Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We remember the holy footsteps of Heaven of our True Parents Who Walked in the scorching sun and amidst fierce, pouring rain. The noble Sweat and Tears of True Parents upon the entire cosmos have become the one and only Vitality never extinguished in our hearts.

Please allow us to inherit the holy Will of Your Will and to become the children who can fathom even the abyss of Your Sorrowful Heart of True Mother, Who Alone Faces the storms, and advances for the sake

of salvation of humankind.

This evening, please allow our prayers to shout out before Heaven and be cannon fire to break down sinful barriers to the spiritual Heaven as a furnace of the Substantial Holy Spirit where we harmonize solely from True Parents.

Please let us become a spiritual wave that utterly dismantles the disbelief and conflict. Please work so that we can become a holy foundation upon which True Mother can swiftly obtain, safety, and exonerated release for return to Cheonjeong Gung. PWTU

Please may we be one heart and one mind, heart and harmony that restores the family and the nation and the world, allowing all fear, worry and spiritual darkness remaining in our hearts to be replaced with true love of Heaven for H unified K and world.

Ardently hoping and wishing for this to be a time of grace and our love and single-minded desire to resemble True Parents.

True Mother's Words

I have been waiting for you

... how I searched for you

During this 40-day, have you thought about how our Heavenly Parent must have felt, how much joy and gratitude!

Today, you are truly Blessed children, born as 2nd and 3rd gen through your parents, but your original in Heavenly Parent. You are born directly without any connection to the fall. Your Parents are True Parents's Themselves. I love the 1st, 2nd and 3rd gen eternally. True Mother calls you the direct children, but if you are direct children that remain still (what is that?).

You must become one with the SW and remove anything that hinders the completion of Cheon Il Guk. You already know what that means. Through your devotion at Cheon Shim Won, you open the way for the SW to work with you.

Pure water must flow toward a greater world, just as many drops form a river and flow into the vast sea, you must give everything until this world becomes one with True Parents.

You may be only one thousand now, but raise ten, even a hundred times more pure waters like yourselves. So, while HMM, Wang Omma, is still on earth, you can all gather together as beautiful and filial sons and daughters before Heavenly Parent.

That is what I long to see. Thank you. Seeing you face to face gives me strength...

My motivation was to understand True Mother's Heart. However, this did not stem from a heart of attending True Mother, but feeling I would lack to walk this path to the end and there were others who would need to participate through me.... so it was from a sense of duty, but much love from my family came to be, and I did not want it to go to waste, and the coordinators said to try to do more and I tried to do whatever I could, throwing myself into the CY and shouting until hoarse laying myself down with the question remaining how I could attend Heavenly Parent and True Parents as my Parents.

Then I received news that my grandmother suffered a fracture and my aunt had to undergo a difficult surgery. But the first who came to mind was my father who can only meet the family once in 3 years and could not be by his father's side when he passed, and I thought how much he would suffer without attending again those who might go to the SW, then I thought of how much we would regret not attending True Mother while She was on earth.

As I offered devotion in my own way, and then feeling I was growing a little, my younger sister said it didn't seem like I was receiving the Workshop and I was shocked by that. Then with reflection about how I must become more earnest, and I felt my ancestors were hitting me on the head saying, 'Wake up.' I discovered that I had shifted to want to take care of my body and my mind was exhausted. I again wanted to be able to face Heavenly Parent and True Parents True Mother.

Then I heard the question if any trainee wanted to undertake a week of silent, and I immediately responded. In that period I tried to ask Heavenly Parent how I could let go of myself. Especially when going to Cheon Shim Won, the same prayer, 'How can I believe?' In the midst of that, I came to feel how desperately Heavenly Parent felt, and frustrated because Heavenly Parent's Love is not reaching us.

Until now, I was afraid of truly believing and acknowledging the Love I received was from Heavenly Parent and True Parents and truly following this path, but I want to honor the love I received, and Heavenly Parent wishes for me to love those around me by being one with True Parents.

