026 Il Won do schedule Sept 7th to the 20th

Sun Moon University: training to be of help in all the churches, every Friday 1pm to 4pm

Taiwan miracle... joint Workshop Korea and Taiwan Sept 17 to 18th --- 153 will be participating

Tong il mu do This year starting in spring, even though there's none attending in Korea, five of them outside the country are learning, and this year new students are joining. Next year, I truly hope you can join. I want to deeply educate them as leaders. That is my promise to you.

This Nov. a Peace Cup centering Panama and America and more than 20 countries around the world

In Kenya, we are doing an annual international event and preparing this Dec. for it.

Conclusion: First through this training, all members body/mind unity to live a healthy life and the marshal arts will train to perform the role of guardians to Cheongwon Complex, so that it will not be infiltrated.

To complete True Parents's Will, for the unification of N and S Korea and for increasing progress, we will fulfill True Parents's Words and complete Cheon Il Guk and unified Korea and unified world, and do our best to be guardians and I ask for your support.

'Heaven's OBD'

Chon U Chul

Ocean Yeosu Grand Church Leader

I feel this is the place where Heavenly Parent is presiding together with us and in truth, I don't have the substance to give a HJ Report, so I was hesitant, but PL asked me to give a report on the Workshop

devotion, so I'm grateful to be allowed to be here, and I pray for True Mother's swift return, and grateful for PL and everyone.

Yeongseong 40-day and fishing WSs:

I have 3 daughters and today the 2nd daughter told me not to go over the time, so I'm so concerned about it, but...

Contents:

Introduction to the Ocean Grand Church and the Yeongseong 40-day Workshop

The Ocean, the future of humankind and the vision of the Ocean Providence, the Workshop, and HJ Korea Ocean Challenge

I was praying to receive something from visions or dreams and did not, but while preparing for this, the word that constantly came to my heart was the words of the calligraphy (Cheonshim ilche) from True Parents's meaning is becoming one body with Cheonshim.

We have the original heart. We also have the fallen mind. But with developing the original heart, we will be able to resonate with Cheonshim, and we, through thinking cheonshim and talking cheonshim, practicing cheonshim, we will be able to be in the position.

So, it is really important for us to live a life becoming one with cheonshim. And I felt I need to have this with a humble heart, and genuinely, not faking it

The Yeosu Grand Church is in the center of the Yeosu City, and is approximately 1,900 meters squared, one basement level and five floors above the ground. And the 4th floor we have a place for 210 people. Especially, True Mother really supported buying this and came here and Blessed this church with the message that it would be a place to raise the people of Yeosu.

testimony: (I believe the future is with our 2nd and 3rd gen, that we need to cultivate well, give support to

be able to find their faith with their own identity as 2nd gen, for a hopeful future)

Starting from 2023 to 2026, we are trying to support them, and substantially through this Workshop, they developed their faith and several resolved for public mission... the top gun graduates (12 of them) 12 university students and 6 students photos... They have the same goal and it's fun for them to volunteer and do activities. They do everything with such joy, so this Workshop is surely a good thing, even without any education from the church. A lot of our youth are becoming leaders of the church activities.

I would like to give a report on the ocean challenge, with our youth volunteering as staff and for fishing devotion, not because someone told them but independently taking ownership. They are moving the church...

testimony: opportunity to live proudly as a child of True Mother and be a 2nd gen not ashamed before others. He is the youth pastor.

testimony: the main service an inspiration for many... leaders and ocean leaders began to ignite the fire in earnest of everyone

One youth member entered and another transferred to Sun Moon University. Because of the elder brothers and sisters being changed, the younger ones want to go.

This one completely changed from being unactive and realizing the value of building an ideal family. 13 received Blessing in 2025... 2024 5 were Blessed... this year 4 received... And this year 2nd gens, afterward the sounds of babies in the church.

