Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Deep in this night, thinking of True Mother, we offer our gratitude for the peace and love that has led us to participate in this vigil devotion with a heart of filial piety and of hyojeong.

With the victorious Entry into the Cheonil Sanctum in 2025, True Parents have opened an amazing Era of

Direct Governance by Heaven. However, how many children have possessed the Heavenly Heart of Cheonshim that Heaven can govern? How many children have truly become one with True Mother?

We cannot help but confess the past days when we failed to fully resonate with True Father's Heart through Cheon Shim Won. True Mother Who bears the shortcomings of Your children in their stead and Walks the arduous Path of Tears and Blood, You proclaimed the unstoppable Era without Falsehood and of the true night and the true day time.

You started the Cheon Shim Won Providence, telling us to work like a war and pray like a war. We know that in the early days, because we advanced through Spirit and Truth, miraculous works of witnessing bloomed. The Church could experience amazing revival. That is why You urged that all BFs and all Churches must become one with Cheon Shim Won and advance in Spirit and Truth.

Cheon Shim Won is the Office where Father Works, and we must be able to converse with True Father at Cheon Shim Won 24 hours a day 360 days a year. Even when I go to the SW, Cheon Shim Won is the Central HQ where I will Work freely and ostensibly together with Father. If you pray and give devotion together at Cheon Shim Won, there is nothing you cannot achieve.

Offer earnest devotion at Cheon Shim Won so that Father can Work. Cheon Shim Won is the final gift and hope that I can give you. You must drive the Cheon Shim Won devotion even more strongly. You have urged us to offer Cheon Shim Won devotion so earnestly. There is no more that can be said to emphasize it.

Beloved True Parents and True Mother, You tell us that if we offer devotion, we must show the results. Vividly, through Hyo Jeong testimony and Hyo Jeong reports, the results of our devotion are gradually becoming visible. 2nd and 3rd generation youth who had turned away, are being born as true water, and the number that are resonating with True Mother's Heart is increasing.

Our grateful True Parents, I earnestly hope and desire that this hour today may be the precious time to show how much we love True Mother through our Cheon Shim Won devotion, demonstrating that love and filial heart. We earnestly hope that all this devotion may be dedicated for True Mother's Longevity and Health... and for Your swift exoneration and release...

Celebrating the 72nd Anniversary of the Association

1954... at this time of opening a new history together with true love, we offer gratitude and glory to the True Parents of HEH, Who have achieved a history of victory upon a Course of BS and Ts.

We will always experience the love of Heavenly Parent and we too will become children of filial heart and hyojeong, who offer everything in gratitude and fulfill the Will of HPs.

Through the 3-day Workshop, 5,000 from H Japan were reborn through the Bosom of True Mother and H Heart, the Cheonshim. Centering all the vigil devotions, they are learning how to pray in resonance with Heaven and strengthening the roots of their faith through Hyo Jeong Testimonies and resonance Hoon Dok Hae.

The schedule was a time to solidify our resolution to fulfill True Mother's Words and pray as if at war. With the Cheon Shim Won resonance prayer held twice a month at the Cheonseong Wangi Palace... waves of purple heart... and as the powerful prayers become a window of hope for Heavenly Parent and True Parents to lead H Japan to victory.

In the Education Building B, a total of 235 attendees for the Korea 3-day Workshop. PL encouraged them

forward through gratitude and hope in the Cheon Shim Won resonance prayer

... And testimonies of going beyond concept to be recognized before Heaven, praying for others and living for the sake of others. I want to contribute...

With longing for True Mother, all global members become one and gather our devotion. To inherit from True Parents, we must offer devotion at every moment of the Providence, and show external and internal Heart of True Mother and True Father.

Through the fishing Providence and Workshop, they invest their heart at the tips of their fishing rods and think of True Father Who loved True Mother more than anyone else. We pursue this so that many more members can more deeply experience the Heart and Love of True Parents.

Consecration Ceremony of the newly-dedicated Pier, where all can encounter the heart also of HyoJN, at Hyojin jong, which renovation includes this pier.

Beloved Heavenly Parent and True Parents of HEH, this is the Place among the entire Korean Peninsula that Heaven has found. With our devotion and our own flesh and bones, You have prepared this Place and the entire CP Complex. We need to conduct the WSs to fulfill True Mother's Words. This is where HyoJN had made music all night, and earnestly offered all kinds of devotion.