At first I had feelings of resentment wondering while I had to be the one responsibility for everything, and that I was not such a strong person and I wished that others would not have such high expectation on me, but I realize Heavenly Parent wanted most to have conversation with me, and for me to know the Heart of a Parent and be able to attend True Mother directly on earth.

Then my parents said they were coming in a hurry to see my grandmother and for the last chance to attend her on earth. Watching my parents come, I felt maybe Heavenly Parent had accepted to devotion I had made until now, but I should go further to attend Heavenly Parent through my thoughts and efforts. When I think there is no end to the path of becoming one with True Mother, I will remember the roots of the Love I received here and that truly I am a child of Heavenly Parent and True Parents.

2nd daughter... Yeongseong 40-day and then 9th Attendance Workshop presently.

Since becoming an adult and living at home, I resolved not to go to church unless living at my parent's house, but I could not let go of my faith, and my parents said it is my turn to go to Workshop after my sister.

My goal was to communicate with my father, who passed from cancer even though my mother and sister laid down everything to nurse him, and experiencing a world where he had not existed any more.

I spent time unable to handle myself, bursting into tears when I was alone, but my father did not appear once in my dream. So, as I share with my team members, I do it hoping that my family members would look toward True Mother, not for myself to meet my father.

I offered 40 days of HD devotion and said, 'Because of her age, you might take her, but please let me visit her again. I prayed with tears and received news that my grandmother's clouded mind had cleared up, and H showed me the first taste of devotion.

I wanted to understand the Heart of True Mother and even I did everything, I would barely shed a tear, and I agonized over what was wrong without finding a clear solution. Then I realized I had to first understand the heart of my own physical parents, and I thought of the memories of difficulty and happiness. Then I had some earnest tears but still difficult.

I had a prayer of resentment saying, 'Heavenly Parent, you have never stood in the position of a child. Do you know the heart of a child who lost their father?' I felt discomfort and remorse without knowing the reason. Then at my father's seonghwa, starting to realize how, after my father had been shedding quiet tears, how it was for him, and how difficult for the grandfather of my father?... and that might be the same as Heavenly Parent's Heart and came to realize if only a little the heart of Heaven.

Many trainees and members recommended that I go to another Workshop but I felt it was a waste to go back to the world without letting go of this heart of resentment... I earnestly asked to the sky, and a clearly reshaped cloud was floating there, and H gave me the direct revelation I was asking for, and the 9th Attendance I went to with fear of what would happen with me.

But I began offering devotion for True Mother's safety and well-being, but as time went by I lacked the ability to govern my emotions and fallen nature kept rising and how could I love those around me. I could not forgive myself. I wrote in my journal. What did you resolve in this state. Did you just stop. What will you do about your 5% responsibility. You always advance centering on goodness?

Although it was difficult, the words I heard during the intensive prayer, 'The Heart of a Parent can be understood only when you become a parent yourself' I realize my father went to SW without my being able to know his heart. There must be a child that can be brought back by such means of my father's death? Could my father have recovered? Is there ever any end to the sacrifice of a parent. I poured out my heart and was able to fathom my father's heart if only a little.

What does attendance mean to you? That question came and it is a Workshop to find the reason Heavenly

Parent called me. I think it is to fathom the heart of a parent by attending, and then responding to H's Call for that, whether hardship or sacrifice or heard through someone else, it is responding.

Daemonim's Message came to the Workshop: I hope you become children who understand the Heart of Heaven, fall down and get back up as much as you need to, so that with this you will learn the guidance of Heaven.

I feel anxious about my own incompleteness. And I am so afraid of failure. Nevertheless, what kind of sacrifices and devotions were made to bring me here. I will be the child who gets back up again to respond to H's Call.

To my parents and brother and sisters who guided me and to Heavenly Parent and True Parents Who gave me the most enlightenment, gratitude.

gratitude... Mayu Ko Ata... attending with my husband...