Everyone seems to be having a daughter. Daughters are the best. In the ocean Yeosu, we will cultivate daughters as leaders in the future, and especially True Parents have come and told us that the future is in the ocean and inherited all of the vision of the Ocean Providence...

That Vision, True Parents led because They knew the future relies on the ocean...

God said, 'I have created the sea. Who will love the sea. Those will dominate the sea. We know how much True Parents's loved the ocean and telling us we need to love the ocean. We know that True Parents

go to the ocean even when it is high tide, and told us and 2nd and 3rd gen to be pioneers of the ocean Providence.

True Parents's Words: Do you know why I am interested in the sea? It is because the key to opening the path of peace for humankind in the future lies there.

The Purpose:

Solving the future food crisis of humankind. As True Parents of humanity, Their Perspective is that no one should starve to death. Without pioneering in the ocean, there might be future accusation because True Parents, They made the foundation that must include the ocean where there are so many resources.

Ocean dominion is world dominion. A peaceful hobby shared with Asia, all the leisure activities, that is the hobby life based on the original mind.

The 3 hobbies: 1. fishing 2. hunting 3. art So, True Parents have said, 'If they don't know how to fish, don't treat them as people.' So, we need to know how to fish. Through fishing we need to develop our original mind. Also, hunting and art have the sense of following our original heart.

True Parents truly loved Yeosu and opened the Era of the Pacific Civilization; and the Japanese missionaries to Yeosu and the 68th 40-day Workshop, and 7,000 participated. True Parents also in S American, Alaska and America, led the international Providence, also at Yeosu and Yeonchun... one of the points to open the Pacific Era Civilization.

You need to come to Yeosu and see the Cheon Shim Won there, and if you repent there, you will be able to receive forgiveness. You need to go there before going to the spirit world. It is a position where whatever sin we have, it can be washed away.

The spirit of Alaska. After dawn, if they did not catch the goal, they could not go back.

I researched the ocean spirit, the spirit of the Indians, and where we have a time period to fulfill the responsibility. That is the spirit. So, we do our best to inherit that spirit of True Parents. True Parents's told us that fishing is a time to offer devotion. Please support members to fish more and build their

courage and challenging spirit, one with Heart of True Parents and challenge the future... applause

When we go out to sea, we are fishing for the world, doing an annual fishing event. Showing 56 fish, we first offer to True Parents and not a single fish was left out, but we gave it to True Mother and She said 'It's okay. You can just offer a few'

I had a time to eat with True Mother, and True Mother said She knew how to eat yashimi, and I'm so grateful for Her, and I truly hope She can gain strength and come back to us.

True Father said in 2006 when He came to Yeosu, giving a lot of Words, He said we need to have a Yeonyu Bridge, where you bridge island with island. I thought, 'How is that possible?' But when I went there, it was constructed already, completed in 2020, and I felt True Parents's Words being fulfilled.

True Parents's had the 23 hours and 30 minutes Hoon Dok Hae, but listening to us, True Parents came 4 or 5am, and already gave a lot of messages before the official Hoon Dok Hae time, and They said, 'Do True Parents live the happiest Lives? Through our leisure activities and also living a life of:

co-existence

co-prosperity

universally-shared values

Then we can become fulfilling Blessed families

Ocean Spirit:

The fundamental foundation of the FF of Ocean Spirit becomes the foundation for the Creation... to fulfill the hope and wishes of True Parents. Not to return without achieving the goal is the traditional ocean spirit.

We would like to sing the 'Song of the Boat' that True Parents really loved... The life of all of the fishermen's life is there. Also, you'll be able to inherit the weary and sorrowful lives of True Parents of BS

and Ts... all of those things are inherited inside this song. When you sing it really fast, it could be energetic, but when you sing it slowly, it could be a really sorrowful song.

Harboring a longing for True Father in the SW and praying for our True Mother, let's sing this boat song with families from the Yeosu Ocean Grand Church.