This is where the boats can come, and we are so happy to be able to offer this Place, where True Mother came, this amazing Place, bestowing the Name Hyojinjon. Please dispatch the angels to protect this Place and this Park without any difficulties, and we truly hope You will Bless it to fulfill Your Dream.

A cultural and artistic experience and traditions of Cheon Il Guk, establishing itself as a precious educational site, as we become children of filial heart and who repay the grace we receive, unchanging for the sake of Heavenly Parent's Dream.

40-day Workshop

Gratitude

eldest daughter of 1 son and 2 daughters

I attended church after my faithful mother, but I faced various realistic difficulties and burn out, fading my earnest heart of before. Then hearing of True Mother's Detention and the dissolution order, and a single phrase, 'Will we just stand by and watch?' I felt that if I didn't go to the Yeongseong Workshop, I would regret it for the rest of my life.

But I could not reach Heaven with my prayers, as if an invisible wall, even though those around me were praying so earnestly. When I laid those feelings bare one by one before Heavenly Parent, I felt so grateful (instead of jealous) that I had comrades like that.

There was a message to pray earnestly for others and the first that came to mind was my father, who had not attended church and raised me strictly as the eldest daughter. I could not easily approach him and the distance grew. For several years, I could not even talk to him, and with great difficulty I sent several messages with no reply.

I tried to feel my father through the gaze of Heavenly Parent. When I earnestly prayed like that, tears burst forth. And I felt asked, 'Did you truly love your father. Did you truly try to love him from the depth of your heart, making that effort?' And I felt I had not and repented. Then I sent a message saying I wanted to approach him but could not due to my fallen nature.

I did not expect a reply, but he sent back a small emoji, and I felt it was the most joyful and precious reply. Also during this Workshop period, my younger sibling gathered strength and carried out the liberation of ancestors. After that my father even attended a Cheon Shim Won vigil in our region and listened to the testimonies together. The one behind the scenes for this was none other than my mother, who bridged the gap between me and my father.

It was all a matter of my not understanding my parents' love and their circumstance that could not be fully understood or explained. I wondered what kind of heart and path she walked until now. How many years had True Mother endured patiently before She could proclaim that She was the OBD.

Above all, because True Mother is a Mother, She had circumstance and feelings She could not express until the very end. This time of devotion is what I cannot ever forget. I suddenly recalled seeing where Jesus shed Sweat and Blood praying in the Garden of Gethsemane and that image overlapping. The disciples could not become one until the end, but we as children of True Parents, we must become one with True Mother until the end.

I earnestly shouted Aboji and Omoni, after losing my voice, and thinking it would be okay, I could feel such warm embrace of Mother. There were times in the past I felt hurt in various ways in the Church and felt H was not answering my prayers and had resentments and complaints, but that was simply what I had failed to realize myself. And the enemy was myself.

I want to lay myself down and be one with Heavenly Parent and True Parents. There many others who had felt like me, hurt in various ways, and I want to reach them to return as a tribal messiah. I was also reminded of how I was a missionary in the past with a pure heart and could hear the voice of True Father, 'You must go out a And engraving those Words in my heart, I resolved to go out for the sake of the world.' Engraving those Words I want to be advancing to be one with True Mother and fulfill the Dream of Heavenly Parent and True Parents.

2nd son of seven children

I am a 3rd gen and grew up in the daily routines of my father, who was a pastor, but I didn't pay attention to the meaning, just like an oppression to stay away from dating and cigarettes.

As if pushed by my parents, I came to Workshop without knowing what I wanted to gain here. The coordinator said I had come to this Place by the Will of Heavenly Parent, but I still didn't know what that meant and my energy just kept dropping. It was burdensome to pray in front of others, but how happy my parents would be to see me working hard here, and that became the driving force to do my best.

Then realizations came through the lectures, starting from the 2nd week. The greatest achievement True Parents have accomplished is me, I heard, and I wonder how that could be. Then my mother said that the best thing she ever did was giving birth to me. Only then did I truly feel that the best for the parent to achieve is their children.