From a young age, I had a strong personality and would not do anything without finding meaning in it for

myself. From a young age, I questioned education in Japan and began my middle school by lying about my age.

I went home and committed many sins from the time of 15... I started to sell alcohol, and holding much money in my hands, my fallen nature accelerated even further.

Without knowing the meaning of absolute sex or the Blessing, I met my husband at 18 and married him at 20. We were blessed with 2 children, but married life was different than dating, with every day having difficulties, and I was constantly chased by the countless problems my husband incessantly created, and our relationship deteriorated as a couple.

By the 6th years of our marriage I had resentment toward my husband, and whenever we fought I would bring up the topic of divorce. If not for our two children, I would have divorced him long ago, and they grew up in such an environment and had emotional instability.

I learned that my husband was suffering from a disorder like early Alzheimer's even he was only 30, and also we were told he would die in about ten years.

Thinking that there would be a day he would not recognize me or our children and feeling responsibility for not properly having taken care of our family, I had many tears.

I told my husband that, even though we were starting from a state of hating each other, I wanted us to try our best to restore our relationship. After connecting with our parents, we were connected with the church. And while I was half doubting, I began to put into practice the things I learned through the Divine Principle, and with devotion every day while my husband traveled back and forth every day for the liberation of central spirits.

Through this, our relationship gradually recovered and I was convinced I was receiving the love of Heavenly Parent.

Then in January my husband attended the Yeongseong Workshop, and I too received much grace. Watching the changes in my husband after returning to Japan from the Workshop, I realized that I too, as a Blessed family, I too must have the same standard as my husband. I read the entire CheonSeong Gung

twice and like True Father Guided Himself and calling us, we attend the Workshop as a couple. hearty applause

However, there was the reality of our understanding being not deep enough at heart, and we offered devotion with life-or-death determination and practice. 43,000 bows, 430,000 calling out HMH prayer and 43 pages of CSG and 43 letters for True Mother's swift... while thinking of how F was standing every day... We invested all we had.

To experience the Heart of True Mother, we offered bows no matter our condition, and when I felt truly my limit, I thought of True Mother and I would pick myself up again. I began to long for True Mother making my chest ache and for True Father, and I began to have the most earnest heart praying for Mother's swift return.

On the other hand, many conflict at this Workshop which was different than the others and I felt the distance surrounding me. I had heard that this was the Workshop to lay ourselves down to be what True Mother was looking for and visiting True Father, but the difficulties every day kept coming.

Then on the 24th day of the Workshop I realized that even my wish for True Mother's return was really my own desire for myself. My prayer changed, 'Please use our devotion for H's Will however You desire.'

To lay myself down for the sake of H's Will needs to be without condition to be the form H can take. I learned that True Father's works had been taking place throughout the entire Workshop and my husband had begun to change as True Father desired.

On July 9th the Yeongseong and Attendance trainees became one, but many who learned the contents of True Mother's trial were discouraged. Then through PL's words, we re-determined... The moment I read True Mother's Words, I felt Her strong resolve and such strong emotions and tears came, and I could not sing the praise and just stood there. (tears)

'Why is H not working and why is the devotion we offered not being used?' But I realized also that it had to be truly offered and let go of and look to ourselves more for change and all the conditions that invited this circumstance of True Mother... The one that wants to help more than anyone else must be True Father, yet there must be a reason why He and also Heavenly Parent would not prevent this. This is to

save all of humankind even as True Mother wants, even if it means sacrificing Herself.

The moment I thought that I realized that it was different than how I had been thinking before. This is the Heart of Heavenly Parent and True Parents... F and M are the liberation army of God and True Mother on the frontline right now. We should be asking for Mother to be helped, needs to be us helping Her.