1st and 2nd Fishing Devotion:

In Yeosu we had the message that we needed to do a fishing event. And we had the Peace Cup and several fishing events, and then our members developed this fishing Workshop, and PL told us it would be better if it was a fishing devotion Workshop and told us to put 'HJ', and we are seeing this fishing Providence, we needed to do the HJ Ocean Fishing Devotion Workshop.

We did the 1st and 8 participated, 2 from Ocean Church and 4 from Qwonjon Church and 2 from Salsujon Church...

It's really different offering fishing from ocean and from river fishing, but if you try it, it's not difficult. So, someone will bring fishing rods as we all prepared. This is my fishing rod, on the deck of the boat

So, this is a hopeful fishing rig method. You might think it's very complicated, but those who already tried can know it's really easy.

video

and awarding ceremony... You always have a goal in fishing, and we were diligent to achieve it... The total catch was 44 and the biggest was 43cm

It's important to fish a lot but also be united, even if the members just met... with calling out prayer and devotion so that fishing is really completing your half of the Will...

Sun Moon University professors came to Yeosu... They were writing True Parents's Theology Cheonbumo Ron, and there was a time that they could fish in the morning and we could do the 2nd fishing devotion Workshop. And all the professors, the fishing rod here, with the large bait... Here is the

video

We were able to catch 83cm and centering on the #16, we resolved for that and we actually caught 16 fish (not 44) and could make a victory for the 1,600 devotion and a 43cm Bass, which signifies True Mother's Birth Date and we did a release ceremony back into the Pacific Ocean (It is bigger than it looks in the picture)

So I went to Homan Island for the victory of the 1,000 vigil devotion, and I felt we needed to catch a big fish, so we also went to Komando? and caught a big fish... Komando Fishing Jeongseong video

testimony: During the Workshop he caught this big fish...

With the heart of a spiritual battle, she was fishing. True Parents's gave so many Words about the ocean...

Ocean Challenge to Train Body and Mind through the Ocean... We did several activities for 5 days... This year it will be 4 days of sports, fishing, barbeque, a really fun time for the 2nd gen to build their challenging spirit and become the pioneers to cultivate themselves as future leaders.

This is year we have the applications for receiving education and several different fun activities. (apply through the code, accept only 20 people and 2/3 is already full) The purpose is to discover through the ocean, life in the Heaven realm on earth and developing leadership through the ocean, and realization of True Parents's Words of the ocean, cultivating 2nd and 3rd gen.

On the last day, all the trainees will go to the ocean water park (on August 3rd)... a beautiful water part where you feel you are on top of the ocean.

In our Ocean Yeosu Grand Church, we truly want to unite with Cheonshim Won, and those offering vigil in the Cheon Shim Won, fulfilling the Words of True Mother to go in Spirit and Truth, let us liberate True Mother and True Father in the SW.

Break

Busking

Hoon Dok Hae

I possess a background you cannot even imagine. True Parents's long ago revealed the structure and reality of the SW and dedicated Their entire Lives to the liberation of the SW. In particularly in the SW, it led to the cosmic Providence for the unification and salvation of both the earthly and spirit worlds, including receiving God's Seal through a 43-day struggle.

You can never deny that there is an eternal world, that there is a spirit world. This is because, with just a little effort, you can experience it. It means that with just a little effort, it's not difficult to experience. Those who have been in the Unification Church for a long time will have experienced this before joining the Unification Church. If they had not, who would believe in the Unification Church, which others oppose and persecute. It is from a background you cannot even imagine.

It means I hold the content of world history. I have even entered and experienced the original world, and no matter how much anyone tries to say there is no God and no SW, there is an unlimited amount of Causal proof material that cannot be refused. Material did not come from the connections within the living sphere where you have habitually lived until now. It came from a most desperate position, from a position of weeping until one's eyes were swollen shut. It came from beneath devotion of kneeling, prostrating on the ground and pleading for several days.