For the first time I felt proud to be a Blessed family and I felt grateful. While in the calling out prayer, the answer I found matched the precious day's lecture. All the Hoon Dok Hae and prayers my father had me do when young had planted the way for me to find out on my own, building me up without me knowing it.

Then while singing, 'I will love at the risk of my life together', I thought of my parents who gave their lives for all seven of us, and what had I done to respond to that love. I shed tears from an overwhelming sense of regret. Since that day, looking back, actually my relation with my mother was very bad, even we reconciled quite a while ago.

One time seeing my mother exhausted and sleeping in the living room, I realized that I was wrong if I hurt my mother, it was wrong, no matter how it seemed, but if it brought her happiness, it was right. But still I was always awkward with my father. Only now, I realize how my father raised me was consistent

with the Principle as the absolute Center, not contradicting his faith. Otherwise, I would not be here today. But my father never wavered even once, so I must acknowledge that the life he walked was true.

In particular, my father maintains his faith no matter what others do. Others left, but not my father of absolute faith. That faith was what made my life happy, my parents AFL and O. For the first time, I feel sincere gratitude for True Parents Who opened the way of those Teachings.

I feel so sorry that I did not know and was not grateful. Now I know why I am here, to experience the love of my parents and no longer be only a recipient, but now a subject in my own direct sphere of dominion, to give love to my parents. I want to proclaim that my parents' path was victorious, never wrong. I know now that this was the greatest Blessing that Heavenly Parent gave me is these parents. It is called shimjeong. I will be a child who proves that I inherited that love by putting it into practice in my own life. TY

(Pecious Elder) Kim Sang Sok

Special Itinerant

Greetings and gratitude

Hoon Dok Hae - To be reborn you must love Jesus more than anyone else. Unless you center on God and

love Him more than any love established in the shadow of Satan's (false) love, thereby surpassing the love of the satanic world, there is no way to connect with God.

This is the path of suffering, and the difficult Path that religious people must walk. For 2,000 years, Christians have been crying out, 'Oh Lord and cry until their eyes grow dim and their longing for Jesus.

When you enter a state where your heart is bursting and very bones are collapsing in a state where you do not know whether you are inside or outside of your body, where only God and Jesus can exist, only then does the Holy Spirit descend with the story of the Holy Birth from which you can be regenerated, only then does this take place.

another True Parents's Words: The Way to make the world one is to teach the Essence. In other words, let them know God, let them know what God's Wish and Dream has been. This is because, since the Owner of the world is the Creator, God, there is no solution without knowing God. However, the only Person Who can let them know that is True Parents. However, if you do not know the Words of True Parents, you cannot become one.

You must become one with True Parents Who have achieved Victory as Human Beings, Who have Manifested the Reality of Heavenly Parent. When you are reborn through True Parents, you can advance before Heavenly Parent. Humankind must know the Existence of Heavenly Parent and know what Heavenly Parent's Dream was.

Therefore, by believing in, attending and following the victorious True Parents, you stand in the position of true children who can advance before God."

The 6th Central Revival Tour was centered upon the South District, 100 churches so far. From this week, I'll begin my 7th tour. This Report will be centering on the 11 Churches in Seoul South District.

Members and pastors' idea of CP has changed drastically, and many are offering devotions centering on the CheonBo Providence. A lot of members offered devotions for and participated in this CheonBo Event,

and have an interest to raise members up from kindergarten. (Kongnam Grand Church power and energy of possibilities and hope. The pastor giving lectures and programs for new guests. And this Elder Mun dong Mun, 89 years old, but his eyes are really alive, even after such a long time member you can feel his passion)

One made a model of attending True Parents and True Parents encouraged them... The Branch President of Africa gave a report. After hearing the report of a deaconess for an elder's birthday, funds were sent for Africa from them. And there was a lot of interest. And the elders who recognized me, it was joyful meeting them.

The church deaconess was very grateful to attend with her son, and remember the difficult Path of True Parents and the senior members who were so obedient and one with heart with True Parents. The conviction that this is the true Truth became deeper, and seeing the youth show that now is the time to fulfill our responsibilities, and I want to be the BF that fulfills until the end. TY

Kongsu Church, we saw the wife of the pastor, and she was someone I knew. When she was dispatched in her field, I knew her since then. One of our Japanese missionaries came to me and told me they are the spiritual daughter of my wife. It was a time when I met children lost in touch with...