After the devotion, my husband and I shared our hearts and made a resolution. applause As a BF, we will become one with True Mother and be one with our tribe and after 7 years offer the restored nation to Mother with Her... We have not yet decided which nation or how to do it, but we know if we cooperate with the Will, H will cooperate and everything we need to fulfill is prepared (my husband and I believe and agreed)

I believe that if we continue, we will prevail. I am not even afraid of my husband's death, whatever path, we will walk it with gratitude and fight together with True Mother. big applause

Through this Yeongseong Workshop, we truly came to know the taste of devotion, which is a great grace for us, and I felt we are being educated so strictly by True Father because of His love for True Mother, and I am truly happy and grateful for all this grace.

The reason we were able to focus on the Workshop is tanks to my parents taking care of the children and also offering devotion every day for the sake of our children and our family...

Also, grateful for the support of the coordinators and colleagues who supported each other, holding each other up.

Letter to True Mother

Japanese translated

Dearest True Mother, since You departed this Cheonwon Complex, winter has passed, and spring, and it has already become summer. My name is Oh Ha Tako. And I met my 2nd gen wife, Myuko, in 2012 and received the Blessing for established couples in 2025

After True Father Ascended, Mother You have walked alone as if in a sandstorm, looking for the single needle and we who did not know, how much must we have pained Your Heart.

On July 10, the very day of the prosecution sentencing demand, we saw the trial and the situation reversed unturning all the unjust claims and we were confident that justice would prevail... However, in this trial, several who were testifying in our favor stood on the opposing side, so the shock of that was greater.

We realized that now we have come to live a life with Mother until the end, but it will be difficult to continue the business itself, if not only losing the trial. We felt that we were being tested to lay down everything and my wife and I answered without hesitation, and we decided to remain at the TC...

During the Workshop, my wife said she was 2nd gen but not pure, a clouded water, but she determined to return to Mother's Side with all her heart, and thinking that those entrusted with everything, how they were, the trial is not just a simple coincidence.

I feel is only a little, the Pain of Your Heart, and this 13 years is not a final verdict but we know what it symbolizes. It is a like a death sentence for True Mother. (tears)

I prayed, on March 4th, we lost H Japan as the Motherland, are we now to lose True Mother. How much deeper down the path must we go for Heaven to be realized? tears

However, as I read True Mother's Final Statement, 'I am deeply moved by your determination and resolve.' We have lived on Heavenly Parent and True Parents entire Lives, even such a person as me,

embraced by Your entire Love.

Within the Gift of Cheon Shim Won that You gave us, I was able to experienced True Father and Your infinite love. When I think True Father is even now desperately working in the SW and True Mother You are working absolutely, and we cannot go to the SW simply because we are a Blessed family but must go truly as your family.

We must advance more vigorously with You together, and You go this way because we had not become one with You, but from now we will bear witness to the whole world and fulfill Your Will together.

So, that on the day You return to SW, You will be able to say, 'We have achieved it together', and we will advance with the heart of devotion until the very end.

Even if it takes a long time, if every step we take becomes a cofort to You and fulfills Your wish and shortens the way our descendants must walk, we will continue.

Lastly, if I have one wish, it is to see You in Person, even just once. I too wish to hear the Word from You that I am Your direct child. To hear such Word from You, I will offer devotion every day and keep advancing... (He bows to the audience and to Heavenly Parent and True Parents)

HJ, Cheonyeong to complete Holy Ground of the Providential history... On July 12, 1971, at the Holy Grounds in Chong Pa dong seong, Father proclaimed completed Holy Ground of Providential history established...

This TC was a wooden slate building with a capacity for 200 people, and F visited daily despite harsh weather, to supervise the construction

The first gathering at the TC was the National Summer Retreat for Pastors, held for five days, with 28 pastors in attendance. When Father came and looked around determining that the location was good, I took My Place and began to offer prayers dedicating My Devotion throughout My entire Life.

Whatever the group, the best group is founded upon its devotion. Because of this, it feels like only yesterday that I would climb the peak of Udock Mountain alone to pray. Although it may seem that I am Someone Who has nothing, there is nothing that I have decided to do that I have not accomplished. Once I said I would achieve something, I would surely achieve it.