You must pray every day. You must also offer a tithe of your day, of your prayer life. You must pray for 2 hours and 24 minutes every day, which is

how I prayed, 17 or 18 hours, while kneeling. I would pray for 12 hours, not eating lunch. In doing so, I would wail. If you do not do that, you cannot survive. When you are completely blocked from all sides and there is no hole to escape through, you must pray to see the eye of a needle.

True Father and I will conclude God's Providential Word with One Heart and One Body, One Mindset

and One Harmony. In particular, True Father was 120% in agreement with intention to renew the Korean Church with Spirit and Truth. Today becomes the starting point of a new Providence, as this is the time when True Father is making a new start in the SW, and we too on earth must keep pace with True Father, offering glory before Heaven and give our all, steaking our lives for the Settlement of Cheon Il Guk.

'As The Sun Rises Again'

Pres. Lee Gi-seong's Message

1,604th Cheon Shim Won devotion 41,400 people are gathered

H Korea 600th... 777th vigil... (I had been with them since CY)... Russia 92.... all having surprising works of grace

Albania 37 and America and E African Mozambique 47... internationally connecting and so grateful

In front of DC 291st day of Mother's detention... among heavy rainfall their hearts even more desperate. Today, July 10, which is the final hearing, we are offering sincere devotion, True Mother Who has been enduring for so long and we hope and pray, holding onto to the 1,604th Cheon Shim Won, I hope we can be of courage to True Mother... applause

581 long-term... GPP 173 of them and spirituality Workshop who came up to the stage, they are truly shifting the atmosphere through this Cheon Shim Won devotion, precious people. so important for us to connect to this Cheon Shim Won Devotion.

1,600th vigil testimony: the prayer resonated deeply with us... Before the dissolution we couldn't pray with such loud voices, but we were able to use the churches where the members had gathered and the entire room was filled with life, and True Mother has given the Words that Heavenly Parent is surely Alive and Working at this time, and fulfilling the Will for Heavenly Parent's beloved children. I truly hope to make a church where future generations could come.

Through this Cheon Shim Won devotion, thinking about the environment and suffering of True Mother, I felt my suffering was so small, and I want to be able to testify to True Mother. When we connect to the vigil, we can receive such training to overcome any difficulty. When the morning dawns, it will be the final hearing where the prosecutors will give their verdict. The trainees are offering 24 hours of devotion, bowing and continuing their praying devotion. If we all join them, it is truly a time to do so.

True Mother is suffering, and when we receive the suffering together, we can deeply embody the Heart of True Mother, Who was also together with True Father in Danbury heartistically and HyoJN and HeungJN and DMN were together in heart, and how much did She offer devotion or True Father, and passing through this winter with the snowfall until 5am in the morning with the same suffering. If all of our leaders got investigated as well, walking the path, yesterday I also got investigated and from morning to 9am, my tears were falling automatically feeling how Heaven was loving and experiencing the love of everyone.

So, when we pray, those who are being investigated are being more suffering and among those is True Mother, walking this path, not the servant but the sons and daughters of our True Mother, to say that we should offer more, more desperate and sincere devotion where we receive resonance, and if not, we need to pray desperately to be so.

Christians look at the cross, if they had a heart being crucified like Jesus, they are looking to resurrection, or if not, there is no resurrection. So, let us go this path together. Whatever the judgment, we need to be unwavering in heart.

A pastor gave this message, at this time when we are going through such suffering, with a heart of love, b and s, love toward True Parents, today's suffering and pain is not the end, but a time when we will become even more strong and steadfast as a community, and all the tears and suffering of the member, Heavenly Parent will remember and there will be comfort.