True Father's Words: For us, we are the fruit of our ancestors, the most recent fruit. But when we reflect how many ancestors are connected to us, countless. We don't know what kind of sins they did, but one thing we know is that there are ancestors who have no place to go except by our devotion, they can be liberated. People still do not completely understand about ancestor liberation, but True Parents know. There is no one who knows better about the Essence of God and Jesus. True Parents have given us this message, and we are able to see the system set up.

How could we see those things. True Parents are the ones who could organize the SW. It is part of our life. We need to go together with the SW. The greatest spiritual works are being done in this CP. People go to Shamans, but when we meet them, could they the ability to revive and make the works that our spirit self can be reborn and grow? No.

Only True Parents, through the works of the SW, could absolute growth and liberation be done

True Mother's Words: Many have found liberation and hope through the liberation of central resentment spirits. You must govern the SW. Only then will spirits receive the education and becoming good spirits, leading to the Heaven Realm on earth and in Heaven.

True Father's Words: When you go to the place where all the people who murdered are gathering, because they were murdered, spirits seek out the murderer's descendants and cause accidents and all sorts of hurtful things. To resolve this, you must first resolve it in the earthly world.

The Wanak Church deaconess, Ata Satomi, recently suffered from loud ringing sound in her ears. The ansu felt like several people were striking me, but with amazing lightening effect. Heavenly Parent and True Parents TY and I love You.

When we see these things, we can begin to realize that the spiritual works of healing are happening without our knowing. We know that through just our own hands, we cannot do anything. However, God has given us the hands that God can work through. And if we really do the ansu and praise and CY earnestly, our spiritual temperature will go up and all healing works are possible.

This is President Ki Su Yon... True Parents's having Bodies physical like us have such exhaustion at times, with moments when They wanted to give up, but They did not stop. I realized I need to do more devotions to support Them filially and also Shin chul and Shin heung Inheritors of Heaven's Love and Blessing. We need to experience giving Them praise for the grace without having to go to the Main HQ.

This was a precious time of gathering where the conditions could be laid for my child to be born and raise them with love and devotion to continue the work of Heaven.

Wanak Church is very big and they did a renovation. The pastor was emphasizing youth ministry and programs. There were several places for the youth, and 40 of them participate in the SS. It was such a great atmosphere as not in the other Churches. The meal was really good, with the kitchen well renovated. This is a special treat that they have this meal every week. I was granted permission to go there whenever I wanted.

We were able to have this grace-filled event, H sending these missionaries to light up our deficiencies, and the Words of True Parents created true love like a fire, and we could feel able to bring True Mother Love and comfort.

Che Ju Won is with there... The performance team in one church made several performance teams who performed in this event. A lot of members after the event asked me for more messages and we gathered after the meal to give more messages, and it was really a time when I myself received grace.

testimony: realizing about my ancestors more, that they are with me and that it is the duty of a child still alive on earth to be one with True Mother and pray for the longevity and health of True Mother... TYSM

The youth leading were like professionals... When we went to the church site, youth were volunteers making such a great atmosphere... (the short video really feels energizing)

Elder Mun Han Wun... I was grateful to my son and daughter-in-law who rented a vehicle for us to attend. Every part of the event was gracious. Heavenly Parent and True Parents bestow such great love on everything, if we are willing to participate... Soon pain turned into warmth and go better. Also, I had come with bodily exhaustion but was so refreshed.

testimony: pain and heavy pressure on my back, applied for liberation and reached the 13 number. 'Receive education and let's become one and advance for the sake of the will.' The praise brought tears to my eyes by the special grace and the spirits who experienced True Parents's Love. It cannot be spoken in words... grateful

testimony... I had become dull the love and grace and the liberation of spirits brought me awake and so grateful

We renewed ourselves and re-lit the lamp of hyojeong...

This church has been missionaries underground for twenty years in China, and even I also was a missionary in the past, I felt a same heart, and he has such a heart towards witnessing. He opened a witnessing center, where he would try to witness to Christians, inviting pastors and 8 of them are

receiving such education. And in the future he wants to educate many with such sincerity in his eyes, and I felt such hope that great witnessing will happen there.