Christians pastors were scheduled to gather tomorrow. Even though it was pouring rain, I had to purchase the materials and get the work done. There were not even telephones, so someone had to go out in person to buy the materials. I had no choice but to take a boat out while being drenched in the pouring rain, looking like a Person fleeing, It was as if I was fleeing from being shot at by machine guns from behind. There were many such incidents.

The people working at CP had been digging in the ground for days now. Yet, they usually get only 4 to 5 hours of sleep. They were at the point of exhaustion. Yesterday, when I asked the injured to step forward, there were 8 out of 26 people. One third of them were injured. The land of CP must become the homeland of the world, the spiritual homeland for all of humankind. I have prayed for this to become a Holy Land, not only the Ideal fo Creation that Heavenly Parent can revere, and for Heaven and earth to connect, but also a land that can serve as the Hometown of the world.

We have reached the point where this can begin in earnest. This Place serves as a TC and Educational Site where we can renew traditions based on the cultures of each nation and teach how to establish a relationship with Heaven.

The Land I prayed for as a Place of preparation has now become a historical Place just as it was. I viewed the fact that the Unification Church possesses this global foundation as a result of the marvelous victory.

Pres. Lee Gi-seong's Message

1,606th Cheon Shim Won devotion passed 1,600th vigil... today about 41,400 gathered...

172 to the TC... About 3,050 families are gathering in Korea... 14,600 places in H Japan?

40-day Workshop held in Albania... at the same time in H Europe and Middle East, two Workshop.

Philippines 7-day Workshop... Mozambique 24... H USA they are gathering every day and gratitude...

In Korea small church 300th vigil... so that the work can be visible that Heavenly Parent presides over...

the voices are loud and faces clean like someone who took a shower. Many WSs going on... HJ Report will be Wednesday... We can make your sons and daughters children of Heaven. Jesus was crucified and to find another filial child, Heavenly Parent carried the Providence. As we give birth to children, the greatest Blessing is to raise them as H's sons and daughters.

When you ascend to SW, the only thing you can take is love and the only way to connect with heart, are the filial sons and daughters, that is what Heavenly Parent has taught us. We can be the wealthiest in SW and put ourselves into action daily for that.

Tomorrow 3-day resonance Workshop beginning... They offered prayer and devotion to go over the #400... And I believe the opening will be like the closing ceremony where people are passionate and where it's like taking a spiritual shower. Such abundant grace and Blessing bestowed.

So, this 3-day Japanese prayer Workshop, every day, I hope all of you can feel through your physical and spiritual body how Heaven is working.

Today, True Mother's Words, offering the report, True Mother hadn't planned to meet for personal report, and True Mother shed tears hearing it, and She said, 'Do you know who those small needles are?' Please make people like you My direct children, 1st, 2nd and 3rd gen... 'You who were born without original sin.' Going to the position of direct children is not easy. We were living as Satan's child who cannot help but to work as satanic spirits even after they die.

Such human beings who follow H's Guidance, through the servant of servants and like adopted children, going beyond that, when human beings finally reach the position of child of True Parents, and we must reflect where ur hearts are.

Am I servant of servant, servant, adopted child? Have I become someone who can resonate with True Parents's Heart, which means, 'Have I become the position of child?' You should be able to check that. The words that I have, the feeling that I have, is that from satanic, angelic thought? You must reflect and separate yourself from that. And centering on Heavenly Parent and True Parents, you must ascend from servant of servant all the way to the direct child.

You should be able to accept True Parents and feel Heavenly Parent and True Parents as your own Parents more than your own physical parents. That is our homework throughout our life of faith. So, today, Korean Workshop trainees sang the song, 'Finally', and all of you should be able to say, 'Finally, I can feel Heavenly Parent working, finally I can feel Them as my own.' All of you need to be able to say like that.

Testimony: Not wanting to let the love and devotion of her family go to waste, she did her best... but then when she heard that it didn't seem she was receiving the Workshop, and with enlightenment from more other trainees, she could change the level of her faith and devotion.