I truly hope we can see the new revival like after a rainfall when the ground is more sturdy. Through the perspective of humans, it may seem that we can only stop, but from the Eyes of the Perspective of the Providence of True Parents, let us be soldiers of Cheon Il Guk, united. Elder pastor sent this message:

'Whatever the verdict, we should not be wavering or resent, but forgive, love and unite and pray. We truly believe that amazing things will happen then. We have seen that Mother does not give up. After going to the Russia mission, thinking about her mother selling?, our team leader Kim Song Oh, sang the song, 'Our Mother' (His mother went to the SW)

No comparison of any mother than HMH True Mother, and we need to offer our devotion. It was difficult, going off the hill of Cheon Shim Won, it took a long time to walk up, but to inherit the 1,095 days of True Mother's offering for True Father, she was in the position the hear the Voice of True Father an be scolded by True Father.

And today the Yeosu Grand Church gave such a report... and the I Won do Workshop. He is the one who offered such sincere devotion, after initially hearing Father saying, 'You need to go fast.' And we saw him holding hands with True Mother. Through that we need to know how much True Father dearly loves our True Mother.

If that love resides with you, we will be able to pray for our True Mother and all of the churches across the nation. Our trainees are offering bowing and praising devotions. If all the churches offered with that kind of heart, our community will become really a family community or b and s attending One Father and Mother Parent.

That needs to be fulfilled for us to become the hope of the world and attractive for all to line up to go. Also, the Ocean Grand Church offered Cheon Shim Won devotion every night, centering on the church leader... Those who are older went to the general 40-day and the younger ones went to the spirituality Workshop and will go to UPA changing their path of life and receive the Blessing.

You already saw how many... and there are so many babies that are the hope of our church. Today, He said he didn't receive a revelation, but there was a really good message to become one with Cheonshim.

The 2nd fishing fish was 83cm and the release of it is such a miraculous work of Heaven. We need to really think like that and realize it, to feel that Heavenly Parent is with us all the time, and all things and the law of nature is the Providence of Heavenly Parent, restoration and all that we are receiving is Providence, all the sufferings, if you realize that it is all for the Providence of Heavenly Parent.

You need to realize how the dark spirits enter you family and yourself... Our pastor offered such sincere devotion, and from now on when we do, we will receive the message and show how Heavenly Parent and True Parents are working, with the spirit of the early church like the embrace of a Mother.

Today 30 of them came to sing the boat song, and if they unite with the pastor, new history can unfold. How much must Parents have invested endlessly and that foundation is the Ocean Resort and Cheonwon Gung. You need to return 130% back. We shouldn't say that we are in such difficult situation. Those who receive love, we will have the heart to return the love back, that's how much True Parents love this Yeosu. All of the boats, how are they managed (I fear they are not managed well)

We must let True Father to come and be pleased. This now is the Yeosu Ocean HJ Church... Even in such rainfall they offered devotion. If we do that, amazing things can happen. It is the devotion Workshop. Through vigil devotion, you will go out 3am actually moving forward with absolute devotion and resonate with the heart of True Father and sing the boat song. I told the leader, listening to this hours and hours, you will resonate and your health will be better and you'll be able to see H working.

All the things that True Father has done, we need to move forward. True Mother has Promise to True Father, all of the things, we will fulfill it for You.

Who is the True Father and True Mother of you? 'I possess the background you cannot even imagine.' That is our True Parents, the King of kings. Let the power be shown on this earth or not, is whether that Power can be shown. Let us cast our the works of the Holy Spirit, and all of the things have Blessing for this to be connected to your local church and great works of revival will be given.

In 1907, that a revival spirit will reach Yeosu, and when we connect it and push from the Main Branch, the entire Korean Peninsula, we need to work so that it receives the works of the Holy Spirit and the Great Epic and the OBD, the Substantial HS, True Mother Who is running this, we need to become one. She shouldn't go with such suffering. With that holy resentment, let us pray so that these people are able to see

the works of Heaven and True Father, like True Father said to the Director, 'You need to go quickly.'

In the past someone gave the testimony, True Father said we could not stay still in this era if we resonate, one with True Mother's Heart, loyal, filial sons and daughters... I truly hope you will offer devotion resonant for that purpose.