Church leader, so happy to welcome this event... lighting up the church with the Cheon Shim Won of the HQ and Heavenly Parent and True Parents Love and grace to empower of fulfilling personal responsibilities. With the determination that, 'If I die, I will die.' TY for the conviction and hope re-awakened that if H is with us, we will surely prevail. Applause

Now, is difficult. There are places that are depressed, but how much do we truly understand the value and essence of our True Parents. When this media does this kind of broadcasting, but they do not know. But some members are wavering. So, we really need to know or even we do know and are wavering, how much will others be hurt from finding out.

I was working for the Providence in South America, and our 2nd and 3rd gen don't really know anything about the Providence, and elders have heard but still have many questions. This Jardim Providence and the Proclamation in San Palo officially in 1943 started, and they were already planning on the Providence in S America, and for several years True Parents did BS and Ts for this... 7 years of His 93 years invested in S America. For what Purpose? We need at least know Their Devotion. It is the root Holy Ground in the Pantanal.

Starting in 1995 at the base in Jardim, True Parents started and in 1998 we did this... and I was in the boat and True Parents were there but no house, no land, and we went to the mayor and borrowed a house to live with 8 of our staff, ten in total stayed there, and so many inconvenient things. There were only 2 rooms, but we cleaned up the Place... only one restroom and such constant stress in this Pantanal.

This is the final Place of the history of indemnity... the Place like the Original Garden of Eden that has not fallen and by unifying the North and South American Continents, the Cain and Abel spheres must be victorious on this foundation, the Pacific Realm Providence must be completed in Korea where the Catholic and Protestant can be one.

Through that ground, we have Alaska and the Ocean Providence. Also in S America Pantanal, True Parents Invested for 3 years in Pantanal and fulfilled that, opening the Providence of the Pacific Realm in Korea and we established the Original Holy Ground and Foundational? Holy Ground and Victory Holy

Ground.

And True Parents would wake up in the morning... and do exercise with 5 or 6 people... (When I was in Korea, there was this exercise that we'd do... True Father, when He was in prison did this exercise to take care of His Health, and to really survive in this prison situation. And True Father would pick up His leg and put it over His head. That was during the age of His late 70s. I was so surprised. I was 35 years old at that time, and I couldn't put my leg over my head, but I realized that these things didn't just happen over night.

But True Parents, if you follow Them, that is the prison exercise of the True Parents to really survive. And when we were living together in that house in that village of about a thousand people population, the residence was next to others that could be really dangerous. So, we made a look out.

True Parents turn off the status? when They sleep, but when They wake up They only slept for 3 hours. True Parents, They Live Together and They Wake Up Together. After about a week, my entire energy was depleted, but True Parents were still so active in Their activities. It is my confession that I'm so embarrassed to say. It was so difficult on Their Bodies, in True Father's 70s and True Mother in Her 50s. I was 34 years old, but I could not really follow Their Spirit.

Sometimes it looked like True Parents were dozing, but we do not know if They were dozing or not, but we could hear Their snoring. Even though we're standing still, you could hear such great waves of the ocean. And I thought of how Jesus slept amidst such waves of storm. That is what I felt about the Life of True Parents.

True Parents, one day, after the America Event Rally, came back at 5pm, told us, 'Let's offer our special devotion, and go to Navi lice. Together with our True Parents, ten of us, we all went there and made a circle offering our prayers. How many of the mosquitoes... so many of the mosquitoes were attacking us. True Parents had short sleeves, and we were so concerned.

I was next to True Father and True Mother was next to True Father, and we had the circle, but I couldn't pray with my eyes closed because I was so concerned. I knew how strong the swarm of mosquitoes were. They did not even flinch, even though an entire swarm was on Their arm. They continued praying. I thought maybe, because They are True Parents, God would make these mosquitos less irritating. But I

saw the Bodies of True Parents swollen. And at that time They were scratching. Why is it so itchy.

And I could see the fluids dripping, because the house was so poisonous... the toxins were so excruciating... But it is Their Life... During the fishing devotion at 6am going and coming back at 6pm. Sometimes They would go out with one rice ball, calling the national messiahs to catch 40 of each types of fish, with the #40 symbolizing indemnity and preparation for new beginning and completion.