Last year her mother said, 'You sister went last time, and now it is your turn to go to Workshop.' It might have become like some kind of nagging from her mother, but with all the mother's devotion that her daughter would listen to her words.

Suddenly her father ascended and then to communicate to her father, she resolved to go to the Workshop. And her mother gave devotion and this sister for her grandmother to remain alive until she could meet her one more time, and she was able to feel how the parent felt for the grandparent.

She resolved to join the Heongseong Academy, and such amazing signs of Heaven, showing a ring-like cloud, and she could receive that as a meaning. In CP, there are many times when the clouds look very mysterious. I took many photos. The fish-like cloud that maybe a member would think they could catch a big fish. So, you should be able to see Heavenly Parent working through all the nature...

Our sister's moving testimony... She is the 2nd gen member wife of Takako, and both gave such moving testimony... She disguised her age and worked in the secular world and she met the brother and married at 20 and as she gave birth starting family life, I'm sure it took a long time for her to come back home. She spent painful years and her husband had to endure a lot with the disease of the early Alzheimer's and she thought, 'If my husband leaves, he won't be able to see them marry and what should I do?'

She half doubted but learned the Divine Principle and they were given the Blessing like of a 2nd chance... There were many 2nd gen who received the Blessing without doing much or knowing the meaning. But this couple received the Blessing and came back to CP every night and then their children started to find smiles and laughter. And our brother shared such a moving testimony last time.

Especially because he has a handsome beard, I'm such many of you remember him. And his wife said she must stand at the same level as her husband and read the CSG twice all the way through. They offered many conditions, investing their time and body and all things with absolute resolve. I never heard of people with such resolve.

When people are asked to pay for Mother's lawyer fees, there are many who didn't send or didn't send much. The Heart that True Mother felt after True Father Ascended to SW, with that Heart, she could resonate and miss True Mother, and feel True Father much closer than her own father, and she received a great realization.

Our True Father would want to offer devotion more for True Mother, and she received grace through that. And our brother offered 24-hour devotion and they may have felt that their devotion would be enough, and asked why isn't Heavenly Parent working that still there should be such a idea that True Mother be sentenced to 13 years.

Our Heavenly Parent and True Parents are the army for liberation for all hummanity, and let us fight and become one and move forward, especially in the face of this suggested death sentence of True Mother.

For the next 7 years, they are resolved to restore a nation with absolute belief and through the message to her husband that all has already been prepared.

Our brother offered 24-hour devotion and came here with his wife and set a foundation of devotion so fierce, and even you lived life of faith a long time, judge and gossip about this couple. I hope you fiercely offer prayer and devotion to move Heaven and receive such messages from Heaven yourself.

Heaven was moved by Abraham's devotion saying, 'You finally are able to attend Heaven.' And we should become children who can listen to True Father's Words. Their resolution was so great and she said, 'I do not fear the death of my husband, but would be grateful to offer that path to Heaven.' And she said she is truly happy.

So, even if you committed sin in the past, don't keep remembering. What were the Words True Mother gave us, 'Forgive, love and unite.' and you must forgive yourself with those Words of True Mother.

But as we look at others, we always have the heart where we cannot forgive others. Jesus said, 'You must forgive, you must love and unite.' Jesus gave us the Words to love your enemy.

Who had the greatest sin? It was Peter who denied Jesus 3 times. And Peter said, 'I denied the Lord, and when Jesus was offering tears of blood and sweat, I slept. I wasn't able to be with Him. He said I would deny Him 3 times before the cock crowed...

The greater the sin, the greater the grace you receive. The one who wrote the song, Amazing grace, was the captain who sold the slaves, but after the storm and so many died, he wrote the song and as he sang that, he allowed a lot of people to receive grace from Heaven. Going beyond Old and New Testament Age, also in this CTA, this song we still sing.