True Parents called the national messiahs to really walk this path of indemnity together with True Parents. True Parents have said that this Pantanal is the final Place of indemnity. They explained that the #40 symbolized the indemnity and preparation and new beginning... and completion. It symbolizes the condition of indemnity for the lost Garden of Eden and to bring Satan to submission as we as well have the meaning of spiritually victorious.

True Parents called the national messiahs to walk together with True Parents this Path. The life in Pantanal is really the life of indemnity. Even in your sleep, all of the activities of the day are a Course of Indemnity. Not a single time was there complaint in the Path True Parents Walked. All of the elders, Rev. Kim Wom Pil, all of the Elders of 36 Couples lived the same life.

I remember those. True Father has said, '36 Couples, you need to forget that your 36 Couples. Everyone here is the same here.' So, the activities there, the life there is so difficult. Seeing their life close to True Parents, and our elder members with the heart and spirit of pioneering their heart and faith, I was able to witness that.

And we are catching the 4 types of fish, the kapo, kapoki, durado duradi(?)... The golden durago is really big with golden yellow, and the surabi is a meter long, and we have this cart, that's how big this fish was... After catching this fish, True Father and True Mother caught these fish... And we are also doing the fishing devotion here... And there is a philosophy of True Parents with fishing. True Parents thought that this fishing is as if They were absolutely sincere, the heart goes up and down if you catch one or not. If you catch a fish, you are so happy. But if you don't catch it, our heart goes down.

So how?... Why were True Parents so sincere in catching this fish. True Parents connected it to the Providence, whenever They were catching a fish... to Kim Il Sung, to George Bush...and to all of the things They were doing, They connected it to the Holy Providence. When They caught fish by the

national messiahs, the Japanese national messiahs came. And the elder members of Japan, after the fishing devotion, gave a message in Japanese.

I was there in that Place, giving the Japanese sermon... They said, 'Let's go.' And all of them were lining up with all their packets. For us, we would be preparing for tomorrow, but they would be prepared within an hour.

And they went to Leda. This is the Leda Farm. We bought 80,000 hectares from this man, and the Japanese national messiahs practiced the mission given by True Parents. This is the picture we took. I also participated here, as you can see on the top left, in front of True Parents, the young person sitting in front of True Father is me.

There was nothing there. And the Japanese national messiahs built a tent there and were sleeping there. That's how they started. There were so many wildlife there, and ants and snakes. It was so difficult and dangerous. All of them clutched inside their sleeping bags to survive that. That is how they pioneered this foundation.

This is the current residence of True Parents in Leda Farm. How magnificent... even we don't have a path except the river to go there. And we are able to see this beautiful TC on this foundation of indemnity.

We have the fishing event there, and True Parents told us to make a baku fish farm, and thousands will be returned to the river. True Parents are really interested in preserving the environment that otherwise will be trashed there. This Paraguay is a really long river. The water there is contaminated that we drank, that True Parents also drank. It's unbelievable to think of it right now. The most contaminated water except the rain water, and they saved it in a water tank and gave it to us.

For them it is the most uncontaminated water. I was so thirsty and the villagers gave me the river water and I thought, 'How could I possibly drink this, but how not to. So, I drank it and didn't have any issues. But all of the pigs and animals were in the river with the same water swimming. That 300 meters and depth 30 meters deep and several wildlife living there and so many crocodiles living there, and how many fluids from this wildlife would be there.

Our national messiahs made filtration system for thousands of tons and all of the villagers were lining up

for this clean water that they really wanted. We had been able to liberate the villagers there. These were the things True Parents were able to do. All of these activities of peace is consistently done only for True Parents. Only by the Heart of True Parents could this be done, during Their entire Life for us, for me.

If we understand deeply the things, the Path, how could we possible doubt Them, even the media is saying what they want, we need to testify to True Parents, all of the things the True Parents have done that the world could not do, confessing all of Themselves. Because we did not proudly proclaim it to the world, that is why the world doesn't know and difficult things happen more.

True Parents Said: With all things of Heaven and earth, focusing on establishing the Original World without sin, I declare before God the completion and fulfillment of the Providence and the final victory.

We are now facing the 1,607th Cheon Shim Won vigil devotion. When we see like the verse, 'Where two or three are gathered in My Name', in this time, Heaven will be with us...