The greater the sin, the greater also the repentance you must offer. True Parents, when They had a big event, They just forgave us. Whatever sin, we should write it down, and some even wore clothing that represents that they were the CheonBo family and go into the historical Cheonwon Gung Sanctum of Providence, receiving such Wine and Ceremony, burning away all our sins and liberating the sin spirits...

That is the last painting at the Cheonwon Gung Cheonil Sanctum. So, do not hold onto your sins, but go into the best Place by receiving the most grace. And these two are the couple that shows that standard setting. And do not worry about the dissolution of the church in Japan. We have children and people resonating with Heavenly Parent's Heart, and living that way, you will see what happens.

Yesterday, July 12th is the day True Parents's established the TC, opening it, and 365 days a year, They set such amazing foundation. That is why True Mother said, 'Come and look what I have done.' And coming here, Heaven can show the clear path.

I remember True Father Saying what would happen at CWG and holding a baby, and through that dream my entire body was healed. There was a moment when I wanted the great lecturers to come but nobody came. But I had a Dream telling me that I would be offering Words to more than 10,000 people. And now, every day I am doing that. That is why you must experience spiritual things personally.

Our brother received True Father's Message: 'Mother is Walking the Path of the Will with all Her Resolution. Even is Heavenly Parent loses the OBD, Heavenly Parent will use that devotion in order to save the entire humanity. That is what True Mother Wants also. Even if Providential forces are a critical moment, Your True Mother is the One Who will be Walking as the True Mother Who only Wants to relieve all the Sorrow, Suffering, Han that our BF's have (that our Heavenly Parent has).

So, the closer you are to the perfection, the greater the satanic trial will be, and the greater the trial, the more you must love each other. You are the direct children of Heavenly Parent and True Parents. Your devotion will not fade. That's why you must continuously walk forward. I am with you.' (end of True Father's Message that our brother received and shared with me.)

I hope you experience the Living Heavenly Parent, the Living True Father Who is working and experience the fact that True Mother is the Substantial Holy Spirit, the Substantial Being of Heavenly Mother and True Mother has the Power to move the entire cosmos. She has the power of the universe. And if you offer prayer with all your hands up high, I'm certain this night will become the night of Blessing. Aju.

On behalf of all the ancestors and central figures of the Providence, let us raise our hands...

... Today we engrave the Words of Mother's Final Statement to the court... I have dedicated My entire Life to attending Heaven, and for the realization of world peace and one family. I do not strive for money or power.'

As True Mother, Who never Lived for Herself Her entire Life, but dedicated everything solely for Heavenly Parent's Dream and the salvation of humankind, testified of Heaven to the very end in the courtroom, She worried and cared for the future of humankind more than Her own Suffering.

True Mother has dedicated Her entire Life solely for the sake of world peace. Please Work so that the politicians and religious leaders of this nation will swiftly realize these intentions of True Mother.

Now, before questioning whose fault it is, please work so that we ourselves will become meters and members who will wail and repent as sinners who could not protect True Mother. Please work through us.

Most Beloved Heavenly Parent, as we have offered over 1,600 Cheon Shim Won devotions, please burn away all the disbelief, arrogance, resentments, flaws and blemishes yet in us, with the Sacred Flame of Cheon Shim Won. Since you Blessed us Saying that the Cheon Shim Won has the Master Key if we pray if like in a war, we will put practice and total investment and please work through us.

Please work so that the institutions of this nation will have the wisdom of Solomon to judge between falsehood and truth. Please work. Dearest HMH, True Mother, we are truly sorry. We are truly, truly sorry. Because we lacked strength, we have left You to bear this alone. Please protect True Mother and send Her forth, with injustice resolved. Please wipe away the Tears of True Mother. Please work so that the crisis and trials of Unification Family today will become the Blessing of tomorrow and open up the world of peace. Please work through us.

We will never forget True Mother's Tears and Her Final Statement. And until our lives end, we will offer devotion as if a life-or-death war. So, True Mother, please be liberated and released swiftly. Earnestly praying for True Mother's longevity and health...
